DESEMONA

The "21" Study club met at the club house on Tuesday of last week and had the program on child welfare and safety. In the absence of the president and vice president, the secretary, Mrs. Scotty Lemaster, presided. During the business session, a check from Mrs. Mark H. Lovett, of Menard, for \$2.00 was given to club treasurer, Mrs. S. E. Snodgrass, the amount being the prize for second place in the year book contest for the 6th District Federation. The program committee reported that there would possibly be a chance of getting the Big Bend National Park motion pictures and it was decided to postpone the visit from the Gorman Excelsior club until the date for the pictures was decided. Roll call responses were names of noted hospitals for children. Mrs. John Arnold discussed "Driver and Pedestrian Responsibility" and Mrs. Lemaster talked on "Education, the Birthright of Every American." Mrs. Charles Lee who was leader of the program, conducted a round-table on "Inherent Rights of Children." The monthly "Time" quiz was led by Mrs. S. E. Snodgrass.

JAPAN'S FINISH

Sooner or later, as this vast war drags on, the time will come for the Big Push. Where will it come and who will lead it? The statesmen who have the strings in their hands are not telling and maybe do not know. But a news commentator makes an interesting guess.

The final drive for the downfall of Japan, he says, will come through China from the southwest, and the Chinese and Americans will be in the vanguard.

That would mean a vast army fully equipped, occupying an honorable place, presumably accompanied by our troops and British, Indians and other Allied Nations in irresistible power. A Russian column could probably press in from the Northwest, liberating Manchuria. The Japanese remaining in China would be driven into the East China Sea.

The retreating Japs would make their last stand in their island home. Perhaps the final scene would be a vast American war fleet pressing in from the Pacific, accompanied by an armada darkening the skies, together bringing destruction and death to the proud cities of Tokyo, Yokohama and Osaka. And that would be the end of Japan.

WORK AND PLAY

Many of us seem to forget that the basic working time of 40 hours a week is not an old American institution—that it is not necessarily sacred in itself, but its value depends on times and conditions.

It was adopted during the big depression as a means of spreading work, and has served a useful and humanitarian purpose. But the emergency that produced it is over. We are now in a situation where wages are liberal and where the nation needs every hour's work that can be obtained, to meet the greatest peril of our history.

Just how high hourly pay should rise for the technical overtime is another question. A six-day week is coming to be the rule, and labor is making some concessions in the matter of over-time pay. Still more might well be made. Basic pay should be liberal in such times, but workmen's pay like employers' profit, needs to be well tempered with patriotism.

STEAK AND TAROS?

How will you have your dashens? Boiled, mashed or home fried? In Florida they would know what you were talking about, but probably not elsewhere in the country.

The dashen is the new rival to the potato, and has for some time been known to travelers abroad as the taro. Common in the Pacific islands, the Mediterranean countries and parts of Latin America, it is especially common in Hawaii, where they have no less than 69 varieties. Now the department of agriculture is encouraging its development, partly, no doubt, in case there should be a potato shortage. But it is supposed to be an improvement on our old friend, being nourishing, economical and less starchy than the white potato. Also, from two to four times as many taros as potatoes will grow on the same amount of soil.

HALTING POPULATION

Our population is reaching its limit. The last census showed an addition of only 7 per cent, less than half that in the years from 1920 to 1930. Census officials and students of population trends think that in the future increases will be slower and slower, and that in 1980, well within the life-time of many of us, the growth of the nation will come to a standstill. Then we shall have 153 million people, as against nearly 132 million in 1940. After that, if there is any change at all, it will be a loss. We shall have fewer people. We shall also have older ones. People over 65 years increased in number 35 per cent between 1930 and 1940. They were then nearly 7 per

Metropolitan Grand Opera To Stress Spanish Theme

The glamour of old Spain, with gypsy scarfs and Castilian mantillas, will feature three of the five operas to be presented by the Metropolitan Opera Company in its fourth Dallas season in April. Raoul Jobin is seen, left, as Don Jose in Bizet's dramatic "Carmen," to be given April 17, and Jarmila Novotna, right, one of the Met's greatest beauties, is pictured as Donna Elvira in Mozart's humorous "Don Giovanni," April 18. "The Barber of Seville," with Sayao, Bacalloni and John Charles Thomas, April 18, evening, will also have a Spanish setting. Other operas of the season will be "Lucia di Lammermoor," with Lily Pons and Jan Peerce, April 19, and "Aida," with Roman, Castagna and Carron, April 19, matinee.

ROCKWELL BROS. & COMPANY

Authorities insist: CHANGE OIL FOR SPRING. And you can insist on this oil that outlasted five other big quality brands by far. Not one came nearer than 58% of its mileage!

DOWN where the desert slew gold-hunters —down where 100° heat is "cool"—down in Death Valley six cars streaked. All were alike... all ran till wrecked. All started with 5-quart fills of oil—locked in. All conditions were alike—certified. Five cars—five boasted brands of oil—went as dead as the cattle skulls in the sands, while the other oil still had quarts to go!

That was Conoco Nth motor oil, which can refill your crankcase today with the Nth degree of mileage and engine endurance. Changing from weakened Winter leftovers to Conoco Nth gives your engine OIL-PLATING for Spring. And OIL-PLATING is closely fastened all over inner engine parts as if "magnetized" against all draining back down to the crankcase. Bonded in place—even on straight-up surfaces—even overnight—OIL-PLATING can cut down the raw rubbing of precious parts during starting and running.

Societies Of "All Churches" Met Tuesday

The All-church fifth Tuesday social was held March 31 with the First Christian church council as hosts. The federation met in auditorium of the First Christian church with Mrs. W. W. Fewell, president, in charge. The meeting was opened by the group singing a hymn, "There's Sunshine In My Soul." Routine business followed and election of new officers was held. Those chosen were president, Mrs. W. W. Fewell; vice president, Mrs. Edward Lee; secretary, Mrs. Neil Lane.

The session closed with prayer, after which the meeting was turned over to the council of the First Christian church. Mrs. Jack Elkins, council president, took charge and presided during the remainder of the afternoon.

Mrs. J. R. Wright was presented in a splendid talk on "Ye Shall Be My Witnesses," using the words spoken by Jesus when he delivered the "Great Commission" to His followers as the basis for her address.

Miss Betty Slicker, young Cisco artist, played two piano numbers, after which the assembly was in-

ited to the dining room of the church for a social hour. The basement rooms were decorated with seasonal flowers and the auditorium held decorations of red buds. A lovely refreshment plate, consisting of sandwiches and cookies with punch was served to approximately 60 guests.

"Harvesters" Entertained In McNeely Home

The Easter season was emphasized in appointments and refreshments when Mrs. A. E. McNeely and Mrs. W. C. Clements entertained the Harvesters class of the First Baptist Sunday school for monthly social meeting in the McNeely home Monday evening. Mrs. Ray Judia, class president, was in charge. A splendid devotional was presented. It was voted to invite the Reapers class of East Cisco Baptist Sunday school to be guests of the Harvesters at their next business and social meeting.

The program of the evening was then presented. Misses Helen Hay and Robbie Jo McNeely sang vocal numbers, accompanied by Mrs. A. E. McNeely at the piano; Violin and piano duets, played by Mr. and Mrs. McNeely were also much enjoyed. Refreshments of sandwiches, shaped like Easter lilies, and dessert, resembling Easter baskets, were served with punch at the conclusion of the program.

FOR THE DURATION THE HOME, TOO, NEEDS

Streamlined Efficiency

Check Your Hot Water Service

One very practical and effective way all of us can help to win the war is not to waste time, materials or food. In streamlining your home so that no time will be wasted a modern gas automatic water heater can help. It supplies hot water when and where you need it to speed all the home's cleaning jobs along. Thus you are given the time you want for activities outside the home such as Red Cross Work. The cost is surprisingly little when measured by the benefits you'll enjoy. Investigate.
