

The Lockney Beacon

VOLUME 13

LOCKNEY, FLOYD COUNTY, TEXAS, FRIDAY, OCT. 31, 1913

NUMBER 10

Commercial Club Holds Meeting

The Bachelor Boy's Commercial Club held an interesting meeting Tuesday night. There were fifteen members present, and the following business was transacted: The matter of securing a Lyceum course was taken up, and the Secretary was instructed to correspond with Lyceum Bureaus for this purpose.

Arrangements were made for a temporary meeting place, which will be at the W. O. W. hall.

Six new names were voted on for admittance to the Club. The club is adding new members at each weekly meeting, and much interest manifested in Commercial work by the young men of the town. Any unmarried men of good moral character are eligible to membership and are urged to join and help in this meritable work.

Claude Goen Announces.

In this issue of the Beacon will be found the announcement of A. C. Goen for sheriff and tax collector of Floyd county, subject to the action of the democratic primaries in July, 1914.

He is too well and favorably known to require any words of commendation from us. He is the present incumbent, and one of the very best officers in Texas.

Claude asks us to say for him that he does not come before you with a long string of promises. He asks to be re-elected, pledging a faithful and impartial enforcement of the law in the future as in the past.

His record is before you and it is good. After sizing up the situation we ask that you give his candidacy a fair and impartial consideration, and be governed by what you conceive to be the best interest of the county. Claude Goen is a good man, a splendid citizen and has made the county a faithful officer.

College Notes:

Brother Wallace's meeting in the Chapel grows with interest. Does every body realize the great opportunity is yours? How can we afford to miss such soul-stirring addresses? Still many are not attending. Let us be assured that if children are not taught to attend school and church, but allowed to attend places of worldly amusement, some day we will reap as we have sown.

We are expecting to add an expression teacher to our faculty about the first of next month. She comes to us well recommended and we feel sure that those desiring to take instructions of that kind will be well pleased.

Owing to our being very busy, doing heavy school work and attending church at night we shall write no more at present.

T. W. Croom.

The first Blizzard of the season struck the Plains country last Saturday night, and on Sunday morning a light snow covered the ground. A hare freeze and all vegetation was killed. This was the first killing freeze we have had this winter.

30 DAYS ONLY

Our Red Tag Sale will continue for 30 days longer. Our prices speak for themselves. Many buyers attending this sale for 40 miles around. You have seen no such reductions before.

OCTOBER 31th This Coupon must be voted within
Twenty days (20) from Issue.

B. F. SMITH, Publisher.

Jack Messer is carrying his arm in a sling, the result of a broken arm sustained by the belt on the silo cutter. The accident happened several days ago.

Sheriff A. C. Goen of Floydada was in the city yesterday on business, and incidentally called at the Beacon office and got a permit to run for office again in Floyd county—in the way of an official announcement.

Mexican Election A Failure

City of Mexico, Oct. 26.—At the close of the elections today the indications were that not sufficient votes had been cast in Mexico to constitute a legal election. President Huerta will remain in office.

A decree will be issued tomorrow by President Huerta, increasing the army from 85,000 to 150,000. Gen. Huerta proposed such an increase but the Congress which he dissolved limited him to 80,000.

W. B. Clark for Clerk.

Now comes before the people of Floyd county one W. B. Clark—one of the best officers of the county, and asks that he be retained in his present position. He announces subject to the will of the democratic voters at their next primary in July, 1914.

The subject of this sketch has served the county as clerk for several terms and has made for himself a record any man could be proud of. He has been punctual, courteous and faithful to the trust imposed in him.

While an editor should speak well of all men—especially a candidate—it affords us pleasure to say something nice of this candidate. His record is an open book read of all men; his qualifications are the equal of any man in the county and his faithfulness without question.

In conclusion, we ask that Mr. Clark's candidacy be given due consideration and at the proper give his claims that careful consideration it so richly deserves.

MABEL FARVER INJURED

Run Down by Automobile While on Her Way To School

Mabel Fawver, age 11 years, daughter of Mr. and Mrs. John Fawver, who live out near Seth Ward college, was run down by an automobile, which J. W. Pipkin was driving near the depot while en route to school Wednesday morning. The little girl, in company with other children, was en route to school when Mr. Pipkin came along in his auto, and it seems that as the car drew up the children divided to each side of the road and Mr. Pipkin turned to one side, the little girl, who was going the way he turned become confused, and turned back and was caught by the car before Mr. Pipkin could possibly bring it to a stop. She was carried to the Guyton sanitarium where she was given medical attention; it is thought she is hurt internally, although she rested exceedingly well Wednesday night, and it is hoped her injuries will prove to be only minor.—Plainview News.

Rev. Upton, pastor of the Methodist church failed to reach here for his appointment on account of a runaway accident at Tulia in which his wife received injuries.

L. A. Gunn left Monday for his place in the Brakes country.

Walter Campbell Again Leads Contest

Walter Campbell leads the the contest this week with a good safe majority. Ella Ratjen of Providence is second, with Josephine Nichols third. The voting has not been heavy this week, but a steady increase with leading candidates.

This is the fourth time Walter Campbell has lead contest. Which one of the girls will lead next week?

Have you tried that chilli at the Home Bakery. Phone 94.

WAREHOUSE LAW FEATURES CITED

Measure Will Become Effective In Texas on November Eighteenth.

Austin, Tex., Oct. 25.—Attention of bankers and warehouse men of Texas were today called by Commissioner of Insurance and Banking Collier to the act passed by the last legislature providing for a uniform warehouse receipt and providing that such receipts shall be negotiable in the same manner as checks and notes.

Commissioner Collier is of the opinion that the warehouse men are not aware of this law which becomes effective Nov. 18. This law provides that public warehouses shall be under the supervision of the commissioner of banking and insurance.

The commissioner has already prepared sample forms for use in handling cotton. Receipts are now being printed and will be ready for distribution to warehousemen within the next few days.

Sellers of cotton are required to testify whether or not the cotton store by them is mortgaged and making a false statement as to liens upon cotton stores is made a felony.

Exangelist Attacks Text Book.

Evangelist Ham in a meeting at Elgin, Texas, attacked one of the adopted text books in Texas, that of Physical Geography. The book adopts the Darwin theory that man evolved from an ape.

The evangelist then read from Genesis, "And God created man in his own image, in the image of God created He him, male and female created he them." He then added: "Now you mothers and fathers can understand why your children have so little respect for you and so little faith in God and the Bible. How can a child respect his ancestors when he has been taught that they are descendants of monkeys? How can he believe in God and the Bible when his school has taught him that it is absolutely false, fallacy and fiction."

Following the evangelist's remarks, Prof. Mallard, Superintendent of the Elgin Public schools, arose and said that book would not be taught in the schools there this year.

Will Hold Primary.

Dallas, October, 25.—The prohibition Democratic mass meeting voted late this afternoon to hold a statewide "elimination primary" for governor, on the fourth Saturday in March 1914. It was also agreed that county conventions should be held on the first Saturday in April, 1914, to elect delegates to the State convention in Dallas on the first Tuesday in April. The delegates at the Dallas meeting did not state their preference as to the candidate for governor.

Judge A. W. Walker of Dallas was selected as chairman of the state executive committee and he will appoint other committeemen, one from each district.

All doubt as to the temper of "prohibition elimination conference" here today was settled by the ovation accorded Cullen Thomas at the conclusion of an address to the 250 men gathered in Woodman hall.

"Lane, Mayes and I can settle this thing in an hour," he said. "I lay this thing you call ambition at your feet and invite them to come and do the same, then we can all go on to victory like the Crusaders of all," he said.

From indications at the morning session, there will be no alignment behind any candidate but the significance of the ovation given Thomas cannot be disregarded.

COUNTY SEAT ELECTION

Result of Fridays Election in Parmer County Give One Majority to Parmerton

Farwell, Tex., Oct. 30.—The unofficial count by the commissioners court today, giving Farwell 113 votes, Parmerton 114, in the county site election held Saturday, has brought the citizens face to face with a complex situation. The count as made today, was not recorded, and is not at this time deemed official. The result of the election is in great measure a matter of speculation.

The election was held to determine whether the court house should be removed from Farwell to Parmerton, champions of the latter town claiming the county site as it is located nearer the center of the county. The campaign was vigorously waged, the entire citizenship of Parmerton county manifesting deep interest which will remain at the highest pitch until the contest is finally decided.

THE UNDERGROUND SILO

Mr. Turner of Abernathy Tells How To Build It

In reply to a letter, asking Mr. J. M. Turner of Abernathy how he built and the cost of his underground silos, he submits the following information:

"I dug two small ones, three feet apart, so I could use the same derrick to lift the dirt. I first dug out a circle 8 x 8 inches and filled it with concrete to make a collar or foundation, having it 10 feet, 8 inches in the clear. Then I dug 22 feet and 4 inches deep, stopping on a rock.

Now as to the cost: the digging cost me \$62.00 for hired help, not including the work done by myself and son. I used 21 1-2 sacks of cement in making the collars and plastering the two silos. You can figure out this item.

"You ask for the good points in the silo: 1st. The main thing is to save a large quantity of feed that we have been letting go to waste, such as corn, kaffir, maize, and cane stalks. I find that the underground silo is a success in doing this, and is a good investment for the farmer.

W. L. Jewett, wife and sister, Mrs. McFall, of Silverton, were the guest of Mr. and Mrs. D. C. Lowe Saturday.

R. Sedgwick and wife of Silverton spent Saturday night the guests of Mr. and Mrs. D. C. Lowe.

Wonderful!

The New 1913 Saginaw
With the Patented
Angle Steel Rib

Last season's Saginaw Silo was pronounced utterly perfect by dairymen and stockmen all over the country. For 1913 it was wholly unnecessary to attempt improvement. Yet, despite this, we came out with this 1913 Model. The big feature of the 1913 is the **ANGLE STEEL RIB**. This ingenious invention adds about 50% to the life of a Silo. And that's wonderful, when you consider the Saginaw is already known to be the strongest and most durable Silo ever built.

Doing the "Impossible"

The Angle Steel Rib has done what other Silo makers only a year ago considered impossible. It has given you Dairymen and Stockmen a Silo which the heaviest wind storms and heavy SHAKES or FILLS. All because the Angle Steel Rib absolutely prevents any up-and-down slipping of the staves. Moreover, this surprising invention forever ends the remote possibility of your Silo being blown down.

This Angle Steel Rib is a Structural Steel Reinforcement, curved to the circle of the Silo. It is slidingly received in strong, malleable brackets which are securely attached to alternate staves. Each rib is free to move and adjust itself to any variation in the diameter of the Silo. Built on the same structural principle as the big "T" beams used in great steel frame buildings. One being reinforced the other. Think of what it means to have these trustworthy, unshakable Angle Steel Ribs protecting your Silo! To fully appreciate the patented Angle Steel Rib, you must get our new free Silo Book, which pictures and explains all.

Other Noted Features

The Saginaw was famous first as "The Silo With the All-Steel Door Frame." Then followed the Saginaw Lower Anchoring Rings. Next came the celebrated Saginaw Shoe Anchor. And now comes the Angle Steel Rib—the most astounding feature of all.

The McCLURE COMPANY

Saginaw, Mich. Des Moines, Iowa. Minnesota Transfer, Minn. Cairo, Ill. Ft. Worth, Texas.

WILL McGEHEE

5 Big Factories

The Saginaw is far the most popular Silo on the market. Five mammoth Silo factories have had to be built. Last season we received orders for 167 Silos in a single day.

Strong as a Skyscraper

The Saginaw Silo, with its special frame, stands as strong as a modern city skyscraper. It cannot blow down; it cannot twist; it cannot warp; it cannot collapse; it cannot shift on its foundation. Like a Giant Oak, it is rooted to the ground by the Saginaw Anchoring System.

Bright, Clean Silage

No rank, sour silage ever comes out of a Saginaw. It is sweet and pure clear to the edges, right next to the walls. Animals love the enticing flavor and thrive wonderfully on the rich, succulent food. Don't get a Silo that spoils silage.

Get Latest Silo Book

Our latest Book on Silos is about ready for mailing. It not only fully describes the 1913 Saginaw, but also contains a wealth of information on Silo Building and Silage. Don't miss getting it. Write for it—now! Come in and get your book and we'll talk it over.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst.

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for special instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. J-46

INDUSTRIAL CONGRESS FAVORS COST SYSTEM.

Blanks Mailed to Eleven Thousand Texas Farmers Suggest Ways to Find Out Profite.

The Texas Industrial Congress has just mailed to each of its 11,000 contestants a blank form upon which a full report is to be made of the prize crop yields and all items of cost, including rent of land (charge is to be made therefor whether the land is owned by contestant or not), cost of breaking land, preparing seed bed, seed, planting, replanting, thinning, each cultivation,

commercial fertilizer and animal manure and cost of applying same, gathering weighing, etc., and all other items. The man-labor is to be charged at 10 cents per hour and the horse-labor at 5 cents per hour in each case; and in computing the credits the corn will be counted at 80 cents per bushel, the cotton at 12 cents per pound, cowpeas at \$20 per ton, and kaffir and milo at \$20 per ton. By requiring every contestant to charge himself \$5 per acre for the land used and counting everyone's corn, cotton, cowpeas and forage at the same rate, all contestants are placed on an equality. The statement closes with a certificate on honor by the contestants as to yields and cost.

Teaching the young farmers of the state how to use a cost system is not the least important of the various lessons which the Texas Industrial Congress gives in its course of instruction; and it is as important and just as possible for the farmer, by taking the necessary time and trouble, to keep books on his crops and live stock, to know where he stands financially, as it is for the banker and merchant to know where they stand.

J. B. Nance, land man of Plainview handles non-resident lands in Floyd and Hale Counties. Address Plainview, Texas. 10-4 w p.

Notice—Houses and land for rent. See R. C. Bennett, Lockney, Texas. 7-tf

RELIGIOUS DISCUSSION

Debate to Be Held at Memphis Between Leading Elders of the Christian Church.

Memphis, Tex., Oct. 21.—There will be a religious debate here on November 3rd, between Elder A. W. Young of the Church of Christ of Gainesville, Texas, and Elder D. A. Leak, pastor of the Progressive Christian church of this place.

Elder Young will affirm that instrumental music in Religious worship is contrary to the teachings of the word of God.

These two gentlemen are among the very strongest debaters of their respective churches, and each has a state-wide reputation, therefore a most interesting and thorough discussion is looked for.

Both debaters are christian gentlemen and the discussion will doubtless be carried on in the same christian spirit as that shown in the Tulia debate in which Elder Young recently represented his church.

Great interest is already being manifested here, and some enthusiastic boosters expect 200 visitors from outside points.

The debate will be held in the opera house which can be prepared to furnish seats for about 1,000 people.

We have blanks for interest remittances. Bring your old interest receipts to us and we will send off your interest free of charge.

Lockney State Bank.

HAVE GOOD CLAIM TO NAME

Kew Gardens in England Have Long Been Celebrated as Among the World's Finest.

The pre-eminence of Kew gardens in the botanical world dates from 1773. In the preceding year George III. was induced to send one of the gardeners to the Cape of Good Hope, providing his expenses do not exceed \$1,000 a year, and he brought back 400 species of new plants. This collection being entirely new to Europe, placed the gardens at Kew above all those on the continent. Similar expeditions were sent out at the expense of the government to India, China, Brazil, Fiji, Australia and the Philippines. Before the close of the eighteenth century Kew gardens were generally admitted to possess the finest variety of plants in Europe. Till then this distinction was claimed both by the Paris Jardin des Plantes and the Upsala Botanic gardens.

Kew gardens had one sight a century ago which cannot be paralleled in modern London. Sir Richard Phillips, after a visit in 1816, tells how, "as I quitted the lane, I beheld on my left the long boundary wall of Kew gardens; on which a disabled sailor had drawn in chalk the offigies of the whole British navy, and over each representation appears the name of the vessel and the number of her guns. He has in this way depicted about 800 vessels, each five or six feet long, and extending, with intervening distances, above a mile and a half. As the labor of one man, the whole is an extraordinary performance, and I am told the decrepit draughtsman receives a competency from passing travelers."—London Chronicle.

AND THEY SIT IN JUDGMENT

Critics, if They Did But Know It, Do Not Always Cover Themselves With Glory.

The average critic who sits in judgment and catalogues faults and frailties of those who come his way is about as well equipped for the position as a woman who was overheard talking to another at a table in a downtown refectory last week. A third woman had just left the two rather hurriedly, excusing herself to keep an appointment, and as she took her leave she laughingly remarked to one of the others:

"Since you are dieting, Mary, I shan't ask you over to luncheon, so just come over some day soon and watch mother and me eat."

When she was out of hearing the stout woman whose dieting had been the cause of the odd invitation said with an air of pity:

"What a shame it is she has so little culture. She has a perfect genius for sewing, but she certainly isn't on speaking terms with the English grammar. Did you hear her say 'Watch mother and me eat?'"

And the other woman shook her head vaguely at the thought of such an impossible error, for neither of them knew how to analyze a sentence.—Kansas City Star.

AFTER HIS SACRIFICE.

"I gave up smoking to please her."

"Good."

"And drinking?"

"Well?"

"Now she says she finds me very uninteresting."

GRATUITOUS ADVICE.

"There are a great many people in this world who don't know what's good for them."

"That's true, but if they will only wait a while somebody will come along and tell them what's good for them."

THE HABIT.

"The fellow fixing your lawn is a regular grafter."

"I know it. He even gets a rake-off on the dead leaves."

A LAMENT.

First Actor—It is a great pity.

Second Ditto—What is?

First Actor—That we can't eat our roasts.

J. S. Dickey President,
T. F. Casey, Secretary,

J. B. DOWNS,

The land man requests when you are in town to come to see him in the First National Bank building. I have the best trading list in West Texas. No deal too large

or me to handle. None too small to merit my best attention. Submit a proposition that will bear inspection. I have land in any county of the state to exchange for Plains land. The real estate business should be better now than it has ever been before. There many dissatisfied land owners on account of the drought which has covered the largest portion of the United States, which will tend to make many changes. As I am carrying on extensive advertising of Floyd county lands, I will ask all that have land listed with me to come in and we will go over and

perfect same, so there will be no mistake when the buyers come. If you have a house to rent, or want to rent one, come in and see me. I render and pay taxes on non-resident land. I have several good bricks, clear of debt, to trade for Plains land. Thanking you one and all for past favors, I am yours for business,

J. B. DOWNS

President Woodrow Wilson attended the International Commercial Congress at Atlanta, Ga. this week. As soon as he crossed the Mason and Dixon line he was greeted by thousands enthusiastic supporters. President Wilson is loved by the people of the South and his policies respected by the entire nation.

Mexico has held her election and the same was declared null void by the usurper of that unfortunate country. Huerta still remains dictator and the revolution continues. Just what will be the ultimate outcome of the Mexican situation is hard to tell. There is not the slightest probability that the Mexicans will ever solve the question themselves, and foreign intervention is only a question of time.

It is said that Editor Elliott of the Hereford Brand is requiring candidates to write their own announcements. Rather a new departure. However, Friend Elliott may be actuated by the old saw, "That he that tootheth not his own horn, etc." Or is it that he has allowed his conscience to get the best of him? Our conscience never bothers us when it comes to writing up candidates, for we always find them good men—until they announce for office.

Another woman, this time of Fort Worth, has been tried upon the charge of killing her husband, and set free. The woman did not deny killing hubby, but the court saw no crime in the offense. Our files show that fifteen Texas women have killed their husbands the past year, and every one of the killers have been set free. If husbands become troublesome, or fails to keep his conduct above reproach, wife slay him without any fear of the law.

Under the circumstances it seems to us that every woman who has a husband or expects to indulge in such luxury, ought to come to grand old Texas, if she isn't already here. An Oklahoma woman who killed her husband did not fare so well. She killed her husband alright, but his blood ruined her fine Persian rug. Texas husbands always fall where their blood will not damage anything. —Honey Grove Signal.

The meeting at Dallas last Saturday by representative prohibitionists to select a candidate for governor, resulted in calling primary conventions in March. Each county is to select delegates to a state convention to be held in Dallas later. Only one candidate for governor was present—Cullen F. Thomas, Lane and Mayes declining to take part in the meeting. These conventions seem to be a resort to the old convention system, whereby a few politicians selects the nominees. Will Texas democrats stand for this resort to the old convention plan?

There are going to be more men seeking office in Texas next year than ever known before. Even at this early date there are five men wanting to be governor, and so on down the line. The political waters are being muddied so thoroughly that politicians are appearing on the surface in great schools. The voice of the people they have all heard—whether it be the genuine vox pupuli or the result of a nightmare. Political Moses are being born in Texas at the ratio of 16 to 1—sixteen every minute. It is a burning shame that there are not more offices to be filled in Texas!

Henry Smith of Flomot country, 16 years old and son of H. L. Smith picked 606 pounds of cotton in one day the latter part of last week. This is surely a record breaking record. When one picks 600 pounds of cotton in one day in this country of small weed he is going some.

The Beacon for the news.

Students can enter at any time. Now is the time to have your tailored suits made, or make your own suits in the school. See

MRS. D. J. THOMAS

For County Treasurer.

In this issue of the Lockney Beacon appears the announcement of Mrs. Ada Ada Thogard for treasurer of Floyd County subject to the action of the democratic primaries in July, 1914. Mrs. Thogard was appointed by the commissioner Court to fill out the unexpired term of her husband, C. W. Thogard, which vacancy was caused by the latter's death. In the capacity of treasurer she has served the county faithfully, and now understands thoroughly the details of the office. If related she can render the people even better service, and without the work of a deputy.

Mrs. Thogard is a worthy lady, and according to all democratic usages, she is entitled to further consideration in next year's primaries as a reward of faithful services rendered.

There is nothing further we could say in the premises. We trust that at the proper time her claims will be weighed carefully, and her candidacy receive that consideration it so richly deserves.

For County Clerk

In another column will be found the announcement of T. W. Deen for District and County clerk of Floyd county subject to, action of democratic primaries in July, 1914.

Mr. Deen is too well and favorably know to need an introduction, but for the benefit of those who have more recently moved into the county will say he has been a citizen of Floyd county 13 years. He served the county 4 years as treasurer, and has filled various official positions in the county such as deputy tax collection and tax assessor and is at present deputy treasurer.

Mr. Deen is a splendid man, and ably qualified for the position of clerk. He is a staunch democrat and believes in the majority rule. Should there be more than two candidates in the field, he favors a second primary to decide who shall be the choice of the people. He says that if elected he will be the clerk of all the people and will know no section or faction when it comes to discharging his official duties. We cheerful recommend a careful consideration of his candidacy at the proper time, believing that if elected our records will be in competent hands.

30 Days

30 DAYS

30 Days

As it is impossible for us to carry over an account this time, so, beginning Nov. 1st, we will sell only for cash, or 30 days. It will depend to a great extent about us extending a line of credit after Jan. 1st, 1914, as to how you settle your present account. We would like to be able to extend to you fall dating again this time, but cannot do so now. So if you cannot pay in thirty days please do not ask for credit. Your business has been highly appreciated by us, and we have nothing but the kindest regards for you and hope to have a continuation of your business, but circumstances force us to adopt this plan. We will make our cash prices very attractive, and can save you money on nearly everything you buy from us. On our implements, wagons and buggies we will make no change but will sell you on fall dating as before. Come in and let us show you what the CASH will do

:-: E. P. THOMPSON & SON :-:

Pen Picture of Our Next Governor

J. H. Lowery, one of the great level-headed editors of Texas, gives the following pen picture of Will H. Mayes, candidate for governor: "Speaking from an acquaintance of nearly twenty years the writer gives this as his picture of Will H. Mayes: A man of small stature, large brain, rather homely features, rich in energy, careful, yet progressive in business, sound in judgment, courteous always yet firm in purpose, quiet and rather timid, a despiser of spotlight and gallery-playing methods, a prohibitionist who always votes the ticket and never drinks intoxicants, a christian gentleman who goes to church every Sunday, supports the church's enterprise and lives righteously all the week. In our opinion Will H. Mayes, as Governor of Texas, would take to the chief executive's office a dignity, poise, ability, energy, fairness and patriotic impulse that would quiet disturbed conditions and conduce to the peace and prosperity of the people and to the development of the States many interests."

Bert Humphries has been arrested and jailed charged with robbing the Seminole Bank in 1912. Humphries was arrested in Brewster county near the Rio Grande.

Why Meat Keeps Going up.

Dixon E. Washington, builder of packing houses in America and Europe, speaking of the advance of meats and its causes says:

"The enormous freight bills attendant to shipping both the stock and the finished product; the shrinkage in the stock; the mortality; condemnations of stock and meat by government inspectors; and the enormous overhead charges that it requires to conduct a modern packing plant. The packers must stand all these losses, and the finished product must absorb it.

"One way to decrease the price of meat is to have Government supervision of the raising of stock. At present the Government supervises only the stock yards and the packing houses, causing the packers to stand all the loss on condemned stock. When a farmer sees his stock is touched by some malady he rushes it off to market. The packer buys it, it is condemned, and the price of edible meat goes up another notch, to cover the loss. If the farmer knew that he had to stand the loss better care would be taken of stock.

"The time will come when the stock raising country will be dotted with small packing houses instead of having a few big ones. If the packer do not adopt the plan, the stockmen will. It is another way that meat prices can be reduced.

The Beacon for the news.

Opticism.

The writer is a natural born optimist, and view things in a favorable light. Right now we are very optimistic as to the future of this section. Prospects for business for 1914 is flattering. Never before in the history of the Plains country has there been such seasons; there has never been as fat cattle; the winter wheat is more promising than at any previous dates.

The price of cotton and other farm products is adding to the wealth of this section, and will make the financial situation comparatively easy for another year.

There is not the slightest cause for a pessimistic outlook for the future. Floyd county is in better shape than it has been for years.

Good Paint.

is cheap; and Devoe is not the only good paint; it is one of a dozen; and, very likely, the only one in your town—there are hundreds of middling and bad.

You can see what chance there is of another good one there: perhaps one in ten at the most.

Bad paint is dearest; middling is dear: costs 2 or three times as much as the best.

No matter about the cost a gallon; that isn't it; the cost a square foot; the cost a job; better yet, the cost a year.

There's a whole education in paint in this advertisement.

J. H. Gruver sells it.

DON'T LET YOUR LIVER GET LAZY

Dodson's Liver Tone Will Keep It Working and Make You Feel Well and Clean--No Bad After-Effects

If you have allowed your fear of calomel to keep you from toning up your liver when it gets a little sluggish and lazy—try Dodson's Liver tone, and note how quickly and harmlessly it starts the liver and relieves constipation and bilious attacks.

When you take Dodson's Liver Tone, you do not have to stay in the house all day. None of the weakening and harmful after effects of calomel follow its use. Dodson's Liver Tone is a mild, pleasant vegetable liquid that cannot hurt either children or grown people. Yet it easily overcomes the most stubborn and inactive liver without making you quit eating or working.

These are not just claims. The Red Cross Pharmacy backs up everyone of these statements and agrees to refund the price of Dodson's Liver Tone with a smile to any person who pays his 50 cents for a bottle and isn't satisfied that he got his money's worth.

Imitations of Dodson's Liver Tone are another proof that it is a good thing. Nobody ever imitated a poor remedy. Be sure you get the genuine Dodson's Liver Tone—the kind that is guaranteed.

After Coddling Moth.

The coddling moth has destroyed a great deal of fruit on the Plains, and those this year who did not spray their orchard lost all their fruit. The Chamber of Commerce of Plainview has taken up the fight against the moth, and will bring a government expert into the country to fight the pest.

The Herald says in speaking of the matter:

About three years ago the practice of shipping in large quantities of "fallen" apples from the Pecos Valley seems to have become general. At that time there were practically no worms in Hale County orchards. Col. R. Smyth, whose orchard is just north of the Santa Fe rail, road, suffered first. The next year other orchards nearby became infested. And the pest is spreading.

The coddling moth travels at the rate of about five miles a year. In many of the North-western States the worm threatened to destroy fruit growing as a profitable industry. Determined action against the introduction of insected fruit and systematic spraying have rid many of these states of the pest.

A gentleman in Hale County dug 322 pounds of potatoes from a row 151 feet long or 516 bushels to the acre. His potatoes were irrigated.

\$350 Piano Given Away \$350
F R E E

Big Voting Contest to start with Lockney Beacon Sept. 1st, 1913
The Contest will start Sept. 1st and close Dec. 24th. A handsome \$350 Leyhe Piano will be given to the Lady, Girl, Church or Lodge in Floyd, Briscoe, Motley and Hale counties that receives the greatest number of votes.

The Plan

With every \$1.00 paid to the Beacon on subscription, either new, renewals or old subscribers, we will give 500 votes. In addition to votes given on subscription, there will appear in every issue of the Beacon, from Sept. 1st to close of contest, a free coupon, which will count ten votes when clipped out and mailed to this office. There will be established at the Beacon office a ballot box, which will be locked and key turned over to the Lockney State Bank, and will not be opened until the day of closing of contest. When contest is closed the ballot box will be turned over to three judges, to be selected, and votes counted and piano awarded. Will keep a register of votes as polled, and a list of contestants and their standing will be published weekly.

Call and see the instrument at J. R. Fox Confectionery. There is no red tape to the contest. Any lady or girl can contest for the piano. No votes can be obtained in other way save the plan above---votes in paper and subscription. Fill out the nominating blank and send to the Beacon office.

Lockney, Texas, 1913

CANADIAN PRICE UP AFTER U. S. GETS NEW TARIFF

Price of Alberta Steers Raised from \$6 to \$6.50 a Hundred; First Shipment To Chicago.

Three hundred and forty steers and 125 heifers, of an average weight of 1,582 pounds, constituted the first shipment of live stock from the Providence of Alberta to Chicago since the removal of the 25 per cent duty against the importation into the United States from Canada, says an Edmonton, Canada, dispatch to the Chicago Tribune.

Figures on a basis of \$8.50, or 25 cents a hundred pound less than the top quotation in Chicago, the cattle will bring more than \$50,000, or an average of \$114 a head. Twenty-four hours after the tariff law became effective the price of steers in Edmonton, Calgary, and other live stock centers in Alberta, was raised by local buyers from \$6 a hundred to \$6.50.

W. F. Stevens, of Edmonton, provincial live stock commissioner, for Alberta, said the removal of the American duty against Canadian cattle is already having its effect in the province, and decidedly to the benefit of stock raisers.

The Texas Hen.

The Texas Hen is the queen of the barnyard. Her cackle sounds as musical to the farmer as the clink of gold dollars, and her flesh is the daintiest of food. We ship live and dressed poultry to the Northern and Eastern markets and give the Nation its Sunday dinner.

The hen is a good patron of mechanics, science and art, and is further advanced in civilization than any other animal. She is a splendid advertiser, a good moneymaker and she uses so many labor-saving devices that she lives a life of ease and luxury. The incubator relieves her of the necessity of hatching her young; her nest is built by master workmen; glass eggs take the place of the home-made product for decoy purposes and she roosts on automobiles. She is progressive, happy and prosperous, and merrily sings as she lays 5,000,000 eggs per day.

The egg is the only animal product that is good for food and will reproduce its species. It is the only product known to creation that has a dual commercial value and it finds its way to every table on the globe.

The poultry business in Texas has reached mammoth proportions. During the past year the total production, including eggs and young poultry, approximated \$21,000,000. The egg output alone was worth \$18,000,000.

Notice.

The public school is one of the greatest factors in our country, when reinforced by good, wholesome, reliable newspaper, it gives the American child a practical education. Without the aid of newspapers the public school can not give a boy or girl that degree of general intelligence that you wish your children to have. You can get The Lockney Beacon and The Dallas Semi-Weekly Farm News for one year, three papers a week, for \$1.80.

A 100 Per Cent Treatment

In this age of scientific advancements the general public is beginning to realize that there should be changes, advancements and improvements in the methods of treating diseases. The public no longer asks a doctor what school or college he is a graduate of, but they ask him and his patients to show what diseases he has cured.

The sick and the afflicted are beginning to demand that a cure be found for every disease, and even every case. It is reported in the Scriptures that Christ "Healed them all." So it seems that all the science of medicine, surgery and the less comprehensive methods of physicians of the Twentieth Century have not yet learned as much as was known by the man who lived in Galilee 2,000 years ago, and did not claim to know anything, except the relation of man to man, and of man to his creator.

The Weltmer School and Sanitarium of Nevada, Missouri was founded by Prof. Sidney A. Weltmer, and altho Prof. Weltmer and his faculty of healers, who have been associated with him in his work for 15 years, do not lay any claim to divine powers, yet they have developed from the teachings of Jesus Christ regarding the healing of the sick a very thorough, systematic and scientific method of mental treatment which in sixteen years has accomplished the healing of thousand who have been unable to find relief else where.

The Weltmer Sanitarium is well equipped. They have evolved a plan of treatment based on Prof. Weltmer's ideas in which all methods of treatment are combined, and which have proved to be often helpful and never hurtful, and the patient gets the benefits of Massage, manipulation, electric treatment and all manner of baths and exercises which have been worked out and found to be beneficial.

We give below the statement of a woman in our own country who was cured of nervous and vital depletion caused by valvular heart trouble and has enjoyed perfect health for five years and who has received many incidental benefits from the services of the Weltmer Institute.

"On January 24th, 1908, I went to Prof. S. A. Weltmer's Institute at Nevada, Mo., not knowing but a very little about his method of healing, but had been under the care of the best doctor in Okla. for 12 months, but he did not seem to do me any good. So my husband decided to send me to the Weltmer Institute for treatment. I went and took treatment just four weeks and came home feeling very much better. My husband was so well pleased with the treatments that he sent me back again on May the 20th and I took four weeks of treatment and came home well and strong. I now do all my housework for a family of six- and you may know what a farmer's wife has to do, but I never enjoyed better health in my life, in fact perfect health.

MRS. NORA O'BRIANT
Plainview, Texas.
