There is more Catarrh in this section of the country than all other diseases put together, and until the last few years together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Oblo, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials.

ies, he now puts in the banks for next two years. Respectfully. safe keeping, to the banks that would pay the highest rate of interest therefor on competitive bids, secured by a good and sufficient bond.

Next. I favor electing all county officials once every two years, and allowing an officer to succeed himself, and I would fur ther provide, that any officer be les visitor Thursday. subject to the re-call at any time the people felt that he was not co Saturday with Mr. Mitt Price. doing his duty

ficers, but do not believe in extrav. and got a good wetting. agance, and do not see any reason for paving any officer more than he is reasonably entitled to. Monday taking into consideration the a nount of work and the duties of his office. I think the salaries of the district judges should be re duced from \$4500 to \$3000 per year, as they get their expenses oaid This would save the state none \$13,500 per year. Every thing saved in the way of ex pense is keeping down taxes.

I would favor abolishing the office of district attorney and providing for a county attorney in each county in instead, which in my judgment, would be less expensive and more satisfactory

Another thing. The people of this county have to pay too much fees. For instance every time you or I give a mortgage on a lit tle bunch of personal property it costs a dollar and a half to re cord that mortgage, even if we don't borrow over fifteen dollars, and we have it to pay of course. Fifteen cents is enough to pro vide for filing it and etc., and the rate might be raised some for large mortgages. There are many fees, including court fees, and costs of litigation, that now make it burdensome for one to as sert his rights in court, that should be reduced, and it made easier for one to get justice.

All measures which may with justice be urged to advance our state morally and educate the children of the land, who will soon be the citizens, who control af fairs, and all measures which would give us better and cheaper railroad rates and all laws which would help advance the financial interests of every citizen of the state, including any provisions for helping the small farmer and the small stock men, make better homes, I shall expect to work for and stand for with all of my this ability and if elected, I will let you hear from me and will ren der to you an account of my stewardship as your servant, that I trust will cause you no regret that you placed your faith and confidence in me.
