No. 17

## FILE ARE HELD IN "REWARD" KILLING

### ABOUT THIS AND THAT .....

Seeds of kids, bunches of boys, girls and lots of grown-ups were around, in, over, under and near the Lions swimming pool in Ranger last night at the official opening. We once estimated a crowd at a political speaking at 1,000 only to find that everyone else estimated it at from 8,000 to 10,000 so we are not sure about the size of the crowd. We will be indefinite by saying they turned out in large numbers and everyone seemed to be having a big time, especially the kids.

The bathing review and races went off on schedule and everything considered it was a big success. An account of the features of the opening can be found in other parts of this paper.

### HEAT WAVE IS FATAL TO SCORES

CHICAGO, June 19.—Virtually all the nation sweltered today as a sizzling sun and sultry breezes brought temperatures ranging from 90 to 110 degrees.

Hundreds of prostrations, scores of deaths were reported from more than half the nation.

There is no prospect of relief until tomorrow night, the weather bureau said.

Three persons died after being prostrated in Minnesota and South Dakota. Other deaths in Minnesota and Wisconsin were attributed to the heat.

At Peoria, Ill., an ice handler fell dead 10 minutes after reporting for work today.

Where Pastor Was Hanged Thursday

### Where Pastor Was Hanged Thursday

An interior view of the church where armed, masked men strung up an associate pastor, after threat letters had been received by him and the regular pastor, Rev. R. P. Brown, victim of the attack, could not describe a motive for the attack, apparently made by members of his Dallas Baptist congregation.

### COLLAPSE OF BRIDGE IS FATAL

CARTHAGE, Tenn., June 19.—A 40-foot span of a highway bridge under construction over Caney Fork river, near here, broke loose and fell into the stream at noon today.

First unconfirmed reports were that five men had been killed and an equal number seriously injured.

### ARE CHARGED WITH SLAYING OF TWO MEN

Three Are Former Officers Who Are Accused of Killing for Bandit Reward

### Bootleggers in Kansas City To Follow Al's Lead

KANSAS CITY, June 19.—Six members of Kansas City's wholesale ring, following the big shots of the nation's liquor racket, Al Capone, gave up their fight against liquor indictments in federal courts today and pleaded guilty to charges of conspiracy to violate the dry laws.

Frank Mulloy and Leo Swatz, so-called leaders of the ring, and four lesser lights, admitted their guilt in federal court.

### Eastland County Bankers Meet on Thursday Night

The Eastland County Bankers' association met last night on the Connells Hotel roof garden with the First National Bank of Gorman in the capacity of host at the banquet given for 15 representatives of the Eastland county banks.

The banks represented were: The Texas State Bank, Eastland; Cico Banking company, Cico; Citizens State Bank, Ranger; Commercial State Bank, Ranger; Continental State Bank, Rising Star; the host, First National Bank, Gorman.

### SEVEN JURORS PICKED IN THOMAS DAVIS CASE

Only seven jurors had been secured in the Thomas Davis trial at noon today. Davis, charged with murder in connection with the slaying of Leon Shook in September, 1928, went to trial Thursday morning in Judge Elzo Hess's 88th district court. A special venire of 100 men was exhausted Thursday. Additional tamen were picked up by Sheriff Virge Foster on an order from the court.

### SPRINGER TO TRY SLAYERS OF MEXICANS

OKLAHOMA CITY, June 19.—Selection of prosecutors in the trial of two deputy sheriffs charged in the slaying of two prominent Mexican students were completed by Governor W. H. Murray.

The governor appointed J. P. Springer, Payne county attorney, as special prosecutor in the trial scheduled for June 24.

### Hanging Victim

Rev. R. P. Brown, associate pastor of the North Dallas Baptist church, Dallas, was slain by four gunmen, taken to the church where he was helping conduct a revival, tied hand and foot, and swung to a chandelier by a rope noose. His torso barely touched a folding chair. The rope slackened after his abductors left, he wriggled his jaws to loosen the adhesive tape around his mouth, and his cries finally brought policemen who released him. Rev. Brown blamed differences in the church for the attack. The assault followed receipt of three threatening letters received by Rev. Brown and the regular pastor, Rev. H. L. Marler.

### PASTORS ARE UNDER GUARD OF OFFICERS

DALLAS, June 19.—Rev. H. L. Marler and Rev. R. P. Brown, central figures in internal strife at the North Baptist Church which ended yesterday in the kidnaping and attempted hanging of Rev. Brown, slept last night under police guard.

E. O. Maxwell, a former deacon, was questioned by police regarding threatening letters received by both pastors last month but was not held.

Fingerprint experts continued to compare the 15 letters with the handwriting in the records of the church.

Rev. R. P. Brown, associate pastor of the North Dallas Baptist church, Dallas, was slain by four gunmen, taken to the church where he was helping conduct a revival, tied hand and foot, and swung to a chandelier by a rope noose.

### McDonald Urges Legislation for the Farmers of State

AUSTIN, June 19.—If Governor Ross Sterling calls a special session to meet the oil industry's predicament, J. E. McDonald, state agricultural commissioner said today that relief for agriculture should also be submitted as a legislative topic.

"The cases of oil and soil are virtually parallel," said McDonald. "The chief distinction is that voted by more people depend upon the soil and more lives are affected by the price of cotton than by the price of oil."

### Burglars Steal Shoes From Store

Burglars entered the store of Dan Parcel in Ranger and took several pairs of shoes, according to reports received by the police department.

The loss reported as consisting of one pair of Stetson tan low-cut, size 9 1/2; one pair Stetson black low-cut size 10; one pair Stetson black low-cut, size 9 1/2 and four pairs of adjustable shoe trees.

No clue to the burglary has been discovered though officers are on the lookout for the thieves.

### Series of Dry Raids Started in Fort Worth

FORT WORTH, June 19.—Texas rangers, federal prohibition agents, city police and members of the sheriff's force began a series of raids this afternoon to drive Dallas fleeing bootleggers, either back there or somewhere else.

Ranger Captain Tom Hickman said that since the lad had been clamped down by the new Dallas city manager and following raids at Glen Rose a number of bootleggers had come to Fort Worth.

### Lions Express Thanks to Public For Cooperation

The Ranger Lions' club today expressed their appreciation of the co-operation and response given by the citizens in the opening of the Willows in the following letter:

"To the Public: The Ranger Lions club takes this opportunity and means to express to the public the appreciation of its entire membership for the wonderful attendance and the interest manifested during the opening of the Willows' swimming pool yesterday evening.

"We are indeed happy and proud to present this pool to the girls and boys and citizenship of this community and feel after the opening last night that our efforts have been more than worth while. The Lions club did not enter into this project to make money but entered with a spirit of service and the paramount thought was to provide some form of recreation for our community and particularly for the children.

"The pool will continue to operate under the auspices of the Lions club throughout the summer months and every effort will be made that is possible to provide for safety, cleanliness and healthful recreation. The operators of the pool, Mr. and Mrs. Frank Hicklin, will provide for your every need and will give you the most courteous treatment at all times. The sanitation of the water will be under the care of W. C. Blackmond and as this question is of the utmost importance arrangements have already been made whereby we believe that the sanitation of the water will be second to none in this entire section.

"We wish to express our regret in the delay of handing the arrangements last night at the office as some confusion existed due to the fact that some of our equipment and material necessary to operate had not arrived and we feel that this will be overcome and corrected and ask that you bear with us during the opening period as you did last night.

"Announcements will be made from time to time and as stated previously through the press, each Thursday will be 'Lions Day' and from 9 a. m. to 11 a. m., all children up to 10 years of age will be admitted free. It is hoped that we may add to the free weekly period later.

"We again wish to thank the public and each and everyone who assisted so materially in making the opening a success.

"Sincerely,  
"RANGER LIONS CLUB,  
By A. N. LAIBSON, President."

### Farmer Charged in Stabbing Case

MIDLAND, June 19.—Tom White, Midland county farmer, was under \$5,000 bond here today on charges of stabbing Night Officer Ben Driver last night. The knife blade struck Driver's wide belt, which probably saved his life.

### Swarming Bees Block Traffic in Kansas City

KANSAS CITY, June 19.—Pandemonium reigned for an hour today at a downtown intersection here when thousands of swarming bees descended upon pedestrians and motorists, throwing traffic into confusion and sending women screaming from the scene.

The bees swarmed on motorists and street cars. Motorists abandoned their cars and fled. Pedestrians fled across the street waving their hats and arms in efforts to escape the swarm.

No one was hurt, authorities said, since bees have no tendency to sting when swarming.

### Italy Seeks Book On World War

ROME—Because Italy hasn't a suitable book dealing with her part in the World War, the National Scholastic Society is offering a prize of 20,000 lire for a book concerning "Our War."

The contest closes Dec. 31. The society, in making announcement of the competition, declared Italy's part in the World War was insufficiently treated in most war books.

### Miss Earhart to Be Reprimanded

WASHINGTON, June 19.—The department of commerce announced today that Amelia Earhart would be reprimanded for carelessness and poor judgment in connection with her recent autogiro accident at Abilene.

### Woman To Observe Her 110th Birthday

SHAMOKIN, Pa.—Mrs. Elizabeth Kaminski, Kulpmont resident, is planning to celebrate her 110th birthday on Aug. 10.

She was born in Lithuania in 1821, when Alexander I was czar of all the Russians; when James Monroe was president of the United States; and when the flourishing anthracite region was still forest and scattered outpost settlements.

Mrs. Kaminski's age was certified by records obtained from the town authorities of the Lithuanian hamlet where she was born.

### Bandits' Heads Are Warning To Their Chinese Comrades

PEIPING.—Bandits captured in Tatungfo, northern Shansi, have served as a gory object lesson for their comrades still at large.

Six were captured by Tatungfo police in a robbery. They were taken to the center of the city, and while thousands watched, old-fashioned executioners chopped off their heads. The executioners have had little practice recently, and took some time for the executions.

### Eastland Band To Give Concert On Saturday Night

The Eastland Booster Band has been working hard all this week in preparation for a special concert to be given on the south lawn of the Eastland county courthouse Saturday night.

While Mr. Campbell did not give a list of the numbers he and his band will give he did say that they will play every popular and well loved selection and variation of the beautiful "Danube Waves" waltz. Another group of selections that should swell the usual crowd who gather to hear these concerts are a group of American Folk songs.

Every one in Eastland and in driving distance is invited to come to town Saturday night for this program which starts at 8 o'clock.

### Nautilus Again Having Trouble

WASHINGTON, June 19.—Already battered and partially disabled in mid-Atlantic, the submarine Nautilus in which Sir Hubert Wilkins proposes to reach the north pole, today had its bridge and periscope swept away. The battleship Wyoming reported to the Navy department that it was keeping in close touch with the submarine.

### Two Doomed Men Hope for Retrial

AUSTIN, June 19.—Procedure in the cases of Nicandro Munoz and Victor Rodriguez, saved from execution last night by a governor's reprieve until July 10, was in doubt here today.

Meanwhile at Huntsville the cheerful smile that Ofilio Herrera wore through two years imprisonment in the death house was wiped from his face this morning in the electric chair.

He was electrocuted for the murder of Sheriff A. T. Murray of Mason county.

The first two, Munoz and Rodriguez, hoped to obtain a new trial on the grounds that the attorney who represented them in their trial in Hidalgo county was not licensed. They were tried and convicted of killing a customs officer.

### McDonald Urges Legislation for the Farmers of State

AUSTIN, June 19.—If Governor Ross Sterling calls a special session to meet the oil industry's predicament, J. E. McDonald, state agricultural commissioner said today that relief for agriculture should also be submitted as a legislative topic.

"The cases of oil and soil are virtually parallel," said McDonald. "The chief distinction is that voted by more people depend upon the soil and more lives are affected by the price of cotton than by the price of oil."

### COLLAPSE OF BRIDGE IS FATAL

CARTHAGE, Tenn., June 19.—A 40-foot span of a highway bridge under construction over Caney Fork river, near here, broke loose and fell into the stream at noon today.

First unconfirmed reports were that five men had been killed and an equal number seriously injured.

### EASTLAND AND RANGER SHOW MUCH BUILDING

Eastland and Ranger showed substantial building activities during the month of May with \$2,000 in permits being granted in Eastland and \$7,000 being issued in Ranger.

The total for the state was more for the month of May than for April and was not very much under the figure for May, 1930.

Building permits granted in 35 Texas cities during May totaled \$5,386,000, compared to \$5,073,600 in April and \$6,319,000 in May of last year, according to the University of Texas Bureau of Research.

"As a usual thing building permits drop off sharply during May as compared to the previous month," the bureau's report said. "The total for May this year was 13 per cent below May, 1930, in actual dollar value, but when adjusted for lower building costs as indicated by the Engineering News-Record index the decrease was only 7.3 per cent."

"The increase in Texas during May as compared to April was in contrast to a decline of 9.1 per cent in total building of the United States, as indicated by the F. W. Dodge corporation. United States figures on a dollar basis were 23 per cent below May of last year.

"Permits granted in Texas cities were as follows: Abilene, \$9,000; Amarillo, \$290,000; Austin, \$153,000; Beaumont, \$347,000; Brownsville, \$19,000; Brownwood, \$38,000; Cleburne, \$9,000; Corpus Christi, \$78,000; Corsicana, \$12,000; Dallas, \$349,000; Del Rio, \$57,000; Denison, \$4,000; Eastland, \$2,000; El Paso, \$97,000; Fort Worth, \$842,000; Galveston, \$186,000; Houston, \$777,000; Jacksonville, \$43,000; Laredo, \$11,000; Lubbock, \$7,000; McAllen, \$2,000; Marshall, \$14,000; Paris, \$6,000; Plainview, \$20,000; Fort Arthur, \$51,000; Ranger, \$7,000; San Angelo, \$6,000; San Antonio, \$116,000; Sherman, \$3,000; Snyder, \$4,000; Sweetwater, \$2,000; Temple, \$33,000; Tyler, \$429,000; Waco, \$1,269,000; Wichita Falls, \$7,000."

### PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were had in the Court of Civil Appeals for the Eleventh Eminent Judicial District:

Reversed and Remanded—J. E. Blanton vs. W. E. Nealus et al., Comanche.

Dismissed—James Shaw, bank-licensing commissioner, vs. Mary L. Cunningham, Eastland.

Cases Submitted—Magnolia Petroleum Co. vs. J. L. Reed, Eastland; Atwood Cotton Breeding Farm vs. Mary A. Farmers' Co-operative society, Dawson.

Motions Submitted—Republic Production Co. vs. J. A. Collins, appellant's motion for rehearing; Republic Production Co. vs. J. A. Collins, appellant's motion for rehearing; J. J. Lane vs. Mary Gladys Lane, appellant's motion for rehearing; Bankers Lloyds vs. J. E. Montgomery, appellant's motion for rehearing.

Motions Overruled—National Loan & Investment Co. vs. L. W. Pehphey & Co., appellant's motion for rehearing; Texas Pacific Coal & Oil Co. vs. Mrs. Beulah W. Robertson, et al., appellant's motion for rehearing; Texas Employers Insurance association vs. L. W. Teel et al., appellant's motion for rehearing; Merchants Cotton Oil Co. vs. Acme Gin Co., et al., appellant's motion for rehearing; Merchants Cotton Oil Co. vs. Acme Gin Co., et al., appellant's motion for rehearing.

Cases Set for Submission June 26, 1931—Hattie Miller vs. City of Abilene, Taylor.

### Former Leader of Capone Gang Back on Job

CHICAGO, June 19.—While federal agents today hunted throughout the city for 66 followers of "Scarface Al" Capone, reports were broadcast that Johnny Torrio had returned and would take over Capone's gang when "Scarface Al" leaves for Leavenworth.

Torrio was considered a big shot in 1920 when he personally brought Capone, a Brooklyn bounce, to Chicago.

Several attempts were made on Torrio's life in late 1929 and he fled. It was said he went to Italy. Reports now are that he went to Florida and was never out of touch of the gang which became so powerful under Capone's leadership that it earned upward of \$700,000,000 in 10 years.

### Tire Stolen From Car Parked at the Willows Thursday

A report to the Ranger police department late last night said that an automobile casing, tube, rim and tire cover had been stolen during the opening ceremonies of the Willows.

The theft was reported by Charlie Moore of the Oilbelt Motor company, who was acting as master of ceremonies at the bathing review.

### Eastland Band To Give Concert On Saturday Night

The Eastland Booster Band has been working hard all this week in preparation for a special concert to be given on the south lawn of the Eastland county courthouse Saturday night.

While Mr. Campbell did not give a list of the numbers he and his band will give he did say that they will play every popular and well loved selection and variation of the beautiful "Danube Waves" waltz. RATTLER KILLS COW

SALEM, Ore.—Ritten by a rattlesnake, a registered Jersey cow belonging to E. A. Hawk, of Turner, died here. Marion county agricultural experts said it was the first case of the kind ever reported to them.

**WHERE THE FARMERS COME IN.**

Alfred M. Landon of Kansas headed a committee representing independent operators during the marketing crisis last winter and was active in the fight for an oil tariff. In a recent address he had something to say of the producer and landowner directly affected. This, for instance:

"Many think of the oil and gas industry only in terms of barrels of oil produced and the volume of gas marketed and the benefits to the producer and landowner directly affected. They do not realize that millions of acres of land are leased, rentals and bonuses paid for them, from which no oil or gas is ever produced." Those who give thought to the matter, the Kansas operator said, "know that the oil and the gas business has done much to lighten the burdens of Kansas land owners, during these stragglesome times on the farms. I am speaking now of the annual rental of one dollar an acre which is ordinarily paid on the 12,500,000 acres of Kansas land under lease by the oil industry for the purpose of deferring drilling."

There appears to be many sides to the petroleum problem. All this is a reminder that the present proration order issued by the Texas railroad commission expires July 1 and that a hearing for consideration of the proration figure for the period beginning July 1 will take place Monday, June 22. Another babble of tongues may add to the confusion of things said to be oily.

**RIGHT OF COUNTIES TO ISSUE BONDS.**

Right of counties to issue bonds for other than road, irrigation and navigation purposes is upheld in an opinion of the Texas supreme court, controverting an opinion of the United States court of circuit appeal at New Orleans which held bonds could be issued only for those purposes. Test cases were brought by Collingsworth and Henderson counties and sought to compel the attorney general to approve certain bond issues. That official was instructed by the supreme court to approve the issue \$150,000 for a courthouse in Collingsworth county and \$148,000 in Henderson county road and bridge refunding bonds.

It is said the federal court opinion in the Shelby county case was withdrawn to permit a test case to be filed in the state court. Furthermore, that the federal court usually accepts the interpretation of a state supreme court on the states' constitution. No construction on the portion of the constitution affecting bond issues had been made by the Texas supreme court and the federal court opinion was withdrawn pending action of the state supreme court. Now ambitious counties are informed as to their constitutional rights.

**RUBBER MEN FACING HARD TIMES.**

There is a billion dollar rubber industry in the United States and the president of one of the largest companies told the National Association of Purchasing Agents that the industry in this country had not made a single dollar of profit in the last 10 years. He said crude rubber was at the lowest price in history and that fact was one of several causes for the lack of profit.

It is a matter of history that in the not remote past the master minds of the British empire organized to control the production and to fix the price of crude rubber. These master minds were certain that it was the richest oyster in a trade sense the sturdy Britains had ever discovered. Their program failed. Instead of cornering the world market the buyers of the world cornered the big combine and its millions. There was a blowup, so to speak. The combination went to pieces, low price levels followed and now, an industrial captain in the rubber world says the business is without profit.

**STARVATION PAY FOR WOMEN WORKERS.**

What is a living wage for a woman worker? Out of a study of wages in 13 states comes a report from the woman's bureau of the federal labor department that many thousands of full time woman workers earned less than a bare living wage from 1920 to 1925. Converting figures to a 1925 basis the woman chief of the research division fixed the rock bottom cost of living for an independent woman at \$15.71 a week. Colorado leads all states in the conclusion that it takes at least \$17.20 for a woman worker to live decently. Moreover, the Colorado state industrial commission divided its weekly \$17.20 as follows: Breakfast, 30 cents; lunch, 30 cents; dinner, 50 cents; room rent, four dollars for the week; laundry, 50 cents; amusements and reading matter, one dollar; clothing, \$1.50; dentist, doctor, saving account for unemployment of illness, \$1.50; car or bus fare, one dollar. Is it possible for a woman to dress decently on an allowance of \$6 a month? If so, how?

**POLITICS IN OLD TENNESSEE.**

Governor Henry H. Horton of Tennessee escaped impeachment by a vote of 40 for and 56 against. Governor Horton is a democrat. He is the personal and political crony of Col. Luke Lea and Roger Caldwell. These gentlemen were bankers and publishers and politicians. When the crash came in Wall Street they were swamped and state funds of more than \$7,000,000 was one of the items involved when Tennessee bank doors were closed by examiners of the state and the nation.

Tennessee has two democratic factions. Governor Horton is said to be spokesman for the Lea-Caldwell faction and Congressman Crump of Memphis is the boss of the second faction. There are wise politicians in the democratic camp who predict that the next governor of Tennessee will be a republican. Where is the difference? Isn't a practical politician practical regardless of his party trademark?

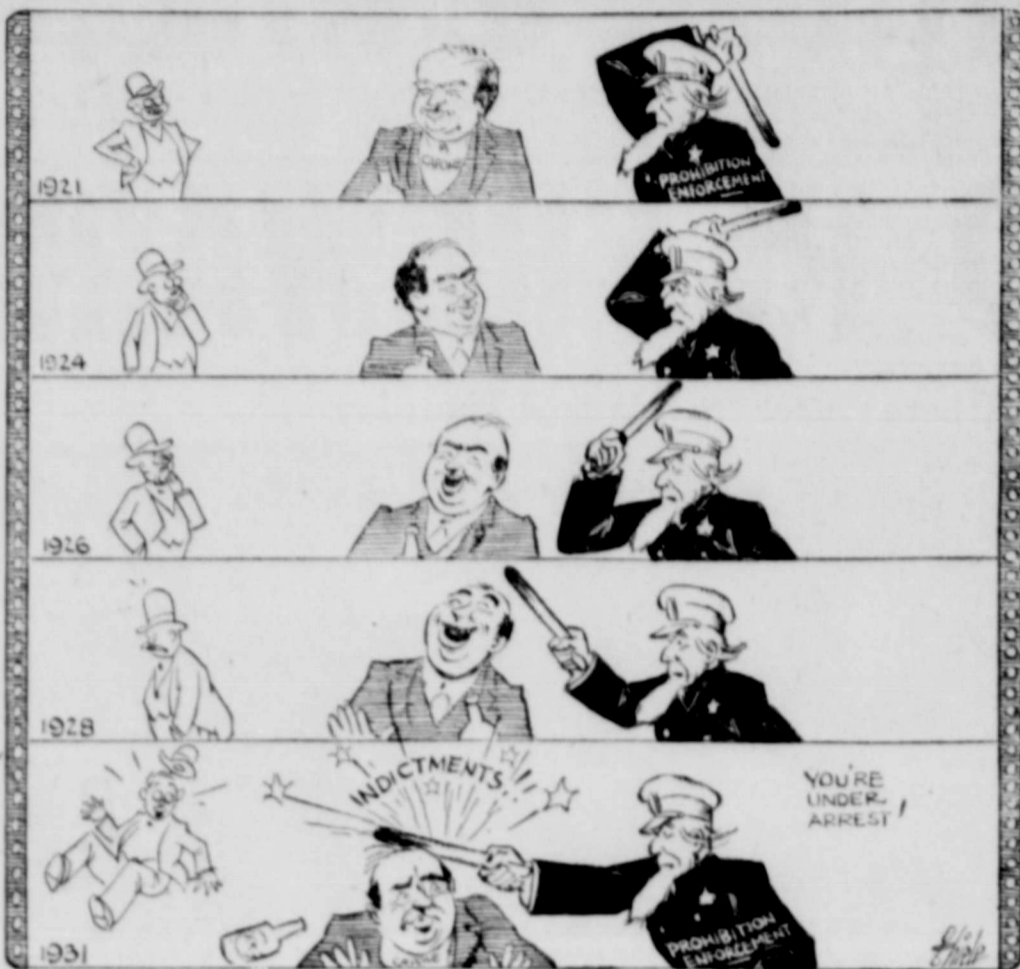

**FLOWERS FOR THE LIVING.**

Holland Mayes of Tom Green county has a record of having slain 980 rattlesnakes. He keeps a tally sheet as in branding cattle. His largest haul was when he twisted 105 out of a cave. They ranged from six feet in length down, some having 10 and 12 rattles. Twenty-nine years ago, when a barefoot boy on a ranch near San Saba, Holland was bitten by a snake. He has been on the trail of the rattler ever since. He should be voted a Carnegie hero medal.

**A MODERN CITY WITHIN A CITY.**

And now the Rockefeller are tearing down a city to build a city in the heart of Manhattan. It is to be known as the \$250,000,000 "Radio City" and will be one of the architectural wonders of the world. There is money in oil.

**A "Slow Motion" Hit!**

**CRACKS IN THE DOME.**

The governor's office about the only department left that does not collect taxes or fees for the state, the legislative efficiency committee starting work this week will find that a regrouping of functions will accomplish far more than any attempted consolidation of departments themselves.

And there are some mergers of departments and bureaus possible. There is chaos now in the collection of state revenues. A single collecting agency would relieve a lot of people of unnecessary work, simplify and harmonize the work of the rest. Here are some of the conflicts now:

State department, collects franchise taxes and certain other fees. Sells books.  
 Comptroller, collects ad valorem taxes, liquor taxes, gasoline taxes, half a dozen other taxes.  
 Treasury department, collects cigarette tax, interest on bonds.  
 Banking department, collects fees.  
 Insurance department, collects fees.  
 Motorbus division and gas utilities division of railroad commission collect fees.  
 Education department, collects funds.  
 Board of control collects revenues for support of inmates, and from sale of products.  
 Prison system collects several kinds of revenues.  
 Seed breeder board collects examination fees.  
 Courts collect fees.  
 Land office collects oil royalties, fees, payments.  
 Agriculture department collects licensing fees.  
 State reclamation department collects licensing fees.  
 Game department collects license fees and fines, the latter remitted to its fund from courts.  
 Water board collects license fees.  
 Barber board collects license fees.  
 Mining board collects inspection fees.

This does not mean merely having collections credited to their funds. It means actual collection by the agencies for transfer to accounts of these funds in the treasury.

As to consolidations, the joint legislative committee will consider several time-honored merger proposals, along with others. Such as:  
 Industrial accident board with board of insurance commissioners.  
 State reclamation engineer with board of water engineers.  
 State highway patrol and inspectors of motor transportation division with state enforcement officers under direction of adjutant general's department.  
 Barber license board with board of health; then make board of health a bureau in board of control.  
 Transfer pension division into board of control. Comparable with supervision of homes for Confederates, orphan children, etc.  
 Blue sky division of state department with bond approval division of railroad commission.  
 Central stationery and supply depot, central telephone exchange, central mailing division and janitor service in board of control, custodian of building and property, as recommended by state auditor. This would eliminate more than 50 employees.

When this much merging of functions had been done, then the efficiency and consolidation committee could get a new perspective and at last begin really to untangle the maze of crossed-up activities.

There really are four main functions of the state:  
 1. Administration and law enforcement.  
 2. Collection and handling of money.  
 3. Keeping of records.  
 4. Custodianship of state wards and property and the equipment, supplies and operating agencies required to perform this function.

Biblical accounts of the fiery destruction of Sodom have been verified, scientists believe, by recent excavations in Transpordania.

**WASHINGTON LETTER**

BY RODNEY DUTCHER  
 NEA Service Writer

WASHINGTON—If anyone doesn't realize now that less meat should be eaten during the summer months it isn't the fault of the meat packers and the livestock interests.

The more unbrag you take at anything the more publicly you give it and the bulletin of the United States Public Health Service warning against eating too much meat in hot weather would have attracted no more attention than other U. S. P. H. S. bulletins if the meat men had been willing to let well enough alone. Instead, they protested vigorously to the secretary of the Treasury Mellon, in whose department the health service is, and got themselves and the meat-eating issue into the newspapers. When Mellon decided to censor federal health bulletins in the future that news and the row about censorship which it stirred up presumably left few people unaware of what the U. S. P. H. S. had been advising.

POLITICIANS can tell you that it often doesn't pay to take umbrage. When Premier Mussolini went after General Smedley Butler for calling him a hit-and-run driver the charge didn't stick, but Mussolini found himself being panned on general principles all over the United States while Butler became a sort of national hero. Senator Nye of North Dakota, finding that Moses of New Hampshire had introduced his expenses as chairman of the campaign funds committee into the Congressional Record, heatedly charged a political plot and so directed attention to his accounts. The accounts undoubtedly were fair, but some of the items looked funny on the face of them.

**DID YOU EVER STOP TO THINK**

By EDSON R. WAITE  
 Shawnee, Okla.

D. B. Macfarlane, editor and vice-president of the Regina (Sask.) Leader-Post, says:  
 That nobody likes hard times. It is important to keep this point in view in any consideration of the causes of the present world-wide depression. The easy and the superficial was to account for the cause of the trouble is to say that the "big interests" are responsible because they are greedy for profits; that the banks are responsible because they will not reduce the interest on loans or make it easier to obtain credit; that the railroads are responsible because they will not reduce rates; that the millionaires are responsible because they have a lot of money and will not give it away; that the labor unions are responsible because they stand for certain hours of labor and certain rates of pay; that the newspapers are responsible because they sometimes print the hard facts instead of the rose-colored pictures of foolish optimism; that the farmers are responsible because they are slipshod in their methods and work only six months in the year; that the younger generation is responsible because it wants to live high and not work too hard.

To accept any one or all of these statements makes it more difficult to come to grips intelligently with the problem of the day. They only result in throwing the investigator on the wrong track and to cause a lot of well-intentioned people to accept what others are saying, which saves them from the hard work of trying to think the thing through for themselves.

**Washington Court Ruling Halts Gas and Oil Leasing**

OLYMPIA, Wash.—A decision of the state supreme court upheld the Washington law aiming to prevent public domain land natural gas and oil rights, from passing into the hand of a few.

The court held a citizen cannot transfer his public domain land and gas rights to a second party, who already is owner of more than 640 acres of state land.

**SUB CHASER FOR CADETS**

GREEN BAY, Wis.—Submarine chaser 432 will be used July 25 to Aug. 3 this summer for the annual training cruise of the Green Bay naval reserve unit, according to Lieut. Com James H. McGillan. The cruise will extend as far east as Detroit.

KILGORE—Dixie Mercantile company's building, costing approximately \$15,000, nearing completion.

**PICKING YOUR RIGHT JOB.....**

This is the second of a series by leaders in different professions and lines of business in which they have gained distinction.

By DR. SHIRLEY W. WYNNE  
 As Told to J. V. Fitzgerald

The training required of a doctor nowadays is long and arduous. The requirements are constantly being made stricter. You must plan on from six to nine years in college, medical school and hospital service. You need a thorough preparatory school training, with most stress laid on such scientific subjects as physics, chemistry and biology.

The training required of a doctor is expensive. Counting living expenses, I would put the cost at from \$10,000 to \$15,000 before the student is able to gain any return.

You will find it an advantage if you can take a regular college course before you undertake the study of medicine. Such training will help you to think straighter.

Take as much hospital work, above the amount required, as you can afford. Five years of such work will be as worth while to you and your patients as ten years in private practice. The longer your service of this nature the more rounded your experience.

Young doctors will find real opportunities for service and for a comfortable living in the rural communities. The telephone, the automobile, hospital and modern methods have done much to eliminate the drudgery that went with practice in the country.

**SPAIN'S ARMY REORGANIZED FOR FIGHTING**

MADRID.—Spain's army will be reorganized on a fighting basis of eight divisions totalling 100,000 men by July 1. It will be devoid of skeleton battalions and contains only the necessary number of officers to command each unit.

The first serious attempt to solve the army problem ever made in the history of this country, so harassed by the combination of military men and politics, especially since Spanish-American War days, is being executed under the direction of Minister of War, Don Manuel Azana.

No longer is it possible for the majors, lieutenant-colonels, and colonels of a regiment stationed in Morocco, for example, to stay in Madrid, or some other Peninsula city, while a captain remains in charge of the entire regiment; no longer will there be regiments with a dozen times more officers than are necessary; and the total number of generals will be nearer 80 than the old figure of 548.

Furthermore, in all probability there will not be a generalissimo, or the Captain-General of the Army. The vacancy caused by the death of Captain-General Valeriano Weyler last November was filled shortly after the advent of the Republic with the appointment of Lieut.-Gen. Francisco Aguilera to that post; but with Aguilera's death in May it is again vacant, and the chances are that it will no longer be possible for an army officer to aspire any higher rank than Lieutenant-General.

Azana's plan is to have the army maintained in such a state of efficiency that in case of war it would be possible to build up a much larger army, the permanent personnel not only serving as the nucleus, but as a corps to train the new soldiers.

**Soot Outweighs City Population**

PITTSBURGH.—Approximately 197,272,000 pounds of soot—an amount probably greater than the weight of the entire population of Pittsburgh—falls within the city limits during a year, it has been estimated.

The soot falls at an average rate of 986.5 tons per square mile each year, according to H. B. Meller, head of the bureau of smoke regulation.

This is an average of 157 pounds for each resident of Pittsburgh. It was estimated, with the total probably exceeding the total weight of the population of about 700,000.

Comparative charts show a decrease of about 50 per cent in the sootfall in the downtown district in the past eight years which was attributed to use of central heating plants instead of a large number of individual furnaces.

# Weekly Sunday School Lesson

## The Sin of Causing Others to Stumble

**Text: Romans 15:13-23.**  
 We do not therefore judge one another in any more; but judge this only, that no man put a stumbling block or an occasion to fall in another's way.  
 And be persuaded by the grace of Jesus, that there is nothing in itself, but to him seemeth any thing to be unclean, to him it is unclean.  
 If thy brother be grieved with thy meat, now walkest thou charitably. Destroy not him with thy meat, for whom Christ died, that he might sanctify and cleanse to himself the kingdom of God in and drink; but righteousness, peace, and joy in the Holy Spirit.  
 For that in these things ye are approved of men, ye shall therefore follow after things which make for peace, wherewith one may edify another.  
 Whoso destroyeth not the work of God, all things indeed are lawful, but it is evil for that man eateth with offence.  
 It is good neither to eat flesh, nor to drink wine, nor any thing which thy brother stumbleth, or is made weak, or is made a scandal to, before God. Happy is he that doeth not himself in that which he alloweth.  
 He that doubteth is damned if he eat, because he eateth not of faith; for whatsoever is not of faith is sin.

International Uniform Sunday School Lesson for June 21. Sin of Causing Others to Stumble. Romans 14:13-23.

presence of what might seem to be conflicting attitudes. He says that we are not to judge one another in matters of formal conduct, and the logic of this rule would seem to be that each man should act according to the dictates of his own conscience without reference to what he thinks of others or what others think of him.  
 But Paul immediately goes on to point out that though we are not to judge others there is a sense in which we may live above this plane of judgment in not putting occasion of offense in our brother's way.  
 I have often doubted how far Paul would uphold this rule in our modern life. Sometimes I think that we have taken advantage of Paul's rule to encourage a carping and critical spirit which Paul himself condemned. In developing a strict attitude concerning things that are not wrong in themselves we have been in danger of making concessions to weakness and of according far too much power to critical and censorious people who are not really weak but who like to find fault with others.  
 There are times when it would seem we should say to men and women, "Live your life upon its own basis. Do not be influenced simply by what others are doing, but realizing that God will give you guidance and help plan and do for yourself what you believe to be right."  
 One thing is certain, that in the present world we need strong conscientious characters who do not fear the criticisms of their fellow men, who do not hesitate to do what they believe to be right, and who are not unduly hesitant in refraining from courses of action that they would follow were it not for the fear of their censorious brethren.  
 But having said this, one must recognize also that a situation much like that which confronted

# SISTER MARY'S KITCHEN

**BY SISTER MARY**  
 S.M. Service Writer

**RECIPES for salads are always welcome, and the following ones are timely and quite out-of-ordinary either in their composition or manner of serving.**  
**First of all is a rule for a delicious French dressing. This dressing is particularly good with fruit, but blends excellently with meats and vegetables.**  
 One cup salad oil, 1-3 cup lemon juice, 1-3 cup orange juice, 1 tablespoon powdered sugar, 1-3 cup vinegar, 1 teaspoon Worcestershire sauce, 1 teaspoon mustard, 1 teaspoon paprika, 2 teaspoons salt.  
 Chill all ingredients and put in deep bowl or wide-mouthed pitcher. Beat with a Dover beater, or mix in mixing bottle or tightly covered fruit jar, shaking as usual or French dressing.  
 The following salad is served in lieu of this cold boiled ham roll-d cornucopia fashion and held in place by wooden toothpicks.  
**Cornucopia Salad**  
 Four slices ham, 1-2 cup chopped blanched and roasted almonds, 2 cup cream cheese, 1-4 cup grated carrot, 1-4 cup finely chopped celery heart, 2 hard-cooked eggs, mayonnaise.  
 Chop whites of eggs and combine with almonds, cheese, carrot, celery and mayonnaise. Roll ham in form cones and fill with mixture. Place on a crisp lettuce leaf and sprinkle the salad with yolks of eggs forced through a ricer, serve with rye or whole wheat bread.  
 Rice and tomato salad is colorful and inviting.  
**Rice and Tomato Salad**  
 Six green onions, 6 large pimiento-stuffed olives, 1 green pepper, 1 teaspoon Worcestershire sauce, 1 dessertspoon mustard, 1 cup cooked rice, 1 small head lettuce, French dressing, mayonnaise.  
 Place in a salad bowl, pour over French dressing and toss lightly with a fork. Add tomatoes, onions and rice halves. Pour over more French dressing, garnish with mayonnaise and serve.  
 Sweet peppers stuffed with a mixture of cream cheese and rice are delicious cut in slices and served with a prune dressing.  
**Prune Dressing**  
 Soak prunes, after washing, in cold water to cover for one hour. Simmer in this water until plump but not the least bit soft. Chop and remove from stones and stems. Add with olives to mayonnaise. Pour over pepper rings which have been thoroughly chilled and arranged on the lettuce. A cooked salad dressing can be used in place of tomatoes, if preferable.

Paul is always found where problems of conduct arise. One of the most acute problems concerning these early Christians was that of eating meat offered to idols. When such an offering was made the carcass was not entirely consumed, and the unconsumed portions were sold in the shambles or market stalls. Probably it was just as good meat as other meat. The weaker Christians who, recognizing this, bought it for food, but others said, "It has been offered to idols, therefore we cannot eat it."  
**Scoffed at Idols.**  
 The Christians of strong mind said, "An idol is nothing. The offering of the food did not in any way affect its character. Why should we recognize at all the fact that it has even been offered to idols?" So they ate it with a good conscience. But their weaker brethren could not quite see it in that light, and probably there were those outside of Christian circles altogether who regarded the eating of the meat offered to idols as inconsistent with Christian profession.  
 Now toward this situation Paul took rather a practical and common sense attitude. He seemed to agree on the whole with those who said that the idol was nothing, that the meat was good for food to those who ate it without questioning, but he saw also, that there was the danger of nurturing these weaker brethren and bringing them to a position of strength. Paul did this by asserting definitely the Christian principles of liberty, and by interpreting the wisdom of a practical action in the presence of those principles. The trouble is that so often in adjusting matters of this kind and in trying to adapt ourselves to the position of the weaker brother we reduce the principles themselves to weakness and make the liberty of Christ really of no effect.  
**The Practical Side.**  
 A lesson like this is to be studied as much in the light of its large

Grief Kills Pet Swan of Pavlova

LONDON—One of Madame Anna Pavlova's pet swans has died of grief over the death of her famous mistress. The other is fast fretting himself into a decline. They were the cherished pets of the dancer, who drew from them the inspiration of her famous "Dying Swan" dance, and who was frequently photographed beside them in the garden of her Hampstead, London, home.

Big Homecoming For Columbus

COLUMBUS, Neb.—Plans are being made here for celebration of the seventy-fifth birthday of Columbus in the form of a diamond jubilee and home-coming during the week of Sept. 13. It was in 1866 that a colony of emigrants from Columbus, Ohio, crossed the Missouri river into the "great American desert," and established Columbus, Neb., near the junction of the Loup and Platte rivers. During the early days here this town was one of the key settlements in northeastern Nebraska.

Texas Starts Five Year Test For Better Pecans

AUSTIN.—A five-year test to produce a super pecan has been started by the Texas state department of agriculture, under direction of its pecan expert, J. H. Burkel. The plan is to select several promising untested varieties and graft a dozen varieties on a single tree, along with one or two nuts of known quality as a basis for comparison. In a few years each experimental tree will be producing several different varieties and the varieties showing the best average results will be adopted for standardized production.

Al Capone Pleads Guilty and Faces 34 Years in Prison

His gigantic underworld empire crushed by U. S. sleuths, Al Capone, center, is shown here arriving at the federal building in Chicago to plead guilty to defrauding the government of \$200,000 in income taxes and conspiring in a \$200,000,000 beer syndicate to violate the liquor laws. Capone faces a possible penalty of 34 years in prison and \$90,000 in fines.

Golf Ball Kills Robin In Flight

SALT LAKE CITY, Utah.—A birdie usually thrills the ordinary golfer, but one caused Dr. A. C. Callister of the Country Club to retire immediately to the shower room. Dr. Callister, a lover of birds, essayed his shot. The ball rose magnificently, but only to strike and kill a robin and spoil the doctor's afternoon.

MEN'S 9:59 BIBLE CLASS

The Men's 9:59 Bible class are going strong during the hot weather, the average attendance is over 100 and rarely is there less than that number. Last Sunday there were several guests from out of town and state; new members are being added every Sunday. Next Sunday, June 21st, they will have as their guests, Mrs. J. F. Hickman's Class of boys and girls to the number of approximately 25 or 30. The class meets in the auditorium of the Methodist church every Sunday morning and begins its program promptly on the minute of 9:49. It is desired that all members be present and seated at that time.

You can't learn astronomy, says the office sage, by studying heavenly bodies from an orchestra seat at a musical comedy.

With 400 clocks in Windsor Buckingham palaces, as it is reported, it's easy to believe have some swell times there.

SHE WAS ALWAYS LEFT BEHIND

SHE NEVER seemed to have the pep that the other girls had. Nor was she so good-looking either. Her complexion was sallow. Wrinkles had appeared—years too soon. Little wonder that men found excuses when her name was mentioned. What a pity that so many girls lose beauty so soon... very often caused by the poisons of constipation. This could be prevented, easily, pleasantly... by eating a delicious cereal.

Kellogg's ALL-BRAN sweeps the intestines clean of all poisonous wastes. How much better than taking habit-forming pills and drugs. Serve Kellogg's ALL-BRAN with milk or cream, fruit, honey added. Use for making fluffy bran muffins, bread, cereals, etc. Look for the and-green package at your grocer's. Made by Kellogg's Battle Creek. The largest-selling ALL-BRAN.

SLUGGISH FEELING

"I have used Theford's Black-Draught off and on for twenty-five years," writes Mr. Dave Stewart, of 1912 E. 2nd St., Austin, Texas. "They used it in my father's home for many years and it was our general family medicine. My health was good, and that is about all I ever took. I used it for constipation and bilious sick headaches. It is a fine medicine to take when a man gets up in the morning feeling dull and sluggish. After a course of it I feel fine. It is the system of nature which comes from constipation."

SUPREME COURT MADE VARIOUS RADIO RULINGS

WASHINGTON.—The supreme court, passing as it does on almost all phases of American activity reflects, sometimes tardily, the trend of American manners and customs. For this reason, perhaps, radio, which has become a more or less accepted feature of domestic and commercial activity received much attention during the recently concluded court session. Most notable of its decisions was that involving the Langmuir patents on high vacuum radio tubes. The strenuous legal battle indicated it was one of the most prized of the many patents held by the Radio Corporation of America, the General Electric company, and their associated corporations. Patent Ruled Invalid. The Langmuir tube patent was based on the knowledge that the high degree of vacuum within the tube greatly improved reception. While Langmuir first used that knowledge, the court found his patent was invalid, since other radio pioneers had also had the knowledge. The Langmuir ruling following close on another order of the court, which, although without opinion, was considered a heavy blow at the Radio Corporation. It was when it refused to alter the Philadelphia circuit court ruling which held the corporation's licensing contract requiring licensees to equip newly made sets with RCA tubes violated the anti-trust acts. Another important radio case was decided much earlier in the session. It involved the patents owned by the Lektophone Corporation on the cone type of loud speaker. The patent is known as the Hopkins patent. Loud Speaker Ruling. In deciding this case the court did not attempt to question the validity of the Lektophone patents. It merely ruled that two very similar devices manufactured by the Rola Company and Millet Brothers Company did not infringe on the Lektophone Company's patent. This was in itself important, as the Lektophone company had for a long time successfully sustained a broad power under its patents in a series of court battles. What threatened to become an attack on the entire authority of the Federal radio commission was turned aside early in the term by the court when it refused to pass on the question of the validity of the commission's authority. Two cases were brought up questioning the commission's power. One of these was brought by Clinton R. White and the other by the American Bond & Mortgage company and Trianon, Inc. In these cases a series of questions seemingly touching on the validity of the Federal Radio Act were presented. The broadcasters contended that they had invested substantial sums in the development of their stations, had created an audience, and were receiving a substantial income from the operation of their properties. Radio License Denied. Both stations had operated under licenses from the secretary of commerce and the radio commission but later had applications for renewal denied them. The court refused to answer the questions presented to it, however ruling that they were too general to furnish a proper test. Copyright owners were given wide powers by the court in an interpretation of the copyright law, passed far in advance of the realization of popular radio reception. This ruling was handed down in two test cases brought in St. Louis, Mo., by Genl. Brock, as president of the Society of Composers, authors and publishers, against the Jewel-LaSalle Realty company, operators of a St. Louis hotel which furnished its guests with a radio in every room. Justice Brandeis in writing the court's opinion held that when these radio receiving sets tuned in on broadcasts carrying unauthorized presentations of copyrighted music, the hotel company infringed the copyright. Brandeis based his ruling on the theory that radio "reproduced" sound rather than "transmitted" it and that therefore the rendition was a violation of the "reproduction" clause of the law. Non-Alcoholic Wine is Urged. EDINBURGH, Scotland.—Non-alcoholic wine will be used in the celebration of Holy Communion in Scottish churches—if wine of that description can be found in Scotland. The general assembly of the Church of Scotland recently advised all ministers to consider the use of non-alcoholic wines. As a recommendation from the assembly is virtually an order, it is expected that the majority of ministers will attempt to comply. The committee which made the suggestion to the assembly condemned the present use of port wine for communion. Opponents of the suggestion claimed that "non-alcoholic wine" was a contradiction in terms. They said that if the assembly adopted the suggestion churches would have to resort to ginger wine, a sort of soda pop. TABLET TO HONOR NURSE. QUINCY, Mass.—A bronze tablet will be dedicated here this summer to the memory of a heroine of the influenza epidemic of 1918. The woman to be honored is Miss Gertrude B. Flaherty, Quincy city hospital graduate, who worked day and night in charge of an emergency hospital here during the deadly epidemic. Her health was undermined, and she died a few years later.

presented. The broadcasters contended that they had invested substantial sums in the development of their stations, had created an audience, and were receiving a substantial income from the operation of their properties. Radio License Denied. Both stations had operated under licenses from the secretary of commerce and the radio commission but later had applications for renewal denied them. ### Bathing Beauty Review Adds Color to Willows Opening

The standard for doing successful things just as the Lions club has always done in Ranger, was demonstrated last evening with the opening of the Willows swimming pool with the Lions in complete charge of the outstanding affair of the current season.

Only a few days ago there were rumors here and there that the pool would be opened soon to furnish entertainment during the summer without having to drive out of the city to enjoy the privilege of swimming in a nice, clean and well equipped pool.

Dr. Harry A. Logsdon, one of the city's most active men, originated the suggestion of opening the pool and immediately a loyal

committee was appointed to outline all details. This committee was indeed well chosen consisting of Messrs. F. A. Wagner, Roy W. Gilbreath, Clyde H. Davis, Saule Perlestein, and Dr. Logsdon.

To begin plans in a more complete manner there was also a program committee appointed to add the touches to the event. This committee was composed of Messrs. Charlie Moore, H. E. Avogard, and Dr. C. C. Craig.

Very soon a most delightful and entertaining program was in line for the occasion. Of course all openings require a bathing beauty review.

Following an enjoyable band concert by the Lone Star band, contests, with plain and fancy diving and other features of diversion were given by various contestants, each proving good.

At 9 o'clock Charlie Moore, acting as review manager, presented the eight lovely and very attractive bathing beauties. First to appear wearing a highly becoming suit of two shades of blue, was the pretty Miss Doris Murray; second, Miss Nedra Head, very smart and becoming in an orange suit with white belt and slippers; third, Miss

Elizabeth Earnest, modeling a pretty mint green suit with white belt and pumps; fourth in line came Miss Mary Lou Throver, pretty in a blue suit offset with touches of the suit's own color and wearing pumps of white; fifth, Miss Pauline Head, looking very attractive in an ice blue suit dotted with white; sixth, Miss Lucille Grant, looking striking in a red suit and finished with white waistlines and white pumps; seventh, Miss Nina Williams, wearing light tan combined with brown; eighth, Miss Alma White, in an orange suit with black belt and pumps.

Judges for the colorful review were Miss Margaret Lee McDonald, student of Oklahoma university, and a splendid swimming instructor; Mr. E. A. Ringold and Mr. Saule Perlestein.

Miss Nedra Head was judged as first winner with Miss Pauline Head second and Miss Mary Lou Throver third. Miss Head will represent the city as Miss Ranger at the Willows swimming pool for the remainder of the season.

Drawing the program to a close was that of the men's review and what a review. First in line was Charlie Moore followed by Roy W. Gilbreath, manager of J. C. Penney company; Clyde H. Davis, of Davis Jewelry store; A. N. Larson, Texas Electric Service and president of the Lions club; F. A. Wagner, manager of Montgomery Ward & Co., who proved one of the sensational participants of the review. Mr. Wagner with his nonchalance cast all of that aside for a few moments and posed most shyly on the diving board, before sinking himself and a huge sunflower with a straw hat into the pool.

Next in view came Martin Walker of the T. P. Filling station and last, but not least, Dr. Clyde Craig, pulling several capers before making a pretty dive.

This splendid program was attended by some 3,000 people, who no doubt are planning to visit the cool swimming pool during the summer.

The suits worn by the young ladies were used through courtesy of The Globe and J. C. Penney company.

Woodman Circle Hour Is Presided Over by the Guardian Mrs. Cash.

The Julia Alexander grove of the Woodman circle met at the hall on Wednesday afternoon in regular session with 18 members present for the business hour presided over by the guardian, Mrs. Viola Cash.

An announcement was made at the close of the interesting hour for all junior members to be present at the hall Saturday afternoon at 2:30 for a meeting.

The drill team captain urges all members who are willing to aid with work on the team to be present for a meeting which will be held on next Wednesday afternoon at the regular hour. A new team will be organized at this hour and it is important that each member be present.

Every effort possible is being put forth to keep the lodge active throughout the summer months as much enthusiasm is being manifested at these well attended assemblies.

Mrs. Della E. Sappington, who visits the chapter regularly is now attending the national convention at Buffalo, N. Y., acting as a delegate.

On the return visit to this lodge Mrs. Sappington will summarize the details of the national meeting which will be of marked interest to each individual of this grove.

Mrs. Carrie Henry Presides At Royal Neighbor Meeting As Oracle.

Mrs. Carrie Henry, who holds the office of district deputy of the Royal Neighbor camp, called the meeting to order last evening at the hall at 8 o'clock, serving as oracle during the hour.

The meeting was held for the purpose of electing a team which will be sent to Abilene, June 26, as representatives to the district convention. With this matter closed two members were elected and initiated. The ones selected were Mrs. Claude Lee Powell and Mrs. Lillie Wilson.

The occasion was well attended

# GOOD... they've got to be good!

### There's a lot to it!

Smokers want a milder cigarette. Chesterfield is just that. Mild, ripe tobaccos and pure French paper — every one is well-filled and every one burns uniformly. Chesterfields smoke milder and taste better — because they're made that way!

SMOKED BY MORE MEN AND WOMEN EVERY DAY

## RANGER Personal

Mrs. W. E. Berry and daughters, Nida Bell and Norma and son, W. E. J., of Alpine are visitors here, guests of Mrs. Berry's sister, Mrs. T. O. Rawls, and husband.

Numbered among Ranger friends who attended the funeral services of Mrs. Walter Harwell's father, Mr. Fouts, who died at his home at the Rotan cemetery yesterday afternoon, were the Rev. Mr. and Mrs. L. J. Power, Mr. and Mrs. S. P. Boon, Mrs. C. E. May, Roy Jameson, O. L. Phillips and Fred Warren of Olden.

Dr. and Mrs. M. P. Kuykendall and daughter, Miss Ailsa Ray, were visitors in Austin and Waco yesterday.

Mr. and Mrs. E. H. Earnest and children have as guests Mrs. Earnest's sisters, Mrs. Jack Keith and husband and children Jo Ann and son Seely and Miss Carolyn Seely of Waterford, Ohio.

Miss Inez Granau of Belleville is the house guest of the Misses Pauline and Crystelle Head.

Mr. and Mrs. E. H. Earnest and house guests, Mr. and Mrs. Jack Keith and Miss Carolyn Seely of Waterford, Ohio, were visitors in Del Rio this week.

Ben Whitehouse was a business visitor in Cisco this morning.

H. C. Anderson was in Breckenridge and Cisco on business today.

### Von Steuben's Grave To Be Dedicated

ALBANY, N. Y.—The burial place of General Baron von Steuben, German hero of the Revolutionary War, will be dedicated as a historic site on Sept. 15.

The body of General Steuben, who so successfully organized the Continental Army that George Washington made him one of his most trusted aides, lies in a plot in the town of Steuben, Oneida county. Its purchase as a memorial site was authorized by the state legislature last year.

Governor Roosevelt will be among those who will participate in the ceremonies.

and proved very interesting and successful from every point of view.

A practice review will be held at the hall on Monday evening at 7:30 for the purpose of working the team in splendid condition for the approaching convention.

FIVE ARE HELD IN "REWARD" KILLING

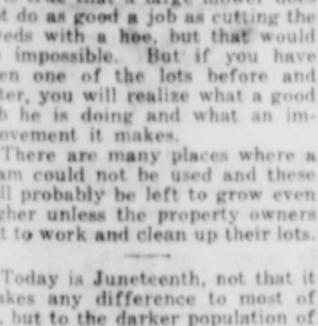

ABOUT THIS AND THAT.....

Sads of kids, bunches of boys,
gobs of girls and lots of grown-ups
were around in, over, under
and near the Lions swimming pool
at Ranger last night at the official
opening. We once estimated a
crowd at a political speaking at
3,000 only to find that everyone
else estimated it at from 8,000 to
10,000 so we are not sure about
the size of the crowd. We will be
definite by saying they turned out
in large numbers and everyone
seemed to be having a big time,
especially the kids.

HEAT WAVE IS FATAL TO SCORES

CHICAGO, June 19.—Virtually
all the nation sweltered today as
a sizzling sun and sultry breezes
brought temperatures ranging
from 90 to 110 degrees.
Hundreds of prostrations, scores
of deaths were reported from more
than half the nation.
There is no prospect of relief
until tomorrow night, the weather
bureau said.
Three persons died after being
prostrated in Minnesota and South
Dakota. Other deaths in Minne-
sota and Wisconsin were attributed
to the heat.

Where Pastor Was Hanged Thursday

An interior view of the church where armed, masked men strung up an
associate pastor, after threat letters had been received by him and the
regular pastor, Rev. R. P. Brown, victim of the attack, could not
ascertain a motive for the attack, apparently made by members of his
Dallas Baptist congregation.

SEVEN JURORS PICKED IN THOMAS DAVIS CASE

Only seven jurors had been se-
cured in the Thomas Davis trial at
noon today. Davis, charged with
murder in connection with the
slaying of Lucian Shook in Septem-
ber, 1928, went to trial Thursday
morning in Judge Elzo Iken's
88th district court. A special ve-
nire of 100 men was exhausted
Thursday. Additional takersmen
were picked up by Sheriff Virge
Foster on an order from the court.

SPRINGER TO TRY SLAYERS OF MEXICANS

OKLAHOMA CITY, June 19.—
Selection of prosecutors in the
trial of two deputy sheriffs
charged in the slaying of two
prominent Mexican students were
completed by Governor W. H.
Murray.
The governor appointed J. P.
Springer, Payne county attorney,
as special prosecutor in the trial
scheduled for June 24.

Eastland County Bankers Meet on Thursday Night

The Eastland County Bankers'
association met last night on the
Canneloe Hotel roof garden with
the First National Bank of Gorman
in the capacity of host at the
banquet given for 15 representa-
tives of the Eastland county banks.
The banks represented were The
Texas State Bank, Eastland; Cisco
Banking company, Cisco; Citizens
State Bank, Ranger; Commercial
State Bank, Ranger; Continental
State Bank, Rising Star; the host,
First National Bank, Gorman.

Series of Dry Raids Started in Fort Worth

FORT WORTH, June 19.—Tex-
as rangers, federal prohibition
agents, city police and members of
the sheriff's force began a series
of raids this afternoon to drive
Dallas fleeing bootleggers, either
back there or somewhere else.
Ranger Captain Tom Hickman
said that since the lad has been
clamped down by the new Dallas
city manager and following raids
at Glen Rose a number of boot-
leggers had come to Fort Worth.

Farmer Charged in Stabbing Case

MIDLAND, June 19.—Tom
White, Midland county farmer,
was under \$5,000 bond here today
on charges of stabbing Night Of-
ficer Ben Driver last night. The
knife blade struck Driver's wrist
belt, which probably saved his life.

Swarming Bees Block Traffic in Kansas City

KANSAS CITY, June 19.—
Pandemonium reigned for an
hour today at a downtown in-
tersection here when thousands
of swarming bees descended
upon pedestrians and motorists,
throwing traffic into confusion
and sending women screaming
from the scene.
The bees swarmed on motor-
ists and street cars. Motorists
abandoned their cars and fled.
Pedestrians fled across the
street waving their hats and
arms in efforts to escape the
swarm.

Miss Earhart to Be Reprimanded

WASHINGTON, June 19.—The
department of commerce an-
nounced today that Amelia Ear-
hart Putnam would be reprimanded
for "carelessness and poor
judgment" in connection with her
recent autogiro accident at Abie-
lene.

COLLAPSE OF BRIDGE IS FATAL

CARTHAGE, Tenn., June 19.—
A 40-foot span of a highway
bridge under construction over
Caneys Fork river, near here, broke
loose and fell into the stream at
noon today.
First unconfirmed reports were
that five men had been killed and
an equal number seriously in-
jured.

EASTLAND AND RANGER SHOW MUCH BUILDING

Eastland and Ranger showed
substantial building activities dur-
ing the month of May with \$2,000
in permits being granted in East-
land and \$7,000 being issued in
Ranger.
The total for the state was
more for the month of May than
for April and was not very much
under the figure for May, 1930.
Building permits granted in 35
Texas cities during May totaled
\$5,356,000, compared to \$5,073,000
in April and \$6,319,000 in
May of last year, according to the
University of Texas Bureau of
Research.

PASTORS ARE UNDER GUARD OF OFFICERS

DALLAS, June 19.—Rev. R. P.
Brown and Rev. H. L. Marler, cen-
tral figures in internal strife at
the North Baptist Church which
ended yesterday in the kidnaping
and attempted hanging of Rev.
Brown, slept last night under police
guard.
E. O. Maxwell, a former deacon,
was questioned by police regard-
ing threatening letters received by
both pastors last month but was
not held.
Fingerprint experts continued
to compare the 15 letters with the
handwriting in the records of the
church.
It was said that some of the
church members objected to Rev.
Marler using notes in delivering
his sermons.

McDonald Urges Legislation for the Farmers of State

AUSTIN, June 19.—If Governor
Ross Sterling calls a special ses-
sion to meet the oil industry's pre-
dication, J. E. McDonald, state
agricultural commissioner said to-
day that relief for agriculture
should also be submitted as a legis-
lative topic.
"The cases of oil and soil are
virtually parallel," said McDonald.
"The chief distinction is that vast-
ly more people depend upon the
soil and more lives are affected by
the price of cotton than by the
price of oil."

Bandits' Heads Are Warning To Their Chinese Comrades

PEIPING.—Bandits captured in
Tatungfu, northern Shansi, have
served as a gory object lesson for
their comrades still at large.
Six were captured by Tatungfu
police in a robbery. They were
taken to the center of the city,
and while thousands watched, old-
fashioned executioners chopped
off their heads. The executioners
have had little practice recently,
and took some time for the
executions.

Woman To Observe Her 110th Birthday

SHAMOKIN, Pa.—Mrs. Eliza-
beth Kaminski, Kulpmont resident,
is planning to celebrate her 110th
birthday on Aug. 10.
She was born in Lithuania in
1821, when Alexander I was czar
of all the Russians; when James
Monroe was president of the
United States; and when the
flourishing anthracite region was
still forest and scattered outpost
settlements.

RATTLER KILLS COW

SALEM, Ore.—Bitten by a rat-
tlesnake, a registered Jersey cow
belonging to E. A. Hawk, of Turn-
er, died here, Marion county agri-
cultural experts said it was the
first case of the kind ever report-
ed to them.

ARE CHARGED WITH SLAYING OF TWO MEN

Three Are Former Officers
Who Are Accused of Kill-
ing for Bandit Reward
RANKIN, Texas, June 19.—
Five men, three of them former
peace officers, were under murder
indictments here today in connec-
tion with the slaying of two men
here Jan. 12, 1928, for which
\$5,000 dead bandit rewards of the
Texas Bankers association were
sought. The indictments followed
testimony of Ranger Captain
Frank Hamer before the grand
jury.

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were
had in the Court of Civil Appeals
for the Eleventh Supreme Judicial
District:
Reversed and Remanded—J. E.
Bishop vs. W. E. Neims et al.,
Comanche.

for rehearing.
Cases Set for Submission June
26, 1931—Hattie Miller vs. City
of Abilene, Taylor.

Tire Stolen From Car Parked at the Willows Thursday

A report to the Ranger police
department late last night said that
an automobile casing, tube, rim
and tire cover had been stolen dur-
ing the opening ceremonies of the
Willows.
The theft was reported by
Charlie Moore of the Oilbelt Motor
company, who was acting as mas-
ter of ceremonies at the bathing
review.

Two Doomed Men Hope for Retrial

AUSTIN, June 19.—Procedure
in the cases of Nicandro Munoz
and Victor Rodriguez, saved from
execution last night by a govern-
or's respite until July 10, was in
doubt here today.
Meanwhile at Huntsville the
cheerful smile that Ofilio Herrera
wore through two years imprison-
ment in the death house was wiped
from his face this morning in the
electric chair.
He was electrocuted for the
murder of Sheriff A. T. Murray
of Mason county.
The first two, Munoz and Rod-
riguez, hoped to obtain a new trial
on the grounds that the attorney
who represented them in their
trial in Hidalgo county was not li-
censed. They were tried and con-
victed of killing a customs officer,

Former Leader of Capone Gang Back on Job

CHICAGO, June 19.—While
federal agents today hunted
throughout the city for 66 follow-
ers of "Scarface Al" Capone,
reports were broadcast that Johnny
Torrio had returned and would
take over Capone's gang when
"Scarface Al" leaves for Leaven-
worth.
Torrio was considered a big shot
in 1920 when he personally
brought Capone, a Brooklyn
hugener, to Chicago.
Several attempts were made on
Torrio's life in later years and he
fled. It was said he went to Italy.
Reports now are that he went to
Florida and was never out of touch
with the gang which became so pow-
erful under Capone's leadership
that it earned upward of \$700,000
in 10 years.

Eastland Band To Give Concert On Saturday Night

The Eastland Booster Band has
been working hard all this week
in preparation for a special con-
cert to be given on the south lawn of
the Eastland county courthouse
Saturday night.
While Mr. Campbell did not
give a list of the numbers he said
his band will give he did say that
they will play every popular and
well loved selection and variation
of the beautiful "Danube Waves"
waltz. Another group of selections
that should swell the usual crowd
who gather to hear these concerts
are a group of American Folk
songs.
Every one in Eastland and in
driving distance is invited to come
to town Saturday night for this
program which starts at 8 o'clock.

WHERE THE FARMERS COME IN.

Alfred M. Landon of Kansas headed a committee representing
independent operators during the marketing crisis last winter and was active in the fight for an oil tariff. In
a recent address he had something to say of the producer and
landowner directly affected. This, for instance:

"Many think of the oil and gas industry only in terms of
barrels of oil produced and the volume of gas marketed and
the benefits to the producer and landowner directly affected.
They do not realize that millions of acres of land are leased,
rentals and bonuses paid for them, from which no oil or
gas is ever produced." Those who give thought to the
matter, the Kansas operator said, "know that the oil and the
gas business has done much to lighten the burdens of Kansas
land owners, during these straggling times on the farms. I
am speaking now of the annual rental of one dollar an acre
which is ordinarily paid on the 12,500,000 acres of Kansas
land under lease by the oil industry for the purpose of deferring
drilling."

There appears to be many sides to the petroleum problem.
All this is a reminder that the present proration order issued
by the Texas railroad commission expires July 1 and that a
hearing for consideration of the proration figure for the period
beginning July 1 will take place Monday, June 22. Another
babble of tongues may add to the confusion of things said to be oily.

RIGHT OF COUNTIES TO ISSUE BONDS.

Right of counties to issue bonds for other than road,
irrigation and navigation purposes is upheld in an opinion of the
Texas supreme court, controverting an opinion of the
United States court of circuit appeal at New Orleans which
held bonds could be issued only for those purposes. Test
cases were brought by Collingsworth and Henderson counties
and sought to compel the attorney general to approve
certain bond issues. That official was instructed by the
supreme court to approve the issue \$150,000 for a courthouse
in Collingsworth county and \$148,000 in Henderson county
road and bridge refunding bonds.

It is said the federal court opinion in the Shelby county
case was withdrawn to permit a test case to be filed in the
state court. Furthermore, that the federal court usually accepts
the interpretation of a state supreme court on the states'
constitution. No construction on the portion of the
constitution affecting bond issues had been made by the
Texas supreme court and the federal court opinion was withdrawn
pending action of the state supreme court. Now ambitious
counties are informed as to their constitutional rights.

RUBBER MEN FACING HARD TIMES.

There is a billion dollar rubber industry in the United
States and the president of one of the largest companies told
the National Association of Purchasing Agents that the
industry in this country had not made a single dollar of profit
in the last 10 years. He said crude rubber was at the lowest
price in history and that fact was one of several causes for
the lack of profit.

It is a matter of history that in the not remote past the
master minds of the British empire organized to control the
production and to fix the price of crude rubber. These master
minds were certain that it was the richest oyster in a
trade sense the sturdy Britains had ever discovered. Their
program failed. Instead of cornering the world market the
buyers of the world cornered the big combine and its millions.
There was a blowup, so to speak. The combination went to
pieces, low price levels followed and now, an industrial captain
in the rubber world says the business is without profit.

STARVATION PAY FOR WOMEN WORKERS.

What is a living wage for a woman worker? Out of a
study of wages in 13 states comes a report from the woman's
bureau of the federal labor department that many thousands
of full time woman workers earned less than a bare living
wage from 1920 to 1925. Converting figures to a 1928
basis the woman chief of the research division fixed the rock
bottom cost of living for an independent woman at \$15.71 a
week. Colorado leads all states in the conclusion that it takes
at least \$17.20 for a woman worker to live decently. Moreover,
the Colorado state industrial commission divided its weekly
\$17.20 as follows: Breakfast, 30 cents; lunch, 30
cents; dinner, 50 cents; room rent, four dollars for the week;
laundry, 50 cents, amusements and reading matter, one dollar;
clothing, \$1.50; dentist, doctor, saving account for
unemployment of illness, \$1.50; car or bus fare, one dollar. Is
it possible for a woman to dress decently on an allowance of
\$6 a month? If so, how?

POLITICS IN OLD TENNESSEE.

Governor Henry H. Horton of Tennessee escaped
impeachment by a vote of 40 for and 56 against. Governor
Horton is a democrat. He is the personal and political crony
of Col. Luke Lea and Roger Caldwell. These gentlemen were
bankers and publishers and politicians. When the crash
came in Wall Street they were swamped and state funds of
more than \$7,000,000 was one of the items involved when
Tennessee bank doors were closed by examiners of the state
and the nation.

Tennessee has two democratic factions, Governor Horton
is said to be spokesman for the Lea-Caldwell faction and
Congressman Crump of Memphis is the boss of the second
faction. There are wise politicians in the democratic camp
who predict that the next governor of Tennessee will be a
republican. Where is the difference? Isn't a practical politician
practical regardless of his party trademark?

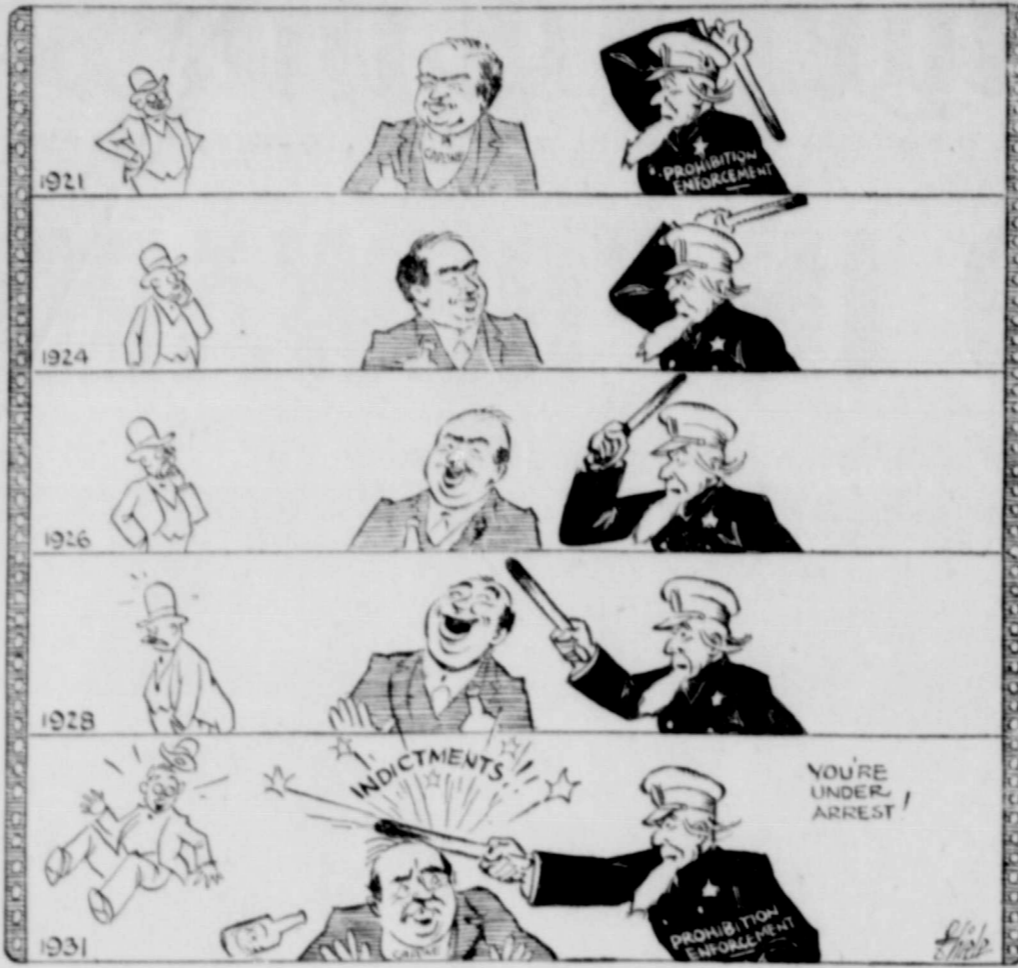

FLOWERS FOR THE LIVING.

Holland Mayes of Tom Green county has a record of
having slain 980 rattlesnakes. He keeps a tally sheet as in
branding cattle. His largest haul was when he twisted 105
out of a cave. They ranged from six feet in length down,
some having 10 and 12 rattles. Twenty-nine years ago,
when a barefoot boy on a ranch near San Saba, Holland was
bitten by a snake. He has been on the trail of the rattler
ever since. He should be voted a Carnegie hero medal.

A MODERN CITY WITHIN A CITY.

And now the Rockefeller are tearing down a city to
build a city in the heart of Manhattan. It is to be known as
the \$250,000,000 "Radio City" and will be one of the architectural
wonders of the world. There is money in oil.

A "Slow Motion" Hit!

CRACKS IN THE DOME

The governor's office about the
only department left that does not
collect taxes or fees for the state,
the legislative efficiency committee
starting work this week will
find that a regrouping of functions
will accomplish far more than
any attempted consolidation of
departments themselves.

And there are some mergers of
departments and bureaus possible.
There is chaos now in the collection
of state revenues. A single
collecting agency would relieve a
lot of people of unnecessary work,
simplify and harmonize the work
of the rest. Here are some of the
conflicts now:

Treasury department, collects
franchise taxes and certain other
taxes.
Comptroller, collects ad valorem
taxes, liquor taxes, gasoline taxes,
half a dozen other taxes.

Treasury department, collects
cigarette tax, interest on bonds.
Banking department, collects
fees.
Insurance department, collects
fees.

Motorbus division and gas
utilities division of railroad
commission collect fees.
Education department, collects
funds.
Board of control collects
revenues for support of inmates, and
from sale of products.
Prison system collects several
kinds of revenues.

Seed breeder board collects
examination fees.
Courts collect fees.
Land office collects oil royalties,
fees, payments.
Agriculture department collects
licensing fee.
Labor department collects
licensing fees.

Game department collects
license fees and fines, the latter
remitted to its fund from courts.
Water board collects license
fees.
Barber board collects license
fees.
Mining board collects inspection
fees.

This does not mean merely
having collections credited to their
funds. It means actual collection
by the agencies for transfer to
accounts of these funds in the
treasury.

As to consolidations, the joint
legislative committee will consider
several time-honored merger
proposals, along with others.

Industrial accident board with
board of insurance commissioners.
State reclamation engineer with
board of water engineers.
State highway patrol and inspectors
of motor transportation division
with state enforcement officers
under direction of adjutant
general's department.

Barber license board with board
of health; then make board of
health a bureau in board of control.
Transfer pension division into
board of control. Comparable with
supervision of homes for
Confederates, orphan children, etc.
Hearings division of state
department with bond approval
division of railroad commission.
Central stationery and supply
depot, central telephone exchange,
central mailing division and janitor
service in board of control,
custodian of building and property,
as recommended by state auditor.
This would eliminate more
than 50 employees.

When this much merging of
functions had been done, then the
efficiency and consolidation
committee could get a new perspective
and at last begin really to untangle
the maze of crossed-up activities.
There really are four main
functions of the state:
1. Administration and law
enforcement.
2. Collection and handling of
money.
3. Keeping of records.
4. Custodianship of state lands
and property and the equipment,
supplies and operating agencies
required to perform this function.

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—If anyone
doesn't realize now that less
meat should be eaten during the
summer months it isn't the fault
of the meat packers and the livestock
interests.

The more unbrag you take at
anything the more publicity you
give it and the bulletin of the
United States Public Health Service
warning against eating too
much meat in hot weather would
have attracted no more attention
than other U. S. P. H. S. bulletins
if the meat men had been
willing to let well enough alone.

Instead, they protested
vigorously to Secretary of the Treasury
Mellon, in whose department the
health service is, and got themselves
and the meat-venting issue into
the newspapers. When Mellon
decided to censor federal
health bulletins in the future that
news and the row about censorship
which it stirred up presumably
left few people unaware of what
the U. S. P. H. S. had been
advising.

POLITICIANS can tell you that it
often doesn't pay to take
umbrage. When Premier Mussolini
went after General Smedley Butler
for calling him a hit-and-run driver
the charge didn't stick, but Mussolini
found himself being panned on
general principles all over the
United States while Butler became
a sort of national hero. Senator
Nye of North Dakota, finding that
Moses of New Hampshire had
introduced his expenses as chairman
of the campaign funds committee
into the Congressional Record,
heavily charged a political plot
and so directed attention to his
accounts. The accounts undoubtedly
were fair, but some of the items
looked funny on the face of them

and lots of people had a good laugh
at Nye.

AS one who has sometimes reported
the presence of numerous
speakeasies and gambling joints
more or less "in the shadow of the
White House," your correspondent
now announces that it is virtually
impossible to buy a drink or place
a bet in the First police precinct
as a result of continued police
raids. That hasn't been true for
several years heretofore and
demonstrates that the coppers,
if they try, can keep the town
comparatively free of speakeasies
and gambling joints. The successful
methods employed have been,
principally, the removal of
barriaded doors from such places
and arrests of gamblers as "vagrants."

The First precinct, where the drive
has centered, takes in the downtown
business district and part of
the White House grounds. . . . The
local liquor traffic is now in the
hands of men and women who
accept telephone orders for delivery.
These violators have proved hard
to eliminate.

NEARLY everyone would like to
know what comment, if any,
President Hoover made to
Congressman Dyer of Missouri
and the latter's proposal for legalized
four per cent beer so as to raise a
billion dollars in taxes and employ
100,000 persons. But there is a
stricter rule that if the president
ever says anything to you, you
mustn't tell anyone what he said.

The most conspicuous violator of
the rule was Amos Pinchot who,
seven months afterward, wrote an
article about how Mr. Hoover,
about a year ago, had told a visiting
delegation that unemployment
was shamefully exaggerated, that
business was on the upgrade and
that the committee had come "six
weeks too late."

DID YOU EVER STOP TO THINK

By EDSON R. WAITE
Shawnee, Okla.

D. B. MacRae, editor and
vice-president of the Regina (Sask.)
Leader-Post, says:
That nobody likes hard times. It
is important to keep this point in
view in any consideration of the
causes of the present world-wide
depression. The easy and the superficial
was to account for the
cause of the trouble is to say that
the "big interests" are responsible
because they are greedy for profits;
that the banks are responsible
because they will not reduce the
interest on loans or make it easier
to obtain credit; that the railroads
are responsible because they will
not reduce rates; that the millionaires
are responsible because they have
a lot of money and will not give
it away; that the labor unions are
responsible because they stand for
certain hours of labor and certain
rates of pay; that the newspapers
are responsible because they sometimes
print the hard facts instead of
the rose-colored pictures of foolish
optimists; that the farmers are
responsible because they are slipping
in their methods and work
only six months in the year; that
the younger generation is responsible
because it wants to live high
and not work too hard.

To accept any one or all of these
statements makes it more difficult
to come to grips intelligently with
the problem of the day. They only
result in throwing the investigator
on the wrong track and to cause a
lot of well-intentioned people to
accept what others are saying, which
saves them from the hard work of
trying to think the thing through
for themselves.

PICKING YOUR RIGHT JOB.....

This is the second of a series by
leaders in different professions
and lines of business in which they
have gained distinction.

By DR. SHIRLEY W. WYNNE
As Told to J. V. Fitzgerald

The training required of a doctor
nowadays is long and arduous.
The requirements are constantly
being made stricter. You must
plan on from six to nine years in
college, medical school and hospital
service. You need a thorough
preparatory school training,
with most stress laid on such scientific
subjects as physics, chemistry
and biology.

The training required of a doctor
is expensive. Counting living
expenses, I would put the cost at
from \$10,000 to \$15,000 before
the student is able to gain any
return.

You will find it an advantage
if you can take a regular college
course before you undertake the
study of medicine. Such training
will help you to think straighter.
Take as much hospital work
as you can get. The development
of public health work in the
United States enables young doctors
in the country to make a fair living
at the outset.

Statistics show that there are
many communities in the country
in which there is either none, or
only one or two practicing
physicians. The development of
public health work in the United
States enables young doctors in
the country to make a fair living
at the outset.

SPAIN'S ARMY REORGANIZED FOR FIGHTING

By United Press.

MADRID.—Spain's army will
be reorganized on a fighting basis
of eight divisions totaling 100,000
men by July 1. It will be devoid
of skeleton battalions and contains
only the necessary number of
officers to command each unit.

The first serious attempt to
solve the army problem ever made
in the history of this country, so
harassed by the combination of
military men and politics, especially
since Spanish-American
War days, is being executed under
the direction of Minister of War,
Don Manuel Azana.

No longer is it possible for the
majors, lieutenant-colonels, and
colonels of a regiment stationed
in Morocco, for example, to stay
in Madrid, or some other Peninsula
city, while a captain remains
in charge of the entire regiment;
no longer will there be regiments
with a dozen times more officers
than are necessary; and the total
number of generals will be nearer
80 than the old figure of 548.

Furthermore, in all probability
there will not be a generalissimo,
or the Captain-General of the
Army. The vacancy caused by the
death of Captain-General Valeriano
Weyler last November was
filled shortly after the advent of
the Republic with the appointment
of Lieut.-Gen. Francisco
Aguilera to that post; but with
Aguilera's death in May it is again
vacant, and the chances are that
it will no longer be possible for an
army officer to aspire any higher
rank than Lieutenant-General.

Azana's plan is to have the
army maintained in such a state of
efficiency that in case of war it
would be possible to build up a
much larger army, the permanent
personnel not only serving as the
nucleus, but as a corps to train
the new soldiers.

The plan of divisions is similar
to the one used in France, England,
and Japan, which means the
divisions are smaller and more
mobile than the full divisions of the
United States Army.

Soot Outweighs City Population

By United Press.

PITTSBURGH.—Approximately
197,272,000 pounds of soot—an
amount probably greater than the
weight of the entire population of
Pittsburgh—falls within the city
limits during a year, it has been
estimated.

The soot falls at an average
rate of 986.5 tons per square mile
each year, according to H. B. Mel-
ler, head of the bureau of smoke
regulation.
This is an average of 157
pounds for each resident of Pitts-
burgh, it was estimated, with the
total probably exceeding the total
weight of the population of about
700,000.

Comparative charts show a de-
crease of about 50 per cent in the
sootfall in the downtown district
in the past eight years which was
attributed to use of central heating
plants instead of a large number
of individual furnaces.
The 1929-1930 survey showed
that less soot fell than in 1923-24
when the previous survey was
made, but there still was more
than in 1912-13.

PAPER REPORTS REBEL VICTORY

FORT WORTH.—Mrs. W. T.
Atkinson, resident here, has a
copy of an extra issued July 23,
1861, by the Southern Guardian
of Columbia, S. C., containing
an account of the Confederate victory
at Bull Run in which Mrs. Atkin-
son's father, William L. Moyle, was
a member of the southern force.

Longhorn Herd Shows Increase
LAWTON, Ok.—The Texas Longhorn, bovine replica of the days of the Spanish conquistadors, will not become extinct, although there is but one herd in the United States.
United States forestry officials are certain that the animal will be preserved through the rapid growth of the herd in Wichita National Forest and Game preserve. The rapid growth of the herd since it was placed in the preserve gives credence to the contention The herd now numbers 75, three times its size in 1927.
The Longhorn, descendant of the scrawny and hardy cattle of Spain centuries ago, once numbered thousands on western plains. The first Spanish colonists brought a few with them during their conquest of Mexico and southwestern United States.
Through the efforts of Wil Barnes of the United States forestry service, erstwhile plainsman and cowboy, Congress made a special appropriation for purchase and transportation of the few remaining Longhorns to the preserve in the Wichita Mountains near here.

Program for 4th of July Shoot at Eastland Range

Much interest is being shown in the 4th of July shoot being planned by the Eastland American Legion Gun Club. A splendid program has been arranged. The shoot will be open to all shooters in rifle, skeet, and trap events. A new feature of this shoot will be the dividing of all shooters into class A and class B, truly giving each one an equal chance at the prize.

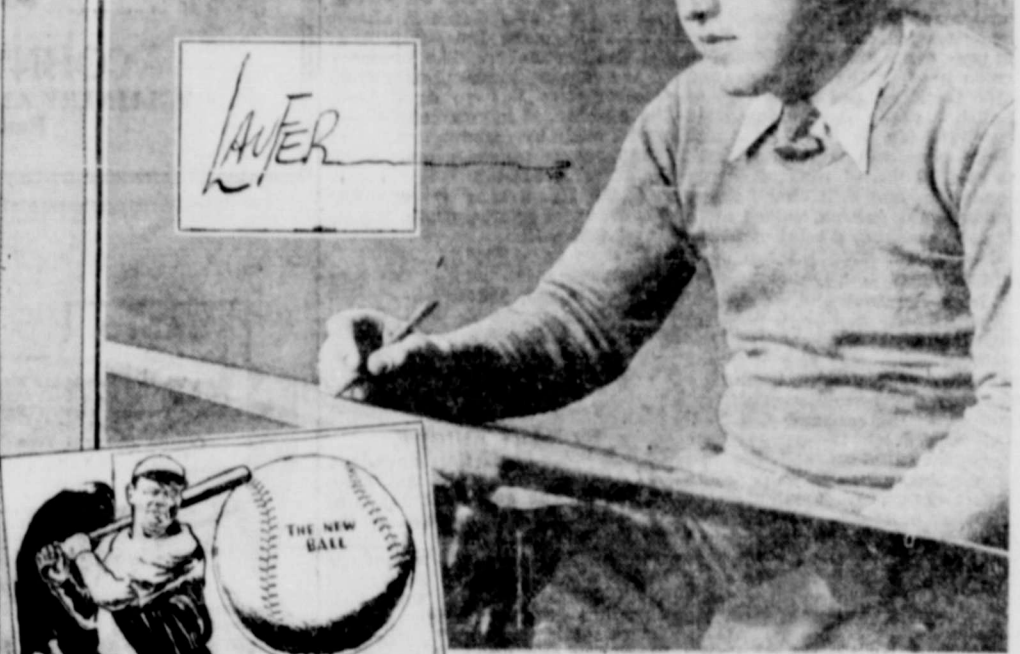

- Rifle: 200 yards, prone position. Two classes. Money prizes. Entrance fee for class A shooters: \$2.50 each event. \$2.00 of this goes in pot and is divided 40 per cent, 30 per cent, 20 per cent, 10 per cent. Entrance fee for class B shooters: \$1.50 each event. \$1.00 of this goes in pot and is divided 40, 30, 20 and 10 per cent. Club retains 10c to cover expenses. Five events—10 shots each. Class A—Average 44 out of 50 or above. Class B—Average 43 out of 50 or below. Skeet: Four events—25 targets in each event. Class A—Average 18 and above; entrance fee \$2.00. Class B—Average 17 and below; entrance fee \$1.00. Trap: Four events—25 targets in each event. Class A—Average 20 and above; entrance fee, \$2.00. Class B—Average 19 and below; entrance fee, \$1.00. Junior Event: Open to all boys not over 15 years old. Five prizes. One prize to five high scores. 10 shots at 75 feet, off hand, 22 rifle. No entrance fees. Each boy furnishes own ammunition. Starts promptly at 3:00 o'clock. Women's Events: Five prizes. One prize to five high scores. 10 shots at 75 feet, off hand. No entrance fee. All clay targets 2 cents each. Shells for sale on grounds. Practice hours from 8 a. m. to 10 a. m. and extend until dark. The entrance fee in rifle events is compulsory in shotgun events optional. Shooters can enter for any or all events. Shooters will be classified according to known ability. Management reserves right to change any classification upon complaint of three shooters.

Hold Memorial Services Sunday

Eastland Odd Fellows will hold memorial services at the Odd Fellows hall on South Seaman street Sunday at 2:00 p. m. H. A. Collins announced Thursday. Mr. Collins also announced that the regular open house singing at the Odd Fellows hall would be held Sunday night.

BRUSHING UP SPORTS

This is the famous sports art feature that has entrenched itself solidly in the favor of a nation's fans. Unusual feats in the sports world, culled from his own tireless research and from the flood of suggestions that are mailed to him from everywhere. Accurate, interesting, illustrated with punch and individuality. A keen student of all major sports, a masterful artist, Werner Laufer is as consistent at the drawing board as Babe Ruth is at the plate. "Brushing Up Sports" is a regular feature of the sports pages of

THIS NEWSPAPER

Shades of Old Rip - Another Frog

A news story about a hop toad being found imprisoned in a cement wall in Nantucket, Mass., was clipped from the Eastland Daily Telegram of June 2, by Dr. H. B. Tanner, secretary of the Eastland Chamber of Commerce and attached to a letter to the Nantucket Chamber of Commerce which sought additional information of the frog. A prompt reply was received stating that it was an actual fact that the frog was found and that scientists were greatly interested in it. The news story stated the frog evidently was imprisoned in 1910. The first letter to Dr. Tanner was followed by another in which was enclosed a sworn affidavit of parties who claimed they saw the frog removed from the cement wall. Dr. Tanner also received a copy of the Inquirer and Mirror, a Nantucket newspaper which contained a lengthy story of the imprisoned hop toad.

Cathey Grocery Has New Owner

G. D. Underwood and E. E. Rachels of Rochester, Haskell county, have purchased the Cathey grocery business in Eastland and with their families have moved here and are in charge of the business. Mr. Rachels is a son-in-law of Mr. Underwood. They reside at 414 E. Ferning street. Mr. Underwood, who formerly lived in and near Gorman, has been engaged in the grocery business for 18 years. He says he knows something about it, but not all there is to learn as he learns something new every day. He stated that he will do some remodeling and re-arranging of the stock in his store. He is selling groceries, however, at the present.

MARRIAGE LICENSES

The following marriage license have been issued by County Clerk R. J. Jones: R. E. Marsh, Nimrod, to Miss Anna Jewell Notgrass, Nimrod. W. A. Marsh, Nimrod, to Miss Eunice Mae Notgrass, Nimrod. C. F. Brown, Cisco, to Miss Emma Dell Clemmer, Scranton. C. L. Knight, Eastland, to Miss Della Harrell, Eastland. J. B. Farmer, Jr., Cisco, to Miss Betty Lee Howell, Cisco.

INTENTIONS TO WED

The following intentions to wed have been filed with the County Clerk: Granvie Curtis, Clyde, to Miss Jessie Jewell Johnson, Baird.

ANNOUNCEMENT

The lady who lost her purse at "The Willows" last night may have same by calling for it. The ones who left with "The Willows" bathing suits will please return them in order to assist us caring for the needs of the boys and girls who do not have suits.

HOKI AND SLIDES

Henry L. Farrell

Seven Who Stayed. When the National League teams went south and west in the springtime, 77 young men took and true, no less, were taken along, most of them just for the ride. Of these, just seven have established definitely their right to stay "up there."

Of the seven, perhaps the job drawn by Johnny Vergez was the most difficult. Mr. McGraw is a very exacting person about third base; he played there himself and has a pretty fair idea of what it's all about. Besides, that infield of the Giants slips around at a pretty lively clip. But Vergez fitted into it perfectly. The young man is one who takes things calmly as they come, whether a fast-breaking splitter or a swishing grounder along the base line. He refused to become excited or cheery. He has been hitting 300 consistently and leading in sensational fashion.

Berly, the Broadcaster

Another Giant rookie is John Berly, who sneaked away from the Cards' farm at Rochester. He has won a regular pitching assignment by his recent good games. Berly and Vergez are different types. Berly leans a bit toward the Grimes disposition, which is to tell the world that he's a better man than I am. Duzy Dean, and all about how he's going to make the visitors think they are actually flagging, uttering the Vassar Daisy Chain in a high wind.

Red Wothington has added a world of punch to the Braves. Here is another that Branch Rickey allowed to set off the hook the Cardinals fearing they had enough outfielders. Red is only 24 and is a natural 300 hitter, a sure crowd pleaser, and his spikes dig up a lot of grass in that Braves' outfield.

County Notes

STAFF NEWS

There is B. Y. P. U. services here every Sunday night, prayer meeting every Thursday night, Sunday school every Sunday and church every second and fourth Sundays. Mrs. Moreland, wife of Pastor Moreland of Lone Cedar, is ill. Mrs. Hogan, who has been sick for some time, died Friday morning. She was buried Saturday. The company of our citizens goes out to the surrounding relatives. Aubrey Anderson, who has been at Snyder, came home Saturday night. He returned Monday morning. "Grandpa" Hart of Eastland was a recent visitor in the home of W. W. Terry and family. The B. Y. P. U. meeting last week was well attended and enjoyed by all. There is singing here every Friday night. Everyone is invited to come and take part. If you do not care to sing come anyway, so good listeners are also welcome. Doyle Williams and Robert Alford were guests of Ada Lee Taylor and Ada Terry Wednesday. Bertha Lee Taylor and Ada Terry plan to visit their aunt in Breckenridge soon. Several from here are attending and enjoying the revival being conducted at Eastland by the Gapps Sisters.

FLATWOODS

FLATWOOD, June 16.—Flatwood was well represented at the singing at Gorman Sunday. Mrs. Allen from Mary, was the guest of Mrs. J. D. Foster Sunday. Erice Webb of Colorado was a visitor of "Uncle" Pete Webb Sunday. Miss Mabel Reeves of Cisco visited her aunt, Mrs. J. D. Foster, last week-end. Mr. and Mrs. Evidil Evans visited Mrs. Evans' parents, Mr. and Mrs. O. G. Reese, Saturday. Perry Pittman, from Breckenridge, visited his brother, J. H. Pittman, Sunday afternoon. Glens Gene Parker of Westover is visiting her sister, Mrs. DeWoody, this week.

GRANDVIEW

GRANDVIEW, June 18.—Health is pretty good in this community at this writing. Mr. and Mrs. Odell Bethany and daughter spent Sunday with Mrs. Bethany's parents, Mr. and Mrs. J. T. Brightwell. Several from here attended the big singing at Gorman Sunday and all reported good singing. Mr. and Mrs. A. J. Lamb spent Friday with Mrs. Lamb's parents, Mr. and Mrs. C. M. Prestidge. J. T. Brightwell, who was kicked by a horse Thursday morning, is reported to be better at this writing. Mr. and Mrs. J. P. Westmoreland and son spent Sunday with Mr. and Mrs. Ed Stinson of DeWadena. Mr. and Mrs. Odie Brightwell and children of DeWadena spent Friday evening with their parents, Mr. and Mrs. J. T. Brightwell. The Grandview children are now practicing on a play which will be announced later. Elvie Wilson and John Brightwell attended the play at Kokomo Friday night. Singing every first and third Sunday nights. Everybody come and bring someone with you.

LONE CEDAR

LONE CEDAR, June 18.—The rain which fell recently is helping the crops very much. Fred Parlon and Aubrey Anderson, visited in the home of Bertha Lee Taylor, Sunday. Gene and Thurman Donahoe of Cross Roads were guests of Mr. and Mrs. W. W. Terry Sunday.

SPEAKING OF SPORTS

By WIXON STEWART

United Press Staff Correspondent. Major League Managers Cling to Their Uniforms. Rogers Hornsby of the Chicago Cubs is the only remaining playing manager in the major leagues, but 13 of the 16 managers regularly appear in uniform.

Jack Johnson Holds Fanning Bee With Flynn

PHOENIX, Ariz.—A gray-haired taxi driver called at a home in the colored section the other day and asked to see Jack Johnson, the 53-year-old former champion, who was there for an exhibition. "I am Jack Johnson," said the large negro who answered the bell. "Who are you?" "I am Fireman Jim Flynn," the taxi driver responded. So Jim parked his cab and the pair spent the afternoon reviewing the day when Flynn, as the "white hope," went down to defeat before Johnson.

NEW AIRMAIL SERVICE

J. W. Gallion, with the United States Department of Commerce, airways division, who has been in Eastland several months, is leaving Monday for Atlanta where he will be stationed for some time. Mr. Gallion states that the government has completed its inspection of the Big Spring-Fort Worth air mail route and that mail service from Atlanta will be started about July 1.

Well, anyway, business during the air maneuvers was looking up.

## The Sin of Causing Others to Stumble

Romans 15:13-23.

...not therefore judge one another; but judge this only, that no man put a stumbling block or an occasion to fall in another's way.

...and am persuaded by the Lord Jesus, that there is nothing unclean in itself; but to him that is weak, it is unclean.

...if thy brother be grieved with thy food, how walkedst thou? Doubtless thou shalt be saved; but he that is weak shall be condemned, for whom Christ died.

...the Kingdom of God is not in meat and drink; but in righteousness, peace, and joy in the Holy Spirit.

...that in these things Christ is acceptable to God and approved of men.

...therefore follow after things which make for peace, and wherewith one may edify another.

...do not destroy the work of God. All things indeed are clean; but it is evil for that man that eateth with offence.

...is good neither to eat flesh, nor to drink wine, nor any thing which is bought in a market, or which is made weak, if thou hast faith? have it to thyself and to thy brother.

...which he alloweth.

...that doubteth is damned with thee, because he eateth not for whatso ever is not clean.

# SISTER MARY'S KITCHEN

BY SISTER MARY  
NEA Service Writer

RECIPES for salads are always welcome, and the following are timely and quite out-of-ordinary either in their composition or manner of serving.

First of all is a rule for a delicious French dressing. This dressing is particularly good with fruit, but blends excellently with meats and vegetables.

One cup salad oil, 1-3 cup lemon juice, 1-3 cup orange juice, 4 table- spoons powdered sugar, 1-3 cup arragon vinegar, 1 teaspoon Worcestershire sauce, 1 teaspoon mustard, 1 teaspoon paprika, 2 tea- spoons salt.

Chill all ingredients and put in a deep bowl or wide-mouthed pitcher. Beat with a dower beater. Or mix in mixing bottle or tightly covered fruit jar, shaking as usual or French dressing.

The following salad is served in slices of cold boiled ham roll: a cornucopia fashion and held in place by wooden toothpicks.

**Cornucopia Salad**

Four slices ham, 1-2 cup chopped blanched and roasted almonds, 2 cup cream cheese, 1-4 cup grated carrot, 1-4 cup finely chopped celery heart, 2 hard-cooked eggs, mayonnaise.

Chop whites of eggs and combine with almonds, cheese, carrot, celery and mayonnaise. Roll ham a form cones and fill with mixture. Place on a crisp lettuce leaf and sprinkle the salad with yolks of eggs forced through a ricer, serve with rye or whole wheat bread.

Rice and tomato salad is colorful and inviting.

**Rice and Tomato Salad**

Six green onions, 6 large pimento-stuffed olives, 1 green pepper, 1 teaspoon Worcestershire sauce, 1 dessertspoon mustard, 1 cup cooked rice, 1 small head lettuce, tomatoes, French dressing, may- onnaise.

Add to rice with Worcestershire sauce and prepared mustard, thoroughly and add salt if necessary, but the rice should be well salted when cooked. If French- cooked rice is used, the mixture holds together better than if soft rice is used. Cool and shape into small balls about the size of an English walnut. Wash and crisp lettuce and separate into leaves.

**Tomorrow's Menu**

**BREAKFAST:** Unbaited strawberries, potato casserole, graham and raisin wafers, milk, coffee.

**LUNCHEON:** Cornucopia salad, toasted muffins, mayonnaise, creamy rice pudding, tomatoade.

**DINNER:** Broiled flounder, browned sweet potatoes, broccoli with Hollandaise sauce, stuffed prunes, chilled and arranged on lettuce, a cooked salad dressing, pineapple trifle, milk, coffee.

Place in a salad bowl, pour over French dressing, potato to light with a fork. Add tomatoes, pepper and sliced and rice balls. Run over more French dressing, garnish with mayonnaise and serve.

Sweet peppers stuffed with a mixture of cream cheese and onion are delicious cut in slices and served with a pruned dressing.

**Prune Dressing:**

Soak prunes, after washing, in cold water to cover for one hour. Simmer in this water until plump, but not the least bit soft. Cool and remove from stones and chop. Add with olives to mayonnaise. Four over pepper rings which have been thoroughly chilled and arranged on lettuce. A cooked salad dressing can be used in place of mayonnaise if preferable.

presence of what might seem to be conflicting attitudes. He says that we are not to judge one another in matters of formal conduct, and the logic of this rule would seem to be that each man should act according to the dictates of his own conscience without reference to what he thinks of others or what others think of him.

But Paul immediately goes on to point out that though we are not to judge others there is a sense in which we may live above this plane of judgment in not putting occasion of offense in our brother's way.

I have often doubted how far Paul would uphold this rule in our modern life. Sometimes I think that we have taken advantage of Paul's rule to encourage a carping and critical spirit which Paul himself condemned. In developing strict attitudes concerning things that are not wrong in themselves we have been in danger of making concessions to weakness and of according far too much power to critical and censorious people who are not really weak but who like to find fault with others.

There are times when it would seem we should say to men and women, "Live your life upon its own basis. Do not be influenced simply by what others are doing, but realizing that God will give you guidance and help plan and do for yourself what you believe to be right."

One thing is certain, that in the present world we need strong conscientious characters who do not fear the criticisms of their fellow men, who do not hesitate to do what they believe to be right, and who are not unduly hesitant in refraining from courses of action that they would follow were it not for the fear of their censorious brethren.

But having said this, one must recognize also that a situation much like that which confronted

Paul is always found where problems of conduct arise. One of the most acute problems concerning these early Christians was that of eating meat offered to idols. When such an offering was made the carcass was not entirely consumed, and the unconsumed portions were sold in the shambles or market stalls. Probably it was just as good meat as other meat. There were some Christians who, recognizing this, bought it for food, but others said, "It has been offered to idols, therefore we cannot eat it."

The Christians of strong mind said, "An idol is nothing. The offering of the food did not in any way affect its character. Why should we recognize at all the fact that it has even been offered to idols?" so they ate it with a good conscience. But their weaker brethren could not quite see it in that light, and probably there were those outside of Christian circles altogether who regarded the eating of the meat offered to idols as inconsistent with Christian profession.

Now toward this situation Paul took rather a practical and common sense attitude. He seemed to agree on the whole with those who said that the idol was nothing, that the meat was good for food to those who ate it without questioning, but he saw, also, that there was the problem of nurturing these weaker brethren and bringing them to a position of strength. Paul did this by asserting definitely the Christian principles of liberty, and by interpreting the wisdom of a practical action in the presence of those principles. The trouble is that so often in adjusting matters of this kind and in trying to adapt ourselves to the position of the weaker brother we reduce the principles themselves to weakness and make the liberty of Christ really of no effect.

The Practical Side.

A lesson like this is to be studied as much in the light of its large (Continued on page 7)

### Grief Kills Pet Swan of Pavlova

LONDON—One of Madame Anna Pavlova's pet swans has died of grief over the death of her favorite mistress. The other is fast frothing himself into a decline.

They were the cherished pets of the dancer, who drew from them the inspiration of her famous "Dying Swan" dance, and who was frequently photographed beside them in the garden of her Hampstead, London, home.

Since the death of Pavlova last January, the swans, known as Jack and Clara, have been mooping. Clara refused to take food, and Jack accepted it only from the hands of the gardener, who had tended the birds for 15 years.

Recently Clara was found dead beside the beautiful artificial lake in the garden, with her head under wing, and Jack is alone in his grief.

The swans were greatly attached to Pavlova. When they heard her voice on the terrace they would leave the lake and go across the grass to meet her, taking bread and scraps from her hand. She could do anything she liked with them, though they were sometimes fierce with other people.

When Pavlova died, it was as if they knew. They gave up wandering about the garden and kept to the lake, hissing angrily at anyone who approached.

ROCHESTER—Work under way on highway No. 51, north of here.

### Big Homecoming For Columbus

COLUMBUS, Neb.—Plans are being made here for celebration of the seventy-fifth birthday of Columbus in the form of a diamond jubilee and home-coming during the week of Sept. 13.

It was in 1836 that a colony of emigrants from Columbus, Ohio, crossed the Missouri river onto the "great American desert," and established Columbus, Neb., near the junction of the Loup and Platte rivers. During the early days here this town was one of the key settlements in northeastern Nebraska.

Captain Lute North, 85, one of the last of the famous Indian scouts in Nebraska and brother of Major Frank North, will be here for the celebration. The North brothers organized the Pawnee scouts to protect the Union Pacific railroad workers during the building of the road through the state.

Roscoe Pound, dean of Harvard law school, has been invited to attend the jubilee. Found one lived here. Willa Cather and Ben Streeter Aldrich, noted authors, have been invited.

AUSTIN.—"Racketeers keep out" with the warning issued by the Texas legislature, just adjourned. Additional State rangers were authorized on the argument that clean-ups in Chicago and elsewhere threaten an invasion of racketeers.

### Texas Starts Five Year Test For Better Pecans

AUSTIN.—A five-year test to produce a superior pecan has been started by the Texas state department of agriculture, under direction of its pecan expert, J. H. Burket.

The plan is to select several promising untested varieties and craft a dozen varieties on a single tree, along with one or two nuts of known quality as a basis for comparison.

In a few years each experimental tree will be producing several different varieties and the varieties showing the best average results will be adopted for standardized production.

The work is being undertaken for the dual purpose of getting an improved nut and to get a standardized one for marketing facility.

### Golf Ball Kills Robin In Flight

SALT LAKE CITY, Utah.—A birdie usually thrills the ordinary golfer, but one caused Dr. A. C. Callister of the Country Club to retire immediately to the shower room.

Dr. Callister, a lover of birds, essayed his shot. The ball rose magnificently, but only to strike and kill a robin and spoil the doctor's afternoon.

### Al Capone Pleads Guilty and Faces 34 Years in Prison

His gigantic underworld empire, crushed by U. S. sleuths, Al Capone, center, is shown here arriving at the federal building in Chicago to plead guilty to defrauding the government of \$200,000 in income taxes and conspiring in a \$200,000,000 beer syndicate, to violate the liquor laws. Capone faces a possible penalty of 34 years in prison and \$50,000 in fines.

### MEN'S 9:59 BIBLE CLASS

The Men's 9:59 Bible class are going strong during the hot weather, the average attendance is over 100 and rarely is there less than that number. Last Sunday there were several guests from out of town and state; new members are being added every Sunday. Next Sunday, June 21st, they will have as their guests, Mrs. J. E. Hickman's class of boys and girls to the number of approximately 25 or 30. The class meets in the auditorium of the Methodist church every Sunday morning and begins its program promptly on the minute of 9:59, it is desired that all members be present and seated at that time.

You can't learn astronomy, says the office sage, by studying heavenly bodies from an orchestra seat at a musical comedy.

With 400 clocks in Windsor Buckingham palaces, as reported, it's easy to believe have some swell times there.

### SHE WAS ALWAYS LEFT BEHIND

SHE NEVER seemed to have the pep that the other girls had. Nor was she so good-looking either. Her complexion was sallow. Wrinkles had appeared—years too soon. Little wonder that men found excuses when her name was mentioned.

What a pity that so many girls lose beauty so soon... very often caused by the poisons of constipation. This could be prevented, easily, pleasantly... by eating a delicious cereal.

Two tablespoonsfuls of Kellogg's ALL-BRAN, eaten daily, are guaranteed to prevent and relieve both temporary and recurring constipation. In severe cases, use with each meal.

Kellogg's ALL-BRAN sweeps the intestines clean of all morous wastes. How much better than taking habit-forming pills and drugs.

Serve Kellogg's ALL-BRAN with milk or cream, fruit, honey added. Use for fluffy bran muffins, breads, omelets, etc. Look for the and-green package at Battle Creek. The largest Kellogg's ALL-BRAN.

**Kellogg's ALL-BRAN**

### SLUGGISH FEELING

"I have used Theford's Black-Draught off and on for twenty five years," writes Mr. Dave Stewart, of 1912 E. 2nd St., Austin Texas. "They used it in my father's home for many years and it was our general family medicine."

"My health was good, and that is about all I ever took. I used it for constipation and bilious sick headaches. It is a fine medicine to take when a man gets up in the morning feeling dull and sluggish. After a course of it I feel fine. It rids the system of poison which comes from constipation."

**THEFORD'S Black-Draught**  
Sold by druggists. 25¢ package.

### SUPREME COURT MADE VARIOUS RADIO RULINGS

WASHINGTON.—The supreme court, passing as it does on almost all phases of American activity reflects, sometimes tardily, the trend of American manners and customs.

For this reason, perhaps, radio, which has become a more or less accepted feature of domestic and commercial activity received much attention during the recently concluded court session.

Most notable of its decisions was that involving the Langmuir patents on high vacuum radio tubes. The strenuous legal battle indicated it was one of the most prized of the many patents held by the Radio Corporation of America, the General Electric company and their associated corporations.

The Langmuir tube patent was based on the knowledge that the high degree of vacuum within the tube greatly improved reception. While Langmuir first used that knowledge, the court found his patent was invalid, since other radio pioneers had also had the knowledge.

The Langmuir ruling following close on another order of the court, which, although without opinion, was considered a heavy blow to the Radio Corporation.

This was when it refused to alter the Philadelphia circuit court ruling which held the corporation's licensing contract requiring licensees to equip newly made sets with RCA tubes violated the anti-trust acts.

Another important radio case was decided much earlier in the session. It involved the patents owned by the Lektophone Corporation on the cone type of loud speaker. The patent is known as the Hopkins patent.

**Loud Speaker Ruling**  
In deciding this case the court did not attempt to question the validity of the Lektophone patents. It merely ruled that two very similar devices manufactured by the Rola Company and Miller Brothers Company did not infringe on the Lektophone Company's patent. This was in itself important, as the Lektophone company had for a long time successfully sustained a broad power under its patents in a series of court battles.

What threatened to become an attack on the entire authority of the Federal radio commission was turned aside early in the term by the court when it refused to pass on the question of the validity of the commission's authority.

Two cases were brought up questioning the commission's power. One of these was brought by Clinton R. White and the other by the American Bond & Mortgage company and Trianon, Inc. In these cases a series of questions seemingly touching on the validity of the Federal Radio Act were

presented. The broadcasters contended that they had invested substantial sums in the development of their stations, had created an audience, and were receiving a substantial income from the operation of their properties.

**Radio License Denied**  
Both stations had operated under licenses from the secretary of commerce and the radio commission but later had applications for renewal denied them.

The court refused to answer the questions presented to it, however, ruling that they were too general to furnish a proper test.

Copyright owners were given wide powers by the court in an interpretation of the copyright law, passed far in advance of the realization of popular radio reception.

This ruling was handed down in two test cases brought in St. Louis, Mo., by Gene Buck, as president of the Society of Composers, authors and publishers, against the Jewel-LaSalle Realty company, operators of a St. Louis hotel which furnished its guests with a radio in every room.

Justice Brandeis in writing the court's opinion held that "when these radio receiving sets tuned in on broadcasts carrying unauthorized presentations of copyright music, the hotel company infringed the copyright. Brandeis based his ruling on the theory that radio, "transmission" sound rather than "transmission" it and that therefore the rendition was a violation of the "reproduction" clause of the law.

### Non-Alcoholic Wine is Urged

EDINBURGH, Scotland.—Non-alcoholic wine will be used in the celebration of Holy Communion in Scottish churches, if signs of that description can be found in Scotland.

The general assembly of the Church of Scotland recently advised all ministers to consider the use of non-alcoholic wines. As a recommendation from the assembly is virtually an order, it is expected that the majority of ministers will attempt to comply.

The committee which made the suggestion to the assembly, condemned the present use of port wine for communion.

Opponents of the suggestion claimed that "non-alcoholic wine" was a contradiction in terms. They said that if the assembly adopted the suggestion churches would have to resort to ginger wine, a sort of soda pop.

### TABLET TO HONOR NURSE

QUINCY, Mass.—A bronze tablet will be dedicated here this summer to the memory of a heroine of the influenza epidemic of 1918. The woman to be honored is Miss Gertrude B. Flaherty, Quincy city hospital graduate, who worked day and night in charge of an emergency hospital here during the deadly epidemic. Her health was undermined and she died a few years later.

French Turning To Biographies

By United Press. PARIS—French literary critics taken up the vogue of biographical and historical studies with approval and conviction in most reviews that the world is a more varied and uncertain and is looking to the past for command and guidance.

Oil Aided Famed Painter With Work

BERLIN—A discovery which really proves many of Goya's things really to be the works of his pupils, and which is certain to cause extensive changes in museum exhibits of works by the Spanish master, has been made by Don Antonio Eschsché-Casal, the great Spanish painter expert.

Eschsché-Casal is said to have made the discovery in a picture brought to him for appraisal, which, by all known standards, was an authentic Goya.

The MELODY GIRL by RUTH DEWEY GROVES

BEGIN HERE TODAY Beryl Borden hopes that a radio career will help her forget her hopeless love for Tommy Wilson who is engaged to her half-sister, Irene. She goes about with Prentiss Gaylord until Irene learns that he is rich and manages to win him away from Beryl.

There had been a benefit party at a neighborhood gathering place and Beryl had attended it to replace the Everett family. Her mother was still avoiding her friends as much as possible and meant to continue doing so until she could announce that Irene was again with her husband in Oakdale.

Tommy had come to take Beryl home at the suggestion of Mrs. Everett who wished people to associate the two together so they would think less of the attention Tommy paid Irene.

Refreshments had been served when Tommy arrived, so Beryl asked him to come into the house when she reached there and give him a pot of chocolate and some fruit cake.

Tommy appeared to be preoccupied. How could Beryl guess that it was calculus that occupied his mind? She assumed he was thinking of Irene. He had asked about her sister on the way home.

Tommy had undergone a curious experience. He had found himself unable to analyze his feelings when he learned that Irene had gone to Oakdale and no one could tell him when she would return or whether she would ever come back.

On that last evening they had spent together the thought that in a few weeks more she would no longer be Prentiss' wife had held his attention and it had stirred him. Gaylord had never seemed to Tommy anything but a usurper.

Since her return to the east he had told her that his lack of emotion on seeing her again was due to anger. He wanted very much to explain this in some satisfactory way. Only an explanation that allowed him to believe he still loved Irene was satisfactory.

Tommy was really an idealist. He didn't want to fall out of love as did so many young people. He wanted to love as a poet and to remember forever. It was disappointing to know he could feel coldly toward Irene.

The rekindling of his affection as the days passed made him think better of himself. Perhaps he wasn't so fickle after all, Tommy concluded.

There were times, naturally, when he mulled over the prospect of telling Irene frankly that he no longer cared for her. That would be paying her off as she deserved. But then he had to ask himself if he could get away with it, or if he would regret it later.

And wasn't it incredible for him to think of paying Irene off? She was not responsible for what had happened. How could he make her believe he didn't care for her? She'd laugh at him. No, Irene wouldn't laugh. Beryl would laugh if you told her anything she didn't believe but Irene's blue eyes would fill with tears. Who'd believe there were girls like Irene in the world? Maybe there wasn't another one. He'd be sorry all the rest of his life if he hurt her now when she appeared to need him as she'd never needed him before.

Tommy thought about the many times Irene had said, "I've learned my lesson," or in even sadder tones, "I don't know how I could have done such a thing. Oh, Tommy, I must have been crazy!" Tommy felt that she was turning to him for comfort and understanding as she had so often before. He was subtly flattered. It was as though she sensed this in everything she said to him. Irene considered herself far inferior to him in faithfulness and loyalty. She was a leaf in the wind. She had said that one stormy day when they drove through a barren wood and the dead leaves scurried over the road. She was like that white cloud fading away overhead; helpless against stronger forces.

Gently, tenderly, wistfully, Irene admitted her failings until her meekness stirred pity in young Tommy's breast. There are boys who do not believe that girls should be told all their thoughts and Tommy was one of them. Tommy held the image of a saintly mother in his

Little Girls, She Has 800 Dolls!

NEA San Francisco Bureau The home of Mrs. A. W. Scott at Woodland, Wash., is a little girl's idea of paradise. From the day that she received her first doll as a baby, Mrs. Scott had made a hobby of collecting them. Her fame spread and now she has 800 sent to her from all parts of the world. She hasn't bought a single one. She is shown here with some of them.

heart. Amantha Wilson, dying, had talked with her the chance of destroying her son's illusions about her as living mothers may do. To Tommy she was a sweet and fragrant memory. No sex that claimed her could ever fail entirely of his respect.

And there was Beryl. Without knowing it Tommy based his opinion of girls largely upon his knowledge of Beryl. She, it was, who had taught him to respect himself. But from many others he learned while he was with Pol Larkin that the town folk did not share that respect. He was a "ne'er-do-well," a "loafer," a "no-account." Though they did not still call him these names, the scars which the scathing epithets had left still remained. He could not deny that they were justified to a great extent but coming as they did when he was frantic with the vision of Irene in another man's arms torturing his mind, they came close to making a lasting outlaw of him.

The scars were growing fainter now. While the lash of criticism at this time would have burned them raw they grew fainter with praise.

Tommy's character was not yet developed to the point where he could stand alone, unmoved by the attitude of his fellowmen toward him. Thus he found Irene's homage both soothing and stimulating. He did not know that while it is possible to despise those who love us we are prone to like those who respect us. He did know that he enjoyed Irene's company. She made him feel important, as though he would some day be a real figure in the world.

Who Irene dropped suddenly out of his life and he did not know that he would ever see her again he could not say how he was affected.

He had expected without questioning that his old companionship with Irene would be restored. Whether they would be sweethearts he had not, for his part, decided. It hadn't seemed necessary to come to a decision about it.

But after she was gone he asked himself what he'd been thinking of, anyway? Perhaps she might have stayed if he'd asked her to. And if she came back would he urge her then to go away a second time? What was the matter with him? Prentiss Gaylord was out there in Oakdale. He ought to be burning up with jealousy. Why wasn't he burning up? Was he so sure of Irene, so sure she loved him and would return to him?

Tommy could get nowhere with these perplexities and deliberately turned to other thoughts. Love had been everything to him at one time—but that was over now. A man had other pursuits. He had to think of making good in the world. Love he must have but there were other things to keep in mind.

Even getting married wouldn't be the same now. Tommy was not the boy he had been when Beryl had interfered and broken up his elopement with Irene.

Funny—he thought he'd never forgive Beryl for that, but now he had no hard feelings about it at all. He'd been pretty fresh all right to think of getting married, kid that he was then. Could it all have happened only last spring? Less than a year ago?

Maybe he'd better talk it over with Beryl now. She'd say of course that he shouldn't get married for years. No doubt she was right. Well, he wasn't so eager about getting married any more. He could wait.

Tommy reasoned vaguely, but underneath his conscious thoughts he knew that when he was with Irene, when her eyes bestowed the caresses he did not take from her lips, when she seemed to say in every look, every gesture, "Tommy, please," he was going to do something about it. And he did not want to do any-

plunge Tommy into dissipation or worse. There was no doubt in her mind that Tommy still loved Irene. Whether Irene was a subject which concerned only Tommy and Irene and Gaylord. It could have nothing to do with her. Beryl had plumbed the depths of hopelessness. She'd be glad if Tommy had let Irene go—glad for his sake—but it could not make him return her love. Of course if Irene should return— Beryl raised her cup of chocolate to her lips. She'd been restless and feverish all day. Even her eyes felt hot and dry. Tommy started to speak. He was thinking of Irene again. Before his words were out they were interrupted by the long, loud ringing of the door bell. (To Be Continued)

#### Bathing Beauty Review Adds Color to Willows Opening

The standard for doing successful things just as the Lions club has always done in Ranger, was demonstrated last evening with the opening of the Willows swimming pool with the Lions in complete charge of the outstanding affair of the current season.

Only a few days ago there were rumors here and there that the pool would be opened soon to furnish entertainment during the summer without having to drive out of the city to enjoy the privilege of swimming in a nice, clean and well equipped pool.

Dr. Harry A. Logsdon, one of the city's most active men, originated the suggestion of opening the pool and immediately a loyal

#### committee was appointed to outline all details. This committee was indeed well chosen consisting of Messrs. F. A. Wagner, Roy W. Gilbreath, Clyde H. Davis, Saule Perlstein, and Dr. Logsdon.

To begin plans in a more complete manner there was also a program committee appointed to add the touches to the event. This committee was composed of Messrs. Charlie Moore, H. E. Avelsgard, and Dr. C. C. Craig. Very soon a most delightful and entertaining program was in line for the occasion. Of course all openings require a bathing beauty review.

Following an enjoyable hand concert by the Lone Star band, contests, with plain and fancy diving and other features of diversion were given by various contestants, each proving good.

At 9 o'clock Charlie Moore, acting as review manager, presented the eight lovely and very attractive bathing beauties. First to appear wearing a highly becoming suit of two shades of blue, was the pretty Miss Doris Murray; second, Miss Nedra Head, very smart and becoming in an orange suit with white belt and slippers; third, Miss

#### Elizabeth Earnest, modeling a pretty mint green suit with white belt and pumps; fourth in line came Miss Mary Lou Throver, pretty in a blue suit offset with touches of the suit's own color and wearing pumps of white; fifth, Miss Pauline Head, looking very attractive in an ice blue suit dotted with white; sixth, Miss Lucille Grant, looking striking in a red suit and finished with white waist-line and white pumps; seventh, Miss Nina Williams, wearing light tan combined with brown; eighth, Miss Alma White, in an orange suit with black belt and pumps.

Judges for the colorful review were Miss Margaret Lee McDougald, student of Oklahoma university, and a splendid swimming instructor; Mr. E. A. Ringold and Mr. Saule Perlstein.

Miss Nedra Head was judged as first winner with Miss Pauline Head second and Miss Mary Lou Throver third. Miss Head will represent the city as Miss Ranger at the Willows swimming pool for the remainder of the season.

Drawing the program to a close was that of the men's review and what a review. First in line was Charlie Moore followed by Roy W. Gilbreath, manager of J. C. Penney company; Clyde H. Davis, of Davis Jewelry store; A. N. Larson, Texas Electric Service and president of the Lions club; F. A. Wagner, manager of Montgomery Ward & Co., who proved one of the sensational participants of the review. Mr. Wagner with his non-chalance cast all of that aside for a few moments and posed most shyly on the diving board, before sinking himself and a huge sunflower with a straw hat into the pool. Next in view came Martin Walker of the T. P. Filling station and last, but not least, Dr. Clyde Craig, pulling several capers before making a pretty dive.

This splendid program was attended by some 3,000 people, who no doubt are planning to visit the cool swimming pool during the summer.

The suits worn by the young ladies were used through courtesy of The Globe and J. C. Penney company.

#### Woodman Circle Hour Is Presided Over by the Guardian Mrs. Cash

The Julia Alexander grove of the Woodman circle met at the hall on Wednesday afternoon in regular session with 18 members present for the business hour presided over by the guardian, Mrs. Viola Cash.

An announcement was made at the close of the interesting hour for all junior members to be present at the hall Saturday afternoon at 2:30 for a meeting.

The drill team captain urges all members who are willing to aid with work on the team to be present for a meeting which will be held on next Wednesday afternoon at the regular hour. A new team will be organized at this hour and it is important that each member be present.

Every effort possible is being put forth to keep the lodge active throughout the summer months as much enthusiasm is being manifested at these well attended assemblies.

Mrs. Della E. Sappington, who visits the chapter regularly is now attending the national convention at Buffalo, N. Y., acting as a delegate.

On the return visit to this lodge Mrs. Sappington will summarize the details of the national meeting which will be of marked interest to each individual of this grove.

#### Mrs. Carrie Henry Presides At Royal Neighbor Meeting At Oracle

Mrs. Carrie Henry, who holds the office of district deputy of the Royal Neighbor camp, called the meeting to order last evening at the hall at 8 o'clock, serving as oracle during the hour.

The meeting was held for the purpose of electing a team which will be sent to Abilene, June 26, as representatives to the district convention. With this matter closed two members were elected and initiated. The ones selected were Mrs. Claude Lee Fowell and Mrs. Lillie Wilson.

The occasion was well attended

# GOOD... they've got to be good!

### There's a lot to it!

Smokers want a milder cigarette. Chesterfield is just that. Mild, ripe tobaccos and pure French paper — every one is well-filled and every one burns uniformly. Chesterfields smoke milder and taste better — because they're made that way!

SMOKED BY MORE MEN AND WOMEN EVERY DAY

## RANGER Personal

Mrs. W. E. Berry and daughters Nida Bell and Norma and son, W. E. J., of Alpine are visitors here, guests of Mrs. Berry's sister, Mrs. T. O. Rawls, and husband.

Numbered among Ranger friends who attended the funeral services of Mrs. Walter Harwell's father, Mr. Fouts, who died at his home this week, with interment held at the Rotan cemetery yesterday afternoon, were the Rev. Mr. and Mrs. L. J. Power, Mr. and Mrs. S. P. Boon, Mmes. C. E. May, Roy Jameson, O. L. Phillips and Fred Warren of Olden.

Dr. and Mrs. M. P. Kuykendall and daughter, Miss Alla Ray, were visitors in Austin and Waco yesterday.

Mr. and Mrs. E. H. Earnest and children have as guests Mrs. Earnest's sisters, Mrs. Jack Keith and husband and children Jo Ann and son Seely and Miss Carolyn Seely of Waterford, Ohio.

Miss Vera Gram of Belleville is the house guest of the Misses Pauline and Crystelle Head.

Mr. and Mrs. E. H. Earnest and house guests, Mr. and Mrs. Jack Keith and Miss Carolyn Seely of Waterford, Ohio, were visitors in Del Rio this week.

Ben Whitehouse was a business visitor in Cisco this morning.

### Von Steuben's Grave To Be Dedicated

By United Press  
ALBANY, N. Y.—The burial place of General Baron von Steuben, German hero of the Revolutionary War, will be dedicated as a historic site on Sept. 15.

The body of General Steuben, who so successfully organized the Continental Army that George Washington made him one of his most trusted aides, lies in a plot in the town of Steuben, Oneida county. Its purchase as a memorial site was authorized by the state legislature last year.

Governor Roosevelt will be among those who will participate in the ceremonies.

and proved very interesting and successful from every point of view.

A practice review will be held at the hall on Monday evening at 7:30 for the purpose of working the team in splendid condition for the approaching convention.
