Responsibilities, Unasked and Unwanted, Are Ours

As nearly as can be told at this moment, this looks like straight 20-minute quarters and a probable result of the European war, no matter what its

World financial power will pass-nay, is already passing-from London to New York. A financial world which has been accustomed to look to Threadneedle Street is going to look to Wall Street and to Pennsylvania Avenue.

This tendency has been marked before the war broke. There no longer seems any doubt of the result. Whether we like it or not, whether we want it or not, the United States is rapidly becoming the financial center of the world.

The relationship between the British pound and the Am- players of ability, who can be used erican dollar is a weathervane that shows how this wind blows. Britain did not even try to maintain the pound sterling, but dumped it without support even before fighting started. It dropped immediately from \$4.68 to as low as pared, it is believed that the Bu'l \$3.73. During the four years of the World War it never dogs have a slight edge over the

The whole financial relationship is different today from that of 1914. Then a sudden and expected war knocked the props out from under the American stock market. In 1939, a long-expected and well-discounted war saw an immediate advance in U. S. stocks. In 1914, the United States and which is likely to result in held about \$1,900,000,000 in gold, perhaps 20 per cent of scores the world's supply. Today it holds more than \$16,700,-000,000 in gold, above 60 per cent of the world's supply.

The trade of South America is literally being dumped into our lap. Already orders have begun to come here from Brazilian and Argentinean, Colombian and Venezulean firms supplied from Germany and Britain whose sources of supply have been cut off by the war.

This is not a question of the United States launching a campaign of financial imperialism or dollar domination. It is a fact, and it is happening today whether we like it or not, whether we want it or not.

When the war is over, the United States is going to be in a position which will dominae the financial and economic rebuilding of a shattered world. The position will be such that it will have to exercise this leadership, not from any wish to dominate, but simply to protect its own interests. It will be the world's great creditor country, the world's great source of material and facilities for rebuild-

We may well begin now to survey this prospect and figure out what we are going to do about it. Perhaps a beginning may be made now by linking the 21 American republics into a more interdependent economic system, with | the money of all countries stabilized in relation to the dollar. Then there will be a nucleus of solidity about which a shattered world may rally after the war.

The Chicago Chess and Checker club has invited visiting legionnaires to use its facilities during their convention. Nothing like a nice evening of quiet fun, boys.

St. Louis Zoo officials are still searching for their lost pelican. Wonder if they looked in its mate's bill?

BRUCE CATTON IN WASHINGTON

That may be true today, but it the floor of the Senate, and some at public mass meetings.

embargo. A few days ago they were anything but optimistic; now they profess to sense a definite going. There will not be a fill-turning in the tide.

After the bill reaches the Senate goon, the debate will really get going. There will not be a fill-buster, but there will be a lot of

congressional and senatorial offices from the folks back home. One Senate postoffice attache says that it is even heavier than the od which come in during the preme Court fight. It is strong-pro-embargo, and all but animously anti-war.

Safety Education Within Department Paying Dividends

AUSTIN, Tex. Safety educa n with the State Highway Department is paying big dividends, figures just released by the insurance division of the department

Since the inauguration of work men's compensation and the acompanying factor of safety training, the accident frequency rate (the number of disabling ineast one day lost time per milion man hours worked) has drop ped from 35.53 in 1938 to 21.62 in the first six months of 1939. The actual percentage of reduction was 39.15.

For the same periods the accident severity rates—the number of days lost per thousand man hours worked were 4.31 for 1938 and 2.24 for 1939, making a

total reduction of 48.03 per cent. During 1938 employees of the department worked 15,195,841 man hours or about twice the 7,676,492 worked in the first six months of 1939, yet the lost time injuries for last year totaled almost five times as many as for the first six months of this year There were 540 lost time injuries with a loss of 65,438 last year and only 166 lost time injuries with 17,218 days lost this year. Figuring the average wage of all employees at 40 cents ar hour, this indicates a saving approximately \$50,000 for the first hulf of this year over half of last year. Hence, safety education, results thas year, will net the highway department tal saving of \$100,000 in These cold statistics leave

system. New Sealed-Beam head lamps are used on all types, pro viding greatly increased driving

On the 85 horsepower cars, at mproved spring suspension with longer, more flexible front spring, and a torsion bar ride stabilizer provide an exceptionally comfortable steady ride. The ride stabilizer also contributes to firm er, easier steering. Front and rear springs of deluxe cars are equip ped with metal covers. Large double-acting hydraulic shock al sorbers with self-sealing construction are fitted on all cars.

Comfort features are emphasiz ed throughout the design. Seats are built for restful riding. Front seat backs are of new resilien type. Cushions have a new "float ing" edge. Driver's seats are ad ustable two ways they rise as they are moved forward. Bodies scientifically soundproofe shutting out road noises. "easy-shift" transmission, permit-ting speeds to be changed quietly new design curved disc wheels an improved drums for the highly ef ective, quick-stopping hydrauli rakes also contribute to quietnes The interiors of the cars appear

and sand duotone distinguishes the interiors of the Ford V-8. In deluxe cars, window and door frame are finished in dark mahogany hardware in rich maroon, knob and escutcheon plates in sand with striped mohair or broadcloth upholstery also in sand. In the Ford V-8, door and window mold ings are in bleached walnut finish andles are chrome-plated, with knows and escutcheons in sane colored plastic. Upholstery is in

Instrument panels harmonize with the interior styling. Gages are grouped in front of the distinctive teering wheel. A grille for installation of radio speaker, glove com-partment with lock, two ash trays

and a cigar lighter are provided on Other equipment supplied with-

out extra cost on both the Ford 7-8 and the deluxe Ford V-8 in cludes: Front and rear bumpers and four bumper guards; sparwheel, tire and tube; twin electric air horns; dual windshield wipers instrument panel, and dimming

ontrol for instrument panel lights. .Ford V-8 cars also have a sun sedans. A foot rest is supplied in of excellent physical conditi

on deluxe cars without extra cost quirements for enlistment include wheel bands, metal spring the information of young covers, two swivel-type sun visors, this locality, Preliminary 1, 1938, records of the department cars is a finger-tip gearshift two tail lamps, ash trays in in-

Who Was Your First Friend?

Wasn't be the kindly doctor, who ushered you into the world? Then came others . . . parents who taught you love, ethics and honesty . . . youngsters who showed you how to play with teamwork and sportsmanship . . . and teachers who guided you to work with a purpose. As you journey through life, you learn to appreciate the value of friends. Today, when you count your assets, experience tells you that the most priceless of all are your friendships. * *

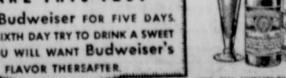

Do you know of any better place to sow the seeds of friendship than in the atmosphere of your home? Do you know of any finer symbol of hospitality than Budweiser? Making friends is what made Budweiser the Perfect Host.
