

COTTON HARVEST slowed to a trickle this week as ginners prepared for a month-early windup of the harvest. This buildup of empty cotton trailers at T&T Gin in East Dimmitt attests to the harvest slowdown.

IT LOOKS LIKE a lot of cotton, but it isn't nearly as much as usually builds up at the large Panhandle Cotton Compress & Warehouse. Too much moisture and an early frost knocked out one-third to two-thirds of the normal yields.

Cotton Question Goes to Growers

Cotton growers will cast ballots by mail Saturday through Wednesday in the tandem style cotton referendum.

TWO BALLOTS, one blue and one green, will be mailed Friday by the Agricultural Stabilization and Conservation Service to every eligible cotton grower, ASCS Office Manager Charley Hill said.

The blue ballot will be for farmers to accept or reject the proposed acreage allotment program for next year. The green one will be for voting for or against an automatic \$1-per-bale payment for research and promotion of cotton against synthetic fibers.

Ballots must be mailed back by the Dec. 9 deadline. Growers will receive self-addressed envelopes with their ballots.

THE RESEARCH and Promotion Order ballot (green) must be signed by the voter, Hill emphasized. The certification on the back of the return envelope must also be signed.

The Plains Committee for Cotton's Future reminded cotton growers this week to establish their volume interest in full with the ASCS office before the balloting closes Wednesday.

Otherwise, the farmer may not get a full vote in the cotton research and promotion referendum, the PCCF said, since volume vote could determine the election's outcome.

"THE PROGRAM can go into effect if approved by two-thirds of the cotton farmers growing," the committee said. "It

can also go into effect if a simple majority vote 'yes', providing these farmers account for two-thirds of the volume of those voting."

Authority for the \$1-per-bale referendum is the Cotton Research and Promotion Act, approved by Congress. If the issue carries, producers will be assessed \$1 per bale to finance research and promotion programs conducted by a beltwide organization of cotton producers, with each state having representation according to its contributions.

This automatic \$1 per bale would replace the voluntary \$1-per-bale payments through cotton growers' organizations, and would increase the present \$2.5 million per year fund to \$15 million per year to promote new uses and marketing techniques for cotton.

The Christmas shopping season is here, and counting today there are only twenty-one shopping days left.

Dimmitt merchants have anticipated the needs of their customers and have laid in one of the largest stockings of Christmas merchandise ever. Regardless of what you need or who the gift is for you can find it in Dimmitt. It is the height of folly if you live in Dimmitt, or within driving distance of Dimmitt, to trade anywhere else.

Dimmitt merchants are officially opening the Christmas holiday shopping season this weekend, and Monday, Dollar Day, with numerous specials being advertised in this issue of the News.

★

If Santa Claus were here, and if he is half the man I think he is, he would advise you to do your shopping in Dimmitt and stay off those dangerous highways.

★

From all reports there were more tragic deaths during the Thanksgiving holidays, just passed, than has ever been recorded before. Serums can be discovered or developed, to stop many of the killer diseases, but so far no remedy has been found to stop the slaughter on the highways.

★

The most recent Gallup poll shows Governor Romney, of Michigan, out in front as the choice of the rank and file republicans, and independents, as the republican nominee for president in 1968. However a canvass of delegates, to the republican national convention in 1964, revealed that those hearties favored Richard Nixon as the 1968 republican nominee by a heavy majority. This is as you would expect it to be, because they were strong Goldwater people, and their nominee failed to get the endorsement of the Michigan governor.

Dedication of the new Dimmitt postoffice is set for Saturday afternoon. Apparently the architect did a fine designing job and the builders turned out a first class building job. This is a facility that Dimmitt has been needing for a long time, and it is a pleasure to get your fender bent in the spacious parking area rather than being crushed at the old location where three cars were parked in an area just large enough for two. Thanks Uncle Sam, we will give you all of our stamp business.

Judge Joy Sentences Four In Non-Jury Trials Tuesday

District Judge James Joy meted out one prison sentence and probated three others Tuesday as the District Court started its final 1966 session here.

SENTENCED to two years in the state penitentiary was George Earl Miller, who pleaded guilty to theft of copper wire from West Texas Telephone Co.

Jercine Birkenfeld, charged with removing mortgaged property (cattle) illegally, pleaded guilty and was sentenced to five years' probation.

Savas Co'aya pleaded guilty to a forgery charge and was given a five year probated sentence.

Receiving three years' probation was David Ramirez Villareal Jr., who entered a guilty plea to driving while intoxicated, second offense.

JUDGE JOY scheduled the session's first jury trial for Wednesday morning, when Lynn Chandler will be tried on charges of forgery and passing a forged instrument. Chandler has pleaded innocent to the charges.

Four other persons indicted by the grand jury on criminal charges Monday and Tuesday indicated in their District Court arraignment that they would plead guilty. Judge Joy scheduled their non-jury trials for Wednesday, on a time-available basis.

None of the four murder charges now pending in court will come to trial during this session, the judge said.

Deadline Only Two Weeks Away For 'Operation Yule Greeting'

You have only two more weeks to sign up for "Operation Christmas Greeting" if you want your family's name on the community Christmas card.

The community greeting will appear as a cover page of the Dec. 22 issue of the News, and will be a public Christmas card to all local friends of those who contribute to the project.

If you haven't yet contributed, decide what you would normally spend to send Christmas cards to friends in Castro County, and give that amount instead to "Operation Christmas Greeting." Your contribution will be used to help

Dedication Stated Saturday

Congressman Walter Rogers and J. Allen Dupree, assistant to the regional Post Office director, will be the principal speakers when Dimmitt's new post office is dedicated Saturday at 2 p.m.

A 45 MINUTE dedication service has been planned, with open house and refreshments scheduled before and after the program.

The Castro County Chamber of Commerce is sponsoring the dedication.

Open house and tours will begin at 1:30 p.m., with postal employees and wives serving refreshments prepared by the Democratic Women's Club. At the same time, the award-winning Dimmitt Bobcat Band will perform in the PO parking lot.

The dedication ceremony will be on the south side of the new building. Joe Cowen will be master of ceremonies, with Acting Postmaster John Hardy Wood, N. F. Cleavinger, Mayor George Etard and County Judge R. E. Wilson giving brief welcomes, introductions and remarks.

ONE FEATURE of the program will be tributes to the 17 postmasters and five acting postmasters who have served Dimmitt since the first post office was established here in 1891.

In addition to Congressman Rogers, who will give the dedicatory speech, several other state and national officials are expected to attend the ceremony.

After Rogers' dedicatory address, a new American flag will be presented for the post office, and Scouts will raise it while the Bobcat Band plays the National Anthem.

Dupree, the Post Office Dept.'s official representative to the dedication, is one of the top postal executives in Texas. He started with the Houston Post Office in 1936 as a letter carrier, and worked his way up through the postal ranks. He was appointed assistant to the regional director in 1961.

In addition to his postal affiliations, Dupree is a member and one of the founders of the Houston Baseball Umpire Association, member of the Houston Softball Umpires Association and the Houston Professional Baseball Players Association.

THE NEW post office, which has already been in service a month, was built under contract by Laco Rentals, Inc., of Austin. Raymond Jameson of Plainview was the general contractor. Material suppliers and subcontractors included Dimmitt Ready Mix, Brown's Sheet Metal of Hereford, Dimmitt Electric, Higginbotham-Bartlett Lumber Co., Bob's Plumbing of Plainview, and Plainview Plate Glass Co.

Hart Schoolboy Shooting Victim

A Hart High School junior was hospitalized with a bullet wound in the lower abdomen last Thursday after a Thanksgiving day incident eight miles southwest of Hart.

VICTIM OF the shooting was George Rodriguez, 18, who is in Plains Memorial Hospital.

Louis Garza, 21-year-old farm worker, was arrested after the incident. Monday the grand jury indicted him and referred the case to county court, indicating he'll stand trial on a non-felony charge.

Deputy Sheriff Granville Martin who investigated, said the incident occurred between 8 and 9 p.m. last Thursday outside Garza's rented house on the Scotty Scoggia farm southwest of Hart.

MARTIN SAID six other persons were at the house when the incident occurred.

Gin Worker's Funeral Held

Funeral services were held in Hearne last week for Ruben Hernandez, 25, who was asphyxiated Nov. 17 in a freak accident at Castro Co-op Gin.

DEPUTY SHERIFF Henry Ogletree, who investigated the tragedy, said Hernandez suffocated in an underground cleaner duct at the gin. He had been helping "shake down" the gin after a small fire had broken out, Ogletree reported, and had gone into the duct to check it out.

Co-workers pulled Hernandez from the duct and Ray Robertson rushed him to Plains Memorial Hospital, but he was dead on arrival.

Dennis Funeral Home was in charge of arrangements.

ONCE AGAIN, SPRIGHTLY was the story of Dimmitt High School's Bobcat Band last week when it won its 14th Division I rating in 15 years at the Interscholastic League Band Competition at Texas Tech's Jones Stadium. The 150-piece Bobcat Band, believed to be the biggest Class AA marching band in Texas, drew first-rank cheers from contest judges. After commenting on the band's striking uniforms, they said the "Big Purple" was the outstanding band in the competition, regardless of class. Bob Smith directs the Bobcat Band, assisted by Raymond Ask. Three other area bands — Abernathy, Hale Center and Morton — also received Division I ratings.

Six NHS Starters Are Back

It's a tough year for rookies on the Nazareth girls' basketball team.

SIX STARTERS are back from last year's District 4-B championships, including two all-district players.

Coach Don Stulting's Swifties include: —Magaline "Maggie" Birkenfeld, 5-7 senior co-captain, who has been a starter for three years and an all-district forward for the past two seasons.

—Stephanne "Stevie" Birkenfeld, 5-6 senior co-captain, another three-year starter who has been all-district guard for the last two years.

—FORWARD Gal Dobmeier, 5-4 senior, a three-year letterman who started at forward her sophomore year.

—Junior forward Sandy Gerber, a two-year letterman who started as a sophomore last year. This season Stulting has moved her to the pivot post because of her height (5-8), speed and accuracy.

—Junior guard Beth Wethington, a 5-7 two-year letterman who made the starting lineup as a sophomore and who has developed into a good post guard and rebounder. She was named to the all-tournament team at last year's Kress Invitational Tourney.

—Junior guard Sharon Hochstein, 5-6, a two-year letterman who started last year as a sophomore and has become the team's top rebounder.

WITH THESE SIX starters and a good reserve bench, Coach Stulting hopes to better last year's record — which won't be easy. Last season the Vixens swept the district with an 8-0 record, won the Amherst Invitational and placed second in the Kress Invitational. Their overall season record last year was 16-13.

Exciting the Swifties' reserve strength are Nancy Drucup, senior double-duty letterman; Phyllis Huseman, junior post forward up from the B team; junior forward, Sheila Birkenfeld, the squad's only scouthpaw; junior forward Cynthia Hoelting, leading scorer on last year's B team and a starter prospect; senior guard Janeta Wethington, the squad's top utility guard; junior guard Brenda Pohlmeier, up from the B team, younger sister of all-district guards Pam and Linda Pohlmeier; junior guard Linda Huseman, tallest squad member on the team at 5-10 and listed by Coach Stulting as the most improved player so far; and guard Darlene

Peace Corps Test Set Monday

Castro County residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 3 p.m. Monday in four area cities.

THE TEST will be given in Littlefield at the Main Post Office; in Plainview at the Main Post Office, 725 Ash St.; at Amarillo in Room 322 of the Post Office; and at Lubbock in Room 16A of the Post Office Building.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. (If test scores indicate a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country.) The placement test requires no preparation and is non-competitive — an applicant can neither pass nor fail.

Application forms, not placement tests, are the most important factors in the selection of volunteers. Persons interested in

Texas A&M Launches Ag Market Program

A three-phase agricultural marketing program is underway at Texas A&M University. It is aimed at keeping Texas producers and consumers on top of existing marketing opportunities and at developing new markets and expanding those already in existence for Texas products at home and abroad, said Dr. John G. McNelly, research leader in the Department of Agriculture Economics and Sociology.

Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D.C. 20525.

The placement test takes about an hour and a half.

"A PLEA"

By Ronnie Parker

The churches of Christ throughout the world are making a plea for restoration. It is a simple plea to restore the faith and practice of the inspired apostles of Jesus and thus reproduce the apostolic church. It is a plea that everyone be simply disciples of Christ, or Christians only and belong to the church of the Lord only.

The plea calls for a complete return to original ground and take up things just as the apostles left them and thus reproduce New Testament Christianity in all things. The church has been changed and marred so we must go back to the first sources. Theological speculations, priestly abuses, and decrees of men have polluted the religious teachings of our Lord. We must again stand in the presence of the Lord and His apostles for truth. This means going back beyond all human creeds and decrees of popes, councils, synods, and assemblies to Christ and restore all things wherein there has been departure or apostasy. The plea calls for the rejection of all human innovations and the restoration of the Divine model in all things.

The plea to restore the apostolic church means the restoration of the one Divine creed and the one rule of faith and practice. The one Divine creed is expressed in this plain proposition, "Jesus is the Christ, the Son of God." If this is true, then all else is true — then all that Jesus said, did and commanded through His apostles is true. The Bible and the Bible alone reveals the religion of Christ. Everything must be measured and approved or disapproved by the Divine standard of the New Testament. If creed and dogma, if sacrament and ritual do not agree with the scriptures they are wrong. Since Jesus has "all authority" in heaven and earth (Matt. 28:19, let us hear Him and restore His way!

GOING UP...

A building is being erected. It is made of strong materials, steel and concrete. The foundation is firm and deep. The edifice is built to endure.

We need to build our homes to endure. They need a strong foundation. They need to be built on the rock of Christ. Psalm 127:1 reads, *Except the Lord build the house, they labour in vain that build it.* Attend church regularly that your house may be instructed in the ways of the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Bobcat Band Wins Again!

The Bobcat Band added another feather to its cap last week by earning a first division rating at marching contest. All the bands from this area marched at Tech Stadium in Lubbock. THE MIGHTY Bobcat Band left Dimmitt about 9 a.m. Nov. 22 and at 2:45 the purple and white took the field to perform. Ratings were announced after three other bands had marched. All three judges gave the band a 1. One judge remarked that it was by far the best band he had seen all fall. Others receiving 1's in our class were Hale Center, Morton, and Abernathy. The Bobcat Tales staff and sponsor extend congratulations to Mr. Smith and the band members for achieving such a high standard of excellence. 647-3123 for Printing

Jeweler Wonders Why Schools Buy Class Rings Out of Town

To the Editor, Parents and Students of Castro County: I have for several years tried to sell the class rings, and each time I have been turned down. I can furnish as good a quality rings or better, at a lower price than the out-of-town salesmen, in any design of your choice.

orders - they can go on teaching, as that is what they are paid to do. Your hometown merchants are the ones pressed to buy ads from different classes in the county and surrounding areas, for school annuals and what-have-you. There are a few simple questions I would like to ask: FIRST, WHO pays for the schools - the teachers' salaries, the upkeep, and other expenses that go with your education? The answer is your local taxpayer.

Junior High Honor Roll Is Released

Dimmitt Junior High School Principal W. E. Reisdorph has released the seventh and eighth grade honor rolls for the second six weeks. Honor students are: EIGHTH GRADE "A" Andrea Axe, Pam Barker, Kent Bradford, Cyde Dameron Jr., Perry Floyd, Anne Golding, Ruben Gutierrez, Julia Hottel, O. R. Hughes, Lonnie Markley, Sherry Rogers, Rick Smith, Janna Thansich, Mark Wohlgenuth. EIGHTH GRADE "B" Mike Elder, Pattie Gross, Cynthia Henderson, Karen Irlbeck, Keri Kirby, Doris Malone, Leann Merritt, Denise Stone, Debbie Underwood, Sharon Welch, Shelia West, Deborah Whitworth, Mike Woodward. SEVENTH GRADE "A" Vicki Carpenter, Bob Duke, Linda Elder, Larry Langford, Marianna Murphy, Joe Stalcup. SEVENTH GRADE "B" Diane Dyer, Jerry Matthews, Judy McLeRoy, Clara Murillo, Jay Stanton, Kimberly Sims, Doris Strother, Nancy Tisdale, Mike Veazey, Vicki Winders, Rita Womack.

Your local jeweler is an established business man and a taxpayer in your community. He is always there with his skill for servicing, adjusting and repairing - which is not so conveniently available to your students when the rings are bought out of town. I HAVE ALSO found out that a senior, by law, does not have to buy a ring of any kind to graduate, even though the school has entered into a contract with someone to furnish the rings. It is the students' money, and they can buy when and where they choose. G. B. Japan to Hike Demand For US Grain Sorghum

"Eighty million dollars in cash was the amount of money realized from sales of grain sorghum to Japan in the crop year just ended," said Frank M. Pharris, vice-president and general manager of Producers Grain Corporation. And Pharris said that this year this amount would increase.

"LAST YEAR Japan purchased two million tons of grain. This year it looks as if the Japanese will purchase about 2.3 million tons. The largest individual Japanese purchaser of our grain sorghum will be Zenkoren, a national federated agricultural cooperative, which will use one million tons of grain this year," Pharris said.

Eighteen directors and managers of the Japanese cooperative were in the High Plains area as guests of Producers Grain Corporation Sunday to see how this grain is utilized, handled, stored and transported.

"SALE of agricultural commodities such as grain sorghum for cash is extremely valuable to our national economy by returning gold to the United States," Pharris said. "This could represent the largest single cash customer for grain in the world today, and since Producers Grain Corporation is owned by 115 grain cooperatives in Texas, parts of Oklahoma, Kansas, Colorado and New Mexico, the stockholder farmers of this area will benefit greatly from this sale. It is our feeling that the cooperative farmer of Japan will benefit equally by doing business with the cooperative farmers of the United States."

Producers Grain Corporation, whose headquarters are in Amarillo, is a regional grain marketing cooperative. In addition to its inland terminals at Amarillo, Plainview, Lubbock, Fort Worth and Colton, Calif., it operates a 6.5 million bushel port elevator at Corpus Christi, which places

the cooperative farmer of this five-state area on the world market daily.

Swisher Seeks Annexation To Water District

of the Small Town; (5) The Responsibility of Metropolitan Areas to Develop Small Towns in Their Areas; and (6) The Role of Community Leaders in Developing Their Towns.

John Ben Shepperd, president of W.T.C.C., in announcing the formation of the Small Town Task Force, said, "More than half of our towns in West Texas with less than 12,000 population have lost ground in the past 10 years. This is a trend which must be reversed."

The plan calls for the Task Force members to meet with the mayor, chamber of commerce president and manager, school officials, newspaper men, county commissioners, cultural leaders, womens' club presidents, youth leaders and other key business people in the selected town.

An in-depth questionnaire covering community problems, assets and potentials, prepared by a panel of specialists, will be completed by the local leaders. Recommendations for solutions of problems or exploitation of assets and potentials will not be made at this time. These recommendations will be made later, after the study is completed.

TOURIST attractions, school systems, recreational and cultural facilities, industrial potentials, transportation, water supplies, churches, tax structures, agriculture, ranching and many other facets of a community's complex makeup will be examined by the local leaders.

C. L. Cooke, Fort Worth, chairman of the Task Force, said at the initial meeting in Olney, "The recognition of the existence of a problem, or the awareness of an asset or potential by local leadership, is the first and most important step in arriving at proper answers. We think the questionnaire will assist materially in this respect."

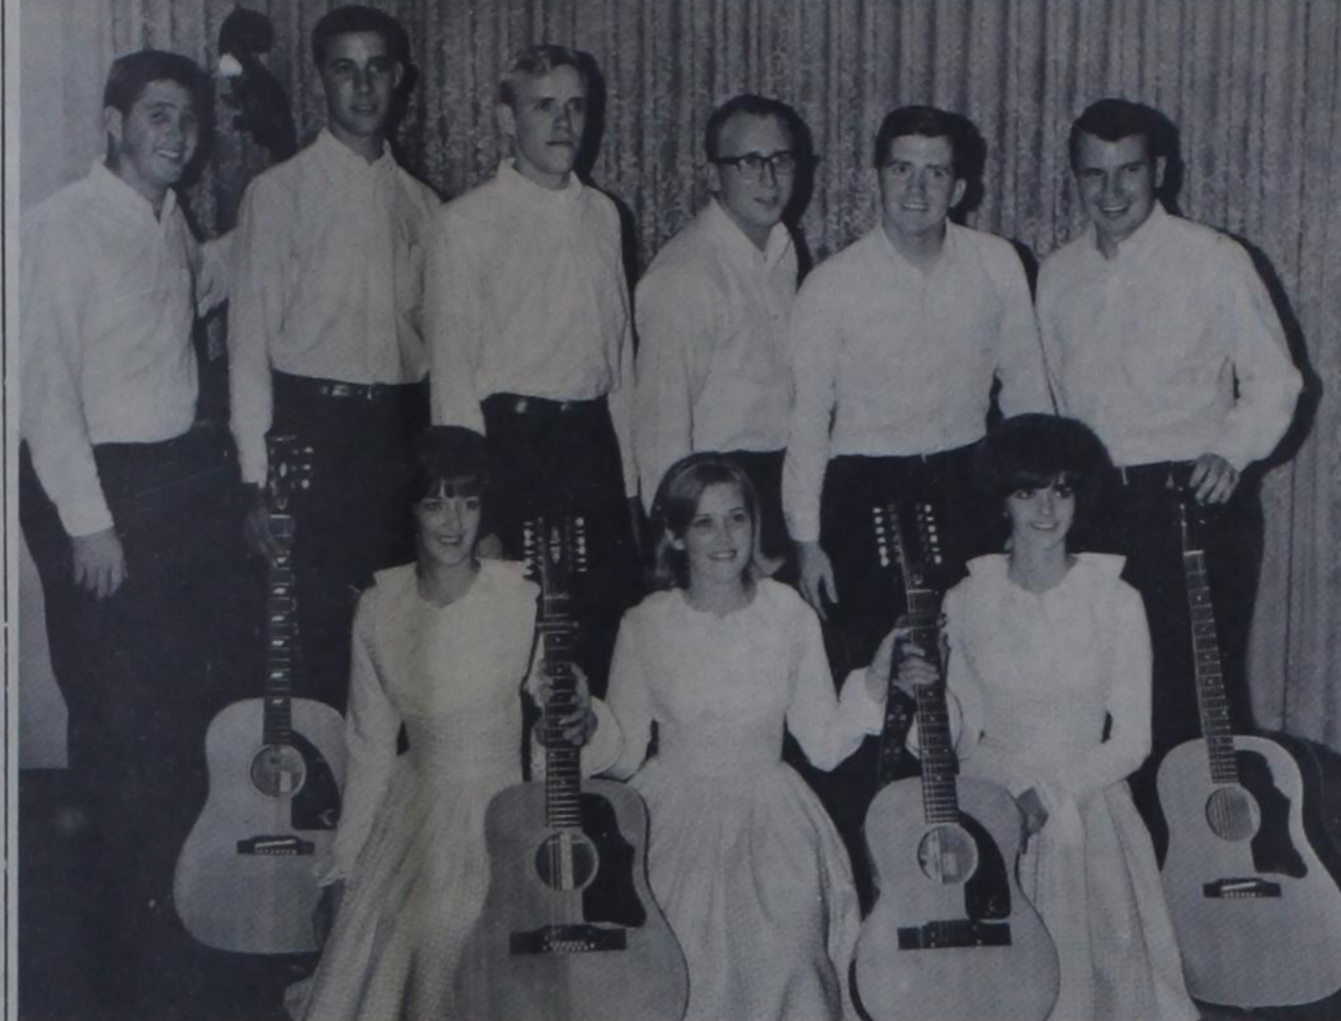

After the on-the-spot studies are completed, six hearings will be held in various geographical locations in the West Texas area. Dates and places for the hearings will be announced next week.

THE HEARINGS will follow the general format of congressional hearings. Testimony will be heard by representatives of towns affected and presentations on specific subjects will be made by outstanding specialists. Questioning of the "witnesses" will be conducted by a member of the panel.

The findings of the six hearings will be prepared by sub-committees, compiled and published in a special "white paper" on March 15.

Solutions to the individual community problems will be recommended by the committee in a report to the town concerned.

SIX SUBJECTS have been selected for the hearings. They are (1) The Role of City and County Governments in Developing the Small Community; (2) The Role of State and Federal Governments in Developing the Small Community; (3) Industrial Potentials of Small Towns; (4) Educational and Recreational, Cultural and Tourist Opportunities

She show, "Campus Talent 67," originated from Oklahoma City and was sponsored by Southwestern Bell Telephone Co. Joan Dawson, 17-year-old daughter of Mr. and Mrs. Ed Dawson of Route 1, has been selected to perform as first pianist with the Texas Tech Symphony Orchestra's sixth annual Children's Christmas Concert in Lubbock.

THE CONCERT will be Dec. 18 at 3 p.m. in Lubbock Municipal Auditorium, and will be directed by Symphony Conductor Paul Ellsworth.

Miss Dawson, a Springlake High School senior and piano student of Sam Pendleton of Lubbock, will perform Saint-Saens' difficult "Carnival of Animals."

Chosen as second pianist for the concert was Ann Hearn, 16, of Lubbock. Many young area musicians in grades eight through 12 auditioned for places in the concert, and were judged by Dr. Lara Hoggard, director of the Midland-Odessa Symphony Orchestra.

Sandhill Cranes Have Happy Time

Sandhill cranes, resting and feeding peacefully west of Lubbock and Big Spring, had little or no hunting pressure exerted on them during the Oct. 29-Nov. 27 hunting season, according to District Chief Ted Wheelis of the Texas Parks and Wildlife Dept.

Wariness on the part of the cranes and apathy on the part of sportsmen have made West Texas an enjoyable place for sandhill cranes to spend the early fall months.

FHA Finances 32 Castro Homes In July-November Transactions

The Farmers Home Administration averaged making almost two housing loans per week in Castro County from July 1 to Nov. 1. **DURING THE** four-month period, the agency made 32 direct individual housing loans totaling \$291,020 in the county, according to Donald R. Jennings, county FHA supervisor.

Loans during the period averaged \$9,000 each.

Statewide, more than 2,443 Texas families — 70 percent more than in the previous year — used \$16,787,304 of Farmers Home Administration credit for construction and improvement of homes during fiscal 1966, according to State Director L. J. Cappleman of Temple.

Some \$1,733,590 of the state amount was advanced directly to Texas senior citizens for improved housing, a 400 percent increase over amount of FHA credit extended in 1965 to rural residents 62 or older, Cappleman said.

RURAL HOUSING loans to Texas individuals other than senior citizens totaled \$15,053,714 during 1966, or 66 percent more than in the preceding 12 months.

These loans ranged from small amounts for minor repairs to loans for new homes and essential farm buildings.

"Farmers Home Administration's rural housing program has benefited scores of Texas communities as well as to the hundreds of rural people involved," Cappleman said. "That is only part of the story, for improvements made by borrowers to their homes have increased the community tax base."

MORE THAN 90,000 rural American families throughout the 50 states, the Virgin Islands and Puerto Rico have borrowed more than \$799.1 million since the program was expanded five years ago.

"It is important to note that many Farmers Home Administration rural housing loans are repaid ahead of schedule to the extent that payments of principal and interest throughout the nation equal 104 percent of the total amount due since the program began," Cappleman pointed out. "Losses on rural housing loans are less than .02 of one percent of the total loaned since the program started."

Farmers Home Administration housing loans are made to applicants unable to obtain credit from private lenders at reasonable rates and terms. They are tailored to individual needs and accompanied by assistance in farm and financial management.

January Draft Calls for 1,946

The state's 155 draft boards will be called upon to furnish 1,946 men for the armed forces in January, Colonel Morris S. Schwartz, state Selective Service director, reported.

This compares with a state quota of only 744 for December.

CALLS FOR the earlier months of 1966 were: November 2,339, October 2,845, September 1,889, August 1,837, July 1,381, June 878, May 1,927, April 979, March 1,068, February 1,372, January 1,475.

The Selective Service boards will forward between 9,000 and 10,000 men in January for pre-induction examination, Colonel Schwartz said, and they have scheduled 7,830 men for this examination in December.

Local board quotas for induction and pre-induction examination in January are scheduled to be mailed from state Selective Service headquarters Dec. 9. December calls for the local boards already have been assigned.

THE TEXAS quota of 1,946 for January is the state's share of a national call of 27,600. The national quota for December is 12,100. This manpower is for the army.

Land Values Still Spiral

The upward trend of farm property values continues to increase the assets of Texas farmers. Boyd Andrews, Texas A&M University Extension resource development specialist, says farm property prices increased an average of 17 percent from 1963 to 1965.

ANDREWS obtained his information from a study conducted last summer. Data were gathered from a 26-county sample which included counties from each of the state's 17 type-of-farming areas.

Per-acre land values in the irrigated farming areas of the lower and upper Rio Grande and southern High Plains seem to be closely correlated to agricultural production and net farm income. But this dependence on agricultural conditions was not evident in other sections of the state, he noted.

Diversion Requests Can Be Filed Today

Farmers can begin filing requests with the ASCS office today (Thursday) for diverted acreage.

The recently announced 1967 Cropland Adjustment Program authorizes the Secretary of Agriculture to enter into agreements with farmers to divert cropland normally used for producing feed grain, and allotment and nonallotment crops, to conserving uses.

THE AGREEMENT may be for five to 10 years, at your option, County ASCS office Manager Charley Hill said. Annual adjustment payments will be made for the acreage placed under agreement. Cost-share payments are authorized for the establishment of approved conservation practices.

If you have a feed grain base or a cotton base, you must offer at least all of one such base to qualify for an agreement. You may offer all of any other base on the farm.

The designated acreage must be maintained for the duration of the agreement in such a manner as to prevent erosion and to control weeds, insects and undesirable rodents. No crops may be planted for harvest or harvested on the designated acreage. You must comply with all acreage allotments and the feed grain base for the farm under agreement, as well as on all other farms in which you have an interest.

REQUESTS will be considered on a first-come, first-serve basis. If you are interested in an agreement, you may file your request in the county ASCS office beginning today (Thursday). Contact the ASCS office if you have any questions about the request or the program.

Water District Election Slated In Hale, Crosby

The Board of directors of the High Plains Underground Water Conservation District has called annexation elections for Hale and Crosby counties.

THE TWO counties earlier this year petitioned the water district for membership in the present district. Annexation hearings were held in both counties and testimony was received by the board concerning each county's membership in the district.

The election date has been set for the second Tuesday in January, which is Jan. 10.

The proposition on the ballot for the two counties will be for or against becoming a part of the district and for or against the five-cent property tax for support and maintenance of the district. Counties that are now members of the district will also vote to accept or reject the two counties.

If Hale and Crosby vote to become a part of the water district, they will be afforded all benefits now being supplied to members of the district — technical data, research programs, and materials needed to claim income tax de-

Cotton Quota Ballots Will Be Mailed Friday

BY CHARLEY HILL, County ASCS Office Manager

In 1966, a producer who participated in the cotton program received 9.42 cents per pound price support payment on 65 percent of his allotment times the projected yield for his farm. A producer could divert from 12½ percent to 35 percent of his allotment and receive 10.5 cents times his projected yield for each acre diverted.

COTTON acreage in excess of the effective farm allotment was subject to a marketing quota penalty. This program was the result of a favorable vote by cotton producers in the marketing quota referendum for 1966.

If marketing quotas are approved on water used for irrigation farming. Also, they will be pledging their support to the organized efforts of the High Plains District to provide water to West Texas through importation of water from other areas of the state or nation.

ed for 1967, a similar cotton program will be in effect.

If more than one-third of the cotton producers voting cast a "No" vote in the 1967 cotton marketing quota referendum, the following provisions will be in effect for 1967:

1. There will be no diversion program.
2. There will be no price support or diversion payments.
3. There will be no penalties for exceeding the cotton allotment.
4. There will be loans at 50 percent (about 21 cents) of parity, if the cotton allotment is not exceeded.

Both husband and wife are eligible to vote. Ballots will be mailed to all known eligible producers Friday, and must be postmarked no later than Dec. 9.

BIRD DOGS, sensitive though their noses may be, are unable to separate the many smells of nature when vegetation is rank and green. But Jack Frost killed most of the outdoor odors and dogs have been able to locate bobwhites with regularity.

Reports from game wardens in the Lower Plains of Texas indicate the 1966 season is one of the best quail hunting seasons since the red-letter years of 1958-59.

lowing provisions will be in effect for 1967:

1. There will be no diversion program.
2. There will be no price support or diversion payments.
3. There will be no penalties for exceeding the cotton allotment.
4. There will be loans at 50 percent (about 21 cents) of parity, if the cotton allotment is not exceeded.

Both husband and wife are eligible to vote. Ballots will be mailed to all known eligible producers Friday, and must be postmarked no later than Dec. 9.

Schuders Adopt Daughter
Mr. and Mrs. Troy Schuder of Dimmitt became the adoptive parents Nov. 15 of a baby girl, Troyce Jean. The little newcomer to the Schuder household was born Oct. 28 and weighed 8 pounds, 8 ounces. She has an elder brother, Kyle Ray, 2½. Grandparents are R. H. Schuder of Eden and Hubert White of Hereford.

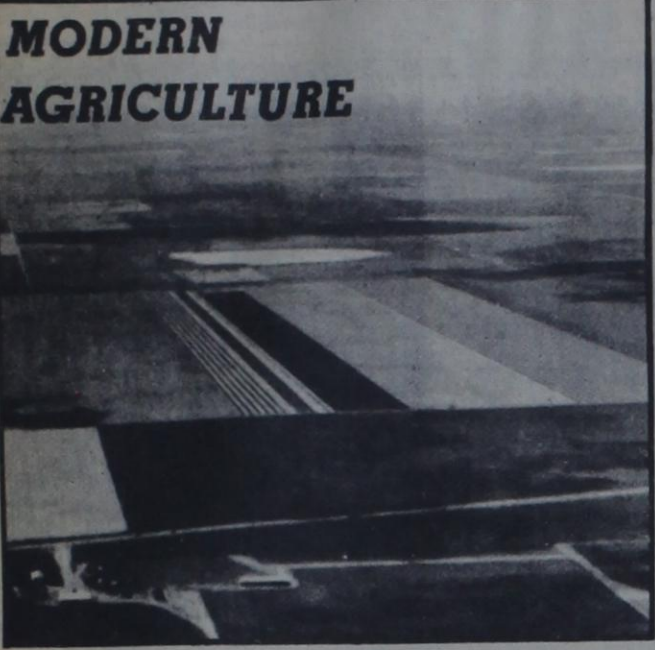

Jan. 3 Deadline To Request Cotton Acreage Transfer

Farm operators in Castro County must file their applications for the transfer of cotton allotments for the 1967 crop no later than Jan. 3.

CHARLEY E. HILL, County ASCS office manager, explained that notices of the cotton allotment and the projected yield for individual farms have already been mailed to county farmers, so farm operators now are in position to make their production plans for next season.

In Castro County, growers voting in a special referendum earlier this year failed to approve transfer of acreage allotments — by sale or lease — out of the county, so the transfer of allotments locally may be made from one farm to another only within Castro County. In no case may allotments be transferred to another farm outside the state, Hill explained.

THE JAN. 3 deadline, therefore, applies to all transfers of 1967 cotton allotments for Castro County farms — whether by sale, lease, or the owner.

Minimum Wage Workshops Set For Next Week

Two workshops on the new federal Minimum Wage Act will be held in West Texas next week, sponsored by the Texas Restaurant Association.

ONE WILL be in El Paso Tuesday at Hotel Paso Del Norte, the other in Lubbock at the KoKo Palace Wednesday. The one-day seminars begin at 10 a.m., preceded by a "welcome aboard" coffee at 9:30 a.m.

The speaker will be Pete Pestillo, the National Restaurant Association's Washington, D.C., legal counsel, who has worked with Congress and the US Senate since the far-reaching bill (covering eight million workers) was first introduced.

A cost-only fee of \$5 will be charged so that hundreds in the area may learn how to comply with these new federal regulations which go into effect less than three months after the workshops, on Feb. 1, 1967.

VOTE YES ON COTTON RESEARCH AND PROMOTION DEC. 5-9

Because:

- Higher-priced synthetics are taking our markets — over 2 million bales in the last 2 years.
- New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.
- Carryover is at all-time high; acreage lowest since 1872.
- 1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced.
- Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.
- Farmers originated research and promotion proposal; farmers will run it.
- Plan is voluntary; any farmer not wishing to participate can get a refund.
- 42 cotton producer organizations have endorsed this approach —officially.
- All projects must be initiated and administered by producer trustees elected by cotton producer organizations.
- If we want to keep on growing cotton, we must sell more cotton.
- Most farmers put nearly \$100 or more into growing, harvesting, and ginning a bale; can you afford not to spend \$1 to sell a bale?

Bobbie of the Week

Kay Bradley

Our Bobbie of the Week is a hard working player on the Bobbie basketball team. This guard has added very much to the team, and she certainly deserves the title of "Bobbie of the Week."

KAY BRADLEY has played basketball for five years, including her experience while playing in junior high. Not only is Kay very active in basketball, but she also participates in other sports. Kay enjoys swimming as a hobby.

Ray, Kay's twin brother, is a member of the Bobcat basketball team. Both Kay and Ray are very active in all the sports and school activities. As of Nov. 2, the Bradley twins reached the "ripe o'le age" of 18.

Kay is very reliable and is usually successful in all she attempts. Just recently the FFA crowned her chapter sweetheart. Congratulations, Kay, and we are sure the Bobbie basketball team benefits very much by having you as a team member.

Gadding About

Band Gets Top Rating

BY CAROLYN DUNN

Well, here I am again this week with a few notes on events here at DHS. Everyone seems to have had a very exciting weekend, or at least quite a few people had a nice turkey dinner on Thanksgiving. You can tell by the extra pounds acquired.

AS SCHOL has resumed action, it will take about four class changes to lose those pounds. We're really active class changers here, especially when it's time to go to lunch!

Before the holidays began, a slumber party was hosted by Peggy Byrnes for the junior girls and Martha Nitsa. The party was given on Friday night after the Adrian ball game. I understand Martha showed Belee Goodwin how to do a fast Greek dance, and Belee reversed the action by showing Martha our 1, 2, 3, Texas Cowboy Stomp. Entertainment was provided by the party-givers themselves. They watched TV, danced, played pool, gossiped, and plussed! The boys left, unwillingly, about 1:30. After the boys left, the girls settled down to eating Poppy out of house and home (that is, what was left by the boys!). They enjoyed sandwiches, Cokes, fudge, Fritos, and dips. Everyone turned in for the night after a gab session. They found a soft spot and landed there - from beds to under the pool table! The girls got up the next morning, and some of them were still hungry! They ended a perfect party with cysters and fudge - of all things!

ON THIS same Friday night a dance was given at the old skating rink. Music was provided by the "Mysterics" from Floydada. It was really quite a bit of fun. Things like this give kids some place to go and something to do in their spare time. It keeps them out of trouble. Special thanks should go to the parents who go to so much trouble to provide this entertainment and who take the time to chaperone it. Thanks to you, parents!

On Nov. 22, the Dimmitt Bobcat Band made a first division rating in marching contest at Lubbock. The band left school at a little after 9 Tuesday morning and went over to Bobcat Field for our traditional drill before leaving. The only comment "Smith" had then was, "Please concentrate." We arrived in Lubbock about 11:30. We were to eat and could play around until 2, and were to be back at the buses and in full dress then. We went down in the ramps to await our time to march. Then the big moment came. We walked around to the end of the field and began our "March on Jones Stadium." We marched and played for approximately seven minutes, we were quite anxious to hear the ratings. We finally heard them about 15 minutes later. When the announcer said, "Dimmitt, One," we were really shouting for joy. If there had been a roof on Jones Stadium, I am quite sure we would have raised it. We had no actual criticisms.

B Team Falls To Hereford

The only comments made by the judges referred to our fine director, our pretty uniforms, and our fine quality of marching and playing. The Bobcat Band and Dimmitt owe much to our director, Mr. Smith. He has the largest class of organization in Dimmitt High School and has done more for his 158 strong than any other teacher over a small class.

The holidays then arrived and kept everyone quite busy. The play cast practiced and worked on sets, the basketball teams worked out and played, and the all school favorites had their pictures taken for the '67 annual. These were just a few of the events and there are probably quite a few more. Let me know and we'll let others know about your fun.

High Scorers for the Bobcats were David Land with 23 points, Mike Bailey with 11, and Jimmy Coleman with 10.

The Bobcats scored 17 points in the first quarter, 11 in the second, 22 in the third, and 13 in the fourth. The boys hit 21 out of 35 free throws.

English Department Has Big Responsibility in Education

Have you ever wondered what the United States would be like if nobody could read or write? Would we all be savages, slaves, or just what?

DO YOU realize that one reason the United States is the greatest nation on earth is that the masses were taught to read and write? One will find no other country that has such opportunities as ours. This is partly made possible through the study of English.

Although English is very useful, it takes much time and work. We would like to recognize the teachers who have dedicated themselves to molding our lives.

This year we have two freshman English teachers. Miss De La Cerda graduated from West Texas State University. This is her first year of teaching. She received her bachelor of arts degree in Spanish and history, so naturally she teaches Spanish also. In grammar, though, she tries to emphasize spelling and vocabulary. Tests in these are given every Monday and Friday.

MRS. SHARP also teaches freshman English. This is also Mrs. Sharp's first year to teach. She received a major in English and a minor in music, so she enjoys singing and playing the piano. In grammar she is trying to teach the parts of speech and their applications.

The next step is sophomore English. It also has two teachers. Mrs. Hilburn has taught here in Dimmitt and in several other towns. This year in grammar she is stressing composition. When she is not teaching she enjoys reading and sewing. Besides teaching English she also teaches Latin.

Miss Griffing also teaches English II. She has done an excellent job, considering that she also teaches several classes of speech and one of drama. Miss Griffing's classes are never dull. Just ask anyone!

This year junior English is taught by Mr. Diehl. Considering that this is his first year of teaching, he is doing an excellent job. He likes to write stories when he is not busy. In grammar Mr. Diehl is touching on all phases of English. Next semester he plans to touch on Old English literature.

LAST, BUT not least, comes the mighty senior class. Miss McMinn teaches this group. She has taught in Dimmitt three times before 1966-67. She has also taught in Hereford and Tulla. She holds a bachelor of arts degree in French and English and a master's degree in education. She has a counselor's certificate for elementary and secondary levels. She has written five volumes entitled "Counseling, the Gateway to Better Pupil Adjustment." She likes to sew and also to play the piano and organ. This semester she has emphasized paraphrasing.

Cats Clobber Sudan, 65-34

The Dimmitt Bobcats eased by Sudan Friday night, 65-34. High scorers for the Cats were John Howell with 17 points and Tommy Stafford and Jack Bradford with 14 points.

THE BOBCATS, sporting a 3-1 record for the season, had their hands full Tuesday night when they met the Plainview Bulldogs at Plainview. The Bobcats will travel to Plainview again Friday to open against Abilene Cooper in the Plainview Tournament.

Cats Win Cliff-Hanger Over Hereford, 56-55

Dimmitt's Bobcats took an exciting 56-55 cliff-hanger from Hereford last week, then followed through Friday night with a 66-34 rout of Sudan.

THE TWO WINS gave the Cats a 3-1 record going into this week.

Dimmitt's victory over Hereford, meted out on the Whitefaces' home court, was the first in six years. The traditionally exciting Dimmitt-Hereford series reached a frenzied new peak as John Howell sank two free throws with three seconds remaining to

give the Bobcats their one-point win.

The Whitefaces started the game as if they intended to run the Bobcats off the court, building a 10-2 lead in the first four minutes.

BUT DIMMITT cut the margin to three points, trailing 10-13 at the end of the first period. In the second quarter the Bobcats roared back and outscored Hereford 18-13 to grab a 28-26 halftime lead.

The third quarter was nip and tuck, ending with the Bobcats holding a slim 41-40 lead.

Hereford rallied in the fourth, and at one time owned a five-point lead.

BUT AGAIN the Bobcats fought back to within a point of the Whitefaces, and went ahead when, with 17 seconds remaining, Howell was fouled, and made both shots of a one-and-one situation to give the Cats a 54-53 lead.

But the ball game wasn't over yet. As the clock neared the final buzzer stage, a Hereford player was fouled while bringing the ball downcourt. He sank both charity tosses to give the Whitefaces their one-point lead back, 55-54, with just 12 seconds remaining.

The Bobcats whipped the ball downcourt and took a quick shot. It rolled off the rim, but Howell rebounded and was fouled as he attempted the follow-up shot. The clock showed three seconds left as the big post man stepped to the charity line.

HOWELL'S first pressure-packed toss hit the front of the rim,

then dropped through the net to tie the score. His second throw swished through the basket without touching the rim, giving Dimmitt a 56-55 victory.

The final buzzer caught the desperate Whitefaces with the ball in bounds and no time left to do anything with it.

Howell played his best game of the season so far, scoring 25 points and snaring nine rebounds. Seventeen of his points came at the free throw line.

Also contributing a top effort to the Bobcat cause was forward Billy Glidewell, who grabbed 14 rebounds and gave Dimmitt its all-important control of the boards before fouling out in the final period. Ronnie Kenmore and Tommy Stafford played their usual steady game, scoring 11 and nine points respectively.

IN FRIDAY night's Sudan game, Coach Kenneth Cleveland started clearing the bench in the first quarter, but the short Hornets couldn't pierce Dimmitt's full court press or stop its pattern of offense and the Bobcats won easily, 66-34.

Howell was again high point man with 17. Tommy Stafford and Jack Bradford scored 14 each and Ronnie Kenmore added 13 in a balanced attack.

In Friday night's B team game, Dimmitt walked away with a 55-28 victory as 15 boys played and 12 contributed to the scoring. Ronnie Huckabay was the high pointeer with 10.

Bobbies Extend Winning Streak

Dimmitt's Bobbies continued to add to their winning streak last week by delin'ing Cotton Center 62-35 and tromping Sudan 61-48.

IN THE EASY Cotton Center victory, Debra Summers topped the Bobbie scoring with 27 points, her biggest total so far. A'llan Webb was right behind her with 26, and Poppy Byrnes added six.

The Bobbies got off to a slow start, scoring only 21 points in the first half, but the guards held Cotton Center to a scant 14 to give Dimmitt a seven-point halftime lead.

But in the second half the Bobbies exploded for 41 points to win going away.

FRIDAY NIGHT, the Bobbies hosted the Sudan Hornets, and Coach Van Kountz played every girl on the bench as the Bobbies surged ahead in the second quarter and almost made a rout of it in the last half.

Dimmitt held only a four-point

lead, 11-7 at the end of the initial period, but in the second quarter the Bobbies poured 21 points through the net to lead 32-22 at halftime.

As Dimmitt's guards continued to frustrate the Sudan offense, the Bobbies extended their lead to 16 points, 46-30, at the end of the third period, and coasted to a 12-point victory.

A'llan Webb swished the net for 34 points to keep her average above 30 per game. Debra Summers netted 21 points and Sherry McGowan scored six.

The Bobbies are now 3-1, and haven't lost a game since their opening bout with Adrian, which they avenged in their second outing.

Why Does a Child Love?

BY IRENE KEATING
COUNTY HD AGENT

Now that Thanksgiving has come and gone we must begin to prepare for Christmas. It will make your holiday more enjoyable if you begin to do as many things now as possible. If you're planning to take a trip it is also good to plan what you'll be taking so you can have it ready.

★
HERE ARE some tips on child rearing that may be of interest to you.

The best thing parents can do to keep their children out of trouble is to love each other. Psychologists indicate that many individuals reach adulthood unable to love anyone because they have not learned how to love in their own homes.

People who are incapable of loving anyone are the unhappy, maladjusted individuals who often turn to antisocial behavior in an attempt to seek attention. They are also found frequently in the divorce courts and the psychiatrists' offices.

HOW DO parents teach their child to love, to care for others? The clue is explained by Dr. Christine Beasley, professor of family relationships at the University of Tennessee.

"We learn to love by loving," says Dr. Beasley. This theme may be one of the most important ones that young parents can remember as they attempt to guide their children. A child learns to love by loving those around him. And he does

this as he does many other things in life — by imitation.

One of the surest ways to teach a child to love, to give him the security of knowing he is loved, is to set a good example. Young parents may not be aware that their love for each other may be the basic ingredient in a secure and happy childhood for their children. The child whose parents have a strong, happy marriage has the best opportunity for learning to love others, and also for the formation of a happy home of his own.

Art Gallery Perspective

BY ALICE COWEN

At the Art Guild meeting Monday night were the seascapes, snow scenes, churches and street scenes which were the assigned paintings from the last meeting. Guild members spent some time made an interesting display.

Theo Campbell and Elizabeth Huckabay had street scenes, G. B. Duncan, R. B. Strother and Alice Anthony snow scenes, Harold Bischoff and Eddie Lee Smith churches, and Helen Braafad and I had seascapes. From these paintings will be selected the painting or paintings of the month which will be displayed at Kittrell Electronics. Watch for them — they should be there soon.

THE ART GUILD again would like to express appreciation to Kittrell Electronics for its interest and support in allowing the space for exhibiting the pictures.

Following the business meeting of the Guild, Theo Campbell continued his discussion of the principle of dynamic symmetry which he had started at the last meeting. This concerns the theory of artistic composition, and it gave rise to an enthusiastic response and much involvement among members.

Assigned paintings for next time, thanks to the inspiration of President Helen Braafad, will be doorways, windows and barns.

A new art gallery had its opening Sunday in Hereford. Juandell Wade, who paints with the Thursday night group under Larry Hilburn at our gallery, is the owner and proprietress. Among paintings exhibited were eight of Theo's. He attended the opening and reported good attendance and interest.

Ideal weather conditions last week enabled South Plains farmers to continue the cotton harvest and 80 to 85 percent of the crop was out of the fields at mid-week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA.

Trading increased considerably in the new crop cotton on the Lubbock market last week and prices remained steady. Demand was strongest for cotton with mi-

Shelly's Chatter

It Was a 'Family Thanksgiving'

BY MYRTLE SHEFFY
This has been a week of family get-togethers for Thanksgiving. Most all of the college kids were home. I saw the Davis girls, Irene Thornton, Linda Kuntz from Abilene, Robbie Lindsey, Evelyn Waggoner, Georgene Blanton, Bob Bradford, the Shelly girls, Connie and Beth; Mike and his wife, Gail Goodwin, of WTSU; Ginger Kemp, Kathy Graham, Pat Moran, Dricilla Dehtan and Linda Davis. They Hays girls were home also. Hundreds came in, maybe I can find out "who."

The N. F. Cleaver family all went out to Lois and Charles Wales's house, 32 of them.

The Bradford bunch gathered at James and Mildred's.

The B. M. Nelsons had a crowd in for dinner — Mary and Herb Buraham and their three boys of Albuquerque; Don and Verbie Nelson and two children; Carolyn Poillard and two children, (Jon Poillard was in Lubbock with his brother, who is in critical condition); and Mr. and Mrs. Harold Perkins and daughter of the paper staff.

Billy Graham Jr. hosted the family, Dad and Mother Graham, the Ted Shellys and Mary and Kent Gabel, Kathy and Perry.

Joe Lust and Greg Brooke were home from Texas Tech.

Tom Bob and Gary Moss, both of WTSU, were home. If you went to, or watched the "Peppermint Lane" Christmas program on the Amarillo station, you might have seen Gary Moss play in the Symphony Band. Mr. and Mrs. William Moss went up for this event.

I HAVE just now heard that our neighbors, Troy and Betty Schuder have the new baby girl, named Troyce Jean. She came in from Fort Worth recently.

Guests in the home of Glen and Diane Hatla and Toby Saturday were a brother, Mr. and Mrs. Rodney Kitten of Fort Worth, his mother, Mrs. Frances Hatla, Grandmother Bartek of Littlefield and Buster and Maxine Tidwell and daughter Rhonda.

The Tidwells got moved into their new home on Maple St. Their guests Sunday were the Glen Hatla's, (Diane is Maxine's niece), Judge and Mrs. J. B. Davis, Diane's parents from Littlefield, Mrs. Grace Winters, Mrs. Tidwell's mother.

MARY AND Mokie Ivey visited her folks, Mr. and Mrs. Carl Petska in Carlsbad. They went out to Midland to see his side, Hazel and Curtis Pruitt. The Floyd Iveys were there also. Last week, Mary said they went to Abilene where she met a bunch of Ivey relatives.

Mr. and Mrs. Goldman Dyer were hosts at a get-together after the ball game Friday night for some old school friends of Dickie's, a Tech student. Dips, cookies and coffee were served to Tom and Karen Nichols, Chuck McKinney of San Angelo, Jack Nichols and Kris James, Steve and Linda Hutton, Aural and uzie Davis, Ina Richardson of Andrews, Mr. and Mrs. Bill Reisdorph, Mr. and Mrs. Tom Keener and boys, Coach and Mrs. Kenneth Cleveland and Mr. and Mrs. John Nichols.

THE TOM KEENERS and three boys went to Clarendon to visit with Bobbie and W. T. Elliott of Arizona, who were visiting his parents there. Thursday, Jackie Harris and children were dinner guests of the Tom Keeners. Mrs. Harris was at the hospital for a stay — is o.k. now.

Mr. and Mrs. Houston Lust were hosts at Thursday dinner for her parents, Mr. and Mrs. Joe Finck, her brother Mr. and Mrs. Alva Finck of Tulsa, and son Joe of Tech and Jackie Flynt.

Don and Katy Wright were hosts one evening to the Pioneer Sorghum Co. employees, mostly from Plainview. 75 people were there for the goat barbecue prepared by Goose Ramey and Don. Katy cooked up a lot of fine food to go with it.

Ralph Smith is in San Antonio this week for a two-day judging of marching bands. He should be a good judge.

MOLE'S EYE VIEW of street-light construction on the courthouse square shows L. D. Atwood, John P. Smith and Ted Underhill of Southwestern Public Service Co. working at the base of a new 54,000-lumen mercury vapor light. Visitors to the court-

house last Thursday and Friday had to jump four-foot ditches as workmen laid the underground conduits for the new lights. Five of these new street lights will replace all 14 of the old 20,000-lumen lights around the square.

BY MRS. OWEN ANDREWS

Frio folks and their guests gathered at the Big Bull Barn, Hereford, Tuesday of last week for the traditional Thanksgiving supper. Rev. Sam Ogan brought a devotional before the supper and immediately afterward a "Cotton John" film, "Go View the Land," was shown. A special guest, Ray Simpson, brought projector equipment and showed the film. About 85 persons attended the supper. The Frio Homemakers Club sponsors the annual event for the community.

Mr. and Mrs. Gienna Andrews, Hal, Clint and Lynn of Etter came Thursday and spent the holidays with his parents, Mr. and Mrs. Owen Andrews, and the other relatives here. They also visited Mr. and Mrs. Earl Harkins Saturday. Jana Cole was home from Baylor University to spend the holidays with her parents and other relatives. On Thursday morning the family had breakfast with Mrs. H. M. Mobley and Austin. Those present were the Floyd Coles, the D. C. Millers, and the Don Mobleys, also Mr. and Mrs. Claude Price, Floydada and Mrs. Dorothy Johnson, Midland. The Don Mobleys went to Oklahoma to visit her family during

the holidays. The rest of the Mobleys ate Thanksgiving dinner with the Floyd Coles.

Mrs. W. A. Springer and the late Mr. Springer, and was raised in this community, graduating from Hereford High School. The Summers also lived in the community several years.
