Workers seek disaster aid

DR. FRED THORNBERRY (left), Republican candidate for Texas Agriculture Commissioner, talks with Joe Miller of Hereford and his brother, Tom, during a covered-dish supper

for the candidate in the back yard of the Tom and Jennifer Miller home Monday evening. Approximately 50 attended the public supper to hear Dr. Thornberry speak.

By BETTY HOOVER
This year's hail storms were a disaster for farm workers as well as farmers. Since farmers are receiving disaster aid payments to help offset their loss of income, shouldn't farm workers receive some financial help, too?

This is the question posed by a coalition of individuals and organizations concerned about the plight of seasonal and migrant farm workers in the Panhandle.

The coalition will hold a press conference at 10:30 a.m. today (Thursday) at the Castro County Agricultural Housing Project in East Dimmitt. A call will be made for state and federal disaster relief for farm workers displaced by this year's weather-related crop losses.

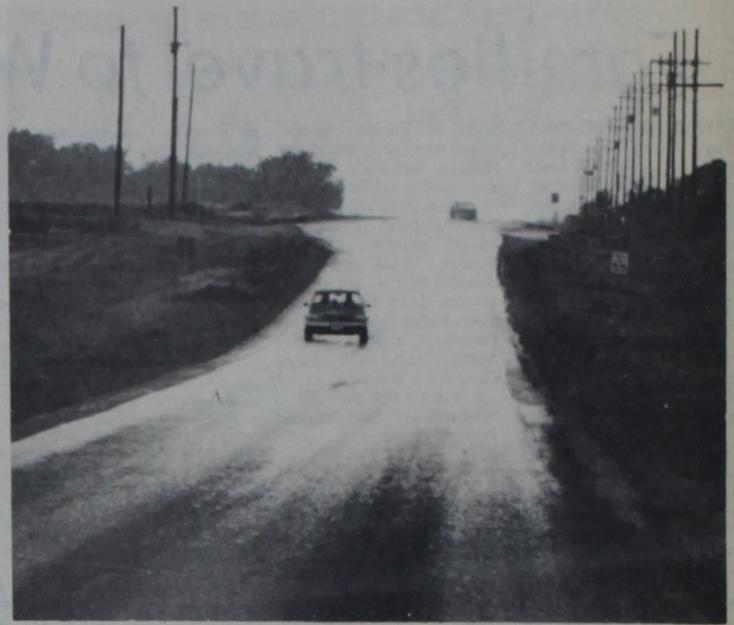

"Our purpose is to bring to light the fact that the government is willing to help farmers, whereas farm workers are not covered," said Jose Rodriguez, director of the Farm Workers Division of Texas Rural Legal Aid.

"They have a much need as the farmers... some more. Some are without food, gas and money to go back home. Many are stranded in the Panhandle," he added.

The coalition is hoping for more than mere immediate aid. It hopes to get long-term assistance to cover the workers' lost wages and needs during the off-season months, Rodriguez said.

Approximately 80,000 workers come to the Texas High Plains to work, Rodriguez explained. A survey would need to be conducted to determine how many workers were affected by the disaster before an appropriate amount of money could be allocated, he added.

Supporting organizations include Texas Rural Legal Aid, the Texas Mexican-American Legislative Caucus, the Catholic Diocese of Amarillo, the Mexican-American Legal Defense and Educational Fund, Catholic Family Services of Amarillo, the Mexican American Democrats of Hereford, the National Association of Farm Worker Organizations, the Azteca Economic Development Corp. of Dimmitt, and over a dozen others.

EDGE OF THE STORM—A pickup comes out of the rain and onto the dry pavement of FM 3215 where the first downpour from Friday afternoon's thunderstorm ended. A few

minutes later, the storm regenerated and dropped from half an inch to two inches in places. Separate storm cells also pounded several farms north of Dimmitt with hail.

County holding line on expenditures so far

The Castro County Commissioners learned Monday that the county's disbursements for the first six months of fiscal 1981-82 were less than half of the amount budgeted for the year.

"We've stayed in the budget pretty well," from Oct. 1, 1981, to March 31, 1982, Commissioner Ed Bennett said.

Henry Ramaekers of Brown, Graham & Co. presented a compilation in the form of financial statements, rather than an audit, to the county governing board.

General fund receipts were \$133,682.77 with disbursements of \$122,507.65. Revenue sharing fund receipts were \$61,991.00 with disbursements of \$48,021.11. The county will receive two other payments, Ramaekers explained.

Jury fund receipts were \$29,300.32 with disbursements of \$18,175.17. Courthouse and jail fund receipts were \$75,779.78 with disbursements of \$49,498.29.

Officers' salary fund receipts were \$206,813.05 with disbursements of \$135,820.26.

Road and bridge general fund receipts, ad valorem

taxes, were \$43,206.62 with disbursements of \$25,910.95.

Precinct No. 1 receipts were \$149,241.82 with disbursements of \$52,314.23.

Precinct No. 2 receipts were \$117,068.26 with disbursements of \$46,699.29.

Precinct No. 3 receipts were \$104,969.15 with disbursements of \$44,882.93.

Precinct No. 4 receipts were \$106,835.02 with disbursements of \$37,985.30.

The commissioners will begin working on the 1982-83 proposed budget at their next meeting Monday, Aug. 23.

Clara Vick of the Castro County Historical Commission reported that the organization is working on two historical markers for the county.

One will be located 4 1/2 miles south of Hereford on US 385 to mark the POW camp chapel, which is located three miles west of the proposed marker site.

The other planned marker will commemorate the shoot-out on Jones Street in Dimmitt in 1890. The 18-by-28-inch post-type marker will probably be placed on the courthouse lawn at the southwest corner, near the Sheriff Dept.'s driveway.

In other action, the county commissioners:

—Approved a savings alternative through payroll deductions to the Dimmitt branch of Hereford Texas Federal Credit Union. The plan will be optional to county employees.

—Learned that National Foundation Life may have misrepresented its intensive care coverage to county employees. The company did not pay Ray Aleman or Marshall Young for time they spent in intensive care. Several county employees have dropped the policy, Treasurer Oleta Raper said. The commissioners suggested asking the State Board of Insurance to investigate the situation.

—Learned from Mrs. Raper that BMA Insurance will increase its premiums by about \$40 per employee beginning Sept. 1. Commissioners voted to stay with BMA another year.

—Approved the move of Voting Box 5 from the Ed Ramaekers home to the H&S Farm Store in Nazareth.

—Signed a resolution to be sent to the Texas Highway and Public Transportation Commission and to the state legislature on Sept. 22.

Hightower 'dangerous,' GOP challenger maintains

"I'm running... because I'm afraid of the man I'm running against — of his philosophical views," Dr. Fred Thornberry, Republican

candidate for Texas Agriculture Commissioner, said here Monday.

Dr. Thornberry is challenging Democrat Jim Hightower, who unseated longtime Agriculture Commissioner Reagan Brown in the May primary elections. After Hightower wrested the Demo nomination from Brown, the Texas Republican Party's executive committee appointed Dr. Thornberry to replace Donald Herbert as the GOP nominee for the November general election.

Dr. Thornberry, an Extension Service research scientist and former faculty member at Texas A&M, met with ap-

proximately 50 persons here at a public covered-dish supper Monday night in the backyard of Mr. and Mrs. Tom Miller, 610 W. Stinson.

Dr. Thornberry, who holds three degrees from Texas A&M, said the main two issues in the agriculture commissioner's race are qualifications and political philosophies.

He claimed that Hightower, a liberal, has "no experience, no qualifications and no training in agriculture," is an enemy of land-grant institutions and the Extension Service, and "just does not understand" the state's agricultural research, develop-

ment and marketing structure.

Music City Jubilee to be here

Sheriff Lonny Rhynes and the Castro County Sheriff's Dept. will present the second annual Music City Jubilee at 2 p.m. Sunday in the Dimmitt High School auditorium.

Tickets are \$3 per student or child, \$5 for general admission and \$6 per reserved seat. They are available at the sheriff's office and at all participating merchants including K-Bob's and Dimmitt Super Market.

The Music City Jubilee is a three-hour, high-energy, family-fun entertainment show starring Wally Fowler, Jeanette Lunsford, Mark McCauley, Tim Smith and Jana Smith. Also performing will be the Tennessee Valley Boys and the Sounds of Nashville.

Lombard is named Coach of the Year

Joe Lombard, who has coached the Nazareth High School girls' basketball team to four straight state titles, was named Coach of the Year during the recent Texas High School Coaches Association annual meeting at Houston.

Lombard was chosen for the award in conjunction with the Texas Sports Writers Association.

Fab-Knit Manufacturing Co. of Waco, manufacturer of athletic clothing, sponsors the award annually and presents each coach with a plaque and \$250 merchandise award for his or her school.

A panel of seven sports writers and one representative from Fab-Knit select the annual winner in each of five high school classifications in Texas.

During Lombard's four-year string of state girls' championships, his teams have amassed a phenomenal 142-13 record, one of the best of any high school boys' or girls' teams in the state.

Besides this year's statewide honor, Lombard previously was named the South Plains Coach of the Year in 1980, 1981 and 1982, the Panhandle Coach of the Year in 1980, and coached the North Girls High School All-Stars in 1980 also.

Fab-Knit President Bob Landon said, "Fab-Knit is proud to honor Joe Lombard for the outstanding job he has

done for the betterment of the youth of Texas. We firmly believe that a man of his caliber is the backbone of our adults in the future."

Lombard graduated from Wayland University in 1975 and is currently enrolled in graduate school at West Texas State University.

Families travel to Washington, Wyoming, Florida

Susie Reeves and daughters, Joyce Rickerd and Linda Powell, and their children, Woody Rickerd, Shan and Jana Powell, and Susie's sister, Maxine Adams and her husband form Bledsoe, went to Seattle, Washington to visit Susie's son, Donny George Donny has a beautiful home in Spanaway surrounded by pine trees, but he works in Tacoma. He had a party for all his crew members to introduce them to his Texas relatives.

Smith of Vienna, Austria, visited with her mother, Dora Johnson, last week. Friday they went to Lubbock, where 29 members of the Johnson family gathered at the Carl Russell home for a family reunion. Those present included Dora C.J. and Omega Johnson from Dimmitt and other family members from Plainview, Lawton, Okla., Austin, Grant, Neb., Bridge City, and Lubbock. It was the first time all the Johnsons had been together in three years.

ing over the beautiful new Mississippi River bridge and stopping at the clean roadside parks in Alabama. After visiting in Concord, Ga., several days, they went on to Warm Springs, where President Roosevelt's "Little White House" is located. Although FDR's former home is small (he didn't care for elaborate living), it is beautiful. It is now maintained by the Georgia Warm Springs Foundation. They also went to Disney World in Florida and had a wonderful time seeing the parades, singers, dancers, Disney characters, the House of Presidents wax museum, etc., and taking the ferry boat and other rides.

The group went to Seattle and went on the Princess Margaret ship to Victoria, B.C., Canada. They went to the Zoo in Tacoma, the flea markets, Never Never Land and the horse races. They saw Junior Coffee at the horse races, where he is a horse trainer and also has some horses to run. Junior was an all-American football player at Dimmitt High School. He is married and has lived in Seattle for several years. He was glad to see someone from Dimmitt and said he would like to come to Homecoming sometime.

The Arthur Oakleys recently returned from an extended trip into Wyoming, across part of Nebraska and Kansas and into Missouri. They also visited at Oakley, Kan. While in Wyoming they visited a son, Quinfred, and family. They are doing Pioneer Mission work at Sinclair, Wyo. Their work is slow but progressing. After first meeting in members homes, they are now meeting in a small church building once used by other denominations and now owned by the City of Sinclair.

The next day they went to the Kennedy Space Center and took a tour of the space shuttle launch site, then drove on to Cocoa Beach, past all the orange orchards. Prissy said the people throughout the South were very friendly and made them feel welcome. Guests in the home of Goldman and Carole Dyer for Saturday lunch were Mr. and Mrs. Jess Cleavenger of Alhambra, Calif., and Mrs. Mattie Axtell of Earth, along with Jim and Ina Cleavenger, Jimmie Cleavenger, Lori Dyer and Lois and Charlie Wales. Visiting during the afternoon were Meredith and Tommie Cleavenger, Candice and Zeek; Joe Bob and Diane

The group went within six miles of Mt. St. Helen's. They went to Las Vegas, where they saw the Mac Davis Show. The group rented a van for all 12 to travel in and they reported it was a trip of a lifetime.

After this the long trip began to Raymore, Mo., which is 20 miles south of Kansas City, Mo., which they visited Marion and family. From there they all made an interesting overnight sight-seeing trip to Vanoo, Ill.

Mike and Prissy Boothe and children and Prissy's parents, Mr. and Mrs. George Whiting of Van, had a great trip to Concord, Ga., where they attended a family reunion. They also celebrated the 90th birthday of Prissy's grandfather. The reunion was Saturday and Sunday, and about 35 people were there whom Prissy had not seen in 12 years. En route, they enjoyed driv-

DOUBLE PORTION

A double portion is good anytime, but it is especially good when it is a portion serving one's spiritual needs. It is exactly this which Sunday Church School will do for your child; give him the double portion of spiritual nurture and wholesome Christian fellowship. These two items are the basic building blocks for the proper growth of personality. The Christian boy or girl needs to grow in the understanding of religion as he grows physically and mentally. It is a great, but common, tragedy to see grown-ups with an infantile religion. The context of Christian fellowship is vital because here we share in a common cause and a common conviction about life. Outside the fellowship the world will be calling people to its way of life every day in every way. Every individual needs the added strength which fellowship in the Church alone can give. Go with your children this week to the Sunday Church School.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE
The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

VETERAN'S SERVICES

By BEDFORD W. SMITH
County Service Officer
The new rates for VA pensions that were increased June 1 by 7.4% are available in the VA office. Veterans, their widows or other survivors whose family income was too high for eligibility before may now be eligible under the new pension law that became effective Jan. 1, 1979.

The new rate for veterans, 65 years of age or older or with a disability hindering them from substantial employment, is now \$5,328. With one dependent, it is \$6,980. A widow under this pension plan without dependents has a guaranteed total income of \$3,570. Children will receive \$903 annual income. Rates are higher when there are more dependents or when claimants are housebound or in need of aid and attendance.

Pension rates for prior plans have been frozen, but most often they can have more monthly amounts without loss of pensions. Each case is separate. Exact figures can be given to those who come by the office.

The newest plan is for total income while older plans had more exclusions. Both plans are adjusted if medical expenses total over 5% of the income base.

Commercial beauty spot

DAISY LANE—The Castro County Courthouse square has been named by the Dimmitt Chamber of Commerce as the city's Commercial Beauty Spot for August. The well-tended courthouse square is now enhanced by

rows of colorful daisies that line the entrance walk and adorn the flower beds around the building. The daisies were planted by local 4-H youngsters.

Tickets are on sale for Boys Ranch Rodeo

One of the most popular Labor Day events of the Texas Panhandle will be held Sept. 5 and 6.

This is the Cal Farley's Boys Ranch Rodeo with two performances scheduled in the Ranch's Rodeo Arena. Ranch officials expect approximately ten thousand people to attend the afternoon performances that will begin at 2:30 each day.

Nearly four hundred boys between the ages of five and eighteen are now at the Ranch, and all will have some part in the rodeo. About 250 will be contestants, competing for the best times on bareback broncs, bulls, steers, calves and stick horses. The boys will ride under R.C.A. rules on professional rodeo animals. Riding clubs from area communities will appear in the Grand Entry.

An added feature will be barbecue plates for \$3 each. The boys will also be operating other concessions. Reserve box-seat tickets are

now on sale and can be obtained for only \$3.50 by calling 806-372-2341 or by going by the Boys Ranch office at 600 West 11th Street in Amarillo.

General admission tickets for \$2.50 may be purchased at the office or at the rodeo arena.

Local teacher attends class for languages

June Parker, a Spanish language teacher from Dimmitt High School, participated in the first annual National Endowment for the Humanities Summer Institute for Secondary Language Teachers held in July at Austin College of Sherman.

Fifty-seven high school foreign language teachers from seven states took part in the program.

During the four-week institute, they learned new techniques to improve their teaching skills, developed authentic cultural units and worked on their fluency. They also had the opportunity to associate with more than 200 French, German and Latin American nationals who participated in other seminars offered by the college.

Women attend Dallas seminar

Director Lillian Carson and consultant Dorothy Musick, both of Dimmitt, attended the 20th annual seminar of Mary Kay Cosmetics, Inc., held in the Dallas Convention Center Aug. 5-7.

The annual Mary Kay Seminar is a professionally produced convention featuring three days of education, motivation and inspiration. Daily workshops on product knowledge, sales techniques and business management were taught by leaders in the sales force. The seminar was highlighted by Awards Night, an evening of entertainment by singer-TV celebrity John Davidson followed by the crowning of the Mary Kay "Queens" for 1982.

Mary Kay consultants and directors during the convention donated more than \$200,000 to the Wadley Institution of Medicine, a Dallas cancer research center in which a Mary Kay director will be treated as a test patient with a new "miracle bullet" treatment. This center has developed two of the 34 cancer treatments now in general use in the world.

ASCS news

Disaster program is outlined for farmers

Secretary of Agriculture John R. Block has announced that Castro County will be eligible for various types of disaster assistance due to extreme unfavorable weather conditions.

The special disaster payments, as outlined by the Agriculture and Food Act of 1981, are:

Cotton — 20.5 cents per pound for crop losses in excess of 25% of the established yield.

Wheat — \$1.75 per bushel for losses in excess of 40% of the established yield.

Feed Grains — 15 cents per bushel for corn and barley and 18 cents per bushel for grain sorghum for losses in excess of 40% of the established yield.

Those who have had a disaster are asked to come by and file their claims for disaster program benefits before destroying evidence of the affected crop.

Farmers who suffered a disaster on their wheat or

barley acreage have until next Thursday, Aug. 19, to file the claims.

To be eligible for these disaster benefits, the farm must participate in the 1982 farm program for the crop affected, and must have certified the crop within the permitted acreage by Aug. 2 and have the required Conservation Use Acreage.

WHEAT PROGRAM
To participate in the 1983 government wheat program, you will be required to limit your wheat acreage for harvest to 80% of the farm's wheat base — in other words, a 20% reduction.

For making this reduction, you are entitled to the same program benefits as you were (if participating) in 1982. That is, the farm will be eligible for price-support loans, target price protection and eligibility for the reserve loan program. As it turned out, eligibility for price-support was pretty important this year.

The target price for wheat will be \$4.30 per bu. The regular loan rate will be (national average) \$3.55 per bu. The reserve loan rate will be \$4 per bu. Reserve storage payment will remain at 26.5 cents per bu. per year.

If your farm participated in the 1982 wheat program, the farm's base will remain the same for 1983. If not in the 1982 program, your farm base will be the average of the 1981 and 1982 plantings or your 1982 planted and considered planted, whichever is larger.

Another thing: just like last year, if you plant less than the permitted acreage, the CUA requirement will be less. For example: A farm with a 100-acre base would have a permitted acreage of 80 and a set-aside of 20 acres. That is, he would have 20 acres CUA required if 80 were planted. If only 50 acres were planted, then there would need to be 12.5 acres of CUA, 25% of the planting.

Anyone interested in latest research on water conservation, limited tillage, center pivot irrigation and crop varieties is invited to attend.

Field day activities will be directed by Cecil Regier, Manager of the Research Field.

DHS 'Washington delegate' tells of trip

Shelly Denise Frye of Dimmitt attended the Presidential Classroom in Washington, D.C., from July 24 through 30.

She participated in the intensive study of US govern-

ment with 141 other students from across the nation and from Guam, Puerto Rico and Africa. They attended seminars with leading policymakers as part of the educational program to give first-

hand experience with the decision-making process.

Our elected officials there "are a lot busier people than we realize," Miss Frye said, adding, "Sometimes we take our congressmen for granted."

Issues directed in seminars included budget balancing, employment rates, defense systems and nuclear warfare — the pros, cons and possibility of having it.

The most interesting speaker was Gen. Jerome F. O'Malley, vice chief of staff of the US Air Force, she said. He stressed the need to build up the US defense program to prevent war and to be prepared.

In his talk on "national strategic priorities," he quoted Gen. Douglas McArthur as saying, "No one desires peace as much as the soldier."

During tours, the students saw the Smithsonian Institute, the Chancery of Columbia, the White House, the Dept. of Justice, Capitol Hill, the changing of the guard at Arlington Cemetery, the FBI building and other monuments and memorials.

"When they spoke about the Justice Dept., we were there. It made everything relevant," Miss Frye said.

On Sunday, July 25, students visited the Washington National Cathedral, a Jewish synagogue and an Islamic mosque. Once, they were treated with a night at a dinner theatre to see "Guys and Dolls."

The four-hour flight to Washington, D.C., was her first flight without family and her farthest flight. She also went to Virginia and Maryland.

Our girl in Norway

AFS student goes 'to the end of the world'

This is the second letter from Toby Tischler, daughter of Delton and Sue Tischler of Dimmitt. She has been living with the Arne Johan Brekke family in Hoevik, Norway, since June 26 as an exchange student in the American Field Service Summer Program.

She will return home Aug. 27 to begin her junior year in Dimmitt High School.

The following excerpts are from a recent letter Miss Tischler sent home to her family.

JULY 7

I'm getting along much better. I guess getting your call almost on the day I got here really made me homesick, but I'm getting along pretty good.

Today I went wind surfing I spent more time swimming than surfing, but it was fun.

I will also get a chance to do something I most desire, and that is skin diving—that is without tanks but with fins

and snorkel. I have seen jelly fish and man-of-war. It's really pretty!

Yesterday, I went to a kayak trial with Martin to see who was going to the world championships. I also met the world champion kayaker. His name is Einar Rasmussen.

I have been to some more museum sculpture parks. I liked it I guess. I really don't understand why people like to look at naked people, but I guess it is art.

Also on this day, I spent two hours downtown while Randi was at the AFS office.

It is really different here. There are street musicians, and they are very good. There was one that sang country and western music. I could have sworn he was from the US. There was another that did pantomimes. He was the best and kept everyone laughing.

Johan went to Denmark to a kayak meet and got a fourth and a fifth. That is pretty good! I spend a lot of time with him. He is near my age

and loves sports as I do. I really do like my family. They speak English all the time so it makes it hard to learn Norwegian.

JULY 12

Today has got to be the best day I have had since I have been here. We went to the end of the world. That means we went to the end of Norway.

It stops at the ocean and is quite different from where I stay. It has huge rocks that have holes in them where the water washed and wore them away. It is so beautiful—it takes your breath away.

On the way here we drove by many small farms. It is strange to see so many of them. The houses are real nice, and they have very large barns. There are only a couple of acres to a farm. A few are large—but not many.

Then we left the end of the world and went to Peirres Island. That is where we went skin diving. It was great!

Catching crabs is a lot of fun. They walk sideways and

are real funny. The jelly fish are real pretty. They look paper-thin, but they aren't really.

For the first time in two weeks I ate chicken. It was cooked over an open fire and was very good. We have had strawberries at every meal since I have been here.

After we finished eating, everyone started back to the main island. Of course, Johan had his kayak and a half racer. I was going to take it back in and was doing great. When we got out in the middle I stopped, immediately became unsteady and turned upside down. With Johan's help, I got back in my kayak. Then he paddled back to the motor boat, and I turned upside down again. After that I gave up and rode back in the motor boat in my wet clothes. Boy, was it cold.

You asked if the mountains are near us. Yes, and the whole country is forest except where the farms are. Our yard has pines and aspen. It is really nice.

JULY 15

We finally made it to the mountains. Today has really

been nice. The cabin has no electricity, so I have to boil my contacts in water like the doctor told me to. The toilet is outside. We have to bring water from the lake. We take no baths except when we go swimming—but that will be often.

We are 3,000 feet above sea level. Kristin and I went hiking to the top of the mountain. When we got there, we could look down into the valley and see the cabin and lake. There were not any pines where we were. It was too high. It had a lot of grass and bushes.

JULY 16

This morning we went to the store. We did not take the car as we would at home. We walked along a trail, and it took us about 30 minutes. Everywhere we go we just take a trail. Johan and I went jogging about 3-1/2 miles. It's not like at home. The air is very thin, and we go up and down steep hills.

JULY 18

We did not go very far today because I have blisters on my feet, but we did see the "out farms." There are not

too many left, but this is where people live in the summer while their sheep, goats or cattle graze. They milk the cows or goats and take the milk to town where they make it into cheese. I like goat cheese best.

It is still cold, and I still have not had a bath. Johan and I went paddling for a while. I was tempted to turn (the kayak) over, but the water was so cold.

JULY 21

Johan and I went wind surfing on the lake, and boy was it cold. I did not stay out long because I fall so much, but I'm getting better. I have not had a real bath in a week, except for swimming. My hair feels terrible. But we hardly see anyone, so it does not matter.

We went to Fagernes yesterday and went through a museum. It is an old house that belonged to a magician who was also a doctor. There is a room for delivering babies that has no windows and one bed. The reason for no windows is that the people believed it would keep the devil out.

VISITING HER CONGRESSMAN—Jeanie Wilhelm of Nazareth visits with Congressman Kent Hance during her trip to Washington, D.C. Miss Wilhelm was among the 38 youths

Miss Wilhelm is home after D.C. youth tour

Jeanie Wilhelm of Nazareth recently returned home from an all-expense-paid trip to Washington, D.C.

She won the trip by winning a speech contest in March sponsored by Swisher Electric Cooperative of Tullia. Miss Wilhelm toured Washington with 37 other youth from Texas who had won similar contests.

The youth traveled by bus, and the trip included a one-day visit at the World's Fair in Knoxville, Tenn.

Other highlights of the trip included a "Sunset Parade" conducted by US marines at Iwo Jima Memorial, George Washington's Mount Vernon home, changing of the guard at the Tomb of the Unknown Soldier in Arlington National Cemetery, the Kennedy Center, the Smithsonian Institute, Ford's Theatre and the National Archives.

The youth also visited with their congressmen and with Secretary of Agriculture John Block, saw the House and Senate in action and toured several Washington monuments by night.

The youth tour is an educational means of providing young people with a better understanding of how a cooperatively-owned rural electric utility operates and of the issues that affect the cost of power for all consumers.

Couple to get degrees

A former Dimmitt couple will receive degrees this week in Amarillo.

Daniel Perez will graduate today (Thursday) from Texas State Technical Institute in Amarillo, and his wife Susan will graduate with a master's degree Saturday from West Texas State University of Canyon.

Mrs. Perez will receive her master's degree in education Saturday at the Amarillo Civic Center. She majored in school administration.

Perez is presently employed at Amarillo International Airport.

Mrs. Perez will work at the Region XVI Education Service Center as a curriculum consultant. She will advise about 10 different school administrators on curriculum and accreditation of their individual schools.

Residential beauty spot

PINE STREET HOME—Beauty Spot Committee members admit it's hard to pick a Residential Beauty Spot during the summer because of all the beautiful homes, lawns and flower gardens in the city. But after a lot of looking, the Chamber of

Commerce committee named the R. N. Carpenter home at 731 Pine St. as Dimmitt's Residential Beauty Spot for August, because of its well-kept lawn, landscaping and attractive flower display.

It's time to make plans for Harvest Days events

Work is progressing toward the 1982 Harvest Days celebration which will be held Friday, Sept. 10, through Sunday, Sept. 12.

Festivities will include a Harvest Days Run, Fun Olympics for the Kids, Old Settlers' Reunion, Harvest Days Follies, a bed race, pet show, parade, fiddlers contest and dancing.

The Dimmitt Chamber of Commerce is also hoping that some group or organization will sponsor a barbecue or other meal Saturday, Chamber Manager Delores Heller said.

The Harvest Days Run will start at 8 a.m. Saturday at the Dimmitt High School football

field and will end downtown. Entry forms are available at the chamber office and in today's issue of the News.

The chamber is hoping to have more entries in the bed race than last year. The Lions Club is the defending champion. Rules for the bed race call for a bed constructed of wood, iron or other metal with a mat or mattress, no motors, four persons of one sex pushing the bed and one person of the opposite sex riding on the bed.

The Lions Club will sponsor the Harvest Days Parade this year. Chet Braafladt is the parade chairman. The theme will be "What the World Needs Now Is..." It should be interesting to see what each entry says the world needs, Mrs. Heller said. To enter, call Mrs. Heller at 647-2524 or Braafladt at 647-2457.

The Harvest Days Follies, to be staged Sept. 11 and 12 in Dimmitt High School auditorium, will carry the theme, "The Night of the Cabaret," and will feature comedy skits, Broadway musical numbers, children's number, soap opera takeoffs, mimes, and a "two-ton chorus line" of men. "Rehearsals are going fine," Director Jeff Isaacs said. "We've had a good turnout, and people seem to be enjoying themselves. They're picking it up faster than I expected. I've discovered through doing this that there's a huge amount of talent in Dimmitt, and it needs to be utilized."

Here is the schedule for the busy Harvest Days weekend:

Thursday, Sept. 9
3 to 6 p.m. — Fair exhibits must be registered. For more information, call Teresa Nutt at 647-4115 or Nell Ingram at 647-4488. Three fair booths are still available. To rent a space for \$15, call Mrs. Heller at 647-2524.

Friday, Sept. 10
9 a.m. to 8 p.m. — Expo Building will be open and exhibits will be shown.

10 a.m., 2 and 4 p.m. — Special programs will be shown. The exact subjects will be determined later.

Saturday, Sept. 11
8 a.m. — Harvest Days Run will start.

9:30 a.m. — Pet Show will be held at the courthouse.

Letter to the editor

Road to Samaria runs through here

Dear Editor:

I would like to acknowledge someone in your town who we think is outstanding.

On a recent Saturday afternoon at 4:30 we were passing through your town and noticed a brake problem on our pickup. We pulled into the Dimmitt Equipment Co. and asked Carroll Webb for referral as to who would at this late hour on a Saturday assist us. He asked that we pull up into his garage.

Within a half hour, with the assistance of all his men, we were on the road again. He would not take any money for the work, and to top it off gave my husband, two children and myself each a cap to boot!

This was a great beginning of a wonderful two-week vacation.

We want to once again thank Mr. Webb publicly and hope your community is aware of this thoughtful businessman.

Youths cited for vandalism and burglary

Seven juveniles were turned over to juvenile authorities for prosecution during the week after they were arrested by the Dimmitt Police Dept. in connection with two separate burglaries and criminal mischief.

At approximately 10 a.m. Sunday, a tractor window was shot with a BB gun. The window was worth about \$100. The tractor, belonging to Ramon Solar, was parked on the vacant lot just north of 911 West Etter when the shooting occurred. Three juveniles were taken to the police department in connection with the incident.

Two were charged Friday with the burglary of the Thomas Falcon home at 105 Northwest Sixth. Entry was gained through an open bedroom window. A yellow pear-shaped money bank containing quarters was taken. It was recovered, and it still had money inside.

At 11:25 a.m. Friday, Mrs. Billy Terry of 207 Southwest Fourth reported that her vehicle was burglarized while it was parked at 306 West Andrews. Two juveniles were arrested for taking two wallet-type purses from the vehicle. The purses and the money were recovered.

YOUR CITY AT WORK

By PAUL CATOE
City Manager

The City's appearance has improved over the past few weeks largely due to the voluntary efforts of local residents to clean up their own property. However, the City's building inspector will continue to send out a large number of letters to other property owners who refuse to take voluntary action.

Most residents who have received written notification from the City have taken immediate action to clean up their property. I am very pleased with the results, but we still have a great deal of work to do.

The Dimmitt Chamber of Commerce and the City are working together to help clean up the downtown section of the City. The Chamber has made arrangements to purchase ground cover, trees and shrubs to beautify businesses along US 385 and Hwy. 86 through Dimmitt. The businesses will be able to purchase these items through the City.

City personnel will also assist merchants and business owners clean up their property and plant trees, grass and shrubs.

This combined effort can only result in better business for the merchants of Dimmitt.

Employee Highlights
We have several new employees working for the City. Our new Police Chief, Don Franklin, has assumed his duties, and I might add that he is doing an excellent job. Don has already hired two new certified officers which brings our Police Department up to its full strength. The new officers are Larry Edwards from Morton and Joe Solis from Hereford. We are proud to have these new officers working for the City of Dimmitt.

The City also recently hired Horace Strickland as our water and sewer superintendent. Horace and his wife recently moved to Dimmitt from Fritch. Horace is doing a fine job and says he and his wife really like the people in Dimmitt. Horace is well qualified for his job. He has a class B water and sewer license from the State of Texas, and he has over eight years experience.

The Board of Aldermen and the City Management would like to take this opportunity to welcome all new city employees to our community.

LONG LASTING WOOD SHINGLES

A result demonstration is underway in San Augustine County to show how pressure preservation treating wood shingles on a home can double their service. A recent study in Houston showed that the average life of wood shingles is 12 to 15 years. A forester with the Texas Agricultural Extension Service concluded that treating wood shingles with a preservative would probably double the expected life of the roof and make the investment worthwhile.

More about Hightower...

[Continued from Page 1] Reagan Brown "my friend," Dr. Thornberry said he would retain most of the present Agriculture Commission staff.

"The Agriculture Commission is doing a good job," Dr. Thornberry said. "Those are productive people, and I'm going to keep most of them on. It's less important whether they're Democrats or Republicans than what kind of job they're doing."

Asked why he had not entered the Republican primary, Dr. Thornberry said, "I visited with party leaders as long as two years ago and was seriously considering running last summer. I was advised to wait four years because Reagan Brown was considered formidable and was doing a good job. Then the unforeseen happened. Mr. Hightower defeated Mr. Brown through a fluke, and he was totally unacceptable to conservative Democrats and the agricultural community."

Responding to Hightower's charge that he was "an agricultural bureaucrat looking for a promotion," Dr. Thornberry said, "I look upon him as a political radical looking for a job. He needs to remember that I've been successful at all my jobs" as a county agent, researcher, Extension poultry specialist, project group supervisor and consultant.

Dr. Thornberry advocated checkoff fees on more commodities and farm products for research, promotion and advertising. "We've got to advertise to a much greater extent than we ever have," he said.

Insects of interest

Dusters battling borer

By ALLEN KNUTSON
Extension Entomologist
SOUTHWESTERN CORN BORER (SWCB) eggs were

found in many fields recently and aerial applicators were busy putting in long hours to meet the demand for treating fields. Infestations have ranged from 5-50%, with many having 25-30% egg infested plants. Light trap catches increased to 80/night August 3-4. Field surveys August 2 found 60% of the borers had emerged as adult moths. Thus, peak egg lay probably occurred this week, and egg infestations should be declining the second week of August.

Fields are often reinfested with SWCB eggs because of the usual 2-3 week egg laying period. Will a second treatment be necessary this year if fields are reinfested following treatment? This will depend on the growth stage of the corn and expected harvest date. However, SWCB occurrence is about 7-10 days later this year, and it may be assumed that girdling activity will also be later. Most insecticides for SWCB, at labeled rates, should provide 7 days residual control. Larvae hatching today may survive in a field treated 7 days earlier on August 5. Larvae must be full grown, which requires 25 days, before they girdle the stalk and cause it to lodge. A borer, hatching August 12 would not be full grown until at least September 6.

Also, borers enter the stalk when they are about 7-10 days old. A larvae hatching today would enter the stalk August 20. Many fields will be approaching dent at this time, and stalk tunneling will probably not significantly affect kernel weight at this stage of development.

Fields that will be harvested late in September or October may require a second treatment to prevent lodging if fields are reinfested with SWCB eggs.

Pirate bugs, lacewing larvae, spiders and other general predators probably feed on young SWCB larvae, but little is known concerning the significance of predators in reducing SWCB infestations. Corn borer eggs are sometimes parasitized by the tiny Trichogramma wasps. These wasps occur naturally, and although parasitized SWCB eggs are rare, they are more common this year. An average of 15% of the SWCB egg masses in one field were found to be parasitized.

Although present in many fields, SPIDER MITES are not

checked closely for midge. GREENBUG colonies are increasing in many fields and some fields have been treated. Several insecticides, including Lorsban, Diazinon, parathion and others, provide both greenbug and midge control when used at rates labeled for midge. The following information will serve as a general guide in determining when treatment is needed.

Plants from emergence to about 6 inches in height — visible damage (plants beginning on plants) with colonies of greenbugs on plants.

Larger plant to pre-boot — greenbug colonies causing red spotting or yellowing of leaves and before any entire leaves are killed.

Pre-boot to heading — before the death of one functional leaf.

Heading to hard-dough — when greenbug numbers are sufficient to cause death of two normal sized leaves.

COTTON
There has been little insect activity in cotton this week. A few LOOPERS and COTTON APHIDS can be found in many fields.

BOLLWORMS are expected to move from corn into cotton and soybeans in the next several weeks.

SOYBEANS
LOOPERS are being found at 1-3/3 row feet and leaf feeding is evident. Spiders and other beneficials are common and should help control loopers. Treatment to control leaf feeding caterpillars should be initiated when 40% of the foliage has been eaten on soybeans in the pre-bloom stage. Once soybeans begin to flower and fill pods, a 20% leaf loss is sufficient to cause economic damage and require treatment.

The federal label for Pydrin on corn has been amended. The pre-harvest interval has been reduced from 60 days to 21 days on field corn.

SORGHUM
SORGHUM MIDGE infestations continue to be found in flowering fields. Midge were found in three of 10 flowering fields checked Aug. 5. Midge averaged 1.6/head in the three fields.

Johnsongrass is the early season host for sorghum midge. Once sorghum begins to bloom in an area, midge populations rapidly increase. One midge generation requires about 16 days to complete. Many fields will be blooming during the next several weeks and should be

checked closely for midge. GREENBUG colonies are increasing in many fields and some fields have been treated. Several insecticides, including Lorsban, Diazinon, parathion and others, provide both greenbug and midge control when used at rates labeled for midge. The following information will serve as a general guide in determining when treatment is needed.

Hail damage Friday

WIPED OUT—Friday afternoon's thunderstorms dropped half an inch to two inches of rain in spots. But north of Dimmitt, several farms weren't so lucky. Here's all that was left of Roger Schilling's cotton crop [top photo] and Jackie Matthews' soybeans [bottom photo] after a 20-minute hail raked a west-to-east strip across US 385, three to five miles north of Dimmitt. The farms of Oscar Wylie, Dan Nelson and others were also hit by the spotty but severe hailstorm.

He introduced two new staff members. They are Ken Nordell from Paducah and Jim Curlee from Panhandle State University. Other staff members are George Rasor, Alan Steidle, Lyman Schroeder, John Thomas and Jerry Durham.

"We need to change attitudes" of the players and of the community, Griffin said, adding, "We're going to be successful. We're going to be."

"Our program needs your support," he added.

This year's team will use an

"We're going to be a run-oriented football team. We need to build an atmosphere of mental toughness," Griffin said. "We're going to try to teach them things that will make them better young men."

The Bobcats will play their first scrimmage at Kress Friday, Aug. 20. The second scrimmage will be here with Farwell Aug. 27. The first football game will be against Floydada here Sept. 3.

In the state meet, Lubbock defeated Fort Worth-Dallas by 5-0, Austin by 3-2 and Houston by 5-0. San Antonio and Lubbock each won all three of their prelim matches en route to the state championship finals Sunday.

By winning in Austin, the Lubbock team qualified for the National Regionals that will be held in California in September. This tournament is the US Sectional, and will host play for state champions from the western half of the United States.

Victory in California would advance the Lubbock team to the US Open, which is held in conjunction with the professional US Open.

Team members include Keith Lowe, Randy Caudle, David Teague, Bob Smith, Bruce Tilley, Lamar Jones, Jim Johnson, Bill Gribble and Rusty Abel, alternate.

Trap shooters place at state

Todd West of Dimmitt was the highest scoring shooter in the sub-junior class at the Texas 4-H Trap Shoot in San Antonio Friday.

Competing against 100 other sub-juniors, West hit 50 of 50 clay pigeons to tie for first place with Bill Harmon of Wichita County, then won a shootoff for high individual honors. He was named to the White Flyer All-State Team.

Castro County's sub-junior team of Todd West, Kevin Wheelless, Jay Gruhkey, Jon Bruegel and Mark West placed third out of nine five-man teams in their age division at the state shoot. They compiled a team total of 169x250, firing 50 shots each.

In the junior division, the two-man team of Billy Patton and Dirk Wright placed seventh out of 22 teams, Wright fired 44x50 and Patton 39x50 for a team score of 83x100.

In junior individual competition, Kerry Lewis fired 43x50.

THE FOLLIES are coming Sept. 11-12!

GET A WRITTEN estimate for your automobile repair work, suggested Bonnie Piernot, family resource management specialist with the Texas Agricultural Extension Service. Even though no law requires written estimates for vehicle repair, most reputable mechanics or car dealers provide one. If they don't, you can request one. Also ask the mechanic to call you if the work will cost more than the estimate says by 10 percent.

Boosters to elect tonight

The Dimmitt Athletic Booster Club will meet tonight (Thursday) at 8 to elect officers and make plans for the annual Ice Cream Supper.

Tonight's meeting will be held in the high school cafeteria. Only 15 persons attended the Boosters' kickoff meeting Monday night, and President Garner Ball postponed the election of officers "until we get enough out to have a good representation."

However, he vowed that new officers would be elected tonight, crowd or no crowd, and said he will also call for ideas to organize the club to increase participation and spread out the work assignments.

Ball especially urged all former Bobcats and Bobbies, as well as athletes' parents, to get involved in the Booster Club.

Ball announced that the Booster Club's annual Ice Cream Supper to introduce football players and coaches will be held Monday, Aug. 23, at 7 p.m. The evening will feature all flavors of homemade ice cream, introduction of coaches, players and cheerleaders, and a short program.

The club heard reports Monday night from Treasurer Ann Armstrong and Don Nelson on advertising sales, gross receipts and production schedule for this year's football programs, and voted to have the Boy Scouts sell programs at the home games again this year.

A BETTER mousetrap? Not necessarily, but rats and mice much prefer chewing on a gumdrop than cheese. Other trap lures that work better than cheese are bacon, pork rind, and butter.
