Mr. Editor:—  
Rain and lots of it. But that doesn't prove that we deserve it for God sends rain on the just and the unjust.

That narrative in the last weeks RUSTLER, headed "An Illustration," is good. It shows that while the RUSTLER is Democratic it also leans to prohibition. That's good.

I was glad that the RUSTLER gave those reasons why we should vote for the bond issue. They are good reasons, but they came too late. The time for the election was past and no election. I hope the balance of the county got the reasons in time.

No, brother, I don't believe that the county ought to be run on a scrip basis. And I don't think we ought to kick about the county being in debt. We can't help that.

About 150 steer yearlings changed hands last Saturday and Sunday. Quarley Collins, of Tom Green County, was the buyer and Wm. Green, Wm. Jameson and the Walker brothers were the sellers. The price was 15 dollars.

## That Politicians of His Own Party Are Responsible

### FOR THE TROUBLES IN ST. LOUIS

#### Two Motormen Shot During the Disorder Attendant on the Street-Car Strike in the Mound City.

St. Louis, Mo., May 25.—The rioting and bloodshed of Wednesday in the street car strike gave way Thursday to comparative peace and quiet. Thursday night, however, the status of affairs suddenly veered and a repetition of Wednesday's events was witnessed.

At 9 o'clock Thursday night a car, presumably filled with imported men, left the Union station for the railway sheds in the far western section of the city. When the car reached the intersection of Park and Compton avenues it was stopped by a tremendous mob of strike sympathizers, who made a hostile demonstration. As soon as the car was halted the men on board opened on the crowd with a regular fusillade. John S. Harding, a striking motorman, was hit by a bullet and will probably die. Donald Watts, another striking motorman, received a serious bullet wound, and a bystander, name unknown, was slightly wounded.

Gov. Stephens, who is in the city, talked freely of the strike situation. He said:

"I am satisfied that the trouble along the street-car lines and the whole spirit of anarchy which I find prevails so largely in the city of St. Louis at present is being fomented and extended by the machinations of a certain coterie of Democratic politicians who hope by their course to in some manner make gains in the approaching party primaries. This element is sending speakers to meetings held to express sympathy for the strikers all over the city, and if not counseling disavow it.

"These persons are responsible for the many effigies of myself and the police authorities which I find dangling from poles and trolley lines on many streets. It is as a result of their movements that I have received many letters threatening my life should I continue my duty and provide officers to keep the peace.

"I desire to say further that if, as governor of Missouri, with all the power vested in that office for the purpose, I can put an end to the disgraceful conditions that prevail in St. Louis, I shall employ every iota of that power.

"The riot and disorder of every unlawful kind must cease."

#### Failed for Millions.

New York, May 25.—Price, McCormick & Co., one of the largest brokerage houses in the city, failed Thursday, with liabilities estimated at \$13,000,000. The firm is a member of the Stock, Cotton and Produce exchanges and of the Chicago Stock exchange and has branch offices in about thirty cities throughout the United States. The failure is ascribed to the fact that the firm was long on cotton in the face of a fast falling market. A notice on the doors of the offices of the company referred all inquiries to Wm. J. Curtis and Wm. M. Cromwell, assignees. Mr. Cromwell said late Thursday afternoon that it was impossible to make any statement at that hour concerning the condition of the firm, that its business is very extended and covers several branch agencies. The total liabilities, he said, are about \$13,000,000, nearly all of which was secured.

#### Killed in a Stampede.

Carlsbad, N. M., May 25.—Monroe Clayton, a wealthy cattleman of this valley, one of the owners of the Figure 4 ranch, while riding in advance of a herd selected for shipment, was thrown from his horse and the herd stampeded, and the heavy cattle passing over him fractured his skull. He died Thursday afternoon.

Mr. Clayton's tragic death is in a measure similar to that which ended the life of two of his older brothers, one of whom was killed during a stampede and the other by the accidental discharge of a pistol during a big roundup of their herds.

# QUEEN VICTORIA'S BIRTHDAY.

## The Event Duly Celebrated in London and the Provinces.

London, May 25.—Under the stimulus of the relief of Mafeking and Lord Robert's rapid and successful progress, the queen's birthday has been celebrated throughout the empire with unique and almost unprecedented rejoicing. Twofold nature of the celebrations gave the occasion unusual brilliancy. In London and in the provincial towns there was a tri-color eruption. Every private house was decorated with miniature union jacks and a picturesque carnival procession a mile long of cars emblematic of the war paraded the northern suburbs of London. Torchlight processions and reviews in the garrison towns, etc., were witnessed throughout the country. The school children had a holiday and at most places there was a partial suspension of business.

The west end of London Thursday was brilliantly illuminated and thousands crowded the streets, wearing patriotic flags.

In the house of commons the government leader, A. J. Balfour, announced that Lord Salisbury would consider a proposal to appoint a national thanksgiving day, with a suitable form of prayer, in acknowledgment of God's vouchsafing victory to the British arms.

Among the incidents of the day was the presentation by Wm. Waldorf Astor to town of Maldenhead of a polished 5-pounder to be placed in the park. The weapon was drawn to the park in the presence of 5000 people, where it was formally accepted by the mayor on behalf of the town, after which a royal salute was fired.

Queen Victoria has replied to President McKinley's congratulations in a gracious message of thanks.

#### Reported.

Washington, May 25.—The house committee on the Louisiana Purchase exposition, to be held at St. Louis in 1903, voted to report the exposition bill to the house without recommendation, favorable or unfavorable.

Representative Steel of Indiana first moved to postpone action for the present session, which was defeated, 2 to 4. Representative Joy of St. Louis then moved to report the bill favorably, which was lost on a tie vote, 3 to 3. In view of the tie, a motion prevailed to report the bill without recommendation, in order that the house may act finally on the subject.

The bill as perfected pledges the government to an appropriation of \$5,000,000, and allows the government a proportionate share of the proceeds of the enterprise.

#### Texas Waterways.

Washington, May 25.—The senate committee on commerce agreed to report favorably the rivers and harbors emergency bill, which provides for surveys for the deepening and widening of Galveston harbor, for a survey of the Trinity river from Dallas to Fort Worth, for necessary surveys with a view to widening and straightening the main ship channel at Sabine Pass and increasing the depth if necessary from a point 1000 feet north of the United States life-saving station to Sabine lake; for a survey of Red River from Shreveport to Denison, with a view to ascertaining whether the navigation of the stream can be permanently improved.

#### West Point Selected.

Chattanooga, Tenn., May 25.—Important action of the Cumberland Presbyterian assembly during the afternoon was the adoption of the report of the committee on overtures, and especially that clause referring to the memorial from several presbyteries asking for the removal of Rev. R. V. Foster from the chair of systematic theology in the Cumberland university at Lebanon, Tenn., because of his belief in the subject of "regeneration."

The committee report recommends that the prayer of the memorialists for his removal from their chair of theology be not granted.

West Point, Miss., holds next meeting.

#### For Alaska.

Paris, Tex., May 25.—Ex-United States Marshal J. S. Williams and wife left via St. Louis and Seattle for Alaska, where Mr. Williams will prosecute his gold mining interests. He has purchased a lot of machinery for use in the mines, which are located near Dawson.

# A Helpless Child.

## A Little Sufferer Cured of a Terrible Nervous Disease—Her Parents Praise the Remedy that Saved Her.

From the Traveller, Arkansas City, Kan. Rapid as has been the advance of medical science along many lines, it is only in recent years that a remedy has been discovered for one of the most dreadful of nervous diseases that afflict children—St. Vitus' Dance.

This and other nervous disorders that cause the pale, wan faces and peevish, irritable dispositions of so many children can now be scientifically treated by a remedy which strikes at the root of the disease by renewing the impoverished blood and strengthening the nerves.

Words of commendation for this remedy come from all parts of the civilized world. This is the interesting story told by Mr. and Mrs. Christopher Armstrong, of Arkansas City, Kan.:

"Our youngest daughter was for three years afflicted with St. Vitus' dance, and we almost despaired of finding relief in medical treatment. She was so helpless that she had to be fed and would fall over at times and be unable to rise.

"We had heard and read a great deal about Dr. Williams' Pink Pills for Pale People, and, as a last resort, determined to try them. The effect was almost miraculous. From the first box there was a noticeable improvement and by the time she had taken six boxes she was almost well. Altogether she took about a dozen boxes and now, at thirteen years of age, is strong and healthy, weighing 114 pounds."

CHRISTOPHER ARMSTRONG, MARY ARMSTRONG, Arkansas City, Kansas. Subscribed and sworn to before me this 8th day of January, 1899.

W. D. KRAMER, Notary Public. The power of Dr. Williams' Pink Pills for Pale People in the vast number of diseases due to impure blood or to derangements of the nervous system, has been demonstrated in thousands of instances as remarkable as the one related above. No one who is suffering can rightfully neglect this way to restore health.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained, in a condensed form, in Dr. Williams' Pink Pills for Pale People. They were first compounded as a prescription and used as such in general practice by an eminent physician. So great was their efficacy that it was deemed wise to place them within the reach of all. They are now manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

#### Machine to Kill Rats.

Rat traps by the hundred thousand will be manufactured here, says the Worcester, Mass., Telegram, as a starting order, as soon as Calvin C. Bowen, of Los Angeles, Cal., can make a contract with one of four large Worcester concerns which are to bid for the order.

The trap is of wood, steel and springs. A strong spring is curled around a shaft and the shaft is supported between two upright steel bands.

The trap is baited by placing cheese in a receptacle which the rat is bound to locate. The rat presses his nose against the bait, nibbles it a bit and that's the finish of that particular rat. A lever is released, the steel spring expands, a strong band of bronzed steel wire swoops around and hits the rat.

The force of the blow is so great that the hungry rodent is knocked against two sharp, steel spikes set in place directly where his eyes will be as he nibbles the bait.

Then the force of the fatal spring will throw the defunct rat four or five feet out of the trap, and it is automatically set for another tragedy.

One wind of the trap means that it is loaded for ten rats, as the spring will expand with force enough to swing the whacker ten times.

#### What is Perpetual Youth?

To be perpetually young a woman must fill up her life with constant interests, those that strengthen and develop the body and those that strengthen and develop the mind. She will take great care of her intellect and equally great care of her body. A sound mind in a sound body must be her motto. By giving from ten to twenty minutes of her time daily to intelligent exercise she can retain the suppleness of youth to the last hours of a long life. She must learn that education includes the body, and make her muscles respond to her will, and understand that a good digestion is of more importance than a knowledge of the science of mathematics, for without it life is hardly worth the living. She will apply a cheerful philosophy to her way of living, so that the light of the sun behind her cypress trees shall always illumine her face, giving it the rosy glow of a youth that is immortal. Nor shall she disdain the box of ointment for the benefit of the weary flesh. Science and sanitation will both be her handmaidens and she will live out her years in a house beautiful which has not fallen into disrepair.

Girls, don't put any signs on the house beautiful which the Great Architect did not intend to have there. Don't label one room "Ill-Temper," another "Nervousness" and another "Caprice." Above all, take pride in keeping placards of ill-health off its walls by cultivating the habit of good health and carrying the news in rosy cheeks and sparkling eye. There you have the foundation of true beauty as well as happiness.

Stormy weather carries more complaints than anything else.

### JOHN L. SULLIVAN'S CALLERS.

Why One Who Came with a Scheme Escaped Without a Punch.

John L. Sullivan was telling about the queer schemes people have to make money, says the New York Sun. It is impossible to reproduce anything that John L. says exactly as he tells it for the reason he has a picturesque style of narration that is inimitable, but as nearly as it can be reproduced in print the story went thus: "A consumptive looking fellow came in to see me and says, 'I got a great scheme to make money; d'ye want to come in?' I says to him: 'Yes, if it's on the level.' He says it is. He sits around and gets his skin full of booze. When he's busting to tell, I tell him to out with it, and he says, 'John,' says he, 'you know the English and Boers are fighting and every Irishman is with the Boers.' I says to him 'Yes.' He says, 'Well, another fellow and meself's goin' to print a million circulars and send 'em to every prominent Irishman in the country appealin' for a dollar to help the sufferin' Boers,' he says. 'What we want,' he says, 'is a representative name to head the list,' he says. 'Now, John, everybody knows you're on the level,' he says, 'and we'd like to get you in. If we can't get you we thought we'd try Gen. O'Beirne,' he says. 'You see the scheme, John?' he says. 'Suppose we get only \$200,000? You know it's easy enough to get that money at a dollar a throw. Well, we sends the Boers \$25,000 and whacks up the rest,' he says. Well, I looks at him. He was a consumptive so I couldn't hit him, and I says, 'G'wan, you crook! D'ye call that on the level?' I says. And he says, 'Sure it's on the level; everybody's doing it.' 'Well,' I says, 'get out, you crook. I don't give a whoop if everybody else is. Go try Gen. O'Beirne. You can't get me,' I says, and with that he lighted. I was sorry he was a consumptive, but if I'd a hit him, I'd a gone clear through him. Maybe he was on the level at that, and that's the way they run those funds."

### PLAGUE OF RATS.

Paris Cats Fail to Keep the Rodents Within Bounds.

In Paris there are low streets near the river, where the inhabitants are afraid to allow their children to cross the garden or the courtyard after dark, says the Philadelphia Inquirer. The Central markets are infested to such an extent that rat-hunting has been abandoned in despair. As soon as dark sets in armies of rats attack the reserve provisions, to which they have burrowed their way beneath the masonry. A singular detail is that the cats, which are very numerous at the Central markets, live on the best terms with the rats. They can be seen trotting about together. The city cat has lost its reputation in Paris. He or she still enjoys killing a mouse, but with other food to hand a rat has become rather large game from the feline point of view. For this reason the budget commission suppressed this year the credits for the cats kept in the storehouses of the ministry of war. The cat as an official is now only to be found at the ministry of finance and the council of state. No decision has yet been come to by the authorities as to how the rat plague is to be got rid of, though poisons with instantaneous effects, which have the additional advantage of mummifying the body, are favorably regarded. The system, however, has the disadvantage of making poison too readily obtainable. Dr. Thery mentions four terriers belonging to M. Girard, chief of the municipal laboratory, which are excellent rat-catchers. They have cleared the cellars of the prefecture of police from the vermin and have strayed along the sewers as far as Bercy, two miles from home, killing large numbers of rats on the way. M. Girard's favorite terrier can break instantaneously the back of a rat weighing one and a half pounds. On Achères Plain rats estimated to be 10,000 in number have been seen at once on two acres of ground planted with beetroot.

**Her Gentle Retort**  
Judge Taft of Ohio tells this story of how his wife once turned the tables on him when he attempted a bit of sarcasm at her expense.

The judge and Mrs. Taft attended church one Sunday morning, and after service Mrs. Taft was the center of a group of women who stood in the aisle and held a long and animated discussion on some topic of feminine interest, as women will.

The judge grew impatient at the delay, and was very grim on the way home. At last he said:

"Do you know you chattering women remind me of Balaam's ass blocking the way?"

"O, no," replied Mrs. Taft severely. "You are mistaken. It was the angel that blocked the way of the ass!"—Memphis Scimitar.

Entered at the postoffice at Robert Lee, Texas, as second-class matter.

In this issue appears the announcement of Lee J. Good, for Sheriff and Tax Collector. Mr Good is too well known to need any praise from the RUSTLER, having done an extensive cattle business here for some years, and being acquainted with almost every voter in the county. He will make the Campaign a lively one. Consider his claim at the November election.

Everything is still bright and encouraging for the Coke County Summer Normal at Bronte. Supt Kendall has authorized it and everything is now in shape to make a good strong pull for the success of the Normal. It has been said that when Coke County people get interested in a thing they are apt to make it a success and this is a fine opportunity to prove the truth of the saying. There is no question but that there is a strong interest felt in the Normal—for exceeding what we had hoped for. Some of our neighboring counties have been surprised at the bold stand we have taken and the strength we have shown educationally. Coke is coming to the front in this line and assuming a prominent position among the counties of West Tex.

The people of Bronte have already received a number of letters from teachers at a distance inquiring for board etc. and every indication is that the Normal will be well attended. Let's make it an affair that we can be proud of in future years.

### A Life And Death Fight.

Mr. W. A. Hines of Manchester, La., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Pearees Drug Store.

### Coke County.

Is the place for the home-seeker to pull up his reins and stop.

Land suitable to make small and medium sized farms and ranches can be had here at from \$1.00 to \$4.00 per acre.

Improved farms and ranches can be purchased at from 2 to \$6 per acre.

Town lots in Robert Lee or Bronte can be purchased at from 15. to \$100. according to location, etc.

The Colorado river runs diagonally through the County from North-West to South East. Other streams north of the Colorado, are Boozier, Big Silver, Little Silver, Yellow Wolf, Mess-box, Mountain, Mechatch Indian, Cow, Turkey, Double-barrell, and the three Kickapoos. All of these streams have living water in them almost all the time and have people living in their valleys, who have made a success in home-building.

South of the Colorado River are found Grape, Pecan, Paint, Salt, Wild Cat, Buffalo, Live Oak, and Mule creeks, on each of which can be found prosperous ranchmen and stock-farmers, many of whom have made fairly good fortunes in Coke.

Coke has a number of farmers who have successfully battled against the fine honored illusion that "this County is no good for grangers." Many have made a good living and paid for their land, besides year by year, buying land adjacent.

Any person desiring further information can address the undersigned, who pledges immediate reply, and will furnish any information concerning the country desired.

W. N. Copeland of Silver, was one of the most popular members of the convention. He was sent as delegate to two different conventions.

G. C. Arnett was the only old Executive Committeeman, who was reappointed. Rah for "Uncle George"

The Bronte delegation was an exceptionally strong one and its influence was felt on the entire convention in many different ways. Col. H. H. Hayley, of Hayrick made several short speeches on different questions.

I. J. Good, W. C. & C. C. Merchant Judge Davis and J. H. Burroughs all made good speeches against Land Commissioner Rogan and they carried their point too.

Prof. J. D. Jewers, of Bronte the new Secretary of the Executive Convention is one of the ablest and most gentlemanly Democrats in Coke.

Hon. G. W. Payne was in attendance, and helped to bring about harmony.

The venerable old County Chairman, Captain Hutchinson, was reelected unanimously. The convention did honor to itself in this.

Ye Editor took a bird's eye view of the Convention for awhile.

### ROOMS FOR THE HOMELESS.

School Land, School Land! Public Domain, Public Domain!

DO YOU KNOW that there are hundreds of sections of school land still unsold which are classified as agricultural and grazing land at \$1.00 and \$1.50 per acre on 40 years time, at only 3 per cent interest?

DO YOU KNOW that the next Legislature, which convenes January 23rd, 1900, will probably pass a bill placing all the rest of the Public Domain on the market as school land on the above terms, in addition to what is already on the market?

DO YOU WANT a copy of the new law as soon as it is passed by the Legislature?

DO YOU WANT to put yourself in a position to secure a section of school land, if you can not find one now?

DO YOU WANT to see the Absolute Lease Law repealed and all the school land placed on the market for actual settlers only?

If so, post yourself now by sending \$1.00 to the undersigned for his valuable book on Texas school lands, with map and list of the covered sections, and a copy of the new law will be sent you within less than one week after it passes the Legislature, together with a copy of the next official report from the Land Office in regard to school lands. This book contains list of counties in which school lands are located at the last official report, and much other valuable information, and instructions how to find school lands and how to buy them.

If you want to secure a home, this book will be of great value to you.

Send \$1.00 at once by registered letter or post-office order to the undersigned, who has purchased the school land business of Mr. Chas. P. Bevilacqua and will give prompt and careful attention to all school land matters. Cut this out and return with order, stating in what paper you saw it. ASHBY S. # ARE IN TRANSVAAL.

## The Last Natural Obstacle, Vaal River, Crossed,

## AND A GREAT BATTLE PROBABLE.

### The Situation is Admitted by Both Sides to be of the Gravest Character—Latest War News.

London, May 28.—When Lord Roberts wrote his first dispatch on Transvaal territory Sunday, shortly before 2 o'clock in the afternoon, he was fifty-one miles from Johannesburg and seventy-seven miles from Pretoria. His immensely superior forces had passed the Vaal river, their last great natural obstacle, at Three Points.

The Vaal forms a curve of eighty miles from Parys on the west to Zand Drift on the east. The concave of the curve is toward the Free State. Thus, Lord Roberts, advancing along the railway, was in a position to strike any part of the crescent by shorter lines than those by which the Boers could reinforce the threatened points. The Boers retreated almost without a show of defense. Gen. French did not fire a shot.

Of Lord Roberts' immediate forces eleven men belonging to the Eighth mounted infantry, were the first to ford the river. They came upon a Boer patrol looting at Voljoens Drift and a skirmish, lasting ten minutes, followed. Two hundred Boers tried feebly to hold the Vereeniging colliery, but they were dislodged.

The Boer rear guard is at Moyerton, ten miles south of Vereeniging. Their main body is moving toward the Klip river hills that cover the south side of Johannesburg.

While Lord Roberts' 30,000 infantry, 20,000 horses and 150 guns were moving on Johannesburg and Pretoria, through a parched and deserted country, the situation at the Transvaal capital, as it was last Friday, is thus described by an overseer who sent his message by private hand to Lorenzo Marquez yesterday:

"The situation, both from a military and a political point of view, has become very critical. President Kruger admitted that for the first time matters are very grave. The Boer determination is to trust everything to a last stand on the Gats Rand mountains to the north of Potchefstroom, where 3000 Kaffirs are digging trenches. To that point every available man and gun have been sent.

"The whole of the western border of the Transvaal from end to end is defenseless and Gen. Baden-Powell can march in when he likes. Lord Roberts, on the other hand, will encounter the greatest resistance. The Boer endeavor is to lure the British into appearing to threaten Johannesburg with attack, an excuse thus being given them for the destruction of property. The Transvaal government will not dare destroy the mines and property without an excuse. Much dynamite has been sent down that line and 16,000 cases lie ready at Zuurfontein, near Johannesburg.

President Kruger's proclamation to the burghers asking their votes for or against continuing the war is understood to say that they can quit now with the prospect of retaining their farms or continue to the bitter end.

### Cut to Pieces.

No one witnessed the accident and it is not known how he came to be on the track.

### Cooogan's Contribution.

This contribution gave rise to the story in political circles that Mr. Cooogan would be Bryan's running mate.

# MONUMENT TO MEN

## Who Comprised the Civil War Army of the Potomac

## HAD ITS CORNERSTONE PLACED

### At the Historic Spot in Fredericksburg that is Noted for the Charge of the Old Fifth Corps.

Fredericksburg, Va., May 26.—On the very ground over which the old fifth corps charged at Fredericksburg, President McKinley and his cabinet and Gen. Miles Friday witnessed the laying of the cornerstone in a shaft which will perpetuate in bronze and granite the heroism of the Army of the Potomac. It was an impressive ceremony, and rendered the more so by the fact that among the hundreds who witnessed the event were noted leaders of both the Federal and Confederate forces. The monument was the personal gift of Gen. Daniel Butterfield to the National Memorial association. Gen. Butterfield was present, but owing to ill health the committal of the monument to the secretary of war was made by Col. Hill, one of the veterans of the fifth corps. The visit of the president to Fredericksburg was primarily in honor of the annual reunion of the Army of the Potomac. The town was in gala dress and turned out en masse to receive the distinguished visitor. The president and his cabinet were welcomed at the courthouse, which was decorated with the national colors and the various corps flags of the Army of the Potomac. Welcoming speeches were made by prominent veterans of both sides of the civil war, and afterward the president held an informal reception at the home of St. Geo. R. Fitzhugh, where he was welcomed by hundreds of the townfolk, both white and colored.

The oration of the day was then delivered by Gen. Daniel E. Sickles.

After a reception the presidential party drove to the National cemetery, where the foundation of the fifth corps monument had been laid. Suspended from a scaffold hung the cornerstone of the monument. Gen. Butterfield occupied a bench next to the president, and opposite them were ranged the members of the Masonic lodge, under whose auspices the stone was to be laid. This was Fredericksburg lodge No. 4, of which George Washington was a member. Behind the Masons was the marine band. The ceremonies were opened by the band with "Nearer My God to Thee," in which all the audience joined. The stone was anointed in due Masonic order, and lowered into place, after which Col. Hill, in brief speech, committed the monument to the care of the national government.

Secretary Root, in replying, said:

"On behalf of the government of the United States I accept this memorial. I receive it into the tender and reverend care which the people of the United States have decreed by their laws to be forever maintained over the sacred remains and in memorial of the men who died that our nation might forever live undivided."

He continued with a touching reference to the heroism and sacrifice of both Federals and Confederates who contested the field of Fredericksburg, and concluding, said:

"May God grant that in the ever widening and beneficent mission of our country each coming year, through the efforts of your successors, may lay a fresh crown of laurels upon the graves of the men of that great struggle in which was builded the firm and everlasting fabric of American character and American patriotism."

The 3-year-old son of D. Stephenson, colored, was burned to death at Kosse, Tex.

### Recaptured.

Elmo, Tex., May 26.—Escaped state convicts Gordon and Leduke, who jumped from a moving Midland train Wednesday near Quinlan, were captured here Thursday night by Constable A. J. Parker. They had entered a car of crossties which stood on the sidetrack and one of them was sleeping while the other watched. They had removed the chains and collars with which they were necked together when they jumped from the train. Both are long-term men.

The Oklahoma Eastern railway is to be at once built between Pawnee, Ok., and Bartlettville, I. T.

An agreement has been reached between the Chickasaw and Choctaw commissions for the purpose of auditing the tribal finances, etc.

Gov. McCurlain, chief executive of the Choctaw nation, who is very ill, was to have been taken to Fort Smith, Ark., but his condition precludes such a step.

At South McAlester Judge Clayton has dissolved the temporary injunction restraining the Choctaw townsites commission from selling lots at Atoka under its plat.

Miss Corndropper, daughter of ex-Chief Corndropper of the Osage Indians, will for the third time be sold at auction to the highest bidder, to be his wife. Twice has she been a bride, each time being auctioned off, and both alliances proving unhappy. Tall Chief was her first husband; he got her for 400 Indian ponies. John Logan, her second worse half, only antied up 300 little horses. She is described as being a beauty, having a lovely figure and eyes of the blackest jet and as piercing as a calcium light. Only Osages can compete. As she seemed to depreciate in value 100 ponies on her second marriage, the bids will probably range around the 200 mark.

#### Oklahoma.

Charles Chaney, a farmer, was thrown from a buggy near Billings and killed.

There is a movement on foot to purchase a home for Delegate Flynn in the Cherokee strip and present it to him in recognition of his services in behalf of the free homes bill.

#### Morgan Opposes.

Washington, May 26.—Discussion of the Spooner Philippine bill was continued in the senate Friday by Mr. Morgan of Alabama. On the general question of the ownership and government by the United States of the Philippine islands, he was in accord with Senators Spooner and Lodge, but he regarded the pending bill as unwise and dangerous legislation because of the great power it placed in the hands of the president. He was satisfied, however, that the measure would not be passed by this congress and declared that it was being used as a foil to thrust aside the Nicaragua canal bill. Much of his speech was devoted to the canal bill and to denunciation of the efforts to prevent its enactment at this session.

On the 24th, twenty persons were released in the Dallas county courts from matrimony's bonds, and ten applied for tickets to travel on matrimony's sea.

#### Large Fund.

Atlanta, Ga., May 26.—The general assembly of the Southern Presbyterian church decided to raise a fund of \$1,000,000, a twentieth century fund, with which to endow the educational institutions of the church. This decision was reached at the conclusion of a most enthusiastic session on the eve of sine die adjournment and after a stirring address by retiring Moderator J. F. Cannon of St. Louis. The church is allowed five years to complete its work.

## REARED TO RYAN.

Shaft to His Memory Erected at His Birthplace

BY OLD DOMINION'S DAUGHTERS.

The Poet-Priest of Dixie Not Forgotten by Those With Whom He Lived in the Southland He Loved.

Norfolk, Va., May 24.—A monument to Father Ryan was unveiled here Wednesday by Pickett Buchanan chapter, Daughters of the Confederacy. The women of Norfolk conceived the idea of raising here a monument which shall tell posterity that Norfolk is the birthplace of the Confederacy's poet-priest, Father Ryan, and have been diligent in carrying it out.

Mrs. Walter P. Burrow led the movement, which culminated Wednesday in the unveiling in Elmwood Cemetery, in the section where the unknown dead soldiers of the Confederacy lie, a cross of rough Richmond granite, bearing Father Ryan's name and reciting the fact that Norfolk is his birthplace.

Father Ryan, who died at Louisville and is buried at Mobile, was born here in April, 1839. Some doubt as to this date which existed was set at rest by Mrs. Burrow, who, acting for her associate Daughters, secured from various sources indisputable proof that the poet was born here.

The memory of Father Ryan, in whose poems the dead cause is embalmed, is very dear to the Southern people, and contributions to the fund raised to erect the memorial here came freely from all portions of the South.

The day appointed for the unveiling of the memorial was also Confederate Memorial day. Capt. John J. Burroughs, at the unveiling, delivered an address, and a poem by Mr. Charles J. O'Malley and also one by Rev. Beverly Tucker, rector of old St. Paul's church, Norfolk, eulogistic of Father Ryan, were read. The poet's "The Conquered Banner" was read, and the United States Naval Post band played "My Old Kentucky Home."

The memorial, surrounded by a fence formed of cannon balls and bayonets, stands seven feet high.

Celebrated.

El Reno, Ok., May 24.—The meeting called to celebrate the passage of the free homes bill by congress was held Wednesday in the opera house with the largest attendance in the history of the city. All the business houses and some of the residences were gayly decorated for the occasion and the Grand opera house filled to overflowing. The Darlington Indian school and Goff's cadet band of El Reno furnished music for the occasion.

The passage of the free homes bill will save the homesteaders of Oklahoma some \$15,000,000, while Canadian county will profit to the extent of about \$100,000. This county has about one-half of its area in old Oklahoma where the settlers secured their homes free.

Maj. Eugene Baylor, who held Gen. Albert Sidney Johnston's head when he died, was at the Confederate meeting in Fort Worth, Tex.

Serious street-car rioting prevailed in St. Louis on the 23d. A policeman was shot.

Mad Wolf's Victim.

Luling, Tex., May 24.—The remains of J. T. Foster, how died at Uvalde, Tex. of hydrophobia caused by the bite of a mad wolf, were brought here for interment. About two weeks ago Mr. Foster and a young man named Denmark were camping near Uvalde, and were asleep in their tent when attacked by the mad wolf. Mr. Foster was bitten in the face and on the limbs, while young Denmark was bitten on the arms and through a heavy blanket.

Covered With Coals.

Greenville, S. C., May 24.—The wreck of a freight train on the Charleston and Western Carolina railroad caused the instant death of Engineer Wm. McKinney and the brakeman, Charles Haynes. The accident occurred about twenty-two miles from Laurens. As the engine turned over McKinney and Haynes were violently hurled against the furnace and covered with coals. They were roasted to death. The cause of the wreck is due to a defect in the truck of the engine.

## VAN ZANDT CHOSEN.

He is Elected Commander-in-Chief of the Confederate Veterans.

Fort Worth, Tex., May 24.—The principal event of the second and last day's session of the Texas division United Confederate veterans, was the election of Maj. Khleber Miller Van Zandt of this city to the position of major general commanding. While the contest between the friends of Maj. Van Zandt and Gen. Polley was spirited, the best of feeling prevailed. Gen. Polley, when he learned that he had suffered defeat, soldier that he is, was the first veteran to offer congratulations to the victor. He did even more, he accompanied his successor to the platform and told those who had thrice honored him that a braver, better and nobler man could not have been chosen. These words electrified the audience and with the stirring notes of "Dixie," 2000 throats sent up a cheer, the like of which was never heard.

Maj. Van Zandt spoke. He said that he considered the honor of being called to the command of so noble a body of men the greatest that could be conferred upon any man, and after repeating his thanks with continued emotion laid on the comrades with great emphasis the injunction of the duty of caring for destitute comrades while alive, the proper burial of the dead, and the keeping up of the organization of the Confederate camps throughout the state. Then, turning to Gen. Polley, he said that he could only hope to do as efficient and as acceptable work as had been done by his predecessor. Loud applause followed and Maj. Van Zandt retired from the hall, requesting Adj. Gen. S. O. Young to preside to the close of the session.

The association adopted a strong resolution calling up the legislature to appropriate for indigent Confederates \$8 per month, the amount allowed by the constitution for pensions.

Waco gets the next reunion. The Geysers City was chosen without opposition.

Purely Mutual.

New York, May 24.—A charter was issued at Albany, N. Y., Wednesday, to the following named gentlemen as incorporators of a new gathering organization, to be called the Associated Press: Stephen O'Meara of the Boston Journal, Adolph S. Ochs of the New York Times, St. Clair McKelway of the Brooklyn Eagle, William L. McLean of the Philadelphia Bulletin, Frank B. Noyes of the Washington Star and A. H. Belo of the Galveston-Dallas News. The membership of the corporation is to consist of and to be limited to the proprietors of newspapers. It is to be purely mutual and co-operative, to take no profits and to declare no dividends. It is not to sell news, but is to collect for and to distribute to its members only. Its operations and membership will cover the entire country.

Fossett Found.

El Paso, Tex., May 24.—Frank Fossett, who walked out of the courtroom in Fort Worth, May 17, where he was on trial a second time, was apprehended by Mexican rurales at a point twenty miles below Juarez, Mex., on the south side of the border. Fossett was recognized in the Pullman car Saturday night by Mayor Magoffin, Rev. M. C. Martin and other Knight Templars of this city, who were returning from Marshall, where they attended the funeral of Judge F. B. Sexton.

Is Qualifying.

New York, May 24.—The Herald's Washington special says the North American Trust company is qualifying as government depository in Cuba under the order of last March giving it preference, and the war department will deny to the senate that it paid the company for receiving deposits. Germany has replied to complaints against restrictions on American meats by complaining of our restrictions on German manufactures.

Home Missionary Society.

Detroit, Mich., May 24.—The second of the group of annual meetings of the various missionary institutions of the Baptist church began Wednesday, that of the American Baptist Home Mission society. The occasion is the sixty-eighth anniversary of the society, which embraces in the scope of its missionary work every state and territory, Mexico, Cuba and Porto Rico. # The Pinkham Remedies

For disorders of the feminine organs have gained their great renown and enormous sale because of the permanent good they have done and are doing for the women of this country.

If all ailing or suffering women could be made to understand how absolutely true are the statements about Lydia E. Pinkham's Vegetable Compound, their sufferings would end.

Mrs. Pinkham counsels women free of charge. Her address is Lynn, Mass. The advice she gives is practical and honest. You can write freely to her; she is a woman.

New Connection.

The extension of the Chicago & Eastern Illinois Road from Marion, Ill., to Thebes, to connect with the Cotton Belt was completed some months ago, and will be in shape for fast passenger service May 15th.

On that day a new fast train between Chicago and Texas will be inaugurated. Preparations for this train have been under way for some months, and everything will be in readiness by May 15th. The south-bound train will leave Chicago about 3.00 p. m., and will reach the Arkansas State line about daylight the next morning; Pine Bluff will be reached shortly after noon, and Texarkana at night; Waco, Dallas and Fort Worth early the next morning.

The north bound train will leave Waco about 8:20 p. m., Fort Worth, 10:00 p. m., Dallas, 10:30 p. m., Texarkana, 7:45 a. m., Pine Bluff, 1:00 p. m., and will reach Chicago about noon the next day.

The new train will carry a sleeper from Waco to Chicago, and a through chair car from Fort Worth to Chicago, besides the regular equipment of coaches and baggage car.

Cotton Belt parlor cafe cars will serve meals on the Cotton Belt, and C. & E. I. dining cars will serve meals on that line. In each case the meals will be served on the European plan at reasonable prices.

The schedule is so arranged that a passenger arriving in Chicago on this train can, within an hour or two after his arrival, catch a train on any one of a dozen different roads and continue his journey in any direction he may desire. It will be especially convenient for persons who want to reach the summer resorts of the lake region tributary to Chicago without any loss of time, as nearly all of these resorts can be reached the same afternoon or evening.

Much travel which has heretofore gone over other routes will now use the new line, because of the natural advantages it offers.

A Fredonia (Kan.) little girl of 12 years has determined to keep a record of the different boys and men who kiss her. Up to date her list shows 137, but she is raw yet in bookkeeping, and during the next six years she is bound to become much more proficient in figures.
