

**To The Public.**

We have had numerous inquiries in the past few days in regard to a negro colony that is supposed to be located in Roosevelt county in the near future, and by Joe Howard & Sons, of Portales. In fact, it has, no doubt, been told to the public in general that this was to be done soon by our real estate firm, but for the benefit of those we have been unable to see in person we wish to state that this is absolutely false, untrue and unjust, that such a statement be made against our firm, and we will further state that before we would impose on the moral, law-abiding white citizens of this community by settling amongst them a bunch of black, African bred, raping, NIGGER class, we will retire from the real estate business and embark in the scavenger business, or some other that we consider clean, healthy and moral, rather than handling black, low bred "COONS." And we will also state that we are not dictating to the people who shall settle or who shall not settle in Roosevelt county, but simply want the public to know that it is not our business to settle "coons" and we don't intend to do it.

At present our county is populated with a class of moral, law-abiding, white citizens, and on our county record of criminal docket you are unable to find a single RAPE case, not even a case of lynching has ever gone on record in our county, and some may ask why? The answer is, no NIGGERS to cause such trouble. So you will find Joe Howard & Sons at the same old stand, doing a general real estate business with white people.

(Signed) COE HOWARD.

**In Hall's Behalf.**

From Roswell Record.  
W. A. Mitchell, a deputy sheriff at El Paso and formerly well known in this section of New Mexico, was here yesterday circulating a petition addressed to the governor of New Mexico, asking him to pardon Will Hall, who was sent to the penitentiary for life for killing a man named Crump, in Roswell, nine years ago. Mr. Mitchell was seeking only the names of old timers who were here at the time of the killing. He secured several of them. The older citizens all well remember the tragedy. Crump went to a house where Hall was quartered and when Crump broke open the door Hall shot him. They had been having trouble earlier in the day. The case was tried in Roswell and Hall found guilty. He secured a new trial and took the case to Lincoln on change of venue. He was again convicted and sentenced to the penitentiary for life. Among the signers to his petition in Lincoln county were the members of the jury that found him guilty. They are nearly all Mexicans, as indicated by their Spanish names.

Hall was an old friend of Mitchell; also of W. R. Cummins, of this city, who went with Mitchell yesterday and helped secure signatures to the petition.

**High Living and High Prices.**

The Wichita, Kansas, Eagle publishes an article to the effect that this nation was more likely to suffer from the the price of high living than it was from the high price of living. It says: We think the assertion is susceptible of proof. Seventy-five per cent of the people today have

*"Hello, Little One!"*

forgotten now to deny themselves and put aside their own fancies. While few may live beyond their incomes, thousands who ought to know better are living up everything they make. The man who scoots around in an automobile for the joy of it while paying for it on the installment plan because he hasn't the money to pay for it outright, would do well to pause and consider his habits. The men and women who put their wealth to the last cent on their backs or spend it on their table ought to take account of their mental habits. Folks who are building homes out of all proportion to the size of their families and from motives of shoddy and pride, would do themselves a service by making an inventory showing the recent growth of their tastes and the increasing difficulty of meeting their own requirements.

Extravagance may sometimes be a necessity; it is most frequently a habit, a mental process where the luxury becomes a seeming necessity. Few people retrace voluntarily the road of luxury. Nearly every one who returns over that path is led back by a guide who holds failure in one hand and humiliation in the other, and the return trip usually results in life-long bitterness to him who takes it.

No one these days speaks of frugality. But frugality is still a virtue, just as much as it was one hundred years ago. And the doctrine of penalties, upon which this world has run for good many centuries, has a clause covering its violation.

**Oklahoma Legislature to Meet.**

Late at night on November 16, Governor Charles N. Haskell issued a call for the legislature for the new state to meet on December 2. The place where the session will be called is left open. This gives reason for fear at Guthrie that the legislature might be called to meet at some other place than Guthrie, if the city does not offer a place for the legislature to meet at a figure to suit the governor and the legislators.

Shawnee has offered quarters for the state officers and a place

for the legislature to meet free of charge. The Oklahoma legislature is composed of one hundred and nine representatives and forty-four senators. The republicans have only seventeen members of the House and five members of the senate. Governor Haskell does not outline any proposed legislation in the call.

On November 7, the president announced the following appointments for the new state of Oklahoma:

John H. Cottrel, judge; John Embry, United States attorney, and John Abernathy, United States marshal, for the western district. Ralph E. Campbell, judge; Wm. Gregg, United States attorney, and G. A. Porter, United States marshal, for the eastern district.

**Take the Register-Tribune.**

The Portales Times has made arrangements with the Roswell Register-Tribune, the premier weekly of New Mexico, whereby we are enabled to offer a full year's subscription to both, the Times and the Register-Tribune for \$1.50.

We believe we are safe in saying there isn't another weekly paper published in the United States that has that delightful individuality, pith and point characteristic of the Register-Tribune. No one can afford to miss this opportunity of getting that peerless paper, together with the Times, the energetic champion of Roosevelt county for only \$1.50.

**Money Acquired.**

George P. Money, formerly of Las Vegas and Santa Fe, and in 1904 candidate of the democratic party in this territory for delegate to congress, was acquitted Saturday, November 16, by a jury at Carrollton, Mississippi, of a charge of murder found in an indictment by a recent grand jury at that place. The indictment was based on a killing which occurred many years ago, as the result of a quarrel following a gross insult offered to Mr. Money's father.

More orchard trees will be planted in New Mexico this winter than in any previous year.

Mr. Greathouse is gathering  
grain for Lewie Anderson.

School is progressing nicely  
with a very good enrollment.

Billy Merrill has purchased  
Ben Smith's interest in the grain  
on Tom Smith's place.

The road on which we expect  
to get the rural route is almost  
open now and will all be open  
soon.

Telephone Williams and his  
lineman were out from town last  
week inspecting the line and some  
boxes.

Billy Merrill and wife have  
moved back here from Dalhart,  
Texas. They will reside on the  
Tom Smith place for the present.

From the message which "Bow-  
ser" sent in to a dentist a few  
days ago, we would infer that he  
had a molar which was causing  
him some trouble.

Doss School House.

BY DOSSITE.

Health is good in this locality.  
W. M. Trimmer is just about  
over his big maize crop.

Heading maize and gathering  
corn is the order of the day.

T. R. Minshew has been doing  
some realty business this week.

Tillman Roquemore left Mon-  
day for Bovina, to be gone some  
time.

We are enjoying some cold  
weather this week, though it is  
time for winter.

Mr. McNary, Jeff Boyd and C.  
A. Jones left yesterday for the  
breaks, to be gone several days.

We have a good school with  
forty-one pupils enrolled. Our  
school house needs to be enlarged.

T. R. Minshew and Mr. Gill-  
man are at work on the phone  
line. We think we all can have  
phones soon.

J. H. Stone and J. B. Naylor  
have been building some of the  
largest stacks of feed in the  
country. It looks good to those  
who have none to build.

Charley Lewis, of Leo, Texas,  
has been visiting his brother, A.  
H. Lewis, for the past week. He  
has returned home, but says he  
will move to Portales as soon as  
he can straighten up his business  
there. He thinks this country  
far better than where he lives.  
Mr. Lewis will be heartily wel-  
come in our vicinity.

Arch Items.

BY DAISY.

It snows, cries the school boy,  
hurrah, hurrah.

We are having plenty of rain  
the past few days.

Mr. Brown has built him a nice  
large barn on his claim.

Farmers are getting 50 cents a  
bushel for their corn in the field.

Mrs. Leckliter and children  
visited her father, west of Por-  
tales, last week.

We can see several new houses  
going up north of Arch, on the  
forest reserve strip.

Uncle Ben Alls is preparing to  
make a trip down in Texas, where  
he will spend the winter.

Glad to note that Troy Boulter  
is able to be at school again after  
several days of sickness.

Six wagons were in our com-  
munity in one day last week from  
Nigger Hill wanting corn.

Wm. Foster made a business  
trip to Texico last week, taking

up a load of maize and a fat hog.

The farmers are wearing long  
faces, it being so wet and rainy  
they can't haul and stack their  
feed.

Mr. and Mrs. J. C. Leckliter  
made a business trip to Texico  
last week and report things mov-  
ing lively at that place.

Henry Williams, Uncle Jimmy  
Williams and D. W. Dyar went  
to Portales last Saturday to file  
notice of their intention to make  
final proof on their claims.

Its Dangerous

To neglect a cold, the results are too  
often very serious. Bronchitis, pleu-  
risy, pneumonia and consumption are  
frequently the consequences. Upon  
the appearance of a cold, sore throat  
or chest, use Simmons' Cough Syrup.  
It soothes the irritation, loosens the  
phlegm and promptly cures you.

Pointed Paragraphs.

From Southwestern Farm and Orchard.

The poorest way on earth to  
practice economy is to starve  
stock to save feed.

It looks like an attempted swin-  
dle to try to get plenty of milk  
from a poorly fed cow.

Do not forget to save your seed  
corn from the stalks that are  
standing in the field, by selection  
of the most vigorous stalks and  
best ears. Next year's crop de-  
pends on this year's seed.

An exchange says: We know  
a farmer who told us the other  
day that the horse he bought for  
his boy had more than paid for  
itself. That boy thinks farming  
is not such a bad kind of life,  
after all. The horse had some-  
to do with this opinion.

The best way to keep sweet  
potato seed from rotting is to dig  
them after the first light frost  
and pile them in a round heap;  
stack corn stalks around them  
four inches thick; then cover  
about four inches with dirt and  
put a dry shelter over them; never  
put over thirty bushels in a hill.

Harvesters, riding plows and  
sulky cultivators may be found  
on every farm, but the wash-  
board is about the same kind of a  
one that our grandmother used.  
A good washing machine costs  
from \$5 to \$8, but a washboard  
can be bought for 25 cents. This  
kind of economy gives a good  
many men a chance to look for a  
second wife.

Governor Curry and Delegate  
Andrews accomplished some good  
work for the people of New Mex-  
ico during the past week in ar-  
ranging with the Bureau of For-  
estry to restore to the public do-  
main for settlement under the  
federal land laws thousands of  
acres of agricultural lands now  
contained within the Jemez and  
Lincoln national forests.—New

The finest coffee substitute ever made  
has recently been produced by Dr.  
Shoop, of Racine, Wis. You don't have

"Made in a minute," says the doctor.  
"Health Coffee" is really the closest  
coffee imitation ever yet produced.  
Not a grain of real coffee is in it either.  
Health Coffee imitation is made from

**Indigestion**

Stomach trouble is but a symptom of, and not  
in itself a true disease. We think of Dyspepsia,  
Heartburn, and Indigestion as real diseases, yet  
they are symptoms only of a certain specific  
Nerve sickness—nothing else.  
It was this fact that first correctly led Dr. Shoop  
in the creation of that now very popular Stomach  
Remedy—Dr. Shoop's Restorative. Going direct  
to the stomach nerves, alone brought that success  
and favor to Dr. Shoop and his Restorative. With-  
out that original and highly vital principle, no  
such lasting accomplishments were ever to be had.  
For stomach distress, bloating, biliousness, bad  
breath and mallow complexion, try Dr. Shoop's  
Restorative—Tablets or Liquid—and see for your-  
self what it can and will do. We sell and cheer-  
fully recommend

The best illustration of pride going before a fall is the present strut of the Thanksgiving turkey.

The scarcity of coal has greatly affected the progress of the burning and manufacture of brick at the territorial penitentiary of late. The books of the institution show orders for over 1,000,000 brick which could be promptly disposed of as soon as ready for delivery.—New Mexican.

Most of the railroads operating in Oklahoma put the 2-cent passenger fare in effect November 16th. This action is in compliance with a provision of the constitution requiring roads to carry passengers for 2 cents a mile unless they could show to the corporation committee that they could not make a reasonable profit on that rate.

Nineteen New Mexico veterans have been made happy as the result of the unceasing and unselfish labors of Delegate to Congress W. H. Andrews, who has presented their claims before the pension office and secured pensions for them. These are the latest to be benefitted by the delegate's good and timely work.—New Mexican.

The work of marking the line of the Santa Fe trail in Kansas has been completed. The Daughters of the American Revolution have placed ninety-five monuments along the route of the trail, at least one in every county through which the trail passed. These monuments were made of Oklahoma granite and contained a suitable inscription to show its purpose. The state and the D. A. R. furnished the money to buy and have the monuments dressed. The Atchison, Topeka & Santa Fe road hauled them free and the county organizations had them placed in their proper positions. The D. A. R. in Colorado are now at work placing similar monuments to those used in Kansas along the trail in Colorado.

"Alfalfa is a great feed," says Doctor D. F. Luckey, State Veterinarian of Missouri. "It will not be long until the leaves and stems will be ground into a meal and alfalfa bread made from it. This bread will in a great measure take the place of milk in a well balanced diet. I know a man will not think favorably of such food for himself and family, but it can be made very palatable. It may, to some extent, take the place of cornbread. I know a man who has fed bread of this kind to some game chickens and they were placed in fine shape; dog bread has often been made out of it. If for any reason a scarcity of breadstuffs should occur in the United States and the price of flour and meal should go up extremely high, I believe that alfalfa bread would be used extensively, provided, of course, that the alfalfa crops were not a failure at the same time."

## A LITTLE LAY SERMON.

Last week a man arose in a big Presbyterian conference in Cincinnati and said that he had come all the way from Albuquerque, New Mexico, to find out how to become a christian. He declared that he did not believe a man could be a christian and work for a big corporation that forced him to lie and steal. The brief dispatch narrating the circumstance said that the question created something of a sensation, though the reasons therefor were were not given. Possibly the conference was surprised that anybody would come to Cincinnati to find out how to become a christian, or that anybody from Albuquerque wanted to be a christian, or that anybody working for a corporation had any hope of becoming a christian.

But this poor inquirer is troubled with the same trouble that troubles a lot of other people. While it must be admitted that the business world is not conducted in every respect according to the letter of either the Decalogue or the Golden Rule, yet the assumption that any big corporation forces its employes to lie and steal, or that a man cannot be a christian and be connected with a corporation or any other commercial institution of recognized methods, is simply nonsense. This man, taking him at his word, wasted time and railroad fare in going all the way from New Mexico to Cincinnati to find out how to become a christian. The answer to the question is much easier now than it ever was before, for it depends more upon the spirit than the letter of creeds and dogmas. The world is growing more tolerant every day, and the religious world is sharing in this widening liberality. Even the strictest of doctrinaires will admit a greater latitude in the matter of doctrinal requirements. It is becoming increasingly common for the various denominations to join in revival services, the gross results being distributed among the various sects according to the personal preferences of the converts.

So far from business institutions forcing men to lie and steal, the business world is demanding an ever-rising standard of personal morals on the part of its employes. The moral code of the business world was never higher. The store upon whose products implicit reliance may be placed enjoys the largest share of the public patronage, and the employe whose personal honesty is above suspicion is regarded as an asset above price. Every business man knows that the employe who will steal for him will steal from him, and that the employe who will lie for him will lie to him, and he doesn't want that sort of employes. The smirking, smug "goody-goody" fellow will not necessarily receive the highest degree of favor, but every employer not only wants, but demands, absolute reliability and all the other cardinal virtues of christian morality. The man who is known as a sincere, earnest, modest and consistent christian, who doesn't spend too much time telling how good he is, but who shows his goodness by being good, can get a job any day in the week, for that is the kind of man the business world is looking for—and that means women, too.—Kansas City Journal.

"In God We Trust" will no longer appear on the American dollar.

## NEW STATE BORN.

Born, at the White House, at 10:16 a. m., on November 16, 1907, a new state, christened Oklahoma, the product of long controversy, suffering and strife, finally vitalized by the pen of Theodore Roosevelt.

This is the forty-sixth member of the family of states, and its birth will be celebrated by the addition of a new star to the flag of the Union on July 4, next, the birthday of the nation.

The ceremonies attending the birth of Oklahoma were very simple. At the hour stated, a small crowd of newspaper men and statesmen assembled in the cabinet room of the White House. Secretary Loeb appeared upon the scene, carrying the proclamation, in typewritten form, and an eagle quill sent to the president by Oklahoma friends. President Roosevelt followed closely, took his seat at the head of the cabinet table, grabbed up the eagle quill, jabbed it into the ink well, and then dashed off his signature at the bottom of the proclamation.

As he finished running a blotter over his name to dry the surplus ink, the president smilingly remarked:

"Oklahoma's a state."

"Will you please give me that blotter as a souvenir?" asked Albert Hammer, an Oklahoma man, who lost a day from work at the land office to see the "immortal document" signed. The president tossed it to him. Mr. Loeb took charge of the eagle quill and will send it to the Oklahoma Historical Society.

## TO RELIEVE PANIC.

On Monday, Secretary Cortelyou made the important announcement that as a means to relieve the present financial situation, there would be issued \$50,000,000 of Panama bonds and \$100,000,000 certificates of indebtedness, or as much thereof as may be necessary. The certificates will run for one year and bear three per cent interest. It is hoped this will greatly help to restore confidence and cause money to circulate in the usual manner. It seems the east has its grip on a large volume of western money, as well as its own, and refuses, because of its local conditions, to release this currency so that the normal movement of crops, due at this time, may occur. This Wall street paroxysm occurred at the only time it could do much harm, at just the time when the great crops were to be moved, and required all the available funds to move them. Crops were good and the business conditions sound, but there has been a stoppage in financial centers, which President Roosevelt proposes to relieve by a dose of castor oil in the form of certificates of indebtedness.

President Roosevelt says, "It is absurd for the people to permit themselves to get in a panic." In fact, the people have been remarkably level-headed, considering the apparent panic among the financiers. The president says what everybody knows to be true, that "there is more currency in the country today than there was a month ago, when the supply was ample."

There are many people who believe that this Wall street affair was deliberately planned, but it hardly seems possible that "high financiers" would do such a thing, and there is no question but what there has been over speculation.

**ENTIRE BODY ONE SOLID PIECE CHARCOAL IRON OILED**

**LINED WITH ASBESTOS BOARD NOT PAPER**

**WILL NOT CRACK, RUST OR CRYSTALLIZE**

**In Constructing THE GREAT MAJESTIC RANGE**

The manufacturers now use CHARCOAL IRON in place of steel. This new feature alone adds 300% to the life of the range, as it resists rust and crystallization in any climate, a feature not possessed in steel.

All breakable parts are made of Malleable Iron—material that cannot crack or break.

By using Malleable Iron in connection with Charcoal Iron it enables the manufacturers to cold rivet all parts together air-tight, allowing no heat to escape—thus heating the oven and holding the heat with a small amount of fuel.

All economical housewives should own a Majestic.

A Texas man who chews 20 cents worth of tobacco a week concluded to try a tobacco cure. In two weeks he ate \$1.50 worth of the cure and for the next two weeks he used 5 cents worth of gum, 5 cents worth of candy, 5 cents worth of peanuts and 5 cents worth of gum drops a day. During the two weeks he also consumed two large rubber erasers, ate the rubber tips from fourteen lead pencils, chewed up a dozen penholders, and browsed off his mustache as high as he could reach. He is now chewing tobacco in the interest of economy.

A story is told in the east, but of course it don't apply to New Mexico, as follows: An Irishman wanted to take a "homestead," and not knowing just how to go about it, sought information from a friend. "Mike," he said, "you've taken a homestead an' I thought maybe ye could tell me th' law concernin' how to go about it." "Well, Dennis, I don't remember th' exact wordin' uv th' law, but I can give ye th' exact manin' uv it. The manin' uv it is this: The government is willin' t' bet ye 160 acres of land agin \$14 that ye can't live on' it five years without starvin' t' Jeath."

Anderson & Anderson have been getting in a fine line of gents' furnishings, including the Cluett shirts and collars, new hosiery, new style mufflers, cuff buttons, collar buttons, stick pins, etc.

The editor of the Times returned Thursday night from a trip to Kansas on business. Kansas has had poor crops of both wheat and corn this year. Corn is very high there this year, selling at 60 cents per bushel, and with corn at this price the farmers find themselves stocked up with hogs that are worth \$4.25 per hundred. The farmers there will not make much money this year. We advise the farmers of Kansas who can get away to come to New Mexico.

Get it at the Red Cross. No trouble to show goods.

We have had considerable rain and some snow this week, but yesterday the clouds broke away and revealed the glories of New Mexico sunshine.

**Learn Telegraphy and Work for the Santa Fe Railroad  
Thirty Thousand Telegraph Operators Wanted**

There has never been such a demand for young men and women in any profession as there is today for Telegraph Operators and Railroad Agents. Thousands of miles of new railroads now being completed and congress having passed a bill requiring railroad companies not to work telegraph operators more than nine hours a day, which will necessitate making three shifts in every twenty-four hours, about THIRTY THOUSAND more telegraph operators will be needed March 4, 1908. Salaries have been increased and the chances for promotion were never better. Therefore, we have equipped a school at Portales and one at Roswell, New Mexico.

We have the main line Dispatcher's wire of the Santa Fe railroad cut into each of these schools, thereby, allowing each student to practice receiving from the main line, hence, when students leave these schools to accept positions they will be thoroughly acquainted with all duties which they have to perform. We guarantee every student a position when proficiency is attained. These positions will pay from \$50.00 to \$150.00 per month.

Do you wish to profit by this opportunity? If so, call and see us.

**Portales Public School Notes**  
By W. F. OSBORNE, Editor.

**FIRST GRADE.**

School interest in room No. 1 increases daily, in anticipation of Thanksgiving, with turkey, cake and pumpkin pie. May their fondest hopes be realized in this, as in all things that come in their lives is the wish of the teachers.

**THIRD GRADE.**

Mrs. Copeland was a pleasant caller on room 3 Friday evening.

Several new pupils have joined our ranks and are doing some good work.

Though the weather is unfavorable, yet the room is full of bright, smiling faces every morning.

May and Fay Lancaster are with us again, while Ben Stone and Leta Smith are still on the sick list. We hope to have them with us soon.

**FOURTH AND FIFTH GRADES.**

Herbert Hall and Hilary Looper have enrolled with us this week.

Althea Whitlatch and Blanche Osborne have been absent this week with bad colds.

Mesdames Looper and Copeland made us a short visit this week which we appreciate.

We are pleased to have Margaret Curtis with us again. She has been absent some time on account of sickness.

In order to encourage the pupils we are giving perfect tickets now to those who get one hundred per cent on their written work. We hope the parents will encourage the children along this line by giving them presents or a little spending money when they get tickets.

**SIXTH GRADE.**

The pupils are doing some very good work, especially in grammar.

We regret very much to give up Jim Hill, who has gone to Arkansas.

We are sorry to report several pupils absent this week and hope they will soon enter again.

**SEVENTH AND EIGHTH GRADES**

Joe Stone is slowly improving. Charles Bedgood is in school again, also Arthur Bedinger.

Several pupils were absent from school this week on account of sickness.

Hermenian literary society gave an interesting program Friday afternoon.

Mary Smith is able to be up most of the time. We will be glad to see her in school again.

Cold weather was a good stimulant. Most of the pupils used accelerated energy. School is usually best on cold days.

**HIGH SCHOOL.**

Andrew Miller was absent from school several days last week.

We regret very much to state that Reagan Connelly has been compelled to leave school. He was one of the brightest boys in school.

The pupils of the High school are very busy preparing a play, "The Yankee Detective," which is to be given at the court house as soon as possible. An admission fee is to be charged and with the money made, the pupils are going to purchase a compound microscope and books for the library. The citizens of Portales should help these boys and girls in every way that they can. The scheme of giving this play was not started in the faculty, as is

commonly the case, but it was originated by the pupils themselves. The pupils by their original action in this matter, have shown not only their deep interest in school work, but their true worth to the Portales public schools and to their community as a whole. The pupils of our school are not surpassed by those of any school in the territory. It is a genuine pleasure for us to work with them; they are the pride of your town; give them a chance and see the result of the "Yankee Detective."

**A Tersley Told Truth.**

Banks perform a great service to their depositors, to their borrowers and to their communities generally. To their depositors they offer a safe place for surplus cash and earnings; to their borrowers they offer a convenient means of obtaining mobile capital for quick use on fair terms, and to their respective communities they offer a market through which the accumulated small deposits of thousands of individuals are made available for safe and profitable investment in local enterprises of merit. A properly conducted bank regards itself as the trustee, first for its depositors, second for its borrowers, and third for its home community. — El Paso Herald.

That the above is absolutely true no reasonable man denies, only the ne'er-do-wells and the irresponsibles are making any noise over the actions of the various banks in protecting their depositors.

**Bazaar.**

The Presbyterian bazaar to be held at the Red Cross drug store early in December promises to be one of great beauty and a pleasure to all who may attend. Many beautiful articles for gifts are now on hand and many more are expected. Any one having a kindly feeling to the "Aid" are invited to contribute some article. Mrs. Russell will receive all donations at the manse. All manner of dainty and useful articles will be accepted.

MRS. T. C. WHITE, Secretary.

**Union Thanksgiving Services.**

The program will consist of a song service, prayer and short talks by the ministers in attendance. **Presbyterian Church.**

The following is an extract from a letter received from Mr. H. H. Meyers of Stuttgart, Ark.: "You would greatly oblige me if you would introduce Hunt's Lightning Oil at Milligeville, Ill., as I have many friends and relatives there, in whom I am much concerned, and I understand the Oil is not kept there. I can recommend it as the best medicine I ever had in my house. It cured me of a bad case of the bloody flux in less than one-half hour, and it cured my grand daughter of a bad case of cholera morbus in a very short time."

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babes. The wholesome green leaves and tender stems of a lung healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses, "the sacred herb," demand Dr. Shoop's. Take no other. Pearce & Dobbs.
