

The Sudan News

VOLUME IX

SUDAN, LAMB COUNTY, TEXAS. THURSDAY, NOVEMBER 23, 1933

NUMBER 21

FIRE DAMAGES COTTON WED'Y

Sudan citizens were aroused from their sleeping Wednesday morning at five when the fire siren was turned on, in answer to a call from the cotton yard where a fire was raging. About 40 bales were damaged, although only four were completely destroyed. The loss was estimated at about \$400.00 including the rebagging of the damaged bales. The fire was started by spontaneous combustion in one of the bales brought from a gin Tuesday evening, it spread rapidly to other bales in the yard, until stopped by the local firemen. The cotton belonged to local farmers and cotton buyers, and only a few bales were insured.

Plate Lunch At Janes M. E. Church Thanksgiving Night

The ladies of the Janes Methodist Missionary society will serve a plate lunch at seven p. m. Thanksgiving day, November 30, at the Janes Methodist church, eight and one-half miles south of Sudan. The charge is only 25c and those who attend are promised a real turkey feast with all of the trimmings. Everyone is invited to attend and help the ladies.

Sudan Negro Held On Liquor Charge

J. L. Pepper, a Sudan negro charged with retailing whiskey without a license, still was in Lubbock jail this morning in lieu of \$300 bond. Pepper was taken there late Monday by C. E. Luce, Sudan city marshal. The complaint, alleging a violation of the internal revenue act, was filed with United States Commissioner Victor H. Lindsey. This charge was filed, it is understood because of repeal of the prohibition amendment. Officers confiscated seven quarts of whiskey at Pepper's restaurant, it was alleged. After the negro's first questions was "Could I get a license?" Whether he had an answer was not reported.

Baptist Church Notes

We are perhaps a little late in making the announcement of the fact that we are now citizens of the town and are settled in the pastor's home where we shall be glad to meet the members and friends of the church. It is our desire to help wherever we can serve in advancing the cause of our Master. We trust we shall ever be found in the side of those that stand for the best interests of the town and community.

Though we have been here for a short time only, yet we find the people responsive and as a result the church is taking on renewed activity and interest, and our hearts are made happy as we think of the possibilities of the future. We are expecting the leaders of the work in the different departments to join in a united effort to push the work for the glory of the Lord and the salvation of the lost.

We have had several additions to the church since our coming. The more recent ones being Bro. Harris, wife and daughter, and Mrs. Kennedy. We are happy to have them come into our fellowship and trust others may speedily do so. We are having services each Sunday, both morning and night. You need not hesitate about whether to come or not for the church has gone back to full time and there will be preaching every Sunday. Even as bad as the weather was last Sunday, we had services both in the morning and at night. True the crowd for B. T. S. was small, but enough of the faithful ones came for us to have services. May we have the joy next Sunday?—Rev. C. A. Joiner, pastor.

Cotton Report Shows Decrease

According to the report given out by Warren H. Rutledge, cotton agent of Lamb county, 17,897 bales of cotton had been ginned in Lamb county prior to November 1, 1933, as compared to 29,858 for the same period in 1932.

Local Men Attend Meeting Called By Governor Ferguson

P. E. Boesen county chairman of the welfare board and W. W. Carpenter, mayor of Sudan, were among the county and city officials and others affiliated with unemployment in Texas, who attended the meeting called at Austin by Governor Miriam A. Ferguson Tuesday. County Judge Simon D. Hay attended the meeting with the local delegation.

Governor Miriam A. Ferguson, her husband, James E. Ferguson, Lawrence Westbrook, director of the civil works program and the Texas Relief Commission, and Dr. Carl C. Taylor of Washington, assistant federal director of subsistence homestead, conferred with county judges, mayors and relief workers.

191,000 to be Employed Westbrook said that approximately 191,000 Texans would be employed on state jobs and 48,000 on federal projects. He said in some cases, money allocated to Texas could be used for materials. He pointed out, however, that of 1,700 jobs approved by his office, the political subdivisions affected had promised to furnish the materials. He said that plan would furnish more money for the jobs.

Former Governor James E. Ferguson pleaded for co-operation in the work. He lauded President Roosevelt's NRA program and cautioned those not in sympathy with it "not to say anything about it."

He said: "This will not be a pork barrel spoils proposition. It is not a question of how one voted in a political campaign," he declared. "It is our duty to find the hungry and feed them and furnish work. If we can for the jobless irrespective of every other consideration."

Texas Can Not "Kick" Ferguson said Texas could not afford to "kick", pointing out that the Federal Government already had sent \$20,000,000 for distribution in this State and stood ready to make that much more available.

Texas voted to issue \$20,000,000 in state bonds, and the Legislature has authorized the sale of \$2,750,000 in securities at once bids to be received until December 1. The Federal Government has promised to match this money.

Dr. Taylor told the Texas Homestead Subsistence Committee that homestead colonies should be situated near diversified industries. He said it was desirable that those living on subsistence farms obtain a part of their income from industrial labor. That is why they should be near sources of employment that they be adjacent to large cities, Dr. Taylor said.

Car Registering Increases In Oct

A total of 4,229 passenger cars were registered during October in the seventeen most populous counties of Texas, an increase of 17 per cent over the 3,689 in September and 156 per cent above the 1,881 cars sold in October, 1932, according to figures compiled by the University of Texas Bureau of Business Research. During the first ten months of the current year registrations totaled 33,301, compared with 19,727 during the corresponding period of 1932.

Baileyboro Boy Suffered Injury

Venetha Miller of Baileyboro suffered a very painful accident Tuesday afternoon while helping his father stretch a fence. In some way in rounding the corner the crow bar which was holding the wire slipped, letting the wire cut through the young man's leg, reaching the bone. The boy was brought to Dr. Ford and the wound dressed. Last reports are that he is getting along nicely.

ATTEND MEETING Joe Foster and Reed Markham attended the lumbermen's meeting in Lubbock last week. Twenty counties of the Lubbock district met to discuss and receive instructions for compliance with the national retail lumber and building material code.

Nation Benefits From Jones' 16 Years Of Magnanimous Efforts In U. S. Congress

Writing legislative measures and sponsoring their passage through the House of Representatives, acting as an adviser in helping to get the agricultural adjustment program underway, helping the Panhandle and other parts of Texas to get a road relief program amounting to millions of dollars, and aiding in the organization of a unified farm credit set-up for Texas have been among the activities of Congressman Marvin Jones this year.

Congressman Jones has been one of the most active participants in the new administration, both as an experienced legislator and as chairman of the important Committee on Agriculture in the House of Representatives, as well as the only representative in Congress from the Panhandle section of Texas.

Mr. Jones became chairman of the House Committee on Agriculture in December, 1931, in the first session of the Seventy-Second Congress. This position came as the result of a long period of service on the Committee, and Mr. Jones has held this chairmanship since that time, still leading all agricultural activities in the House of Representatives.

During his early service as Committee chairman, Mr. Jones introduced and sponsored passage in the House of the farm allotment bill. At that time the membership in the House was almost evenly divided between Democrats and Republicans, only one out of 118 proposed amendments to the measure was adopted which was not agreed to by those in charge of the bill.

In this same session, Mr. Jones led through the House the agricultural credit corporation measure, and also legislation providing for the distribution of government cotton and wheat to the Red Cross for relief purposes.

In the second session of the Seventy-Second Congress, Mr. Jones continued his activity as chairman of the Committee by leading through the House the voluntary domestic allotment bill, the crop production loan act, and the Smith cotton bill.

When President Roosevelt assumed office in March of this year, a special session of Congress was called to enact emergency relief measures, and Mr. Jones was called to the White House frequently to participate in the formation of a recovery program, especially with relation to agriculture.

Mr. Jones piloted through the House the Administration's emergency farm adjustment measure, and introduced and actively sponsored the farm mortgage refinancing features of the farm act. He also led through the House the currency expansion section of the farm act, and later the combined measure in its final form, which President Roosevelt termed "the most far-reaching piece of legislation ever to be passed by Congress."

In the same session Mr. Jones also introduced and supported in the House the Farm Credit Act of 1933, which perfected the Farm Credit Administration and added to its facilities. During this session Mr. Jones also led through the House a measure amending the crop production loan act.

However, Mr. Jones' activities in the House of Representatives have not been confined to his period of service as chairman of the agriculture committee. For a number of years he has been a ranking member of this committee before becoming chairman, and has helped to shape a great deal of legislation.

Ever since his election to Congress in 1917, Mr. Jones has studied and taken an active part in matters relating to the South, and his record shows many and varied activities, among which the following will serve as examples:

Advocacy for a number of years and sponsoring of legislation enacted into law providing for research into possible new uses for cotton in order to increase the market for this product—a measure which has resulted in many additional outlets for cotton.

A consistent plea for abolition of useless governmental bureaus and consolidation of other bureaus with overlapping (Continued on back page)

OUR CONGRESSMAN

HON. MARVIN JONES

MONEY RETURNED WITHIN 3 HOURS AFTER ROBBERY

Within three hours after the Nichol's store at Beck gin was robbed, City Marshal G. E. Luce and Constable E. L. Weldon arrested a man 12 miles south of town and returned the \$29.00 to Mr. Nichols.

A man, who according to officers is out on a suspended sentence in Colorado, is being held in the Littlefield jail pending charges.

Mr. Nichols missed his key a few days ago, but having another one continued to use the same lock on his store. While he was out eating supper, some one entered the store by using the stolen key. The key was left in the door and a pair of gloves was on the counter. \$29.00 in cash was taken from the cash register.

The man arrested five miles south of Beck gin returned the \$29.00 to Mr. Nichols.

Christmas Present Arrives; On Display

Sudan's Christmas present to be given away December 23, 1933, has arrived and is now on display at the Chesher Chevrolet company.

The automobile is a Standard Chevrolet coach.

People who trade in Sudan are eligible for the car, and are urged to ask their merchants for further particulars.

5970 BALES OF COTTON GINNED

Up until Thursday afternoon Sudan's three gins had ginned 5,970 bales of cotton this season. This is an increase of 1,220 bales over last week, despite the rain. Gins are running almost the full 24 hours a day now, as the cotton is again rolling in.

If weather conditions permit the majority of this cotton will be out within the next ten days.

COTTON MARKET

Middling cotton was selling for 9.35 per hundred in Sudan Thursday afternoon, according to D. A. Welch, local cotton buyer.

Mary Frances Akard spent the week end visiting relatives and friends in Amarillo.

Holiday goods are now on display at Saunders Variety store. A deposit will hold any article; so you are urged to shop early.

J. E. Briggs and son, Dale, of Amarillo visited in the home of Mr. and Mrs. F. E. Miller over the weekend.

Wanted—4 or 5 pigs at this office.

WANTED—200 or 300 bundles negari of cane and cottonseed on subscription. The News.

Nelson Gives Report On RFC Progress At Business Men's Me't

At a regular meeting of the Business Men's club in banquet style at the Lam's cafe, many things of importance were discussed. V. C. Nelson, RFC administrator, gave another report on his progress in RFC work and also told what the RFC planned to do this winter.

Several hundred pounds of pork and other items of food to make a balanced ration will be received here for those in actual distress, according to Mr. Nelson. Money has been appropriated to pay rent for those who are unable to pay the rent for themselves, provided that the taxes were paid up in full on the house in which said tenant lived.

It is the intention of the RFC not to open any relief for aid, only for widows or those in actual distress. Men who are able to work and fail to do so need not apply for help, according to Mr. Nelson.

Medicine and eventually the assistance of a medical doctor will be provided for those who want to make the necessary application. Mr. Nelson impressed it very strongly that direct relief could only be given in cases of distressed widows or accident.

Over 300 applications have been received for highway work, and at the present it is impossible to employ more than 25, Mr. Nelson explained.

This relief work is a task which anyone would not be too enthusiastic about, and Mr. Nelson should be commended on his good work, patience, zeal and perseverance.

Several reports were heard from different parties in regard to the financial condition in other states. Mr. Salem reported that the large wholesale men of Kansas City Mo., told him that West Texas and especially this part of West Texas was in better condition than any of the forty states in which they were doing business. As stated by Mr. Nelson, "We should all thank God and take courage to face the future, because we are wonderfully blessed above all people."

The Committee of Self-Liquidating projects as sponsored by the West Texas Chamber of Commerce, has made due application for several projects in Sudan. If their efforts are successful there will be, or should be no one in Sudan and surrounding territory out of work for some length of time.

Rev. Sam A. Thomas thanked the Business Men's club for their gift of suit, hat and shoes.

Special effort was made to encourage the business men to think about giving away the car tickets. Business is so rushing at the present time that it will be necessary for the general public to call for their tickets. It was agreed among the business men to give away one ticket with each one dollar cash purchase or collection on account. The tickets are yours for the asking.

Sudan Merchants are receiving a hundred fold for their investment in the Business Men's club. Every loyal merchant should attend the meetings and do his part to make Sudan the biggest and best city on the Plains.

Commercial Failures. Decreases In October

A decrease of 65 per cent from October, 1932, was registered in the number of commercial failures reported in Texas for October, according to the University of Texas Bureau of Business Research. Failures totaled 33 in October, as compared with 93 during the corresponding month last year.

Liabilities of the firms that failed totaled \$3,189,000, an increase of 46 per cent over the \$2,180,000 in October last year, but assets of \$171,067 were 84 per cent less than \$1,088,000 a year ago.

The average liability per failure was \$96,636 in October, against \$23,516 in October, 1932, an increase of 311 per cent and the ratio of assets to liabilities was 5.4 per cent for October, 1933, compared with 50 per cent for October, 1932.

STRAYED—One cream colored dehorned Jersey cow from my place in Sudan Wednesday. Notify Charlie Nichols. tp

PLAN OFFERED TO GROWERS

The new cotton plan to be offered growers who sign Government contracts for 1934-35 provides for total payments of \$120,000,000 of which 90 millions are to be paid in the form of land rentals and 30 millions in "parity" payments, according to C. A. Cobb, chief of the Cotton Section of the Agricultural Adjustment Administration. In explaining details of the new plan to county farm and home demonstration agents at their annual meeting at A and M College last week Mr. Cobb emphasized that the plan is not yet in its final form and may be modified later.

As tentatively set up in the plan, land rentals will be paid on retired cotton acres at the rate of 3 cents per pound for the average five-years production. Land producing an average of 125 pounds of lint per acre for the years 1928-32, for instance, would be entitled to a rental of \$3.75 per acre. The minimum payment would be \$2.25 per acre for a production of 75 pounds of lint per acre, and the highest would be \$14 per acre.

Land rental payments are expected to go to land owners, with landlords making satisfactory arrangements with tenants. In the case of large properties where fewer tenants may be needed next year the Government will probably urge landlords to allow the dismissed tenants to remain in their houses and to work food and feed crops for their living out of the retired acres. For other necessities tenants may be able to work as day laborers for the landlord.

The "parity" payment promised is one cent per pound for 40 per cent of the average five-year production. It may be more. There is expected to be 30 millions of dollars available for these parity payments on 6 million bales of cotton, or \$5 per bale. This money is to be divided among the contract signers. The parity payment is expected to be divided between landlord and tenant according to their existing share agreements. A third and fourth ten and according to their existing share agreements. A third and fourth tenant, for example, would get three fourths of this payment or about \$3.75 per allotted bale.

Mr. Cobb expressed the belief that full details of the new plan will be available in the counties late in November and asked county agents to complete the sign-up campaign by January 15th.

S. S. Class To Render Thanksgiving Prog'm

A Thanksgiving program will be given at the Baptist church Thanksgiving eve by the members of Mrs. Harris' Sunday School class. The program is as follows:

Song by congregation. Welcome address—Judge Hazel. Prayer—Rev. Joiner. Scripture reading. A reading by Ouida Townsend. "What are we thankful for?"—Members of class. Reading—Kathleen Harding. Closing remarks—Rev. Joiner. Everyone is invited to this Thanksgiving service.

Rec's Feeder Calves

Paul Bros. and Kent received four cars of feeder calves last week, which they will feed out on their ranch west of Sudan.

Box Supper At Circleback, Friday Night

There will be a box supper at Circleback Friday night. The ladies are invited to bring boxes, and the men come prepared to buy the boxes which will be auctioned.

SUDAN TERRITORY RECEIVES RAIN

The Sudan territory received about 3-4 of an inch of rain Saturday night and Sunday afternoon. Rain began to fall about midnight and continued to drizzle until after day light. Then Sunday afternoon about five it began to rain again.

Farmers were able to again resume gathering their crops Tuesday.

Pyne Released On Bond After Death Of O. H. Stillman

C. C. Pyne, 57, charged with shooting O. H. Stillman to death with a shot gun last Thursday, has been released on \$2500 bond, according to Sheriff Len Irvin.

Deputy Sheriff Walraven said the shooting occurred about noon beside a windmill near a farm headquarters home occupied by Stillman's mother-in-law, Mrs. O. E. Wells. Stillman, shot once in the right side, died in a private automobile en route to Littlefield.

Pyne was arrested by Deputy Sheriff Walraven when the two met between Littlefield and the farm. The officer was en route to the scene of the homicide and Pyne, still carrying the double-barreled shotgun with which Stillman was slain, was on his way to Littlefield, the deputy sheriff said.

The argument between Stillman and Pyne was in part over witness fees Pyne claimed as a result of testifying in Stillman's behalf in a civil suit in district court, where Stillman lost the suit, according to the deputy sheriff. The dispute also involved "some other trouble," he added.

Stillman and Pyne each had a wife and several children.

Salem Featuring Another 88c Sale

The Salem Dry Goods company is featuring another 88c Sale Saturday and Monday, and are offering many specials for the occasion, according to their ad which appears in another page of this issue of The News. Mr. Salem returned last Friday from eastern markets where he personally selected merchandise for his store here.

M. E. Church Notes

After a very successful year's work, the Annual Conference thought it wise to return us to this work. We are happy to have this great opportunity of serving the M. E. Church and general public (so far as we are able) another year. Our report at Conference was far ahead of any other pastor's when our membership is taken into consideration. Our accomplishments for the past year were great, but our opportunities for the ensuing year are no less. We have a great field in which to work. We have a vast amount of work that ought to be done, but this can not be accomplished unless we have the same cooperation and assistance that we have had the past year. It is only when the team pulls together that the heavy loads are moved. I want to urge that you remain in the harness and we shall be able to surmount the highest heights of difficulty. Our objective this year is to lead at least one soul to Know and Accept Christ, that is, one for each member of the church. May God bless you for your wonderful efforts of the past year and may His Spirit lead us in the work to be accomplished.

Sunday School 10:00 A. M. (A class for every age.) Preaching services 11:00 A. M. and 7:00 P. M. Leaguers will meet at Sunday.

W. M. Societies meet Monday afternoon 2:30. Next week is "Week of Prayer Services" and every member of both circles are asked to be present.

If you are not a member of these societies, we urge you to join now. We need your help and you will enjoy the fellowship.

Choir practice Tuesday and Thursday 7:00 P. M.

Banquet will be given Wednesday evening by the pastor and wife for the official Stewards and their wives.

Subject Sunday morning, "Excuses." Come out and learn a new excuse for not attending church.

Sam A. Thomas, Pastor.

Ships Beef Cattle

Paul Brothers shipped four cars of beef cattle to Los Angeles last week, according to D. L. Brown, local Santa Fe agent.

Ships Hogs To Ft Wt

Clyde Robertson shipped two cars of hogs to Fort Worth last week.

FORREST FIRES

A good book, like the company we keep, shapes our destiny for good or evil. Therefore parents should be as solicitous as to the literature their children read, as to the company they keep.

The Sudan schools announced their first 1933 honor rolls last week, 120 students out of the 950 enrolled were listed as having made sufficient grades as to place them in a class outstanding from their colleagues. When you stop and consider this situation, it is actually marvelous to have so many bright minds in the coming generation. The situation does not indicate, of course, that these hundred and twenty students will be the greatest success in life, but it does show that they are interested in their work and that they are applying themselves. There is really a very marked degree of efficiency between the average person and the successful one. A close examination of the school records will show, I feel sure, that there were slightly over 14 per cent of the students on the honor roll and about the same per cent of students close to, or under passing grade point—this leaves the big majority about 72 per cent, in the middle class. Practically every person in this big middle class could have been on the honor roll with just a slight bit more effort.

It has been about twenty years since newspapers bore the announcement that a sure preventive had been developed against the dreadful child disease diphtheria. Today, however, hundreds of children in Texas are suffering from the disease, and many are dying from it. A neighboring town reports 25 to 30 cases all the time with too frequent deaths. There are a few cases in our own county. The treatment for this disease is by no means certain, but the immunization is practically one hundred per cent safe.

There is no law requiring the administration to children but there should be. By special arrangement widows, orphans, and indigents may receive the toxoid treatment for diphtheria or be vaccinated against typhoid fever free of charge by the local health officer, Dr. W. H. Ford.

There are three ways out on the farm relief plan of the administration, according to Secretary Wallace who spoke at Des Moines recently. They are: "First, we could go the route of immediate price-fixing as suggested by the five Midwest governors; second, we might follow the present plan of reducing production and gradually raising prices; third, we might join the farm strikers and raise hell." He said of Franklin D. Roosevelt: "Never have the farmers of the United States had a President who knew so much about farming, or who was as sympathetic to their cause."

Home Demonstration News

By Bernice Westbrook, C.H.D.A.

A closet previously used for "junk" has been converted into a well equipped pantry by Mrs. W. E. Logan, pantry demonstrator in the Blue Bonnet club. Mrs. Logan is well pleased with the convenience of her pantry and says that she can go in the dark and get the food that she desires to fix the children's school lunches in the morning. Besides the shelves filled with containers of leafy, starchy, and other vegetables, fruits, and meats, she has large containers of dried peas and beans. Her tested recipes are neatly filed and placed on the pantry shelf. Mrs. Logan has made a wooden pocket to file her bulletins in. She painted it to match her can labels and attached it to the inside of the pantry door.

The Friendship club under Mrs. W. R. Boyd's leadership has organized a Home Demonstration club at Circleback. This club was organized in September and has seventeen members. These women are enthusiastic about the work and enjoy the programs that Mrs. Boyd carries them.

This is the type of work that makes our expansion program worthwhile. The pantry at the home of Mrs. H. L. Byrd, Farm Food Supply demonstrator in the Friendship club, gives the newly built and furnished house plenty of competition in attraction. Mrs. Byrd says that more than 300 people have visited her pantry this summer and fall.

One whole side and half of another of the spacious cellar are neatly shelved and laden with more than 1000 containers of vegetables, fruits, and meats. In gallon and five gallon containers are stored about 30 gallons of dried peas and beans and several gallons of lard. Besides these foods already, Mr. and Mrs. Byrd are planning to can and cure a beef and four hogs.

Mrs. McGahee, of Baileyboro and Mrs. Jones of Lubbock were visiting their sister, Mrs. Tom Howard and mother, Mrs. Reed, the first of the week.

Mr. Wallace Houston of McKinney was a guest of Mr. J. M. Gay the first of the week.

Mrs. Kate Cox is visiting her granddaughter in Lime Stone County.

Mr. J. H. Furneaux of Dallas is looking after business interests in Sudan this week.

Mrs. Reed spent last weekend in Lubbock with her son, George Reed.

Mr. Ward Henry and Miss Margie Hudson were quietly married at the home of Rev. Sam A. Thomas, Saturday evening.

Guy Sharrock was looking after business interest in Lubbock Tuesday.

Jerry Masten of Hedley, visited G. W. R. L. and W. H. Masten of Sudan. The first of the week.

Mrs. G. W. Masten and Mrs. R. L. Masten, and Mrs. Bryan Dill of Olton were visiting and shopping in Plainview Tuesday.

Mrs. T. R. Terrill is seriously ill, at her home south of town.

Sudan-Bovina

The girls' basket ball team was defeated last Friday night by Bovina, on the latter court by the score of 41 to 28.

The first half was played on a three division court, which handicapped the locals to such an extent that the first half lead gained by the Bovina team could not be overcome.

The Sudan team was weakened by the absence of part of the team, and the rough type of ball that they encountered in their opponents caused them to play below their usual form.

All of the team is back in school now and the team will soon be hitting its real stride.

Outside Reading

"Literature is the expression of life in words of truth and beauty; it is the written record of man's spirit, of his thoughts, emotions, aspirations; it is the history, and the only history, of the human soul."

If we intend to class ourselves with the better educated people we must read good literature. We have good books in our library and we want to urge every student to read as many as he can. Don't dread your outside reading—make it a pleasure. Probably you think you have read all the good books in the library, but you haven't. It is true that our library is limited, but students, there are books that you will enjoy reading if you only try.

Need of New Library Books.

Yes, we have good books in our library, but we don't have enough. We have been thinking that it would be a good idea to raise money to buy new books. We want enough books for those who like to read, and also for those who do not like to read, because we know that if they try, they, too, will enjoy reading. The idea is to have a school Carnival. This is something that all students and teachers will enjoy. Of course it will take work, but we won't mind that because it will be lots of fun and then too, we will be making money for those much needed books. So come on, students, let's all get in the spirit and make a go of this thing.

Thanksgiving Program

The pupils of the Sudan High School will give a Thanks giving program next Thursday night in the High School auditorium at 7:45. All of the patrons of Sudan and surrounding territory are invited to attend. The following program will be given:

The Star Spangled Banner—Choral Club and Audience.
 Invocation
 America—Choral Club and Audience.

A Thanksgiving Story—Wayne Kittley.

Piano Solo, "Amour Coquet," Lena Ruth Harris.

"Thanksgiving Without Dinner"—Herman Speck.

Talk—Rev. Joiner.

Piano Solo, "Cheerfulness," Ruby Lam.

"Dolly's Dream"—Charlie Rheea Crawford.

Song "Day Is Dying In The West"—Choral Club.

Benediction.

The Command of Language

Is a free command of language a sign of intelligence? Answer: The best sign we know of—This does not mean the talkative person, but the one who can express his ideas in a large range of well chosen words. As pointed out recently, one can increase his command of language remarkably, and thus improve his capacity to think clearly, at any time of life—Taken from Fort Worth Star Telegram.

Sports

The local boys' basket-ball team went to Bovina last Friday night winning the game with a score of 25 to 10. Some are still out working; therefore it was not the regular line-up. The boys played a slow game with many bad passes. The home club missed many crisp shots which should have been made. Nearly everyone is back in school this week and the players will start to work in earnest.

Assembly

A very interesting assembly was given Wednesday morning. The Choral Club gave two numbers. "America the Beautiful"

and "The Star Spangled Banner."

The Baptist preacher Mr. Joiner gave a very inspiring talk. He told a number of clever jokes and then told us to fulfill our duty, which was expected of us and prepare ourselves to be better men and women. We all were better prepared to go to our classes after we heard Mr. Joiner's talk.

This was our first assembly since school took up after our cotton picking vacation. We all expect several enjoyable assemblies during the remaining year.

Who's Who In the Senior Class

Louise West is that flirty little Senior who delights in taking the other girls "fellow", and don't be surprised if you find her talking baby talk to some boy. We all love Louise because of her sunny disposition. She is a very intelligent student and we expect her future to be bright and successful. We are very glad to call her a Senior and we feel sure that other students will miss her when she's gone.

Woodrow Malone, better known as "Red", the red bird of the Senior class. Red is one of the basket-ball stars and of him the Seniors are very proud. Red is a fellow who knows his chemistry. Now if you want to know anything about chemistry just ask him but don't be surprised if he should tell you that chlorine comes in sticks. Red is an interesting person to know, even though he is rather hard to get acquainted with. He is a good sport and is well liked by all of the students.

Heard in the Halls

Louise West, the senior flirt, and Bill Henson talking baby talk.

Red Malone telling his chemistry teacher, Mr. Whittle, that chlorine can be purchased in sticks—Red knows his chemistry.

Catherine Carruth and Kathryn Wilson jabbering to Bill

Liston.
 Mary Slaughter and Nadine Willingham quarreling over Cecil Dennis.

Ouida Doty singing "Hold Me."
 Lena Ruth Harris and Margaret Dean talking about how well the picture show is run.

Solomon had 700 wives. He had to be a wise guy according to M. A. Smith.

Nell Walker our fat fluffy Senior is worrying about her chemistry.

All high school teachers telling students especially some of these gad-about Seniors to hurry on to class.

Jackson telling Lee that he has learned a new way to fool the laundry—just wear a shirt until it becomes dirty and then tear the buttons off your self.

Smith telling students—"Now you better get to studying if you want some grades this six weeks."

Personals

Ada O'Keef and Evert Austin were married last week.

Doyle Baucus spent the week-end with friends and relatives here.

Ben O'Keef, who is working in Lubbock was in Sudan over the week-end.

Ann King spent the week-end with her mother, Mrs. Cora King.

Nolan and Domicile Nuttall have re-entered school. Just watch our basket ball teams now!

Lucille and Nina Coconougher have returned to school after an absence of several days.

Can You Imagine?

The surprise of Mr. Ickes secretary of Interior upon learning that Walter Marie Carruth referred to him as the interior decorator.

Clyde Robertson Jr. not eating pecans in Spanish class.

Mr. Jackson conducting choral club without a ruler.

Mr. Lee not telling 6th period study hall to "put their heads in their books."

Chris Furneaux in long trousers.

Margaret Dean not saying "Oh Yeah".

Juanita H. and Walter Marie C. not to-gather.

Mr. Whittle going to sleep in Chemistry class and then furiously blushing when awakened

by giggles of the class.

"Los Amigos" Meets

"Los Amigos" met Monday at the usual Spanish class period. This meeting was called to select the club colors, a motto and name for the club. These were each voted on and we chose as our colors azuly blanco, as our motto "Siempre Listos" and our name Los Amigos.

There were also three reports given the first being "La Vida de Cervantes" by Xezvus Cockerham the next was "Unamuns" by Mildred Palmer and the last "El Cinco de mayo" by Ethel Lavender. These were told in Spanish and everyone enjoyed them except probably the ones who gave the reports. We meet again on Monday December 4.—Xezvus Cockerham, Reporter.

Grammar School News

First Grade

The low first has two new pupils, Martha Mortan and Jane Crouch. They are having good attendance and are beginning a Thanksgiving program.

Arthur Whizenhurt, Floyd Wilkerson, Lorita Cocanauger, and Eldon Sarrett are new pupils in the high first.

Second grade

Lynn and L. D. Jones are new pupils in the low second. They have organized a rythm hand since they have new set of instruments, and are enjoying their work with them.

Third Grade

Grover Whizenhurt and Nadine James are new pupils in the third grade.

Fourth Grade

The low fourth will have charge of the chapel program next Friday afternoon and urge all that possibly can to be present.

Sixth Grade

Fannie Whizenhurt is a new pupil in the sixth grade. dadero newCoNI be—nir .S dR. "u—

SPECIAL PRICES ON ALL SWEATERS

On Texas Farms

Cotton and corn crops grew this season where there were ditches two years ago on the farm of Dave Link in Milam county. He terraced 75 acres at that time and the county agent is helping him terrace more this fall.

A three-year average of 25 bushels of wheat per acre due to sowing state certified turkey red wheat is the record of Dietz Brothers in Runnels county. The county average has been 18 bushels per acre, the county agent states.

After selling 1986 fryers this season, Everett Dickard of Fairview 4-H club in Harrison county has completed a new poultry house which he hopes will make it possible for him to sell 100 fryers per week next year. He has 7 sections in the house and plans to put 100 chicks in each section in successive weeks.

A cotton oil mill at Rotan is financing the purchase of baby beeves for 29 Fisher county 4-H club boys who will feed them for show and sale at Sweetwater next spring.

For a total cost of \$34, J. N. Swalm, Somervell county cane demonstrator, has made and sold 200 gallons of syrup from one acre planted to certified honey drip seed. The syrup sold for 50 cents per gallon.

McCulloch county turkey growers are planning to sell turkey eggs for hatching purposes to Northern growers through the county cooperative association next spring. This is a new industry now in its third year. Last year 120 members received \$5500 for 60,000 turkey eggs, the county agent reports.

A return of \$2.53 for every dollar's worth of feed his herd of 22 Holstein cows consumed last year is reported by W. M. Bolton, dairy demonstrator for Becton Community, Lubbock county. The herd averaged 311.2 pounds of butterfat per cow, the average feed cost of which was 5.4 cents per pound. The ration consisted of whole grain sorghum, bundles and wheat pasture. His total net profit for the year was \$482.71 from the herd. The highest production per cow was 10,161 pounds of milk and 370.3 lbs. butterfat, and the lowest cow gave 5556 pounds of milk and 1923 pounds of butterfat.

The records were kept in cooperation with R. N. McClain, assistant county agent, who comments that it took good cows, a cheap ration and high production to get any profit at all during the last year.

A pantry valued at \$360 with a cost of \$13.75 has been achieved by Mrs. L. H. Obenhaus, 4-H Pantry demonstrator for the Bonus-Nedra home demonstration club in Wharton county. Her goal for this year was to put up 900 containers of food to help her in securing an adequate diet for her family of six. She has canned a total of 1019 containers, 119 above her goal, and this extra amount will be used for company. A total of 1084 pounds of meat sausage, lard, cheese, peas and beans have also been cured to add to the variety of food, making 114 varieties. All of this food, with the exception of part of the fruit, was raised on their farm. Sixty feet of shelving at a cost of \$1.20 was added to hold the canned food, organized in groups to save time and energy when using.

Mrs. Obenhaus has sold 750 dozen eggs at an average price of 10c per dozen, making a total of \$136.50 which was used to pay expenses of pantry, buy staple groceries and to clothe the family. Anxious to help others to live at home she has helped 9 non-club members can 484 containers of food.

A birthday dinner for her husband costing only 89 cents did not mean that Mrs. Barcie Lester, farm food supply demonstrator of Smith's Chapel Home Demonstration Club in Nacogdoches county, did not celebrate this anniversary with a good dinner, but instead it meant that the balanced-budgeted food supplies that have been worked out in that home this year need only to be supplemented with such staples as coffee, sugar, spices and rice in order to set forth an excellent meal at any time. The dinner, which was served to 16 people, consisted of Chicken, rice, gravy, green butter beans, sweet potatoes, hot biscuits, butter, plum jelly, pepper relish, coconut custard pie and coffee.

Native shrubs for use in yard improvement are being studied with enthusiasm by the home demonstration club women of Milam county this fall, according to the report of Miss Bertha Fae Strange, home demonstration agent. The clubs are arranging for expeditions into the woods of their own and adjoining counties to observe the condition of such plants and shrubs at this season and to ones when the time comes for learn to identify the desired transplanting them. December has been appointed a month

for special effort in the improvement not only of private yards but the grounds around community buildings. The vixen, privet, tamarix, rose, Japanese quince and bridal wreath rooted in the cutting beds made last spring will be transplanted to permanent places in the yards of the 23 special yard demonstrators, 11 of whom have made complete planting plans for the improvement of their premises.

Making a profit of \$1178.90 on her four years of 4-H club work has encouraged Ruth Cain of Indian Rock community in Upshur county to enroll as a contestant for one of the three college scholarships annually awarded Texas 4-H club girls. Poultry, gardening, clothing, food preservation, and home improvement were the demonstrations carried on by Ruth during her four years work and her profit was \$2.86 the first year, \$39.60 the second year, \$319.90 the third and \$1654 the fourth.

Sudan Couple Wed

Tuesday just before noon, Rev. E. C. Raney, pronounced the words that made Miss Alberta B. Hanes the bride of Robert A. Cantrell. The young couple came here from Sudan for their marriage, they living in the country near that place. The ceremony was performed in the county clerk's office at the courthouse.—Muleshoe Journal.

Chevrolet Sales Increase 175 Per Cent In October

Retail sales reported by Chevrolet dealers for the first ten months of the year exceeded all estimates and projections made by executives of the company. W. E. Holler, general sales manager, announced today.

Sales for the month just ended reached 50,988 new cars and trucks, by far the best October since 1929. The figure compares with 58,000 in September and 18,547 in October last year. Mr. Holler stated, "This October was 175 per cent better than last."

Ten months' sales this year dealers reported as totalling 550,816 new cars and trucks, compared with 354,517 in the comparable period last year, a gain of 55.4 per cent. Mr. Holler announced.

"At this time last year," Mr. Holler stated, "we set a quota of 450,000 new cars and trucks for 1933. We felt at that time that the quota if anything, was on the liberal side, because we sold only about 378,000 units in 1932."

"But our 1933 quota was met in mid-summer, and on August 1 we moved it to 508,000 cars and trucks. This figure was so far exceeded by the end of Oct. that we stand an excellent chance of selling close to 600,000 units before the end of 1933."

"October sales showed surprising strength in all parts of the country, and went considerably ahead of our projection for the month. Field stocks of new cars are now at a low point and used stocks also were reduced in October."

activities. Support of restrictive immigration laws to restrict foreign immigration and to deport undesirable aliens. Joint authorship of legislation providing for the discharge of boys under 21 years of age enlisted in the military and naval service without the written consent of their parents or guardians.

Advocacy for reduction of freight rates on agricultural products to correspond to advantageous freight rates allowed industrial concerns on exports.

Sponsoring of beneficial legislation for war veterans.

Introduction of many perfecting amendments to legislation which have won for him the reputation with his colleagues as one of the leading sponsors of improvements to measures in Congress.

Sponsoring of legislation to do away with speculation and gambling in farm products.

Mergenthau Lauds Texas Congressmen, Senators for Farm Aid

High praise was recently given members of the Texas Congressional delegation in general and Marvin Jones in particular in a message from Gov. Henry Mergenthau, Jr., of the Farm Credit Administration to officials gathered last week in Houston. The meeting was held for the purpose of reorganizing the Texas farm credit set-up.

The message follows: "Dr. William I. Myers, Deputy Governor, Farm Credit Administration.

"Will you please express to the people of Texas as represented in the meeting to be held Tuesday night my regret at my inability to be present and to assist in the organization of the new agencies of the Farm Credit Administration in the Tenth Land Bank District.

"You may assure our Texas friends that my absence is not

due to any intention to slight the one great state in the Union which because of its immense agricultural resources constitute in itself a complete land bank district. On the contrary, it is only because new tasks which I cannot neglect have been placed in my hands that I am compelled to forego the real pleasure and opportunity for service which a visit to Texas at this time would have given me.

"The new deal in farm credits which we have undertaken to launch and which means opening the channels of credit to the farmers of the nation on a really business-like basis means a great deal to the state of Texas.

"I should like to express publicly my gratitude and the gratitude of all American farmers for the most effective help rendered by Senators Sheppard and Connally and all members of the Texas Congressional delegation in the drafting of our legislative program and enacting it into law.

High Praise for Jones
"Especially do I wish to express my high admiration for the chairman of the House Committee on Agriculture, my friend Marvin Jones, to whom probably more than to any other one man in Congress is due

the nation's gratitude for the untiring and wise effort he devoted to the drafting and enactment of the Emergency Farm Mortgage Act of 1933 and Farm Credit Act of 1933 and other legislation for the benefit of Agriculture enacted in the 100 day session of this year.

"Another great Texan also deserves the particular expression of your gratitude and mine: the Hon James P. Buchanan, chairman of the House Committee on Appropriations, who, because of his sympathetic understanding of agricultural problems, has rendered unique service in making possible the creation of these new agencies.

"It is my purpose that all the agencies of the Farm Credit Administration shall continue to give effective aid to the farmers of Texas. We beg of the people of Texas the same sort of willing co-operation that they have been giving us, both as individuals and through their representatives in the Congress of the United States, and we invite also their criticism and suggestions as to how we may make the federal farm credit instrumentalities of a greater and lasting service to them.

WHAT WILL CONGRESS DO?

Extraordinary powers were placed in the hands of President Roosevelt before Congress adjourned in the summer of 1933. The next regular session promises unusual measures, whether of help or hindrance remains to be seen. The News has the facilities of Associated Press, United Press and North American Newspaper All lance. These would be sufficient for most newspapers, but not for The News which maintains its own staff of correspondents. The News is the only paper in the Southwest with its own Washington bureau, being represented by Mark Goodwin, outstanding correspondent on national affairs.

Bargain Offer for mail subscriptions to The Dallas News at this time is only \$6.60 daily and Sunday one year. Your local Dallas News agent is authorized to quote you this rate. Without Sunday, the cost is \$6.25. The large Sunday edition sells for 10c a copy. Order both daily and Sunday.

Thousands have Ended their Bowel Worries

by taking this advice!

Can constipation actually be overcome? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know. You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:
This is the way many men and women have made their bowels as regular as clockwork in a very short time.
First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.
Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as in the case of mineral drugs.
Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.
If there are children in your household, don't give them any form of laxative, but use a healthful, helpful preparation like syrup pepsin. Every taste will tell you it is what you need, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.
