Subscriptions for \$3,000,000,000 of the bonds are invited, the right being reserved to allot additional bonds up to the full amount of any oversubscription.

NO MORE WHEAT FLOUR TO BE SOLD IN TEXAS—BRADY WILL OBSERVE REGULATIONS

County Food Administrator Howard Broad Monday was in receipt of a telegram from District Food Administrator Porter Whaley of Brownwood in effect as follows: "Hold up sale of all flour in your county, except to bakeries, invalids and infants. Will mail you full information." Mr. Broad communicated the message to all retail dealers in Brady, and the "lid was on" so far as sale of wheat flour is concerned, with the exception of such stock as is now on hand, which will be sold on the basis previously announced, viz: six pounds per month to the individual.

11TH DISTRICT MUST GO OVER TOP WITH LOAN

The following telegram was received by Chas. Weise, secretary of the Brady Young Men's League:

"Dallas, Texas, April 17, 1918

"J. E. Brown,

"County Chairman, Liberty Loan, Brady, Texas.

"Figures from Washington indicate eleventh district has an excellent fighting chance being first over top. Bend every effort to obtain additional subscriptions as rapidly as possible so we may be awarded first Honor Flag in United States. It will be exceptionally hard fight, but I have faith that good Americans in eleventh district can and will do it. Urge banks to report subscriptions promptly, keep on coming.

"A. R. HOOPES, "Chairman, Liberty Loan for Eleventh District."

A. W. TIPTON APPOINTED SECRETARY EXEMP. BOARD ADKINS HAVING RESIGNED

A. W. Tipton has been appointed and has accepted appointment as secretary of the McCulloch county exemption board, vice Judge Joe A. Adkins, who has resigned in order to devote his time to his campaign for congressman from this district.

GREAT PATRIOTIC RALLY AND PARADE

McCulloch County Citizens to Stage Patriotic Demonstration in Brady Saturday---Mr. F. Hall, formerly of Belgian Relief Commission, to Be Speaker of Day.

McCULLOCH County will, on next Saturday afternoon, stage the biggest patriotic demonstration ever held in the county in its Patriotic Rally and Parade. Citizens from every part of the county have signified their intention of attending and taking part, and the program committee has been fortunate in securing as principal speaker of the day, Mr. F. Hall, formerly of the Belgian Relief commission, who will tell in graphic manner of his personal experiences and observations on the shell-torn, battle-scarred, torn, bleeding and desolate fields of Belgium. His address will bring home to everyone the terrors of this war and the need of a united and patriotic people to support Uncle Sam in his fight for right and democracy.

The Parade.

The parade will move promptly at one o'clock, with N. T. Cook as Marshal of the Day. Those who will take part in the parade will assemble at the Central school promptly at 12:00 o'clock and form in line. Heading the parade will be the 15-piece East Sweden band. Following will march the school children from forty of the schools in McCulloch county, each under its own banner. Next in line will be fraternal orders, marching under their banners. Then there will be a number of decorated floats, representing Belgium, the War Savings campaign, Liberty Loan campaign, Red Cross, Junior Red Cross, Surgical Dressing, and vari-

ous other patriotic enterprises connected with the war. Bringing up the balance of the parade will be some sixty or more decorated cars. The parade will start at the Central school, march down Blackburn street and cross the square to the north side of the court house, where it will disband and the spectators and participants will then assemble on the court house lawn for the rally and speaking. Living Flag. One of the most novel features of the parade will be the "Living Flag" made up of seventy-five children of the Brady grammar school, who will be dressed in red, white and blue costumes, and who are being trained by Mrs. Will Ballou to march in process-

ion so as to form the stars and stripes of Old Glory. The Rally. Jas. T. Mann will be Master of Ceremonies at the rally, and will introduce the speaker of the day, Mr. F. Hall. Without question, this feature of the program is one no patriotic citizen should miss. It will be a message direct from the battlefields of Europe to a peaceable and peace-loving people, who are nevertheless ready and anxious to stand by Uncle Sam and help him triumph over the forces of autocracy and militarism. Let no man, woman or child miss this great event—come, listen and profit by what you will hear and see. You will be a better citizen, a better patriot, and a more liberal subscriber

to Uncle Sam's Liberty Loans, War Savings campaign, and Food Conservation program. For the interest aroused in the rally and parade, and for the successful arrangement of the affair, the citizens are indebted to the untiring efforts of the chairmen and members of various patriotic bodies in Brady, and to the following members of committees: Arrangement—Ed Broad, J. E. Shropshire, Bailey Jones. Program—Duke Mann, E. L. Ogden, A. W. Tipton, Miss Nettie Bellamy, Mrs. C. P. Gray. Decorations for Cars—Ben Anderson, B. L. Malone. Decoration of Buildings—H. B. Ogden.

M'CULLOCH COUNTY QUOTA \$110,400.00 FOR THE THIRD LIBERTY LOAN

"Fight or Buy Bonds"

To the People of Texas: Your Government at Washington has called upon you for men and money to preserve the liberties which your fathers died to win and to preserve the heritage made sacred by the blood of your sons already shed in France. You have responded with the full quota of men called for and you are now engaged in the task of providing the money necessary to support and sustain your fighting sons now at the front or in training for the battle. Texans, your very existence as a free people is the stake for which you are fighting. German success means German domination. German domination means vassalage of Texans. Your fathers refused to suffer Spanish domination, and paid at Goliad and the Alamo the price of your liberty of today. The Hun oppression is more unspeakably barbarous than any cruelty the world has ever known. Already Germany has appropriated to the Imperial Empire one-third the population of helpless Russia. In the light of what we have already seen, death is preferable to the slavery the German Kaiser would impose. The duty which confronts every citizen is to "fight or buy bonds." Your sons are fighting. The limit of the bonds we buy should be our country's need. It is not a question of what we can afford. It is a question of what we can do. As your Governor, I earnestly beseech you to soberly and loyally, through your committees, ascertain the obligation of each man and woman who enjoys the protection of our Government, and place that obligation before such citizen. I am sure no loyal American will shirk the burden, however distressing it may be. Life is sweet, but without liberty life has nothing to give. Our boys are surrendering their lives. The least we can do is to become creditors of our Government for every dollar that Government needs to protect and provide for our boys. Today's news from the front fills us with suspense. The crisis seems to have arrived. Let us give our allies the sustaining comfort of a complete response to their need in this hour of their terrible trial.

"TO WIN THE WAR"

W. P. HOBBY, Governor, State of Texas.

"STOP ADVANCE OF THE GERMANS OR WE DIE HERE"

The order has gone forth from Field Marshal Haig to his men that there must be no more falling back. The allied troops along the lines which are being so fiercely assailed by the Germans must stand their ground now to the last man. They have continued to fall back to new positions from time to time before the terrific onslaught of the Huns. They have done this to prevent extra heavy sacrifices of men. It would seem now that Field Marshal Haig deems it unsafe to fall back farther, and he has issued an order which, in effect says: "We will stop the advance of the Germans or we will die here."

Every man is commanded to stand his ground and fight to the finish. The bugle call of "retreat" has, for the time being, been eliminated from the signal manual. In his order to his heroic but sorely tried men Field Marshal Haig said: "Every position must now be held to the last man. There must be no further retirement. With our backs to the wall, each one of us must fight to the end. The safety of our homes and the freedom of mankind depends upon us at this critical moment."

And then, in order to cheer his weary troops, the field marshal assured them that the French and Americans are rushing to their aid. When the American boys get to the scene of slaughter they will ask or receive no special consideration—they will fight under the same order with the British, "to the last man," regardless of the toll, regardless of the cost, or the sacrifices—they will fight under the order which says: "We will stop the advance of the Germans or we will die here."

Picture this scene in your mind, you citizens at home, living comfortably and secure amid peaceful surroundings. "Every position must now be held—we will stop the Germans or die here." Picture the feelings of the British, the French and the American fighting men as they go into battle under these orders—"There must be no further retirement—every man must now fight to the last."

Yet we are assured that we can win—we know that we can win the war if we can finance it. Give these fighting men a fighting chance: win by doing your full duty at home. Apply Marshal Haig's order to yourself. Resolve to yourself that "We will win the war or we will die here." If you have not already bought a Liberty Bond, phone the committee that you are ready—do it today.—Temple Telegram.

PROGRAM FOR THE BIG RALLY AND PARADE

The following is the program for the big Rally and Parade Saturday. Every one who expects to take part in the parade will please come to the Central school promptly at 12:00 o'clock, so the parade may be assembled in proper order, and be ready to move on the dot at 1:00 o'clock. Band on square at 12:00. Form parade at Central school at one o'clock. Rally at Court House following parade. Music, by Band. Invocation, by Rev. S. H. Jones. Patriotic Song, "My Country 'Tis of Thee," by everybody. Patriotic Song, by Miss Bellamy, joined by Everybody in Chorus. Song, by Schools. Music, by Band. Patriotic Song. Address, by Mr. F. Hall, formerly of the Belgian Relief commission.

A Liberty Loan Bond is a good investment—it's your duty to own one, and it may prevent your boy—your son—from going to the trenches.

KEEPING UP WITH DUTIES

No Man That Could Not Overcome Procrastination Ever Made a Success of His Life.

A successful man said recently that he attributed his success to an early formed habit of doing at once what he saw ought to be done.

Whenever a task, big or little, presented itself, he gave it his immediate attention, and his splendid achievements are proof of the success of this habit.

Much mental worry and physical ill-being comes from putting off until tomorrow what should be done today, and it is one of the most common failings.

How often we exclaim: "Oh, I should have written that letter long ago;" or "I have owed that call so long I'm ashamed of myself;" or "I've put off going to the dentist so long;" or "My rubbers have a hole in them and here it is pouring pitchforks; I've had it on my mind for the last week to get a new pair," etc! Now a cry of despair over some really big obligation, now a wail over some small one.

Someone has said that the hardest part of work is getting at it, and this is so true. Work's irksomeness is almost invariably due to our fretting over the fact that it lies ahead of us.

Life is much brighter when we keep abreast of our duties. Isn't it the burden of yesterday's tasks, those of last week, or even last year, that give you this oppressive sense of overwork?

A fine executive ability, the power of knowing how to accomplish tasks promptly, cultivated into a fixed habit, means health, happiness and success.—Exchange.

"Well, that's all right! you see I ain't got no hook anyhow!"

MACHINE TESTS LEATHER.

The shoe-leather testing machine of P. L. Wormley of the United States bureau of standards, has as its chief part a cam wheel, about 11 inches in diameter of the shape of a four-leafed clover, and on each of the four faces is mounted a test sample. The wheel makes about thirty revolutions per minute on a horizontal axis. It is mounted at the middle of two parallel metal bars, pivoted at one end and free at the other, and its faces rest in turn near the outer edge of a 15-inch horizontal disk. Pressure is given by the weight of the bars, with any additional load that may be suspended from their free ends. The cam wheel driven by a chain from a motor, turns the horizontal disk, which has a cement friction top, and is provided with brake wheel and load carrying brake strap for giving resistance to rotation.

DINERS POCKET SUGAR.

Diners in London are regularly engaged just now in a practice which popularly is known as "pocketing the sugar." The custom is practiced all over the city and in all classes of places where tea and food are served. German submarines lately seem to have been especially active against ships that happened to be carrying sugar, with the result that, while there is enough to go around, the supplies for the distant future are none too large.

ASSISTING NATURE.

"Why don't you go around and stretch 'em a little every morning?"

THIS IS WHAT THE DAHL TIRE CUSHION DOES

The Dahl Tire Cushion O. K. This is to certify that I have had the pleasure to ride in Prof. Newfield's Auto Wednesday a. m., March 13, 1918, and will recommend his tire cushion. It rides as easy as air and everybody ought to use same.

Headquarters First Brigade, Minnesota Infantry, U. S. A.
Llano Grande, Texas, Oct. 18, 1916
The Dahl Tire Cushion Co.

Gentlemen:
It may interest you to know that the "Punctureless" with which you equipped the Ford runabout taken along from Minnesota by these headquarters last July has given the best satisfaction. We were told that the composition would never stand up in this continuously hot climate. This we found out not to be true. The filler is to all appearances, as far as service is concerned, as good as when first put in, and the car has seen continuous hard usage.

Congratulating you on the excellence of your product which is surely a boon to auto users in the military service, where tire repairs are difficult and tire trouble often fatal, I am
Yours very truly,
(Signed) ARTHUR M. NELSON,
Major First Brigade Minnesota Infantry.

Dahl Tire Cushion Co.
Dallas, Texas.

I have used your Dahl Tire Cushion in my delivery truck continuous-

ly for more than three years. This truck is given the ordinary hard usage that such a truck receives, and is in use continuously.

The Tire Cushion gives entire satisfaction.

It was represented to us to replace inner tubes, and to do away with punctures and blowouts and rimcuts, and that it would be as easy as air in riding, and that it would not harden or flatten or soften or rot, and that it would keep the same consistency during all weather, either cold winter days or hot summer days and the use of the tire cushion would increase the mileage of the tires.

I am pleased to state that it has come up entirely to every representation, in fact it does more than is claimed for it.

Every truck or automobile owner should have his tires equipped with this cushion, on account of the delays and annoyances and expenses that it saves.

We would not be without it.
Respectfully,
(Signed) LEWIN MARKET.

This is why you should use the Dahl Tire Cushion instead of inner tubes. They maintain their high qualities in all kinds of weather, over all kinds of roads.

It rides as easy as air.
It cannot puncture or blowout.
It is neither solid nor pneumatic.
It can be used in all style tires.
It doubles your tire mileage.
It is easily installed.
It makes motoring a real pleasure.
It stops tire repair bills.
It makes your car dependable.
It ends all tire troubles.
Guaranteed for the life of your car.

A "Born" Patriot.
Readers of this week's issue will, no doubt, appreciate the patriotism that inspired the business and professional men to make so liberal an exposition of Liberty Loan advertising. It is most commendable, and it was done in the right spirit, too. An explanation of one of the signatures to the ads is thought advisable by the editor, however, so that the readers may fully understand. It is that of Dr. Wm. C. Jones and son, Albert Pershing Jones. Of course everyone will understand for whom Albert Pershing was named when we say that Albert is King of Belgium and Pershing is the commander of the American forces in France. So we say, Albert Pershing Jones is a "born" patriot.

You are asked to spend wisely—to buy only the things honestly needed to maintain your health and efficiency. This is intelligent thrift. The Government asks it of you as a war measure : :

Bonds Are Not A Burden, But A Blessing

Thrift requires the exercise of restraint and self-denial—qualities without which you cannot achieve the success in life which it is your ambition to achieve and for the lack of which you are likely to suffer in later years.

The money you acquire by thrift you are asked to loan—not give—to your country. It will come back to you when you may need it far more than you do now, and you will be paid interest for its use.

This war is a frightful thing, but it may prove of inestimable benefit to you, if it teaches you the good habit of thrift.

Worth Fighting For

SHALL this little girl grow up in the sort of American home we know, healthy and happy? Shall she have the advantage of living and learning in a free land, under free institutions? Shall such children develop into the Liberty-loving citizens that a free America may be proud of?

For over two hundred years Americans have fought valiantly, and died gallantly, to win for themselves and hand down to their posterity the blessings of liberty, justice, self-government and equal opportunity. This precious heritage, bought at so great a price, is now threatened.

The question which today confronts America as a nation, and you as an individual, is whether or not a free America is worth fighting for

Are American children in this and all future generations to receive unimpaired the legacy of freedom of which we are now the custodians, or shall their country be turned over bodily to the brutal, rapacious, power-mad enemy which has forced us into this war?

This question cannot be answered by word of mouth, but by deeds alone.

U. S. Must Cut Use Of Wheat by One-Half

America Consumed 42,000,000 Bushels Monthly. From Now Until Harvest Must Use Only 21,000,000.

RATION PER PERSON IS 1½ POUNDS OF WHEAT PRODUCTS WEEKLY

Military Necessity Calls for Greater Sacrifice Here—Allied War Bread Must Be Maintained—Our Soldiers and Sailors to Have Full Allowance.

If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for general consumption approximately 1½ pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. Such bread must be durable and therefore, requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where the other cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley, as substitutes, has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

1. Householders to use not to exceed a total of 1½ pounds per week of wheat products per person. This means not more than 1½ pounds of Victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.
 2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specially ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.
 3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.
 4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per cent. of the average monthly amount purchased in the four months prior to March 1.
 5. Manufacturers using wheat products for non-food purposes should cease such use entirely.
 6. There is no limit upon the use of other cereals, flours, and meals, corn, barley, buckwheat, potato flour, etc.
- Many thousand families throughout the land are now using no wheat products whatever, except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we specially ask the well-to-do households in the country to follow this additional programme in order that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes.
- In order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the allies and our own army, we propose to supplement the voluntary co-operation of the public by a further limitation of distribution, and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the arrival of harvest we should be able to relax such restrictions. Until then we ask for the necessary patience, sacrifice and co-operation of the distributing trades.

Great Wheat Stocks Isolated.

It's the shortage in ships that is putting the Allies and the United States on wheat rations. Great stocks of wheat are isolated in India, and Australia. At great sacrifice in ship space and use the Allies are forced to secure some wheat from Argentina.

On January 1, Australia had stored 100,000,000 bushels of wheat that was ready for export—but there were no ships. Then came the new crop with an exportable surplus of 80,000,000 bushels. Now Australia has approximately 180,000,000 bushels waiting for ships.

India, at the same time, had 70,000,000 bushels of wheat stored for export. During April 50,000,000 bushels more out of the new crop will be added to the pile.

Argentina closed the last shipping season with 11,000,000 bushels of wheat left in the stock available for export. The new crop will add 135,000,000 to the left over.

It is not a problem that the wheat does not exist in the world—it is entirely a problem of shipping, which has thrown on America the obligation of dividing our stock with the Allies.

ALLIED FOOD SHIPMENTS REACH LARGE TOTAL.

A general idea of the quantity of food sent to European allies by the United States from July 1, 1914, to January 1, 1918, is given by figures just announced by the U. S. Food Administration. In that period the United States has furnished complete yearly rations for 57,100,933 people. In addition there was enough extra protein to supply this portion of the diet for 22,194,570 additional men.

The total export of wheat and wheat flour to the three principal allies is equivalent to about 384,000,000 bushels. Pork exports for the 3½ years amounted to almost 2,000,000,000 pounds. Exports of fresh beef totaled 443,484,400 pounds. The amount of food exported to Russia is negligible compared with that sent to the western allies.

MASON COUNTY GOES "OVER THE TOP" WITH LOAN

Mason county staged a big Liberty Loan rally last Saturday, with a splendid program of public addresses on the Liberty Loan and America's part in the world war. There was a great crowd in attendance and the greatest of enthusiasm prevailed at the meeting. So enthusiastic did the citizens become following patriotic appeals by Senator O. S. Lattimore and Representative Blaylock, that Mason went "Over the Top" with a Liberty Loan subscription of \$42,000. Her quota was placed at \$39,750. It was said that late Saturday night subscriptions were still coming in not only at Mason but at Fredonia and other points.

By her example in going "Over the Top" Mason, a so-called "German" town and county, has set an example in patriotism that should be an incentive to all other communities towards rolling up a big subscription for the Third Liberty Loan.

LT. BILL WHITE FLIES AT GONZALES LAST SATURDAY IN LIBERTY LOAN RALLY

A letter to home folks from Lieutenant Bill White of the aviation department at Kelly Field, stated that on last Saturday he made an exhibition flight at Gonzales, the occasion being a great Liberty Loan rally at that place. Bill not only flew successfully from the aviation field to Gonzales and return, but he did some fancy stunts in the air, including a tail dive over the square, that made the native's hair stand on end. All McCulloch county is proud of her representative in Uncle Sam's aviation corps, and the remarkable record he has made since entering the service.

"BUY YOUR FUEL EARLY"
INJUNCTION OF COUNTY FUEL
ADMINISTRATOR G. R. WHITE

The Standard directs attention to the large display advertisement in this issue over the signature of G. R. White, fuel administrator for McCulloch county.

It is announced by the Fuel administration that while the warm days of spring have arrived, the very serious fuel shortage of the winter just passed must not be lost sight of, and that immediate steps must be taken to prevent the recurrence of fuel shortage for private consumption next winter. A careful analysis of the situation has shown that unless the coal mines and other sources of fuel supply are operated every sin-

gle day this spring and summer there will not be sufficient fuel to take care of the country's needs, and at the same time, accumulate enough to keep our families warm during the winter of 1918-19.

It will be readily understood that fuel cannot be stored at the point of production, nor have the wholesalers and retailers in coal, wood, etc., sufficient storage capacity to carry what will be required for private consumption next winter. Consequently, it is imperative that the consumer buy and take immediately what he will need to keep his family warm.

Aside from the necessity explained in the foregoing, there is a decided advantage to the consumer in following this suggestion, for the reason that the price of fuel as set by the Fuel administration, is lower this month than it will be in May; and it will be lower in May than in June. The price of fuel will be increased

month by month until September, at which time the price for the following winter months will be fixed; there will be no decrease in price after that date. The retail dealer is allowed a fixed profit per ton for handling, with no provision for recompense in case of shortage in tonnage, shrinkage or other loss. In the winter months by reason of the stealing of fuel from cars enroute from the mines, this shrinkage and loss is very great, and local dealers may have to refuse to handle coal during winter months for this reason.

The Fuel administration at Washington, operating through the State administrators, therefore is sending out this urgent appeal to every private consumer to lose no time in ordering from his retailer for immediate delivery, the equivalent of fuel that he required during the winter just ended, and from every standpoint of self protection, as well as

patriotism the appeal should be heeded and acted upon at once.

BRADY BAKER FURNISHES RECIPE TO FARMERS FOR MAKING "LIBERTY" BREAD

Several farmers have asked me of late if I would sell them my recipe for making bread by using substitutes. As I feel it my duty to help these people to save the nation's food supply, I am of my own free will, having the formula printed that any one who wishes may use.

Formula.

Dissolve two cakes Magic Yeast Foam in one-half gallon luke warm water. When cakes are thoroughly dissolved, stir in flour to medium stiff dough; set on warm place over night to raise. Scald 2 1/2 pounds of corn meal; set in cool place over night. In morning add two quarts warm water in which has been dissolved 1 1/2 cups sugar, 3 tablespoons salt; then add corn meal and flour to stiff dough. Let raise double size; knead

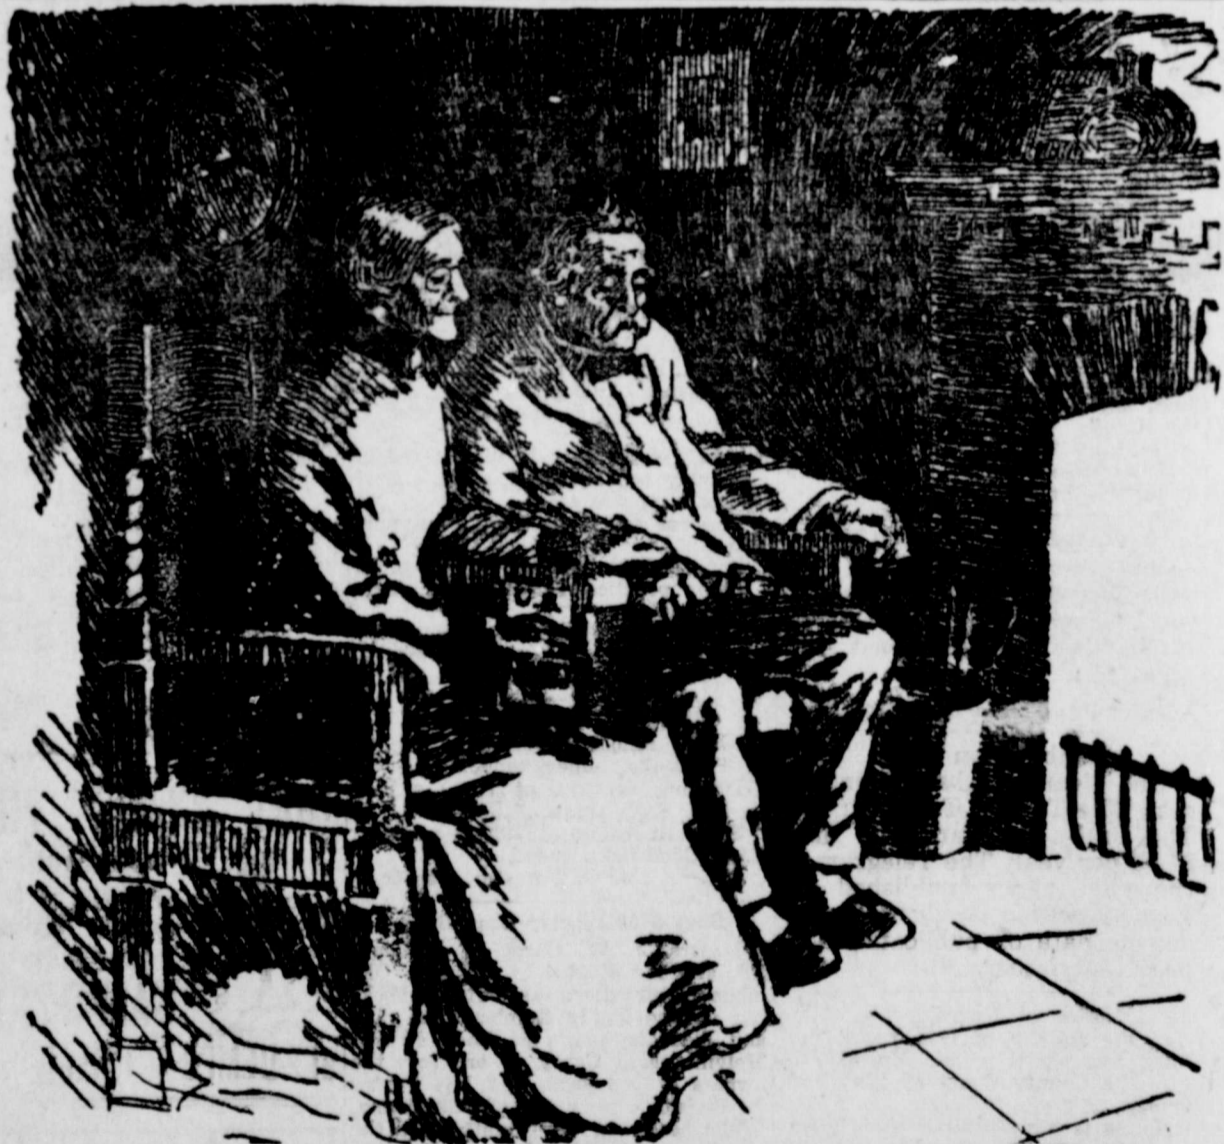

well and let raise to double size again, knead and mold to loaves and put in pans to raise to double size. Bake in hot oven thirty minutes. When taken out, run over top with grease cloth. Keep excluded from air as the substitutes cause bread to dry very quickly.

Let Your Dollars Be Patriots!

THIS war is a test of a democratic Government. It is also a trial of democracy as to its fitness to survive. A small group of autocrats within whose hands are the resources of Central Europe are attacking the principle of the right of people to govern themselves. Should the United States and its allies fail in this war there will not remain on earth a people absolutely independent of the dictation of the Teutonic empires, organized for military efficiency and bent on using that efficiency for the purpose of forcing their will upon the world. Let the Teutons triumph and the world will not be a safe place for democracy, and to make it such a safe place, is not only the expressed purpose of the United States in taking up the challenge of the Huns, but also the purpose of the other powers who took up the challenge when Germany sent it forth three years and a half ago, and who for three years and a half have borne the burden of the conflict.

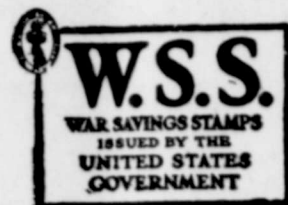

For this reason the PRESENT BUSINESS OF THE UNITED STATES IS WAR—war to exterminate organized unrighteousness and to establish peace among the nations of the world.

The Government has perfected a plan which will enable all of our people without exception, to take a definite part in winning the war.

One of the first great steps called for by the Government is—SAVING. The American people must cease to require all of the pleasant and comfortable luxuries which they consumed before the war, the production of which calls for the energy of millions of men and women. These men and women must devote themselves to the production of the things which are needed to win the war. This is the key to the present situation; it rests in the hands of the average man, woman and child in every state in the Union, by refraining from everything not absolutely necessary to health, and efficiency, to release strong arms for the production of materials of war to support our army and navy.

Idle dollars are SLACKER dollars, but dollars spent for unnecessary articles, the production of which require labor and materials which the government needs to save the lives of our fighting men, are TRAITOR dollars.

W. D. Crothers, County Chairman

TO ERADICATE TICK IN SPITE OF VETO ELECTION

Despite the fact that the citizens of McCulloch county voted 569 to 483 not to take up the work of tick eradication in McCulloch county, the leading cattlemen are going ahead with the plan of tick eradication the same as if the election had been duly carried, acting with the full co-operation of federal and state sanitary departments.

O. F. Bates, state inspector, arrived in the city the latter part of last week, accompanied by Dr. H. Grafke of Fort Worth, official inspector for the Bureau of Animal Industry, and Jno. Campbell of Fort Worth, representing D. H. Cunningham of the State Live Stock Sanitary commission. These gentlemen met with the cattlemen of this county and plans were effected whereby the work of tick eradication is to be taken up by blocking up various sections of the county.

Mr. Bates was formerly stationed at Mertzon, Irion county, and has just completed the cleaning up of that county. He states he will remain here as long as his assistance is needed by the cattlemen, or until the quarantine is raised.

The plan under which the cattlemen will work is to block their land, and proceed with the dipping of the cattle every eighteen days. By commencing the work June 1st, it will be possible to clean up the block by the first of October, and that territory will be released from quarantine by December 1st. Sections of the county not taking up the eradication work, will, of course, be barred from letting their cattle be moved into or through the clean territory, and will eventually be completely isolated.

Among others the following cattlemen have agreed to block their lands for tick eradication: Messrs. Gibbons, Bryson, Neal Richards, Sellman, between 150,000 and 200,000 acres; Messrs. W. N., G. R. and J. E. White, W. M. Capps and Chas. Bratton, about 60,000 acres; G. R. White, Forked W. ranch.

E. Coffee writes from South Bend, Texas, that he is now located at that place. He states they had a three-inch rain there on the 5th inst., and that the Brazos river was still on a rise as a result.

J. H. Drinkard read of the fine rain in McCulloch county last week, and immediately "hot-footed" it out here. And since he found the report true he now avers he believes everything he sees in The Standard.

L. M. Baker, who completed his term as city marshal Tuesday night, states that he has heard the call "back to the farm" and will move shortly to the Davis ranch, where he will engage in stock farming.

Mrs. Chas. White is driving one of the classiest and most attractive cars ever seen in Brady—a 6-cylinder four door chummy Haynes roadster. The car was delivered this week by F. R. Wulff, who drove it out from Dallas.

J. N. Boyd, who was so severely injured in the auto accident on the Coleman road a month ago, was last week removed to his home at Bangs. His condition the past few weeks has shown gradual improvement, and the blood clot on his brain is gradually clearing away, with the result that he is now conscious the greater part of the time.

Dr. E. L. Wilson writes from Eufaula, Okla., to have his Standard changed to that place, he having been transferred there on Government business. Dr. Wilson was stationed in McCulloch county the past couple months working in the interests of tick eradication, and he and his splendid wife made many friends during their residence in Brady.

ALLIES DEMAND MORE CEREALS

American Meat Restrictions Relaxed to Effect Greater Wheat Savings.

ARGENTINE ARRIVALS SHORT.

Meat Supply Here Considerably Enlarged — Food Administration, However, Warns Against Waste.

The allies have made further and increased demands for breadstuffs, these enlarged demands being caused to some degree by shortage in arrivals from the Argentine. It is, therefore, necessary for the U. S. Food Administration to urge a still further reduction in the consumption of bread and breadstuffs generally if we are to meet our export necessities. The Food Administration has issued a statement explaining the situation in detail, particularly the reasons which lead it, for the purpose of centering effort for the time being upon the cereal situation to relax temporarily the restrictions on meat consumption.

Experience shows, this statement says, that the consumption of breadstuffs is intimately associated with the consumption of meat. For various reasons our supplies of meat for the next two or three months are considerably enlarged, and we can supply the allies with all of the meat products which transportation facilities render possible and at the same time somewhat increase our own consumption. In these circumstances the Food Administration considers it wise to relax the voluntary restrictions on meat consumption to some extent with a view to further decreasing bread consumption.

Conservation of food must be adjusted to meet necessities from time to time, for neither production, nor allied demands are constant factors, nor can any of these factors be anticipated for long periods in advance in the disturbed conditions in which we at present live. While the world situation is not one that warrants any relaxation in the efforts to eliminate waste or to relax economy in food, the Administration desires to secure better adjustment in food balances.

So long as the present conditions continue the only special restrictions we ask are the beefless and porkless Tuesday.

The meatless meal and the porkless Saturday are no longer asked.

The farmers of the United States are responding to the national call to increase hog production. Their increase, to all appearances, is being attained more rapidly. Of more immediate importance, however, are several complex factors which have effected an immediate increase in meat supplies.

The transportation shortage before the government took over the railroads, the bad weather in January and early in February, the large percentage of immature corn in the last harvest and the necessity of feeding this corn as rapidly as possible to save it from decay, have not only resulted in backing up the animals—particularly hogs—on the farms for a longer period of feeding, but have resulted in a great increase in their average weight and will result, with improved transportation conditions, which already appear, in larger than normal arrivals at market for the next two or three months. The weight of hogs coming to the market for the past two weeks indicates an increase in weight of from an average of 203 pounds last year to the almost unprecedented average of 232 pounds, or a net increase in their meat value of over 15 per cent. This is a distinct addition to the nation's meat supply. It therefore now seems certain that we have such enlarged supplies for at least some months to come, that we can not only increase our exports to the allies to the full extent of their transportation facilities, but at the same time can properly increase our domestic consumption.

The response of the public to our requests for reduced consumption of meat during the past few months has been most gratifying, and its service alone has enabled the government during this period to provide such supplies as transportation to the allies permitted.

The Administration also suggests that in those parts of the country where the old-fashioned home preservation of pork is still the custom, this practice should be extended at the present time, as it will relieve the burden upon transportation to and from the packing houses and is economically sound as saving the cost of packing operations and at the same time will provide home supplies of pork to last over the months of decreased supplies.

The Food Administration desires to repeat that it does not want to give the impression that these are times when simplicity and moderation of living are not critically necessary, but that its sole desire is to secure an adjustment between our different food supplies and meet changing conditions from time to time and to keep the public fully and frankly advised of its position with the full confidence and reliance that whenever it becomes necessary renewed appeals for saving will meet the same loyal response as in the past.

"Save both butter and lard—and use Vegetable Oils and Vegetable Compounds . . . they are equally good."

U. S. Food Administration

THE United States Food Administration does not step into your kitchen to see if you are playing fair—it simply asks you to

"SAVE ANIMAL FATS"

—and puts you on your honor.

Now the Government isn't asking you to deny yourself good eating, but merely to cook in a slightly different way. In a word, to stop short in the use of lard and butter in your cooking and use vegetable fats instead.

In the production of the needed vegetable fats the country is well equipped. Already millions of pounds of pure, wholesome and nourishing vegetable

fats are produced and used each year. Cottolene is a familiar example.

In recommending vegetable fats the Government does not specify any particular product. Cottolene, however, is well known as a pure and wholesome vegetable shortening. Incidentally, it gives delicious cooking results.

Here is the fact to remember when you buy—when you cook—and we quote it from the United States Food Administration:

"It is your patriotic duty to save fat (animal fat) by substituting."

PERSONAL MENTION

Mrs. C. R. Melcher, who has been a guest of her sister, Mrs. S. S. Graham the past month or two, returned Wednesday night to her home at Lexington, Ky.

Nick Wright, who was recently shot and seriously wounded, is reported as having made an almost complete recovery from his injuries, and it is thought he will soon be as well as ever.

L. N. Schooley was here Tuesday on his return to Pear Valley from Burnet county, where he had been visiting. He reports three big rains in that section in the past week or ten days, and says the country is fairly flooded.

H. T. Knappe has been here this week from Austin in the interest of the Texas Posten of which he is manager. He reports liking the newspaper business splendidly—although he also has fond recollections of his residence in McCulloch.

E. T. Jordan was in Melvin Monday checking in W. L. Cain as manager of the Melvin Lumber Co. Mr. Cain has been assistant for Mr. Jordan in the Brady yard for the past number of months. Jim Anderson is now assistant to Mr. Jordan, succeeding Mr. Cain.

Mrs. J. F. Biggs returned Tuesday morning from Brownwood where she had spent several days visiting her son, Cecil, who has been under treatment by a specialist there for the past couple months. While his condition is somewhat improved, it will be several days before he will be able to return home.

Sergeant Fred Lohn came in Tuesday from Camp Travis for a short

visit with his parents, Mr. and Mrs. W. E. Lohn, and other relatives and friends in McCulloch county. Fred likes the service fine, and like so many of the other McCulloch county boys, he is "making good." He will return next Tuesday night.

Sergeant Lawrence Fuller came in Friday morning for a visit with his parents, Mr. and Mrs. M. F. Fuller, and friends in the city, returning to camp Tuesday night. Lawrence is looking fine and is another McCulloch county boy who is climbing the ladder of success in military service.

Miss Loise Bradley left Saturday night for Dallas and Sherman on a brief visit to relatives and friends. While in Dallas she will attend the Red Cross meeting at that place in order to inform herself on the various duties she will assume as secretary of all the patriotic societies in McCulloch county.

Mr. and Mrs. F. R. Wulff and son, Fred, Jr., left Wednesday morning for San Antonio, where they will spend several days with Mr. Wulff's parents, Mr. and Mrs. F. Wulff, who expect to return shortly to Old Mexico. While in San Antonio, they will also visit Mr. Wulff's brother, Carlos, who is a member of the horse artillery.

Raymond G. Hobbs returned Monday night to Camp Travis after a visit of several days here with his brothers, W. O. and B. H. Hobbs. While really a McCulloch county boy, he registered in and was drafted from Comanche county, and is now in Battery B, 345th Field Artillery. He is well pleased with the service and says

he would not trade his job for any position in McCulloch county.

Mr. and Mrs. J. Q. Lankford returned the latter part of last week from a trip to Las Cruzas and other points in New Mexico, having been accompanied on the trip through New Mexico by Mr. and Mrs. Jesse Ballou and Albert Ballou. J. Q. says he saw lots of prosperous country there, and says he was almost tempted to get in the sheep business by the liberal offers made him. The party spent a night or two camped on the Mexican border, but when a panther howled in the night J. Q. decided it was time to start back home.

TEN McCULLOCH COUNTY BOYS TO CAMP FRIDAY

Ten McCulloch county boys will entrain for Camp Travis next Friday, April 26th. Seven have been notified to that effect, and the board will wait a few days longer before naming the other three to volunteer, but if they do not volunteer, the board will name the next three on the list according to order number. The following are the names:
Joseph B. Guyton, Rochelle.
O. R. Clark, Humble, Texas
Robert N. Beakley, Mercury.
Edgar T. West.
Frederick V. Waddell, Rochelle.
Harris Hallford, Brady.
William Thomas Meador.
On the 29th the board will entrain one negro, Isaac Branch.

On the 1st of May McCulloch county will furnish two men. These men have not been selected yet, and the board will accept volunteers.

Any registrant in McCulloch county desiring to enlist for any branch of skilled labor, should report to the local board, as there is an exceptionally great opportunity now open in almost any branch of the service until the 27th inst. After that date no further applications can be considered.

UNITED STATES FOOD ADMINISTRATION

EVERYONE MUST HELP.

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation.

The rich of this country cannot alone meet the needs of the Nation; the men of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disregarding partizanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

W. G. McADOO,
Secretary of the Treasury.

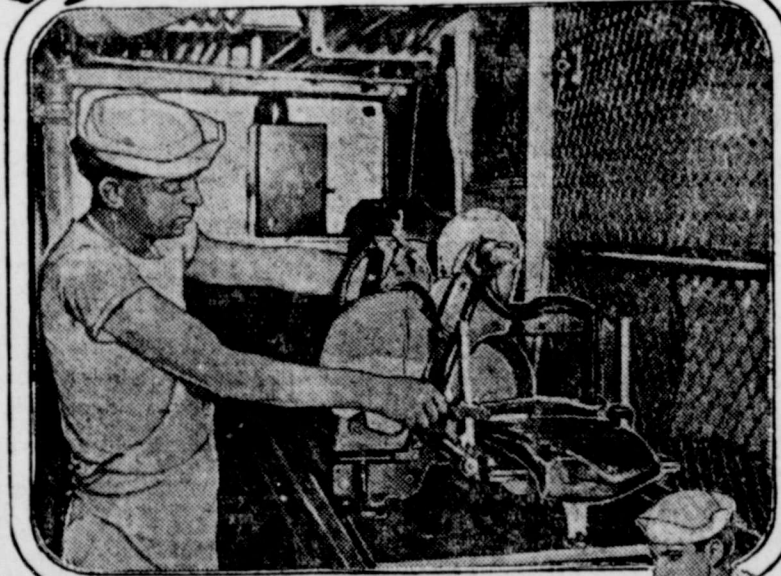

Plan Your War Garden Now, Save Time and Money.

HELP INCREASE OUR EXPORT FOOD STOCKS

CITY and country war gardens are needed this year more than ever before. Patriotism prompted 2,000,000 Americans to plant gardens last year, according to estimates of the United States Department of Agriculture. Transportation facilities of the nation will be strained this year hauling multitudes of war and foods for the Allies. The surplus food created by home gardens will help in the railroad problem. And the nation will eat less of the goods we must export—wheat, meat, fats and sugar. Every boy and girl that helps with the garden is helping win the war. Leaflets of instruction in garden making may be secured from the Department of Agriculture at Washington, upon request, without charge.

AMERICAN NAVY ELIMINATES WASTE

SLICING BACON ON BATTLESHIP

FACKIES in the American navy are classed as the best fed body of men in the world. In the ship's galleys every effort is made to eliminate waste.

In the upper photo one of the cooks on the North Dakota is operating a meat slicer that cuts bacon with the least possible wastage.

Fat is fuel for fighters. Bacon is badly needed in the allied armies and navies. The allied needs in pork products are 150,000,000 pounds monthly, three times as much as before the war. Another waste eliminator on the North Dakota is the potato peeler, shown in the lower photo. Nothing is lost except the actual potato skin. There is a sufficient quantity of po-

tatoes in America for greater use in every home and for all needs of army and navy. Eat more potatoes, eat less wheat.

How Do Your Sacrifices Compare With These?

THE American boy who goes to war gives up the position which means so much to his future, or the little business which has just begun to show promise of success.

He severs home ties; gives up home comforts; leaves behind parents, friends, wife or sweetheart.

He faces the probability of being obliged to take up life anew when he returns; of losing all the advantages which years of hard work have won for him.

He faces the possibility of coming back incapacitated for earning a living, and of being dependent upon his friends or upon charity.

He faces the possibility of never coming home at all.

Facing these things, he goes to France to fight for us who remain safely at home—and when the moment comes for him to go over the top—he **GOES!**

What will he think, how will he feel, if we complain because we are asked to make a few sacrifices for him—sacrifices so insignificant when compared with his?

Show him that to invest in Liberty Bonds is not a SACRIFICE but a PRIVILEGE—an appreciation of his sacrifice!

THE PATH TO VICTORY

LIBERTY BONDS paved the way to VICTORY in war,—an early, complete, triumphant VICTORY. If we are to win the war abroad we must first learn to spend wisely, to abandon luxury, and invest every dollar we possibly can in the bonds which provide the materials and equipment without which the war cannot be won.

SHEEP AND GOAT MEN TO HAVE BARBECUE AND ALL-DAY PROGRAM, APRIL 24th

The Sheep and Goat Growers' association of McCulloch county has planned to have a get-together meeting on Wednesday, April 24th, of all the men in the county who are raising sheep or goats. All the members of said association will bring their families and enjoy the splendid program as well as the best dinner we have had in a long time. Every sheep or goat raiser in the county is invited and urged to be present and bring his wife as well. This meeting is intended primarily for the men who have not yet joined the association. Do not think that you have to be a "big" sheep or goat owner to be wanted at this meeting. We can help you! Come and learn how we will do it.

We have the promise of three of the best posted sheep men in Texas that they will be here and address the meeting. These men are: J. M. Jones of the Experiment Station, W. M. Coll of College Station and R. W. Persons, the district agent.

The program will begin promptly at 11 o'clock in the district court room Wednesday, April 24th. Everybody is welcome to attend the program. Tell all sheep and goat growers you know of this meeting. Let's all meet and get acquainted and enjoy ourselves once.

All the committeemen will meet with the president and myself in my office Saturday afternoon at 2 o'clock.

WAR SAVINGS WORK IN THE SCHOOLS OF McCULLOCH CO.—WINNERS OF \$5 W. S. OFFER

During the War Savings campaign recently carried on in the county, the War Savings work was presented in every school in the county, and about thirty War Savings societies were organized. Over \$10,500.00 worth of stamps were reported sold, and splendid reports come from some of the schools concerning the work done in their schools. The various churches in town have organized and invested in stamps. The Mexicans have a War Savings society; also the colored people.

As a result of the examination in war savings, sixteen schools responded. I want to thank these teachers for their co-operation and urge the others to take up the work and enlist every one in this great campaign.

Following is a list of the winners of the \$5.00 War Savings stamp offered by F. W. Henderson of Brady to every grade and high school in the county:

- Doole—Miss Laura Cloud, Frank D. L. L.
- Camp San Saba—Miss Bernice Freeman.
- Milburn—Malvin Montgomery.
- Calf Creek—Misses Velma Murphy and Ruth Smith.
- Dodge—Elmer Zimmerman.
- Fairview—Eric Johnson.
- Placid—Grady Webb, Alton Gault.
- Melvin—Olive Smith and Margaret Sutton.
- Katemcy—Lora Dora Probst.
- Carroll Colony—Margaret Terry.
- Brady—Knola King, Mary Lyle Vincent.

CHAIRMEN AND SOLICITORS FOR LIBERTY BONDS

The following is the instructions sent out, together with a list of the precinct chairmen and sub-chairmen, and solicitors, by Judge J. E. Brown, county chairman of the Liberty Loan fund:

Our country, in its fight for the maintenance of its rights, needs and asks the active support and assistance of all citizens, according to their ability.

It needs men for its armies and it needs dollars to pay, to equip and to feed the men in the armies and to supply them munitions and other war materials.

All citizens are expected to do their part to win the war. What have you done? Now is the time to do our BIT. Let's all get busy and go over the top.

It is the intention that every person in this county be personally urged to subscribe for as large an amount of Liberty Loan Bonds as possible by the members of the following committees:

It is important that no person be overlooked and that they should be solicited repeatedly by solicitors until such subscription as they may be willing to make has been secured.

Committees divided in divisions as follows:

Mrs. W. N. White, captain; Messdames F. M. Richards, Frank Webb, Howard Ogden, Herbert Wood, S. J. Howard.

Mrs. Tom Donnell, captain; Misses L. Benham, Mary Brook, Allie May Anderson, Ruth Woods, La Rue Belamy.

J. E. Bell, captain; W. W. Walker, H. C. Samuel, Chas. Gray, F. M. Richards, N. T. Cook.

A. W. Tipton, captain; Ike Meyer, H. Zweig, S. A. Benham, C. H. Vincent, L. H. King.

J. H. White, captain; Joe McCall, Jeff Meers, W. N. White, Chas. Samuelson, H. B. Ogden.

Clarence Sinder, captain; The Boy Scouts.

R. W. Bowden, captain; High school cadets.

A daily record should be made and turned in to each Captain. Each Captain in turn to Assistant County Chairman, showing the amount of subscriptions received during the day.

As these records are turned in from day to day to Captains, renewed efforts should be concentrated upon all persons not making subscription or not making sufficiently large subscriptions, and continued until it is definitely determined that no subscription can be secured from such person.

If there are cases where some persons cannot subscribe only on monthly basis, such can be handled through the banks, that is such parties can borrow amount desired from banks and make note paying monthly, payments not exceeding six months.

Each Captain should secure Liberty Loan Bond application blanks and call their solicitors together, supplying them with application blanks; each division outlining their mode of campaign. This campaign closed so all application may be on file on or before May 4th, 1918.

The entire county must be thoroughly worked in order that we may go over the top. Hence let that be the limit.

LIBERTY LOAN EDITION OF THE BRADY STANDARD

The Standard takes the greatest pride in presenting this "Liberty Loan" edition to its readers, and a word of explanation as to its purpose and the reason for issuing the edition may not be amiss.

Under date of March 23, 1918, The Standard received a communication from the Publicity department of the Federal Reserve bank, which reads in part as follows:

"Under separate cover you will receive a set of advertisements issued by this department. The advertisements we have prepared have been thought out carefully along the lines of presenting to the public the claims of the Liberty Loan in a purely pictorial manner. We would ask you to regard the advertising issued from this department as having the sanction of the officers of this bank, who are the Government agents in the matter of the Loan. We strongly advise the sale of these advertisements as against the sale of many which will be produced.

"We ask you to take these proofs, not only to people who advertise with you at present, but to every doctor, attorney or patriotic individual, and ask them to buy, individually or collectively, the necessary space in your paper to display these ads. We have decided to send out a traveling representative from this department, who will visit in turn all of the larger cities and then the smaller cities. Our representative's efforts will be entirely along the lines of assisting you in selling advertising.

"We do not ask you to wait for our representative's call, because we want a good showing by the 6th of April."

The Standard, in presenting this "Liberty Loan Edition" has endeavored to carry out the wishes of the Federal Reserve bank, as nearly as possible, and the success with which we have met has been gratifying, indeed. Almost without exception every individual or business man we approached responded with his hearty endorsement of the plan and agreed to assist in carrying it out by donating space in this issue devoted entirely to the advertising of the Third Liberty Loan Bonds.

The object of the publicity department in urging this method for the sale of Liberty Bonds through space advertising in the newspapers, is because the U. S. government has made no appropriation for the expense of such advertising, and must, therefore, depend upon the assistance of patriotic individuals in every community. Of course, the newspapers, practically without exception have given freely and fully of their news columns telling about the bonds, the war savings stamps, food conservation and all other plans of the government, but the government experts, without equivocation, give preference to pictorial display ads, because they deem it so much more effective in getting the results desired.

As before stated, we are proud of this issue. We are proud of the citizens who have made it possible and whose names are subscribed to the various Liberty Bond ads. We are proud to send it to the Dallas Federal Reserve bank, and we are proud to send it to our readers and to the newspapers in our neighboring cities. We have no hesitancy in saying that it is the best Liberty Loan edition issued by any small paper in Texas—and the credit is due the patriotic citizens of Brady.

We will feel that its mission and purpose has been entirely fulfilled, if the Patriotic Parade and Rally in Brady Saturday brings the citizens from near and far to hear the patriotic addresses upon that occasion—and more than that, if McCulloch county goes "over the top" with her quota of the—

GOODRICH TEST CAR FLEET

A Message from America's Roads

SECURE certainty of service in Tested Tires. They give sure service because it is proven service. Their endurance and mileage have been proved in the one way to assure mileage to the motorist, on the car on the road.

Hearken to that 1918 message, the roads of America send American motorists. Last year Goodrich, launching six Test Car Fleets in six widely different regions of our country, took Goodrich Tires, and with light and heavy cars mauled them over sand, gravel and rock roads of plains, deserts and mountains, to try out—

GOODRICH TESTED TIRES

What those tires endured doubled Goodrich's pride in its tires. They fought America's roads through 4,178,744 tire miles. They conquered the roads of America in that phenomenal mileage, those **BLACK SAFETY TREADS** and **SILVERTOWN CORDS**.

Let American motorists listen to this message from America's roads. It means time and money saved them. They get lasting service with the tires that have won the title, "America's Tested Tires."

"OVER THE TOP" BRADY CREEK UP OVER DAM MON.

Monday morning at 10:55—mark the time, it's a red letter day in Brady—Brady creek went "over the top" of the second dam. Just a few minutes previous the water surged over the top of the upper dam, and we've got a water supply to carry us through the summer at least.

The rise in Brady creek followed a splendid downpour, which commenced at Brady at about 10 o'clock Sunday night, and which was the most general over the county experienced in many a day.

The rain Sunday night was preceded by a regular gully washer Saturday, which, however, only covered a small portion of the county and which amounted to only a light shower in Brady. At Lohn, however, a two or three inch rain was reported, and in the Fife community a four or five inch rain was reported. At the Willie White ranch east of Fife six inches of rain was reported, with another almost as heavy Sunday night. Considerable damage appears to have been done in some places, fences being washed down, and fields and roads badly washed, while several tanks were reported broken and washed out.

Sunday night's rain appears to have been quite general, in fact the only point in the county reporting insufficient rain being in the Waldrip community and north of Doole, where it is said not enough moisture has so far been received to bring seed up. All other points report splendid rains, with two or three inches at Lohn and Pear Valley, very heavy at Fife, and splendid rains along the line of the Frisco and also of the Santa Fe, as well as in the south and east parts of the county. Some hail fell with the rain, but not enough to do any considerable damage.

Despite the rain, farmers and stockmen are greatly revived in spirit, and farm work is now progressing in full swing. On account of the dashing rain, much of the land has been packed hard, and more rain will be needed within the next few weeks, but for the present everyone appears well satisfied.

The immediate result in Brady was to be found in the resolution passed by the Board of Water Commissioners Tuesday afternoon, raising all restrictions upon the use of water in Brady, and Brady war gardeners may now water their gardens without let or hindrance.

We have a house full of new Trunks, Suit Cases and Hand Bags. Any price. Don't forget this when you may need one.

MISS LOISE BRADLEY APPOINTED SECRETARY OF ALL PATRIOTIC SOCIETIES IN CO.

Miss Loise Bradley has been appointed secretary of all patriotic societies in McCulloch county, including the Red Cross, Council of Defense, Food Conservation club, and others, and will take care of all correspondence between the local bodies and the mother organizations.

Offices are being arranged on the second floor of the Klondike building, which will be used in conjunction with the Brady Y. M. B. L.

The building is being thoroughly renovated and improved, the rear being divided into two rooms, one for use of the classes in surgical dressings, while the other will be used as a Red Cross work room and for packing, as well as for an office.

Food Conservation Demonstration.

The ladies of the Baptist church conducted a very interesting and instructive Food Conservation demonstration at the Popular Dry Goods Co. Various dishes and articles of food were demonstrated, and recipes were given for the articles demonstrated. There was a splendid attendance despite the blustery weather, and the ladies were very much gratified over the interest in their patriotic endeavors.

The ladies of the Episcopal church will conduct a demonstration along the same lines on Friday and Saturday of this week at Benham's store, giving recipes for the products they will demonstrate. Next week the ladies of the Presbyterian church will have a food demonstration at the Jones Drug Co., and each of the seven churches of Brady, will, in turn, give a demonstration.

BROAD MERCANTILE CO. BUY THREE BANKRUPT STOCKS OF E. J. BROAD

Broad Mercantile company have purchased the bankrupt stocks of E. J. Broad at Brady, Brownwood and Menard, and Edd Broad is this week in Brownwood superintending the sale and disposal of the stock at that place. The Brady stock will be placed on sale next Monday, and it is the purpose of Messrs. Howard and Edd Broad to sell out both these stocks as closely as possible. The stock remaining after the sales will be consolidated with their local stock.

It is their intention, however, to continue the Broad store at Menard, with Edwin Broad as manager, and B. W. Hunnicutt, assisting. The Menard store is well located splendidly stocked, and the Messrs. Broad foresee a splendid business opportunity there. Edwin Broad has received a thorough training in the local store, and there can be no question but what he will make good in his new and responsible position.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieved me until I took Cardui...

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

Five Hundred Thousand American Soldiers in France

We dare not delay the VICTORY now. American lives are at stake, our own safety, the safety of the whole world. If we are not to prolong the slaughter and the suffering, if we are not to risk defeat or an inconclusive peace, we must act quickly; we must put forth our every effort now.

The army is doing its part. Five hundred thousand American soldiers are in France today. There will be more tomorrow. And more the day after. We are going to send an army large enough so that when we strike, with our Allies, we can drive the German hordes back across the Rhine—so that we can win the decisive VICTORY that will make American freedom safe, and establish a just and lasting peace.

But the whole nation must take part. Our armies in France are looking to us to furnish them in ever greater abundance, the ordnance, the munitions, the supplies that will make their VICTORY possible. We must not fail them.

The Third Liberty Loan is our share in the winning of this war. Upon it depends the safety and success of five hundred thousand American soldiers in France.

VIRTUES OF FLANDERS MUD

Many Men Have Saved Their Lives by Flopping into It When Big Shells Come Their Way.

Mud in Flanders is awful stuff, but it has its uses. Who that has tramped the three miles or so from the walls of ruined Ypres to the line that stretches from Hooze, in front of Zillebeke, to Hill Sixty and beyond, has not blessed the mud? All across the muddy fields, slipping, sliding and plowing along, we used to follow no pathway, avoiding when possible fields where enemy shells were falling. Then came, sooner or later, the inevitable droning, rushing sound, to grow into a shriek as a big Boche shell came over, writes Frederic Coleman in the Saturday Evening Post.

One was thankful for the mud, then, for the advice I will give to a man under such circumstances, unless his job is such that delay must be avoided, is to go down flop! quick! into the mud. The quicker and the more flop and the more mud the better. That is my way of looking at it. Once you are down all your worries are over. Let her come! If the shell lands on you there will not be enough of you left to do any worrying with. If it does not land on you the odds are overwhelmingly in favor of your escape from all injury.

Many a lad has lain flat in the mud when a big "Black Maria" landed near and dug a hole into which you could put a couple of toxicabs, and never been a bit the worse for it. Yes, the mud has its uses.

MISTAKEN FOR GRAND DUKE

"God forbid, I Am an Honest Man!" Replied Russian Army Leader, in Reply to Salutation.

An amusing story is going the rounds in Petrograd just now concerning General Brusiloff, who can be very direct and brusque in his manner when he chooses.

The army leader happened to be in the capital on business—this was before the revolution—and was mistaken by an officer passing for a certain grand duke of notoriously pro-German sympathy.

Coming smartly to the salute, the officer, who probably, judging from his manner, had some petition for preferment to present, led off with the remark:

"Pardon me, sire, but I believe I am addressing the Grand Duke So-and-so?"

"God forbid!" replied General Brusiloff. "I am an honest man."

And saluting gravely in his turn he passed on.

Politely Searched.

A well-dressed man leaving a Washington theater recently, absorbed in reflection on the performance he had just witnessed, noticed a crowd of theatergoers lingering at the entrance. The W. D. M. did not flatter himself that he was the center of attraction, although he had been somewhat prominent in his home town, and, glancing backward, saw a party leaving the theater, of which the president was the center. This was the cause of all the commotion. At this juncture the W. D. M. lost his equilibrium, stumbled and fell in a heap in the president's path. An alert corps of ever-present secret-service men, instantly on the job, lifted the prostrate W. D. M. to his feet and courteously brushed him off, handing him his hat, cane and glasses. The W. D. M. later confessed to friends that he had a faint suspicion that in the brushing process he had been systematically and incidentally "frisked" for concealed weapons.—Indianapolis News.

How Deaf Mutes Feel Music.

According to teachers of deaf mutes, musical instruction is more important as an educational factor for the deaf child than it is for the hearing, says the Popular Science Monthly.

The parts most sensitive to vibrations are the chest, head, lungs and feet. "An exciting feeling comes up through the floor," is the way one deaf boy describes it. "Without music I would be lonesome," wrote a little Italian deaf mute. "It gives me a strong shock through the feet to the head," stated another. Others, when asked to explain their sensations, said: "I feel it in my temple and in my legs." "I feel it through my whole body," and "I feel it in my chest and lungs."

He Picked Up a Living.

Sir John Kirk, who recently celebrated his fiftieth anniversary of work in connection with the Ragged School union, tells an amusing anecdote of how he once questioned a London walf whom he had befriended as to his method of earning a living.

The young fellow's reply was typical of the London street arab.

"Well, gov'nor," he said, "it's like this. I picks strawberries in the summer, I picks 'ops in the autumn. In the winter I picks pockets, and, as a rule, I'm pickin' oakum for the rest of the year."

Korean Gods Under German Influence.

Koreans are great rumor mongers. Some stories they spread are fantastically absurd. One recently prevailing among the country people, because no rain fell for many days, was to the effect that the long drought was due to German influence with the gods, in revenge for the part Japan has taken in the war, says East and West News. Predictions of famine were current among the Korean farmers and recent heavy rainfall has not altogether removed the anxiety felt among that class of people on the peninsula.
