HAVE YOUR HALF SOLES SEWED ON

Your shoes will be more comfortable and will give you better service if you have your halfsoles sewed on. The soles will be more flexible, and it leaves the insoles smooth and free from nails. Sewed soles are cheaper in the end as the nails ruin the insoles and break the in seam, causing the shoe to give out much sooner than they would if sewed. We use only the best material and guarantee all our work. Let us do your repairing for you.

PRESIDENT WILSON PROCLAIMS JUNE 28 NAT'L WAR-SAVINGS DAY

MEETINGS WILL BE HELD IN EVERY COMMUNITY TO SECURE SUBSCRIPTIONS FOR WAR-SAVINGS STAMPS.

Woodrow Wilson, president of the United States, has issued a proclamation setting aside Friday, June 28th, as National War Savings day, upon which occasion the citizens of every community will meet and pledge the maximum amount of war-savings Stamps they will purchase between that date and December 31st, 1918.

The President's proclamation, together with official notice by Louis Lipsitz, Texas' director of War-Savings, is as follows:

The White House, Washington, D. C.

To the People of the United States:

I earnestly appeal to every man, woman and child, to pledge themselves on or before the twenty-eighth of June to save constantly and to buy as regularly as possible the securities of the Government, and to do this as far as possible through membership in war savings societies. The twenty-eighth of June ends this special period of enlistment in the great volunteer army of production and saving here at home. May there be none unenlisted on that day.

WOODROW WILSON,
President of the United States.

Pursuant to the above proclamation of the President of the United States, the person receiving this notice is hereby summoned to attend a meeting at the schoolhouse in his home school district on Friday, June twenty-eighth, nineteen hundred eighteen, promptly at two o'clock. Read the papers for full particulars concerning these meetings, which every loyal person is expected to attend.

LOUIS LIPSITZ,
Texas War Savings Director, under Authority of the U. S. Treasury.

Here's a Proposition

WE WILL SELL YOU AN EDISON, A DIAMOND OR ANYTHING IN OUR LARGE STOCK OF JEWELRY, CUT GLASS AND SILVERWARE, AND ACCEPT AS PAYMENT LIBERTY BONDS OF ANY OF THE THREE LOANS, PAYING THE DIFFERENCE, IF ANY, IN CASH.

Between now and June 28th, Texas must pledge \$91,000,000 in War-Savings stamps to President Wilson. McCulloch county's quota of this \$91,000,000 has been placed at \$408,000, maturity value. Louis Lipsitz, state director of the War-Savings committee, has called upon the newspapers of Texas to assist him in upholding the honor of Texas to the end that this movement may be a great success. Consequently "Pledge the President" has become the slogan, and every time it greets your eye in this paper, remember the President wants your pledge in the saving and buying of war-savings stamps.

W. D. Crothers, War-Savings chairman for McCulloch county, has appointed E. L. Ogden and Mrs. W. L. Hughes as a committee in charge of the War-Savings campaign in McCulloch county. This committee has been actively planning the campaign for the past week or so, and in order to equitably distribute McCulloch county's allotment of \$408,000 among the various school districts of the county, each district has been assigned a quota, as follows:

Chronic Constipation. Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

Ever Get Bilious? Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous calomel and lashing your bowels with strong, irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

Relief will come just as quickly and with it genuine, lasting benefit. There will be no griping, gnawing, burning pains or doubling stomach ache. Nature's Remedy (NR Tablets) work promptly and thoroughly, but the action is gentle, mild and soothing.

Relief comes through the action of Nature's Remedy on not only the liver, but on the whole digestive and eliminative system.—the stomach, the bowels and even on the kidneys. Stored up accumulations of waste and body poisons that have been clogging the system are completely cleared out, the over-worked stomach is strengthened and the interrupted work of digestion and assimilation is resumed. The inactive liver goes to work with new vigor, the bowels are unburdened, the headache leaves, that dull, "dopey," want-to-crawl-down-a-hole feeling disappears, energy, "pop" and appetite return and you find yourself entirely, completely relieved.

There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day—more than five million boxes sold every year.

If you've not already done so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight. If your constipation is stubborn or persistent, continue to take one each night for a week or so. Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day. After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember it is easier and cheaper to keep well than to get well. Just try it.

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Introducing Congressman Blanton

As imperative business before Congress will keep him in Washington, get acquainted with Congressman Thomas L. Blanton by reading what his people said of him and his record of eight years as District Judge two years ago when he was elected to Congress:

From Leading Lawyers of Abilene.
Judge Blanton has been on the District Bench for almost eight years, and no one who has occupied that hardest of all judicial offices to properly fill, has ever done more than he has to expedite business, economize in the expenditures in his court of the money paid by the State and counties, or in the time and energy of the people attending courts. His unbounded energy, active mind, clean record and undoubted sympathy with effort of the people for all that is best, is so prevalent as to call to his support such a goodly number of the voters of this district as to make his nomination a certainty.
FRED COCKRELL,
R. W. HAYNE.

Endorsed by Hon. S. P. Hardwicke.
Judge Hardwicke stated: That he was the oldest practitioner of the Abilene bar, that during his practice many great judges had been on the bench, but not one had ever so conscientiously performed his duty without fear or favor than had Judge Blanton.

Unsolicited Letter from Dr. C. C. Coleman, then Pastor of the First Baptist Church of Abilene:
Abilene, Texas, Jan. 16, 1911.
Judge Thomas L. Blanton,
Abilene, Texas.

DEAR SIR AND BROTHER:
I wish to say that your course on the bench has given me a world of fresh hope for our institutions. You have demonstrated that a fearless, patriotic judge can do wonders, in spite of cumbersome precedents and methods of procedure, and a prevailing laxity of public opinion. I have often thanked God that we have you on this bench. I have lived in sections of the State where the judge had a very different spirit from yours, and all who stood for law and order keenly felt the difference. Wishing you increasing influence and usefulness.
Heartily yours, C. C. COLEMAN.

The Home and State, Aug., 1912.
Judge Blanton, of Abilene, was triumphantly re-elected District Judge of that district. He has been one of the most faithful officials, administering the laws fairly and justly to all alike, and the people have again rewarded him for faithful services. When men like Judge Blanton are on the bench the law and order of the community are in safe hands.

Why Jimmy Wailed.
The conversation at a social gathering turned to the kindly feeling that is characteristic of some people, when the following story was told by Senator Joseph I. France, of Maryland:

A man was walking along the street in the residential section of a Maryland town when he heard screams issuing from in front of the dwelling. "Who is doing all that crying?" "It's my brother Jimmy," answered the youngster. "He is crying because mother can't see very well and is deaf."
"You don't mean it," responded the man. "What a sympathetic little heart he must have."
"Tain't exactly that, mister," explained the other. "Ye see, ma's mending Jimmy's trousers, and Jimmy's got 'em on."—Philadelphia Telegraph.

From Judge W. E. Spell, a Leading Attorney of Waco.
Waco, Texas, Nov. 3, 1915.

To whom it may concern:
I am going to request a political favor of you. I have a good friend who is a candidate for Congress, Judge Thomas L. Blanton, of Abilene.

In order to form a proper estimate of the man, it is necessary to come in personal contact with him. I say this because in the proper performance of his duty as a citizen he has found it necessary to antagonize some men and some measures, and you know full well the consequences of such action, to wit: strong and unflinching friends, and bitter and unrelenting enemies.

Judge Blanton possesses in a marked degree many of the elements that not only characterize good citizenship, but good statesmanship. First, he is in my opinion absolutely an honest man. Second, he has firm convictions and the courage thereof. Third, he is a correct and clean man in his private life; therefore is a correct and clean man in public place. Fourth, he believes in the proper enforcement of the law; always willing to share his part of the responsibility of such an undertaking. Fifth, he possesses ability above the average. Sixth, he possesses moral and physical courage and the energy to enforce them. Seventh, he is a good true friend. Eighth, he believes in the people and their ability, their honesty and integrity to properly rule.

Judge Blanton is comparatively a young man, in the very prime and vigor of his splendid manhood, and I am sure that he will make you a useful and capable Congressman, and I trust that you will waive any little objection that you may have formed because of some fancied political error, and give him your hearty support for the place he is seeking. He deserves it.
Very sincerely,
W. E. SPELL.

From Hon. A. H. Carrigan, 12 Years District Judge at Wichita Falls.
Wichita Falls, Texas, Dec. 1, 1915.

Hon. Thomas L. Blanton,
Abilene, Texas.

DEAR BLANTON: I have noticed with considerable pleasure that you will be a candidate for Congress next year from your district. I certainly wish you much success. It has been my pleasure to have known you for more than fifteen years and during that time I have had business relations with you as a lawyer and also as a judicial officer of this State.

As a lawyer I regard you as one of the best equipped men of my acquaintance. On account of your studious habits and alert mind you possess a rare ability as a very accurate and profound lawyer. As a judge I have found you eminently fair and of all the decisions I have ever known rendered by you they have been the result of judgment and not prejudice. You have made the State a very efficient judicial officer for seven years. You are now in the prime of manhood and with your industry and accomplishments, it is my opinion that you would make Texas a most excellent representative in Congress, and it would give me much pleasure to have you succeed, knowing that you would perform your services to your country with diligence and ability, and above all that you would in doing this show your high standard of integrity which has characterized your entire life.

Sincerely your friend,
A. H. CARRIGAN.

Excerpt of Public Letter from Judge Geo. E. Critz, Then of Paint Rock, Published in Eden Echo, May 12, 1916.
I am going to take the liberty to advise the people of Concho county to vote for Judge Thos. L. Blanton for Congressman of this district. Blanton advocates several needed reforms, and says he will hit the "Pork Barrel" hard. He is one of the ablest judges in Texas, a self-made man, and has accumulated a nice fortune by his ability as a lawyer and business man. I am sure he would be a live wire in Congress and true to the people.
Geo. E. CRITZ.

Home Endorsement.
Abilene, Texas, March 20, 1916.

We, the undersigned qualified voters of Taylor County, Texas, heartily endorse Judge Thomas L. Blanton as a candidate for Congress.
We believe that the honesty, integrity, ability and unsurpassed energy of Judge Thomas L. Blanton are such as would make him an ideal Congressman.

Endorsement from President of Texas Bankers Association.
To Voters 16th Congressional District:
I have known Judge Thomas L. Blanton for nineteen years, and I heartily endorse his candidacy for Congress. He is not only a fine lawyer and a splendid district judge, but is

Insect Foresight.
On a certain evening last autumn, say the Washington Star, a group of farmers sat round the store in the general store and joined in a general and heartfelt complaint about the ravages of the potato bugs.
"The pests ate my whole potato crop in two weeks," said one farmer.
"They ate my crop in two days," said a second farmer, "and then they roosted on the trees to see if I'd plant more."
A salesman who was traveling for a seed house cleared his throat.
"That's remarkable," he said, "but let me tell you what I saw in our own store. I saw a couple of potato bugs examining the books about a week before planting time to see who had bought seed."

Shackelford County.
Albany, Tex., March 27, 1916.

We, the undersigned citizens of Shackelford County, hereby endorse Hon. Thomas L. Blanton for Congress. He has been a citizen of Shackelford and Taylor Counties for 18 years and we have had every occasion to observe his manly worth and sterling qualities. Judge Blanton made a wonderful success in the practice of law, and his conduct on the bench has been of the highest type, always punctual to his trust, and untiring in his efforts to rid the docket of their burdens, and has dispatched business in a manner that is a credit to any judge. In his private life, he has advocated that which was pure and right, always fighting openly all kinds of vice, and giving his time and money in the defense of all moral issues that have come before the people of his district and State, and we feel that a man of his honesty and ability, and his untiring energy, would be of great service to the people of this district in Congress. We, M. Biggs, Sheriff; R. S. Long, County Clerk; Richard Dyess, Tax Assessor; George T. Latimer, Treasurer; H. Herron, Deputy Sheriff; W. A. Williams (10 years Sheriff); J. S. McComb, merchant (ex-Co. Treasurer); D. Diller, Mayor of Albany; S. S. Diller, stockman; W. L. Manning (former County and District Clerk, and Tax Assessor); P. H. Williams (12 years Tax Assessor); Jno. F. Sedwick, merchant; J. W. George, garage; W. I. Cook, stockman; R. G. Murrie, merchant, and 104 other substantial citizens.

Callahan County.
March 25, 1916.

We, the undersigned citizens of Callahan County, do hereby endorse Judge Thomas L. Blanton for the position of Congressman.

We recommend Judge Blanton as a man of ability, strict honor, integrity, moral habits and unusual energy; that he is a consistent prohibitionist, and while many of us do not agree with him on that question, we know him to be fair and impartial in passing upon all questions coming before him, and nevertheless take pleasure in endorsing him, and recommending his candidacy to all voters in this district.
W. D. Boydston, A. R. Day, J. S. Tidwell, F. F. Rains, J. Rupert Jackson, W. L. Ray, F. E. Alvord, Roy Kendrick, I. R. Keele, Dr. P. W. Cain, and 134 others.

Eastland County.
March 28, 1916.

We, the undersigned citizens of Eastland County, Texas, do hereby endorse Judge Thomas L. Blanton for Congress. During the eight years he has been judge of the 42d judicial district of Texas, he has faithfully kept every promise made to the people, has impartially enforced the laws without fear or favor, has kept strict order, dispatched business and cleared the docket, has forced all citizens alike to do service as jurors and witnesses, and has economically conducted the courts.

He has much ability and untiring energy, is strictly honest and a man of high moral integrity, and we bespeak for him the support of Democrats generally throughout this Congressional district.
T. M. Toombs, L. W. Forganon, E. Roper, J. R. Stubblefield, Dr. Joseph W. Gregory, C. A. Gray, J. E. Garner, Dr. L. L. Griffin, Dr. E. J. Bettis, Dr. W. M. Powell, Dr. A. J. Parks, R. L. Davenport, James Caradine, Charles Hartman, Dr. Thomas B. Busbee, Dr. W. S. Carter, and 376 others.

The Merkel Mail, Feb. 11, 1916.

Judge Thomas L. Blanton defeated one of the strongest, if not the strongest and most esteemed men of Taylor County of West Texas, in a preferential primary last Saturday, the Hon. J. M. Wagstaff, of Abilene, Texas.

True to the pledge published in the Mail three weeks ago that we would support the winning candidate of this primary, we are for Judge Thomas L. Blanton for Congress. We believe, with the aggressiveness peculiar to him, Judge Blanton can do the voters of the 16th district much good. He is credited with being a hard fighter, and without question, some fights should be made in Congress.

Abilene Daily Reporter.
The Reporter is pleased to announce to the people of the 16th Congressional District its support of the candidacy of Judge Thomas L. Blanton of Abilene for the Democratic nomination for Congress. In a preferential primary in Taylor County a majority of the Democrats of the county voted to make Judge Blanton their candidate. For almost eight years he has served the 42d judicial district, of which Taylor County is a part, as district judge, and his record is a good one. He promised the people to dispatch business, to run the courts in a business-like way and to treat everybody fair, and he has made good his promise. He is a young man full of life and energy—the most indomitable of workers we ever met and if successful in the race for Congress will represent the district with ability and an earnestness that will be recognized, even in the halls of Congress. Judge Blanton is a life-long Democrat, has always stood for the highest order of morals, and has the courage to advocate issues that make for clean politics, clean social life and a clean government. He is an Elder in the First Presbyterian Church of Abilene, and teaches a class of men in the Sunday School of that congregation.

Winters Tribune, Jan. 13, 1916.
Judge Blanton is a champion of the great mass of the common people and it is but natural that we hope him success.

The Marfa New Era.
Judge Blanton is recognized as a pure, able jurist, and an honorable gentleman.

The Graford Herald.
We like Judge Blanton's platform. It has the true Democratic ring, and there is not a plank in it that could not be carried out for the betterment of the country.

The Roscoe Times.
Judge Blanton is a man of high character and great ability, virile and aggressive, and is splendid Congressional material.

Rising Star X-Ray.
Judge Blanton has one of the best platforms we have ever read.

Clairemont Reporter.
Judge Blanton has the distinction of being one of the most brilliant men in the Southwest, and a speaker never disappointing his audiences.

The Aspermont Star.
Judge Thomas L. Blanton is an able jurist, and well qualified for Congress. We have known him for years, were brother lawyers at the same bar, he being one of the leading lawyers of his district. He is a self-made man, a graduate of the University, is chock full of energy, will reflect honor on us in the halls of Congress, and if elected there will be something doing in Washington. Keep your eyes on him. He is a man who never fails.

The Avoca Telegram.
We have heard Judge Blanton speak in both political and fraternal gatherings, and consider him able and worthy to fill any office within the gift of the people.

Loraine News (Mitchell Co.).
Vote in Loraine, for Congress: Blanton, 157; Smith, 112.

HONEST INJUN—

Every time some men think about the War, they lift the scalp clear off of Good Times.

—Pledge the President—

PLEDGING THE PRESIDENT.

On June 28th every citizen of McCulloch county, as well as of Texas and the entire United States, will be called upon to pledge the amount of War Savings stamps he or she will buy between now and December 31st. No citizen is exempt from this request and lists will be made and kept of all citizens who fail or refuse to obey the request. The government needs a united nation behind it in the war. It needs the support, financial and moral, not of only the very rich, but of every citizen, rich or poor. The War Savings stamp pledge will reach everyone—it will touch the pocket-books of miser and spendthrifts, of the lowly and the exalted, of the rich and the poor. It will prove the fiery test and here's hoping McCulloch county may show up no slackers.

CANADA REDUCES POSTAGE ON PAPERS.

"The Canadian Government, wishing to reduce the war burdens so far as it could, and to encourage the wide dissemination of knowledge, some time ago reduced the postage rate on Canadian publications 50 per cent during the continuance of the war," says the Medical Record. "It has established no zone rate of postage by which the printed word is reduced to the same level as salt, pork and tobacco, but sends any newspaper, magazine or medical journal from its place of publication to any part of the British Empire—London, Shanghai, Bombay or Jamaica—at the rate of 3/4c per pound.

"Publishers in the United States pay four times as much, or 1c a pound on their publications to any part of the country, and on July 1, unless the burdensome law passed some time ago by Congress be repealed, this rate, will be increased 50 to 900 per cent, according to the distance from the place of publication at which the subscriber lives."

—Pledge the President—

THE WOMEN VOTERS.

"Dillary, dollary, din,
There's nothing like the tin,
First we're out, then we're in
And now we're out ag'in."

A rather complicated situation has arisen with reference to the women of Texas voting, due to the various opinions given out upon the new law enabling women to vote. At first it was generally understood that the ladies would have to register. Then the attorney general gave it as his opinion that the ladies in towns and communities of less than 10,000 population would not be required to register in order to vote in the 1918 elections. Now he has receded from this position and makes announcement that it would be safest for all women of Texas who expect to vote, to register during the period of June 26th to July 13th.

His final opinion is based upon the fact that a number of attorneys have disagreed with his interpretation of the law, and to avoid any possibility of an election being declared illegal, he advises that women voters register the same in the smaller communities as is required in the larger communities.

It is urgently desirable that every woman register in order to enable herself to take her rightful place at the polls. Many women have declared their intention of not voting. If most of the better class of women follow this rule, it will of a necessity, leave the women's vote in the hands of the transient, and lower class of citizens. Let every woman give the matter careful consideration, and then prepare herself to vote for the issues that make for good government and good citizenship.

GLOBE OIL CO. SPUDS IN ON COX PLACE, MERCURY

The Globe Oil Co., sometimes spoken of as the Fidelity Oil Co., Tuesday spudded in on the Cox place, some three and a half miles southeast of Mercury. The company has had their rig up for some weeks, but the beginning of operations was held up pending receipt of some necessary tools.

The Burford and Brimm well on the J. F. Cawyer place, one and one-half miles southeast of Mercury, suspended operations the greater part of last week, for repairs on their boiler. Drilling was resumed Monday, and is now progressing at a depth of about 1,100 feet.

At Milburn the Cunningham well is said to be a depth of about 1,300 feet. It is drilling in very hard lime rock and is making progress at the rate of only about a foot an hour, or twenty-four foot per day on a day and night shift. Several more showings of oil have been encountered in the well.

At Rochelle another packer has been received at the Southwestern Petroleum Co.'s well on the J. F. Crews' tract, and the drillers are making another attempt to shut off the water. Just what success has attended their efforts is not known. The Great Eastern Oil Co., on the Baker ranch is shut down awaiting repairs for their mast.

C. A. Bowen yesterday began the removal of his rig on the Hall-Dutton tract, eleven miles north of Brady to a new location. The crooked hole in the oil well proved an insurmountable obstacle, and upon the advice of geologists, it was decided to move the rig one-half mile east from the old location. At this point, it is said, they have not only a better location, but are assured of a better run for their money, inasmuch as they will avoid the great dip in the rock which caused the crook in the old hole. Mr. Bowen is very much pleased with the new location, and hopes soon to be able to report rapid progress in the drilling of the new well. Thad O. Day, who has charge of the drilling, is at present in Kansas on business, and Mr. Bowen is looking after the moving of the rig in person.

Respect for Mourners.

Manager Piez of the Emergency Fleet Corporation, told a story at a Washington reception.

"An excuse, even a rank excuse," he said, "will often work wonders. For example:

"A Canadian on a visit to London went to see the British Museum and found it closed, it being one of the institution's regular 'close days.'"

"Let me in, can't ye?" the Canadian said to the policeman at the gate. "I've come all the way from Canada."

"No, sir, I can't let you in," said the policeman, firmly. "The museum is closed today."

"Say," roared the Canadian, in sudden anger, "ain't I a citizen of the British empire, and ain't this public property?"

"Sure," said the policeman, "sure."

And then the policeman became wildly enraged in his turn. "But one of the mummies died last night, and do you begrudge us one day to bury him in?"

"The Canadian looked ashamed.

"Oh, excuse me," he said, in a shocked voice. "In that case I won't intrude."—Washington Star.

SOCIETY

Five Hundred Club.
The Five Hundred club was entertained last Friday afternoon by Mrs. Dick Winters, the following club members being in attendance: Mesdames C. D. Allen, J. S. Anderson, B. Simpson, W. E. Campbell, G. C. Kirk, G. R. White, J. G. McCall, Wiley W. Walker, F. R. Wulff. Guests were Mesdames Cal Estill of Grapevine, Edward Willoughby of Eldorado, Bailey Jones, J. R. Stone of Brownwood. Mrs. Allen received the prize, a Red Cross dollar, for high score. The hostess served in ice course. The club meets tonight with Mrs. F. R. Wulff, the gentlemen being invited guests.

W. M. S.

The Woman's Missionary society met at the Methodist church Monday afternoon at 4:00 o'clock. The following program on "Social Service" was given:

Bible Lesson: "Jesus Observance of the Sabbath Day," Mrs. Forester.
Topic: "The Observance of Worship Day in China," Mrs. Ira Mayhew.

Topic: "The Influences in Our Community that are Drawing Christians Away from the Religious Use of Sunday," (Questionnaire) Mrs. Ed Broad.
"Bible Woman's Work and Our Missionaries in Japan," Mrs. Britton Embry.

Messrs. Duke Mann, Jas. Mann and O. D. Mann having attended the annual conference of the Woman's Missionary society at San Antonio, gave an interesting report. At the conference they had a fine program on "Christian Stewardship, Social Service and Student Volunteer Work."

The Centenary, a celebration of 100 years mission work to be held July 5th, 1918, was especially stressed throughout the entire conference. During this year a program will be made, outlining five years' work of reconstruction in the war-torn countries, and will be given at the centenary. Thirty-five million dollars is the goal set for this work by Southern Methodism, and they hope to make it fifty million dollars. If every member in Southern Methodism would save ten cents per week for five years this amount could be easily raised at a small sacrifice.

The question has been asked: "Has Christianity Failed?" We are fighting

for democracy. Unless Christianity be interwoven with democracy, will democracy be worth while?

"OUR PART IN THE WAR" SUBJECT STIRRING ADDRESS AT COURT HOUSE

Rev. M. E. Davis, who has charge of the Baptist meeting at the Methodist tabernacle, delivered a stirring address at the court house at 4:30 o'clock Wednesday evening. His subject was "Our Part in the War," and a good attendance was had, and his words were given close attention. Rev. Davis said there were three essential points for those of us not in Uncle Sam's army to observe, and which were necessary to the winning of the war. These were: 1st, Economy; second, Production, and third, Industry.

PERSONAL MENTION

A. F. Turner was among the visitors here from Camp San Saba Wednesday.

Mr. and Mrs. G. C. Kirk drove to San Angelo Tuesday for a visit with relatives.

Jay Priddy left Tuesday for Eden, where he will visit his grandfather, Charles Pfleger, for several weeks.

Mrs. A. R. Hooper returned Tuesday from a visit of a couple weeks with her parents at Kennedy, Texas.

Mr. and Mrs. Thos. Donnell left Thursday for Mineral Wells, where they expect to spend a month or six weeks recuperating.

Miss Bernice Bell returned Thursday from Abilene Christian college, and will remain with home folks during the summer months.

Mrs. Wm. Bauhof and daughter, Nance, have returned from Dallas, where they have been the past several weeks with Mr. Bauhof.

Mesdames Curtis Benson and Rockett Hall are spending a week or two in Waco and Corsicana visiting their sisters and relatives at these points.

Miss Minnie Jarvis Crothers has returned from a visit with her sister, Mrs. H. M. Brannum, at Fort Worth and brother, W. F. Crothers, at Dallas.

Harry Miller returned the latter part of last week from Independence, Kansas, where he has been working in the oil fields the past several weeks.

C. H. Bradley was here from Temple Friday on a brief visit. Mrs. Bradley, who had been a guest of friends in the city, returned home with him Saturday.

Mrs. J. R. Stone and daughter, Mable Doty, returned to Brownwood Saturday, following a visit during the week with her father, W. P. Doty, and friends in the city.

Dudley Kennedy, Jr., was here from Dallas Friday and Saturday as a guest of the editor, while on his regular visit as representative for the West-Cullum Paper Co., of Dallas.

Mrs. Charles Rowe of Houston is spending a month or more in Brady as a guest of her mother, Mrs. Rockwell Hoskins. She is accompanied by her two little daughters, Elizabeth and Inez.

Mr. and Mrs. Lewis Brook, daughter, Edith and little son, returned Monday from San Antonio, where they have been spending several weeks visiting their son, Jamie, and other relatives.

Messrs. Gibbon Roberts and O'Farrell Craddock returned Sunday from Vanderbilt university at Nashville, Tenn., where they have been studying medicine the past year, and will remain during the summer with home folks here.

Allen McShan was in Brady from Thursday to Saturday, enjoying a 48-hour leave of absence, which he enjoyed with home folks and friends. Allen is looking fine, and all his friends are proud of him. He returned to Camp Travis Saturday.

Corporal Elmer E. Martin, who has been recruiting for Uncle Sam's army at the local postoffice, reports another recruit secured this week in the person of John F. Davis of Fredonia, who enlisted in the coast artillery. Corporal Martin left yesterday evening for his home at Burleson, Texas, on a leave of absence, but will return Monday morning and again take up his work at recruiting.

J. S. Abernathy returned last Thursday from Del Rio, where he has been the past month employed in carpentering on government work. He reports that the government has just completed the building of 15 mess halls, 15 stables, some five or six warehouses, besides officers' quarters. He says further that the government expects, within the next few weeks, to double the buildings already completed. Mr. Abernathy does not expect to go back to Del Rio, but for the present will be employed on the new Dick Sellman ranch home.

Mesdames J. G. McCall and Sam McCollum returned Wednesday morning from Fort Worth, where they heard the lecture delivered by Pat O'Brien. O'Brien was an aviator in the French Escadrille and after bringing down one plane soon after beginning his flights over the German lines, he himself was brought down and made a prisoner by the Germans. He escaped by leaping from a train running at about 35 or 40 miles an hour

and then by wandering at night thru Germany, Luxemburg and Belgium. At the border of Holland he dug with his bare hands under the electric wires guarding the frontier, and finally made his way after weeks of wandering, to freedom. His lecture was highly interesting and was greatly enjoyed.

Dr. Wm. C. Jones and family are enjoying a visit from his mother, Mrs. P. J. McNeill of Evant, Texas, and brother, W. H. McNeill of Norfolk, Va. Mr. McNeill is a civil engineer in the employ of a large construction company at Norfolk, which company has been building warehouses for the government overseas goods. He was in Norfolk in January when incendiary fires broke out all over the city, destroying property running up into the millions of dollars. He says the weather was bitterly cold, the thermometer standing a 6 degrees below zero. The firemen had to thaw out the hydrants before they could get any water, and in the meantime several of the firemen were drenched with water so that they actually froze to the pavements. He talks very interestingly of the war activities in the East.

NEXT BIG DRAFT ABOUT JUNE 25—20 MEN CALLED

During the period of June 25th to 30th twenty men will be entrained by the local board for Camp Travis, in response to a draft call from Provost Marshal General Crowder. Preliminary notices have already been sent out by the board to some twenty-four registrants, in order that there may be a sufficient number notified to assure sending the county's full quota. The board is now awaiting schedule by which they will be guided in sending out the next draft. It is thought likely that the movement will be made on the 25th instant, and announcement of the men to compose the draft will be made next week.

On June 19th the board will entrain three negroes. The men to compose this draft have also not yet been selected.

Earl Washington and Dudley Spencer, both colored, were sent to Camp Travis last Friday in response to a draft of colored men.

William Thomas Meador of San Saba will be entrained on June 15th for College Station, and Erma Oliver and Flavia Pennington, both of Brady, will be entrained on June 27th for Austin. All these men will go in response to a call for mechanics.

To the very smallest detail the Chevrolet reflects the ideals of the makers to produce a really high-grade car at a popular price.

That the Chevrolet is more commonly compared with cars selling at much higher prices is justification for the conscientious effort of its manufacturer.

The new model Chevrolet "Four-Ninety" Touring Car and Roadster, attain a standard of excellence uncommon of cars at these prices. This is a claim we would be delighted to prove—we would ask no greater favor than to do so.

Would you have a good-looking car? The Chevrolet has it in full measure. Would you have strength? Vanadium steel is used wherever unusual strength is required. Would you have comfort? Proper spring suspension together with comfortable upholstery and roominess meet your comfort-wishes to the fullest degree. Would you have power and low upkeep? The wonderful valve-in-head motor with which each Chevrolet is equipped provides power far in excess of ordinary requirement or emergency; and the direct-application-of-power principle insures maximum power on minimum fuel. Twenty-five miles per gallon is a common thing for this Chevrolet. And the car is fully equipped.

Suppose you let us demonstrate that we have not overstated Chevrolet quality.

Bone Dry

Every Still Better Willard Battery that comes out of the factory is made and shipped dry. This absolute dryness is your guarantee that the battery has not lived a part of its life before you buy it.

For every battery begins to age from the very minute the battery solution first touches it. But when you know that the battery you buy is bone dry up to the time you buy it, you can be sure

that you are buying a brand new battery.

Still Better Willard Batteries cost more but they're worth it, both because the "Bone Dry" plates are your assurance of battery newness and because the Threaded Rubber Insulation also means increased efficiency. "How did you get hurt?"
"Well, you see, mister," the soldier answered, "I was leaning up against the barrage, and when it lifted all of a sudden I fell into a shell hole and broke my leg!"

THE LITTLE HOME PAPER.

The little home paper comes to me. As badly printed as it can be; It's ungrammatical, cheap, absurd— Yet how I love each intimate word! For here am I in the teeming town, Where the sad, mad people push up and down, And it's good to get back to the old lost place, And gossip and smile for a little space.

The weather is hot; the corn crop's good; They'd have a picnic in Sheldon's wood. And Aunt Mary was sick last week; Ike Morrison's got a swollen cheek. And the Squire was hurt in a run-away— More shocked than bruised, I'm glad they say, Bert Willis—I used to play ball with him— Is working a farm with his Uncle Jim.

The Red Cross ladies gave a tea, And raised quite a bit. Old Sol MacPhee Has sold his house on Lincoln Road— He couldn't carry so big a load. The Methodist minister's had a call From a wealthy parish near St. Paul. And old Herb Sweet is married at last— He was forty-two. How the years rush past!

But here's an item that makes me see What a puzzling riddle life can be. "Ed Stokes," it reads, "was killed in France. When the Allies made their last advance." Ed Stokes! That boy with the laughing eyes As blue as the early summer skies! He wouldn't have killed a fly—and yet, Without a murmur, without a regret, He left the peace of our little place, And went away with a light in his face; For out in the world was a job to do, And he wouldn't come home until it was through! Four thousand miles from our tiny town And its hardware store, this boy went down. Such a quiet lad, such a simple chap— But he's put East Dunkirk on the map!

YEARS OF TROUBLE ENDED AND SHE HAS GAINED 15 POUNDS

"My Friends Say I'm Looking Years Younger," She Says—
Tanlac Brings Relief.

"When I began taking Tanlac I had been down in bed for three months and just think of it, I'm feeling as strong and healthy as I ever felt in my life," said Mrs. Mollie J. Lord, who resides at the East Denver High School, Denver, Colorado, in an interview recently. Mrs. Lord has lived in Denver for the past twenty-five years, her husband has been in charge of the East Denver High School building for twenty-two years, and they are highly respected by all who know them.

"Years ago," continued Mrs. Lord, "I had an attack of bronchitis from which I contracted catarrh of the head and stomach. The trouble got a firm grip on me because for a long time I tried to make myself believe I didn't have catarrh, but at last I realized I was in a bad fix. My nose and throat were feverish and the mucus collecting in my throat would pause and almost choke me. My stomach got in such a bad condition I couldn't even eat potatoes or toast. In fact, everything would sour almost as soon as I had eaten it and the gas caused such a burning and fluttering around my heart that I was afraid I had heart trouble. Sleep seemed impossible for me. I would toss and roll in bed and have to jump up every little while so I could get my breath. My kidneys worried me constantly and my back hurt me so bad at times it felt like it would break in two.

"I doctored and took everything I heard of but kept getting worse until I just had to give up and go to bed. I never got any better until I began taking Tanlac and it certainly has been a Godsend to me. I can tell from the way my clothes fit that I have gained all of fifteen pounds and I have not only gotten entire relief from the catarrh in both my head and stomach, but my kidneys are also in perfect condition and I don't have any more pain in my back. I go to sleep as soon as I get in bed and sleep soundly all night long. My stomach never troubles me now and oh, it's such a pleasure to be able to eat what I want without suffering afterwards. And since the gas has stopped forming all the burning sensation and palpitation of the heart is gone. My friends say I'm looking years younger and I can certainly endorse Tanlac in the highest terms, and expect to always have it on hand in case I should need it."

Tanlac is sold in Brady by Jones Drug Co., in Melvin by Oscar Sellers, in Rochelle by C. W. Carr, in Pear Valley by Ludwick & White, in Mercury by J. T. Matlock and in Fife by R. K. Finlay & Sons.

WINDSTORMS AND HOW TO AVOID INJURY FROM THEM

Uncle Sam's experts, connected with the United States Weather bureau, during the past few months have been making some new experiments and investigations in reference to windstorms and tornadoes, which should interest and prove of value to boys who are much in the open.

Tornadoes, they have discovered, are usually preceded by high temperature and humidity, a weather condition generally said to be "sultry," "sticky," or "oppressive." Rain may come before, with, or after a tornado, or, very rarely, there may be no rain at all. The barometer does not foretell a tornado, though it indicates low pressure; and tornadoes always occur in a "low" area.

The season in which tornadoes may be expected varies according to the region. They may visit the Gulf States in winter, and as the season advances, the region of greatest frequency is in the Plains States, and the Mississippi Valley, from April to September inclusive. In this region May is the worst month, with April next. East of the Appalachian Mountains, however, tornadoes rarely occur until after July. Generally they come between 3:30 and 5:00 p. m., but they may come at night.

Tornado danger may be avoided to an extent by watching the local signs; these are heavy, dark clouds, first in the southwest, almost immediately followed by clouds in the northwest and north. A funnel-shaped cloud is a sure sign, though there may be no really seen. If a funnel cloud cannot be seen, the whirling motion of the air may be known by a peculiar roaring noise, somewhat like the rumble of distant thunder or the approach of a heavy train of cars.

If one can see the cloud and get an idea of the direction in which it is moving, he may know the zone of safety is at right angles to the direction of motion. The southern margin is usually more dangerous than the northern, and this should be remembered in seeking a place of safety. The width of the path of greatest destruction is ordinarily not more than a few hundred yards, though this destructive diameter may be from some rods wide to a half-mile, or sometimes wider.

In some of the Plains States there are so-called "cyclone" cellars, and where these are not available the southwest corner of the cellar of a frame building is the next best place. Brick buildings are not so safe, but the cellar is probably the safest place in them.

Uncle Sam's weather men define a tornado as "a violent windstorm with rain or hail, thunder and lightning, in which the air masses whirl with great velocity around a central core, while the whole storm travels across the country in a narrow path at high speed." The thunder and the whirling motion have given rise to two theories of the derivation of the word; as to whether it is derived from the Spanish "tronada," a thunderstorm, or from the Latin "tornare," to turn.

A cyclone, in the definition of the Weather bureau, is not necessarily a windstorm of great velocity but rather a widespread storm that moves with no great speed. Its width may cover several states. This cyclone, or area of low pressure—indicated as "low" on the weather map—gives conditions essential to tornadoes. Many cyclones never develop a tornado, but a tornado never develops without a cyclone, and almost invariably the tornadoes occur in the southeast quarter of the low area. About 120 cyclones pass across the United States each year, moving in a general way from west to east. They are of great benefit because they induce a movement of surface air from the south and southeast, and the rainfall that makes the great interior valleys a rich agricultural region is dependent upon these southerly, moisture-bearing winds.

Practically all of the cyclones of the warm season give rise to some time or place of thunderstorms, or hail or violent winds. These winds may be violent enough to cause destruction, but unless they have the whirling column of air they are not tornadoes. In the East it is not always easy to distinguish the funnel-shaped cloud, but the lay of the debris after a storm will tell whether there has been a twisting motion.

Tornadoes almost invariably move in an easterly direction and generally from southwest to northeast. The average length of the path of destruction is about twenty-five miles, and this path may not be continuous, if the funnel cloud is not in contact with the earth during its whole course. Sometimes it rises and goes for a considerable distance before descending again.

Method in His Kindness.

A lady saw a little boy go into a shoemaker's shop with a small parcel. She asked him what was in it. The reply was:
"Oh, it's just mamma's shoes which has a nail sticking out of the bottom of the sole, so I've come to have it taken out."

"You are a good boy to have so much thought for your mother," remarked the lady.
"Oh, it is not so much for that, madam," was the reply; "but this is the shoe ma spanks me with."—Pearson's Weekly.

BALLINGER OFFICERS CERTAIN BODY FOUND AT WALDRIP THAT OF DROWNED PRISONER

The following article, reprinted from the Ballinger Ledger, gives in detail the circumstances surrounding the drowning of the Mexican, whose body was recovered from the Colorado river at Waldrip last week:

Sheriff Perkins received a phone message late this afternoon from J. C. Wall, sheriff at Brady, saying that the body of a Mexican was taken from the Colorado river at Waldrip. The body was in such state that it had to be buried at once.

This is the Mexican who was under arrest by Ranger Bun Morgan and was caught in the rise on Elm Creek.

Mr. Morgan left Ballinger about 5 o'clock Saturday afternoon, having in charge a Mexican, wanted for desertion. He was en route to Ft. Worth where he was going to deliver the Mexican to the proper army authorities, and was making the trip in his auto. He had planned to drive thru to Albany, where he expected to place the Mexican in jail for the night, spend the night with his brother, and continue the trip to Ft. Worth Sunday morning.

The Mexican was apprehended here by State Ranger Jim Flynt a few days ago, and was arrested on charge of desertion, having failed to answer the draft call at Del Rio, Texas. Mr. Flynt could not leave home and had deputized Mr. Morgan to take the Mexican to Ft. Worth and receive a reward of \$50 for his delivery.

A short time after noon Saturday heavy rains fell along Elm Creek, east of Hatchel. These rains brought down a sudden rise in the creek, and caught Mr. Morgan without warning.

Upon arriving at the Runnels crossing the officer found the creek on a slight rise, but not too high to prevent crossing at that time. The water came up to the running board of the car, and the driver would have experienced no trouble had he not had the misfortune to kill his engine. When the car struck the water a splash from the water drenched the engine and ignition, making it impossible to start the car after the engine had stopped.

Before the officer and his prisoner could get the car out a wall of water came down, sweeping the car off the causeway and down stream, turning the car over several times.

Preparatory to getting the car out of the water, Mr. Morgan and his prisoner had partly undressed. Mr. Morgan left the car before it went over the causeway, and swimming to a knoll escaped the strong current of the raging stream, and later made his way to safety.

The Mexican was carried down stream with the car, but also made his way to the knoll, and told Mr. Morgan that he could swim to the bank. The officer instructed the Mexican to follow him, and in an attempt to do so, he was carried down stream. The Mexican called for help as he was swept under brush and out of

sight. The Dodge roadster, almost new, owned by Mr. Morgan was recovered about noon Monday and brought to a local garage. The car was badly damaged from mud and water, as well as being damaged from the turn over and wash among drift wood.

"We feel sure that the body of the Mexican recovered from the Colorado river sixty miles south of Ballinger was the body of the Mexican drowned here last week," said Sheriff Perkins and State Ranger Flynt.

Some are inclined to doubt the identity of the Mexican, contending that it is hardly possible and something very unusual for a dead body to drift that distance, and especially having to drift for some distance down the creek before being washed into the Colorado river.

Mr. Flynt says that the body found near Brady in the Colorado river suits the description of the Mexican drowned here in that he had on his underclothes, and was wearing a small band ring on his finger. The body found was attired only in underclothes and a small band ring was on the finger of the dead Mexican.

It will be recalled that a third rise came in the creek just about the time the body should have come to the top and it is the theory of the officers that the body came to the top with the third rise and floated clear of drift until it was found Tuesday afternoon above five o'clock at Waldrip, in McCulloch county, about sixty miles below Ballinger. The body was badly decomposed and was buried near where it was found Tuesday night.

The government pays \$50 reward for the delivery to the proper army camps of slackers, but it is not known whether the reward will be paid or not, but as the reward and cost of returning slackers and deserters to camp is assessed against the man and paid out of his soldier's salary, it is not probable that any reward will be paid in this case.

Mrs. Pollard Dies in Oregon.
Wonder, Oregon, June 1, 1918. We are sorry to report the death of Mrs. T. A. Pollard, whose burial and funeral services took place on last Sunday. Mrs. Pollard was loved by all who knew her and I never saw as many flowers heaped upon the grave of any one by loving friends and neighbors as were placed upon hers by sympathetic hands.

Mrs. Pollard's maiden name was Mamie Devore. She was a cousin of Otto Armstrong of Brady, Texas, and of Mrs. A. B. Reagan of Brady. She leaves a husband and two children to mourn her loss. A little girl, Bonnie Pollard, aged eleven and a little boy, Guy Pollard, aged nine. Mrs. Pollard was also a second cousin to Margaret Frances McClure of Brady. Her mother, Mrs. Nettie Devore lives in Alberta, Canada.

The Kaiser's Jig.
The belief that the Kaiser is either mad or on the verge of madness will be confirmed by the account which Carl Ackermann gives of a young German moving picture operator's experience with that versatile monarch.

Not long ago, it appears, he was ordered to Belgium to follow and photograph His Majesty. At Ostend the Kaiser was walking along the beach with Admiral von Schroeder, who is in command of the German defenses there. The movie operator followed him.

The man had been following the Kaiser for several days, so His Majesty recognized him and ordered him to put up his camera and prepare to make a special film. When the camera was ready His Majesty danced a jig, waved the baton he was carrying, and then his helmet, smiled and shouted greetings to the camera man—then went on along the beach.

When the photographer reached Berlin and showed the film to the censors of the general staff they were shocked by the action of the Kaiser at Ostend. They ordered it to be cut out of the film because they did not think it advisable to show the German people how much their Emperor was "enjoying the war."—London Tit-Bits.

WOULD CONNECT CHICAGO WITH NEW YORK

The Type Used in One Year to Publish Endorsements of Doan's Kidney Pills.

Of the many kidney remedies on the market today, none other is recommended like Doan's Kidney Pills. Fifty thousand benefited people gladly testify in the newspapers of their own towns. Forty-five hundred American newspapers publish this home proof of Doan's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 50,000 tongues sound glad tidings to any Brady sufferer who wants relief from kidney and bladder ills. Here's a Brady case Don't experiment. Use the remedy endorsed by people you know.

W. McShan, lawyer, says: "Doan's Kidney Pills have been very beneficial to me. I have used them at different times, when in need of them, and they have always relieved my back and strengthened my kidneys." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McShan had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

HEAVY WAR TAX ON AUTOMOBILES SEEMS POSSIBLE

Washington, D. C., June 9.—Heavy taxes upon all luxuries will be imposed by the new revenue bill, which the house ways and means committee is drafting. This was decided upon by the committee Saturday in considering the various sources of revenue that may be levied upon in making up the \$8,000,000,000 budget.

The committee also decided that automobiles, except those in the government service, should be classed as luxuries and should bear a heavy tax. The tax imposed in last year's bill of 3 per cent on the sale price will be more than doubled, it is understood. This tax was estimated to produce about \$25,000,000 and the committee feels that \$50,000,000 or \$75,000,000 should be realized from this source.

The proposal to impose a federal license of from \$50 to \$500 on every car in use is also being considered.

Jewelry and precious stones, essentially luxuries, will be heavily taxed. H. B. Spalding, representing a firm of sporting goods manufacturers, appeared before the committee this morning to ask that the tax on athletic goods be not excessive. He admitted athletic goods are luxuries, but made a special plea for a light tax on baseballs and footballs upon the ground they are being largely used by sailors and soldiers.

Bert Johnson of Washington advocated abandonment of the postal zone system on periodicals and the substitution of straight tax on advertising.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

"Yes, me soldier," replied the Indian. "How do you like being a soldier, John?"

"No like-up."
"What's the matter?"
"To much salute — not enough shoot."

"Of course you know what you are fight for, John?"

"Yes, me know," answered the Indian.

"Well, what are you fighting for, John?"

"Make whole damn world Democratic party," answered the Indian.—Kansas City Journal.

DON'T Slow Up Advertising NOW!

Never has there been a time when the public has looked more keenly for MERCHANDISING NEWS than now.

Never has there been a time more auspicious for the enterprising tradesman to secure HIS FULL SHARE OF TRADE than now.

People must continue to eat, to wear and to use.

The tendency is to cut out luxuries, and luxuries are only a relatively small proportion of your business. For every luxury cut out you have a chance to increase your movement of staples.

How short-sighted is the policy of reducing advertising expense to "save money." You will only lose trade. You will only lose prestige.

Advertise to increase sales and make more money; don't cut it out to save money.

Study your advertising as you never did before—do it wisely and well.

Be prosperous and let the people know that you are prosperous.

Success was NEVER achieved by stopping advertising or by wearing old clothes and talking pessimism.

PRESIDENT WILSON PROCLAIMS NAT'L W.-S. DAY

each school district must make up her quota in full. Meetings will be held in every school district in the county on June 28th, such meetings being held at the school houses in each instance, with the exception of at Brady, where the meeting will be held at the court house.

With reference to the proclamation of the President, Louis Lipsitz, War-Savings director for Texas, makes the following announcement:

"Pursuant to the proclamation of the President of the United States and the Governor of this state, I, Louis Lipsitz, War Savings director for Texas, acting under the authority of the United States Treasury department, have called all tax-payers and wage earners to meet on Friday, June 28th, to make their subscriptions for War Savings Stamps. In rural communities and the smaller towns and cities, meetings will be held in the school houses at 2 p. m.

"The school officers will conduct the meeting in each school house, keeping a record of the proceedings and reporting the names of all persons present and the amount of War Savings Stamps subscribed for by them. The names of absent persons, and of those who refuse or neglect to subscribe, with their reasons for so doing, will also be reported.

"War Savings Stamp (which the United States Government bonds the same as Liberty Bonds) can be paid for during any month in the year 1918 but it is intended that subscriptions will be signed for them on June 28.

"The price of each War Savings Stamp depends upon month during which it is bought. During June each Stamp will cost \$4.17. In July each Stamp will cost \$4.18, and so on, one cent more each month during 1918. On January 1, 1923, the Government of the United States will redeem all War Savings Stamps at \$5.00 each, no matter during which month in 1918 they were bought. They cost less during the early months in 1918 than during the latter months because the person who buys earlier has loaned his money to the Government for a longer time than if he should buy later.

"The law provides that no person can hold in his own name War Savings Stamps exceeding \$1,000 maturity value. War Savings Stamps, however, may be purchased for other members of the family, including minor children.

"The money invested in War Savings Stamps is not a gift or a donation, but is a loan to the Government. It will be paid back with 4 per cent compound interest. If, because of some serious financial reverses, or calamity, it should be necessary to get your money before January 1, 1923, you may do so by giving ten days notice to any Money Order postmaster, in which case you get what you paid for the Stamps, with interest to date of payment. The Stamps are free from all state and local taxes; when registered at the postoffice they are insured against loss; they are backed by all the property in the United States; they cannot fall in value below the price you pay; they are as convenient and as well paying an investment as has ever been offered by our Government.

"A definite quota of War Savings Stamps has been assigned each school district and community, which will be announced at each meeting on June 28th. The government of the United States expects all the citizens of every school district to subscribe for its quota and to pledge themselves to save and economize to help win the war.

"It is to be hoped that the subscriptions taken at the meetings in your county will show you and your neighbors to be loyal Americans to whom our Government, in this hour of need, does not call in vain."

BRADY SENTINEL CLOSES DEAL FOR LINOTYPE—NEW MACHINE VALUABLE ADDITION

Arch M. Culmore, representing the Intertype Corporation, and C. F. Lehmann, representing the Mergenthaler Linotype Co., have been in the city this week talking the merits of their respective typesetting machines to Editor Sellers of the Brady Sentinel. Mr. Lehmann appears to have had a little the best of the talk-fest, for he pocketed the contract for the machine. Mr. Sellers choice resting upon a Model 5 linotype. It will be a month or more before the machine can be shipped and erected.

Editor Sellers is quite proud of his new purchase, inasmuch as it is a valuable addition to his equipment and will enable him to do away with the setting of type by hand—a method that is at once laborious and time-consuming. The typesetting machines are rapidly supplanting the old-time hand compositor in all the country offices, and their use enables the editor to issue not only a better and more readable paper, but to handle an amount of type that would be impossible with the old-style methods.

CHAUTAQUA IS ASSURED HERE FOR NEXT YEAR

Brady citizens are assured of a chautauqua program next year, a contract having been signed with the White & Myers Chautauqua system manager, Mr. W. G. Pearson, following the closing of the chautauqua program on last Thursday. The White & Myers Co., promises many new and interesting features for next year, and in view of the general excellence of the programs given the past two years, no great difficulty was experienced in securing the required number of guarantors for the next years contract. In fact, instead of the requested twenty guarantors, thirty of Brady's most prominent citizens have indicated their endorsement of the chautauqua as an annual feature in Brady by attaching their names to the guarantee.

Citizens to whom credit must be given for securing this attraction for

another year are the following:

BAPTIST MEETING IN PROGRESS—REV. M. E. DAVIS INTERESTING SPEAKER

The meeting at the Baptist church began last Sunday morning. Rev. M. E. Davis being in charge. The services are being held, by courtesy of the Methodist denomination, in the Methodist tabernacle, and a good attendance and interesting meetings are reported. Rev. Davis is an eloquent and patriotic speaker, and his sermons have aroused much enthusiasm and religious fervor among the Baptist congregation, as well as among the various citizens who have attended.

Rev. Harley Smith is leading the choir, and under his direction a splendid chorus has been provided for the meeting. Rev. Smith is a splendid leader and his singing is one of the most appreciated parts of the services.

Special services have been arranged for next Sunday, and a cordial invitation is extended all citizens of Brady and McCulloch county to attend.

LADIES MUST REGISTER IN ORDER TO VOTE

Under a new ruling just received from the attorney general's department by Tax Collector Silas Mayo, all ladies will be required to register in order to vote. The period of registration has been set for from June 26th to July 13th.

In receding from his former position, that the women in cities and towns of less than 10,000 population would not have to register in order to vote in 1918, the attorney general states that while he still is of the same opinion, yet a number of attorneys have disagreed with him on this score, and in order to avoid any possibility of an election being declared

illegal, he now advises all women who expect to vote to register during the above-named period.

Mr. Mayo states that he will have a lady assistant in his office during the period of June 26th to July 13th and will arrange a rest room and every accommodation and convenience for the ladies. Mr. Mayo also expects to make the far-away points in the county in person, at which time he will give the ladies of these districts an opportunity to register, if they so desire.

All ladies of McCulloch county should take notice of the above ruling and register in due time, so that there may arise no question as to the legality of their vote.
