Longhorns, Steers to Meet Here Tonight

The Coke county football classic between Robert Lee and Bronte will begin tonight at 8 p. m. at the Bronte athletic field. This annual affair will also be the first game under the lights at the newly lighted athletic field.

Bronte will be trying hard for a win after a stinging defeat last week over at Meivin. The Longhorns won their

only other game this year from the Ozona eleven by a score of 12 to 6.

Robert Lee also has one loss and one win to the credit of the team. In their first game of the season, they were defeated by the Baird Bears, 7 to 6. Last week, however, they came back to win from the Eldorado eleven.

Probable line-ups are given in a page ad sponsored by Longhorn boosters in this paper. Programs for the game have also been printed as a courtesy of the local merchants boosting the home team.

At the Lions luncheon Wednesday noon, each of the boys was introduced, and each one expressed a determination to win the game tonight from the Steers.

Coach W. N. Gaddy said that if the local boys play like they did in the game with Ozona, they will give the visitors a run for their money.

Everyone is urged to be present at the game tonight, and boost the Longhorns. It will be the first game in the newly lighted stadium.

Lions Entertain Football Team

Coach W. N. Gaddy of Bronte high school and his squad of Longhorns were guests of honor at the Wednesday noonday luncheon of the Bronte Lions club.

Sam Spruell of the Bronte Cafe prepared roast chicken and dressing for the boys. After the meal was over President Edward Cumbie turned the program over to Supt. J. L. Carroll, who made as short talk on behalf of the school. Superintendent Carroll introduced Coan Gaddy, who, in turn, introduced the local football boys.

Each boy arose as he was introduced, and expressed his appreciation for the entertainment, and told his opinion of the outcome of the game Friday night between the Bronte Longhorns and the Robert Lee Steers.

Lion C. E. Arrott made a report on the progress which has been made on the new football field. Lion H. O. Whitt, who is on the football field board of directors, reported that at a recent meeting his board had voted to name the Bronte football field Elbert Stephenson Memorial Field, in honor of Elbert Stephenson and all other Bronte boys who were killed during the war. Young Stephenson was one of Bronte's greatest athletes. Whitt said, however, that the field was dedicated to all the boys in this vicinity who died during the recent war, and that Stephenson had been chosen as a representative member of the group. It was recommended at last week's Lions' meeting that the field be so named.

Dedication of the football field will be made at a later date when all the work on it has been completed.

Nineteen football boys, nineteen Lions and two other guests, Coach Gaddy and J. A. Stephenson, were present for the Wednesday luncheon.

BARGAIN RATES ON FOR STAR-TELEGRAM

Bargain rates on the Fort Worth Star-Telegram were announced this week by the publishers. They are \$13.95 for the paper seven days a week, and \$12.60 for six days a week (without the Sunday edition).

New and renewal subscriptions are being accepted at the Enterprise office for the Star-Telegram.

For the first time in several years the limitations on new subscriptions have been raised. If you have been waiting for an opportunity to subscribe to this state-wide paper, The Enterprise will be happy to take your subscription.

Miss Tatum To Wed W. L. Brown

The marriage of Miss Margaret Juanita Tatum, daughter of Mr. and Mrs. F. M. Tatum of Bronte to William Lee Brown, son of Mr. and Mrs. Johnny Brown of Tennyson, will take place tonight, October 1, at 8 p. m. in San Angelo.

The bride will be given in marriage by her father and the double ring ceremony will be read by the Rev. Ed Tatum, uncle of the bride.

Miss Tatum is a student in Bronte high school and will graduate soon. Brown is also a former Bronte high school student.

ANNUAL STAFF ELECTED

Loretha Wrinkle was elected as editor-in-chief of the Bronte school annual in a meeting at the school Tuesday. First assistant editor elected was Billie Millikin and second assistant editor is Dorothy Walton.

Each class will elect a representative to the annual staff and plans now are to get the annual underway next week.

Prospective Percifull Well Holds Oil Spotlight Around Bronte Area

The location of the offset to the Hickok & Reynolds and Dan Auld No. 1 E. C. Rawlings well, on the Jess Percifull place west of town has been the talk of Bronte the past few days. However, as The Enterprise goes to press, no definite word has been received from the American Republic Company, who has the lease on the property. It is expected that the contract will be let and drilling will start in the near future.

An early beginning on the Humble offset on the R. E. Hickman property is expected, also.

Sun No. 8 Fred Jameson was completed this week, and on a 24 hour

test made 315.7 barrels of oil. The production was natural flow, and came through 3/4-inch choke from an open hole between 6,132 and 6,423 feet. Gravity of the oil produced was 48.8 and gas-oil ratio was 1,397-1. This well is located in the southwest part of the Jameson field.

Southern Minerals No. 3 M. G. Reed was drilling at 4,660 feet in lime and shale.

Southern Minerals No. 1 McCabe was drilling at 3,833 feet in lime.

Sun No. 2 C. E. Mathers was at 2,178 feet in shale and sand.

Sun No. 13 H. H. Jameson was drilling at 5,450 feet in hard sand and shale.

Sun No. 1 Anderson, drilling at 5,611 feet in shale.

Sun No. 1 P. W. Millican, after recovering lost tools, plugged back from a total depth of 5,787 feet and was attempting to straighten the hole.

A new location made recently is Sun No. 2 J. Brannon in the Jameson field. The contract says the well will go to 6,600 feet and will be drilled with rotary equipment.

Over in southwestern Nolan county, Sun and Seaboard No. 1 Haney was drilling at 5,340 feet in sand.

1948-49 Budget Is Approved at Meeting

About 50 persons were present at a public hearing Wednesday night when Bronte adopted its 1948-49 budget. Total amount required by the budget was \$6,262.51.

After the budget was adopted, the board of tax equalization held a session to consider any complaints resulting from the recent raise in property valuations here in Bronte. Apparently, from the number of persons present, there were several complaints to be heard.

The 1948-49 budget adopted showed the following figures:

Sinking Fund
Estimated receipts were \$1,110.00 and a balance of \$570.00 was carried over from last year, making a total of \$1,680.00. Expenditures were list-

ed as \$1,130.00, leaving a balance of \$550.00 for April 1, 1949. The sinking fund includes the taking care of bonds which have been issued in the past.

Police Department
Total cash for the Police Department was \$2,250.00, with a balance of \$479.49 on hand and new taxes bringing in \$51,770.51. Expenditures, which include the marshal's salary, amount to \$1,500.00.

General Fund
Cash on hand April 1, 1948 was \$208.00 and \$1,775.00 will come from taxes, giving total resources for this fund of \$1,983.77. Expenses netted \$1,461.00, leaving a balance of \$522.77. Items of expense from this fund are collector's salary, office fuel, freight, postage and other expenses necessary for maintaining the city's business.

Streets and Alley Fund
Taxes for this fund will amount to \$767.00, but a cash balance of \$1,038.96 bring the total up to \$1,805.96. Expenditures total \$1,555.00. These expenses include street lighting, street maintenance, gas and oil, and other expenses necessary in the maintenance of Bronte's streets and alleys.

Fire Department Fund
The fire department's resources amount to \$840.00 from taxes. Expenses for this department total \$500.00, with repairs on truck, tires, and additional equipment.

The above figures are based on a total valuation of \$840,000, with a tax rate of 75 cents on the \$100 valuation. Mayor H. O. Whitte pointed out that this tax rate is considerably lower than the \$1.00 rate that was in effect last year; consequently, the raise in valuations was not as drastic a change as it appears on first glance. The total budget for 1947-48 was \$5,947.00, as compared with an estimated \$6,262.51 needed for the current year. This is an increase of \$1,215.51.

Waterworks
Estimated resources for the waterworks in 1948-49 are \$9,724.39. Expenses are estimated at \$9,104.56, which will leave a balance next April of \$619.83. These expenses include all the expenditures necessary for operating the city's water system.

Waterworks Improvement
It is estimated that a total income of \$25,393.95 will be available in this fund. Plans call for an expenditure of \$30,575.00 in improving the city water system. This will leave a deficit of \$5,181.05 in the fund.

City officials said that in their opinion the budget, as adopted, represents the smallest amount of money that can possibly be used to run the city's business in an efficient manner.

River Authority To Meet in Austin

Officers of the Upper Colorado River Authority will meet in Austin with the Bureau of Reclamation October 7 and 8 to discuss latest developments in the upper Colorado river dam project, said L. T. Youngblood, local banker and chairman of the river authority.

The river authority men will hear the results of the survey which the Bureau of Reclamation has been conducting, and plans will be made for another meeting later somewhere in this vicinity.

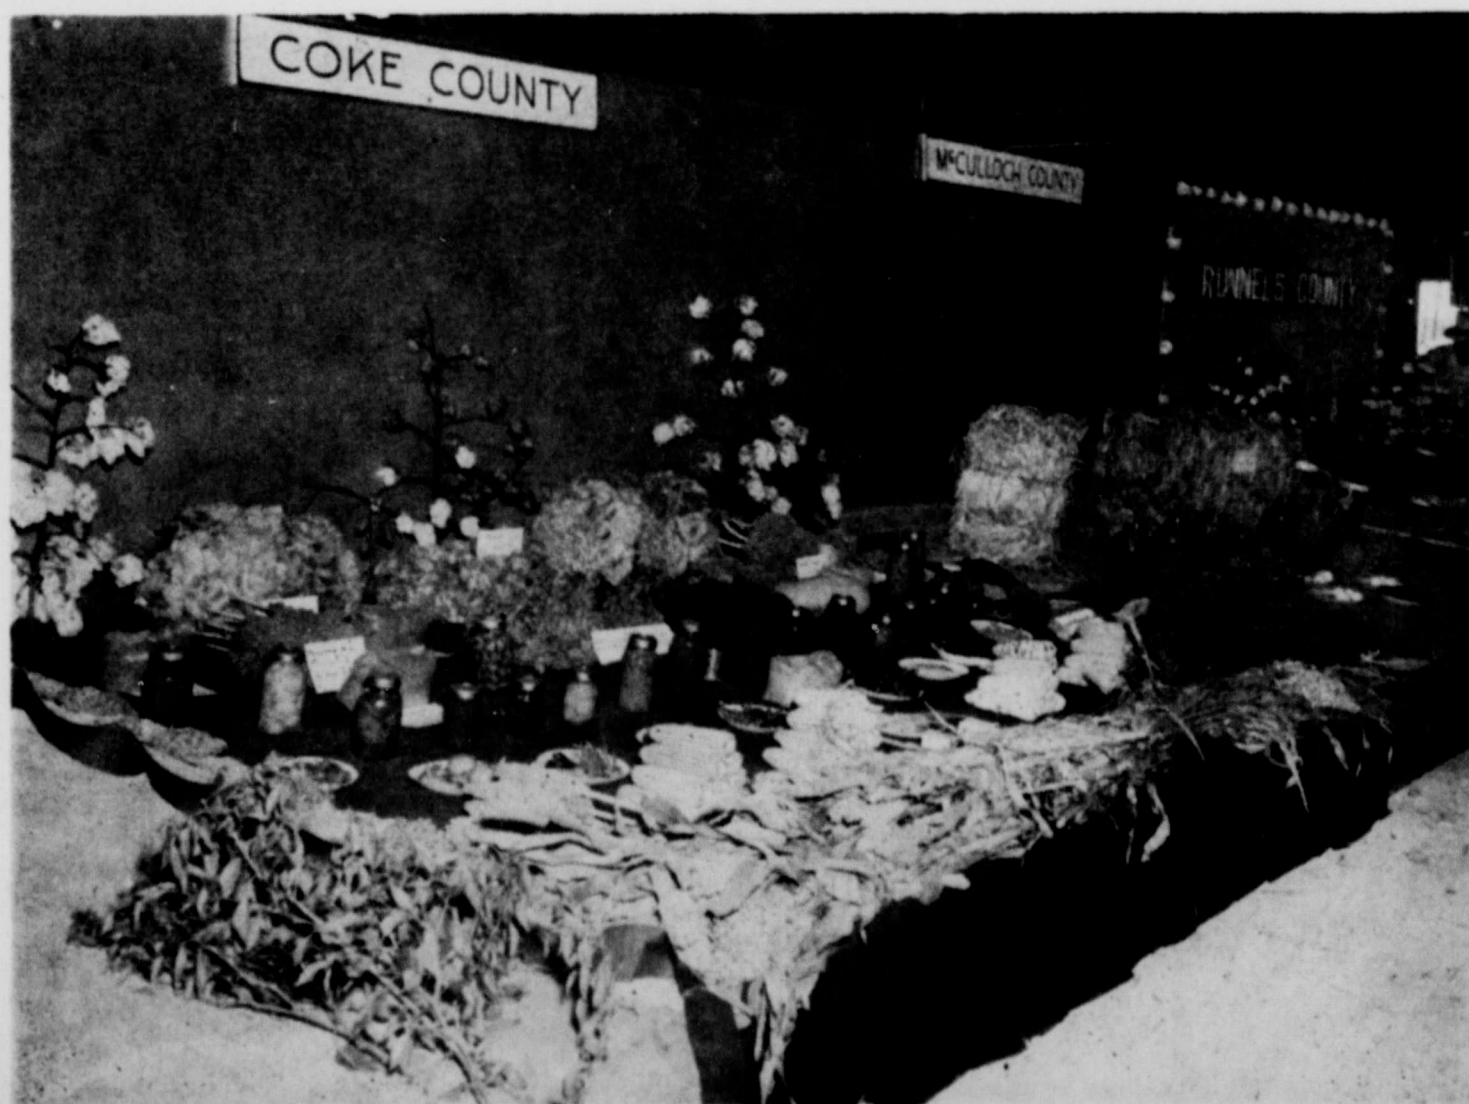

Mr. Young blood said that the main job ahead of the river authority was showing the reclamation officials the feasibility of the proposed project, as most other details have been worked out.

RECEPTION HONORS BRONTE FACULTY

A reception, honoring the Bronte school faculty, was held recently. Mrs. Will Thomason was mistress of ceremonies.

On the program was the welcome to the faculty by Jeff Dean, introduction of the faculty by J. L. Carroll and introduction of the organization's officers by Mrs. Will Thomason. A picture "Wheels over Africa" was shown.

Following the program, a social hour was held.

COKE COUNTY EXHIBIT — The exhibit shown above was prepared by Coke County people, under the direction of County Agent T. B. Hicks, for competition in the county exhibits contest at the San Angelo Fair and

Race Meet. The exhibit won third place at San Angelo. Practically the same exhibit was arranged by Agent Hicks for the Abilene Fair. It won first place in the competition there.

CO-OPERATION

The merchant puts a price on his goods;
 The huckster does the same with his foods;
 The doctor says what his bill will be;
 And the lawyer names the price of his fee.
 No wonder it's hard for the farmer to live;
 He sets no price, but takes what they give.
 And then in turn, when he wants to buy,
 He gives what they ask, be it low or high.
 THE FIRST NATIONAL BANK is strong in the belief;
 Co-operation is the farmer's relief.

SENIOR GOSSIP

If you hear a jumbled murmur over the school, don't get excited; it's only the seniors learning Old English. Congratulations to Wayne from the Senior class for winning Grand Champion on his hog at the fair in San Angelo. We wonder who makes Wanda Jean's clothes? She's been wearing some very cute dresses to class.

The Seniors are demanding a mental test for Charles. Royce Dean is back in school after being out several days to work. Odalia makes a very interesting speech student because she knows so many different customs and festivals of the Mexican people. All the Senior girls are coming out for volleyball and have hopes of a good team.

CULLEN CLARKS HAVE EXCITING EXPERIENCE WITH RATTLESNAKE

Cullen Clark was in the Enterprise office Monday and reported a "hair-raising" incident which happened on their farm one and one-half miles northeast of Bronte Sunday night.

Mr. and Mrs. Clark were sleeping

on the porch of their home and had their bed near the edge of the porch. About 4 a. m. they were awakened by the barking of their dog, a sheep dog, who was sleeping on the ground by the edge of the porch. At the same time, they heard the snake "sing". They knew immediately what it was and knew that it was a big one.

It was too dark at first to see it and

they were afraid it was under the bed. Mrs. Clark saw it first. It was on the ground, not more than a foot from the bed, coiled and ready to strike. In its coiled position, it was about the size of a large wasp.

Clark's son arrived with a gun about that time and shot the rattler three times but failed to kill him. They managed to cut him in half but Clark said that one-half of the snake crawled under the porch. They spent some time getting the snake out from under the porch and had to shoot it twice more to kill it.

Clark said that the snake measured about four feet and six inches long. He also said that if it hadn't been for their dog, he might not have been in the office telling about it.

FOOD FOR THOUGHT

By Rev. Alvin R. Mauldin

It is no secret that Communism is an avowed enemy of the Christian Church. If Communism had the opportunity which the Church has it would throttle the Church in nothing flat. But the Church chooses to defeat error with truth. Is my daily life a witness for or against the truth of Christ? If it were not for the faithful members of the Church what would happen to our democratic way of life? And would not cooperation between denominations be better than civil war?

VACCINATION FOR DIPHTHERIA URGED BY HEALTH OFFICER

An interesting sidelight on public health in Texas was revealed in the morbidity report of the Texas State Department of Health for the week ending August 28, which showed a total of 2 cases of smallpox for this year, while in the same period there were 588 cases of diphtheria.

Commenting on these comparative figures, Dr. Geo. W. Cox, State Health Officer, stated that diphtheria is as readily controlled by immunization as is smallpox, but that apparently the public has failed to recognize this fact, or to act upon it.

"Smallpox, which is highly contagious, is no longer considered a major health problem in Texas," Dr. Cox said, "and this is due to widespread vaccination against the disease. Diphtheria, equally contagious, can also be reduced to the point where a single case is a rarity, but only when parents awake to the fact that every child should be immunized in infancy. The baby's doctor will recommend when this should be done, and if all children were given this protection, there would be none susceptible to contract this killing disease."

Ordinarily the immunity provided by diphtheria toxoid lasts a child until he is of school age, however a Schick test should be given before the child enters school. If needed, an additional shot of toxoid should be administered.

Bill Gassiot was home for the weekend. He is employed by the Halliburton Company in Odessa.

Pat Bullock of Colorado City, state senator from that district, was a Bronte visitor Tuesday.

FIRE PREVENTION WEEK OCTOBER 3 TO 9

October 3 to 9 is designated as National Fire Prevention Week. There is no better time for everyone to look about his home and his business and eliminate all fire hazards which may be existent. Fire is one of the worst enemies that we have and too much caution cannot be exercised in its prevention. Let's clean up now. Tomorrow may be too late!

DIABETES

Diabetes is classified in medical books as a disease of metabolism. More specifically, it is due to defective metabolism of carbohydrates in the sweet and starchy foods we eat.

Carbohydrates supply the body with sugar, which is necessary for heat and energy. Sugar is converted into heat and energy by insulin, which is produced in the pancreas and secreted into the blood stream. If anything interferes with the flow of insulin, the body is unable to use the sugar and diabetes results.

Although diabetes is a serious dis-

ease, it can be brought under control. The earlier the treatment is begun, however, the better are the chances of bringing it under complete control. People who suspect they have diabetes should consult a physician immediately and, if examination proves they have the disease, should follow his instructions carefully.

One of the first symptoms of diabetes is being unusually thirsty. Unreasonable hunger is another symptom. Hunger may be experienced by a diabetic even though he has eaten a normal amount of food. Faintness and dizziness are other symptoms.
