

## WHITE WELL NO. 3 TO BE DRILLED ON TOP HILL, SURVEY NO. 843

### NEW AIR COMPRESSOR RECEIVED AND INSTALLED AT WATER WORKS PLANT

**SUPERINTENDENT W. O. KIRCHNER EXPECTS TO CHANGE DYNAMO OVER TO NEW ENGINE THIS WEEK TO ENABLE REMOVAL AND SALE OF STEAM PLANT.**

The air compressor, part of the new equipment for the Brady Water & Light Co. plant, was received by express from St. Louis Saturday, and Superintendent W. O. Kirchner reports the machine already installed and about ready for operation. He is very enthusiastic about the compressor, which he pronounces one of the biggest and best in this section of the state. The compressor will be tried out and adjusted today or tomorrow, following which the old dynamo will be moved over to enable it being connected up with the new engine. By running the dynamo with the new engine, all the old steam plant will be placed in the discard.

Shipment of the air compressor by express was made in order to avoid the long freight delays, the additional expense being more than covered by the saving in fuel and labor upon the discarding of the steam plant and the use of the new oil-burning Diesel engine, and which change awaited the receipt of the compressor.

Not only has Mr. Kirchner the entire steam plant ready for disposal, but all the old meters, fans, and old electrical material of all kinds, including a large quantity of 00 copper wire, is also for sale.

While good progress towards rehabilitation has been made, completion of the work has received another set-back by receipt of information that there will be another 30 days' delay in shipment of the new generators. Shipment of the two dynamos has been promised ever since January 1st, only to have the shipping date repeatedly delayed. In response to Mr. Kirchner's urgent requests for shipment, the following letter dated April 14th, and which explains the situation thoroughly, has been received from the Fairbanks-Morse & Co. office in Dallas:

"We again refer to our recent wire communications concerning shipment of electrical machinery to complete delivery of your order.

"As advised in our telegram of the 12th, we are very much disappointed in not being able to inform you that the alternators and accessories have been shipped in accordance with factory's previous and positive promises. When we found that we could not obtain satisfactory information direct from the factory, we telegraphed our vice-president, Chicago, who investigated con-

### DR. H. W. LINDLEY OCCUPYING NEW QUARTERS OVER BROAD MERCANTILE CO.

Dr. H. W. Lindley is having the front suite of rooms over Broad Mercantile Company remodeled and improved for his dental offices, and expects to occupy his new quarters on May 1st. The new quarters include five large rooms, all of which are being equipped especially for Dr. Lindley's use. The operating rooms are being finished in solid white. A large and comfortable waiting room is being provided, with a ladies rest room in connection. All the rooms will be equipped with fans, assuring comfort even in the hottest part of the year.

Still have Spanish Peanuts for seed. BRADY BROKERAGE CO.

Phone 295 for Cane, Millet, Maize and Sudan Seed. MACY & CO.

### ROAD MACHINERY SENT TO THE BRADY-BANGS SECTION WHICH IS BEING WORKED

Commissioner Soc Martin today had the big road machine which has been undergoing repairs in Brownwood, one of the big federal trucks, and the grader sent out to the stretch of Brady-Bangs road that is now being worked by a large force of hands. This road will be placed in first-class condition and then the machinery will be transferred to other stretches of road that need attention.—Brownwood Bulletin.

**GINNING NOTICE.**  
We will gin Saturday, April 17, and will make our last run Saturday, April 24th.

Planting time! We have on hand Millet, Cane, Maize and Sudan Seed. MACY & CO.

### BIG OIL DEALS TRANSACTED AS RESULT OF RICH STRIKE IN WHITE WELL

**WHITE WELL NO. 2 DRILLED IN LAST WEEK—AFTER BEING SHOT AND CLEANED, WELL HAS INITIAL PRODUCTION OF 7 BBLs. WITH PROMISED INCREASE.**

White Well No. 2 on the "Company" ranch, 17 miles north-east of Brady, and 2 1-2 miles west and a little south of the town of Mercury, is McCulloch county's newest paying producer. Oil was struck on Tuesday of last week at 369 feet in 7-foot sand, a production of two barrels per day being had. Last Friday the well was given a shot of 10 quarts of nitroglycerin, and immediately after being cleaned, seven barrels of oil were bailed out. C. J. Vater, the driller, states that there is no question but what the well will increase its production to at least 10 barrels per day.

The new producer is located on Survey 843, and is 260 ft. southwest from White well No. 1. With No. 2 proving up a paying producer, No. 1 will also be shot and tested out. White well No. 3 will be spudded in the end of the week by Driller Vater, and will be located on top the hill and 300 ft. south of No. 2. The development of this new field is of immense importance to McCulloch county, since it proves up the north-east section of the county. Cunningham & Devine's "Marie" test is located only about one and a half miles west and a little north of the White wells, the surveys adjoining.

The new field is about 1 1-2 miles from the Frisco right-of-way, and on an elevation overlooking the railroad tracks. This proximity to the rail-

way assures marketing of the oil at a minimum expense, since a pipe line can be built at a comparatively small cost, and the oil transported to the railway siding by force of gravity.

As a result of this strike and indications of a good field, the following deals were consummated:

A. W. Cooper reports the sale of 2500 acres to a Delaware corporation for \$100,000.00.

Cooper & Shields report the sale of 3000 acres to the Federal Oil Company, a \$50,000,000 corporation for \$125,000. Mr. Shields becoming vice-president of the company.

The oil in this well is of high gravity test and looks good to well-informed oil men, who are seeking acreage in McCulloch county's new field.

**BARGAIN TABLE SHOES.**

BRADY, TEXAS, April 20, 1920

**HONEST INJUN.**

If no one has any objections, The Standard is about ready to talk about those "million dollar rains"—if we have a chance.

**FAITHFUL, UNTO THE END.**

Everyone has heard of the famous automobile owned by R. E. Billings, editor of the Menard Messenger. In it, Billings never had to stop to open a gate—the car merely butted the gate down. Well, here is the swan song of Billings' famous 1879 Overland roadster, sung by Billings himself:

For the past two years Menardites have listened to the rattle and the noise of the editor's famous 1879 Overland roadster. It has been used to tear up gate posts and fences down with the greatest of success. Geared to run thirty miles an hour, it would run no faster, neither would it run slower. It knew every bump in the city streets and could go in the door of any garage without a driver, and usually took two to bring it out. It was the joy of every garage owner and meant free advertising and free stationery to them all.

The garage helpers had it for a plaything, the editor had it for an expense account. At last in disgust, we told our cook that our credit here was no longer good and that we had the three garages fully stocked on printing supplies of all kinds and for her to take it over and give our neighboring city of Angelo a chance. Hitting on two and with a broken spring it limped over to the Queen City and after several days of hard talking she traded it for one of its great-grandchildren. Menard will no longer have the noise of a city for the "king is dead, long live the king."

We have been in the old clothes and overall brigade during the trope-decine shirt and georgette blouse age and have no change to make.—San Saba Star.

Today the lad of fifteen draws on his daddy for ten, fifteen or twenty-five dollars pocket change with which to buy casings, gasoline, theatre tickets, show tickets and the like. Twenty-five years ago the lad of the same age drew on his imagination for a five-cent soda-pop at a summer picnic because he had no funds. The world do move.—Exchange.

**LOW GRADE COTTON.**

Elsewhere in this issue is an interesting article to farmers by Mr. A. H. Richardson, who points out that the present unsealable condition of low grade cotton is due to laws passed by Congress affecting grades in cotton contracts. If what Mr. Richardson says is true, southern cotton raisers should petition Congress to repeal the law that prevents low grade cotton being entered on foreign contracts.—Brownwood News.

A remedy for present conditions is something every farmer and citizen as well is interested in. The Standard would be glad to hear from its readers concerning this subject, and their opinion as to the feasibility of Mr. Richardson's suggested remedy.

**SNAP SHOTS.**

Tillie Clinger says another sample of her luck was last night, when she slept with a slice of wedding cake under her pillow and got icing in her hair and an ear full of crumbs.—Dallas News.

**JUST RECEIVED.**

Macy & Co. have plenty of Millet, Cane, Maize and Sudan Seed on hand.

**A. H. RICHARDSON DISCUSSES  
CONDITION OF COTTON MARKET  
AND GIVES CAUSE AND REMEDY**

The Standard has been requested by A. H. Richardson to publish this article on condition of cotton market with reference to the present demoralized state of the market for our low grade cotton, and is reprinted from the Brownwood News:

Dallas, Texas, April 3.  
For the benefit of my friends among the farmers of Brown county, who are interested in the subject, I am taking the liberty to offer a few of my observations with reference to the present demoralized state of the market for our low grade cotton.

Of course, our farmers are all aware of the fact that it is almost impossible to sell low-grade cotton at any price. Each of the banks has numerous samples belonging to their customers, for which they cannot get bids. This condition is not peculiar to Brownwood or Brown county. The same condition prevails over the entire state. Brown county farmers and merchants have been complaining of low grade cotton. On the whole, Brownwood's market has been higher than the average market in Texas for same character of cotton. We are swamped every day in our office at Dallas by people from points in North, South, East and West Texas and Oklahoma, with samples of low-grade cotton which can be bought at any price. Every day we turn down cotton at 10c, 12c and 14c. With reference to this condition I offer you the following:

**Cause.**  
Last year an amendment to the Lever Act, which regulates cotton future contracts, was passed, making only certain standard grades deliverable on contract. These grades include white cotton, nothing below low middling; colored cotton, nothing below strict middling, stained by way of explanation, will say that there is practically no stained cotton as good as strict middling. The great bulk of stained cotton is middling and below. Of course, when this amendment to the law was made, they did not foresee the low-grade crop which we have just gathered. This act outlawed more than forty percent of the 1919 crop, so far as an exchange contract is concerned, and brought about a condition whereby the usefulness of the New York and New Orleans cotton exchanges has been entirely destroyed so far as legitimate hedging of cotton is concerned, and these exchanges are now functioning only for speculation. Only last week we saw March contracts in New York advance to 43.70. It is very likely we will see May contracts advance beyond 45.00, and possibly to 50.00. This can be done because there is in New York only 1200 bales of cotton which can be tendered on contract whereas the average daily trades on the New York exchange are from two to four hundred thousand bales. The low grade cotton cannot be tendered on contract, therefore it has no definite value, and there is no fixed value by which it can be bought by buyers and carried until we can find a mill that can use the cotton, because we cannot hedge with contracts. If buyers purchase the low-grade cotton and sell futures against it, they will just advance the futures on him from 4 to 1 cents per pound, and spot cotton will not advance at all. With no quotation on it, he is left with a large loss on his hands, and no place for his low-grade spot cotton.

It is currently reported among cotton dealers that a click of New York speculators have made millions in the past few months by advancing contracts in the current months. It is the belief of the cotton trade that they will advance each month as it becomes current, viz: May contracts during May will be run up to 45c, maybe 50c, then later on July contracts handled in the same manner, and to make their game more certain there has been introduced into Congress during the past week, another amendment to the Lever Act, requiring cotton delivered on contract to be fifty percent middling and above, white cotton. This amendment, if passed, would further strengthen the hold which these speculators now have on the market and would not help the spot situation in the least. Because what difference would it make if you could get a dollar a pound for strict middling cotton if you did not have strict middling cotton, and your low middling, strict good ordinary, and good ordinary cotton would bring you no more

than it is bringing now.

**Remedy.**  
At a meeting of the Dallas Cotton Exchange members, held today, a committee was appointed to bring up before all the cotton exchanges in the South, a proposition to be put before Congress to amend the Lever Act, so as to restore the 1918 contract, which included grades down to good ordinary. This would partially relieve the situation. It is my idea that they should go a step farther, and do the thing up right while they are doing it, by not only fixing a basis for grades deliverable on contracts, which would include every grade that is grown, but they should appoint a commission composed of mill men, buyers and cotton farmers, to fix the difference at which these grades could be delivered on contract. Then all cotton produced would have a fixed value based upon price of the future contract, and the buyer would know exactly what he could afford to pay. He could hedge his purchases and eliminate the necessity of his speculation on each and every bale he buys (as he is compelled to now) and would create a ready market for every bale of cotton now in the hands of buyers and producers. While it would perhaps lower the price of futures it would undoubtedly raise the price of off colors and low grades, which it is now impossible to sell, and if sold, must be sold at a very unreasonable figure.

It is my sincere hope that the farmers of McCulloch county, together with the business interests, will get behind this movement if they are called upon to do so, and use their utmost effort to assist in the establishment of a just and business-like contract to be dealt in on the cotton exchanges. A contract that will make the cotton exchanges function as they were intended to and not leave them mere gambling houses as they are at present. For under existing conditions the New York exchange or the New Orleans exchange are worth no more to the cotton industry than if they did not exist.

Yours very truly,  
A. H. RICHARDSON.

Board and tuition free with a monthly allowance while you are receiving your training. Write today for full particulars to MISS WILMA CARLTON, R. N., Superintendent of Nurses, Temple, Texas.

## Kindergarten Helps for Parents

This is article No. 34 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.

By MRS. RUTH HEPNER SWAINE.

All kindergartens have one characteristic in common—the respect which the children show for the individual rights of others. Where many little children are gathered together, there must be governing laws and obedience to these laws.

In the ideal kindergarten these laws are more feelings than facts. The children grow to respect and obey them spontaneously, almost unconsciously. Thus, even when they are 4 and 5 years old, they can be led to a right relation towards their fellow-beings. Could anything be more important?

All children do not live near a kindergarten, but all children have playmates. A wise mother will quickly establish the law of right relationships among the children who play in her home. Even a busy mother—and are not all real mothers very busy?—can with a word now and then impart a feeling for the rights of others, and this, once gained, is never lost through life.

The kindergarten is the most democratic of institutions. The children feel no class distinctions—in fact, there are none in the world of the three-year-old. My Philip plays as joyfully with the little fellow in the servant quarters next door as he does with the son of my best friend. The public school kindergarten is particularly interesting, because all classes mix freely and are entirely free from self-consciousness. Each little individual contributes his personal traits toward the making of the whole. A fault may serve as great purpose as a virtue, and both may serve as mirrors wherein the child sees himself. Under guidance of the kindergarten he will see wisely.

Moreover, the children soon learn to love the calm of the kindergarten room, and come readily under the influence of the ruling spirit—the denial of self for the good of the whole.

In your own garden, the back yard, there cannot be the close supervision that there is in the kindergarten, and elimination sometimes becomes a necessity.

If you are fortunate enough to live among your own kind, where all the children in your neighborhood are reared similarly, you will probably not have any serious problem. But if you live in a cosmopolitan neighborhood and there is an older child with avowedly wrong tendencies, the safest step is to encourage him to seek his older playmates. I would deny him my babies of 3 to 6. If the child comes to your gate who has had less of a chance than your own little ones, it is surely a privilege to take him in, for he will soon begin to thrive under the new influences. If you have much spare time, take in as many children as you can. Supervise them closely, and rather than let willful weeds grow among your flowers, eliminate.

Be one of the playmates yourself as often as possible. Join the little group in the yard for a few glorious minutes, and you will come back to your housework completely rested. A whistle from mother for a moving train is such a surprise, or an unexpected laugh over the tumbling blocks makes it only a joke where it might have been a tragedy.

The child feels your interest ever in back of him then, and it is very human to desire the interest of those we love. Toss the ball around the circle, push the swing, make believe partake of the sand cakes and observe the new values the old plays take on.

Draw the children of the neighborhood to your own garden if you wish to experience a delightful sense of peace and love. No flowers you might coax to grow there are half so worth while. With your guidance and their daily association, they will learn many lovely things, and carry them through life. Friendship, care for the weaker ones, unselfishness, joy in the joy of others and a feeling for the right are the beautiful things of life that may be cultivated and that will be a joy forever.

### Announcement Hubert Adkins.

To the Voters of McCulloch County: I take this means of announcing to my friends my candidacy for the office of Tax Collector of McCulloch county. I am entering the race upon the strong solicitation of many friends, and not only intend to run a successful race, but, if elected, expect to administer the duties of the office so successfully as to merit your continued friendship and support. Since my return from army service in France, I have held the position of city secretary and tax collector, in which I have familiarized myself with the line of work of the collector's office. I know I am capable of qualifying for whatever duties the office may require, and invite the most thorough investigation of my record and my ability. Before the primaries, I hope to be able to personally solicit the vote of every man and lady in the county, and in the meantime no one will be more appreciative of your vote and support than your humble servant and friend,

HUBERT ADKINS.

### KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

### OLD FASHIONED CANNON BALL COSTS LUMBERMEN LOSS OF \$250.00 RECENTLY

Vancouver, B. C., April 18.—An old-fashioned cannon ball of twenty-five pound variety, used many years ago in this coast by the admiralty ship, caused the False Creek Lumber company a loss of \$250 the other day. It was imbedded in the center of a large log cut at Duncan bay. The log had grown around the ball and it was not discovered until the saw struck it. The missile must have been discharged many years ago by a passing warship.

### Wash Suits at Vincent's.

There Wasn't the Slightest Smell From Dead Rats. John Simpkins, farmer of Annapolis, N. J. "Rats were cost me hundreds yearly; tried dogs, traps, poison, could not get rid of them. Bought \$1.00 pkg. of RAT-SNAP (5 cakes). Used half, not a rat since. Dead ones aplenty. I bought RAT-SNAP because after killing it dries them up—leaves no smell. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by O. D. MANN and TRIGG DRUG CO.

### QUARTER MILLION DOLLAR RANCH DEAL IN SAN SABA COUNTY CLOSED

The largest ranch deal ever pulled off in this county was closed here Tuesday, when P. C. Sloan bought what is known as the Cold Creek ranch from W. G. (Will) Gray. This ranch consists of 14,500 acres of fine grass land in the Cold Creek section of the county. In the deal were included 1200 head of cows. The consideration has not been given out but it is safe to estimate that the grand total will exceed a quarter of a million dollars. This property adjoins the already splendid ranch of Mr. Sloan and gives him a more than 20,000 acres rich property all in one body. He recently completed one of the most pretentious and commodious ranch homes in this section of the State.

W. C. Edwards closed a deal the first of the week by which he became owner of the J. E. Odiorne ranch in Burnet county. He bought the ranch from W. G. Gray. This ranch comprises 7000 acres of as fine grazing land as there is in Burnet county. The consideration was \$70,000.00.—San Saba News.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

### "IT'S JUST GRAND" SAYS MRS. ROGERS

Could Not Eat Meats or Bread For Two Years -- Gains 18 Pounds Taking Tanlac.

"No one could see the wonderful change in me and doubt that Tanlac is just a grand medicine," said Mrs. Louise Rogers, of 4017 Brooklyn Ave., Los Angeles, Cal. Mrs. Rogers formerly lived at Wenatchee, Wash., where she is also well known. "My health was so bad for years that I became almost a physical and nervous wreck," she continued. "I had nervous indigestion, disordered kidneys and other troubles. I was perfectly miserable and for over two years I could not eat any bread, milk or meat, and had to live on the very lightest of foods. I suffered so that sleep was almost impossible and I fell off to a mere shadow of my former self. I was under constant treatment for eighteen months but kept getting worse instead of better. I nearly gave up all hope and my husband, too, thought I was going to die. He decided to send me to a health resort, but I was so low I had to be carried and have an attendant all the time.

"It was then that a lady from Vancouver persuaded me to try Tanlac and it was just three days before I noticed a change for the better. I have now taken five bottles, have gained eighteen pounds and all my old troubles are gone entirely. I eat three good meals a day and sleep like a child all night long. I just want to tell everybody what a great medicine Tanlac is."

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock and in Rochelle by C. W. Carr.

### BUSINESS MEN TAKE GAME AWAY FROM HIGH SCHOOL BOYS MONDAY

The business men of town matched a game for Monday afternoon with the high school boys, and after encouraging them with two runs in the first inning, proceeded to play rings around the boys. In fact, the boys found they had picked an entirely too heavy a team as opponents. In the first inning the business men scored three runs. In their half, the school boys drew a number of passes from Bailey Jones—enough to force in two runs. After that, Jones settled down and pitched ball like the veteran he is, and the boys never got another look-in on the game, while the business men at the end of the 7th inning had garnered seven tallies, giving them a total of 10 to the boys' 2. The games was thereupon called, everyone being fully satisfied. Batteries for the business men, were Bailey Jones and J. B. Whiteman; for the school boys, Kirby Wood, El Harkrider and Willie Mayes and Johnny Hill. Marvin Wegner was umpire and also the but of both sides and the spectators as well.

The high school boys also had hard luck in their series of games with San Saba last week, losing Friday's game by a score 7 to 4, and suffering a shut out on Saturday, when San Saba carried off the honors to the tune of 6 to 0.

LOCAL BRIEFS

Manuel Lopez was seen in Mason one day last week. Poncho's many friends here will be pleased to learn that he is enjoying prosperity with his restaurant business at Brady.—Mason News.

Mr. and Mrs. Laudie Lemons are the proud parents of a fine boy, who arrived to gladden their home, on Friday, April 16th. Grandpa H. A. Metcalf is feeling mighty proud of his added dignity.

The many McCulloch county friends of Mr. and Mrs. J. F. Quicksall are pleased to have them again numbered as citizens and neighbors, they having returned from Cleburne, Texas, where they have been living for the past number of years, and where Mr. Quicksall has been employed as farm demonstrator. Mr. and Mrs. Quicksall are making their home on their place in the Nine community, with his brother, J. M. Quicksall.

J. T. Squyres was in town from Mercury Monday, coming here on a business visit. He was accompanied by his son, Oscar, who is visiting home folks and friends. Oscar has been located at Austwell the past year and a half, and says he and his family like the coast country fine. Oscar is employed with one of the largest hardware and general mercantile stores in that section. He reports that country as being a little dry, although hardly so much so as this section.

PERSONAL MENTION

Mr. and Mrs. G. C. Kirk left Sunday night for Dallas to spend a few days visiting and at market.

Mr. and Mrs. J. H. Snodgrass were visitors here Monday from the Stacy community, having come in on a shopping expedition.

R. H. Thiell arrived here last Friday from Dallas, having accepted a position with H. P. C. Evers, in charge of the saddle department.

G. J. Hendryx, who had been attending his step-father, Bob Ake, during the latter's last illness, returned Friday night to his home at Snyder, Texas.

Mrs. Claudie Washburn of Abilene, and J. I. Ake of Dublin, accompanied by R. H. Ake, who had been here to attend the funeral of their father, Bob Ake, returned to their homes Friday night.

Mr. and Mrs. D. J. Malmstrom of Melvin, accompanied by their son, Elmer, leave tonight upon their trip and visit to the Old Country. They expect to spend the entire summer visiting childhood scenes and friends in various parts of Sweden, and will probably make their return to the U. S. about the latter part of September.

PHONE 295.

The Decrease in Oil Production.

The total maximum flush production of all wells completed in the Ranger, Stephens and Desdemona fields was 907,000 barrels daily. The total production on April first was below 85,000 barrels.

The daily production of the Ranger field on April first was around 35,000 barrels. Record runs for Stephens county for the same date show a total production of 31,800 barrels, while the runs for Desdemona show only 17,500 barrels.

Completion records to April first show that 638 producing wells have been drilled in the Ranger field, this field leading all others by more than 200 wells.

Not all of the once productive wells are now making oil, not more than half of them. But the figure represents the number of tests completed, and which were at one time or another on the production report. For the total number of completed tests about 20 per cent of the producers should be added to the list, for it is about this proportion which have been dusters.

The fields of Stephens county show a total of completed producing wells to April of 412. Desdemona exceeds Stephens by eight, with 429 wells on the record date.—Oil Weekly.

New shipment ink pads, pad inks, numberers, daters, price markers, 9-band alphabet stamps, etc. The Brady Standard.

RESUME DRILLING ON RUSSELL RANCH JULY 4; NEW LOCATION IS MADE

"Russell No. 1, which is now producing oil and gas, was started on July 4th, 1917, and No. 2 was spudded in on July 4th, two years later," commented Mr. Herman Giesecke, while in San Angelo Wednesday. "For these reasons I believe July 4, 1920, will be the proper time to start my well. I am positive that there is oil on the Russell tract—and I am going after it."

Mr. Giesecke is a pioneer resident of Runnels county. He is president of the Farmers & Merchants State bank at Ballinger, and is agent for Dick Russell, on whose ranch the promising showings have been obtained.

Recently, when the Gulf Production Company abandoned the Russell tract, fifteen miles southeast of Ballinger, because of pressing activities in proven territory, and prepared to plug its holes, Mr. Giesecke intervened and purchased outright the intact equipment at No. 1 and the derrick at No. 3. He figured that it might be ten years before some other company sank a well on the Russell ranch and he did not intend to let the great opportunity slip by. Mr. Giesecke also acquired leases on 8,000 acres and promptly resold 1,000 acres to the Gulf Company. Another tract of 12,000 acres, owned by Mr. Giesecke, inclosed the land leased by Mr. Giesecke. The latter, since acquiring the holdings, has had many propositions from big companies to sink a well and has been offered \$20 an acre for a 1,000-acre block—but all these offers have been turned down.

Using the derrick from Russell No. 3, Mr. Giesecke will sink the new well himself, merely employing crews to do the work. The location, he announces will be within 800 feet of Russell No. 1, on the James Hughes League 227, which extends east and west. Gas from No. 1 will in all probability be used as fuel, it now being sufficiently strong to supply G. D. Lacy's well, which is on the Russell ranch two one-half miles west of the three tests drilled by the Gulf Production Company. Pipe connections to the Lacy well were only completed on Tuesday of this week and Lacy is now drilling below 1600 feet. Russell No. 1, completed in the fall of 1918, at 3,504 feet is now flowing from three to four barrels of oil daily asserts Mr. Giesecke, while the gas estimated at 3,500,000 cubic feet per 24 hours, is exerting a pressure of 600 pounds on the six-inch casing. After completing the test, the Gulf Company plugged the hole back to 2295 feet, or five feet below where the oil sands were struck, and from which level oil spouted through the derrick. Mr. Giesecke says the gas below the plug is equal in volume to that which is emitting, or in other words amount to 7,000,000 cubic feet. When the oil is turned on daily, it flows three or four barrels, with about a half barrel of salt water.

A showing of oil was obtained in Russell No. 2 about seventy feet deeper than in No. 1, but it soon played out and work stopped at 2,500 feet, the log of No. 1 showing no formations of promise below that depth.—San Angelo Standard.

COUNTY COURT CRIMINAL DOCKET DISPOSED OF

County court was convened Monday by County Judge Evans Adkins, who lost no time in getting the cases on the criminal docket ready for trial disposed of and the docket cleaned up. Two pleas of guilty were had and one case resulted in acquittal by the jury of the defendant.

Cases disposed of were: State of Texas vs. H. Harris, there, plea of guilty and punishment assessed at 24 hours in jail and \$25 fine and costs.

State of Texas vs. . . . Bean, carrying pistol; plea of guilty; fine of \$100 and costs.

State of Texas vs. Jim Collins, disturbing the peace; trial by jury and acquitted.

All other criminal cases that had been on hand for a long time were placed on the retired docket, leaving only four cases now on criminal docket, these being:

State of Texas vs. . . . Doal, continued by agreement.

State of Texas vs. Louis Covington, continued by agreement.

State of Texas vs. John Hill, continued by agreement.

State of Texas vs. Vernoy Waddie, continued by agreement.

The jury for week was discharged Monday evening.

Judge Adkins states that he will call all the attorneys together this afternoon and endeavor to get all cases on the civil docket tried or disposed of so that the civil jury might also be discharged.

SHERIFF'S SALE.

STATE OF TEXAS, County of Mason—

In the District Court of Mason County, Texas.

Wm. Hofmann vs. R. F. Butler et al No. 991.

Whereas, by virtue of an execution issued out of the District Court of Mason County, Texas, on a judgment rendered in said Court on the 2nd day of March, 1920, in favor of said Wm. Hofmann, plaintiff, and against Henry Haines, W. J. Sides and W. W. Stewart, defendants. (Suit was dismissed as to R. F. Butler and only writ of possession awarded against W. W. Stewart), numbered 991 on the docket of said Court, I did on the 5th day of April, 1920 at 10:00 o'clock A. M. levy upon the following described tract or parcel of land situated in the County of McCulloch and State of Texas, to-wit: Seventy-five and five-sevenths (75 5/7) acres, being a part of the J. Pointevet Survey No. 1, Abstract No. 1125, Cert. No. 1-21, patented to D. S. Wells by Patent No. 177, Vol. 28, situated near Voca, and being the same tract or parcel of land conveyed by Wm. Hofmann to R. F. Butler on September 9th, 1916; and by the said R. F. Butler conveyed to W. J. Sides on November 23rd, 1916 by deed recorded Volume 32, page 465 of the Deed Records of McCulloch County, and by said W. J. Sides conveyed to Henry Haines; and on the 4th day of May, 1920, same being the first Tuesday in May, 1920, between the hours of 10:00 o'clock A. M. and 4:00 o'clock P. M., on said day at the Court House door in Brady, Texas, I will offer for sale and sell at public auction for cash, all the right, title and interest of the said W. J. Sides, Henry Haines and W. W. Stewart in and to said property.

Witness my hand at Brady, Texas this 12th day of April, 1920. J. C. WALL, Sheriff, McCulloch County, Texas.

BROWNWOOD MAN BUILDING GIN IN McCULLOCH COUNTY —CROP PROSPECTS GOOD

D. F. Stanley returned Thursday from Whiteland, McCulloch county, where he is putting in a big gin to handle the cotton of that section this coming season. Mr. Stanley says the farmers of McCulloch are giving more attention than ever to the raising of cotton and with favorable conditions a great crop will be produced in that section this year. Brownwood Bulletin.

Sells Eldorado Home.

Brady friends of the family will be interested in the following item concerning Mr. and Mrs. A. H. Palmer. The item is reprinted from the Eldorado Success:

"A. H. Palmer has sold his home to J. E. Hill, assistant cashier of the First National bank. This is one of the nicest homes in town, the price was not given for publication. The Palmers left Thursday for Alpine where they will buy a home and later move. A. H. Palmer has been here 13 years, and Tom Palmer has been here since the early days of the 70's. The Success regrets to lose them from the community."

No. 88 Producer's Oil Lease blanks; also Assignment of Oil and Gas Lease blanks and Royalty Contract blanks at The Brady Standard office. Phone 163 and we'll deliver.

An interesting freak of nature is reported in the flock of sheep of J. H. Candler near Fisk—a lamb with two distinct heads, two mouths and four eyes; two eyes being in the center and one on each side. The lamb can nurse with either mouth and is a large, well-developed ewe lamb. The mother sheep and her freak lamb are both reported as alive and doing well. The lamb was born April 7.—Coleman Democrat-Voice.
