Longhorns Keep Perfect Record In District Basketball Contest

The Bronte Longhorns continued their winnings in the past week and still have an unblemished district record on the hardwood. They have defeated Robert Lee and Forsan since last week's Enterprise was published, and now have to face Garden City, Water Valley and Sterling City before they complete the regular season. A win in their game here Friday night with Garden City, would clinch a tie for the local lads.

The girls have not done so well, having lost to both Robert Lee and Forsan.

Last Friday

The boys took Robert Lee last Friday by a score of 65-50. Tying for scoring honors were David

Glenn and Doug McCutchen with 25 each. Davis Corley made 7, Gary Don Allen 5, and Wayne Carlton 3.

The girls game provided fans with something "a little different" in basketball tactics. The

New License Tags On Sale In Texas

New car tags went on sale Wednesday, Feb. 1, in the office of County Tax Assessor-Collector O. B. Jacobs. This year's tags will be white with black letters, exactly opposite from the 1966 models now in use.

Coke County's license plates will start with number HJB 700 and go up to HJB 999, then the letters will change to HJC and the numbers will be from 10 to 999. Jacobs also has a supply of the HJD series in case enough autos are registered to need them.

Auto, farm truck, truck, motorcycle and trailer owners have until April 1 to register their vehicles. Jacobs and his office workers would be glad to register a few each day instead of being swamped the last days of March.

Car owners are required by law to present certificates of title and last year's license plate receipts when renewing vehicle registrations.

In previous years there has been some confusion and misunderstanding about the ownership documents needed to obtain license plates.

In one Texas county, for instance, motor car owners were permitted to renew their vehicle registrations with their old license numbers written on the backs of envelopes or other scratch paper without proper proof of ownership.

The Highway Department stressed that county tax-assessor-collectors and their sub-station agents must demand proper credentials before issuing license plates. Motorists may speed up the process by taking last year's license plate receipts and certificates of title with them

Bronte lassies, from the beginning of the game went into a stall, playing strictly defensive basketball by doing their utmost to keep their Robert Lee opponents from getting the ball. The plan didn't provide a victory, but it did allow the girls to keep their loss down to 15-7. Norma Pruitt made 3 points and Linda Carlton made 2. A Robert Lee guard made the other 2 for Bronte.

Tuesday Night

The Longhorns defeated formidable Forsan Tuesday night, 70-63. Corley was the big gun with 29, McCutchen came through for 16, Carlton made 13, Allen had 7, and Glenn made 5.

Forsan defeated Bronte girls, 77-44. Pruitt ripped the net for a whopping 29, Kreta Kiker made 10, and Carlton had 5.

The three basketball dates left in district play include Friday, Feb. 3, Garden City, here; Tuesday, Feb. 7, Sterling City, here; Friday, Feb. 10, Water Valley, there.

Coke Gives \$617 To Dimes Drive

Coke County's contribution to the 1967 March of Dimes reached a total of \$617.46 this week. A good part of this total was raised last Thursday night when members of the Zeta Delta HD Club conducted a Mothers March over Bronte's residential area. The ladies collected \$212.92.

PIC PARA 2 FROM R L Elmer Hurley, Bronte, chairman of the drive, said he was gratified by the response of Coke countians. He said that thousands of children suffering from birth defects, and their parents, will be "eternally grateful for your generosity."

In addition to the \$212.92 raised by the club women, \$230 was raised Tuesday night in Robert Lee by members of the '64 Study Club who conducted a Mothers March, \$66.40 was collected in the Bronte business district, and \$110.14 was raised by Bronte and Robert Lee golfers in their annual tournament last fall.

Bronte School's 1967 census, completed Jan. 31, shows an increase of 49 scholastics in the district, compared to the count made in January 1966.

The census completed this week shows 308 school age children in the district, including six year olds, who will start in the

first grade next fall. This compares favorably with the 259 children counted in last year's census, and is the highest number counted since 1962.

Mrs. Clark Glenn, census officer for the school district, said she could not say that any one factor has caused the increase. The school has gained only two students as a result of construction on the Robert Lee dam. Several children have come in to the district whose fathers are employed by Union Texas Petroleum. However, the major part of the 49 additions can be attributed to no one factor.

Enrollment Up Now

Present enrollment at Bronte School is up now, said Supt. C. B. Barbee this week. A total of 292 students are now enrolled with 92 of that number in high school and 200 in elementary school. He said these numbers are the highest since the 1958-59 school year for high school, and highest for elementary school since 1961-62.

Barbee issued the following figures on number of students enumerated since 1953:

1953, 364; 1954, 454; 1955, 352; 1956, 347; 1957, 364; 1958, 360; 1959, 354; 1960, 332; 1961, 333; 1962, 340; 1963, 306; 1964, 291; 1965, 281; 1966, 259; 1967, 308.

996 In Coke County Register To Vote

Coke County fell under the 1,000 mark in voter registration for 1967, as 996 registered in the office of county Tax Assessor-Collector O. B. Jacobs to make themselves eligible to participate in all elections which will be held this year.

Jacobs said Wednesday morning that he may get a few more applications which were post-marked before the deadline at midnight Jan. 31.

The number who registered this year fell 45 below the 1041 who paid poll taxes last year.

However, 1967 is an "off" election year, as no regular elections are on schedule for county, state or national offices. City and school elections will be held this year, and a registration certificate will be required of voters who wish to cast their ballots. Registration is also required to participate in bond elections or other balloting which may be presented to voters.

GRAND JURY CALLED MON.

A 51st District Court grand jury will meet Monday at 10 a.m. in Robert Lee to consider several criminal cases.

Sheriff Melvin Childress said he didn't know if all the cases would be presented to the grand jury, but the following cases are on the docket:

Melvin Parker of San Angelo is charged with theft.

Calvin Burney, Joe Brown and Clarence Brown, all of San Angelo, are charged with theft.

Louie Burton Eldson of Odesa is charged with DWI, subsequent offense.

Franklin Machart of Sweetwater is charged with DWI, subsequent offense.

Sheriff Childress said there are a few juvenile matters which will be discussed with the grand jury for consideration by the members.

Persons who have been called for grand jury duty include: James Craig, James Counts, Marvin Bryant, Leslie Copeland, Finnell Smith, E. T. Mims, Bobby Baker, Homer Carville, Frank Percifull, Charlie Boecking, James Allen, Lee Radde, Royce Fancher, Edward M. Cumbie, Clark Glenn, R. W. Odom, J. B. Mackey, C. E. Arrott, L. E. Wink, and J. Report On Visit Of Secretary Of State Dean Rusk

By A. S. Masterson

Special Report for Enterprise

The Hardin-Simmons University of Abilene toasted the "men of the press" at a 1 p.m. luncheon Friday in the Student Center dining room on the occasion of the Secretary of State Dean Rusk's visit and the diamond jubilee 75th anniversary of the university's founding. Dr. W. A. Beazley, a co-chairman of the Secretary of State's visit, was moderator of the briefing with the newspaper reporters at the luncheon. He said that the secretary of Mr. Rusk, who preceded him and who assisted the university in preparing for his visit and John Clemmons, the

Security Officer for the State Department out of Dallas, were both most complimentary of the fine manner in which the entire proceedings had been handled during the Secretary's brief stay.

The reaction of the University officials was, "things couldn't have been more wonderful." There had been no suggestion of hecklers or card-carrying demonstrators on or off campus or in Behrens Chapel as had marred Dean Rusk's visit in Austin the day before when he addressed a joint session of the Texas Legislature.

Friday morning, Jan. 27, some 15 to 20 reporters and newspaper photographers, together with the

dignitaries of Dyess Air Force Base and Hardin-Simmons University, were on hand at Dyess to greet Mr. Rusk, Secretary of State.

The Department of State Jetstar plane touched down at 8:52 a.m., and eight minutes later, exactly to the second and according to the time-table of proceedings, Mr. Rusk alighted, to be welcomed by the Dyess Air Base commanders, headed by Colonel Eugene Stainer, head of the 96th Aerospace Wing, and by University officials, headed by President Elwin L. Skiles.

The Secretary of State then turned himself over to the press; and after five minutes of ques-

tions and answers, he was in one of the cars of the caravan and on his way to Hardin-Simmons University. After reaching the campus the Secretary of State gave himself about seven minutes to freshen up before robing and joining the procession into Behrens Chapel.

U. S. Congressman Omar Burleson from Anson, of the 17th Congressional District, introduced Rusk, who spoke informally, from a piece of paper on which he had penciled a few notes, for 26 minutes.

"I want to talk informally, as if we were a small group seated in a living room," he remarked to the some 3000 persons gathered

in the chapel auditorium. "I want to tell you something of the world as it looks to a Secretary of State." Dr. Charles Richardson, office of Public Information of the University, told the press that 70% of the audience were college and high school youth. The Secretary marked their presence; he said that there is a need of "a sober, respectful dialogue between those who are young and those who are older." He told the youth that they can, and should try, to help the adult adjust to the rapid changes which are taking place in the world about them and that they can help to adult to communicate the hard facts of

THE WATT and

THE KILOWATT

Producing power is a gigantic battle with nature. The windmill produces enough power to pump water from the ground—something a few watts of electricity can do. But the huge generating plants which produce the power transmitted over the vast network of WTU transmission lines which reach from the Red River to the Rio Grande are measured in kilowatts—hundreds of thousands of them. Power enough to serve 166 cities and towns in 50 West Texas counties. You can live better electrically—West Texas Utilities provides the kilowatts.

Music Appreciation

I am not a musician, but as I write this I think back and realize how my taste in music has changed. Early in life, it took only the simplest childhood jingles to please me, then in school I was trained and taught to appreciate more intricate music. All through life I feel that my knowledge of... and appreciation for music has grown and matured.

Through study and help from others, I have also grown as a Christian and have a better appreciation of my Lord.

My knowledge of, and love for God increases with each church worship service...

This way of life and worship, I would recommend to anyone. Won't you try it... Start by attending church this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Mayor To Take Culture Inventory

Bronte Mayor Royce Lee, a director of the West Texas Chamber of Commerce, has been designated as the local coordinator for a cultural resources inventory to be taken in Bronte as a part of an official statewide survey now being conducted by the Texas Fine Arts Commission, according to John Ben Sheppard of Odessa, chairman of the newly created state agency.

"We are indeed grateful to Mayor Lee for undertaking the completion of our survey in Bronte," Sheppard said. "This is a unique undertaking in Texas; nothing of its kind has ever been attempted in the State of Texas before."

The purpose of the survey, Sheppard explained, is to determine both the quantity and quality of cultural activity both by organizations and individuals now going on in the towns and communities in our state. "We plan not only to catalogue the various organizations active in the fine arts fields in Texas, but to identify individual artists, authors and craftsmen, and the location and identification of local public and private works of art and collections," Sheppard said.

When tabulated the results of the statewide survey will be used by the Commission to develop an over-all plan to utilize the cultural resources of the State to meet the needs of the greatest number of persons possible. The survey results will also permit the Commission to publish a "Who's Who" in the arts in Texas, a calendar of cultural activities and events, and a list of available talent, performing arts groups and exhibits, and to develop pilot projects that would assist in the development of the arts in Texas.

Jr. High Teams Split With Sterling

Bronte's junior high basketball teams traveled to Sterling City last Thursday night for a couple of games on the hardwood. The girls took an easy win, while the boys lost by a narrow four point margin.

The girls game wound up 43-24 in favor of the local girls. Melissa Lee was high pointer with 20 points, Jolene Vaughn made 13, Susan Arott and Dana Lee, 4 each, and Susan Cumbie 2.

The boys game came out 34-30 in favor of Sterling City. Wesley Ash and Danny Parker tied for scoring honors with 15 each. Donny Thompson had 4, Danny Cooper 2, and Dana Sowell 1.

School officials said the games were two of the worst they had seen for fouls. Sterling City and Bronte girls tied in the foul count with 20 each. The boys game was worse with Bronte getting 26 to Sterling City's 25. The Bronte lads had only one starter left on the court at the end of the game and he had four fouls.

Speed Reader To Give Lions Club Programs

Dr. M. A. Lemmons of the West Texas Reading Institute of San Angelo will give programs for both Bronte Lions Clubs during the next week. Program for the noon club will be at 12:30 p.m., Thursday (today), and for the evening club will be at 7:30 p.m. next Tuesday. The public is invited to attend both meetings.

Dr. Lemmons says that the average person reads at the rate 200-250 words per minute, and that this rate can be increased to 1200 words per minute.

A Lions Club spokesman said he felt sure that a great number of local persons would be interested in hearing these programs and finding out how they can increase their reading speed.

The noon club meets in the Methodist Church and the night club meets at Coalson's Barbecue.

LOVE WORKS BOTH WAYS

The child born less than perfect gives his love as freely as all children do. In return he needs the kind of love that means help and hope for his future.

More than a quarter of a million babies born each year in this country need this special kind of love. They need expert medical care that can improve — and sometimes completely correct — almost 80% of the serious conditions caused by birth defects.

This is the kind of care available at more than 75 March of Dimes Birth Defects Centers throughout the nation. Your March of Dimes contribution helps finance these centers. It supports research to find ways to prevent birth defects.

It's a measure of your love.

Fruits & Vegetables Good Buys

Weather does make a difference in the quality and supplies of some produce arriving at local markets. This is a good time of year to compare prices on fresh and frozen vegetables to find the best values. Heading choices at the fresh vegetable counter are cabbage, head lettuce, carrots, celery, loose turnips, potatoes, and hard shell squash.

Other quality offerings include cauliflower, broccoli, yellow squash, snap beans and eggplant. In the citrus fruit line, oranges are most plentiful, with ample grapefruit offerings. Both have very attractive price tags. Watch for exceptionally good values in canned orange juice and concentrated frozen orange juice. Apples, pears, avacados and bananas are good fruit choices.

In the meat department, several good cuts of beef are being featured which are just right for pot roasting. T-bone, sirloin, and round are other good values. Boston butt roasts of fresh pork and smoked ham portions are good choices this week. Some brands of bacon are selling at attractive price levels. Frying chickens and eggs continue to be real food bargains. Canned salmon is featured at special prices in many stores.

Home Economics Briefs

Keep track of your finances during 1967 by writing down what you spend. Keep a notebook handy and enter each purchase the

same day. Keep all bills, receipts, and business papers together in one place. Older children may pay the bills and help with the paperwork to help them understand where the family's money goes.

Gray and gold may prove to be a strong accent in the clothing picture for 1967. Plaids in all types and sizes — subtle and bold — appear to be one of the stronger influences for spring and from then on, according to the American Institute of Mens' and Boys' Wear. In the stores for the younger man, sports coordinates of sport jacket, slacks, and often a reversible belt are growing in importance. In many cases, stores are showing sweaters, belts, shirts and ties as a complete ensemble.

If the problem of pet hair on clothing is exasperating you, get out a roll of masking tape. Tear off a long piece and wrap it lightly around your fingers, sticky side up. Brush your hand over the hair and the tape will pick it up like a magnet.

If you think you are getting old, forget it! According to official census figures there are more than 13,000 persons in the United States who are 100 years of age or older. An additional 1,075,000 persons are age 85 or older.

Schedule

Thursday, Feb. 2 — Office
Friday, Feb. 3 — Annual leave.
Monday, Feb. 6 — Office.
Tuesday, Feb. 7 — HD Council Committee, 9:30 a.m., Farm Bureau building.
Wednesday, Feb. 8 — 4-H meetings.

Mayor To Speak At WTCC Meeting

Mayor Royce Lee will speak at a meeting of the West Texas Chamber of Commerce Small Town Task Force meeting to be held in Junction Wednesday, Feb. 8.

Mayor Lee's topic will be on "Cooperation Between City and County." This topic fits in well with the subject of the meeting, which is "The Role of City and County Government in Developing Their Area."

After each talk, questions will be invited from the audience.

Lee said he believed a person familiar with the cooperation between city governments and the county government in Coke County can give some pointers on cooperation to the group. "I feel that we have accomplished a great deal in the past in Bronte and Robert Lee and for the entire county by working with our county commissioners," the mayor said.

He said he could tell his audience that Coke County is a good example of cooperation between county and city governments for the benefits of all citizens, both in the towns and in the rural areas.

Attend Iraan Meeting

A meeting of the WTCC Task Force was held Jan. 27 in Iraan, to discuss "Educational, Recreational and Cultural Opportunities of the Small Town." Attending from Bronte were Supt. C. B. Barbee, Frances Glenn, Gary Stroebel and Mayor and Mrs. Lee.

The Small Town Task Force is a new idea in development of small towns, and was begun by WTCC only a few months ago. Purpose of the program is to assist small towns in evaluating and improving various aspects of community life, and to stimulate growth.

To Lunch With Governor

A Task Force group will have lunch with Gov. John Connally Feb. 16. Mayor Lee said he plans to attend the luncheon.

SAVINGS BOND SALES

United States Savings Bond sales in Coke County during 1966 totaled \$43,882, according to Gerald C. Allen, Chairman of the Coke County Savings Bonds Committee. The 1966 sales goal for Coke county was \$30,000 and 146 per cent has been achieved.

During 1966 Texans purchased a total of \$153,172,007 in Series E and H Savings Bonds. This represents 104 per cent of the state's goal of \$147.5 million. Sales in Texas during the month of December totaled \$13,790,861 which is an increase of 19 per cent over the same period of 1965.

Jerry Don Holcombe is here this week to visit his parents, Mr. and Mrs. Elmer Hurley. He is on a between-semester vacation from his studies at Texas University at Austin.

"AMERICANISM" PROGRAM FOR DIVERSITY CLUB

Mrs. Vetal Flores was speaker when the Diversity Club met recently in the home of Mrs. Charles Ragsdale. Her subject was "Americanism."

Sandwiches, chips, spiced tea, and cake were served from a refreshment table to Mmes. C. E. Clark, Flores, J. T. Henry, Cecil Kemp, Helen Kirkland, R. C. Lasswell, Leslie Rolls, Collins Sayner, Otis Smith, George Thomas and Ragsdale.

To Meet Tonight

Mrs. J. W. Martin will host the club tonight (Thursday), Feb. 2, at 7:30 p.m.

Mr. and Mrs. Joe Simpson and children of Austin were here for a weekend visit with friends. They are former residents of Bronte.

General Electric To Give Science Program Feb. 10

"Liquid sunshine" powers a portable radio. A small platform slides across the floor on a thin layer of air. And a "misbehaving" suitcase illustrates principles used in modern guidance systems.

Bronte High School students will see these and other interesting demonstrations when the famed General Motors science show, Previews of Progress, appears at the school on Friday, Feb. 10, at 1:45 p.m.

"We seek through Previews to inspire more young people to make science and engineering their career and provide the trained talent America must have to keep pace with the promise of the future," James M. Roche, president of General Motors, said.

David G. Gosler of General Motors Public Relations Staff will narrate the 45-minute, non-commercial presentation. He is one of seven units that take the show to more than a million students each year.

One of the highlights of the show is a fuel cell, a device that converts chemical energy into electrical power. Potentially one of the most significant scientific developments of the century, the fuel cell manufactures electricity with much greater efficiency than is now obtained from conventional power plants.

In the show, a few drops of "liquid sunshine" added to the cells provide enough energy to operate a portable radio.

Another example of solar energy, the amazing Sunmobile, will be demonstrated. The 15-inch model car depends on eight photoelectric cells for its operation. The button-like cells on the hood of the car convert light rays into electricity which drives a small electrical motor inside the car. A 300-watt lamp is used to simulate the sun's rays in the show. As the light strikes the cells, the Sunmobile moves smoothly across a table.

Other preview demonstrations include an air bearing platform, principles in modern guidance systems, an exploding wire phenomenon, the wonders of modern chemistry and a capsule history of jet propulsion.

The public is invited to attend the show.

World War II. Mr. Rusk said, "World War II taught the need for building an enduring peace, but half the people in the United States today are not old enough to remember that war." He continued, "We will have no chance to draw lessons from World War III, no chance to start over again, because there will not be enough left." He remarked that we must do all we can now to organize a durable peace in the world; we cannot afford another global conflict.

After the honorary doctorate of Humane Letters had been conferred upon Dean Rusk by President Skiles, there was some time-saving which permitted the Secretary of State to meet, visit, and shake hands with a few lucky persons in the lounge of the Student Center, before leaving for the return trip to Dyess Air Force Base.

The same Jetstar plane of the United States Department of State, which brought the Secretary of State to Texas from Washington, D. C. took off, its wheels leaving the concrete runway at exactly twenty seconds before 11:45 a.m., and that many seconds before the programmed time!

The Secretary of State apologized to the press for not attending the luncheon as previously

planned, but he had to be back in Washington for a signing of a historic "peace-in-space" treaty that afternoon. Diplomats from 60 nations signed the peace-in-space treaty at an unusual White House ceremony which President Johnson described as "an inspiring moment in the history of the human race."

MRS. GENTRY IN HOSPITAL

Mrs. Thelma Gentry is in serious condition in Shannon Hospital in San Angelo, where she was taken last Saturday following a stroke. The family reported that Mrs. Gentry suffered the stroke early Saturday morning, but since she lives alone, she was not found until late in the afternoon, when David Gentry went by her house to check on her. He summoned help and she was rushed to the hospital.

Weekend Mail Going To Angelo

Postmaster Noah Pruitt Jr. said this week that beginning Saturday, Feb. 4, mail deposited Saturday afternoons, Sundays and holidays will not be worked in the local post office. It will be picked up and carried directly to San Angelo for sorting.

Two Boxes
Pruitt said, however, that he will put up another mail box in front of the post office for receiving mail addressed to Bronte. If mail going to Bronte is deposited in the regular box, it will be picked up, carried to San Angelo and returned here the next day.
