## Delegation Prepares For July Fourth Russian Power Badly Hurt, Nazis Say

Many claimed today that the Russian army has been or is rapidly being destroyed as an effective fighting force.

At the same time defiant Premier Joseph Stalin boomed from Moscow that the Soviets would drive the Nazi invaders to a successful finish.

Some claimed that the Red army had been driven back all along the 1800-mile front from the Baltic to the Black Sea.

It was said the invaders had punctured the main Russian defenses—the pre-war Soviet boundary—only in the region of Minsk.

Some sources indicated that German aircraft have made a slight dent in the main Red defenses on the eastern front.

It was said the Reds are holding out in Minsk and that Russian attempts to cross the German lines have been hurled back with heavy Nazi losses.

It was said its troops are mopping up the remainder of a half million Germans who were encircled by fast-moving German rechanized units in Minsk. Reports last night indicated that the Germans had taken about 100,000 prisoners in this trap and probably the rest of the half million men had been killed as they fought their way out of the city.

Reports said Red Infantry, Cavalry and twelve ranks deep, were hurled time and again against the Nazi ring and in all directions had been chopped up by the enemy.

Reports said Red Infantry, Cavalry and twelve ranks deep, were hurled time and again against the Nazi ring and in all directions had been chopped up by the enemy.

### USO QUOTA IS MAILED

Dallam county's United Service Organizations' drive has been completed for 1941, and the quota has been sent in to headquarters, County Chairman Elmer Elliott said this morning.

"The captains and I wish to express our appreciation for the splendid cooperation we received in putting the USO quota over the top by 15 or 20 per cent," Elliott said. Solicitations started a week and a half ago.

The soldiers in army camps throughout the nation will benefit from the contributions, Elliott reminds, through the operation of recreation camps. The government has built the huts; the USO will staff and provide proper recreational and welfare programs for the soldiers.

Six service organizations—YMCA, YWCA, Jewish Welfare Board, National Travelers Aid Society, National Catholic Community Service, and the Salvation Army—are combined in this nation-wide drive.

The last report of donors includes the following names: Luther Thomas, Mrs. Ben Monroe, Elmer Ever-soil, Dillard Ritchey, V. J. Hawkins, Charlie Lockhart, Mrs. Joseph Hunt, Miss Cecilia Freund, Miss Ida Cessnun, A. W. Berryhill, S. C. Arnsberger, E. O. Matthews, C. J. Aaron, B. W. Parks, E. J. Proul, J. H. Hunt, Paul Farris, F. H. Fitzpatrick, E. S. Brown, L. E. Allen, H. H. Whinery, O. L. Thurman, R. K. Brown, Earl H. Miller, John Dodson, Ira W. Hoffman, Leon Eaton, Jack Moegling, H. W. Miller, J. C. Farris.

### Red Cross Room Closed Tomorrow

The Dallam county Red Cross room will be closed tomorrow afternoon, July Fourth, but it will be open from 2:00 to 5:00 Saturday afternoon, Mrs. J. L. Chesser, county production chairman, said today.

### Plane School Representative Dalhart

Mr. Teer, state manager of the Airplane School of Los Angeles is spending a few days in Dalhart at the De Soto hotel and will select a limited number of students for training and placement in the aircraft industry, he states.

Mr. Teer said that the Airplane Schools have placed more than 2500 students in the industry since January. Mr. Teer addressed the audience for 22 years.

Mr. Teer will be in Dalhart Friday and Sunday.

### Railway Problems Still Unsolved; Parleys Quit

July 3 (Special)—The demands of the locomotive engineers and firemen for the payment of extra men on Diesel engines have broken up the

separate conferences which have been in progress for the past several weeks between a committee representing the Western Railways and committees representing respectively the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen.

The conference also discussed the demands for both the engineers and the firemen for a new basis for calculation of their wages.

"We see neither reason nor justice in the demands for the employment of additional and unneeded men on Diesel locomotives," said F. G. Gurley, chairman of the Western Carriers' Conference Committee. No statement was issued by the brotherhoods.

### TEXAN WILL PUBLISH PAPER EARLY JULY 4

In order to join the rest of the town in observing the Fourth, and to give the force a half holiday, The Texan will issue at noon tomorrow instead of at the customary mid-afternoon hour.

News intended for tomorrow's paper should be in the office tonight, if at all possible; and in no event later than 9:00 tomorrow morning.

### Jockeying May Kill Legislative Bills

Austin.—Several important measures are facing death in the Texas legislature this afternoon as a result of parliamentary maneuvers incident to scheduled adjournment at 6 p.m. today.

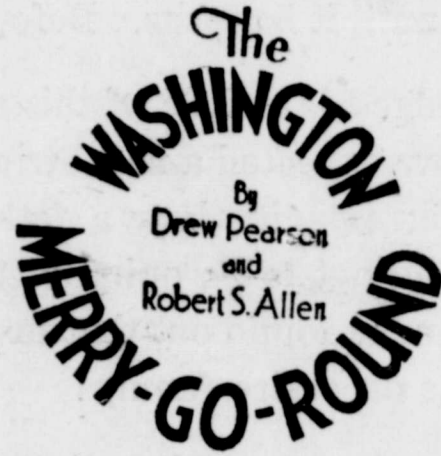

Among them are the tax remission bill, and the market demand prorotation measure which some legislators hope to pass over Gov. O'Daniel's veto. So far parliamentary jockeying has blocked them starting on the over-riding move.

### Grains Fall Off As New York Stocks Rise

Chicago wheat at noon was unchanged to a quarter lower: July \$1.04 1-4. Corn was unchanged to a quarter down: July 73 1-4. Oats were unchanged to an eighth down: July 37 3-8.

Strangely, the New York stock market, on the threshold of a holiday weekend, was more active than usual and many prices were higher. Fourth-hour volume was 330,000. At the end of the fourth hour, industrials in the Dow-Jones list were up 15 cents; rails had advanced 3, while utilities were off 4. The entire list was up 4 cents.

Cotton in New York at noon was 4 points lower to 9 higher, and in New Orleans was one lower to 3 higher.

WASHINGTON.—The really important feature of the new Air Corps set-up announced by Secretary of War Stimson escaped general notice. This was that Assistant Secretary Robert Lovett, hard-hitting World War ace, will have charge of deciding on new models and types of Army aircraft.

This is a major reform. Previously the responsibility was scattered among the brass hats, resulting in long delays and other hitches in getting new planes into production. Under the reorganization, Lovett will be boss and able to deal firmly with red-tape and the bureaucrats.

Because he shuns the limelight and works without hoopla, only insiders know that Lovett has been militantly battling the red-tape brigade since he entered the War Department last December. The reorganization plan, which sets up a unified, autonomous Air Corps command, was largely Lovett's work.

NOTE.—Major General "Hap" Arnold, commander of the newly created Army Air Forces, is outranked by Lieutenant General Delos G. Emmons, chief of the Air Force Combat Command, which is under Arnold. To remedy this incongruous situation, either Arnold will have to be promoted a notch or Emmons' temporary rank, given him last October, will have to be reduced to Arnold's.

### NAVY AIR PLANS

The Navy hasn't announced it yet, but it is formulating a new program to boost its air force to 15,000 planes and 17,000 pilots.

Its present plan calls for 10,400 planes by July, 1943. Expected are 3600 planes by July, 1941, 7300 by July, 1942, and the 10,400 peak by the following year. The proposed increase will be requested to keep the air arm abreast of the rapidly materializing two-ocean Navy.

### NEWEST CONGRESSMAN

Eleven-year-old Goodloe Byron, son of Maryland's new congresswoman, has had his first brush with Capitol Hill politics and with Capitol Hill politics and doesn't quite understand all of its (Turn to Page 4—Column 1)

President Roosevelt tomorrow will lead the nation in the greatest mass Independence Day observance in history.

The event was arranged by Mayor LaGuardia of New York, new director of civilian defense. He and newsmen worked it out at a recent press conference in his Washington offices.

The president will speak for five minutes over nation-wide radio hookups tomorrow afternoon at 3:00 on the significance of Independence Day, 1941.

Immediately following, Chief Justice Harlan Stone of the U. S. Supreme Court, from his summer home in Estes Park, Colo., will lead the nation in the pledge of allegiance to Old Glory.

Then a nationally-known singer, who claims she has sung "The Star Spangled Banner" more than any other professional, will lead the country in singing the national anthem.

All listeners, said LaGuardia, are asked to join in the pledge to the flag and in singing.

The chamber of commerce at noon said apparently all Dalhart firms would be closed tomorrow except drug stores, cafes, filling stations and business of that nature.

A big XIT delegation will form between 9:30 and 10:00 tomorrow morning on West Third St., in front of the chamber's offices, and at 10:00 take off for Clayton and its annual July Fourth celebration.

Dan Spencer, chairman of the (Turn to Page 4, Column 3)

### Dalhart Grocers To Be Made To Close Sundays

County Attorney A. Wendell Salyars today, in a formal statement, warned that beginning next Sunday all grocery stores must conform with the state Sunday closing law.

He pointed out that under the Texas Penal Code it is a misdemeanor, punishable by fine from \$20 to \$50, for grocery stores to be held open for business after 9 a.m. on Sunday.

"It will be the county attorney's attitude in the future," he said "to enforce strict adherence to the Sunday laws."

His formal statement follows: "Notice is hereby given to all merchants, grocers, or dealers in wares or merchandise in Dallam county that:

"1. Because in the immediate past various grocery stores in Dalhart, Dallam county, have been kept open for purpose of traffic on Sunday;

"2. And such practice of selling groceries on Sunday has given rise to dissension among merchants in Dalhart, and is leading to more and more serious social and business conflict;

"3. And as manifested by circumstances and conditions connected with the operation of said grocery stores at such time, it shall be to the benefit of each and every grocery store owner or operator, and employees connected therewith, that such stores be required to conform strictly to our Sunday laws.

"4. And, by virtue of Articles 286 and 287 of Texas Penal Code, it is

a misdemeanor punishable by fine from \$20 to \$50 for grocery stores to be held open for business after 9 a.m. on Sunday. It will be the attitude in the future of the county attorney of Dallam county to enforce strict adherence to the Sunday laws.

"According to said Articles, and cases in interpretation thereof, each Sunday on which a grocery is held open for business is a separate offense.

"Article 287 of Texas Penal Code lists exceptions to business transactions prohibited by Article 286 of such code. Among those exceptions are sale of ice cream, ice, milk and newspapers. Also, keepers of restaurants, hotels, drug stores, and the sales of motor fuel are specifically exempt. I mention those few exceptions in order to clarify to the general public why some establishments are permitted to remain open on Sunday. Those exceptions have no reference whatever to holding a grocery open for business on Sunday.

"Beginning Sunday, next after date of this public notice, any owner or operator of any grocery store in Dallam county who holds his place of business, or permits it to remain, open for traffic after 9 a.m. on Sunday shall be proceeded against in accordance with our Penal Code.

"A WENDELL SALYARS, County Attorney, Dalhart, Texas."

### TODAY

The Mission: Anna Neagle today.

Conn-Joe Louis fight, blow by blow, round by round.

### THE WEATHER

Texas: Scattered afternoon and evening showers and storms today and Friday. Little change in temperature.

## How Would You Like To Be The Father Of 100,000 Children?

Newspaper columnists, like Walter Winchell, Old Tack and others, seem to think they have scored a "scoop" on everyone else when they intimate that the stork is hovering around certain prominent homes, or that Mrs. So-and-So is buying dainty, blue ribbons, etc., at the local department store.

It's kind of a cute way of saying that Mr. and Mrs. So-and-So are expecting the arrival of a new heir and the newspaper reporters say it's not news until it happens. Before that it is gossip.

Last year we indulged in a little of this advance reporting by telling the folks that we expected a new arrival in the FARMALL family. Well, you can imagine how a father would feel if the son he expected turned out to be quintuplets! We experienced the same feeling when we found out that instead of just one new FARMALL there was an entire family!

But the shock wasn't over. Now the parent company, the International Harvester Co., advises us that more than 100,000 of the new, streamlined FARMALL tractors are in use on farms!

So "FARMALL FARMING MARCHES ON"—at a rate of progress in the more than 17 years since this revolutionary farming system was started.

If you haven't seen or handled one of these great new tractors, you owe it to yourself to find out about the large number of field operations it can carry on. For FARMALLS have the most complete line of direct-connected implements available.

GET ACQUAINTED WITH THE FARMALL FAMILY NOW.

PUBLISHED EVERY FRIDAY

## MERRY-GO-ROUND— (Continued from Page 1)

bitterness, especially when it affects the father of one of his chums.

One of Goodloe's schoolmates is young David Lasser, son of WPA's David Lasser. Lasser, Sr., was earnestly trying to combat left-wing radicals inside WPA, but congress, too dense to understand that fact, threw him out of a job.

It happened that the second bill on which Mrs. Byron voted after being inducted into office was the WPA appropriation measure specifically excluding Lasser from drawing his WPA salary. She voted with the mob and Lasser was automatically discharged.

But young David Lasser had not been told of the action of congress. He knew only that Goodloe's mother was one of those who held his father's job in her hands. So, at school recess, David approached Goodloe Byron.

"Please," he appealed, "ask your mom not to vote against Daddy!"

Goodloe said he sure would, but by the time he reached his mother it was too late.

NOTE.—Goodloe's father, Congressman Byron, was killed in an Atlanta plane crash last February. Mrs. Byron succeeded to her husband's congressional seat.

### ALUMINUM REPORT

Aluminum Company of America can thank two anti-New Deal Democrats for those puffs it got in the House Military Affairs committee's report on deficiencies in the national defense program.

One of the congressmen was Representative Charles I. Faddis, Pennsylvania New Deal-hater, who headed the subcommittee that wrote the report. The other was Representative Andrew J. May of Kentucky, who was chiefly responsible for the full committee's indorsement of it.

This extraordinary report scathingly blasted the administration for the shortage in aluminum while warmly eulogizing the giant Aluminum Company, which is under indictment for monopoly and which had just been denounced by a Senate committee for obstructing aluminum expansion plans.

After the document had been read, Faddis turned to white-haired Representative Ewing Thomason, Texas New Dealer, and bluntly declared, "Let's be practical. Each of us knows how the other stands. I know you're opposed to this report."

"I certainly am," snapped Thomason. "Your contradictory conclusions baffle me. I think the committee should delay consideration for three days so we can study the testimony on which you base your charges."

"I won't agree to that," shouted Faddis. "I demand that the full committee approve my report today, so that it can be publicized in the Sunday newspapers and offset those false charges against the Aluminum Company made in the report of Senator Truman's investigating committee."

"You can't ram this down our throats on such sudden notice," broke in Representative John Sparkman, young Alabama New Dealer.

But Faddis did, with the help of May, who used every parliamentary trick to block a move by Sparkman to "open up" the report for revision and debate. Faddis won immediate consideration 11-10, with himself the only Democrat voting "aye." May refused to vote.

\*\*\*

### CHEMICALS NEXT

The next major industry slated for priority controls is the chemical industry.

With the demand for plastics soaring because of the shortage in

The Texan:

While visiting relatives ten days ago in Bringham, Ind., I found that a cousin of mine was an old XIT hand years ago, and when I told him about the Reunion in August, he became quite interested, and wanted me to write him the exact date as I wasn't sure it was August 8 and 9 this year.

I thought perhaps if some of the XIT committee writes him, he might be able to tell some of his experiences as a cowhand for the XIT.

Here is his address: Robert Nimmins, Bringham, Indiana.

I expect when you see who has written this letter you will wonder how I came to be in Michigan.

I am visiting my daughter, Mrs. Ross Blodgett, here in Albion. I left home May 30 and after staying here eight days, I went to Edgerton, Ohio, for several days, then to Bringham, Ind., and back to Edon, Ohio, and then to Coldwater, Mich.

Last Sunday, May 29, I spent all day in Detroit, went to the Royal Oak Zoological park and also to Belle Isle, which was very beautiful as well as interesting.

I never thought when I left home I would be within sight of Windsor, Canada, or see the Ford plants and lots of the other sights of Detroit.

On our way back we stopped at Ann Arbor and managed to get to Jackson by dark to see the Cascade Falls, which are very, very beautiful.

I ended the day by coming back to Albion. I expect to spend another week here then back to Texas and home.

MRS. D. L. FRAMPTON.

## Regular Fire Drill Will Be Held Today

Regular fire drill for the Dalhart Fire Department will be held this evening at 5:30, instead of Friday, the regular day for drill, O. W. Raillard announced today.

"No need to get alarmed this evening when the fire siren blows," Raillard said. "It will just be our regular fire drill being held Thursday so as not to interfere with the July 4 events."

Mr. and Mrs. O. A. Fortune, Heming Ford, Neb., former Dalhart residents, have been here the past week visiting friends.

aluminum, steel, nickel and other metals, serious deficiencies are showing up in the chemicals used to produce plastics. At the same time, the heavy demand for explosives is creating a tight situation in chemicals normally used in fertilizer and other non-defense products.

Newspapers and magazines may be hit unless ways are found to overcome a threatened shortage in acids used for photo-engraving.

Even undertakers are beginning to feel the pinch. One complained to the OPM last week that he was in danger of being forced out of business because of inability to get formaldehyde for use in embalming.

\*\*\*

### MERRY-GO-ROUND

The defense worker training program hasn't been all it should be, but the National Youth Administration is clicking 100 per cent, turning out 45,000 trained craftsmen a month. . . . The Tenth Wisconsin district will have a clean-cut choice next year on the national defense issue, Representative B. J. Gehrmann, German-born foe of defense and aid-Britain measures will be opposed by Corporal Pete Von Nosstrand, now stationed at Fort Sheridan. . . . Congress boasts of several tycoons, among them Representative Dick Kleberg of Texas, whose famous King Ranch is the largest in the world. Few know, however, that one member is operator of the world's biggest baby chick farm. He is Elmer H. Wene, who produces nearly 1,000,000 chicks a year on his Vineland, N. J. farm.

(Distributed, 1941, by United Feature Syndicate, Inc.)

## NATION PREPARES—

(Continued from Page 1)

General XIT Committee, will lead the motorcade. It will include the XIT band, directed by C. W. Beene. Incidentally, several cars are still needed to transport band members. Persons who can furnish cars, or who have an extra seat or two for band members, are asked to call the chamber.

The General XIT Committee this morning asked that everyone wear XIT regalia to Clayton tomorrow, if at all possible. It isn't compulsory, the committee said, and don't stay at home if you don't happen to have any. But wear the regalia if you can. Hatbands, stickers and the like will be available at the chamber offices tomorrow morning.

Another XIT delegation tomorrow will go to Clarendon, and will be headed by Arch Sneed, former XIT cowhand. A highlight of the Clarendon celebration will be a memorial service dedicated to the late Homer Mulkey, also a one-time cowboy for the famous three-million acre spread.

The Dalhart Polo club was not able to schedule a game for tomorrow, as it had hoped. But Jim Koehler at noon slated a ball game with Grenville for 3:00 tomorrow afternoon on the Dalhart field.

The Roy Rhoades Legion post tomorrow night at 8:30 will stage its sixth annual free fireworks display on the Legion homesite at the south end of Rock Island Ave. There will be plenty of parking space, said Dr. J. P. Powell, who always directs the display.

A dance will follow immediately in the Legion home with music by Johnny Lasswell and His Playboys. Proceeds from the dance always go toward paying for the fireworks which this year are costing over \$100 and will be one of, if not the most elaborate pyrotechnic exhibitions the Legion has ever offered.

Plans for fireworks and dance will be perfected at a Legion meeting tonight, Commander J. E. Rainey said.

Big, beautiful Rita Blanca lake, adjoining South Dalhart, will also be officially open tomorrow for the first time. Arrangements have been perfected for both swimming and bathing, said Earl S. Carter and son E. G., the concessionaires. There are no charges for entering the area, and picnic sites are free. There will be small charges for boating and swimming. The Carters emphasized that all prices are set and enforced by the U. S. government.

## RUSSIAN POWER—

(Continued from Page 1)

artillery and machine-gun fire.

Reds said two Nazi drives against the Ukraine bastions had been repulsed. Berlin said German and Rumanian forces had finally smothered Russian resistance in the south and crossed the Prut river. Reds were silent on that point, and also said nothing of the fierce battle in the Arctic for the vital port of Murmansk. Apparently Russians still held out there, but a round-about report by way of Helsinki said Nazis had taken Murmansk.

Germans claim that south of Riga large numbers of Russians are being caught in a vast circular trap of steel and that a similar trap is closing around routed Red forces near Lwow in old Poland.

The U. S. meanwhile continued with its plan for streamlining and mechanizing its Army. Secretary of War Stimson today announced formation of 22 tank destroyer battalions, first organized in the world.

They will combine armored and mechanized units, will use up to 75 mm. self-propelled guns and will have tremendous fire power.

A new-type mechanized division is also being developed. It will have more than 100 light and heavy tanks and will have big self-propelled guns for use both against tanks and planes. These fast mechanized divisions, geared for 60-mile-an-hour warfare, with the self-propelled guns, will not have to rely on artillery regiments.

Fourteen of the new tank destroyer battalions will be attached to

## LAFF-A-DAY

"The nicest-looking fellow tried to pay for my lunch today. He got away with it, too."

A few more pounds, a few less minutes were all that separated Billy Conn from the world's heavyweight boxing championship and the million dollars that it is worth. The picture is showing at the Mission and if you love the thrill of a good clean fight, take my advice and see it. Billy almost had the championship in his big gloves and then let it get away, perhaps forever. For the chances are that Joe Louis will have been dethroned before Billy gets another chance at him.

Willys Stewart describes a shooting act put on at Tucumcari Monday as the best he has ever seen. An FBI man did the act free as a part of the road convention over there, and Stewart thinks there is a chance of bringing him to Dalhart for the XIT. Among other things he shoots small articles over his shoulder while sighting through the reflection of a small diamond ring on his finger.

Old Tack (Gene Howe) must have either visited in Dalhart recently or had an intimate conversation with some of its best informed citizens. He came out with some jokes about our lake, a compliment to J. C. Parker on the remodeling of his theater and a Winchell stork prediction that was a big surprise to all of us.

Harry Bengé Crozier, our Austin correspondent whose columns you

infantry divisions. The others will be attached likely to corps headquarters so they may be shifted quickly to any point to meet any threat.

Mrs. W. H. Webster, son, J. B., and mother, B. Y. Miller of Dexter, N. M., have returned from a vacation in the Missouri Ozarks.

have read in this space, makes comment about the senatorial race set a precedent by putting a plaque in his office attesting honesty that not even the governor had questioned, and America loves to follow facts fobbies, wouldn't it be well if ever succeeds to the office of ris Sheppard hire a woodpecker to do his best on a shield would read something like this: got here by the best means could; How in the hell did I stay?"

The same writer says: "The election and its ultimate verdict be before these readers before is printed, Jungle men meet a ruder, cruder election than held in Texas last Saturday was held almost without change or statute because the have pretty well held the election laws void. Isn't it proper for Texans to contrive a fairer more equal election system still would like to get a from somebody who has a thou"

It is difficult to understand reduction in the number of at the Rock Island shops, effective the 7th. At a time when the is calling all men possible for rious jobs in industry skilled cannot be tossed in and out efficient results. Men who their jobs on the 7th are likely to find ready employment waiting them because skilled chancies are badly needed. With prospect good for a decided increase in the amount of bus being done by the railroad, in addition to the excellent business railroads are now enjoying, highly improbable that these will be available when the Island wants them back.

Of course a fellow in the paper business isn't supposed know much, if anything, about railroading business, and no the company has sound reasons this unexpected reduction in ployees, nevertheless it is kinda hard to figure out. I mind admitting that I'm thinking in selfish terms because the to Dalhart, while leaving the with as many men as were ployed two years ago, is enough to be noticeable. We to see the Rock Island keep men here, because we need of days and weeks before the Island will need them, too.

... spectators on the job;  
... forced to abandon pro-  
... cost would be cut and  
... mproved by their adop-  
... business concerns have  
... hand crushed in con-  
... tween rival unions. The  
... our defense program is  
... ralyze and spread produc-  
... ing many sub-contractors  
... or small size. Efficiency  
... concerns will increase if  
... be given their independ-  
... th commands of ruth-  
... dictators.

**Must Pay Public**  
... an independence is not  
... if an American worker,  
... to get a job, must pay  
... sometimes running into  
... res. Nor is our independ-  
... eplete if consumers who  
... buy milk in stores or in  
... antities are refused this  
... ly. We all suffer from the  
... can practice of blocading  
... ets of one state from en-  
... borders of another. The  
... defense ungrudgingly.

What seems intolerable is that in the midst of these heavy burdens we should bear the continued load of exploitation. The American consumer, if necessary, will stand a gasless Sunday if only he can be assured of a racketless Monday!

Believing in the intelligence and integrity of the overwhelming majority of the members of American labor unions, I recommend one way of ousting the predatory type of official. Set up and maintain the necessary measures to assure genuine elections of officials. In other words, be sure that democracy is installed in all our unions. If purity is essential when workers vote in industrial plants, it is even more important when they vote in their unions. Overthrow of racketeering and Communism would both speed up defense and improve general business prospects.

**Unparalleled Activity**  
Two elements in this business outlook emerge like mountain tops. In the first place, substitution is proceeding apace, with discussion of replacements for steel, tungsten, tin, natural rubber, and other commodities where supplies are in question. Necessity will compel change-over in products, jobs, markets, supplies, transportation, and other departments. In the second place, prepare for record-breaking production. I look for output far surpassing the peaks of our World War I and the highs of the post-war boom. Freed from the grasp of unprincipled union leaders, all able-bodied and right-minded workers should be employed at good wages and legitimate employers should secure a fair profit.

Although battles are decided by military powers, wars are decided by spiritual powers. The democracies are looking to America for munitions. Equally vital is our contribution of intangibles; that is, unity of purpose, singleness of effort, and a demonstration of 100 per cent democracy. This Fourth of July is the day of days to reaffirm American independence in whatever quarter it is menaced, whether by aggression from without or by exploitation from within.

## Wm. L. Crawford Is Expert Rifleman

Wm. L. Crawford, son of C. B. Crawford of Dalhart, qualified as an expert rifleman the first time he went on the U. S. Marine rifle range at the Marine Corps base at San Diego, Calif.

"That is quite a distinction," reports Captain T. E. Kendrick of the Marines.

In qualifying as an expert, said Captain Kendrick, Crawford is upholding one of the most cherished traditions of the U. S. Marines—the best riflemen in the world.

Crawford enlisted in the U. S. Marine Reserve March 28 at Oklahoma City.

Captain Kendrick said there are still opportunities in the Marine Corps for men between ages of 17 and 30. They may write to or call personally, he said, at the recruiting station, Room 14, Post Office Building, Amarillo.

## Brother Of Frank Farwell Has Operation

Mr. and Mrs. Frank Farwell are in Amarillo, where they were called yesterday because of the illness of Mr. Farwell's brother, Jack Farwell, cashier of the Amarillo National bank.

Jack Farwell underwent an operation yesterday at Northwest Texas hospital in Amarillo. Rev. John E. Eldridge, pastor of the Central Methodist church, said he had word this morning that Farwell rested well last night.

Use Want Ads for profit.

Mrs. Brigid Hitler

Sister-in-law of Adolf Hitler, German dictator, Mrs. Brigid Elizabeth Hitler, 49, walked into the British War Relief Society offices in New York asking to do her bit for England. Said Mrs. Hitler of the Nazi Fuehrer: "They ought to skin him alive—slow torture—like every day." Mrs. Hitler, who is the former wife of Hitler's half-brother Alois, has been in America for two years.

## Recruiting Office Will Open Monday

Corporal Leo Cawthron arrived in Dalhart this morning to make final preparations for the opening of the U. S. Army recruiting station here at 8:00 Monday morning in the city hall.

Cawthron reminded that there are openings in the air corps for young men between 18 and 35 with a high school education or equivalent; in the flying cadet group for ages 20 to 26 inclusive, with two years of college.

"I'll be glad to discuss the work with parents or anyone interested," Cawthron said.

Mrs. Cawthron plans to join Cawthron here tomorrow. They were formerly stationed at Childress.

Mrs. Kenneth Wadkins and daughter, Judith Nan, Winfield, Kan., are here visiting in the Robert Dilworth and L. A. Kennison homes.

## Fly Casters Hit by War

Syracuse, N. Y. (UP)—The war has struck anglers. Fly casters preparing here for the opening of the trout season have been informed they will not be able to get a particular type English tapered line. The factory has been bombed. Popular French rods and creels also are missing.

Attorney Frank Tatum left last night for Dallas to attend the Texas State Bar Association convention.

## Nara Visa Is Set For Fourth Event

Nara Visa, July 3.—A parade, novelty races, real chuck wagon dinner, rodeo and old-time Western dance will be offered by Nara Visa in its Fourth of July program tomorrow.

The whole program is sponsored by the Future Farmers of America chapter of Nara Visa high school.

The chuck wagon dinner at noon will be served by the Women's Society of Christian Service. Plates are 25 cents. Proceeds will be divided between the women and the FFA boys.

The day's festivities will open at 10:00 with a colorful parade, reports Gene Snelling, president of the FFA chapter. It will be followed by a variety of novelty games and races, including kids, sack, greased pig and fat men's races.

Following the chuck wagon dinner, the rodeo will open at 1:00. It will include calf roping, steer

riding, ribbon tie event, matched roping, relay, pony express and free-for-all race.

Special arena fun will be furnished by a clown and his spotted pony.

The old-time Western dance tomorrow night will be in the big Nara Visa high school gym.

Mrs. A. W. Mayer of Los Angeles, Calif., has been the guest this week of Mrs. Ruth Coleman.

### IN THE ARMY NOW! WHY AND HOW

By S. T. Williamson

By this time I should be among the last to be surprised over anything which happens in the Army, but when I pushed through the teeming corridors of the War Department the other day and bumped into a solid hunk of meat and muscle, I did not expect to look into the smiling, freckled face of my friend, the Captain. The last time I saw him was at an Army camp where he was as happy as a clam. He had just been handed a company of five hard-working lieutenants, a dozen solemn leather-faced Regular Army non-coms, a camp cook who was a cook, and 200 jeeps still rocky from farewell celebrations and 6 a.m. oratory from their local boards.

"This is going to be the best company in camp," he announced. "We'll show 'em."

That was some months ago. "What's become of the best company in camp?" I asked my friend, the Captain, in the War Department corridor.

"It's still the best company," he replied. "You never saw such a bunch of hustlers. If the warehouse was slow in sending us up more blankets, my people got them from somewhere. It was the same with issue clothing and other supplies; we always were fully equipped when other companies hadn't enough to go 'round. And that's the reason I'm here."

"Why?"  
"You see, other company commanders complained. Some supplies they missed turned up in my company. The Colonel said he'd put a stop to that, so he had me transferred."

"Transferred to what?"  
"Down here in Washington; to procurement work."

No transfers in the mail.  
H. F. McKeesport, Pa.: Concerning the changes in the draft laws regarding the reduction of the age limits. I have received my final physical examination and found to be O.K. I was to have reported for induction on June 10, but was given until the next call, probably around the 10th of July, to dispose of my business. Am I considered to have been inducted until I am actually sworn into the service? Will the local board be given the responsibility of deciding who has been inducted or will the law be definite on this point?  
You are not in the Army until

GROVE WON HIS FIRST MAJOR LEAGUE GAME FOR CONNIE MACK IN 1925 AND HAS SINCE WON 20 OR MORE GAMES IN A SEASON EIGHT TIMES (FROM 1927 TO 1935, INCLUSIVE)

### Tom Frederick Wins Promotion

Officers at Camp Wallace, Texas, today announced promotion of Perry T. Frederick, Jr., of Dalhart to corporal.

Corporal Frederick is known in you have been sworn into service; therefore officially you have not been inducted. If the present age limit is changed either by law or by regulation, the local board must conform. I take it that you are over 30. If the age limit be set at 28 before you are sworn in, you can demand deferment.

Dalhart as Tom Frederick, is the son of P. T. Frederick. In the Army seven years, Cor-

### Gardens Are Earlier Than Usual, Says Wynne

The unprecedented wet spring and early summer, followed by recent hot weather, is making gardens earlier than usual, reports Fred A. Wynne of the Andy James district, 22 miles northeast of Dalhart. He said his family is already having English peas, green beans, squash, onions, carrots and beets. "We have a big garden," Wynne said. "Mrs. Wynne does the head work and I do the back work." Wynnes are also raising popcorn, peanuts and cantaloupes. They are

having fried chicken, and beef type turkeys are in addition, they have their butter and eggs.

Wynne, who came to the February, 1901, says grain best in 30 years.

Mr. and Mrs. Jim C. are in Amarillo today on

# HOT WEATHER TO ERASE DANGER OF WEED BLOAT

Danger of weed bloat which has killed between 350 and 400 cattle in Dallam, Hartley and Sherman counties in the past two to two and a half weeks will be largely past in ten days to two weeks if the weather stays hot, it was learned today from Ed Crabtree, Dallam county agent in Dalhart.

The hot weather, he said, will mature the weeds and put them past the bloat-producing stage. If, however, there are considerable intermittent rains and warm and cool weather which will keep new weeds coming on, the danger may last several weeks.

The cattle are bloating, a check-up with county agents shows, on Russian thistles and pig weeds. There are also comparatively small losses from poison weeds and a new disease called odema. This disease is such a close relative of blackleg and has so nearly the same symptoms that several owners thought their cattle had died of blackleg. They figured the blackleg serum they had was no good. Crabtree said a new serum is available that will immunize against both blackleg and odema.

There are less deaths from poison weeds this year than for the past several years, Crabtree said, because there is plenty of other vegetation for cattle. Ordinarily they will not eat the poison weeds unless starved to it. Occasionally, however, cattle get a perverted appetite for them and eat them till they die.

However, there is more bloating than in several years because there is a more abundant growth of thistles and pig weeds. And, because of unprecedented rains, the weeds have grown rapidly and are succulent and tempting.

The only surefire preventative of bloating, Crabtree said, is to fence cattle away from the weeds. However, patches of weeds may be mowed. It also helps to feed dry hay or bundles to cattle once a day. They may be fed on the range. It is always important, the agent said, to have plenty of salt, bone meal and limestone available for cattle, but it is vital now because cattle with free access to them apparently are not quite so subject to bloat.

If a cow is found before she dies a knife may be run into her paunch, just ahead of the hip bone; or her mouth may be propped open with a stick and she will belch off the gas, owners report.

C. R. Foster, Stratford dairyman, reports good results from drenching

## Few More Horses Being Stricken

A few more horses continue to become infected with encephalitis, also known as blind staggers and brain fever.

However, so far as can be learned, no horse, vaccinated long enough to secure immunity, has been stricken.

And, it was learned, the death rate is much below the average 20 per cent mortality that has applied the past several years. Apparently there has been a vast improvement in the serum which is given to horses after they get sick.

affected cows with a quart of sweet cream.

Other remedies being reported include a pint of turpentine with two pints of raw linseed oil; a pint of kerosene with the oil, or a pint of kerosene and two pints of milk. All these are used mostly as drenches, but some owners report success by pouring them into the hole created when a knife is stuck into the bloated paunch.

They act as a laxative and also tend to neutralize and prevent further gas forming immediately.

Still another reported remedy is an ounce of pulverized asafoetida; and an ounce of oil of turpentine. One of the best ways to give this, it is said, is to get the ingredients made into a gelatin capsule and force it down the animal's throat.

# Grenville To Play Texans July 4th

Jim Koehler at noon today secured a Fourth of July ball game for Dalhart. The Grenville, N. M. crew—which may be bolstered by several of Clayton's able swatters—will meet the Texans on the Dalhart field tomorrow afternoon at 3:00.

Texans, now on an even keel with two wins and two losses, will be trying hard to stuff another victory column. They have beaten the Beckner Brotherhood of Clayton, and split a double bill with the Boston Hoboes, a nationally-known ace traveling club. Two weeks ago it dropped at 1-0 decision to Perryton at Perryton.

Incidentally, said Koehler, Perryton today wired that it could not fulfill its engagement in Dalhart next Sunday. "We'll try to arrange a game here with someone else," he added.

Paul Gill probably will open on the mound for Dalhart tomorrow, with Ancil Nunn back-stopping. The rest of the probable starting line-up: Barbour, 1b; "Mutt" Young 2b; Poirot, ss; George Taylor, 3b; Reynolds, Koehler and Cotton Young in the field. Pirkle and Howey will be utility men.

## Two Softball Tilts Scheduled Tonight

Charros softball team is pitted against Porter's Market and Ambassadors play Rock Island tonight under the lights at the Legion field in the regular schedule of the Dalhart Softball League.

The first game begins at 8:15. Admission is always free, officials reminded.

Mr and Mrs. Marcus Krome, are visiting their daughter, Mrs. Jeanne Cornett. The Kromers formerly lived on the Culbertson ranch at Bueyeros, N. M.

## 300 Youths Given Driver's Rights

More than 300 Texas youths, 14 to 16 years old, have been granted driver's licenses under the new driver's license law, State Police Director Homer Garrison has announced.

The new law, he said, provides for issuance of the licenses under the authority of county judges.

Among the 300 is Gene Keith of Dalhart.

## Must Arrange Way To Clinic Friday

Anyone interested in the Crippled Children's clinic in Amarillo Saturday is asked to call Mrs. E. R. Stewart at the Dallam County Welfare office before tomorrow noon. Transportation must be arranged for before Saturday, Mrs. Stewart said.

The clinic, which will be held at St. Anthony's hospital, will be conducted by Dr. Charles Clayton, Fort Worth physician.

Mr. and Mrs. Jim Mitchell and infant daughter, Dorothy Ilene, of Hartley are going to spend Sunday with Mrs. Mitchell's parents, Mr. and Mrs. J. E. Wilson, in the Wilco community. Dorothy Ilene was born at Loretto on June 11.
