tered crops in its wake across South Castro County late Wednesday afternoon, playing havoc for he third time with crops on some farms in that area.

High winds blew down barns, outbuildings, and pushed combines around during the onslought. Some farmers were convinced a small twister was responsible for the damage.

In the Flagg area tremendous amounts of rain fell. From 3 to 4 inches were reported in some vicinities, falling in a matter of half an hour

Dimmitt received no rain and Hart received only a trace. The sterminating what they hail and rain started about three miles south of Dimmitt and moved Bill Baker.

HOW HIGH IS YOUR STANDARD OF LIVING?

Can you guess how many ways you put electricity to work?

One good measure of your standard of living is the number of ways electricity is working for you. The more things you let it do, the more likely you are to live well and comfortably and get the most out of life.

Many people don't realize how many different jobs electricity does for them-all over the house. Do you?

Make a guess - how many ways do you put electricity to work? You can check your guess against the list below to figure how many appliances you really have. If you guess within 5 of the actual total, you're very observant.

What's more, you have a good measure of what an outstanding value you get in your low-price electric service.

GET READY FOR **BIGGER CROPS** IN 1959 DOW

This year farm operators see conclusive proof that use of anhydrous ammonia produces substantially bigger crops. In areas where weather prevented timely application of Nitrogen, yields are down. Where Nitrogen was used, farmers who had check plots report highest returns on their investment in Nitrogen fer-

Get ready for next year's big crop. After milo harvest, apply Dow 82 ammonia. Milo stalks and roots provide the ideal organic material to help the fertilizer work best for you. Dow's 82% Nitrogen speeds decomposition of turned-under stalks; improves soil fertility. Dow 82 resists leaching. It stays in the ground, ready for use. Spring plantings get a healthier, quicker start, develop vigorous root systems that help prevent blowing soil.

any of you ever had any dealings ith cows . . . especially the milk-

I had just as little as possible as was scared stiff of any cow that would look me in the eye twice. My favorite distance from them was on the fence.

I remember whenever I had to nemorize any poetry or such, I would perch on the fence and reite it to the cows . . . no one else would listen.

I did have the chore of taking the cows off to pasture in the mornings and going after them in the afternoon or early evening This, I didn't mind too much as I knew the cows pretty well and . but any other they knew me . cows . . . wow' The fence for me

I never did have the chore of milking them. I guess my Dad gave up on me early in the game as, hard as I would try, I squeezed 'up" instead of "down" However, sometimes I could

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU DIFR ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whop-ping 22.38—of any full-size car. And here are more expert, impar-tial opinions and on-the-record facts backing us up on Chevy's other six bests:

BEST TRADE-IN

Check the figures in any N.A.D.A.* Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCARt, Chevro-let out-stopped both of the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as

BEST ROOM

Official dimensions reported to A.M.A.‡ make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the most wonderfully respectively gine available today at a
