A BROTHER'S HEROIC EXAMPLE

Recent months have not been a good time for people who like to keep a strong faith in human nature. There has been a good deal of news of stupidity, venality and perversity in high places—almost enough to convince one that the race is a pretty shabby affair.

But now and then there will be a little story about some utterly unknown, perfectly ordinary individual that will turn the tide; a story that helps to restore one's belief that mankind is, after all, capable of very great and noble things.

Such a story got into the papers the other day from Canyon City, Colo.

Tom and George Embleton, brothers, were digging a well, assisted by their father. They got the well shaft 60 feet deep, and then George was lowered to the bottom in a bucket to set off a dynamite blast. He lit the fuse and ordered them to hoist him out. They began to do so—and the rope broke. George fell to the bottom, knocked unconscious and lay

right on top of a charge of dynamite that was certain to explode very shortly.

The two men at the top would have been amply justified in staying there, waiting in frozen horror for the tragedy. But Tom, without hesitation, got into the bucket and ordered his father to lower him into the well—into the well where a high explosive was due to go off in a few seconds.

Unfortunately, he was unable to save his brother. The dynamite went off when Tom was only half way down the shaft. He went to the bottom, picked up his brother's broken body and brought it to the surface, but it was too late. George was fatally injured.

But you will go a long way before you find a finer example of real bravery than Tom displayed.

Physical courage, of course, is common enough. Millions of soldiers displayed it in profusion during the World War. But there is always something immensely heartening about it. To see a man who is ready to act on the belief that there is something immensely more important than saving his own skin restores one's faith in the entire race.

NINETY TWO BOYS AT-TEND 4-H ENCAMPMENT

Ninety-two boys representing 54-H Clubs in Lamb County attended the first annual 4-H Encampment last Friday and Saturday at Amherst. The Olton 4-H Club had the largest delegation having 13 boys, and 4 adults at the meeting, and their trip was sponsored by C. E. Bley Adult leader of the Olton Club.

The Lamb County boys 4-H Council was organized and is composed of the president and secretary of each club, and are to have regular monthly meetings to outline 4-H Club work in Lamb County.

P. E. Boesen, of Sudan, made a talk on the relation of 4-H Club work to the banker, and also, gave some vital pointers to the boys who are going to feed calves this winter in their club work.

County Agent D. A. Adam, discussed records, calf club work and held a demonstration on the selection of heads for the

oncoming fair, and discussed the Annual Lamb County fair which is to be built around the 4-H Clubs of this county.

J. W. Hale, Sec'y-Manager of the Littlefield Chamber of Commerce, and Dr. Ira E. Woods, president, made talks at the night session.

Games, Boxing, and other entertainment was enjoyed by the boys, and breakfast was cooked out in the open. The boys had two watermelon feasts.

It was voted by all of the boys to have this encampment annually.

Lamb County was represented at the Annual Farmers Short Course at the A. and M. College with 23 people, and from a mileage standpoint was probably the largest delegation there. Following are those who attended the Short Course: Mrs. W. C. Squires, Mrs. O. C. White, Mrs. A. D. Mellon, Mrs. H. A. Sheffield Betty Stewart, Mrs. Foster Lumpkin, Mrs. Joe Stark Mrs. Adron Jones, Irene Brown, Mrs. R.E.L. Rochelle, L. D. Rochelle, W. H. Cunningham, Jack Bradley, Robert Phillips, Verble Baker, Travis Winters, Winton Rochelle, James Walden, D. A. Adam, County Agent, and Ruby Mashburn, Home Demonstration Agent.

Lamb County Fair dates are September 16-17. Prepare your exhibits now, and let's have the biggest and best fair ever held in the history of Lamb County.

Lamb County Dairy Judging team placed fifth in the contest held at the Farmers Short Course.

Lamb County 4-H boys are meeting their first annual encampment at the Fair grounds in Amherst, Friday and Saturday, August 12 and 13.

Mr. Bley of Olton and Mr. Carruth are sponsoring the trip of the Olton 4-H club to Annual encampment.

Grape leaf hoppers are hard to control, but can best be hauled through dusting of Black Leaf 40 (noctine Sulphate) on the vines with some force. A spray will help, but is hardly as effective.

Those people in Lamb County desiring meat killing and curing demonstrations are urged to get in touch with the county agent soon, as dates will be set before very long.

SIXTY CONTESTING PLAN TO BE AT LUBBOCK, AUG. 23; ALSO STUNT FLYING

About sixty contesting planes will arrive at the Lubbock Municipal Airport about 3:30 p. m. next Tuesday, Aug 23, on the Western Wing of the derby, word from the Lubbock Chamber of Commerce indicates.

Automobile windshield stickers can be purchased from any of the larger service stations or the Chamber of Commerce office at Lubbock, these stickers to admit the car and all occupants to the airport for the show.

Immediately following the arrival of the contestants, three stunt flyers will stage a stunt show for one hour and a half.

NEW OFFICERS ELECTED FOR SOUTH PLAINS FAIR

Lubbock Texas, Aug.—W. G. McMillan, Lubbock contractor, has recently been elected president of the Panhandle South Plains Fair and preliminary arrangements for the holding of the nineteenth annual exposition, Sept. 26 to Oct. 1, are now being completed.

The Wortham Shows, the largest moving shows in the world, have been engaged for the entire six days of the fair. There will be plenty of other entertaining and amusement features, McMillan has announced.

Other new officers elected include: George A. Simmons, and S. E. Cone, vice-president, and Dr Fred W. Standefer, treasurer.

Our prescription department is managed by doctors who own their drugs and fill their own prescriptions.

A. B. Davis, manager since 1924 is again to have management of the fair.

"Directors of the fair are determined that there shall be no let-up in an effort to not only equal, but to excel all past fairs," McMillan has announced.

"The danger of standing still is evident. We solicit the active cooperation of all Plains people to the end that this year's exposition may again be a true "Show Window of the Plains" in order that the fair may fulfill its purpose, that of advertising to prospective new settlers the advantages and possibilities of the Plains of Texas and the educating and encouraging of home folks that great-

er strides of progress may be made."

EARTH TO EXPERIENCE ECLIPSE AUGUST 31ST

A partial eclipse of the sun will be visible in Sudan August 31, between 10 and 4 o'clock. Fifty per cent of the surface of the sun will be obscured. The spectacle will resemble sunset and will be visible all over the U. S. The cause of the phenomenon is that the moon will cast its shadow across the sun's face obscuring about half of it from people in the Panhandle Plains section. At some places over the earth residents will observe a total eclipse of the sun. Don't

forget to have your smoked glasses ready.

Enough has been said about prices the last two years to make merchants think that perhaps customers have forgotten that there is such a thing as quality . . . we mean quality at a reasonable and a fair price. It is true that today you may buy the finest foods at prices lower than any for years. But quality in foods has ever been our watchword—at reasonable prices!

NICHOLS GROCERY and MARKET

Trans-Continental Cord Derby Opens 1932 National Air Races

Great fleets of competing airplanes, piloted by men and women, will open the 1932 program of the National Air Races to be held at Cleveland, O., Aug. 27 to Sept. 5. These aircraft will be racing in the trans-continental Cord Cup Derby, with more than \$10,000 in cash, two Auburn automobiles, trophies and plaques as prizes. This great race starts Sunday, Aug. 21, one division leaving Washington, D. C., and another leaving Los Angeles. The groups will meet at Bartlesville, Okla., and race en masse to Cleveland, arriving at that city the first day of the air race program. Arrangements have been made for these racers to stop at a number of cities in the eastern, western, southern and central parts of the country. These cities, all enthused over aviation, are making elaborate preparations for the entertainment of the fliers and each will have an air show of its own.

FARM NOTES

The Lamb County Fair September 16-17 is the event that every farmer in Lamb County wants to attend, and bring in some exhibits of farm crops, canned goods, livestock, etc. This fair is to be educational, it is free, and no cash premiums will be given, although a nice ribbon will be given for the winners in each class. Those having livestock, whether they be registered or not, bring them in as we shall have a place for them.

4-H Club boys are planning to bring 150 exhibits to the fair according to survey made during the encampment last week. Ancil Miller—4-H boy of Amherst, reports his cotton demonstration the best in his whole community. It was properly thinned out, and during the dry spell has been making cotton, while some of the others have been suffering. Club boys are spacing their cotton demonstrations 6-12 inches.

Harold Hunt, reports that he expects to put most of his litter of pigs into Ham and bacon to sell this fall, instead of selling these on foot.

150 calves are going into the feed lot September 1.

Roy B. McQuatters, dairy demonstrator, reports that his cows

averaged 357.7 lbs butter fat for the last year from a total production of 35,990.5 lbs of milk, with an average test of 4.9. Total income from his herd was \$471.35, and total feed expense was \$116.77, leaving a net profit of \$354.58, and a cost of production for each pound of butter fat of .077.

OFFICIAL WEST TEXAS CHAMBER of COM. BAND

Anton, Aug.—Jimmy Thornhill, director, and the thirty piece Anton Municipal Band official West Texas Chamber of Commerce Band will be the official band at the National Air Races and Air Show at the Lubbock Municipal Airport at Lubbock, Aug. 23. Thornhill has announced.

The band will be seated in the midst of the crowds at the

airport and will keep up a steady concert of popular numbers during the time the sixty or more airplanes arrive and likewise during the hour and a half stunt show that will be staged by three of the nation's leading stunt flyers.

The show starts at 3:30 next Tuesday afternoon, Aug. 23.

The Anton band was named the official West Texas Chamber of Commerce band at the Sweetwater convention in May, competing with a larger number of bands from much larger places. Anton is by far the smallest town in West Texas ever to place a band in the field that took home such honors.

Mrs. W. C. Boyd and two sons of Olton, and Mrs. Welborn, of Wichita Falls, visited their brother, Tom Alderson and family Wednesday and Thursday.

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

● The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.

Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.

The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community welfare.

The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.

2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies.

THE TEXAS RAILROADS
