Track, Field Team Ahead At Press Time

Bronte High School's track and field team was way out front in District 46-B competition at 3 p.m. Wednesday, and had won first places in all the field events at that time.

A telephone call from Coach Tommy Walter brought news that the Longhorns were 100 per cent successful in the field events and that track events were just about to begin. Starting of track events

was delayed until the middle of the afternoon because of a wet track.

Coach Walter said the Longhorns had stacked up 59 points in the field events.

Winning first places were David Glenn in pole vault; Brian Richards in shot put; Davis Corley in high jump; Doug McCutchen in broad jump and discus. Corley also took fourth place in broad jump.

Entered in the district meet were Water Valley, Wall, Sterling City, Miles, Mertzon, Garden City, Forsan, Christoval and Bronte.

Kimberly will conduct the mountain top services and Morris will conduct services in the church.

Regular Sunday morning services will also be held.

The Rev. J. S. Tierce of Winters will preach in the Bronte Church Sunday in Morris' place.

AD-LIB-BEN

Coke County Commissioners called an election Monday which will enable voters of the county to decide if they want to progress and keep up with the times or merely maintain the status quo.

The positions of this newspaper was succinctly stated in its issue of Feb. 22, when we printed an editorial the same week in which the county's annual audit was run.

As we stated then, the county has more than enough money in its sinking funds to pay off its bonded indebtedness; consequently, for all practical purposes the county is out of debt.

Frankly, we feel that being free of debt is an unhealthy situation for any tax supported political subdivision. Being debt free is a clear indication that the county is self-satisfied and has nothing going to keep making progress.

The county has been, for many years, setting aside a portion of its 80 cents tax levy for permanent improvements. If this bond issue is not passed, the assessment will no longer be necessary, and the tax rate could conceivably be lowered. However, such a decrease would amount only to pin money for the average tax payer of Coke County.

Coke County Commissioners Court in regular meeting Monday called a bond election in the amount of \$300,000 to make permanent improvements in Coke County. The election will be held May 7.

Ballots will be printed with two propositions: one for the issuance of \$125,000 to be used for a new jail and sheriff's quarters, and one for \$175,000 to be used to build a community center at Bronte, to add to and improve the Robert Lee community center and to build an agriculture exhibition barn in Robert Lee.

The Commissioners Court explained that the matter of building a jail and construction of community centers and an agriculture exhibit building have not been dreamed up on the spur of the moment. A great deal of interest in the improvements was evidenced several months ago, and the result was the appointment of some committees to study the needs of Coke County.

A committee was appointed from civic leaders of both the west and east sides of the county to study the needs for community centers; another committee made up of leading farmers

Norton Rites Held For A. B. Morgan

Funeral services for Alton B. Morgan, 62, were held Wednesday at 2:30 in Norton Baptist Church. Rev. N. T. Gault, Baptist minister from Miles, officiated, assisted by the Rev. Wayne N. Stout, Baptist minister from Bronte.

Burial was in Norton Cemetery under direction of Allen Davis Funeral Home of Ballinger.

Mr. Morgan died Monday in the Bronte Hospital after a long illness.

He was born Nov. 21, 1905 at Miles and had lived in the Norton and Maverick communities most of his life. He was postmaster and operator of a general store at Maverick and operated a chicken hatchery there for several years. He was a trucking contractor at the time of his death.

He was married to Ethel Poe, Dec. 18, 1925, at Norton.

Survivors include his wife; one son, Sammy D. Morgan of Maverick; two daughters, Mrs. Robert Keeney of Stephenville and Mrs. Ted Herrin of Maverick; two brothers, M. H. of Ballinger and Roy Morgan of San Angelo; two sisters, Mrs. Paul Gregory of San Angelo and Mrs. Charles Lee of Norton; and five grandchildren.

and ranchers was appointed to study the needs of the county for an agriculture exhibit building; and another was appointed to study the needs for a new jail.

All of these committees reported back to the Commissioners Court that needs existed in all three areas. All the committees came up with ideas about how much money would be needed to fill the needs of their projects. Costs of the various projects exceeded by a considerable amount the \$300,000 now being proposed. Each group started cutting out items of construction which could be eliminated, and the result was the \$300,000 figure which is now being proposed.

Miles Wins First In Literary Meet

Bronte High School contestants ran a weak fifth in the District 46-B UIL literary meet held here last Friday and Saturday. Only one Bronte student qualified for competition at the regional meet in Big Spring.

Miles was the big gun in the meet, racking up 129 points. Water Valley was second with 94; Mertzon, third with 87; Sterling City, fourth, 57; Bronte, fifth, 37; Forsan, sixth, 15; Garden City, seventh, 10; Christoval and Wall, tied for the cellar with seven points each.

Dorothy Ruth Martin's third place in shorthand was the only win which qualified a Bronte contestant for regional competition.

Other Bronte contestants who made points in the meet were:

Linda Cumble took third in informative speech; Melissa Lee was third in girls prose reading; Marvin Thompson was third in boys prose reading; Paula Landers and Cynthia Lamberth were second in spelling; and the one act play was second in that contest which was held earlier.

Cleanup Campaign Set For April 15-20

April 15 through 20 has been set by Bronte City Council for a spring clean-up of the city. Every one is urged to clean their property during next week.

The council said that anyone who does not have facilities to dispose of trash should call the city hall and give the location. Trucks will also be available to haul off trash next Thursday and Friday, April 18 and 19.

Gordon Charlton, representative of Columbian Securities Corp., the county financial advisor, gave a rundown of the county's financial affairs at a BCD meeting Tuesday in Robert Lee.

Charlton noted that the bonds must be paid out of the present 80 cents per \$100 tax rate now in effect in Coke County, since it is now at the constitutional limit.

It was also brought out that, for all practical purposes, Coke County is now out of debt, inasmuch as the balance in the sinking funds of the county now total more than the outstanding indebtedness.

Commissioners Court plans to make the last payment on both the courthouse and park bonds within the next year.

The Commissioners Court has issued a brochure which states that the proposed \$300,000 bond issue can be paid off in 15 years with a 16 cent tax levy for the permanent improvement fund. In 1967, 12 cents was levied for this fund; in 1966, the levy was 17 cents; in 1965 and preceding years it amounted to 19 cents. These amounts were taken out of the 80 cents tax levy for use in paying off bond issues which were voted in previous years.

Quoting from the brochure concerning the new jail:

Teenagers Escape Wreck Injuries

A group of Bronte teenagers narrowly escaped serious injury Sunday night when the car in which they were riding was in collision with a car occupied by three Odessa men. The accident occurred on Highway 277 on the bridge in north Bronte. The local young people were traveling north and the Odessa men were going south.

The Bronte young people were riding in a Buick driven by Janet Lee and owned by her father, Clyde Lee. The other car, a 1955 Oldsmobile, was driven by Larry

Welch, but another occupant, Claude McGinley Jr., was listed as owner of the car. The other occupant was Jerry Welch, a brother of the driver.

Larry and Jerry Welch were taken to Abilene by ambulance for treatment of injuries received.

McKinley was brought before Justice of the Peace Earl D. (Pete) Nutter Monday, and was found guilty of being drunk in a public place and fined \$25. He was still in jail at press time Wednesday.

Charges of being drunk in a

public place were filed against McKinley and Jerry Welch, while Larry Welch was charged with driving on the wrong side of the road not in passing. The Welch brothers had not been brought before the justice court up to Wednesday afternoon. Judge Nutter said that charges of DWI were also filed in county court against Larry Welch.

Miss Lee and Dorothy Ruth Martin, another occupant of the front seat of the Buick, received minor bruises.

Two methods are recommended for hard-cooking eggs.

Cold water method: Cover eggs in pan with enough water to come at least 1-inch above the eggs. Bring rapidly to boiling. Turn off heat and if necessary set pan off unit to prevent further boiling. Cover and let stand in the hot water for 15 minutes. Cool immediately and thoroughly in cold water — this makes the shells easier to remove and helps to prevent dark surface on yolks.

To remove the shell: crackle the shell. Roll egg between hands to loosen the shell; then peel. Holding the egg under running cold water or dipping in a bowl of water helps to ease off the shell.

Boiling water method: Place cold eggs in dish of lukewarm water to prevent cracked shells. Bring water in a pan to rapid boiling, using enough water to come 1-inch above eggs. Transfer eggs from warm water to boiling water with spoon; reduce heat to keep water below simmering and hold for 20 minutes. Cool eggs promptly and thoroughly in cold water — this makes the shells easier to remove and prevents dark surfaces on yolks.

Follow directions given above for removing shell.

Shortcuts for Easier Lawn Care

Maintenance shortcuts can take much of the burdensome labor out of lawn care. There is no way to keep a neat and attractive yard without some work, but through proper planning, maintenance can be greatly reduced.

If trees, shrubs, and flower beds are arranged in groups and a mulch or ground cover is used in these areas, some hand trimming can be eliminated. Leave large, open areas of landscape which are easy to mow and will speed up the lawn maintenance work.

Grouping the trees, shrubs and flowers and isolating them from the turf area easily constructs an edging around these groups to prevent the turf from encroaching into the planting area. By making the edging wide and low, it will provide an excellent surface, as well as guideline for using a power driven lawn edger. Brick, redwood or concrete materials are good edging.

Using a power edger around the plant beds and along drives and walks about once every six weeks during the growing season will maintain a neat and manicured appearance in the yard. This virtually will eliminate the need for hand trimming grass in and around the trees and shrubs.

Ornamental plants handled this way usually will grow better, since they have little or no competition from the grass for moisture and nutrients, also the mulch will keep the soil from baking and packing. In addition, there is less danger of plant damage from the mowing equipment.

The laborious task of trimming grass and weeds along a fence can be practically eliminated by using naphtha as a contact spray on all vegetation at the base of the fence without endangering the roots of ornamental plants.

Apply the naphtha in a narrow band with a pressure-type sprayer so that the foliage of undesirable plants is thoroughly wet without saturating the soil beneath. Use care to keep the material from the leaves and trunks of desirable plants.

If used every six to eight weeks, vegetation along the fence line will be kept to a minimum with little or no hand trimming. This method is recommended for keeping grass and weeds out of a chain link fence.

As most persons know, approximately 75 per cent of Coke County's taxes are paid by oil companies and other larger taxpayers who have interests here.

Unless the bond issue is voted, these substantial taxpayers will undoubtedly take a hard look at the county's financial situation and demand a lowering of their valuations. And, if there is no immediate need for their taxes at the present level, they can most assuredly get a cut in their tax bill.

Valuation experts have assured the Commissioners Court that the oil valuations will maintain their present level or show an increase for at least 15 more years.

The need for the improvements suggested in the election order have existed for a long time, and they still exist today. The need is still with us. The price we'll have to pay for them will surely get no lower in future years, and there is a possibility that our ability to pay for them may get lower.

There seems to be only two questions involved in this matter:

(1) Do we need the improvements for which the bonds are proposed?

(2) Can we afford them?

Progressive citizens, who would like to see Coke County progress and become a better place for living in the last half of the 20th century, must answer both questions "YES."

BOND ELECTION

State Department of health... not only are the jail facilities antiquated, but the housing provided the sheriff and his family are highly inadequate under present day standards. There is a need for additional office space in the courthouse building, due to the various state and federal programs that require office space and the normal increase in county office requirements. Therefore, it is believed that a logical addition of law enforcement offices could be added to the jail building and this would place the officers where they need to be."

Agricultural Building

Concerning the livestock and exhibit building, the commissioners' report said:

"Due to the damage caused to the present livestock building located in Robert Lee Park, a new and properly constructed livestock exhibit building is proposed to take the place of the old one. This building will be large enough to accommodate various agricultural and livestock exhibits, and many of the activities that might be held in the county but due to poor facilities are not at this time held."

Bronte Community Center

The brochure issued by the commissioners had this to say about the need for a community building at Bronte:

"At present there is no com-

munity building in Bronte of a size that will accommodate large group meetings, etc., that is owned by the county. This proposed building will allow citizens of this county to provide, not only to local citizens, but groups from neighboring communities, a place to hold gatherings in a building large enough to satisfy their needs."

Robert Lee Community Building
Commissioners evaluated Robert Lee's needs for additions to the present community building as follows:

"The existing community building, located in the county park at Robert Lee, although in good repair, is not adequate to satisfy the needs of the members of this community. It is proposed to construct an addition to the present building which will double the present floor space and provide area that is needed for this building.

Additional building improvements to some of the buildings need to be made for their maintenance, which would be included in this issue."

Some architectural planning has been done on the proposed Bronte Community Center, but present plans call for further study on the needs for the Robert Lee center, before anything definite is done.

A legal notice calling the election is being published in this newspaper. Polling places will be set up at Robert Lee, Bronte,

Tennyson, Silver and Green Mountain. The court appointed the county clerk as clerk for absentee voting.
