MACHINERY IS BEING INSTALLED AND WORK WILL START NEXT MONDAY.

TO GO DOWN 2000 FEET

Experts Say There is Oil in That Locality and Prospects Are Good.

Work will start next Monday on the Marlow & Stone property about one mile west of Floral Heights, on an oil well and the machinery and rigs are now being installed there.

DEBATE IS IMPROBABLE

Not Likely That Bailey and Johnson Will Meet at Decatur. Texas News Service Special. Fort Worth, Tex., June 15.—The Texas News Service this morning received a belated telegram from James M. Edwards of Tyler, assuring an associate of Cone Johnson, candidate for governor of Texas, in answer to an inquiry made yesterday, whether the candidate would accept the invitation to deliver an address at Decatur on July 18th, on the occasion of the Wise County Old Settlers' Reunion.

TWELVE INCINERATED

Austrians Burned to Death in Fire Near Niagara Today. By Associated Press. Niagara Falls, Ont., June 15.—Twelve Austrians, known by check number only, were burned to death in sacks at Falls View, near here, last night. One man, woman and a child were probably fatally injured. The Austrians were evidently overcome by smoke as they slept and were roasted to death.

PRESIDENT AT JUBILEE

Attends Anniversary Celebration of Marietta College. By Associated Press. Marietta, O., June 15.—President Taft arrived here at noon today to attend the diamond jubilee celebration of Marietta College. He delivered an address at Muskingum Park and at the college exercises.

'KENTUCKY KLUB' IS FORMED BY FORMER RESIDENTS OF THAT STATE

The 'Kentucky Klub' is the name of an organization perfected last night at the Chamber of Commerce rooms by the former residents of that state in this city. The organization has a large membership and started off in an enthusiastic manner last night. Its purpose is two-fold—to again unite the natives of the Blue Grass State and to bring more Kentuckians here.

NEGRO FIEND DIES OF WOUNDS

Attacked Young White Woman and Beaten to Insensibility By Girl's Father. By Associated Press. Waco, Texas, June 15.—Cal Boykin, negro, died in jail here this morning from injuries received in Bell county when, in attacking a young white woman, her screams attracted the attention of her father, and the father rushed to the scene and caught the negro and beat him into insensibility with a heavy shaft. The negro was turned over to the authorities and brought here for fear of mob violence.

MAY PREVENT FIGHT

Steps Being Taken to Stop Jeffries-Johnson Fight. Texas News Service Special. San Francisco, Cal., June 15.—(Bulletin.)—District Attorney Webb stated today that he had received instructions from Governor Giffette to stop the Jeffries-Johnson fight on July 4th. He said he would take the necessary steps at once.

FINANCIAL ASSISTANCE IS PROMISED COMMERCIAL SECRETARIES BY BOARD

Messrs J. A. Arnold of Fort Worth, and Homer Wade of Stamford, representing the Texas Commercial Secretaries' Association, arrived in the city this afternoon and appeared before the board of directors of the Chamber of Commerce at a meeting held at 2:30 o'clock. Their visit here was to secure financial assistance from the Chamber of Commerce in carrying on their publicity work and after their needs had been explained by Messrs. Arnold and Wade, a motion to appropriate \$250, to be paid in five monthly installments, prevailed. Wichita Falls is giving considerably more, in proportion to her size, than any other town in the state.

LOWER INSURANCE RATE IS EFFECTIVE

THIS CITY NOW OCCUPIES AN ENVIABLE POSITION IN THIS PARTICULAR.

INSURANCE MEN IN CITY

Rates on Local Risks Are Now Subject to Revision to Conform With Key.

Official notification that Wichita Falls' insurance key rate has been reduced to thirty-six cents was received by local fire insurance agents this afternoon and this city will hereafter enjoy an insurance rate that is fifty per cent lower than that of any city here in this state. While the exact data is not available, it is not believed that there are more than half a dozen cities in the entire state that have a lower rate and those cities that are ahead of this city in this respect are all many times as large as Wichita Falls. Several insurance men are here this afternoon to assist the local agents in revising their schedules and in fixing the rates on the more important risks in this city. R. B. Pirce of the Hartford Fire Insurance Company, and G. P. Russell of Dallas, are among those here. Mr. Pirce states that this city's rank in insurance circles is exceptionally good and that there are but few in the state that make a better showing. Some idea of Wichita Falls' standing may be obtained from the fact that Waco, which enjoys the lowest rate in the state, is only thirteen cents lower, and that of Dallas, a city eight times the size of Wichita Falls, has a key rate only nine cents lower than that of this city. Practically every city in the state of the size of Wichita Falls has a key rate about double that now in force in this city.

CONNECTION WITH SEWER IS MADE COMPULSORY BY CITY COUNCIL'S ACTION

At a called meeting of the city council this afternoon an ordinance was passed making it compulsory for all property owners to connect residences with the sewer system. It is intended to force every property owner near whose property the system runs to connect with it and a fine of five to one hundred dollars is provided for failure to do so.

WORKERS' HOLD MEETING

Interesting Session Held at Iowa Park Yesterday. Special to The Times. Iowa Park, Tex., June 15.—The Wichita County Workers' Meeting met here at the Baptist Church yesterday. A number of delegates were present from Wichita Falls, Electra and Burk Burnett. The meeting was called to order at 2:30 in the afternoon, and some very interesting and helpful talks were made upon prayer service and the Sunday School work. The evening session was devoted to the Baptist Young People's work and the women's work. These were followed by a splendid address by Rev. J. P. Boone, pastor of the church at Wichita Falls, upon the Baltimore convention.

EAST LYNNE TONIGHT

The Hollingsworth Twins Company will present the oldest but best of all emotional dramas tonight—"East Lynne."

DOCTORS AND LAWYERS HAVE BALL GAME THIS AFTERNOON AT PARK

Two teams, one composed of lawyers and the other of physicians, will play at the baseball park this afternoon and some lurid baseball is anticipated. Fred Mathewson Weeks will pitch for the attorneys while Dr. Everett Donovan Jones will be in the box for the physicians. The bankers are organizing a team and will probably challenge the winner of this afternoon's game.

SUBWAY IS PLANNED

Fort Worth Plans to Obviate Railroad Crossing Delays. Texas News Service Special. Fort Worth, Tex., June 15.—A movement was started here this morning for a subway five blocks long on Fourth street from Jones street, five blocks east, when the city commissioners instructed the city engineer to estimate the cost of the project and the city attorney to investigate the charter and see whether the city has the power to compel the railroads to build the subway. The plans are to order the railroads to build the subway. The city will pay the expenses of the approaches. There is a network of railroad tracks in the section mentioned which cause a great delay to traffic.

MATERIAL INCREASE IN TAX VALUATIONS

COUNTY TOTALS SHOW GAIN OF MILLION AND A QUARTER OVER LAST YEAR.

TOTAL IS TWELVE MILLION

Wichita Tax Rolls Have Been Completed, Showing Usual Large Gain.

An increase of about one and a quarter million dollars in the taxable value of Wichita county is shown by the completed report of County Assessor W. J. Bullock, which was sent to the state tax board this morning. A total of \$12,175,461 in assessed valuations is shown for this county, this being a gain of \$1,264,756 over last year's figures. The total for the year are divided as follows: Resident Roll \$7,654,020 Non-Resident Roll 1,441,920 Unrendered Roll 704,985 Railroads, Telephone and Telephone Companies 2,047,536 Banks 336,000 Total \$12,157,461 The same for last year were: Resident Roll \$6,792,210 Non-Resident Roll 1,357,215 Unrendered Roll 522,945 Railroads, Telegraphs and Telegraphs 1,989,135 Banks 312,200 Total \$10,910,705 The largest increase, as will be seen, was in the resident tax-payers roll, the advance on non-residents, railroads and banks not being so heavy. The increase is about thirteen per cent gain over last year, which is considered a very substantial showing. A BIG DIVIDEND DECLARED. Texas Oil Company Doubles Its Capital Stock. By Associated Press. Houston, June 15.—According to an announcement the Texas Oil Company cut a "melon" valued at nine million five hundred and forty thousand by the declaration of a dividend of three dollars a share and fifty per cent on the stock. The capital stock has been raised from eighteen to thirty-six million, company plans listing the stock on the New York exchange, big improvements in the Oklahoma and Texas oil fields and the extension of operation over the Southern states.

FLOODS CAUSE LOSS OF THIRTY-FIVE LIVES

Belgrade, June 15.—The floods caused havoc in the Valley of the Morava. The town of Chupria, Jagodina and Svilainatz were inundated.

DOG BURNED TO DEATH

Wharton, Tex., June 15.—News was received here this morning from Tiger Bend, Wharton county, that Winfield McCauley was burned to death and the saloon of Joe Purgher destroyed by fire there early yesterday morning as the result of the futile attempt of burglars to crack the saloon safe. It is presumed the burglars gained admission to the saloon shortly after midnight on Monday night, robbed the cash register of a small amount, took what they wanted from the bar stock and started to work on the large iron safe. A chisel was used to remove the combination handle and an effort made to break the floor of the safe was without avail, the strong box withstanding the yeggmens' efforts. Shortly after 3 o'clock fire was discovered, the flames having already enveloped the building, cutting off the avenues of escape for McCauley, who occupied a sleeping room over the saloon. The body was recovered Tuesday morning, burned almost beyond recognition. The financial loss is about two thousand dollars. The authorities are investigating the affair, but no arrests have yet been made.

HORSE DIES OF RABIES

Dr. E. M. Wiggs, the veterinarian, reports the death of a mare yesterday on the farm of Mrs. Everts, nine miles northwest of the city. The animal had been bitten by a dog on the nose some weeks ago, and for the past few days had been exhibiting symptoms of rabies. When Dr. Wiggs was called to see her she had a well developed case.

AEROPLANIST TRIES FOR \$50,000 PRIZE

Topeka, Kans., June 15.—Aeroplanist Mars sailed away from here at 5:10 o'clock this morning, headed for Kansas City in an effort to win a cash prize of five thousand dollars. Four motor cars carrying mechanics, repairs, and fuel for the machine, and newspaper men followed him.

BOARD OF EQUALIZATION HEARS PROPERTY OWNERS MAKE COMPLAINT TODAY

Today is "kickers' day" at the city hall and the board of equalization was the storm center, of a large number of property owners who considered that their valuations had been raised too much. The protesters were served in their turns and a large number were handled during the day, including merchants, laborers, ladies and almost every other class of property owners. The equalizers attended to each case as tactfully as possible, and it is thought that all will have been given a satisfactory hearing by this afternoon.

LADIES OF THE FIREMEN'S AUXILIARY WERE ENTERTAINED AT 12 O'CLOCK DINNER

The Ladies of the Firemen's Auxiliary were entertained at 12 o'clock dinner at Mrs. O. B. Griggs, who is moving to Fort Worth. The hostess served a most delightful dinner, being assisted in the dining room by Mesdames Barrett and Rollins. Those present were: Mesdames Prelor, Shaw, Griggs, Cockrell, Abbott, Rollins, Phillips and Barrett. We regret very much to lose Sister Griggs, as she is one of our charge members. May God's blessings go with her to her new home in the wish of all members.

\$30,000,000 ASKED FOR

That Amount to Be Appropriated for Reclamation Work. By Associated Press. Washington, D. C., June 15.—A bill to authorize the issuance of indebtedness to the amount of thirty million dollars to complete the reclamation projects was adopted by the senate as a rider upon the pending administration withdrawal bill. FOR SEPTEMBER 28. Muskogee Town Lot Cases to Be Tried on That Date. Texas News Service Special. McAlester, Okla., June 15.—Judge Ralph E. Campbell of the United States District Court, this morning set the date for the Muskogee town lot cases, in which Governor Haskell and other prominent men of the state are involved, for trial on September 26th, at this place. Judge Marshall of Utah will preside.

GASOLINE IS FATAL

Infant Drinks Quantity of It and Dies in Agony. Texas News Service Special. San Antonio, Tex., June 15.—Drinking a quantity of gasoline from a bottle while his mother was in a different room attending to household duties, the three-year-old son of Herman Reimer died here this morning in his mother's arms in great agony.

ANTI-OPTION BILL

Rules Committee Agrees to Let it Be Discussed. By Associated Press. Washington, D. C., June 15.—The House Rules Committee today decided to give one day to the consideration of the Scott anti-option measure to prohibit dealing in cotton futures, unless an actual transfer of cotton is made. This probably insures a vote on the measure during the present session.

MAN BURNED TO DEATH

ELEVEN HUNDRED GUESSES ARE FILED

CENSUS CONTEST COMES TO A CLOSE TONIGHT PROMPTLY AT MIDNIGHT.

MANY GUESSES ARE MADE

Believed That a Total of Fifteen Hundred Will Have Been Made By Tonight.

A total of eleven hundred guesses have been received in The Times' census contest up to 3 o'clock this afternoon, and at the present rate, this number will be swelled to twelve or fourteen hundred by the time the contest closes at midnight tonight. All guesses received hereafter must have been mailed before midnight of this date, although it is not necessary that they be received at this office before that time. The Times will probably publish the entire list of the guesses at an early date.

#### IN THE LABOR WORLD.

Calgary, Alta., carpenters demand an increase from 41 1-9 to 50 cents an hour, and a nine-hour day in summer and eight-hour day in winter.

Organized labor is fast gaining in Santa Cruz county, California. Recently the bricklayers, cement workers, plasterers and carpenters formed unions.

An agreement has been reached whereby the coal teamsters and coal handlers in Boston are to have a nine-hour day the whole year. They have had it only six months of the year in the past.

Laws have recently been passed providing for bureaus of labor in Oklahoma and Texas and changing an existing office in South Carolina so as to give it largely the character of a labor-bureau.

The bill to license master electricians in the state of New York developed such opposition on the part of the Electrical Workers' Union and kindred organizations that it was killed in committee in Albany.

The Hebrew Bakers' Union of Boston, Mass., will not this year enforce its demands for an eight-hour day. The local has decided to postpone the matter for a year, in view of the general high cost of living.

By a vote of three to one the membership of the Brotherhood of Leather Workers on horse goods decided in favor of increasing the wages of their general president and general secretary-treasurer from \$90 to \$125 a month.

The troubles which recently led to the lockout of many thousands in the Building Trades Council in Germany has been settled for three years. The award has been accepted by the unions.

The label trades section of the American Federation of Labor has notified the central labor bodies throughout the country that it is prepared at this time to furnish the names and addresses of all manufacturers who use the union label.

Members of the Honesdale, Pa., branch of the shoemakers' union are about to incorporate a company for the manufacture of miners' shoes, their product to be marketed direct to the members of the United Mine Workers' of America.

The bill introduced in the New York senate so amending city charters as to permit the boards of education to sell in the open markets the products vocational, truant, trade and preparatory schools has aroused the active opposition of the New York state workingmen's federation.

International President George L. Berry of the Pressmen and Assistants' Union has notified subordinate unions that an assessment of one day's pay will be levied between the 22nd and 28th of next month, to be devoted toward the building of a home for tuberculosis patients and aged members.

#### WHERE MILLIONS ARE LOST.

Not in Making Good Roads, but Because of Their Lack.

Kansas City Star.  
The plea that good roads are "too costly" belongs only to the cheap statesman, the mossback and such old-fashioned publications as the Joyville Clarion. It has no place in the consideration of the problem of modern road building.

The primary purpose in securing good roads is to eliminate the enormous and everlasting cost of bad roads. Modern country roads bear the same relation to the rural districts as paved streets for municipalities are, first of all, a business proposition. The comfort and convenience afforded by them is a matter of secondary consideration. No city could be built on mud streets. Neither can agricultural communities be developed on mud roads. And any condition that retards the fullest development of country life is an expense that spells ruin and bankruptcy in the end.

The old wooden plow could be purchased for less than the modern implements used to break the soil. But no farmer could maintain his farm with a wooden plow. It would prove too costly an experiment. The ox team could be purchased for less money than the draft horses cost, but the ox team has been abandoned as an expense that no modern farmer could stand.

Mud roads retain the same relation to modern progress as the wooden plow and the ox team. Kansas wastes \$1,000,000 every year on mud roads; Iowa wastes \$4,000,000 annually in the same way. It is a system of "throwing good money after bad money" in an attempt to "improve" roads that need to be rebuilt, and after millions have been wasted in this manner the same old mud roads exist. Nothing is left to show for all the expense.

The \$10,000,000 Kansas has lost in the mud holes of its country roads in the past ten years would have given

#### CARNEGIE ONCE RAN A PAPER

In England, Many Years Ago, He and Mr. Storey Bought the Echo. With all the energy he has shown in getting rid of his superfluous fortune, Andrew Carnegie has hitherto refrained from attempting the most summary method of all—the starting of a new daily paper.

It is possible, however, that he may make a journalistic venture before long.

Mr. Carnegie, who arrived in England last week, recently received a deputation from a women's club at Pasadena, Calif., which invited him to found a National daily, non-partisan in politics, to be published either in New York or in Washington.

"This proposition appeals to me," remarked Mr. Carnegie in complimenting the women of Pasadena on their "practical ideas."

He added that he could not answer offhand, but would make a study of the situation, and, if he thought the suggestion feasible, would "act accordingly."

But Mr. Carnegie years ago was interested in a number of newspapers in this country.

Along with Mr. Storey, M. P., he purchased from Passmore Edwards the now defunct Echo, when it was at the height of its popularity, paying for it something like \$375,000.

At the same time the Carnegie-Storey syndicate ran several provincial newspapers. But it cannot be said that Mr. Carnegie took very much interest in the ventures—he was then still in the Pittsburg business, and, doubtless, his time was otherwise fully occupied.

However that may be, Mr. Carnegie and Mr. Storey, after about eighteen months, re-sold the Echo to Mr. Edwards and, since that time, so far as is known, Mr. Carnegie has not again been tempted to put capital into English newspaper properties, although he has more than once been invited to do so.—American Register, London.

#### GIRL HURLS BAD EGGS.

Ten Arrests Are Made During a Strike Riot.

Ancient eggs, thrown with unerring aim—though by a woman—absolutely ruined the clothes and temper of Captain Robinson of the Macdougall Street station last night when he tried to break up a riot between striking shirtwaist operators and strikebreakers on Wooster street. Ten arrests were made, including that of one woman, charged with the egg-throwing.

The riot started when about 200 shirtwaist operators employed by Greenburg and Welner of 42 Wooster street, finished their work yesterday at 6:30 in the evening. As they trooped homeward they were met by groups of ex-employees, who said horrid things to them.

Words soon became insufficient to express the feelings of the two parties, as one striker secured a firm grip on a crop of hair belonging to a strikebreaker. Others followed suit. Hatpins flashed. In short, a first-class riot ensued.

Somebody tipped off Captain Robinson who arrived with Detectives Fitzpatrick and Dermody and fifteen policemen. Just as the captain raised his hand in the name of the law, eggs began to fly. At least a dozen hurtled through the air, bursting all over his uniform. And while the captain strove to defend himself there went on about him a scene of hairpulling, scratching, kicking and jabbing with hatpins, that came mighty near to begetting a description.

Finally the captain pushed the eggs out of his eyes and got down to business. Victory rested with him and his policemen. Ten girls were arrested and one of them, May Friedman, 22 years old, of 242 Bradford street, Brooklyn, was accused of having thrown the eggs. At the station Captain Robinson took off his uniform and consulted experts, then had it boiled. But even then he didn't dare wear it home.—New York World.

#### INDIANS DON'T SWEAR.

Don't Abuse Their Children, Says Guardian of Young Red Men.

The father-in-law of three hundred Indian children! This is the remarkable task which Dave Guyette, a former Iowan, but now a resident of Muskogee, Okla., has faced.

Prior to the granting of statehood to the combined territories of Oklahoma and Indian Territory under the name of Oklahoma, it was necessary under the law for all minor Indians to have a guardian who could give bond, make contracts, leases, etc.

Mr. Guyette, after failing to obtain a farm at the opening of the Cherokee outlet, settled at Talequah, the capital of the Cherokee nation, in 1893. Acting as the fiduciary officer of a trust company, Mr. Guyette was appointed by the federal court the guardian of more than 300 Cherokee children.

Speaking of his experiences in his parental capacity, Mr. Guyette, who is visiting in Des Moines, said: "Until the advent of statehood I was about the busiest individual in these United States. A family of 300 children with their mothers can lead a person a rather strenuous life. I was necessarily often in the homes of these people and must commend one feature of the life of the Indian woman to her white sister, and that is the fact that children are never given corporal punishment.

"I never saw a Cherokee mother strike her child, scold or punish it in any way. She might neglect the child, but abuse it, never! She couldn't possibly swear at the child, whatever the provocation, as there are no swear words in the Indian language. Even when they learn English, Indians don't swear."—From the Des Moines Register and Leader.

#### Straw Vote.

A straw ballot was taken at this place Saturday with the following result:

Polindexter	56
Colquitt	24
Davidson	9
Johnson	6
Total	95

The voting box was located at the J. R. Bruce corner and remained open from 8 o'clock a. m. until 7 p. m. While some who had the opportunity to vote failed to do so, nearly every qualified voter took advantage of the occasion to express his choice, and it might be said that the straw ballot expressed the sentiment of the voters of this box, as will be shown on July 22d.—Burk Burnett Star.

#### BAD DREAMS.

Nightmare, Restlessness and Night-sweats all Caused by Indigestion. Half of the nervousness in the world, all of the disturbing dreams and nightmares can be ended in a few weeks by a simple, inexpensive treatment.

Upset stomach is the cause of nervousness and bad dreams. Your food is lying in your stomach undigested and fermenting; it is forming poisonous gases which irritates the pneumogastric nerve that leads direct from the brain, and ends in a network of tiny branches running through the stomach.

It is also the irritation of this great pneumogastric nerve that causes headaches. Many times people have severe headaches and know they are caused by the stomach but do not know in what manner.

If you are nervous, have dreams or nightmare, and do not sleep sound at night, get a 50 cent box of Mi-on stomach tablets and take one or two after or with meals. They relieve distressed stomach in 5 minutes. Sold by O. F. Marchman Drug Co. who guarantees them to cure indigestion or money back.

### How Are You Fixed For Racks?

Stacking time will soon be upon you, so we thought we'd just call your attention to the question of racks. We realize how prone most men are to put off attending to these things until the last moment; then it's too late. The old things are patched up in hopes that they will do for a while. The result is no end of time and trouble wasted tinkering to keep them together. Better look up the rack question and get into shape before you actually need them. We have a good stock of clear, dry materials—just the thing for racks.

In the event that the Federal census is announced in time there is a movement on foot in Wichita county to have the offices of sheriff and tax collector separated, making two county offices instead of one. The same will also apply to the office of county and district clerk. There is not the least doubt but that the population of the county is sufficient to justify the separation of these offices, making four instead of two as now. The only thing standing in the way is the announcement of the result of the government census, which it is thought will be made known within the next few days.

The democratic party is the dominant party in Texas, and it should see to it that when the people of Texas want to vote on any question that their wishes should be gratified. Two years

ago a majority of the votes cast in the democratic party ordered that the matter of statewide prohibition be submitted to a vote of the people. Acting on this authority, the democratic State Convention made it a platform demand. This demand of the party necessitated a change or an amendment to the Constitution. The resolution providing for an election on statewide prohibition was passed by the necessary two-thirds vote in the House of Representatives, but failed to pass in the Senate. By a vote of 19 to 10, the State Democratic Committee, at its meeting held at Dallas on Monday, has, for the second time, decided that it was the plain duty of the democratic party to have the matter of statewide prohibition submitted to a vote of the people of Texas, and on July 23, the date set for the holding of the state primary election, every democratic voter will again be given an opportunity to express himself on that question. In the event a majority of those voting say by their votes that the question of statewide prohibition should be submitted to a vote of the people, the chances are that it will again be made a platform demand, and the candidate for governor or for any other state office who cannot stand on such a platform should have the manhood to not accept the nomination for office. However, in the event such a candidate or candidates should succeed in securing a sufficient number of votes to gain the nomination and then repudiate that part or any other part of the party's platform adopted at the same convention, by such an act he releases every man who participated in that primary and that convention from casting his vote for him. The majority should rule, and if the majority of the democratic party wants to submit any question to a vote of the people, it is the duty of those seeking honors and office at the hands of the party to see that the wishes of the majority are respected.

**The Fireworks.**  
The Dallas-Galveston News comments on Martin's fireworks exhibition as follows:  
From 1,800 to 2,000 people went to Auditorium Park last night and witnessed a fine display of fireworks. This was not accomplished however, without having first suffered considerable delay before the entertainment began. Advertised to take place at 8 o'clock, hundreds of people were on hand at the appointed hour, others coming later in the evening, but it was near 10 o'clock were none who were sorry that they came. They soon forgot the long delay and made the usual exclamations and invented new ones as some particularly beautiful piece was displayed. The entertainment, after it was started, did not lag a minute. Something was in the air all of the time and every piece was a beautiful creation of colors, blends and combinations. The rockets were powerful and undoubtedly of an expensive kind. The mines furnished no end of entertainment, and the arrangement of the Roman candles brought out effects which indicated an eye to the beautiful. The set pieces were numerous and all were displayed without a break. That of the Lone Star, set out in many colors, probably brought forth more applause and exclamations than any in the lot, but it is presumed that the set piece of Gov. Lanham would be considered a more expensive work and a greater artistic production. The section of Seawall with the lady on top holding a torch was partially spoiled by the face of the girl not appearing in full, there became some defect in the material used. Other pieces were most beautiful, the entire selection being well worth all the inconvenience attached to getting to the park and the long wait which followed.—Galveston News, June 9.

**NOTE—Delay was caused by the** Committee holding the display for an excursion train. — H. J. MARTIN.

At Lake ball park four nights, starting Thursday, June 15th.

**New Auto Law in Virginia.**  
Richmond, Va., June 15.—The new automobile law passed during the last session of the state legislature of Virginia went into effect today and the clerks in the secretary of state office were overwhelmed with applications for licenses from automobile and motorcycle owners and operators in all parts of the state. The law is similar to the new auto law of Maryland and much more strict than the former law. Autos, under the new law, must be registered annually and the fees are graded according to the indicated horsepower of the machines. The law contains unusually strict provisions in regard to speed limits, operating machines on the public highways, etc. and permits appeals to the circuit court of the county in which an arrest for violating the law was made.

**STRAY TOPICS FROM  
 LITTLE OLD NEW YORK**

New York, June 11.—When Mrs. Bridget Woods, who died a few days ago at the house of her daughter in this city, came to New York at the age of six years, she found it but a moderately sized town. The city hall was then in the same place where it now stands, but it was considered to be located on the extreme northern bounds of the city, beyond which there was little chance of the houses ever extending. The only Catholic church was St. Peter's, which still stands at the corner of Barclay and Church streets. Mrs. Woods was born in Tyrone County, Ireland, on February 1, 1805, and came to New York in 1811, a year before the second war with Great Britain. Mrs. Woods, who enjoyed the most remarkable good health to within a few days of her death, had also many memories of the infancy of Patterson, N. J., of which for a time she was a resident. She could look back to the days when there was no jail in that town, and such criminals as there were, were exposed in the old-fashioned way—in stocks and pillory. A daughter, seventy years old, two grandchildren, eleven great-grandchildren and two great-great-grandchildren survive her.

There is good opportunity for some physician to write a learned dissertation upon the medical properties of \$50-bills. About a week ago a merchant in Middletown, on retiring for the night, left some bills lying on top of the dresser. He had a lame back and some time during the night he asked his wife to prepare a porous plaster. After heating the plaster the wife brought in the dark room and accidentally dropped it on the dresser. When she picked it up she did not notice that one of the bills, a \$50-note, had become attached to the business side of the plaster. Her husband applied the plaster to his back and kept it there several days. Of course he missed the bill, but all searching had proved futile, until, upon removing the plaster, the bill was found sticking to it. As it was found impossible to remove the bill from the plaster, the plaster with the bill was sent to the treasury department with the request to exchange the bill for a new one. Strange to say the back was as effectively cured as if the plaster had been in actual contact with the man's back.

To "mere man it may seem to be an absurd idiosyncrasy that so many women have a strong preference for being married in the month of June, but for some unaccountable reason many women actually have such a preference and are willing to make sacrifices and suffer no end of inconvenience for the sake of being married in that particular month. To what extent this June craze has grown may be inferred from the fact that this year there has been a regular race between women to be the first of the June brides. One girl particularly ambitious to be the first June bride of this year, was married two minutes after midnight of May 31, and it is likely that she was the victor in the race.

To make things more interesting, a new branch of the marriage license bureau was opened in the Borough Hall of the Bronx on June 1st and an enterprising Bronx newspaper offered a prize of a china dinner set to the couple that would obtain the first license at the new-branch office. The result may be imagined. There was a regular mass meeting of blushing maidens and bashful swains in front of Borough Hall as early as six o'clock, although the offices are never opened before nine o'clock in the forenoon. The first two couples arrived at the building at the same time and to decide the question of priority the two brides ran a race and the winner afterwards called for and received her china set.

A swarm of bees that had come across the river from the Jersey side, took possession of a tennis court near Riverdale Drive the other day and remained there for several days. As a rule, the court is almost constantly in use from morning till evening in fair weather, but although the weather was exceptionally fine for tennis playing, there were no games while the bees were there. Aspirants assured the tennis players that the bees would not sting them, but the players were not inclined to take the risk of becoming mixed up with the bee colony. For the second time in six months, the safe of a big shoe store on Broadway was blown open by crackmen in broad daylight last Sunday afternoon. The first time the safe blowers managed to carry off \$4,000, which they found in the safe. Their second attempt was not quite so successful. They shattered the safe, but the explosion of the nitroglycerine made so much noise that it attracted the attention of the police and the burglars, who had evidently awaited the result of the explosion at a safe distance, did not get a chance to return and rob the safe.

A truck driver with thieving propen-

ities, made the mistake of his life the other day when he tried to steal a diamond stickpin from the scarf of a stranger whom he found sitting on the curb, apparently in a state of intoxication. The stranger happened to be a detective who simulated intoxication for the purpose of attracting the attention of pickpockets and other criminals. The detective caught the struggle subdued him. The prisoner was held upon the double charge of robbery and carrying concealed weapons.

It is really not surprising that so many deeds of violence are committed by the large number of undesirable citizens who inhabit the Italian quarter of the lower city. The other day the police made a raid upon the men found loafing around in that part of the town and arrested more than forty men in whose possession loaded revolvers, dangerous-looking knives, stiletos and other dangerous weapons were found.

What is life without a fine set of whiskers? The other day a man walked into a doctor's office and asked the practitioner to close up a cut in the patient's bewhiskered cheek. The doctor found it necessary to remove part of the whiskers to be able to get at the wound which bled profusely, but the patient said he would rather bleed to death than have his whiskers mutilated. In a few moments he became so weak from the loss of blood that he collapsed and had to be sent to the hospital. Even there the man protested against the mutilation of his beard, but the doctors there made short work of the hirsute ornament.

### UNCLE SAM'S STAMPS.

Wonderfully Complete Collection in Postoffice Department Museum.

Baltimore American.

Many men in the bourse of the different hobby periods of their youth were struck with the stamp craze. Nearly all will recall the days that were spent in scouring the neighborhood for new varieties, the hours of pasting and counting, as well as many other tasks they somehow imagined themselves duty bound to perform.

This fact that nearly all men at some time in their lives were stamp collectors is said to account for the popularity of the official stamp collection of the United States postoffice department maintained in connection with the postal museum in Washington. Postoffice department officials say 100,000 men call every year to see the museum stamp collection.

The postoffice department museum is not by any means a new institution, but many notable additions have been made to it in the last year. Consequently it is not quite full of interesting objects. It contains almost everything from a lock of Charles Guiteau's hair to models of the big battleships of the navy, but by far its most interesting feature, according to the officials in charge, is the stamp collection. Few visitors miss that sight, and many "hobbyists" spend several hours poring over it.

Uncle Sam as a stamp collector is a most signal success. He not only has a complete set of his own stamps but a complete collection from every other stamp-issuing country in the civilized world as well. His collection is valued by the department at \$200,000, but stamp dealers say it would demand a figure many times that sum if placed on the open market for sale.

The fact that Uncle Sam's stamp collection is absolutely complete is a statement difficult to comprehend, even to those who have been collectors themselves. Most of those who were collectors in years gone by will remember how many empty places there were in the albums when they glided in the possession of 1500 and 2000 specimens. They will recall how many new varieties above the 2000 mark cost from \$5 to \$10 each, also the small fortunes placed on some of the specially rare specimens, the kind which the dealer's catalogues related had only been printed to the number of 100 or so and but six or seven were known to be in existence.

Well Uncle Sam's stamp collection possesses all of these, besides the thousands of common kinds. Although it has taken hard work, many years and a tidy fortune to do it the collection today stands absolutely complete. The only varieties yet to be added are those yet to be issued.

### LONGEST TRIP OF ALL.

Never Before Has the Glidden Tour Covered Such a Number of Miles.

The contesting cars in this year's Glidden tour will travel a greater distance than has ever been covered in the seven previous years. The route will embrace 2,850 miles and include thirteen states. Dia Lewis, who has mapped out every route since the Glidden tour was inaugurated, says this will be the most notable endurance event ever held. Last year the route was laid through 2,630 miles and extended from Detroit to Kansas City via Minneapolis and Denver over roads of trying construction and through country affording the contesting cars a severe test.

On the trip this year it is said every known variety of road will be gone over. The lengthening of the tour, the addition of touring hardships and the general increase in the rigor of the testing has been in direct proportion to the improvement of the motor cars.

When the tourists reach Dallas, however, they will forget their troubles, for autoists from all over the state will be on hand to welcome them. Letters have been received from a number of cities and towns from owners of horseless carriages stating they will be on hand with their machines on the twenty-first to welcome and help entertain the visitors. It will be the greatest gathering of automobilists in the history of the South. Two hundred or more cars rolling into Dallas on the afternoon of June 21st. Think what an inspiring sight it will be. Every motorist in Texas is urged to be present. Let us show the Gliddenites what a vast array of machines are in our state by permitting them to see the cars.

Reduced His Estimate of Self. Commonly it is the man himself who is the last person to discover that a too high value has been put upon his worth to the world. In his book, "Afoot and Alone," Stephen Powers reports the case of a negro in the south before the civil war who came to the conclusion that he was paying too much for himself when he was buying his freedom.

He belonged to an Alabama planter who owned a ferry on the Chattahoo-

chee river. This ferry the negro had operated. To make the ferryman faithful to his duty the owner had allowed him one-half of his earnings.

Harry saved his gains carefully and in the course of time proposed to his master to buy his freedom. The master consented and an agreement was made that Harry should pay \$800 for himself half in hand.

Not long after this there came an unusual freshet. Harry's skiff was capsized in the middle of the stream, and he himself was carried down two or three miles before he could get ashore, being then more dead than alive. Woe-folly bedraggled and dilapidated, he presented himself before his master.

"Marse John," he said, "I wants to trade back."

"What's the matter, Harry?"

"Well, Marse John, \$400 is more money'n I want to risk on dis hyar nigger."—Youth's Companion.

A physician at a dinner in Denver answered at certain Biblical miracles.

"Lazarus," he said, "was raised from the dead—and yet I don't see any dead folks being raised in our time."

"No," said the Rev. Herbert H. Tresham, the Biblical scholar, with a smile. "Modern medical science has progressed too far for that, eh?"—Washington Star.

Get wise to that fussy pill plant on 8th street; those tamperance toddy tossers were mixing summer joy juices way back when Methusalem was too young to vote, and say, don't try to stand them up by asking for any fancy foam, unless you want it, for they have all the information that goes with the job—none of that refined Hungarian fuss coming, but music by the cash register from six-thirty a. m., till street lights get peevish from working overtime. With best wishes, I am,  
Yours when you come after me,

**LOCAL NEWS BREVITIES**

Constable Pickett and Policeman Allen arrested a man by the name of Richardson this morning in this city just after the arrival of the Wichita Valley train, on information from the authorities at Goree, Knox county, saying the man was wanted there on the charge of having broken into and robbed a store of \$30 in money last night. A description of the man suspected was telegraphed the officers here, and they met the train down in the railroad yards where Richardson tried to leave it, but was arrested and lodged in jail to await the coming of the Knox county officers. Two ten dollar bills and about ten dollars in silver were found on his person. One silver quarter of a dollar, different from most other coins of that denomination, was described in the telegraphic communication to the officers and this coin was found on the person of the man placed under arrest. He denies the charge, but will be held at least until the arrival of the Knox county officers.

The Times is in receipt of the following with the request to publish: Jermyn, Texas, June 13.—Will you kindly state that our master mechanic, Mr. F. O. Carlson, and Joe Jones, slave, are enjoying themselves too much at Wichita Falls and bring them home; that the duty of a railroad man is to visit his wife and children for the purpose of continuing his acquaintance with them, is once a year? Would sign this with the name of G. S. if were not afraid. Yours truly, L. B. Burgess, Chief Clerk; W. B. Clark, Draftsman.

Mabel Gertrude, the 17-months-old child of Mr. and Mrs. J. G. Givens.

**FIREWORKS A ROYAL ENTERTAINMENT.**

There is, perhaps, no form of entertainment so universal throughout the whole world as fireworks.  
The ancient Greeks were the first with their Greek fire, and the very name of pyrotechnics came from the Greek Pyre, meaning fire.  
The early recorded Chinese history gives account of explosive works, and up to the present time potates of old and the nations of today make this their chiefest form of celebration. They speak in the universal languages of color and modern chemists have delved deep into the laboratories of mother earth for her hidden surprises and her most gorgeous colorings.  
So great have the strides been made that modern pyrotechny is an innovation to almost all the people. Those who have not had the good fortune of witnessing the larger exhibitions will have no conception of the intricate effects attained and the startling grandeur that will be in store for them at Lake Balj Park four nights, starting June 16th.
