Rev. Y. F. Walker, Rev. E. D. Morgan and wife, Mrs. A. R. Meador and Mary Nell Meador and Mr. and Mrs. H. R. Wilson from Lockney attended the Wayland College rally at Plainview last Thursday and Friday.

It was a good enthusiastic meeting looking toward the building of the Kingdom in the Panhandle-Plains section. All speeches headed up in boosting Wayland College. Many of the churches reported that they had put the college in their budgets and would contribute monthly to the current expenses of the college. Dr. J. L. Nunn of Amarillo, an enthusiastic trustee who has helped the college much financially in the past, promised \$5000 on endowment every time \$20,000.00 was raised and would go up to \$25,000 on that proposition. The trustees voted to launch an effort to raise \$250,000 endowment and secure Dr. Nunn's proposition. A section of land already owned by the college will be sold for \$13,000 and become a part of this endowment. A new day is on for this Junior College and a fine spirit is manifested in the faculty and student body.

WAY CLEARED TO PUSH DRIVERS' LICENSE BILL

Austin, Jan. 22.—Apparently the proposed law requiring motor vehicle drivers to obtain a state license will have little opposition in the Forty-first Legislature. This was made evident at Monday night's conference on the highway problem when Senator A. J. Wirtz of Seguin and Representative Leonard Tilletson of Sealy reported that highway committees of both Houses are in thorough agreement on the bill introduced by Wirtz and Senator Walter C. Woodward of Coleman.

Both Wirtz and Tilletson told the large assembly of legislators that the principal features of the bill are acceptable, but a few changes may be made as to minor details.

This bill, in requiring a driver's

license, throws around motor traffic many restrictions to restore safety on the highways. Among its provisions are those declaring a driver must be at least 16 years old, that anyone driving while intoxicated will be deprived of his permit, that issuance of permits will be in charge of the Highway Commission, that reckless driving will subject a person to loss of his license and that one guilty of negligent homicide also must surrender his ticket. There are at least 20 safety restrictions.

To Prosecute Drivers

Woodward has another measure seeking to facilitate prosecution of drivers of cars from other states who violate the Texas traffic laws. Under this bill the State Commission will be authorized to obtain service on a driver who has fled the state by processing him where he resides.

At Monday night's conference it was announced by Senator John Hornsby of Austin, chairman of the Committee on Constitutional Amendments, that Jesse Jones of Houston desires to be heard upon the state bond issue proposition, and that he would postpone a committee hearing until Wednesday so that he could be here. He did not say what Jones' attitude is.

Highway and motor traffic committees of both houses will hold separate meetings during the week to discuss the many angled highways and financial problem, after which they will confer jointly again. The Tilletson bills on highways are the only ones presented that give a concrete plan, although there are some others that take up only reduction of the registration fees.

Fee Cut Proponents Cool

No denial is made of the fact that legislators are not as enthusiastic as during last summer's campaign to reduce the registration fee. While bills are calling for such decrease there are certain interests in Austin who are going among members daily warning that a reduction will curtail finances, and besides the campaign is over.

Owners of truck lines have representatives here opposing taxation. For two years the truck people refused to stand for state regulation and complain now that a gross receipts tax will ruin their business. But owners are not in such bad shape, but

have agreed to and obeyed all regulations. While their state opposition a few months ago voluntarily proposed a 2 per cent gross receipts tax, they are now lined up against it.

Difficulty in obtaining figures from the motor bus driven as to income and expenditures has prevented the Legislature from arriving at definite conclusions. There are no figures whatever for truck operators and they are scarce as to the buses.

Urges Burden of Traffic

Clarence Ousley, representing the East Texas Chamber of Commerce, speaking at the conference Monday night and strongly urging putting all the cost on the traffic and letting property out from under any highway taxation, espoused a high license fee.

"It is true the automobile license fee is high," he said, "but anyone studying the problem will see no escape for this high tax. I hope the Legislature, however, will find a way to reduce the license fee and increase that on commercial carriers."

Lynch Davidson, former Lieutenant Governor, and Cone Johnson, State Highway Commissioner, also spoke and were called upon to answer a barrage of questions concerning highway proposals.

They addressed an audience which was made up not only of joint committees on highways, constitutional amendments and revenue and taxation, but also of Governor Moody and Lieutenant Governor Miller and legislators and persons interested in highway affairs.

Precedent Is Feared

Neither of the three speakers espoused any specific plan of legislation but Ousley and Johnson mentioned several things which they thought should be included in the program and Davidson attacked the proposal of a state bond issue.

Davidson said that if a constitutional amendment was passed allowing the Legislature to authorize the issuance of bonds, a dangerous precedent would be established.

He envisioned the possibility of future Legislatures, under the proposed constitutional amendment, loading the state with debt for other purposes.

My Gas Bills Are Too High

VERY OFTEN THEY ARE. We will tell you so and tell you why.

YOU ARE PAYING FOR NO MORE GAS THAN YOU BURN, but you are burning more than you need.

Long, yellow, wavering flames that float along the bottom of the utensils indicate the use of too much gas. The United States Bureau of Mines, in a bulletin on the correct use of natural gas in the home, describes fifteen different ways this fuel is wasted.

All of these are due to faulty apparatus, faulty knowledge of how to burn gas, or to carelessness on the part of the consumer.

If the county as a whole persists in refusing to vote the paving on this road, then a district ten or fifteen miles should be cut and the paving program put over.

LANDLORDS GO IN DAIRY PARTNERSHIP WITH NEGRO TENANTS IN MISSISSIPPI

By M. B. Oates
One of the most interesting and inspiring visits on the dairy tour last summer was at Starkville in north central Mississippi.

The visit was inspiring because we found that the landlords had gone in partnership in the dairy business with their negro tenants and both were making money from the new venture. Also the bankers had taken the initiative in loaning money to farmers to buy cows and these loans have been satisfactory.

The visit was interesting because Starkville is the home of the Mississippi A. & M. and the dairy specialist of the Extension Service, Mr. L. A. Higgins was eager to spend as much time with us as possible and make our visit pleasant as well as profitable.

that throughout the state, and gave us all the information we wanted.

We arrived at Starkville late Saturday afternoon and spent Sunday there. Sunday afternoon we took a little drive out in the country and then visited the A. & M. College. While at the college we visited the college herd and found a good herd of cows and some very fine herd sires.

On our arrival at Starkville, Mr. Higgins told us he had arranged for a conference with the bankers and business men that night. We learned that the county in which Starkville is located (Oxtibbeha County) has 3000 farms. Seventy per cent of the farmers are negroes.

The creamery started in 1912, opened for business with 19 patrons. This number has grown to 436 and the creamery is now paying out \$40,

000 per month. After the creamery had operated for a number of years the milk producers decided they wanted a whole milk plant. The business men became interested in securing a whole milk plant and joined together in taking a cow census, checking every farm in the county. This job took three months but the effort convinced the Borden Company that Starkville wanted a condenser and would support it.

The landlords first became convinced that dairying would pay and the boll weevils started the negroes to milking. It is said that most of the dairymen in this county are negro tenants, however, in 1927, there were 563 negroes who operated dairies in their own names and received \$160,000 for their products.

We found that the landlord buys the cows and pays for half the purchased feed and the tenants does all the work, produces all the feed he can and gives the landlord half of the gross receipts.

Wirt Carpenter, President, Security State Bank, operates several farms on this basis. In 1927 one of his tenants milked 20 cows from which he and the landlord each received \$1444.31.

The Starkville plant made more money the first year than any other plant because all the people were dairy minded and co-operated.

In addition to the milk business which is far above a million dollars, the county still produces 6000 bales of cotton per year and this cotton is produced on about one third of the land it was made on ten years ago because the dairy farmers are improving their soil.

There is nothing being done at Starkville which cannot be done here in Texas.

UNDERWOOD LAID TO REST IN BIRMINGHAM

Dignified Service Is Held for the Great Democratic Leader Monday

Birmingham, Ala., Jan. 28.—The body of Oscar W. Underwood, former United States senator from Alabama, and statesman of international repute, was buried here today with dignity that seemed a fitting climax to his long public service.

At the Independent Presbyterian church where the body lay in state for two hours, preceding the funeral services, at 11 a. m., the great, near great, and plain people of his adopted state filed by the flower banked bier.

droned out a farewell from the air. The body was committed to the grave without an eulogy, the simple service being in deference to the wishes of the late senator and his widow.

Mr. Underwood's death ended an outstanding career in the Democratic party. Especially during wartime did the Alabama senator stand out among the administration leaders.

Charged With Complicity in Slaying Of Osage Indian—Jury Out Almost Four Hours

Pawhuska, Ok., Jan. 25.—W. K. Hale, Osage country cattleman, again was convicted and sentenced to life imprisonment by a jury in Federal District Court here Saturday.

It was the third time Hale had been tried on the charge. The first trial, held at Guthrie, ended in a hung jury. The second, at Oklahoma City, resulted in a conviction and Hale being sentenced to life imprisonment.
