PAUL ZIMMERMAN SAYS—

Hello, Neighbor

The Castro County Fair Committee, headed by Ernest Harman, is functioning at a fast pace. Entertainment, exhibits, flower show, poultry show, sheep show, dairy show, Hereford show, Shorthorn show, art display, 4-H and FFA exhibits, hobbies exhibits, wrestling, air show—surely all that is enough to appeal to first one and another all over the county. Detailed description of events will be found elsewhere in this issue. It is undoubtedly going to be one of the most interesting and educational that Castro has produced. Come and learn about your own county and what is produced here—and have a good time!

Cooperation in a community will make progress a simple matter. The cooperation and willing to put aside personal reasons in the National Defense Shop campaign is an indication that Dimmitt can and will find ways of making the people of Castro County realize service can be secured here. We must not throw up our hands just because it happens that one good thing is pushed right after another. In fact that is the only way to make real progress. Work, steady work, day after day, will keep the ball moving. Some say, too much of this. Neighbor, we gotta spend to get, and the best way is to work together. With no full-time Chamber of Commerce man, we needs must cooperate as we did this week.

People of Dimmitt and Castro County are typical American Neighbors. When called upon to "dig down in their jeans" for a worthy cause, some want to gripe a little—but they pay off. Some want to cuss the government or verbally abuse this or that a little, but they recognize the value of training for citizenship and of cooperation regardless of views. The Lions Club Defense Shop Committee heard this and heard that—but, did you know Neighbor, that almost 100 percent of the persons contacted contributed to the worthwhile cause which is a civic betterment for the entire county. Moreover, it is the first Defense program in the County that will bring in revenue. But still more important than that is the fact that young men and boys (older ones, too, if they choose) will be trained to be a more useful citizen at home. Oh, they may not be able to get a master mechanics union card. But it would be worth a lot, as T. A. Singer said, not to have to drive all the way to town and get a mechanic to come out to a farm (paying mileage) to turn an ignition screw a half turn.

In making the rounds we found an undertone of misunderstanding between business and school activities. We say misunderstanding, because we believe there is no real grievance, but lack of understanding. Parents of school children, especially those of rural sections are afraid for their children to go to town at noon, school authorities report, because of danger of car accidents. Any one who reads the dailies will not blame them. Perhaps that fact was overlooked by business when the matter of selling eats at the school is brought up. The school officials say there is little profit, but that it has been

NEW DRUGGIST IN DIMMITT

Dimmitt Drug announces this week that John S. Horner, a registered druggist of over 30 years' experience, who hails from Longview, Texas, has accepted the post as Pharmacist at their store.

A graduate of S. M. A. Georgia Tech, Atlanta, Ga., Horner is now a member of the city council of his home town in East Texas and an Elder of the Presbyterian church there. Horner's father was a pioneer Waco and Temple druggist. Three Horner children have attended Texas Tech at Lubbock, and one son, a junior, will enter there this Fall. One son was graduated there last year.

Horner at one time won a contest and an award for writing advertisements for a small-town drug store, and a series of ads have been begun in this issue of The News, written and planned by him.

Horner is a former officer of the U. S. Army Air Corps and was a squadron commander at Kelly Field during the first World War. He was one of the first officers to fly a Canadian Jenny plane over West Texas back in 1917-1918.

The WOMEN

Relics, Curios, and Hobbies was one of the most popular divisions in the 1940 County Fair. Articles displayed called to mind memories of time, places, and people almost forgotten.

Articles in this division will be shown in closed windows of stores, beginning with Manning's Dry Goods Store and if sufficient articles are entered overflowing into other show windows. No ribbons or premiums will be given. Any articles entered will give pleasure to the ones who gaze.

Cotton Williams is director of this division. He would like to receive articles from 10 a. m. to 3 p. m. Friday, September 19, at the Home Demonstration Agent's office, and would like to keep these articles in the closed show windows until Monday, so that more can enjoy them over Sunday.

He urges everyone to bring something. Your grandmother's shawl or fan, that sugar and cream set you got 30 years ago. (An article 25 years of age is considered a relic.) Your own or your mother's wedding dress will start many "down memory lane." Any article that has been in your family 25 years or more will be an interesting and a worthwhile entry.

With your articles, attach a card giving approximate age, past owners, brief highlights of its history and present owner's name. There is no limit to the number of entries one person may make.

Any hobby collection is welcome. Mr. Williams asks that each collection have a card giving name of collector, brief statement as to scope of collection, and interesting details.

If you collect anything such as pitchers, stamps, coins, old spoons, rocks, miniature dogs, elephants, or "what have you," bring them. Help make Your County Fair, September 20, a SUCCESS.

The 4-H Club Girls of Castro County have many opportunities to win ribbons in the 1941 County Fair. A ribbon won now at the ripe age of 10 to 16 years of age will increase in value to the winner each year.

The 4-H Division of the Fair gives the girls a chance to gain recognition for their work and to see the type of fine work done. This division will be in the Witt Hotel Lobby.

Winning article will be carried to the District Fair at Lubbock in October. Last year these Castro County 4-H Club girls won ribbons and cash awards at Lubbock: Lanelle Phillips, Byrlea Schwallier, Rita Hochstein, Letha Faye Roy, and Zonelle Redwine.

Any 4-H Club girl can enter articles in any or all divisions. Entries will be brought to the local school on Thursday, September 18, and to the Home Demonstration Agent's office by the sponsor before noon Friday, September 18, and to the Home Demonstration Agent's office by the sponsor before noon Friday, September 19, so that the judging can be done immediately after lunch Friday afternoon. Ribbons will be in place on these articles all day Saturday, September 20. The girls may get their articles at 6 p. m. Saturday afternoon at the Witt Hotel.

TALK FAIR! TALK FAIR!

WHO?

The Castro County Fair Committee swung into full action Wednesday night under the direction of General Chairman Ernest Harman. Immediate action will be taken to clean the city of weeds in the section of town near the Fair buildings. City officials will be asked today to cooperate in cleaning the city in preparation of the city for the County Fair.

Rural Schools will be contacted and given information about the Fair. Persons receiving the page placard on the Castro County Fair will be asked to display the card for the next week.

WHAT?

The Dimmitt Lions Club are going to "Talk Fair" by going on a booster trip to this territory, perhaps taking the Dimmitt High Band with them. "The Lions Club will go 100 per cent or be fined." Boss Lion T. A. Singer states.

The Government Aeronautics authorities have approved the Millsap aviators' visit to this little West Texas city, and the boys will be taken care of even to having a fire truck and ambulance handy. Some 8 or 10 planes will be flown from Dallas by way of Wichita Falls to the Castro County Fair, where they will do stunt flying, flower sack bombing, perhaps air races, and other entertaining air maneuvers. Persons wish to take a ride in an airplane may have the opportunity during the day.

WHEN?

SATURDAY, SEPT. 20, 1941.

WHERE?

Other entertainment will be provided — perhaps the Maverick Boys stunt acts, boxing on the west side of the square if highway permission is secured, and music.

Livestock Exhibits will be in the shed north of the Ramey-Harman Implement Co., in the building under the masonic hall, and in the building south of the implement company. Poultry will be shown probably in the building north of John Logsdon Insurance office. Commercial exhibits will likely be in the vacant building on the West Side of the Square south of the Dimmitt Bakery.

IN WOMEN'S DIVISION—Relics, Curios, and Hobbies will be in show windows beginning with Manning's. The 4-H Club Girls' exhibits will be held at the Witt Hotel. Foods Division at the Fair will be held at the Ramey-Harman Implement Co. The Art Division will be exhibited in Shipley's windows. The flower show will be held in the lobby of the Court House. The Agricultural exhibits will be held in vacant buildings on the North Side of the square.

WHY?

Well, Neighbor, you want to have a good time? You want to see your Neighbor? You want to see what is produced in Castro County? You want to see local art, curios, hobbies, and relics? You want to see the first big air show in Castro County? — — — Then, Neighbor, come to the Castro County Fair week from next Saturday, September 20.

Defense Work Shop Assured with Raising Of Over \$625 Cash

Beware of the Migrating Grasshoppers

A "grasshopper caravan" was reported to have passed through Painview for four County Agent M. U. May reported today. "This type of grasshopper can clean a field of wheat in a short time if they stop by." May reports, "A poison mixture is being prepared back of the Woodridge Lumber Co., and there are several days supply on hand. Place your orders as early as possible," the county agent stated.

Cold weather may kill the hoppers before too much damage is done, many believe, but quick action is necessary if the menace shows signs of increasing.

BOOSTER TRIP SCHEDULE

Dimmitt Lions Club will carry the Dimmitt High Band on a booster trip to help "make ballayoo" for the Castro County Fair Saturday week, Sept. 20. The group is to leave Dimmitt at 9:00 next Wednesday. Hereford advertising will be taken care of before the football game there Friday night.

Schedule follows:

BABY GIRL FOR MAYS

Marilyn Lois arrived in the home of County Agent and Mrs. Monroe May Sunday morning in the wee hours. She was born in the Cogswell-Miller Hospital, and mother and daughter are now at home doing fine.

P-TA TO HAVE LAWN PARTY

All citizens of this community, whether they are members of the P-TA or not, are invited to attend the informal get acquainted party being sponsored by the local P-TA for the teachers and the citizens at the high school Tuesday, September 16, at 7:30 p. m.

The lawn on the west side of the high school building will be lighted for this "fun fest" and every effort is being made to provide an evening of hilarity and fellowship. For an opportunity to meet the new teachers, to renew your acquaintances with old teachers, and to have a swell time, you should not miss this party.

A prize of one dollar will be awarded the class having the greatest percent of parents present, fathers counting three points and mothers one point.

Cooperation of County and City Citizens Put the Project Over

A total approaching the \$700 mark was raised by public subscription from the business and professional men of Dimmitt and Castro County this week for the National Defense Work Shop. The money will buy the required building to be placed on school property to meet requirements of the Federal Government, which, in turn will provide sum total of \$1500 or more in equipment, hire instructor and furnish material for the work shop.

Boys ages 17 to 25 years who are not enrolled in school may sign up for defense training in mechanics, electrical work, carpenter work and perhaps other types of skilled trades as the government seeks to train its citizenship for emergency defense. There is no definite time set for the duration of the defense work shop under government control, but it is presumed that it will continue as long as World War No. 2 is in progress. However, it is very likely the same type of work will be continued by the schools of the nation when the federal government ceases operation. The property becomes school property upon completion of the National Defense Work Shop program.

Classes will probably be taught in the evening, giving those in the rural sections and those who have employment time to make the classes. Older men may also take the courses after a required number of the specified ages are first registered to meet government regulations. The work shop, when not in use by the Defense instructor and his classes, may be used by high school students under supervision of school officials. This benefit alone is worth much effort on the part of county people to get the program started as soon as possible.

A called session of the Dimmitt School Board Tuesday night put the matter of the building into the hands of a committee, who have begun work immediately to locate proper housing for the work shop.

A committee from the Lions Club composed of Leroy Waters, John Logsdon and editor of The News is still working on the public subscriptions list to round out the fund so that the work shop may be put in A-1 condition if possible. The committee is especially anxious for public-spirited and patriotic farmers of the area who could not be contacted because of field work, come in to see any member of the committee—Leroy Waters at Castro County Grain Co., John Logsdon at Federal Land Bank office, or editor of The News—and give something to the cause, be it large or small. It is the hope of the committee to swell the fund to \$1000 if possible, all to be used on the building, or moving or putting the building in A-1 shape.

The program will provide the first defense spending in Castro County, and might be the beginning of attention to this section for more defense efforts.

CATHOLIC INFORMATION

There's something wrong with the Catholics!

If Catholics worship pictures, statues and saints—if they think medals, holy water and the like, will in themselves prevent accidents, disease, lightning and drowning—if Catholics have no faith in their own and must vote and fight and act just as their priests order—then surely there is something wrong with the Catholics. Yes, something so wrong that they should never be permitted to have a hand in the running of this great country of ours.

If, on the other hand, there is no idolatry or superstition about anything Catholic—if all Catholics have 100 percent free will—if their patriotism is a proved fact—if, in short, Catholics believe that their Faith has in it and behind it reason, common sense, God-given authority and a philosophy, which if generally adopted, would solve all present-day problems—if Catholics have such a story to tell in their non-Catholic neighbors and refuse to tell it—then again we say there is something wrong with the Catholics—woefully wrong.

To enable fair-minded people of other creeds to know Catholic facts from Catholic sources, this society from now on will publish from time to time in this paper informative stories of the things which Catholics believe, do and live day after day, believing that our messages will receive courteous attention and credence because we have no religion to attack, no axe to grind, no purpose in mind other than to engender understanding and goodwill which are so necessary if America is to stand united against the evils that surround us.

We hope you will feel free to write us your opinion of our labor of love and to ask frank questions about anything Catholic which you may have in mind. Such questions will be courteously answered without obligating you in any way. Address correspondence to: HOLY FAMILY CHURCH, NAZARETH, TEXAS

Spindle Top STARTED IT!
Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas. That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state. In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves. Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries. From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan. The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state. Today all of Texas salutes Spindletop! On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop. Inscribed in ages Texas granite will be the story of oil. This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

CASTRO COUNTY FAIR
September 20th DIMMITT TEXAS
The 1941 CASTRO COUNTY FAIR will be the best put on in years. Two new features will be the Poultry Show and the Air Show. Poultry is the coming year-around income for farmers of this section, and nothing is on the mind of Americans more now than air maneuvers. But other divisions of the Fair are scheduled to be bigger and better. Some 40 head of livestock, and sheep will be shown. Agricultural exhibits will be numerous. In the Women's Division, there will be exhibits on relics, curios, and hobbies, foods exhibits, 4-H club exhibits, art display, and flower show. And the Maverick boys will put on a tumbling act... and there will be boxing. Come to your county seat and see what is produced, and have a good time!
Flower Show
All County women are invited to take part in the Flower Show. Dimmitt Garden Club will sponsor the show. It will be held at the Witt Hotel.
Poultry Show
See the Poultry Show in the building north of Hotel next to Logsdon Insurance Office. Cecil DeHart is Superintendent of the show. Bring 3 pullets and one cockerel.
Educational Exhibits
There will be many educational booths at the Castro County Fair Saturday week, September 20th. Among them will be the Home Demonstrational Women exhibits, the 4-H Club girls' exhibits, the 4-H boys exhibits, the Future Farmers of America exhibits, and others.
LIVESTOCK---
Bill Hochstien will be general superintendent. Milking Shorthorn and Hereford show in shed north Ramey-Harman-Sheep south of the store. Jerseys show under the Masonic Hall.
Bill Dixon will oversee the Milking Shorthorn Division.
Vernon Simmons will look after the Jersey Division.
Girls' 4-H Achievements will be shown in the Witt Hotel. Mrs. William Hochstein is to be director.
Home Demonstration Club
J. H. Wagley will be superintendent of the Hereford section.
Bill Webb will be in charge of Commercial Exhibits. The vacant building on the West Side of the Square will house Commercial Exhibits.
Relics, curios and hobbies are to be shown in windows beginning with Manning's. Cotton Williams is director.
Foods Division will be at the Ramey-Harman Implement. Mrs. Barber Eubanks will be in charge of the Foods.
Art Division will be exhibited in Shipley's windows. In charge of Arts will be Natali Reynolds.
