Wyllis Appointed Clerk

George L. Wyllis, of Roswell, has been appointed clerk of the Fifth Judicial district court by Judge W. H. Pope to succeed Charles M. Bird, deceased. Mr. Wyllis was for many years a resident of Santa Fe county, first engaged in mining operations in the Carrizosa mining district. In 1893 he moved to Santa Fe and was appointed clerk of the First judicial district court by Judge A. B. Laughlin, then presiding. In 1897 he removed to Roswell, where he engaged in the real estate business. Mr. Wyllis bears a good reputation as an citizen and as a man. He performed the duties of the position while clerk of the First district satisfactorily and honestly. There is every reason to believe that he will do so again under his new appointment. He is a Virginian by birth.

Oldham-Bell.

From The Texas Trumpet.

Mr. Buford D. Oldham and Miss Geraldine Bell, both of Texico, were united in the holy bonds of matrimony on Thursday, November 29, 1906, at the home of Mr. and Mrs. S. A. King, Rev. Holmes of Amarillo, officiating. It is with feelings of deep pride and affection that the residents of our community, among whom both bride and groom number many friends and acquaintances, learn of the consummation of the little romance which has been enacted during the past summer, and is now brought to so happy a conclusion by the marriage of the principal characters. "All the world loves a lover," and this, our little "worn of Texico," offers its plaudits most heartily to the hero, who has succeeded in winning his fair lady.

Miss Bell is a bright and winning girl, one of the most popular of the merry circle of Texico's young folks. Combining, as she does, a serious and practical mind with a light and joyous heart, she is destined to become a ray of sunshine in the lives of those she loves, both in the domestic circle and in the broader social circle, where she is so well fitted to hold a place. Mr. Oldham is identified with the earliest of Texico's business interests. Coming here, as he did, a stranger, to hold a position of the gravest responsibility, he was quickly convinced his associates of his ability and worth, and he now stands in the fore front of Texico's business life, as one of the founders of an institution whose stability is recognized in the most exclusive financial circles, and whose widespread prestige is largely due to his unflinching endeavors and brilliant management.

Though the history of our town reaches ever but a few brief months, the association and experiences of those months have been fraught with the deepest significance to those who have taken part in its growth and given their lives to its advancement. As strangers have we gathered here from many climes, and here, through mutual interests, the mingling of joys and sorrows, the sympathetic hand, the responsive heart, have lifetime friendships been formed and a community of spirit been established which assures each that here he has found a home in its truest sense. The good neighbor and the warm friend are bonds which bind all hearts together with hoops of steel and which time will serve only to weld the closer.

Amid such conditions as these have these young folks cast their lot, where the hearts and hands of all reach out to bid them welcome, to extend them their best wishes for their life's happiness, and to assure them that they may find many old friends even in a new town. Mr. and Mrs. Oldham will occupy the new home in Farwell already prepared for their occupancy and will be at home to their friends after December 1.

Bethel Bricks.

Ben Guyer came home from Lake Arthur the other day.

Jim Green came in home and spent a few pleasant days but is gone again. Mr. and Mrs. Honey and Miss Jordan spent a few weeks at Bethel. Mrs. Honey and Miss Jordan have gone to Melrose, Miss Jordan's home. Mr. Honey returned to Texico.

R. C. Phillips and family are back among us again.

F. H. Anderson's family have returned from Texas, his son-in-law returning with him.

There is plenty of room in New Mexico yet. Let everyone come.

The old settlers move out and let the new ones take their places.

D. M. Ealy and wife, S. W. Smith and wife are spending the winter farther south.

Dr. Montgomery was a welcome visitor to our settlement Sunday.

George English is helping the boys at the First National bank. Rush of business the past week has made the extra help necessary.

Died—On Wednesday, December 5, 1906, at Portales, New Mexico, Raymond, infant son of S. E. and Flora Ruisten, interment Thursday in Portales cemetery.

H. A. Hurt came up from Roswell last week to work for the Roosevelt County Telephone company. He will work on this and the Texico exchange and will help make considerable improvements now contemplated.

Fred Crosby, the barber, has greatly improved the appearance of his shop by having new paper put on the walls of the very finest kind, and good linoleum put on the floor. Fred Crosby believes in keeping up with the times, and he runs a first-class shop.

J. G. Barnes, who expected to go to Tulsa, Texas, when his son-in-law, W. F. Hendrix returned, did not do so on account of the weather, left for that place Tuesday. He traveled overland and will not return until after the holidays, and may be, not until spring.

The Woman's club will give the spelling match, which was postponed last Monday night on account of the bad weather, on next Tuesday night, at 8 o'clock, at the court house. A prize will be given to the best speller. Admission only 10 cents. A very special invitation is extended to you.

The First National bank has the "mon" all right; look at their statement showing over one quarter of a million of dollars on deposit. If you want to borrow they have it to lend; if you want to deposit they can safely take care of it. This looks good. We like to see the finances of the country gradually looking up.

Have your photos made at Phillips' tent; we can please you.

C. V. Safford, traveling auditor for the territory, was here last week checking up the county treasurer. Mr. Safford found the money right to a cent and the books neat and accurate. Charley Safford is, beyond doubt, the best qualified territorial official holding an appointment today. As a matter of fact, his special fitness for his present position, has acted as a bar to his further and merited advancement.

GAINED 34 POUNDS

Persistent Anemia Cured by Dr. Williams' Pink Pills After Other Remedies Had Failed.

"When I began taking Dr. Williams' Pink Pills," says Mrs. Nathaniel Field, of St. Albans, Somerset county, Maine, "I was the palest, most bloodless person you could imagine. My tongue and gums were colorless and my fingers and ears were like wax. I had two doctors and they pronounced my trouble anemia. I had spells of vomiting, could not eat, in fact, did not dare to, I had much distress after eating. My stomach was filled with gas which caused me awful agony. The backache I suffered was at times almost unbearable and the least exertion made my heart beat so fast that I could hardly breathe. But the worst of all was the splitting, tearing headache which never left me for seven weeks. About this time I had had several numb spells. My limbs would be cold and without any feeling and the most distressing sensations would come over me."

"Nothing helped me until I began taking Dr. Williams' Pink Pills, in fact, I had grown worse every day. After I had taken the pills a short time I could see that they were benefiting me and one morning I awoke entirely free from pain. The distress after eating disappeared and in three weeks I could eat anything I wanted and suffer no inconvenience. I also slept soundly, I have taken several boxes and have gained in weight from 130 to 164 pounds and am perfectly well now."

Dr. Williams' Pink Pills cure anemia because they actually make new blood. For rheumatism, indigestion, nervous headaches and many forms of weakness they are recommended even if ordinary medicine have failed. They are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

TEN YEARS OF PAIN.
Unable to Do Even Housework Because of Kidney Troubles.

Mrs. Margaret Emmerich, of Clinton street, Napoleon, O., says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused sharp shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief, and finally cured me. They saved my life."

Sounded Praises of Spain.
In a guide to etiquette published early in the last century the writer says that "soap does not irritate the complexion; some of the finest complexioners we have known have been regularly washed with soap every day." The same authority remarks that "the daily bath is now the rule rather than the exception, and common sense has triumphed over the decision that washing was injurious." And then the writer has a dig at her great-grandmother, "whose only ablutions consisted in wetting her cheeks with a cambric handkerchief dipped in rose-water." "In all our directions with regard to the bath," adds this early Victorian dictator, "it must be borne in mind that we only refer to those in sound state of health."

To Represent Italy and Spain.
The two great Catholic countries of Europe, Italy and Spain, are sending new ambassadors to the court of St. James. The marquis di San Giuliano, who will represent Italy, is comparatively a young man. He comes of an old Sicilian family of Norman descent, and is highly cultured, having traveled extensively with good results. He is an enthusiastic student of Dante, and is president of the Italian Geographical society. Senor Villa Urutia, the new Spanish ambassador, accompanied King Alfonso to London on the momentous occasion that ended in his engagement to Princess Ena, and won golden opinions for his tact and courtesy during that visit.

NEW YEAR'S CALLS.
A New Drink to Replace the Old-Time "Apple-Jack."

Twenty-five years ago the custom of making New Year's calls was a delightful one for all concerned, until some of the boys got more "egg-nog" or "apple-jack" than they could successfully carry.

Then the ladies tried to be charitable and the gentlemen tried to be chivalrous as ever and stand up at the same time.

If anyone thinks there has not been considerable improvement made in the last quarter of a century in the use of alcoholic beverages, let him stop to consider, among other things, the fact that the old custom of New Year's calls and the genteel tipping is nearly obsolete.

The custom of calling on one's friends, however, at the beginning of the new year, is a good habit, and another good habit is to start at that time in the use of well-made Postum instead of coffee or spirits.

A Staten Island doctor has a sensible daughter who has set Postum before her guests as a good thing to drink at Yule Tide, and a good way to begin the New Year. Her father writes:

"My daughter and I have used Postum for some time past, and we feel sure it contains wholesome food material."

"I shall not only recommend it to my patients, but my daughter will be most pleased to give a demonstration of Postum to our Christmas and New Year callers." Read "The Road to Wellville" in papers. "There's a reason."

Farmers' Co-Operative Union Of America

Co-operate in dragging the roads. That is the way to get a good road into town, and all the way back, too.

Do not let the children miss a day from school now. You pass this way only once, and if you have some good thing to do, do it now.

Louisiana brethren have launched a Union paper for their State. Brother Boyett and Brother Holmes are at the helm and the name is Farmers' Union Banner—published weekly at Winfield, La.

Be careful of the timber. All sorts of timber is worth many times what it was a few years ago, and the time is coming when it will be far more precious than it now is.

Plenty of time yet to plant some trees in all the odd corners, and make that much clear on the place. It may be that you may not expect to live long on the place. That should not deter you from doing what you have a splendid opportunity to do for your fellow man.

Educate, educate. That is the cry of all time. There is nothing that afflicts a nation so severely as a lack of education. Not that knowledge of books alone, but the knowledge of which book-knowledge is the key. Lots of the best education comes from the frequent meeting and discussion of every-day duties and processes. Remember, however, that "All work and no play makes Jack a dull boy," so mix your work.

The split log drag is a success where it is used as originally intended. The members of the Unions should get busy with the drag at once so as to save the roads to some degree the balance of this winter. Exhaustive experiments in Grayson County, Texas, have proven its efficiency, and those who want to know more about this scheme for working the roads may address the Mayor of Denison, Texas, and they will get full information.

Have you taken any steps to do any "breeding up" of your corn and cotton this year? If you have not, it is high time that you get busy. You may be called upon for an account of your stewardship some day, and if your accounting is good, you will be rewarded, but if it is bad, you will read the fatal "Mene, mene, tekel u-harsen," and you will deserve it. That man's name is good at the bank whose name is good at the job he works at, no matter what the job is.

Don't come to the conclusion that it is not necessary for you to go to the meetings of your Union. If you are that sorry, it is high time that you begin to get some sense pumped into you by contact with men of larger intelligence. If, on the other hand, you are too big for the crowd, hitch up and drive on to a more congenial climate. A man should not be allowed to live in a community that he is so far above it that he is not ready to do something to help things along.

Again a little incident reminds us of the past. In the public schools do not know what sort of teachers are training their children for success or failure. Nine out of every ten characters are more susceptible to school influences than to any other, and it is in the school room that inspirations are drawn in that go to make up the incentives and ambitions that make for the character of the boys and girls. Get acquainted with the teachers of your children, and give

CO-OPERATOR CULLINGS.
When we have stability of prices, then all doubts will be dispelled and the producer will be the independent citizen he should be.

Yes, some day, not far distant, all producers will be co-operators. This is a progressive age. Real co-operation will prove the industrial salvation of the producers.

A perfect understanding of all the producers will do the work. Then can we do every thing which is necessary to be done for our safety and happiness. Let us stay on the main track.

The only chance the farmers have to take profits is when they sell their crops, and if you fail to get a profitable price your opportunity is gone, as when you go to buy you pay profits instead of taking them. See?

Cotton is money, wheat is money; so is corn, hogs, all produce that the world has to have for its food and its

MERCURY MUSINGS.
Those who strive to live, up to the principles of the Farmers' Union cannot fall to become better citizens, ever though they may now and then fall short of their aims.

I. Roberts, of Malessu, Tennessee, has the honor of being the first man in Tennessee to join the Farmers' Union. A specially designed medal has been given him by the membership of his Union.

Tennessee now has about 300 local branches embracing over 6,000 members and the work is growing every day.

By exchanging ideas and experiences at your local as to the best methods of crop production, information of real value is often brought out, and the union becomes an important factor in promoting better agricultural methods.

In health we are unaware of the work of the nerves.

The nerves of the human body are not unlike the electric telegraph wires.

BEING A FAIRY TALE.
The Story of Postum Cereal in Words and Pictures.

The growth of the Postum Cereal Co. is like a fairy tale, but it is true, every word.

"The Door Unbolted" is the title of a charming little booklet just issued by the Company which tells, and illustrates, the story of this remarkable growth. It takes the reader from the little white barn in which the business was started Jan. 1, 1895, through the palatial offices and grand factory buildings of the "White City" that comprise Postumville, Battle Creek, Mich.

The little white barn, so carefully preserved, is a most interesting building, for it represents the humble beginning of one of the country's greatest manufacturing enterprises of today, an enterprise that has grown from this little barn to a whole city of factory buildings within but little more than ten years.

No less interesting is the quaint official home of the Postum Cereal Co. The general office building of Mr. Post and his associates is a reproduction of the Shakespeare house at Stratford-on-Avon, and upon the house and its furnishings has been expended vast sums of money, until the rooms are more like the drawing rooms of the mansions of our multi-millionaires than like offices.

That Mr. Post has believed thoroughly in the idea of giving to his employees attractive and healthful work rooms is proven not only by the general office building of the Company and its furnishings, but by his factories as well, and of all of these things this beautiful little booklet tells the interesting story. It will be sent to anyone on request.

DEAFNESS CANNOT BE CURED
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remediation. Deafness is the result of a diseased condition of the mucous lining of the Eustachian Tube. When this is inflamed, it swells and obstructs the hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases of tinnitus and other noises in the ear, but an inflamed condition of the mucous membrane.

Japan's Empress Popular.
It is doubtful if any royal consort is more loved by her people than is the empress of Japan. Educated according to the best ideas and skilled in all the accomplishments befitting one of her social eminence, her majesty strongly favors the broadness of the new education for women and from her private purse gives large sums toward the maintenance of women's schools and universities. During the war with Russia the empress visited the hospitals many times and every day passed hours making bandages. The effect of these bandages upon the wounded soldiers has been of deep interest to medical and scientific men, for the soldiers honored by them seemed to rally under a peculiar mental influence. All other bandages were destroyed after their first use; those made by the empress were sterilized and used again for the simple reason of their effect on the recovery of the soldiers.

A man without a wife is a balloon without an anchor.

Mrs. Winslow's Soothing Syrup, for children teething, softens the gums, reduces inflammation, allays the pain, and cures the child in a few hours.

Enmity of your enemies is less uncertain than the friendship of your friends.

Stop That Cough.
If you have a cough, cold, sore throat, or chest, don't delay a moment—cure it. Simmon's Cough Syrup is a sure remedy. It makes you well.

Mix Soap With Dough.
From a communication read to the Association of Belgian Chemists it seems that continental bakers are in the habit of mixing soap with their dough to make their bread and pastry nice and light. The quantity of soap varies greatly. In fancy articles like wafles and fritters it is much larger than in bread.

Certainly Fair.
Of all troubles humanity is subject to none perhaps cause more acute distress and more frantic efforts for relief than many forms of itching skin troubles. We will tell you a remedy that rarely ever fails—Hunt's Cure. One box only is absolutely guaranteed to cure any one case of itching trouble—no matter the name! If it fails, your money is cheerfully refunded.

"The trouble with that talkative person is that he frequently contradicts himself." "After listening to some of the things he says," replied Miss Kay-ense, "it seems rather creditable that he should."

Autos in German Army.
The German Volunteer Army Corps is provided with 37 automobiles in charge of uniformed drivers, which carry staff officers to and fro. In the maneuvers last month the speed and convenience of the machines were highly praised by the tacticians who watched the developments of the mimic campaign.

Never Disappointed.
"Many extensively advertised remedies are failures when put to the test. Hunt's Lightning Oil is an exception. Confidence in it is never misplaced—disappointment never follows its use. It is surely the grandest emergency remedy now obtainable. For cuts, burns, sprains, aches and pains I know no equal."

Geo. E. Paddock, Doniphan, Mo.

Department's Good Record.
The colonial secretary of the Bahamas states in his report of the islands for 1906-1907 that no complaint of error or delay has been received by the telegraph department for 14 years.

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champeog, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the Internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.
