Aggregate Company Plant Now In Operation Here

Storm Wrecked Plant Structure Back In Use

Less than two weeks after a disastrous tornado completely wrecked a steel substation structure at the Leon power plant of the Texas Electric Service Company, five and a half miles southwest of Eastland, a new temporary structure was completed by company workmen, W. B. Pickens, assistant district manager of the company announced Friday. The tornado struck two weeks ago this Saturday night causing extensive damage also to power lines, buildings, and other equipment.

Seldom has a structure of this type been erected in such a short time," Pickens declared, "and it will serve until a permanent steel structure can be designed and built. Soon after the tornado hit, trucks and heavy line equipment were at hand to make emergency repairs. Approximately 40 men from regular construction crews have been working on the temporary substation structure, which is made of creosoted poles.

"Availability of skilled manpower and reserves of wire, switches and other equipment needed to control high voltage current enabled our men to build the new structure in days, instead of weeks usually required. The damage caused by the storm could have resulted in several days interruption to electric service, but quick work by linemen and others prevented any inconvenience to most users of electricity."

Work on the new substation structure was done by the crew of J. W. McAnnally, transmission engineer, and crews from Eastland and Big Spring. Leon power plant electricians also helped with the electric work on the rush job.

Last Rites For Mrs. Hull Held

SEEK NEARLY 53 MILLIONS MORE THAN T RUMAN BUDGET CALLS FOR

WASHINGTON, April 9.—(UP)—With an eye cocked toward Russia, the House appropriations committee today voted a postwar record \$15,909,116,800 to the armed services for the next fiscal year.

The committee voted to give the military \$631,252,100 (M) more than President Truman asked in his budget for the fiscal year beginning July 1. The increase would go to the Air Force to continue its build-up toward a 70-group Air Force.

Concern over Russia's future actions was reflected in the committee vote which was taken after the members heard high U. S. Military officials testify for several weeks.

The military leaders did not believe there would be a war soon. But they pounded home the theme—"We must be prepared."

Gen. Omar N. Bradley, army chief of staff, about summed it up for the military. He did not expect war, but if somebody starts one, we've got to be ready to strike strong retaliatory blows.

The committee approved \$13,272,815,000 (B) in cash for the Army, Navy and Air Force. It also voted \$2,636,301,000 in contract authority to the services, of which the Air Force would get \$1,992,775,000 (B). These contracts will have to be paid off with cash appropriations in future years.

In voting the extra money for the Air Force, the committee disregarded President Truman's request to limit the size of the Air Force to 48 groups. The new money will enable it to build up to 58 groups during the next fiscal year. The goal is 70 groups in five years.

The actual cash voted for defense spending is \$2,800,000,000 (B) more than was contained in the present fiscal budget.

The bill, largest of the year, would appropriate \$4,481,834,000 in cash for the Army; \$4,375,327,000 for the Navy, and \$4,222,954,000 for the Air Force. The Army and Navy grants are slightly below budget estimates. But the cash appropriation for the Air Force would be \$209,067,000 higher.

In asking the money, here's what the three services were concerned about:

Army: General Bradley said:

BIG THREE READY FOR RUSSIAN ATTACK ON GERMAN AGREEMENT

WASHINGTON, April 9 (UP)—The "Big Three" western powers braced themselves today for an anticipated Russian propaganda assault against their agreement on Germany.

Diplomatic informants said a Russian protest was inevitable. They said the Soviets probably will charge that the decision of the "Big Three" foreign ministers to establish a federal public in western Germany violates the Potsdam agreement.

The decision, made without Russian approval, was announced here yesterday by Secretary of State Dean C. Acheson, British Foreign Minister Ernest Bevin and French "Foreign Minister Robert Schuman.

The ministers' "occupation statute," which outlined the federation, plan would cover the three zones of western Germany now controlled by U. S., British and

French occupation authorities.

Both Acheson and Schuman said the door was open to Russia to join in the west German agreement, and presumably to bring their zone into a united republic in all of Germany.

However, diplomats said Russian accession to the agreements reached in Washington was virtually impossible, barring a major change in Soviet foreign policy.

They said that:

1—The west is offering the Germans greater latitude in the matters of civil rights and autonomy than are enjoyed by the peoples of the Soviet Union itself.

2—The Soviet Union would lose face if it accepted an accord that would lead to anything but a communist-controlled Germany—and this the west would not tolerate.

Price Crawley Thanks People, Pledges Effort

Price Crawley who was elected mayor of Ranger in the city election here Tuesday has issued the following statement to the people of Ranger.

TO THE PEOPLE OF RANGER
My Dear Friends:
When I announced as a candidate for the office of Mayor it was with a realization that I had no previous experience as an actual office holder. However, I was firmly convinced that my experience in business and civic work fully qualified me to hold the office I sought.

Naturally, I was very happy when the election results showed that you had enough confidence in me to bestow the honor and trust in electing me one of the official family for the next two years.

It is with a sincere appreciation of this trust that I humbly accept the office and hereby express my deepest thanks and appreciation to all of you. I also want to express my thanks to the fine gentlemen who were my opponents for the dignity and honesty and courtesy of their campaigns. With such men in our midsts we should go forward together.

I promise to devote my best efforts towards making Ranger a better and happier town in which to live and to give a courteous reception to all individuals and groups. I earnestly ask for your understanding and cooperation in the work ahead with the same spirit in which you supported my campaign. Again I say thank you very much.

Workers Meeting To Be Held Here

The workers conference of the Cisco Association will meet with the Second Baptist Church Tuesday, April 12.

The theme for the conference will be "A Church Revival." The meeting will open at 10:00 A. M. with a song service. Scripture reading and prayer will be given by the Rev. Hollis Bond, of Ranger. "The Place of a Church in a Revival" will be discussed by the Rev. Ray Harrell of Albany. The Rev. David C. Ham of Ranger will discuss the subject: "The Place of Gospel Preaching in a Revival." The Rev. William H. Bell of Moran will also deliver an address during the morning.

The afternoon session will be a Board meeting and W. M. U. program. Mrs. Ray Harrell will give the Devotional.

More than 200 workers are expected to attend representing most of the 40 churches cooperating through the Cisco Association. Visitors will be welcome.

Mild Cold Front Lowers Mercury

By United Press
A mild cold front moved eastward across Texas today and lowered temperatures in West Texas from yesterday's warm levels.

Mercury readings yesterday ranged from 91 degrees at Laredo and Persidio down to 70 at Guadalupe Pass. Most highs, however, were in the 80's.

As the cooler weather began invading Texas late yesterday afternoon, thermometers began inching downward.

Dalhart reported the state's early morning low—39 degrees. At coastal Brownsville, on the opposite side of Texas, temperatures never went below a sultry 70 all night.

The cool front is expected to cool off all but extreme eastern Texas by late tomorrow, but the weatherman anticipated little rain or violent winds.

Skies were cloudy in advance of the cool wave, which was between Abilene and Big Spring at late morning, and were clear behind the front. Little precipitation was reported, although Wichita Falls had light showers and drizzle was occurring at Bryan at mid-morning.

More than 5,000 elk were killed by hunters in Idaho in 1947.

INVITATION TO VISIT PLANT ANY TIME MONDAY EXTENDED PEOPLE

Mrs. Ferguson's Funeral Held

Funeral services for Mrs. W. J. Ferguson of Plainview, formerly of Ranger were conducted Saturday afternoon at 2:30 o'clock at the Second Baptist Church with Rev. Jasper C. Massee officiating. Interment was in Evergreen cemetery with Killingsworth's in charge of arrangements.

Mrs. Ferguson who was born in Granbury on Sept. 24, 1923, died in Plainview Thursday, April 7, 1949. She had lived in Ranger 23 years prior to moving to Plainview, and was a member of the Second Baptist Church.

Survivors are her husband, W. J. Ferguson who is a ministerial student at Wayland College in Plainview; two sons, Jackie and Larry and one daughter, Mary, all of Plainview; two brothers, Pfc. Tommy Martin of Camp Chaffee, Arkansas and Michael Martin of Odessa; three sisters, Mrs. Gen. Harris of Odessa, Joe Ann Martin of Odessa and Mrs. R. G. Marlow of Denver City; her parents, Mrs. Royd Martin of Houston and the following aunts and uncles, Mrs. Roy Dawn and Mrs. Curt Wheat of Ranger; Mrs. Clyde Smith of Cisco; Mrs. Mike Hammons of Colorado City; Mrs. M. C. Singleton of Crane; and Earl Paschall of Ranger, M. G. Martin of Houston, H. T. Ball of Colorado City and Elbert Ball of Odessa, and her grandmother, Mrs. H. M. Ball of Ranger.

Palbearers were Charles Van Landingham, Millard Williams, Earnest Leka, J. B. Harlin, D. K. Grisham, and Myron Crawford, all college mates of Mr. Ferguson at Wayland College in Plainview.

Music Recital At 3:15 Sunday

Under the direction of Lilla Jean Brown and Jennie Ruth Hoper of the fine arts department of Ranger Junior College, a student recital will be given at 3:15 o'clock Sunday afternoon at the High School Auditorium.

Vocal soloists for the program will be Douglas Jacoby and Kenneth Mayhall of the voice department and Dianne Plumley of the piano department will appear in a piano solo.

A vocal trio composed of Jean Watson, Ruby Lee Bargesley and Sharon Hazard will sing and numbers will be given by the High School Chorus.

Miss Brown will accompany all numbers and Miss Hooper will direct the chorus.

The public is invited to attend.

The Superlite Aggregate Company's aggregate plant in the northeast edge of Ranger is now in operation and C. W. Cline, operator of the plant has extended an invitation to the people of Ranger to visit the new industry any time Monday or after.

One kiln has been completed and is now turning out the light weight building material that is much in demand over the country. Cline stated today that he has order for the material on his waiting list and that the aggregate will start moving out of Ranger just as soon as can be turned out.

The plant is located in the east corner of a 371 acre tract from which gray shale is mined for the production of the aggregate. The raw material is fed into the kiln from a crusher connected to the kiln by a feeder belt. It is heated to 2,200 degrees is maintained. The heat removes the moisture and impurities and the resulting product has much the appearance of cinders from a coal fire. This will be pressed into blocks.

The shale from which the aggregate is made has been laboratory tested and the tests show that it is of excellent quality for producing the light building material.

For the plant itself, 12 and one half acres of land have been set aside and Cline will expand the plant to include two more kilns just as soon as possible. Aside from the actual plant there will be an office building and a machine shop where all maintenance work for the plant will be done. Adjoining the plant is a 650 foot railroad spur that has been built by the Wichita Falls and Southern Railway. The road siding will accommodate about eight cars at a time.

The kiln now in operation is 4 by 40 feet and is lined with six inches of fire brick. It is turned constantly by a set of geared wheels. The peels on which the kiln stands are set five feet deep in the ground and stand about seven feet above the ground. They are constructed to carry 40 tons of weight each.

A raw material crusher is already in operation and a finished product crusher will be in operation soon. Other related equipment will be added as soon as it can be secured. Capacity of the plant will be four carloads a day when it is completed and running at full capacity.

Light weight aggregate has become one of the most popular construction materials in the United States. This is explained by the fact that it is lighter than brick and cement and better than lumber and serves as well, if not better as a building material. It is 1,000 pounds lighter per cubic yard than concrete and is high in insulating and acoustic qualities.

Assisting Cline in the supervision of the plant is his son, C. A. Cline who is a graduate mechanical engineer and has had wide experience in the type of work being done at the plant. The senior Cline is a construction engineer with better than 20 years experience in the construction field. He supervised the construction of the first haydite plant south of Kansas City.

When questioned about the market for his product Cline said, "The world's market, but for the first few years we'll do well to supply the demand in Texas."

After having two years experience with the Eastland plant, Cline has streamlined the Ranger plant eliminating much unnecessary movement and machinery which will make the Ranger plant one of the most efficiently operated plants in this country.

Cline stated Saturday that this plant was made possible only through the cooperation of the Ranger Chamber of Commerce and citizens of Ranger and Eastland. He expressed his appreciation for the cooperation of everyone who has assisted in any way in the project.

Britain, Russia Seek Trade Plan
LONDON, April 9 (UP)—Great Britain and Russia will start preliminary negotiations for a one-year trade agreement within a few days, board of trade officials disclosed today.

The British proposed the talks a month ago. After some hesitation Russia agreed in principle that the countries should try to work out a short term agreement, officials reported.

The No. 1 T. N. Watt which the Jay and Parker Company have just completed will not be the right to exercise full authority if they consider it necessary informants said.
The statute, agreed upon yesterday in Washington set no time limit on the duration of allied occupation rights. But it promised that after a year the statute would be examined again with a view to giving the German government more powers.

The allied controls will be exercised by three agencies — the Ruhr Control Authority, the Allied Military Security Board, and three-power organization under the high commissioners.
Each power will retain occupation forces in Germany in the area now under its control as an occupation zone. The statute set no date for the end of the occupation. An unimpeachable source said the troops would not be withdrawn when the government is established.

flowed but a very few days in each month from all appearances. They had it shut in until they had the Railroad Commission's permission to move the 500 Bbls they had in their tank battery. As soon as that was moved off they opened the well and started it flowing again. This time it flowed 130 Bbls in 24 hours under an 8-64 inch choke. To tie this well down to the 45 Bbls allowable for the 19 days allowed for this month will be like attempting to hold a wild broncho. They will have it shut in most of the time, at the rate it is producing. No wonder the Jay and Parker Company is so anxious to get another well drilled on this lease.

Let us hope they are not going to run into that sheet of water which has been encountered so many times in operations near Desdemona when they went to the 3600 foot depth. As we recall on the Puffy which was East of Desdemona at about 3665 they had to close down because of the water, and practically the same thing happened on the Bud Walter which Gillespie Brothers had Patterson to drill for them down in the French Survey South of Desdemona.

Party Dinner Adds \$25,000 To 1950 Funds

CORPUS CHRISTI, Tex., April 9 (UP)—A check for \$25,000 was written out today, raising the total of money raised for the Democratic Party by Jefferson-Jackson Day dinners in Texas to \$65,000.

U. S. Attorney General Tom Clark was the principal speaker at the second dinner, which was held here last night, with some 600 Democrats paying \$25 a plate for roast sirloin of beef and red-fist.

Devout Roman Catholic Democrats sank their teeth into the juicy beef, even though it was Friday. They were permitted to eat meat through a special dispensation given by Bishop Mariano Garriga of Corpus Christi.

Democrats chipped in \$40,000 to the party cash register at Austin last month, when the first Jefferson-Jackson dinner was held with House Speaker Sam Rayburn sounding a plea for unity.

Clark scoffed at talk about a coming depression, and discounted forecasts of "singers of economic blues and the predictors of dire things."

He said they were riding "in the same boat with the pollsters." The people, said Clark, had not forgotten the "pollsters' depression of 1948—the November 2 crash."

"Now that was a 'depression,'" he laughed, "the biggest depression in the history of forecasting."

Wright Morrow, silver-haired National Democratic Committeeman from Houston and Judge M. J. Raymond of Webb county, also spoke to the gathering.

Morrow warned against leaning too heavily on the government for support.

"We can not look to and lean on the government and expect the government to take care of us,"

The Most Beautiful Thing on Wheels!

"We are, of course, very proud and happy that people everywhere are calling the new Pontiac 'the most beautiful thing on wheels.'" Pontiac is a brilliantly beautiful automobile—as handsome a car as ever rolled over America's streets and highways.

But Pontiac's real beauty cannot be fully appreciated until you drive the car yourself. For the new Pontiac is beautifully engineered, too—to give you a completely different kind of automobile performance that simply must be experienced in order to be believed.

Pontiac for 1949 offers a totally new kind of ride—a ride as smooth and effortless and comfortable as a car can be. And either of Pontiac's famous engines, six- or eight-cylinder, is a sweetheart for power. Remember, too, Pontiac is the lowest-priced car in the world offering the ease of Hydra-Matic Drive. Available on all models at extra cost.

Take a long look at the next new Pontiac you see—then come in and give the car a really thorough examination. That's the way really to appreciate why people are calling Pontiac "the most beautiful thing on wheels."

Excess strip shown as State of Texas, no abstract number found, or so much of such territory as the Legislature finds will be benefited by the improvements to be made by the district.

The legislation will authorize the district to impound waters of rivers and streams within and without the district for municipal and industrial uses; to construct or acquire by purchase or condemnation, or to lease all dams and all facilities necessary for storing, processing and transporting water to cities and others for domestic and industrial uses; to issue bonds payable from and secured by district revenues, or ad valorem taxes, or both such revenues and taxes, and, in the discretion of the board of directors, such bonds may be secured additionally by a deed of trust upon the physical properties and revenues of the District; to issue refunding bonds; to contract for purchase of water from other public agencies; to acquire from the Board of Water Engineers or from others permits for the appropriation of water; to provide for parks and recreation facilities; to make rules and regulations concerning District property; to police properties owned or operated by the District; and to do all things necessary to protect water for such purposes from contamination and pollution in the watershed.

This legislation will make provision for the board of directors and the officers for management of the affairs and the government of the District; for acquisition of property by condemnation; for the selection of depositories; and for the assessment, equalization, levy and collection of taxes.

Such legislation will also make other provisions and confer other powers in connection with the general purpose and nature thereof above stated.

GIVEN this the 19 day of March, 1949.

Wheat Pitches No-Run, No-Hit Game For Ranger

Charles Wheat, High School Pitcher, came through with a feat that pitchers dream about but seldom do. He pitched a no-run, no-hit ball game against the Gorman Panthers as the Bulldogs downed them 19 to 9 for their second conference win in as many starts. Wheat struck out 16 men, walked five and hit one. He faced only 27 batters which is only six over the number that he would have faced had he pitched a perfect game.

The Bulldogs took advantage of 8 hits, sixteen walks and nine errors to account for their scores. They also ran wild on the bases as they stole 9 bases which is quite a record of thefts. E. P. Robinson and Kenneth Williams were the boys with the big bats in the Friday tilt as they both came through with two hits. Robinson is batting .428 for the season which is a good average if he can hold it. Williams has got hits in both times he has been at bat to leave him batting .1000.

Sportsmen Meet In Second Day

BROWNWOOD, April 9 (UP) — Texas sporting figures today went into the second day of their three-day hotly-contested Texas Sportsmen's Competition.

After the first day, Grant Ibseng, Houston sharpshooter, was on top in the skeet shoot after knocking down 100 clay birds yesterday without missing.

Tommy Tempelton of Waco broke 99 to take second place and J. G. Pflueger of San Antonio forced him into another shoot.

Connally Asks Waterway Funds

WASHINGTON, April 9 (UP) — Sen. Tom Connally, D. Tex., has asked a Senate appropriations subcommittee to grant all funds necessary for work on three Texas waterway projects during the year starting July 1.

He appeared in behalf of the proposed Guadalupe Canal & between the Gulf Intercoastal Waterway and Victoria, Texas, for which the army engineers had

Tempelton Hit All 25 Birds, but Pflueger Missed One

Other skeet winners: Class B — Bill Hemphill, San Angelo, 96; class C — C. E. Chaffin, Greggton, 93; class D — Mrs. Pollard Simons, Dallas, 88. Herman Ehlers of Dallas, won the class A trophy trap shooting with a 48 score. L. C. Sparks of Waco was class R winner, and Pflueger took class C honors.

In small bore competition, John Brown of Coleman matches one and two while J. K. Boles of San Antonio took the next three.

CHRISTIAN SCIENCE SERVICE
"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 10.
The Golden Text is: "Bless the Lord, O my soul, and forget not all his benefits: who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction" (Psalms 103:2-4).

Among the citations which comprise the Lesson - Sermon is the following from the Bible: "Touching the Almighty, we cannot find him out: he is excellent in power and in judgment, and in plenty of justice; he will not afflict" (Job 37:23).

The Lesson - Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The jurisdiction of the world is in Mind controlling every effect and recognizing all causation as vested in divine Mind" (page 379).

Mental Cases Pile Up
OKLAHOMA CITY, (UP) — Oklahoma's mental health director says many patients in the state's six mental hospitals will become chronic cases because of lack of personnel to care for them. Dr. Charles F. Obermann reported the hospitals discharged only 855 patients last year while the institutions now have a total of 9,041 patients.

RUN-AWAY AMERICAN GIRL MAY BE DEPORTED FROM MEXICO

NUEVO LAREDO, Mexico, April 9 (UP) — An 18-year-old girl who ran away from a Detroit convent to teach English and sing in Mexico City night clubs faced possible deportation proceedings here today.

But Esther Asthleen Loveless, who found convent life too "dull", said she wasn't worried.

"I love everything - Mexican from the cactus to the rhumba," she grinned. "I'm not going to prison, I think, and if they make me leave Mexico I'll find a way to get back."

Esther, a willowy red-head with a friendly smile, didn't know a word of Spanish when she crossed the border last July 28. But in eight months she has added a Spanish flavor to her English and learned to speak some Spanish.

It was her American accent that caused immigration officials to question her when she passed through Reynosa with an actor's troupe.

Esther wouldn't give her father's Detroit address. However, she said he was Giles Francis Loveless.

"Pop sure will be surprised if he reads about me," she said. When she first arrived in Mexico City, Esther taught English to four students at 50 pesos a month.

A month later she made her debut as a night club singer, specializing in Mexican ranch songs with r-tive grito yells and U. S. enthusiasm. She said she earned 125 pesos (about \$18 in U. S. currency) for a few minutes.

Bantam Rooster Exposes Thieves

TERRELL, TEX., April 9 (UP) — A gang of chicken thieves and cattle rustlers who stole a \$20,000 highway bridge and sold it for junk could blame their downfall today on a loud-croaking bantam rooster.

The rooster gave forth with a lusty "cock-a-doodle-do" that could be heard two miles away by his rightful owner, Ferrell Griffin, a Heath, Texas farmer.

Griffin turned to his wife and said: "That's my rooster, and I'm going to find out where it is." He found the kidnaped rooster scratching in a henyard at least two miles from the Griffin farm.

Officers from Rockwell and Kaufman counties picked up the suspect, who put the finger on seven other men as a gang of thieves and rustlers.

The informer said the gang, in addition to stealing hogs, chickens, auto radiators, stoves and batteries, had purloined other things — namely, a steel highway bridge.

The bridge was dismantled last year on an abandoned section of road near Forney. They hauled it away and sold the structural steel as junk for \$500.

New Cloths Pep Up Classics

Nylon and Linen Put Familiar Fashions in News

NEW YORK—(NEA)—The way a classic fashion makes news is by appearing in a new and sometimes revolutionary type of fabric.

By this token, the familiar-looking peddle pusher outfit and sweaters shown make news this spring.

Nylon in candy bright colors makes the pullover and cardigan team of sweaters (above). Because nylon yarn's invincible strength hides behind a softness as strokeable as a kitten's ear, these sweaters are alluring to look at and durable. They dry quickly after washing and need no blocking.

What puts the peddle pushers and blouse (right) smack up front in fashion's spotlight is the non-crushable Irish linen used to keep these active sportswear garments wrinkle-free. The color for the familiar peddle pushers in their new fabric guise is clear blue. The companion blouse is made of the pure white linen that never yellows no matter how long it lasts.

Seek Million For Campaign

WASHINGTON, April 9 (UP)—President Truman has endorsed a goal of \$1,000,000 for a Democratic Party "war chest" for use in the 1950 congressional campaign.

At a dinner meeting attended last night by party fund-raisers, Mr. Truman said "that election must be won."

The \$1,000,000 goal was set by Sen. J. Howard McGrath, D., R.I., chairman of the Democratic National Committee, in a speech to the executive committee which conducts the fund-raising Jefferson-Jackson dinners for the party.

McGrath said he hoped to have the \$1,000,000 in the party treasury by next January "to meet the foe in the elections in 1950."

Mr. Truman thanked the fund-raisers for giving the Democrats the "sinews of war" for its political battles. He said in all his past campaigning the Democrats had started with a deficit and

ended with a deficit.

Consequently, he said, he was cheered by the optimistic outlook for the 1950 campaign.

LITTLE HOPE HELD FOR GIRL TRAPPED IN WELL

By Joseph M. Quinn
 United Press Staff Correspondent
 SAN MARINO, Cal., April 9 (UP)—Two young volunteer workmen thrust a shaft today to the 14-inch well casing where three-year-old Kathy Pincus has lain trapped since 7:30 P.M. (EST) Friday, but made no immediate effort to break the casing wall.

Albert Linnel, 29, a former diver, was first to reach the pipe. The shaft through which he crawled was dug through a treacherous shifting 12-foot belt of sand from the bottom of a 72-foot-deep trough near the 120-foot shaft. It was believed the girl might be at the 120-foot level and the rescue shaft was well above this depth.

Kathy had lain trapped in the well all night, and the last sound from her was heard about 9:30 (EST). Linnel and former miner John Inhat who dug the lateral shaft said they would not enter the pipe casing for "a couple of hours."

A physician expressed doubt they would find the child alive.

"Under such circumstances I don't see how she could live more than four hours," he said.

Linnel and Inhat did not know the exact depth at which they hit the side of the casing. Their shaft from the side of the trough dipped slightly as it was pushed toward the casing wall, and they estimated that they made contact somewhere between 75 and 85 feet in the earth.

They kept in touch with crews above through the use of portable microphones strapped to their bodies.

Rescuers said the well apparently was dry, even at the low level.

Kangaroos have shrunk. The largest living specimens in Australia now range from seven to

eight feet in height, whereas their prehistoric ancestors were giants of from 12 to 20 feet.

Labor Law Death Seems Assured

WASHINGTON, April 9 (UP)—House Democratic leaders said today that an "actual nose count" has disclosed enough votes to pass the administration's Taft-Hartley Act repeal bill.

The statement was made by Chairman John Lesinski, D., Mich., of the House labor committee. He said that a count has turned up "votes to spare" behind the repeal legislation.

Southern Democrats and Republicans claimed a few days ago they have enough votes to beat the bill. They are throwing their weight behind a substitute measure drawn up by Rep. John S. Wood, D., Ga.

The Wood substitute would keep the Taft-Hartley Act on the

statute books with a number of comparatively minor amendments.

Iiensi said that administration forces will beat the Wood bill "by at least 20 votes." He said he based this claim on his survey of House members.

The first "treatise on the culture of hogs" was published by Reynolds Scott in England in 1574.
