## 10th Army Cracks Last Line On Okinawa

### PEARSON BILL TO BOOST OIL DEVELOPMENT

AUSTIN, Texas, June 12 — A new law piloted through the Legislature by Rep. L. R. Pearson, attorney and oil producer of Ranger, Texas, is designed to enable land owners to make valid mineral leases on their land where portions of the mineral rights are owned by non-resident and unknown owners who cannot be located.

The new act provides the district court may, under certain conditions, appoint a receiver for non-resident and unknown mineral owners for the sole purpose of executing an oil and gas lease for the mineral owners who cannot be located.

Unlike the ordinary receivership case, the receiver appointed under the new act is subject to be discharged by the court immediately upon execution of the lease. Any moneys accruing due to production from the lease are not handled by the receiver, but are paid in the registry of the court or impounded in the pipe line company for the use and benefit of the unknown and non-resident mineral owners.

Oil development, it is claimed, is being retarded in many of the older oil producing sections of Texas due to the diversity of mineral ownership and the inability to locate the owners of small fractional royalty interests. The new law, already signed by the Governor, is designed to relieve against this condition.

### Final Plans For Infantry Show Being Completed

CAMP WOLTERS, Texas — Final plans are being made for the Infantry Day display which will be shown to the public at this Infantry Replacement Training Center next Friday, from 4 to 6 p. m.

A display of captured enemy weapons and clothing will be featured, and visitors will be permitted to talk over the "Hardy Talky" radio sets, about which so many post-war plans are being made.

Following the display, a retreat ceremony will be held at which time the Congressional Medal of Honor will be presented to Mr. Roy Knight, who resides at Millsap. The medal was awarded posthumously to his son, Lt. Jack L. Knight, for action on the Burma Road last February.

Next to the United States, Canada is the largest operator of domestic air services in the world. Canada also boasts the only regular non-stop passenger and mail service between this continent and the United Kingdom.

### Brothers In Service

Left above is Truman Harper, RM 2-c with the United States Coast Guard and right is his brother, Joe Bailey Harper, BM 3-c with the United States Navy, both sons of Mrs. Dessie Harper.

Truman is now on leave and here for a visit with his mother and Joe Bailey is with the Pacific fleet. The former entered the service in September 1942, and the latter has been in service since December 1943.

Both boys are graduates of Ranger high school and Truman was employed by the Ranger store of the J. C. Penney Company and Joe Bailey in defense work at Ogden, Utah, just prior to going into service.

### S-Sgt. Ratliff Expected Home By July First

Mr. and Mrs. A. J. Ratliff received word this morning that their son, Staff Sgt. James Ratliff, is enroute home from service in the Pacific and expects to be in Ranger by the first of July.

A SUREST summer on a B-24 Bomber, Sgt. Ratliff stated that he has completed the required number of missions over enemy territory to entitle him to a leave though he did not state the number of missions completed. His message also stated that he expects to be stationed at Laredo, Texas for further training at the expiration of his leave.

Sgt. Ratliff has been in the Pacific theatre of operations since September 1, 1944. He entered the service of the Air Corps on October 5, 1942 and received training at Camp Wolters, A & M College, Sheppard Field and Randolph Field before being sent overseas.

A native of Ranger he is a graduate of Ranger high school and attended John Tarleton College at Stephenville where he was chosen freshman favorite in his first year there.

### Funeral For Mrs. J. P. Oylor Held Wednesday At 3

Funeral services for Mrs. J. P. Oylor were conducted at the Watson Brothers Funeral Chapel in Strawn Wednesday afternoon at 3 o'clock with Rev. Chester Wilkerson and Rev. W. H. Rucker in charge. Arrangements were by Morris Funeral Home of Ranger and interment was in the Strawn cemetery.

Mrs. Oylor who died at a Strawn hospital June 11 was born in Thurber February 3, 1890 and had resided in Thurber and Strawn all of her life.

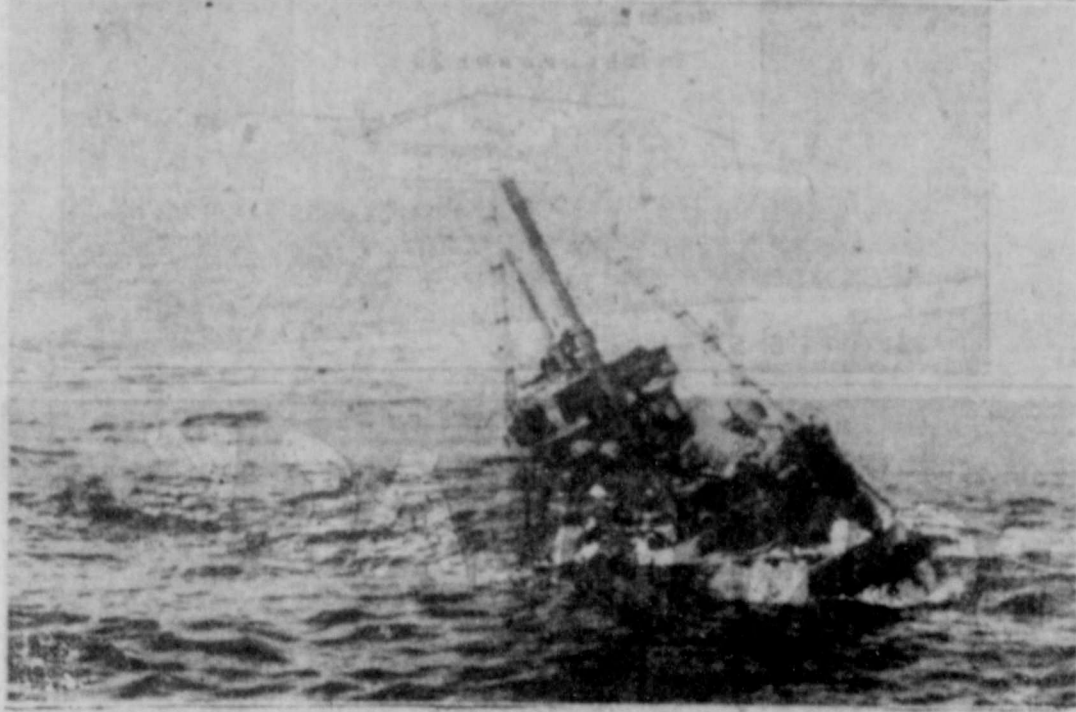

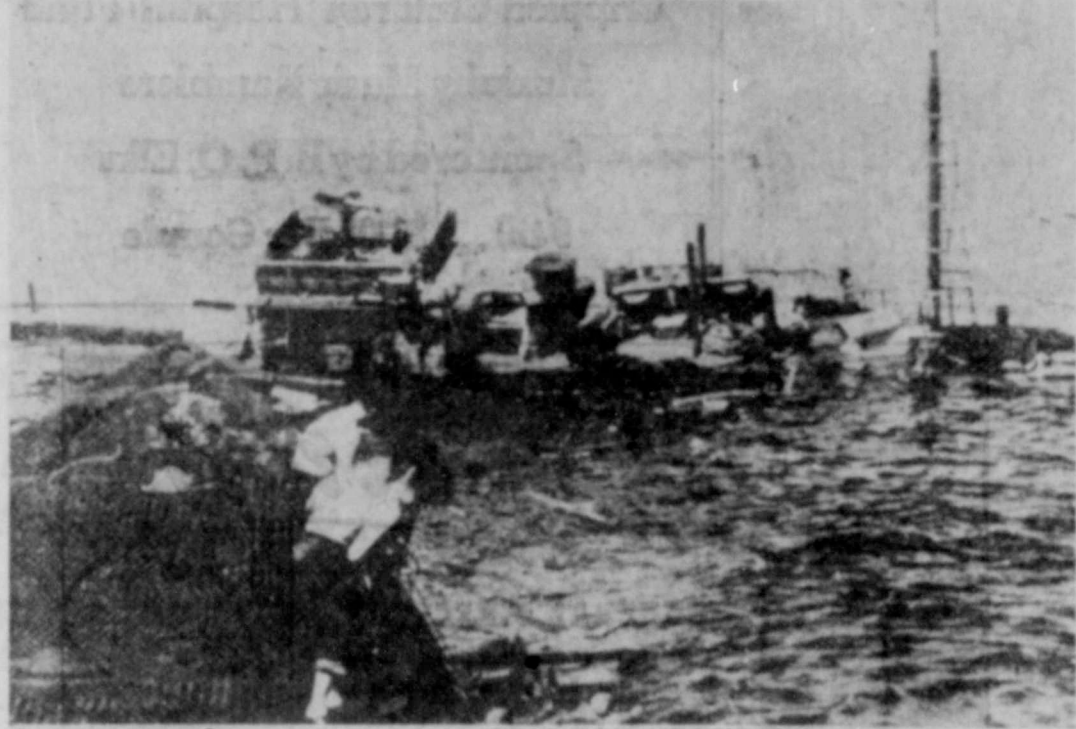

She is survived by her husband, J. P. Oylor, one daughter, Mrs. Mary Anny of Glenrose; three brothers, Clarence Ledbetter of Strawn, Arthur Ledbetter and Oscar Ledbetter; one sister, Mrs. Ethel Willette and a sister-in-law, Mrs. M. A. Oylor of Ranger.

### Morton Valley Vacation Bible School, June 18

Rev. Cecil McBeth, pastor of the Baptist church at Morton Valley, announces a vacation Bible school for his church beginning Monday, June 18, and continuing for two weeks. Classes begin daily at 8:00 a. m. and continue until 11 a. m. The general public is cordially invited.

Saturday at 10:00 a. m. there will be a parade.

### U. S. Navy Subs Sink Japs

Credited with sinking over four and one half million tons of Jap shipping since the war began Navy submarines until recently have been kept under a blanket of strict censorship. This picture (top) portrays a typical incident in submarine warfare. Survivors from a Jap ship sunk by gunfire of the surfaced U. S. S. Lamor, Navy submarine, are thrown lines and hauled aboard by crew members of the sub. Off the bow of the sub, the doomed enemy ship slides under the surface of the water. Bottom photo pictures the Jap ship slowly sinking while survivors cling to ship's rigging. (NEA Telephoto from U. S. Navy Photos).

### SERVICE BARS GO TO RATION BOARD MEN

Service bars are being awarded members of rationing boards who have served two or more years on various rationing panels and first in Ranger to receive the bar is B. E. Garner, who soon will have served three years on the Eastland county gasoline panel.

The bars are designed much the same as combat ribbons for service men and bear the OPA initials with two gold Vs. Garner in speaking of the bar stated that it was almost as good as a Purple Heart awarded soldiers wounded in combat, for whereas a soldier has to be shot only once to be wounded, he's been shot at every day since taking over his duties as to gasoline rationing.

In speaking of the better than two years service on the panel Garner said, "Yes, I got this bar because I'm one of the few men alive after two years on the gasoline panel."

Garner, in a more serious vein, stated that an inspector for the OPA recently reported that the Eastland county office is one of the most effectively and efficiently operated offices in the district.

Cattle can contract pulmonary tuberculosis from humans who have the bovine type of the disease. The Federal Bureau of Animal Industry cites a case where four herds of cattle were infected by one person.

### Bond Show To Be Given At Arcadia Thursday at 3 P. M.

B. E. Garner, manager of the Arcadia Theatre announced today that there will be a bond show at the Arcadia Theatre Thursday afternoon beginning at 3:00 o'clock and admission will be by purchase of war bonds only.

The show is being given as a part of the theatre's program for participation in the 7th War Loan drive and is an effort to encourage purchase of the Series E bonds in which Ranger is lagging in the current drive.

Those who have already bought bonds and those who purchase them at the box office Thursday afternoon will be given tickets to see the show at which "It's A Pleasure," a technical film, starring Susie Hinkle and Michael O'Shea will be shown.

### Steel Casting Plant To Open At Mineral Wells

DENISON, June 11 — The Jaquet Power Saw Company Monday announced it would open a steel casting plant June 20 at Mineral Wells. The plant will make castings for the firm here and will have a monthly capacity of 200 tons. At least 60 men will be employed at the Mineral Wells plant.

The firm here has contracts amounting to \$2,000,000 for the Army engineers. Only last week, the plant added an 11-acre tract where it will establish a steel yard.

### LAWMAKERS TO BE HONORED AT BANQUET

Invitations are being extended to the men of Eastland county and the 24th senatorial district to an appreciation banquet which will be held Friday night on the roof of the Connellie hotel in Eastland at 8:30 o'clock.

The affair will honor Representative R. N. Grisham of the 109th legislative district, Representative L. R. Pearson of the 107th Floratorial district, Senator Pat Blalock of the 24th senatorial district and Judge J. E. Hickman of the commission of appeals at Austin and former chief justice of the 11th Court of Civil Appeals.

Tickets will be available for those who wish to attend and all men in the county and district are invited to attend.

### Masonic Lodge Names Elective Officers for Year

Frank M. Hicklin was elected worshipful master of the Ranger Masonic Lodge Number 738 AF and AM at a recent meeting of the lodge and Wm. H. Weeks was elected senior warden.

Others elected to office were Charles A. Hummell, junior warden; C. E. May, treasurer; J. P. Donley, secretary and John Usery, Tyler. Appointive officers have not yet been filled but appointments to these offices will be announced soon.

### Unknown Maude Won Fame As Campus Queen

COLUMBUS, O. (UP) — Each year at Ohio State University, as at most colleges throughout the country, the students select a series of campus queens.

There have been a few oddities in the elections during the past years.

In 1926, for example, Maudine Ormsby, unknown and unpopular, came to the campus from a small Midwest farm.

She had one friend, however, who came to her rescue. This friend helped her gain popularity, poise and dignity. At last Maude became a candidate for Homecoming Queen.

The day of elections arrived and her name appeared on the ballots with the rest of the debutantes. She won. Everyone was asking, "Do you know Maude Ormsby?" "No, she isn't in any of my classes."

Homecoming Day arrived with Maude waiting to be crowned queen. The stage was set. The crowd was hilarious. The master of ceremonies wondered why the queen was taking so long to dress. Did she choke on her necklace—were her heels too high—had her hair crumpled?

At last the bell rang. The crowd rose from their seats. Necks were strained.

Out on the floor came Maudine. She was a Jersey Cow.

Her guardians at the College of Agriculture refused to grant her permission to attend the Homecoming Ball, sending as a stand-in, a less valuable heifer.

### Liaison Pilots Cannot Forgo Shots At Japs

A LIAISON PLANE STRIP NEAR RANGOON (UP) Tiny L-5 planes are designed for non-combat work, but occasionally a pilot takes matters into his own hands.

During the battle for Pegu, S-Sgt. Claude Lacy of 1757 Hicks St. Augusta, Ga., was flying Lt. Allen O. Pfander of Clark, Ind., over the besieged town. At 2,700 feet, Sgt. Lacy spotted a party of about 100 Japanese leaving the village. Lt. Pfander poked his carbine out the window and Sgt. Lacy made three passes at the Japanese, diving to a height of 70 feet, while his "gunner" strafed the target.

The Japanese were so startled they didn't even return the fire, but hastily retreated back into the village.

On another occasion, several pilots were fired upon by a Japanese machine gunner while returning from sorties. A "bombing mission" was set up. The "bombs" were gasoline-filled whisky bottles attached to hand grenades. The mission was successful.

The L-5 group here, which is commanded by Capt. Julius Goodman of Spencer, Mass., is a liaison squadron of the First Air Commando.

### Shipbuilders At New Orleans Are Back At Work

NEW ORLEANS (UP) — Striking shipbuilders returned to work at Higgin's industries today in response to a plea by Army and Navy representatives to "stop delaying war production."

Some 2000 members of the AFL trade affiliate that called the men from their jobs June 3 voted to return to work by an "overwhelming majority" union officials said.

To insure a better U. S. bomb-sight, refrigeration engineers of the York Corp., recently provided specially air-conditioned living quarters for a race of pampered spiders in a Newark, N. J., was plan. Reason: Spider's webs make the best cover bars for bombights and to keep the insects spinning contentedly the year round, they must have controlled climate.

The average elevation in West Virginia is 600 feet more than that of any other state east of the Mississippi river.

### JAPANESE SUICIDE SOLDIERS STORMED FROM THREE SIDES AS AUSSIES ADVANCE IN BORNEO

PEARL HARBOR (UP) — The end was in sight on Okinawa today after the 10th Army cracked the last enemy line.

Marines and doughboys stormed the Japanese suicide soldiers with flame-throwers and tommy guns. Gains were made up to 1,000 yards as the final defenses were blasted open.

In the other battle of the day, the Australians continued their drive toward Brunei, in North Borneo, but the thick jungle and a bad road slowed them, and they already could see a thick column of smoke ahead as the Japanese fired the oil fields.

In the Philippines, the advance on northern Luzon was resumed but at a slower pace, as the Japanese reformed their line across the Cagayan valley north of Davao. The air forces gave the attacking 27th Division close and effective support, plastering enemy positions with 322 tons of bombs.

B-24 Liberators joined in the attacks on Japan's home land for the first time, as they teamed with Navy Privateers for raids on the island of Kusa, 100 miles south of Tokyo, and on ships in surrounding waters. Six cargo vessels were sunk or damaged in the raids off Kusa and off the southwest coast of Honshu.

The Japanese took a look at the general picture and said they'd have to fight harder. Premier Suzuki promised a "drastic intensification" of the war effort after the Diet gave the government dictatorial powers.

The Nippon Times, quoted by radio Tokyo, said there could be "no thought of such a thing as unconditional surrender" — indicating again they certainly wished there was some alternative way of making peace.

### Time And Place Set For Big Three Meeting

WASHINGTON (UP) — President Truman said today that the time and place have been set for a big three meeting dedicated to securing a "just and durable peace."

The President reported that plans for the meeting were worked out by Harry L. Hopkins and Joseph E. Davies during their recent trips to Moscow and London.

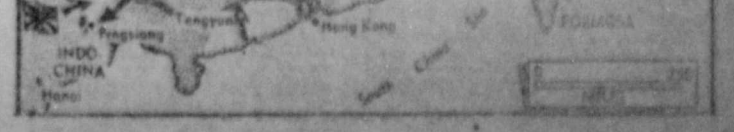

He also disclosed that as a result of Hopkin's talks with Stalin the long big three deadlock over Poland at last was on the way to complete solution.

### Transit Strikers Ignore Order To Return To Work

SHEVEPORT (UP) — Members of the striking Tri-State Transit Company bus drivers and maintenance men today refused to obey a back-to-work order issued by the Eight Regional WLB despite pleas from the president of the Shreveport local.

Action of the strikers left transportation in a nine-state area served by Tri-State and its affiliated lines at Alexandria, La., and Jackson, Miss., partially paralyzed with more than 600 workers off the job.

### Today's War Map

Chinese forces in the northwest and west are near the environs of Kwoilin, former U. S. air base, and other forces are smashing Luochow, previously reported captured, after taking Ishan. Japs are counter attacking from Caobang area of Indo-China against the Chinese drive nearing Pinghsiang. The squeeze on the Hong-Kong and Canton sector tightens with the capture of Tengyun. (NEA Telemap).

### Steel Industry Ready For Post War Manufacture

DALLAS, Texas, June 13 — Steels representing at least ten years of technological advancement, encompassed under the pressure of four war years, will be ready to flow from the furnaces and finishing stands of United States Steel Corporation subsidiaries as soon as the go-ahead signal is given for civilian goods production, according to Corporation officials.

names, these steels have been vastly improved in quality and performance. Until victory over Japan, the amount of steel available for civilian use will be dependent upon military requirements. "As long as the task may require," Irving S. Olds, chairman of the board of directors, says, "U. S. Steel's resources are pledged to make their maximum contribution toward the defeat of the enemies of the United States." As soon as the signal is given—at that very moment, in fact, since the steel industry has no extensive reconversion problem—this improved steel quality will become evident in thousands of new and older applications in the

### CBS Manager

Frank Stanton, above, vice president of Columbia Broadcasting system, is the new general manager of the company and has been elected to the board of directors. A native of Muskegon, Mich., he joined CBS in 1935.

### English Boys Too Cold Says GI's English Bride

AMARILLO, Tex. (UP) Here's a warning to English boys from an English girl who married an American soldier. "If the boys in England don't change their technique after the war, they'll find themselves without girls. They're too cold and formal." She's the former Bridget Nunan of London, now Mrs. James W. Haywood of Amarillo. She says Haywood kissed her on their first date and "I couldn't imagine

why I let him do it, but I kind of liked it." She likes America, too—particularly all the white bread and ice cream.

Pedestrian deaths continue to head the list of motor vehicle fatalities throughout the country, according to the Chicago Motor Club.

heavy industries, in better manufacturing tools, more durable consumer goods from the automobile to the tin can, in wider use for residential and other building construction, down to the last screw-driver, garden spade and lawnmower. The trend from a bewildering number of grades of alloy steels was speeded by the critical shortage of strategic materials. The so-called National Emergency steels were designed to make the most effective use of available alloying agents.

### Strikers Defy WLB's Order To Return To Work

HOUSTON (UP) — AFL pickets and striking truck drivers ignored desist orders from the WLB today and continued their picketing of a Houston shippard and a work stoppage at an oxygen supply firm. The truck drivers had been on strike since last Friday in protest against sale of Magnolia Oxygen to the Brown Shipbuilding Co.

# CARBON BLACK

## ... the Miracle of the Modern Age!

Carbon black—"dusky queen" of the synthetic industry, is performing miracles in this modern age. Termed public necessity No. 1, carbon black is a vital ingredient for synthetic rubber used in urgently needed tires for battlefronts.

It is a basic requirement for over 100 other rubber items, including gas masks, life rafts, surgeon's gloves, and bullet sealing fuel tanks. Not only does carbon black fill the needs of a rubber-hungry world, but it is an essential ingredient in paint, printer's ink, lacquer, and the hundreds of new plastic articles.

Fifty of the 57 carbon black plants of the nation are located in Texas, Oklahoma and Louisiana . . . it is a "must" item whose transportation must be expedited to meet military and civilian needs.

From carbon black plants to manufacturer, the Texas and Pacific serves the industry. . . . We salute this great industry. . . . We are proud to serve them.

## SOCIETY

### CLUBS HONORED AT TEA GIVEN TUESDAY

Complimenting members of the 1920 Club and the Child Welfare Club, Mrs. A. W. Branda and Mrs. G. C. Boswell entertained with a tea at the home of the latter Tuesday afternoon from 3 to 6 o'clock.

Guests were received by the two hostesses and ushered into the reception room which was attractively decorated with arrangements of daisies, roses and sweet-peas.

The tea table was covered with a Mackina cloth and centered with a silver bowl filled with pink and white carnations and fern and placed on a reflector. White candles in three branch silver candelabra-lighted the table. Alternating gin presiding at the silver tea and coffee service were Misses Genevieve Boswell, Elaine Branda and Melba Creager. Mrs. Joe Priddy presided at the buffet which was capered with an arrangement of pink gladioluses.

During the afternoon soft piano music was furnished by Misses Branda, Creager and Boswell.

About sixty guests called during the tea hours.

### PERSONALS

Mr. and Mrs. A. W. Warford have as their guests, Mrs. Warford's brother, Bud Fuller, and Mrs. Fuller and their son, Michael, of Camp Gruber, Okla.

Mrs. T. R. Craig has as her visitors this week S-Sgt. Lee Roy Jacoby and Mrs. Jacoby of Belleville, W., where S-Sgt. Jacoby is stationed at Scots Field.

### Optometrist To Be In Ranger On Friday, June 15

Dr. P. K. Palmer, of the Palmer Optical Company, 203 Main Street, Fort Worth, graduate registered optometrist, will be at the Gholson Hotel in Ranger Friday, June 15th to fit glasses, adjust glasses or duplicate broken lenses.

Dr. Palmer's professional visit here is occasioned by the shortage of gasoline which is keeping Palmer customers from driving in to the home office at 203 Main Street, Fort Worth. Dr. Palmer intends to return here at intervals as conditions permit.

People knowing their eyesight problems to Dr. Palmer are assured of the same type optometric service that they would get at the Fort Worth office.

The Palmer Optical Company is equipped to offer the very finest type of visual service. Palmer's customers have the advantage of the newest most efficient optometric equipment, and of a complete optometric laboratory in which their glasses are produced.

If you have any eyesight problems, Dr. Palmer invites you to visit him at the Gholson Hotel, Friday, June 15th.
