Survey Being Made By School

What should your schools be emphasizing?

Community opinion on educational goals is currently being sought in a survey by the Bronte Schools. Questionnaires are being distributed through businesses, door to door canvassing and at the school office.

Persons who participate in the survey are asked to classify 20 educational goals, sorting them into five categories ranking from "Most Important" to "Least Important." This is an excellent opportunity for residents of Bronte to state what they think a student graduating from Bronte High School should know or be able to do. INSUR-MATION

WALDON MILLICAN

FARM BUREAU INSURANCE, 453-2812

We are building a new home. If we want
to take out flood insurance can we?

Talk with your insurance agent to see if you are in an area which carries flood insurance. Your property must be designated flood area for you to be able to obtain the insurance. Designated flood areas are determined by Federal rules and regulations of the National Flood Insurance Act. This Act is implemented by the Federal government operating through HUD and the National Flood Insurers Association. National Flood Protection Insurance can only be issued and enforced in communities whose officials have applied for and met the standards of the program's requirements. In most instances, when the need has existed, this procedure has been followed and National Flood Protection Insurance made available.

Are our gas bills higher than in other cities?

Despite the steep increases in your gas bill, you still pay less for natural gas than people in most cities. Information for the chart below was compiled from the latest data supplied by the U.S. Department of Labor.

Average price of 100 therms of gas sold to residential customers in April 1976.

Boston	\$31.98	Chicago	\$18.40
New York/New Jersey...	\$31.86	*Lone Star Gas System	\$18.04
Washington, D.C.	\$24.40	Pittsburgh	\$16.68
Seattle	\$24.21	St. Louis	\$16.63
Philadelphia	\$24.00	Cincinnati	\$15.51
Baltimore	\$23.92	San Francisco	\$15.38
Houston	\$21.75	Minneapolis/St. Paul ..	\$14.98
Milwaukee.....	\$21.54	Cleveland	\$14.77
Buffalo	\$21.36	Atlanta	\$14.64
Detroit	\$18.69	Kansas City	\$12.56

Why the difference? First, some cities may seem to get a break because the federal government holds the price down by regulating the cost of gas moving across state lines. But there's one problem: These cities very often can't get all the gas they need.

Also, many cities outside of Texas pay higher bills because of the cost of transporting gas great distances.

Other differences are due to the policies and planning of the gas companies in the various cities. Lone Star has planned its gas supply program well, so our rates are lower than most.

*Lone Star Gas System figures based on calculations of rates in Texas cities only.
