Burleson Announces A Revision On Farm Vehicle Operators

WASHINGTON — Congressman Omar Burleson today announced that the Department of Transportation has indicated its intention to revise its commercial vehicle driver qualification regulations insofar as they apply to drivers of certain vehicles controlled and operated by farmers. This action followed consultations and study within the Department, with the Department of Agriculture, with farm group representatives and other interested parties.

Congressman Burleson stated that the Department's Federal Highway Administration found that the seasonal and intermittent nature of interstate farm operations; the general short range of the majority of farm trips; and the lower incidence of exposure of farm vehicles to highway collision risks support revision of the regulations.

"As one who has protested vehemently the restrictions on farm vehicles, and who has introduced legislation to correct

this inequity," Burleson said, "this action is a step in the right direction."

He stated that the Department's revision will cover a proposed exemption from the new driver qualification rules for all drivers of farm vehicles under 10,000 pounds gross vehicle weight, a lowering of the minimum age to 18 for drivers for farmer-controlled and operated vehicles, and selected exemptions from some other requirements.

The agency also will consider a 150-mile radius exemption for single vehicles (nonarticulated) and limited exemptions for the larger and heavier multiple-unit (articulated) types of farm vehicles. There is also a general exemption proposed for drivers of vehicles used in custom combine harvesting operations.

"Frankly," Burleson said, "I do not think the Federal Government has any business regulating farm vehicles at all. State provisions should be sufficient and I continue to feel there should be a complete exemption for farm vehicles."

IMMUNIZATION REQUIRED CLYDE SCHOOL ANNOUNCES

CLYDE — School officials in Texas have received from the State Department of Health the regulations regarding compulsory immunization for Texas school students. Senate Bill 27 and Senate Bill 971 provided that the State Board of Health would issue policies for implementation of the law.

The law provides that all students entering Texas elementary or secondary schools or institutions of higher education must have been immunized against six diseases. The diseases covered in this law are diphtheria, tetanus, poliomyel-

itis, measles, rubella and smallpox. The only exceptions to this law will be on an individualized basis for medical contraindications and religious conflicts.

Evidence of immunization must be presented as follows:

Polio - 3 doses required with last dose since age 4.

Diphtheria-Tetanus (DPT) - 3 doses required with last dose since age 4 or within 10 years.

Measles - 1 dose or history of illness through age 12. No vaccination required for students age 13 and above.

Rubella - 1 dose through age 12. No vaccination required for age 13 or above.

Smallpox - 1 dose required if within 10 years.

All immunizations should be completed by the time school is entered; however, if this is not possible, students will be allowed to enter their respective school system with the provision that immunizations all be completed as soon as medically feasible.

Since many types of personal immunization records are in current use, any document listing each immunization received and date received will be acceptable during the 1971-72 school year. Signature or rubber stamp validations or personal records by physicians or public health clinics will be accepted.

Further information will be published as it is received by the school district. Forms for reducing the time required for registration and verification are being developed.

After the investigation, the show-cause order stated, the commission determined that Elliott did construct the dam and reservoir without a permit or other authority, and that they are a "public menace and are dangerous to life and property."

CHRISTIANITY ABUSED

(Continued)

How a Christian should live, how he should worship God, how he should be governed in the church, how he should spread the word of the gospel, are all questions of importance to practice of true Christianity as we have it revealed to us in the Bible. But, there are of no significance until we first determine how one may become a Christian. This is the leading, all important question which must be resolved before we can think about resolving any others.

Isn't it astounding that the religious world which calls itself "Christian" cannot even agree on this fundamental and essential question? Dogma and creedalism have so obscured the minds of many thinking people that they do not see the plain pronouncements of the scriptures about what it takes to make one a Christian. The religious world sadly abuses Christianity by calling many "Christians" who have not the remotest qualifications that are necessary and fundamental to becoming a Christian.

What shall we use as a rule for determining just what a Christian is? It is first necessary that we be agreed upon what is to be accepted as the source of authority for answering the question. All preconceived ideas, preferences, traditions, denominational dogmas, and regard to consequences must be laid aside if we are to agree on one source (an only one) of authority. So, in order to learn just what makes a Christian, we must go to the original source of Christianity -- the sacred words of the New Testament. We must be willing to accept them as the only and the final authority for what makes one a Christian (2 Tim. 3:16,17).

Having now established what we shall accept as our authority, we are ready to examine the things that are absolutely essential in order for one to be a Christian.

Duke Atkinson Dies Suddenly

CLYDE — Funeral for Duke Atkinson, 59, who died Friday at Callahan County Hospital, was held at 4 p. m. Tuesday in the First Baptist Church.

Rev. Wendall Shirey of Hamlin officiated, assisted by Rev. Glenn Ward, pastor of Cherry Heights Baptist Church. Burial was in the Woodson Cemetery under the direction of Bailey Funeral Home.

Mr. Atkinson was born May 22, 1912 in Comanche County. He married Clara Morris in Throckmorton in 1933, and had lived in Throckmorton, Abilene and Mineral Wells before moving to Clyde in 1964.

Survivors include his wife; three sons, Charles of Ft. Worth, Bennett of Abilene and Danny with the Army in Germany; two daughters, Mrs. R. W. Harlin of Mineral Wells and Mrs. John Rockmore of Oklahoma; a brother, W. A. of Jean; a sister, Mrs. A. N. Whitaker of Throckmorton; and 18 grandchildren.

Pallbearers were Emmett, Ronny and James Autrey, Kenneth, William and L. B. Atkinson.

WCS Officers Installed At Methodist

BAIRD — WCS officers were installed Sunday at the First United Methodist Church.

They are: President, Mrs. Robert Barnhill; 1st Vice President, Mrs. W. J. Austin; Secretary, Mrs. Helen Brown, and Treasurer, Mrs. H. W. Martin. The following chairmen were named: Christian Social Relations, Mrs. Clyde Waldrop; Program Committee, Mrs. B. L. Russell; Spiritual Life, Mrs. Irvin Corn; Missionary Education, Mrs. W. P. Brightwell and Mrs. A. E. Dyer Sr.

Nan Broadfoot Hosts Helping Hand Club

CLYDE — The Helping Hand Club was hosted by Nan Broadfoot on June 10, with Mrs. W. A. Dixon, president, in charge of the business session. The Club was dismissed until Sept. 9 when they will meet in the home of Mrs. Dixon.

Delicious refreshments were served to Meses. C. E. Yeary, Edna Broadfoot, R. S. Darden, W. A. Dixon, C. F. Huskin Sr., Nan Broadfoot, L. E. Griffin and C. S. Holden.

AUSTIN — Major changes in election laws for voters and candidates were approved by the 62nd Legislature. All are contingent on final federal court action upholding lower court decisions invalidating old requirements.

Gov. Preston Smith has signed into law a new voter registration act and filing fee bill.

Earlier the Texas Legislature enacted a resolution ratifying the federal constitutional amendment extending full voting rights to 18 year olds. Federal amendment may not be finally cleared in time for the 1972 elections, but young voters can participate in presidential and congressional voting and the national nominating convention series.

New voter registration provides or year-round sign-up (with temporary cutoff 30 days before any election) and automatic renewal for three years by voting in any primary or general election. First registration under the new system will begin October 1. March 1, 1972 is the earliest voting date for new registrants. Voters will continue using present registration certificates for elections through next February.

A federal court invalidating old Texas annual registration requirement, which was unique in the nation. Texas' new automatic registration law would be repealed if appellate courts re-instate annual registration.

Under a bill passed by the 62nd Legislature, in response to another federal ruling that present filing fees are excessive, candidates would pay a maximum of four per cent of the term of office salaries to get on the ballot.

Bill also permits "filing by affidavit" stating that the candidate cannot pay the prescribed fee, or by a "petition" signed by 10 per cent of the voters in the last general election within the area (state, county, precinct) served by the office sought. If the Supreme Court invalidates this act, a special legislative session may be necessary to provide a method of paying primary elections costs in 1972.

IMMUNIZATION REQUIRED — Texas students must begin an immunization program by Jan. 1, 1972, under legislation just signed into law, say the Texas Department of Health.

Students will be allowed to enter schools during the summer and fall terms with provision that their immunization against at least one of six diseases will be started by Jan. 1 and completed as soon as medically possible.

Required immunization for grade school level youngsters includes diphtheria, tetanus, poliomyelitis, measles, rubella and smallpox. Measles immunization is not required if there is a history of measles illness.

Exceptions may be granted on religious grounds or to those who may be harmed by immunization (on written certification by a physician). However, exemptions would not be permitted in a time of emergency or epidemic, the Health Department adds.

AUTO RATE HEARINGS SET — Hearings are set for 9 a. m. June 30 here to consider new auto rates to replace the controversial schedule put into effect January 1.

State Board of Insurance is expected to hear usual cross-recommendations to raise and lower rates. Hearing will be conducted in the State Highway Department auditorium on casualty and physical damage rates, rating plans and rules.

All those who wish to have subject matter placed on the agenda were advised by the Board to contact its automobile office here by June 23, and provide written statements in quadruplicate.

Rate revisions will be effective on and after September 1 under present indications.

After hearings last year the Board increased rates on average of 14 per cent, statewide. This raised an angry reaction

from many insurance purchasers. Insurance companies, which urged a 27.7 per cent increase, were equally unhappy.

COURTS SPEAK — Third Court of Civil Appeals has ruled that Ector County Commissioners Court had no authority to spend county funds to purchase a 280-acre tract as the site for the University of Texas of Permian Basin, Odessa. Court decision said the rest of the campus tract, 308 acres, was properly acquired for the new state university as a gift.

State Supreme Court upheld the "spoke" annexation of a narrow strip of territory by the City of San Antonio and noted that the new law banning such annexations does not apply to past city actions.

High Court refused to place on the June 29 charter election ballot in Pharr a committee proposed recall amendment.

On July 7 arguments will be heard by the Supreme Court as to whether a minister can be held in contempt of court for refusing to move his church.

Reversing a district court ruling, the Third Court of Civil Appeals said that an Austin area teacher whose contract was not renewed deserves a full trial on merits.

U. S. Supreme Court vacated a three-judge federal court finding in San Antonio that the Texas safety responsibility act is valid and sent the case back for reconsideration in view of an earlier ruling that a Georgia law provides no proper method of determining fault of drivers in accidents.

AG OPINIONS — Non-resident archery hunters in portions of Sabine and San Augustine counties must qualify for the regular non-resident hunting license, plus a special license for five-day periods, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that:

Griffin and Brand of McAllen are entitled to 435 acres of water right acreage under a section of the Rio Grande Valley water rights case judgment on rehearing.

Southwest Texas (Uvalde) Junior College Board is without authority to issue a district note of \$100,000 payable over 15 years and secured by pledge of district bank stock to finance faculty housing on campus.

HOSPITAL FUNDS AWARDED — Health facilities last week received \$647,135 in additional Hill-Burton funds to complete projects.

Receiving funds for existing projects were: Dallas County Hospital District, \$34,000; Goodall-Witcher Foundation Hospital, Clifton, \$95,000; Campbell Memorial Hospital, Weatherford, \$100,000; Youens Memorial Hospital, Weimer, \$27,151; Teague Hospital Authority, \$10,000; McAllen General Hospital, \$10,000; Southwest Texas Methodist Hospital, San Antonio, \$11,000; M. D. Anderson-Pavilion, Houston, \$130,000; Christian Home for Aged, Houston, \$225,984; and Childrens Rehabilitation Center, Amarillo, \$4,000. Mercy Hospital at Jourdanton was awarded \$50,000 and Texas Medical Center Hospital Laundry Cooperative, Houston, \$40,000 for new construction.

PRESIDENTIAL DINNER PLANNED — All major Democratic candidates for presidential nomination are expected to receive invitations to a \$50 a plate dinner in Austin during mid-January.

Funds raised at the dinner will go to meet 1971-72 State Democratic Executive Committee budget of \$81,000.

A sub-committee was named to check candidates to determine the most convenient day for the dinner.

SHORT SNORTS Governor Smith is still pressing his demand for a presidential drought disaster area proclamation covering Texas.

Highway Department is re-evaluating its plans for a new \$20 million office building near the state capitol and the governor's mansion, in view of a

legislative directive. Burton G. Hackney resigned at Texas Commissioner of Public Welfare, effective June 15. Governor Smith appointed Enrique H. Pena of El Paso as Judge of El Paso County Court of Domestic Relations. State revenue from cigarettes decreased \$492,362 from May, 1970, to last month. Wayne Gibbens of Austin, formerly of Breckenridge, is now executive vice president of the General Mid-Continent Oil and Gas Association.

Cherry Heights Wins Track Meet

CLYDE — The Callahan Co. Associational R. A. track meet was held Saturday on the Clyde School track field.

How to beat the savings squeeze.

It's so hard to save a buck. By the time all the bills are paid, there's nothing left to squeeze out of your paycheck for savings.

But there is a way to build a nest egg without having to worry about it. When you join the Payroll Savings Plan where you work, an amount you designate will be set aside automatically from each paycheck and invested in U.S. Savings Bonds. By saving a little from each paycheck, you don't feel the pinch. And before long, you'll find you've a sizable nest egg stashed away.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 3 1/2% when held to maturity of 5 years, 10 months (4% the

first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970. . . with a comparable improvement for all older Bonds.

Ease your savings squeeze. Join the Payroll Savings Plan.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a smart way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.
