SAN ANGELO MINISTER WILL PREACH SERIES OF SERMONS AT LOCAL CHURCH THIS WEEK

"The Church" will be the general subject of the series of sermons to be delivered this week on the lawn of First Methodist church, states the pastor, Rev. Leslie Seymour.

Rev. Fred Hamner, superintendent of the San Angelo district will bring these messages. He will arrive this afternoon and preach tonight at 8:30. The service this evening, by coincidence, marks the beginning of the union

ENSIGN SPEARS BACK ON SHIP AFTER INJURY

Mr. and Mrs. Alex Spears have had a recent letter from their son, Ensign Charles Spears, saying he had recovered from a broken leg and was back on his ship for duty again.

"Of course, there is so much one can't tell," said Mrs. Spears, but he did mention that he was constantly finding people he has known before, regardless of where he is stationed. Said some officers came aboard his ship some time ago for a little social contact and one of them was a Mr. Cook, a brother-in-law of Bill Wender, who had been in Cisco many times. Incidentally, many Ciscoans will remember Mr. Wender as the husband of the former, Mary Fee and a former Ciscoan.

Ensign Spears expressed the opinion that the government should give medals for special service to Texas A & M college and to the caterpillar tractor for their value to Uncle Sam's army—the college for its basic training and the tractor because it bears the brunt of all work wherever it goes.

law meetings for the summer sponsored by the Presbyterian, Christian and Methodist churches. Instead of holding regular morning services, Mr. Hamner will meet with selected official groups each day to discuss with them their relationship to the church.

Monday evening at 7 o'clock he will meet with the stewards for a banquet session.

Tuesday afternoon at 4 o'clock he will be guest speaker for the ladies of the church in the parlors.

A meeting of the Sunday school workers will be arranged later in the week and will also be for the young people.

The hour for the preaching service each evening will be 8:30. The series will continue until next Sunday night.

CISCO SCOUTS LEAVE WEDNESDAY FOR CAMP

However, members of troop 101 of the First Presbyterian church, Ernest Hittson, scoutmaster, will probably remain two weeks. Hittson stated, Hittson will be unable to go and F. B. Clappitt will be in charge the first week.

Scoutmaster for troop 49 of First Baptist church, will accompany his troop and will remain for the week. Scouts leaving Wednesday are:

CISCO'S CANNERY HAS A GOOD RECORD

The Cisco canning center, with Mrs. Jimmy Allen as instructor, has far exceeded the work being done over some parts of the state, according to a district supervisor of 30 counties, who visited Mrs. Allen last week.

Mrs. Allen said this supervisor announced the average for a county was about 1,200 cans per month, whereas the Cisco project has earned 2,654 cans since June 8. This is an average of 161 cans per day up to July 1.

The purpose of the center is to process the foods that need to be placed under pressure, Mrs. Allen said. These foods include greens, green and shell beans and peas and corn as the leading canned products. Tomatoes and tomato juices that do not require pressure processing are not canned at the center.

Some chickens have been processed, Mrs. Allen added.

Mrs. Allen gives some pointers to be observed in canning:

Use only foods that are clean, fresh and sound.

Sterilize all utensils with which foods come in contact.

Beware of containers with faulty seals.

Avoid delay between packing and processing.

Be accurate in time for processing and in controlling pressure.

Cool foods rapidly.

Leave canned foods at canning center for 48 hours.

WORKERS' CONFERENCE.

The monthly workers' conference of the Cisco association will meet with the East Cisco Baptist church Tuesday. The conference will open at 10 o'clock in the morning with an address by Rev. Roger D. Hebard. Then will come a diversified young people's program, with Mrs. Lester Brown in charge. At 11:30 there will be a sermon by Rev. Cooper Waters. The board meeting and WMU quarterly meeting will be held at 1:15, followed by a short business session and reports of local presidents and standing chairmen. At 3 p. m. Rev. Henry Weidon will deliver an inspirational address.

CLASS A MEN—When American ill or wounded soldiers, at hospital somewhere in Britain, are well enough to tow a class around the yard, as above, they're Class A men. Class D men are just able to walk. Class C men can hike five miles. Class B men must be able to jump and run. Men in Class A are ready and generally more than willing to return to war.

FREIGHTERS—Chinese coolies, packing enormous loads over Burma Road, stop for breathing spell. They rest packs on pogo sticks fastened to their harness. Loads consist of medical supplies, food and ammunition for soldiers on Salween front.

LANCE MILLER SAILED FROM FRISCO IN MAY

Lance Miller, 31, son of Mrs. R. H. Yeager of the Cottonwood section, who joined the Seabees December 22, 1942, is now somewhere in the south Pacific. He took ship at San Francisco on May 12.

Miller was born near Scranton and is a carpenter by trade. His wife, formerly Miss Odessa Pence and daughter of Mr. and Mrs. G. R. Pence, is in a business school at Amarillo. Miller's name has been added to the Daily Press subscription list.

AGNEW BROKE LEG WHEN A HORSE FELL

Rev. Mart Agnew, well known in Cisco, is in Graham Sanitarium, where he was taken Friday following an accident that broke two bones in his left leg just above the ankle, when a horse he was riding near Thornton Feed mill fell on him.

Mr. Agnew was said to be resting Saturday afternoon and expects to be taken home shortly.

Agnew was reared near Cisco of a pioneer ranching family. He has a ranch and is said to be an expert in training horses. He formerly operated a service station at different times in Cisco and now pastors some rural Baptist churches.

SPECIAL SERVICE FOR MEN WITH COLORS

Special services for men in the United States armed forces will be held at East Cisco Baptist church this morning, when the eighteen boys who have gone out from this church to fight their country's battles will be recognized.

Rev. Russell Dennis, pastor of the church, urges that relatives of these men be present at the services this morning.

The names of these service men are as follows: Claude Tucker, Marvin Ivie, Wilbourn Ivie, Berle Shirley, Robert Coats, L. P. Holdris, Ross Harris, Teddy Lee Harris, Arthur Green, Earl Baron, Clint Britain, Jr., Clayton Richardson, Tom Billy Smith, Danny Love, Carlos Medlen, Silas Clay and Raymond Evans.

UNION LAWN SERVICES BEGIN TONIGHT

The first of the weekly union services for the summer, sponsored by the Christian, Presbyterian and First Methodist churches, will be held on the lawn of the First Methodist church this evening at 8:30 o'clock.

Rev. Fred Hamner of San Angelo, who is to be here for the week for a series of services for the Methodist congregation, will preach at this opening service.

There will be good music and singing and the public is invited to attend these services.

POSTOFFICE CLOSED.

The Cisco postoffice will be closed all day Monday, July 5. However, mail will be placed in boxes and dispatched as usual, but no windows will be open during the day, said Postmaster L. H. McCrea. Postal employees will have this as their Independence Day holiday, he said.

CISCO JUNIOR COLLEGE.

The article in Friday's Daily Press regarding the second summer term of Cisco Junior college should have said the second term begins July 12 instead of July 6. A one-week holiday will be given between the ending of the first term and the beginning of the second.

BOB BACON PRISONER OF JAPS

Mrs. Ted Bacon, who had not heard from her son, Pte. Bobby T. Bacon, since before the fall of Corregidor, May 5, 1942, was overjoyed Friday when she opened a letter from the war department and learned that he was alive—a prisoner of the Japanese.

Private Bacon, 23, native Ciscoan and son of popular Ted Bacon, who died in 1941, entered the service of his country in January, 1940, choosing the Marine branch of Uncle Sam's forces. The young man graduated from Cisco high school in 1939 and will be remembered also as a member of the Fighting Lobos football team.

The Letter.

My Dear Mrs. Bacon:

A partial list of American prisoners of war in the Manila Bay area has just been received from the International Red Cross and contains the name of your son, Pte. Bobby T. Bacon of the U. S. Marine Corps, confirming the fact that he is alive and a prisoner of war.

The report failed to state place of internment, but you may communicate with him by mail at the following address: "Pte. Bobby T. Bacon, U. S. Marine Corps, interned in the Philippines, care Japanese Red Cross, Tokyo, Japan, Via New York, N. Y."

When further information is received regarding your son's welfare, the Prisoners of War Information Bureau, Washington, D. C., will communicate with you. Sincerely yours, C. P. Lancaster, Captain U. S. Marine Corps.

Sublett Also Alive.

Pte. Henry W. Sublett, 24, son of Mr. and Mrs. Elliott Sublett, route four, Cisco, is alive and is also a prisoner of the Japs, the parents were informed Friday. Sublett was in the same Marine detachment as Bobby Bacon and is, probably in the same internment camp, since the war department communication received by his parents was identical to that received by Mrs. Bacon. Private Sublett was born in Cisco, graduated from Cisco high school and was a member of the high school basketball team. This was the first word concerning him since before the capture of Corregidor, fourteen months ago, his mother stated Saturday.

PUMP PRIMERS PRODUCE NO NEW WATER.

As a sedative to numb the fear of public debt, the people have been told that no harm could result from the debt because the people merely owed it to themselves.

Harold G. Moulton, head of the Brookings Institution, has knocked the "pay it to yourself" myth to a cocked hat in a booklet entitled "The New Philosophy of Public Debt." He shows that those who pay taxes to support the debt are not identical with those who receive the interest on the debt or the government business which the debt makes possible.

While the people may owe the public debt to themselves, the man who is taxed to pay interest on the debt will not find that the tax collector will take his share if he does not pay his taxes to pay interest on a debt which he owes to himself.

Moulton blasts the idea that public debt can go on growing forever without doing any harm. His remarks show close financial and economic work of the government and to the National Resources Planning Board.

He makes it brutally clear that deficit spending and boundless public debt is a recipe for inflation, for debt repudiation, and that with a stable system of public finance in the United States and in other countries, the foundation stone for international reconstruction will rest on quicksand.

His analysis is just plain horse sense which must everybody understand until they were hypnotized with the sugar-coated "best prosperity could be brought about by printing the pump continuously with public funds." He does not try to prove that government debt is bad, but he does insist that it must be controlled.

The time will come when people of all the primings the pump will suck out of the water supply is exhausted. The earnings of the new war will be the only source of funds. These earnings must be used for reconstruction, for industry and production, water, roads, and other essential services.

NOT SO EASY.

Independence for the people of the world is not so easy as it is often made to appear. It is a long and hard struggle, and it is one that must be fought for every day. The people of the world must be prepared to fight for their freedom, and they must be prepared to die for it.

HOARDERS.

When it comes to the hoarding of grain, the people of the world are not so easy as they are often made to appear. It is a long and hard struggle, and it is one that must be fought for every day. The people of the world must be prepared to fight for their freedom, and they must be prepared to die for it.

LENINGRAD.

The bravest city in this war-shattered world continues to be Leningrad. How those Russians can take it. The famous capital built by Peter the Great and formerly called St. Petersburg, then Petrograd, still holds out after one of the greatest sieges in history.

Two years ago, in the German onslaught, when the people fought literally from street to street, house to house and room to room, and then burrowed underground, the great city was left a pile of wreckage and ashes. But somehow it has held out against capture, though completely shut off from the world by its besiegers.

FORMER CISCOAN HSU SUMMER QUEEN.

Mrs. Doris Elliott, daughter of Mr. and Mrs. Julian Hammond of Colorado City, was recently elected summer queen of Hardin-Simmons university. Mrs. Elliott is a second semester sophomore student and was a former student at the Abilene university.

She re-entered the school following the tragic death of her husband, Lt. Milton A. Elliott, and is majoring in home economics with a chemistry minor. She was a member of the Home Economics club and the Cowgirls while a

student there before her marriage in July, 1941.

Mrs. Elliott is a sister of Mrs. Ralph Glenn of Cisco and formerly lived here.

NEW RECRUITS NEEDED AT RED CROSS ROOMS.

Mrs. Austin Flint, co-chairman, stated Saturday that workers now helping in the surgical dressing room are very few. The task is important and must go on. The burden of the work is falling on the shoulders of a faithful few and as a result the quota is lagging.

There have been 10,000 2x2 and 5,400 4x4 bandages made thus far; 108 stitched abdominal bandages are to be made at once, for which workers are needed. They are the largest type of bandage required and it is important that they be finished right away. New recruits are needed immediately.

In a recent letter from a young soldier on the front, he stated that he couldn't imagine the women at home having to be urged to do this task when there is so much at stake.

The work room is open all day on Wednesdays and Thursdays of each week.

AUXILIARY MEETING IN BOSWORTH HOME.

Refreshments were passed to LoAnna Holder, Angeline Pence,

Margaret Bosworth, Laverne Dennis, Frances Dennis and Mrs. Bosworth.

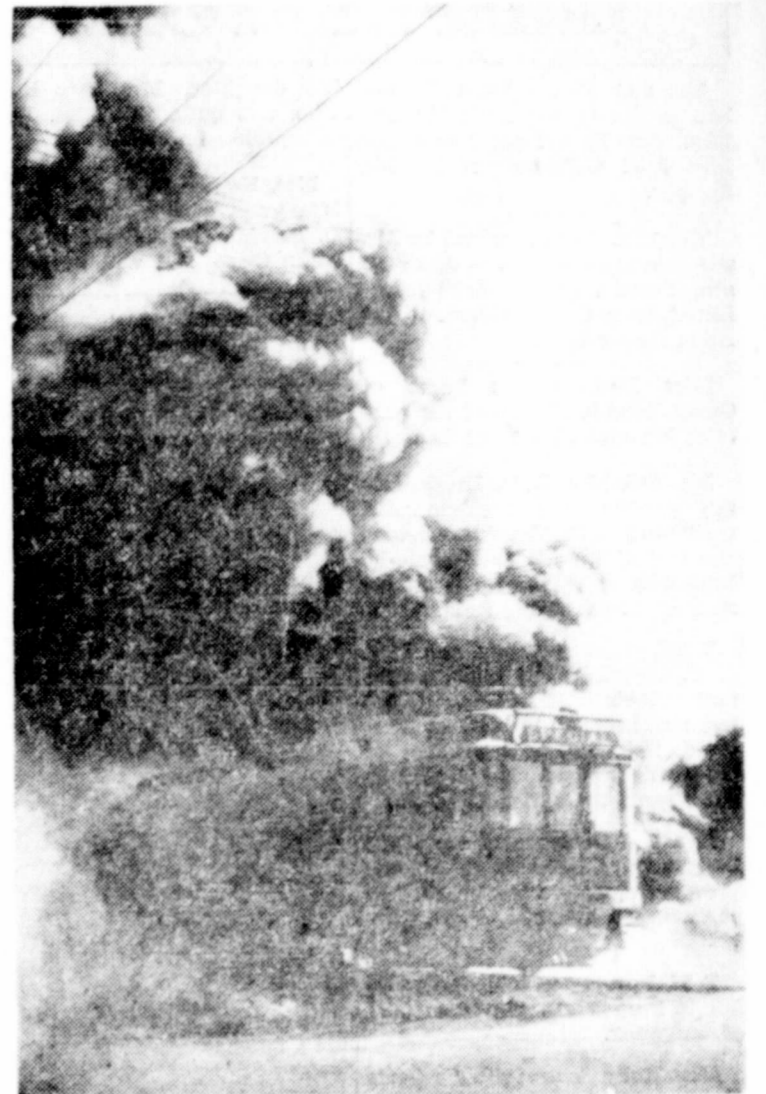

It seems unfair to pick a few heroes for decoration. Every man on Altu earned a medal for bravery.

Don't blame workers alone. Every official or big-shot civilian is striking in spirit if he lets his feelings interfere with duty.

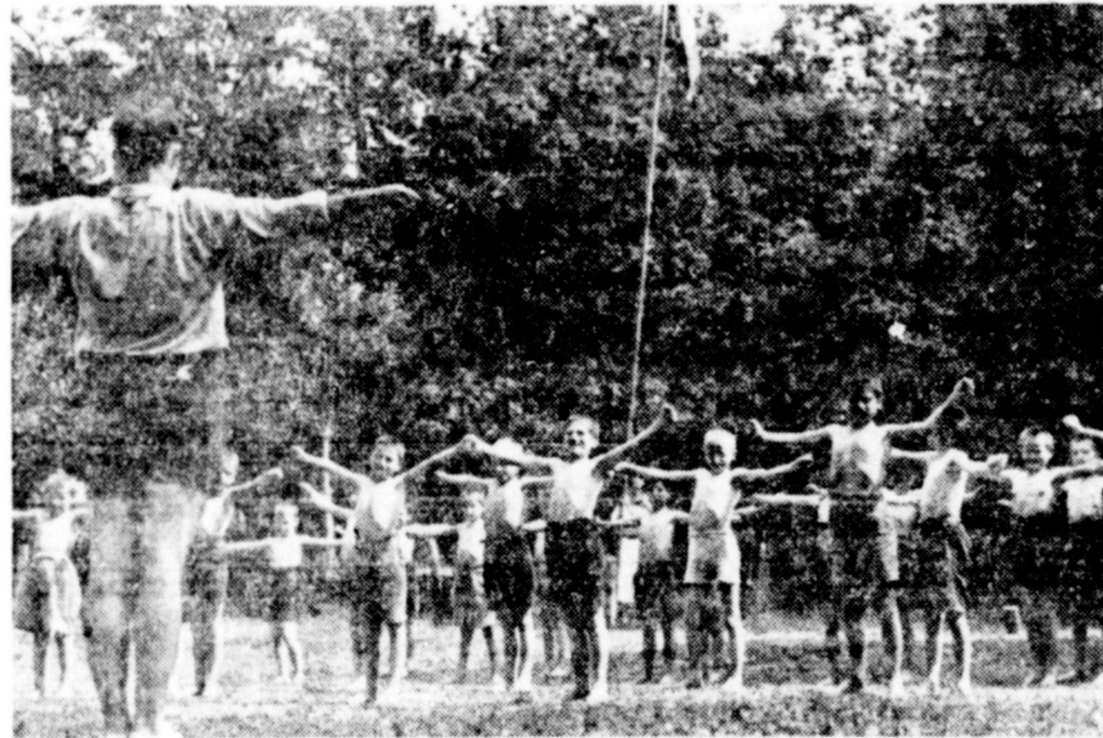

When a man tells you all about the war, you at least learn which one is his favorite commentator.

JUST MADE IT—Braving thick smoke and flame of oil sump fire in Los Angeles, motorman speeds his street car through inferno, to get his war-worker passengers to their vital jobs—on time. Not a passenger was harmed in any way.

SWISS GOOD WILL—With National Red Cross in charge, Swiss people are doing wonderful work by giving three months' vacation to 40,000 starving children of Europe. Above are Serbian boys from four to 14 years of age receiving physical training in the Italian-speaking canton of Ticino, Switzerland.

SACRED WARRIORS—With emblem of Greek "Sacred Brigade" on their chests and parachutist's insignia on their shoulders, these two bearded Greek warriors await in North Africa moment they can get at the Nazis on their homeland isle. They're eager to rout the invaders from Greece.

ENSIGN SPEARS BACK ON SHIP AFTER INJURY

Mr. and Mrs. Alex Spears have had a recent letter from their son, Ensign Charles Spears, saying he had recovered from a broken leg and was back on his ship for duty again.

"Of course, there is so much one can't tell," said Mrs. Spears, but he did mention that he was constantly finding people he has known before, regardless of where he is stationed. Said some officers came aboard his ship some time ago for a little social contact and one of them was a Mr. Cox, a brother-in-law of Bill Wender, who had been in Cisco many times. Incidentally, many Ciscoans will remember Mr. Wender as the husband of the former Mary Fee and a former Ciscoan.

CISCO'S CANNERY HAS A GOOD RECORD

The Cisco canning center, with Mrs. Jimmy Allen as instructor, has far exceeded the work being done over some parts of the state, according to a district supervisor of 30 counties, who visited Mrs. Allen last week.

Mrs. Allen said this supervisor announced the average for a county was about 1,200 cans per month, whereas the Cisco project has canned 2,858 cans since June 8. This is an average of 161 cans per day up to July 1.

The purpose of the center is to process the foods that need to be placed under pressure, Mrs. Allen said. These foods include greens, peas, and shell beans and peas and corn as the leading canned products. Tomatoes and tomato juices that do not require pressure processing are not canned at the center.

Some chickens have been processed, Mrs. Allen added. Mrs. Allen gives some pointers to be observed in canning: Use only foods that are clean, fresh and sound. Sterilize all utensils with which foods come in contact. Beware of containers with faulty seals. Avoid delay between packing and processing. Be accurate in time for processing and in controlling pressure. Cool foods rapidly. Leave canned foods at canning center for 48 hours.

WORKERS' CONFERENCE

The monthly workers' conference of the Cisco association will meet with the East Cisco Baptist church Tuesday. The conference will open at 10 o'clock in the morning with an address by Rev. Roger D. Hebard. Then will come a diversified young people's program, with Mrs. Lester Brown in charge. At 11:50 there will be a sermon by Rev. Cooper Waters. The board meeting and WMU quarterly meeting will be held at 1:15, followed by a short business session and reports of local presidents and standing chairmen. At 3 p. m. Rev. Henry Weldon will deliver an inspirational address.

CLASS A MEN—When American ill or wounded soldiers, at hospital somewhere in Britain, are well enough to tow a jeep around the yard, as above, they're Class A men. Class D men are just able to walk; Class C men can hike five miles. Class B men must be able to jump and run. Men in Class A are ready and generally more than willing to return to war.

FREIGHTERS—Chinese coolies, packing enormous loads over Burma Road, stop for breathing spell. They rest packs on pogo sticks fastened to their harness. Loads consist of medical supplies, food and ammunition for soldiers on Salween front.
