## LUNCHEON CLUB PERMANENTLY ORGANIZED Installation Huge Hatchery and Setting Date GREAT EXPANSION OF POULTRY INDUSTRY ASSURED

### Civic Spirit Manifest in Enthusiastic Meeting. Will Promote and Foster Every Enterprise of Lamb County.

On last Friday evening a group of about thirty-three prominent business, professional and farming citizens of Sudan and vicinity met in the Rural Hotel where a duck feast was spread. During the evening a permanent organization of a luncheon club was effected. This club is to be bi-monthly. Its dues are \$4.00 per quarter, and its meals are paid for from these dues. No other expenses are attached to membership. Its object is to promote the social, educational, moral and religious atmosphere of the community, and every citizen of Sudan or trade territory is eligible for membership. The permanent officers of the organization are to be elected and installed the first Friday in March.

Through the attitude of the club, a city marshal is to be retained permanently in Sudan. This peace officer is sadly needed in every village, and the membership of the club present voted a unanimous support of Captain Cooper in his efforts to free Sudan of a few petty vices.

Also, through the efforts of the membership present, an attempt is being made to create a volunteer fire organization and have it ready to function as soon as water can be obtained in the town; this latter is expected to be a fact within a very few months.

The next meeting of this club will be with the Parent-Teachers Association of the town, the meeting being held in the corridors of the high school building where a bounteous feast is promised, and we know these good members make their promises even better than they promise.

Every member is asked to see Prof. Talbott and check in your first quarterly dues, and then get ready to be on hand at the next meeting where business of importance is to be transacted.

### MEETING OF THE LADIES' BIBLE CLASS

The ladies of the Church of Christ met with Mrs. Jess Jess Tuesday, Jan. 29. We had a very interesting lesson which was taken from the 6th chapter of Matthew. Our leader, Mrs. Briscoe, has been suffering from a severe sore on her leg, and has been unable to walk for several days. However, we managed to have her with us as some of the ladies went down and assisted her in getting over to Mrs. Freely's last week the class met with Mrs. L. T. Hunt. We had a very interesting lesson and every one seemed very enthusiastic in the work the class is carrying on. Our next meeting will be with Mrs. J. C. Cooper. Our lesson will be taken from the 12th chapter of Romans. All ladies are invited to attend these classes.

Reporter.

### Bovina Man Killed In Car Wreck

Oscar Ellison, son of Mr. and Mrs. J. W. Ellison, who live five miles east of Bovina, was killed in a car accident 40 miles north of Bovina some time Tuesday night.

Oscar had been running a tractor for A. D. Burns on the Frank Ferris place near the caprock. In going from the field to the Burns home, which were some ten miles apart, he traveled in a small car. He failed to report at the Burns home Tuesday night, and Wednesday morning was found dead close to his car. It is presumed that the car was upset and he was killed in the crush while enroute to the Burns home.

### A. K. Boyd, Local Feed Dealers, Purchases Grissom's Feed Store

A deal was closed between A. K. Boyd and L. C. Grissom last week in which Mr. Boyd secured the feed business conducted by Mr. Grissom during the past year. Mr. Boyd has been selling feed here for the past six months and has been giving the people good service in the feed line. In the purchase of the Grissom business he receives the accounts of the Purina Mills which is one of the most favorably known feeds on the market, and coupled with Boyd's service should secure for the new owner much new business. The

### Ban the Pet Schemes

"I see," said the Hamberger Man to the Bootlegger, "that we now have a new punch club in the making. That's what Sudan has needed for the longest time, and now that she's got it let's see what she's going to do with it. But what is its object?" and he looked at the Bootlegger questioningly.

"As I understand it," answers the Bootlegger, "its main object is cooperation. By cooperation I mean all for one and one for all, just like we. You see, when we three went and our names was called for members and put to a vote, you and Taxi voted for me, then me and Taxi voted for you, and then you and me voted for Taxi. That put us all three in, and that was cooperation."

"But supposin'," remarked the Taxi Driver, "that one guy might want to interject a pet scheme into this meetin', like for instance the liquor question. What will this club do with pet schemes?"

"Pet schemes," began the Bootlegger, "is like a creek. You can't tell how deep it is till you drive in. When a bird arises in his chesty way and tries to rivet attention on a pet scheme, don't you think that there is enough in them steam roller mechanics present to put a quash on him? I'll say so!"

"There never was," interjected the Hamberger Man, "an organization that did any good, got any where from where it left, survived or journeyed far, what carried a load of pet schemes. It's human tendency to want to foster some home-made idea, that ain't worth a cent to nobody but the fonder, but this club is for the benefit of all, and Old Man All never had a pet scheme. Pet schemes has the same effect on clubs as the electric chair has on a slayer, only it leaves a lot of bellows and yelps behind it."

"But," inquired the Bootlegger, "has anybody the right to speak his piece just as his conscience dictates?"

"I'll say he has," answered the Hamberger Man, "and that's the fundamental origin of this here club. Publicity is the watch dog and when you bring your ideas before this tribune of publicity, the Lord help you if they won't stand punishment."

"Allowed," said the Taxi Driver.

### DEDICATORY PROGRAM

Olton High School Building, Feb. 15th, 7:30 p. m.  
Orchestra—Olton High School.  
Invocation—Rev. J. W. Howell.  
Chorus—Olton High School Girls.  
Orchestra—Olton High School.  
Address—Prof. D. A. Shirley, W. T. S. T. College.

Address—Dr. P. K. Horn, Pres. Texas Technological College.  
Address—H. T. Musselman, Editor Texas School Journal.

Violin Solo.  
Prayer—Rev. Vernon Shaw.  
The public is cordially invited to attend this program.

H. P. WEBB,  
Superintendent of Schools.

### SELF PRESERVATION

At a Toronto fair a woman won the rolling pin contest, and a little later her husband won the 100 yard dash. We wonder if there was any connection between the two.

### Sudan's Great Enterprise Is Now Installed. Will Be Open to the Public on Saturday, February 9.

The mammoth Smith Hatchery, installed by the Weimhold Commercial Hatchery company, is now ready for operation, and on Saturday, February 9th, a formal opening and demonstration will be held, from 2:30 to 5:00 p. m. At this time any and all citizens who are at all interested in the expansion and building up of the poultry interests of Sudan and Lamb county are cordially invited to attend and view the monster hen. The capacity of

Co-operative Marketing ..... Lee Humphrey  
Advantage of Custom Hatching ..... Speaker from Tech  
Care of Eggs for Hatching ..... Mr. Daughtrey  
Culling for Production ..... Ross Newton

### The Hatchery Versus the Hen

Hatching of chicks in Egypt has been conducted on a commercial basis for so many years that hens have completely abandoned the idea of wanting to set on eggs, we are told. Whether or not hens in this country will ever reach that stage is hard to say, but certain it is that more and more farms each year are being stocked with chicks which first saw the light of day in an incubator. Fifty years ago, hens did most of the hatching of chicks in this country. Thirty-four years ago the first shipment of baby chicks was made, and the hatchery industry became a reality. In the years since then there have sprung up about 10,000 hatcheries throughout the United States selling annually a total of about 500,000,000 chicks. Although poultry raisers take many of these chicks, the larger part of them go to farms, because the farmer is finding it a far more economical, more convenient and a much safer plan to purchase his chicks already hatched than try to hatch them himself.—Crosbyton Review.

this foster mother of the chick is 52,000 eggs, and when stocked to capacity, chicks will be hatching regularly every three days.

On this date (Saturday) the hatchery will receive eggs for setting on the following Monday. All prospective patrons are asked to take due notice of this date as it is the wish of the promoters that no delay or hitch occur to interfere with the smooth and regular routine of the business once it is launched on its useful mission.

Come in Saturday, bring all the eggs you can contribute, and let's see if Sudan has builded big enough to meet the needs of our section.

### Cooperative Marketing School in March

The Third Annual School of Co-operative Marketing at A. & M. College is scheduled to be held on March 5th 6th and 7th, according to announcement of Director O. B. Martin. As in previous schools, the sessions are being arranged by Dr. V. P. Lee of the School of Agriculture in cooperation with the Agricultural Extension Service, and the U. S. Bureau of Agricultural Economics. The gathering is designed primarily as a clearing house for the latest information on cooperation in the United States and particularly in Texas, and makes its appeal chiefly to Extension workers, cooperative marketing association officials and students of the movement.

Sunday morning while starting a fire, Mr. L. O. Rodden came near having a serious accident. He mis-took gasoline for kerosene, which caused an explosion, burning him about the face. Dr. Foote reports him getting along nicely.

### A BILL THAT SHOULD BE KILLED!

An act to regulate the installation and the operation of cotton gins providing for better and uniform service to the farmer in the separation of the seed and the preserving of the staple, declaring gins to be public utilities, placing them under control of a ginners' commission to be composed of the Commissioner of Agriculture, a farmer and a ginmer to be styled "Ginners' Commission."

If anything were needed to evidence to the farmers of Texas the tremendous powers for good of the Farm Bureau, the above will prove amply sufficient. It is part of the caption of a bill introduced in the Texas legislature for passage under the head of an "emergency." Falling in their efforts to bind the cotton planters hand and foot, the Big Fellows of the ginning industry have at last turned to the legislature to further their efforts.

After declaring, in Section 1 of the proposed measure, "That said ginning of cotton, from the nature of the business, is a monopoly," the proponents of the measure propose to place the entire industry in the hands of a Ginners Commission, to be composed of the Commissioner of Agriculture, one ginmer, and grower of cotton, the two latter to be appointed by the Governor of Texas. To this trio it is proposed to delegate full powers to regulate and control the entire ginning industry of the state.

In their desperate fight for control, the Big Fellows even go so far as to propose, in Section 14 of the proposed measure, that "No person, corporation, or association of persons shall be permitted to engage in the business of ginning cotton within the state of Texas without first having procured a permit or license for such purpose from the Ginners Commission of Texas."

The supreme nerve of the Big Ones! Cotton ginning a "monopoly!" What cuts them deepest is the fact that ginning is NOT a monopoly, and their little pet measure would make of it a monopoly—tightly under their own control.

If the planters and independent ginners, scattered all over the great commonwealth of Texas, propose to take this strangling measure lying down, then all we can say is that the old love of freedom which has been the proud boast of Texans since there has been a Texas—is dead.

### Will Establish Chain of Poultry Farms. Many Interested in Possibilities in Lamb County.

You can't keep a good people down. The citizens of Sudan are possessed of a spirit of "go-ahead" that brooks no opposition and hesitates for no discouragements.

Some time ago an organization was formed with a view to greatly expanding the poultry industry of southwestern Lamb county. With this end in view two tracts of land, lying contiguous to the town of Sudan, the property of Mr. P. E. Boesen, have been subdivided into ten-acre tracts suitable for poultry farms and placed on the market.

That the advantages of this section appeal to practical poultry raisers, is evidenced by the fact that already a number of these tracts have been placed and reliable parties have obligated themselves to develop the properties for poultry production. Negotiations are going forward for disposal of other tracts of this property for the same purpose.

To Mr. and Mrs. W. H. Corzine of Shamrock, Texas, goes the credit of being the first to see the practical advantages of this location, and they are the owners of the first tract, which they will stock with thoroughbred poultry.

This is a far-sighted move—both on the part of the promoters of this colony and the purchasers and developers of the farms. Sudan, the past season, realized from her poultry shipments the comfortable sum of \$100,000. With this industry largely expanded—as cannot fall when these properties are developed—the future for this industry is rosy indeed.

### DANIEL-PIERCE

Mr. C. A. Daniel and Mrs. Hester Pierce were married Sunday afternoon at the home of the former by Justice Shuttlesworth. Both are well known in this territory. Mr. Daniel being present County Commissioner.

They will be at home in Sudan where Mr. Daniel has large holdings.

### HOLT'S GROCERY TO MOVE INTO NEW BRICK

The grocery firm of A. M. Holt & Sons will move its stock of groceries from the present location (the Caruth building) to one of the new brick buildings on Main Street which is being completed this week. The removal will take place sometime next week and the firm will hold a formal opening on Saturday, February 16th. Watch for the announcement next week.

### Death Calls Aged Citizen of Lariat

(State Line Tribune.)  
Funeral services for T. D. Robertson, 71, who died at the family home at Lariat, eight miles southeast of this city, Wednesday at 11 a. m., were conducted this afternoon at the Oklahoma Lane school house by Rev. M. M. Robinett and burial took place in the newly established cemetery one and one-half miles south of the school house.  
Born in Clay county, Alabama, September 8, 1857, Mr. Robertson has spent practically his entire life in Texas. For seven years he lived in Canada and has been a resident of Farmer county for the past twelve years.

Mr. and Mrs. S. May of Rule are visiting the latter's parents, Mr. and Mrs. L. N. Rector, and family this week.

Mrs. Maurice Small returned from Tahoka, where she has been visiting her parents.

### Weimhold's Commercial Hatchery Secures Economy Feed Account

A deal was closed during the past week with the Economy Mills of Lubbock in which Weimhold's Commercial Hatchery secured the exclusive sales right for Sudan of the well known poultry, cow and pig feeds manufactured by the Economy Mills. The Hatchery received its first shipment Tuesday and will be in position in the future to supply farmers and producers with Milk-A-Way, and Protein Sweet Feed for cows, Protein Supplement Pig Feed and Tackage for hogs, Baby Chick

### Build Sudan by Trading at Home

You cannot possibly build Sudan by taking your produce to some foreign mart and disposing of it there. There is only one way to make Sudan the metropolis of the South Plains and that is to pour your produce into her markets and make of her the receiving and shipping center of the County.

From the looks of things statistical, it appears that Sudan has contributed her part in the way of cotton and other products to foreign ports for their uplift and upbuilding, for their industrial enterprises, their paved streets, brick edifices, and municipal and private undertakings.

Sudan has markets of her own, good ones, in every line of produce, has a list of representative buyers on the ground, eager and willing to pay the highest market price for all sorts of stuff. It has mercantile houses which offer bargains for the purchaser which are second to none in this territory, where your dollar buys a dollar's worth of quality merchandise; yet some of our producers have journeyed to foreign ports and assisted them in building up opposition and competition to Sudan, and intentionally, too.

It appears to us that we are a little dense when it comes to a definite and intelligent explanation of why a Sudanite should be a foreign port patron. We can not understand why a Sudanite should be interested in building up some other city at the expense of his own, and leaving his money there, with never a chance of seeing it again, getting a second chance at it, or even caring where it goes. We are dense in this understanding.

Sudan has obligations—business, civic, social and religious—and unless her citizenry get under these burdens and shoulder them, they must inevitably go at loose ends. But to assume and carry out these obligations takes money—patronage, support. If the natural resources of Sudan and Lamb county are handled by other sections, naturally the revenues resulting are absorbed by those localities. They are not available for our use. These other localities have their own obligations to discharge, and naturally they are reaching out for trade with which to finance themselves. But it is the height of folly for a rich community to literally give away its opportunities for the enrichment of a neighboring community which cares not one straw for us except as to the amount of profit to be derived from us.

Trade at home, and we all benefit.

### C. H. NICHOLS NOW OWNER OF "M" SYSTEM

Mr. C. H. Nichols, who recently moved to Sudan, has purchased the "M" System store of L. C. Grissom and is in charge of this institution.  
Mr. Grissom, established the "M" something over a year ago and under his management has made the "M" one of the most popular places in town.  
Mr. Grissom has not decided as to his future plans.

### STURGIS-HARRIS MARKET MOVED TO COOPER GROCERY

Sturgis & Harris have moved their meat market from the "M" store to Cooper's Grocery and have made considerable improvement in their equipment. The market was moved the latter part of last week.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.

"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE."

AN EXPLANATION

The News feel that an apology—no, not an apology, but an explanation—is due our patrons concerning conditions in the plant the past week.

For some time certain improvements have been badly needed in the plant in order to render the service it has always been our ambition to give. Too long we put off from week to week the task of making these changes. But at last the time arrives, when they must be put in effect or our service to the public would be impaired.

So, though realizing that this would cause more or less inconvenience to our patrons, not to mention care and hard work for the entire personnel of the office, we nerved ourselves to begin, and the work, was started. This has consumed the past week and is still not completed; but at last the situation is fairly in hand and conditions will rapidly improve.

By the time this paper reaches the readers it is hoped The Sudan News will be in position to render a class of service, higher, more prompt and more efficient than has heretofore been possible. It is our profound feeling that nothing we can offer is too good for our patrons, and we shall give of our best.

We thank you one and all for your forbearance and hope to demonstrate our appreciation of same in the future.

ST. VALENTINE'S DAY

Every now and then some special festival or holiday is announced and in one way or another, particular observance is made, with often a suspension of general business affairs and concentrated effort to mark the occasion.

Saint Valentine's Day, however, will not be a holiday for everybody. It has for years and years been dreaded by the postoffice department, for cupid, the god of love, has a way of sending his darts by mail to an alarming extent.

February 14, chosen as a time when even the bashful swain may express his burning affection without hesitancy—in verse or prose—is just a little ahead of springtime in most localities, and therefore "saying it with flowers" is rather expensive.

There is no harm in the observance of such an anniversary, and the fact that so many take note of the opportunity and mark it with a special act or deed, is proof that the world is still young.

PAPER IS READ

Newspapers are read. Just let some one do something a little shady or let some member of the family get into a little trouble and they immediately drop around to the newspaper office, corner the editor and ask that this little bit of news be suppressed, which is evidence enough they believe the paper is read.

HAND IN HAND

The automobile and also the airplane have just had their best year in history. Yet neither industry seems to be jealous of the other. The fact seems to be that each profits by the interest people are taking in transportation in general and that airports and good roads go hand in hand.

WORKS BOTH WAYS

We knew it was coming. Now a man has been elected as general secretary of the Daughters of America. The fact is he was chosen to succeed his dead wife, who was an executive of the organization for more than 30 years. We have been electing women to congress to succeed their departed husbands and here is a courteous comeback on the part of the women. It may seem funny to see a set of whiskers running the offices of the Daughters of America, but this is a funny world, anyway.

THE ROAD MAKERS

Projects are under way in the nation that will call for the construction of over 40,000 miles of new highway this year. This will cost in the neighborhood of two billion dollars and furnish a lot of us with a much-needed place to go. But have we ever been anywhere on the roads we have?

LATEST MODEL

Advices from the front are that Grandma has parked her spinning wheel for good and taken a firm grip on the steering wheel in its stead.

Three weeks till the first of March. How's the coal pile?

Holidays make February a shorter month, even than it is on the calendar.

Many mites are mighty.

Still waters run steep.

Time flies in this aviation age.

When in doubt, pay your debts.

None are so blonde as those who bleach.

A bad rumor can spread like hot butter.

Half the world is moving on the green light.

We trust your good resolutions are still intact.

The best way to avoid the flu is not to catch it.

Rumor is a mighty poor foundation for a news story.

Will non-stop around the world flights soon be realized?

Another good slogan for safe driving is to do your hurrying before you start.

What would be a suitable sentence for that fraud who predicted a coldless winter?

The office seeker can never be quite sure whether he is looking for glory or trouble.

The old expression, "hold your horses," will have to be changed to something more modern.

County fairs stimulate competition, and urge farmers to greater efforts toward perfection.

Not many people know who St. Valentine was, but everybody recognizes that he started something.

Still, until the automobile has learned to change its own tires there will always be room for improvements.

A woman's clothes are her sentiments expressed in fabrics, says an exchange. And some of 'em are few sentiments.

The oldest doctor in England has just died at the ripe age of 99. At least, he was a good advertisement for his profession.

Farm relief for this session has been abandoned, it is announced. What, if anything, did those trusting sons of the soil really expect?

NOT MORE BUT BETTER COWS

Dr. J. C. McDowell of the Bureau of Dairy Industry, writing in the yearbook of Agriculture, suggests that the dairymen's slogan should be "Not More But Better Cows".

"A tabulation of more than 100,000 yearly individual records from cows on test in dairy-herd improvement association", states Mr. McDowell, "has shown a rapid and almost constant gain in income over cost of feed as production grows to the highest ones.

"The cows that produced 100 lbs. of butterfat a year brought in an average income of \$14 over cost of feed. Those that produced 200 lbs of butterfat a year brought in an income of \$54 over cost of feed. At 3000 pounds of butterfat a year per cow this income was \$96, at 400 lbs. it was \$138, and at 500 pounds it was \$178. Thus for every 100 lbs gain in butterfat there was a gain of about \$40 in income over cost of feed. These figures are based on farm prices from all parts of the country, including the whole-milk districts."

This statement includes the farmers of this community as well as any other community are receiving only \$14 per cow increase over cost of feed? Keep fair figures on your cows and let's see if it is us. Just try this for one month, weighing the milk and butterfat from each milking.

There have been several farmers with whom I have talked are interested in shipping a carload of Guernseys and Jerseys to this community. I am trying at the present time to get a carload of highbred high producing Guernsey heifers shipped into this community. Let's get the cow that will return us \$150 per year per cow and get rid of our \$14 cows.

If I do not get to see you personally then see me; or at least let me know you are interested, and I will call on you. Let's get them here within a month as now is the best time for shipping.

R. J. Newton

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as children, loss of appetite and weight, grinding the teeth and restlessness, itching of the nose and anal, abdominal pains. And, the same medicine that surely and harmlessly cures round and pin worms from children will do the same for adults—White Cream Vermifuge, which you can get

### What's Doing in West Texas

The latest fire fighting equipment including pumper, special hose, pressure hose for fires inside residences and ladder equipment mounted on a large Reo truck has been purchased by the city of White Deer. The truck will be paid for by the decrease in key rate fire insurance.

Soundings are being made preparatory to excavating for the new building of the American Telephone and Telegraph Company at Cisco. The building will have four stories and will probably house division headquarters.

Chillicothe has installed the green, red and amber traffic light system on two of their busiest streets thereby laying claim to being one of the smallest cities in the state to find such traffic directions necessary.

Bids are being advertised for the first resident pavement to be done in Colorado, to be opened by the city council February 20. The paving will consist of eight blocks.

A new butter factory has been installed at the Hope milk plant in Sweetwater, and will add an additional consuming unit for the cream produced in that section. The plant has increased the amount of sweet milk used from 100 gallons a year and a half ago, to over 700 gallons now.

Contract for the addition of ten stories to the Crawford Hotel at Big Spring will be let within 40 days, according to the owner, A. J. Crawford. A remodeled lobby, a large mezzanine lounge, private dining rooms, banquet hall with a seating capacity of 300, and a reception room will be added, with 102 guest rooms added to the present.

Wanted—I have force enough to cultivate and gather 200 acres of crop—apply at this office.

FOR SALE OR TRADE—One good Holton-Clarke model cornet in good condition—Apply at this office.

### Glycerin Mixture Stops Constipation

The simple mixture of glycerin buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel. H. G. Ramby, Druggist.

### Personal Mention

Bill Fouch and family of Clarendon have moved to their farm three miles south of Sudan. Mr. and Mrs. Fouch are progressive farmers. Mrs. Fouch has 500 thoroughbred Rhode Island Red chickens.

Mrs. G. O. Sharman of Circleback underwent an operation for appendicitis one day last week and is reported to be getting along nicely. Mr. and Mrs. Sharman run the Circleback Grocery Store.

Born to Mr. and Mrs. L. O. Testaman, 6 miles south of town, a baby girl on the 22nd of January.

O. L. Allen and family and Mr. and Mrs. Scott Edwards moved to Yates, New Mexico, the latter part of last week.

Mr. Hubbard of Killen, who is now at the Grady Hilliard home, is recovering from a seige of pneumonia. His mother is with him now.

Mr. McMahan, who resides on the Parker farm, was in town Saturday, the first time since recovering from pneumonia. Mr McMahan has been enjoying a visit from his father and brother, of Hopkins county.

W. W. Eaton had the misfortune to break his arm one day last week while working in the blacksmith shop.

Judge Hay received word from his sister, Mrs. Le Bou, of Chicago, stating that she had lost her husband. It will be remembered that she visited here with Mr. Hay some time ago.

The Whippet agency at this place reports the following sales: F. M. Shelton, 6 cylinder coach; Bill McGlamony, O. D. Cobb, J. E. Dryden and Jack Hale, 4 cylinder coaches.

Mrs. N. D. Hoover of Lubbock spent last week-end with her parents, Mr. and Mrs. O. Massey. Mr. and Mrs. H. Massey accompanied her home and went on to Big Spring where they will visit relatives.

Mrs. Sam H. Cobb and little son, of Columbus, Ohio, are guests this week of Mr. and Mrs. S. D. Hay and family. Mrs. Cobb is a sister of Mrs. Hay.

George Ruscoe returned Monday from Ralls where he has been visiting and attending to business matters.

E. Cobb of Seagraves, who formerly made his home here is visiting relatives and friends in Sudan this week.

Mr. and Mrs. H. G. Ramby and Mr. and Mrs. B. R. Haney spent Sunday in Tucumcari, N. M.

Mr. and Mrs. J. B. Kerby of Brownfield visited with the editor and family Sunday. Mr. Kerby was superintendent of the schools at Odell when the editor lived there.

Mrs. W. B. Willis of Lubbock spent Sunday in the J. M. Carruth home.

Mrs. W. N. Humphrey and children of Clovis N. M. spent the week-end with her father, F. P. Wilson, and daughters.

Mrs. J. J. Franks is visiting her daughter Mrs. Jones, in Muleshoe, this week.

Little Billie Hooten son of Rev. and Mrs. C. R. Hooten, is confined to his bed with a mild case of scarlet fever.

### Unintentional Suicides

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. The surest and pleasantest relief for this condition is Listerine, the vegetable cathartic which acts in the natural way. Get a bottle today from H. G. Ramby Drug Store.

### FIFTY-FIFTY

Pat Murphy was taking his first flight in an airplane. The pilot was taking him over New York City. When they were up about 2,000 feet the plane suddenly went into a nose-dive.

"Ha, ha!" laughed the pilot, shouting to Pat. "Fifty per cent of the people down there thought we were falling."

"Bogorra," admitted Pat, "and 50 per cent of the people up here thought so too."—Stratford Beacon-Herald.

## Polyvalent Bacterin Mixed (Avian)

For prevention and treatment of so-called "mixed infections" in poultry, as encountered in fowl cholera, roup, chicken-pox and their complications.

### Mulford Polyvalent Bacterin Mixed (Avian)

is a mixed-infection bacterin offered for use in raising the resistance of fowls to these secondary invaders, thereby assisting in controlling and reducing the mortality occasioned by these organisms. This product is a killed bacterial vaccine, each cc containing 20 billion killed bacteria approximately as follows:

B. avicpticus	5 billion
Staphylococcus (FFowl)	4 billion
Streptococcus (Veterinary)	2 billion
B. coli (Veterinary)	2 billion
B. Pyocyaneus (Key Strains)	2 billion
Pseudodiphtheria (Key Strains)	2 billion

## Why It... Runs Better Than New

What we would like to hear our customers tell of us in telling their friends is that "The old bus is right, and mister, I MEAN IT IS RIGHT. Sure it is. Look who overhauled it."

Unless the customer is a mechanic of sorts himself, he may think he had something to do with it in getting it to run right. Well, at that he may have. He picked us and our place.

But what he does not know or appreciate is just this: Automobile servicing is an art just as fine as building watches, airplanes, or automobiles.

You know that it takes precision equipment to check up on an automobile and determine what ails it. The "Doc" uses a thermometer to get a line on you—we use a micrometer to measure the anatomy of the automobile.

Did you ever read Irvin Cobb's "Speaking of Operations?" If you haven't, get a copy and enjoy another fellow's misery. Having been through the mill, we know just how Irvin felt. We recall especially how he said he felt when he looked over all the equipment in the "service room" after they hauled him in on a "dolly" and stretched him out on the "service rack." There were a lot of bright and shiny "tools and equipment" laid out ready for use—enough to discourage any fellow. But just imagine how he would have felt if all the "Doc" had to do the work with had turned out to be a hammer and a cold chisel, with a busted valve lifter to pin on arteries. Good night, nurse.

Because of science, however, Irvin Cobb came out of the shop "running" better than he had when new. That, we are certain, was our own experience and the experience of a lot of you.

But, concerning automobiles. Our customers come to us with a smile after it is over and say, "Why, it runs better than new."

"Go to the Hutto Hospital for your car operation," says your good friend. They are well equipped and can take good care of you."

### USE THE LOCAL PAPER

Commercial clubs are frequently blamed for not getting out more "best literature" to be sent abroad, says a new exchange. Those who raise these complaints could do a great deal for themselves by sending out the literature that comes into their own hands in the form of the local newspaper.

Rest assured there is no business individual in Sudan more interested in the growth of his community than is the editor, for as the city grows he grows.

## Breezes From the Public School

It is often said that the schools of any town are the best thing in the town, but with the steady growth of the enrollment and standing of this school it is getting to be such a big proposition that it overshadows completely everything else, not only in this town but of the entire country about.

The Junior class begin this week with the presentation of the news of the schools for a space of four weeks. This will be our last appearance in print until we are seniors. What will the year make when we have passed into seniors rank? This question is continually confronting us. In a few months more, next September, to be exact, we shall begin to answer the question. A few things may be said of us this year even if we are only juniors. We are important in extra curricular activities we average well in percentage of student obligations. Our grades on a percentage of passes for the first semester of the school are as follows:

Biology, 100%.  
Spanish II, 100%.  
American History, 97%.  
Geometry, 95%.

But English seems to be the stumbling block of the junior class. There we averaged only 38% passing. This we know: We must make that better this semester or next year there will be a woeful deficiency in the numbers of the seniors to be in Sudan High School.

School is still growing in numbers. There are Tuesday of this week enrolled in this school in total 690 pupils. A few months ago, we set 700 as our goal, but soon we shall have passed that. Will 800 be the next goal? If so, another year will see us beyond that. Of the sixteen new pupils this week, there are two in the junior class; these are Misses Alice and Esther Bural from Canyon Teachers' College where they have been in the training school. We are glad to have them with us, and predict a happy school life for them. Two other recent additions have been senior boys, Messrs. Thurman Glascock and Rufus Gidbreath. These young men are from the Muleshoe High School, having graduated there last year, but must be back again here to remove college entrance conditions as they cannot go from their home school to college.

Since our last notice, we have had our four hundredth visitor, also. He was a local man, C. P. Whitwell. Mr. Whitwell is a blacksmith and wood workman of our town. To his energy and ability the school is indebted for a number of its school bus bodies. It may be fair to state here that recently he made Mr. Dyer's bus body over so that he could carry his load. This load now amounts to considerably over \$9. Our total bus load this week has run as high as \$30, the highest since October 7 last, when we transported 255 pupils and two teachers.

We are glad to report that Coach Brown is back in school after an attack of inflammatory rheumatism that took him to his home in Halls. He tells us wonderful reports of how Hall Jackrabbits are working three hours daily at basketball in their gymnasium. So would we if we had a gymnasium. It seems that our neighbors are not playing us fair simply because we have no gymnasium. Only one team has ever returned a game that we had matched on a home-and-home basis. That school is Spring Lake. Next week we are to play our county basketball tournament. The outlook for us in it in the middle of February is dark. The weather is so unfavorable that we have little opportunity for practice. Some day we shall have a gymnasium. Then we can practice every day, and by using the platoon system every child can get exercise every day regardless of the weather.

Two chapel programs of special interest have been put on in chapel recently. The first was put on by Mrs. Franks with home demonstration girls. The other was by the science classes of Messrs. Newton and Talbott. The program by Mrs. Franks was a presentation on the stage of an old photograph album, using living pictures of her pupils instead of colors. It was great. The science program was splendid, especially when the boys made the stuff with the wonderful (?) smell. It seemed that they got almost enough to counteract the scent of the feet of the sophomores and freshmen. Next Monday the history and economics classes will present "something new," so they tell us. If you are interested you'd better be here.

The Spanish club had an interesting meeting last week. They presented a Spanish play which was enjoyed by all the members. The club is planning an educational trip to New Mexico at an early date. The grammar school reports five additional volumes added to the library of the low fourth grade room. Miss Jackson and Miss Love visited in Lubbock last week-end. The men made a change for Miss McMillan last Tuesday. They gave her the big radiator in the corridor of the grammar school, making hers the heaviest radiation in the entire system, but the little children need more radiation than larger ones.

Among the extra curricular activities of the juniors have been notable the following pupils: In basketball, Marvin Thomas, Arthur Shuttlesworth, Jack Lenderson, Coleman Terrell, Doyle Terrell, Artie Lee Hicks, and Misses Ina Yoakum and Elsie Carpenter. In football we furnished Arthur Shuttlesworth, Ted Holden (Captain), and Clem Scott. Pauline Dent is leader of the Pep Squad. It may be worth note that there is some talk of Ted Holden joining the football squad when Coach Brown calls his boys next August.

The juniors are very proud of a gift sent them by Ted Holden recently. It is a splendid painting of Old Ironsides, our first great battleship. Ted framed it, finished it, and sent it to his class from Redland, California. The seventh grade are missing Bernice Brothers from their midst. He is out with pneumonia, but is reported doing extremely well. We are glad to report that our superintendent and principal, Messrs. Wilkins and Talbott, have been re-elected for next year. This means that we shall probably have much of our present staff with us another year. We are informed that Mr. Findley was re-elected care taker of the buildings and grounds. This is a wise selection, as he is rated by our out-of-town visitors the best janitor in Texas.

Our English teacher, Miss Bond, spent the week-end with her mother in Texico. Mr. and Mrs. Wilkins spent Sunday in Lubbock with their daughter, Mrs. B. C. Wells, who was reported ill. They report her about well again, though. Middle of this week finds Mr. Talbott out of school with Mrs. Talbott pinch-hitting for him in the school. Contributed by the Junior Class.

While driving Sunday, Mr. and Mrs. Fargerson overturned their car, breaking several of Mr. Fargerson's ribs, but Mrs. Fargerson escaped injury. Born to Mr. and Mrs. Claude Pope, a baby boy on January 30th. Both mother and baby are doing nicely. Miss Clifford Shaffer, who teaches at Earth, spent the week-end with her parents. Sheriff H. O. Douglas of Muleshoe was in Sudan Wednesday. He made one arrest, taking his man back with him. Mrs. I. W. Iretton is confined to her room this week on account of illness.

**Every Woman Knows**  
Every woman knows how easy it is to burn or scald herself while working in her home. Every woman knows that these burns and scalds are painful and sometimes very serious. Every woman should know that the pain of burns and scalds will be quickly relieved if infection positively prevented and speedy healing assured. Liquid Borzone is instantly available. ### NEW CROP EACH YEAR

A Danville, Illinois, newspaper recently was printed on paper made from corn stalks. If a person had said five or ten years ago that such a thing were possible he would hardly have received an audience with reasonable men.

There are plenty of corn stalks in the world, and a new crop can be produced each year. That's where it has an advantage over wood-pulp. There's room for a substitute for wood in the making of newspaper.

News Want Ads bring results.

## The Fittest Survive

The nations of Earth long ages ago have always prepared to cope with some foe. The fittest survive, but they must be brave. For future prepare, be frugal and save. The way to prepare for life's battles, too, is to save up plenty to carry you thru. The man who is thrifty and saves up ahead, The battles of life need not so much dread. The FIRST NATIONAL BANK believes every man should always use the "safety first" plan.

## "Build us an Outstanding Tire at a MODERATE price!"

—and Goodyear engineers now answer this difficult challenge with dramatic success

Time after time, the history of tire-building has been illuminated by Goodyear achievements in quality.

Now Goodyear announces a new achievement—an economic triumph—in the field of low-price tires. It offers to the American motorist who wishes to pay a moderate price for his tires, a tire outstandingly superior in quality and value—the new Goodyear Pathfinder.

Just look at the illustration of rugged it is. See how massive and rugged it is. See how deep-cut and handsome is its thick and surefooted tread. In appearance and construction, it's a real Goodyear through and through.

In the manufacture of this great new Goodyear-Pathfinder, no effort has been spared to produce a balanced tire, with all parts equally durable. The body is made of genuine Goodyear Supertwist cord, the matchlessly elastic vitality of which insures against premature fatigue or failure.

The heavy tread of special Goodyear pattern is wide—designed for slow, even wear—and it embodies also an exceptional degree of traction and no-skid protection.

The materials in the tread reflect the same principles of rubber toughening as distinguish the famous Goodyear All-Weather, and every rubber-mill batch of material is tested and controlled to the strict Goodyear standard.

Do not make the mistake of considering this new Pathfinder a "second-line" tire because of its low price. It is "first-line" quality and superior in most cases to the highest price tires built by many manufacturers.

Built in both High-Pressure and Balloon sizes, Goodyear dealers stand ready to back up the tire's merit with their on-the-ground, money-saving service.

Try the new Goodyear Pathfinder and see how much farther your tire money goes than ever before.
