## Parisian Favors American Models

NEW YORK, May 3 (UP)—The president of one of Paris' top dressmaking firms came out strongly today in favor of American models.

For other than the usual reasons.

"They are serious," Raymond Barbas said with feeling, "efficient, businesslike. They are always on time."

The president of Jean, Patrou Inc., finds the French ones charming enough in other ways, but . . . "There is a little appointment, a 'nice weekend . . ." Barbas shrugged.

"She does not appear on Monday."

That's tough on business. The dresses of a Parisian dressmaker

## Dr. Boswell-

(Continued From Page 1)

The agricultural boys have made a good record during the year and the citizens of the district are to be commended for their hearty cooperation. The home economics department has been more efficient during the year than in previous years and the enrollment has increased. Every patron of the school and surrounding territory is aware of the record made on the football field, on the basketball court, and the work that is being done in base ball by the high school. These various activities certainly are stimulating for the whole public school system. The elementary schools have not been forgotten along with their other activities for the development of the physical, mental and moral strength. The band has played for many occasions and has received many compliments for its performances, and especially are they grateful to the ones who made it possible for them to have new uniforms.

One of the greatest achievements during the year was the moving of the junior college from the high school building. The junior college is in a section of Ranger where it is very nicely housed and has done a good grade of work. The enrollment of the junior college has been greater than any previous year. Its record in playing football, basketball, and other activities has been noticeable throughout the state. It seems that the junior college should grow to a much larger college within the next few years and render a greater service for those who are interested in college education. Our college students are transferring to higher institutions of learning without loss of credit, provided the grades are sufficient to transfer. Every person who is familiar with college work knows that a "D" is not a transferable grade.

The schools, from the primary grades to and including the seniors in junior college, should work another year for greater efficiency in every endeavor and should give to the community a more productive year. A good school administrator is always looking for the next year to be a better year than the previous one. This is the normal way because good schools are growing institutions. Plans have to be made and these plans worked, in order for schools to be more efficient. A good school administrator is never satisfied with what is being done at the present, for he is constantly endeavoring to make the

are quite literally made on the models. If she's not there creation ceases. If she's not there, the complete dress cannot be shown to a customer.

So Barbas likes to have a couple of American girls on the premises.

He has them, despite the fact the job has less glamour and less pay than it does in New York. A top Parisian model, Barbas explained, gets \$100 a month which is more in Paris than it is in New York, but still doesn't approximate luxury.

he exhibited a set of braces worn by Miss Nance, who suffered permanent paralysis from the chest down as a result of the accident.

Claude Williams, Dallas, representing Wesley Isenhower and his parents, made an eloquent address in which he said "I won't use a two dollar word like rationalize as Mr. White did, as I am going to ask this jury to just use good old common horse sense."

Several times during the early part of his argument Williams wanted to know where White "had got off to". At the time, White was sitting in the spectator's section with his wife, who came down from Dallas earlier in the day.

## OLDEST OHIO HOUSE SOLD

(UP) The oldest house known to be occupied in Ohio, built by Gen. Nathaniel Massie in 1791, has been sold to Mrs. Myers Baldwin, granddaughter of William Baldwin. He was the former owner of the land which the Revolutionary War general got as a reward for his services.

MANCHESTER, O. (UP) The oldest house known to be occupied in Ohio, built by Gen. Nathaniel Massie in 1791, has been sold to Mrs. Myers Baldwin, granddaughter of William Baldwin. He was the former owner of the land which the Revolutionary War general got as a reward for his services.

contrary to the charge of the court." Regarding the special issues, Williams claimed that Isenhower entered the intersection and Miss Poe should have yielded right-of-way, and that the latter was a careless and reckless driver.

Carl Conner, Eastland, representing Miss Poe and her parents who are defendants with the Isenhowers in the suit, stated the only special issue having to do with Miss Poe was keeping a proper lookout at the time of the accident and was she a careless and reckless driver.

Conner presented a detailed mathematical argument to reach his point. The courtroom was packed as it has been through most of the trial.

During 1948 American ate an average of more than an egg per day—a total of 338.

## JURY SELECTION ON IN SLAYING CASE

(UP) Selection of a jury began today in the murder trial of Derby A. Cronister, West Texas rancher who faces charges in the slaying last May of W. H. Barker.

District Judge Jack Allen refused the state's request for a change of venue.

Cronister also is charged with slaying Barker's father, C. W. Barker. The father and son were killed a year ago on a country road in Oehlitz County.

## Wheat Storage No. 1 Problem

GALVESTON, Tex., May 3 (UP)—The Santa Fe Railway said today that the 1949 wheat harvest in the southwest presents a problem of storage rather than transportation.

J. P. Cowley, general manager of the Gulf, Colorado and Santa Fe, said best estimates place the Oklahoma and Texas crop at 200,000,000 (M) bushels.

"These two states will not have sufficient storage to take care of this production," Cowley flatly stated. He added that Texas-Oklahoma conditions are similar to those in Kansas.

Cowley said the Santa Fe would use all its facilities to cope with the expected bumper crop.

However, he said that in normal to heavy years the Santa Fe has performed in an almost herculean way to handle this short but extraordinary movement.

## Shanghai Tightens For Seige

Anyone either entering or leaving Shanghai, even for homes in the suburbs, is carefully searched by soldiers at various check points throughout the city perimeter. Papers held in man's hand (dressed in white) are resident cards, without which permission to pass is refused. (Photo by Warren Lee—NEA staff correspondent from Acme-NEA Radiotelephoto.)

Definite programs effectively followed most years may not be adequate this year.

Cowley, a vice president of the line, said the Santa Fe is making an all-out effort to mobilize equipment to cope with the problem.

"We are converting many cars for grain hauling and have ordered reconditioning of other cars," he stated.

## Communists Reported Stopped

Communist forces, driving on Shanghai have been reported checked in a heavy battle some 30 miles west of the city at Chinglangkang (1) but Red troops were believed gaining in two major drives to the south. The Communist drive toward Kashing (2), previously reported captures, has reached Shengchin (3), and Hsingheng (4). One spearhead of a many-pronged move toward Hangchow was reported threatening Changan (5) on the Nationalist held railway, and Communist were said to be only eight miles south of Hangchow itself. ## Rimann Death Query Ordered

KANSAS CITY, Mo., May 3 (UP)—A county grand jury will be called early in the May term of court, Judge Allen C. Southern said today, and it will be instructed "specifically to investigate the murder of Wolf C. Rimann, country club manager who was shot to death last March 24.

Rimann was killed in mid-afternoon by two men in an industrial district near the downtown Kansas City area and since that time city, county and state authorities have joined in an investigation headed by J. E. Taylor, attorney general.

Gov. Forrest Smith, shortly after the slaying, issued an ultimatum that the murder be solved and Taylor promptly established an office here. He since, however, has returned to Jefferson

City, leaving the investigation in the hands of assistants here.

"The number of unsolved slayings in Kansas City," Judge Southern said, "is a terrible scar on the face of Kansas City. It is all a question of the strictest kind of law enforcement.

"You need quick trials and punishment, but you can't have that without finding the offenders. You can't find them unless all public law enforcement agencies are alert."

Referring specifically to the death of Rimann and Leroy Dean Crist, who was found shot to death in his motor car last Feb. 2, Judge Southern said:

"These lynchings are of public notoriety and the investigation should never let up.

About 40 per cent of farmland in the United States is made up of farms with more than 1,000 acres. Farms of this size made up only 25 per cent of the total farm acreage 25 years ago.

## BRADLEY TESTIFIES IN FAVOR OF ATLANTIC PACT

WASHINGTON, May 3 (UP)—Gen. Omar N. Bradley, Army chief of staff, said today the North Atlantic Pact will put this nation's defense frontiers "in the heart of Europe."

Bradley said future plans for the defense of Western Europe with American assistance—he did not specifically mention U. S. troops—call for averting "the terrors of another enemy occupation" of that area.

"Only upon that premise can nations closest to the frontiers be expected to stake their fortunes with ours in the common defense," he told the Senate Foreign Relations Committee in urging quick approval of the defense treaty and its related arms-for-Europe program.

Speaking as a member of the joint chiefs of staff, Bradley pointed out that other pact nations are in a position where any aggression into Western Europe will mean "conquest of their homelands."

"I assure you that our frontiers of collective defense lie in common with theirs in the heart of Europe," he said.

Bradley said "any plotting aggressor" realizes that in the final analysis, Western Europe can be saved only by the Western Europeans. but he added:

"If we Americans, together with the Western Europeans, believe that economic assistance can bring economic stability, we should also believe that military assistance can bring military stability to us all."

Bradley said that, given "sorely needed" materials and proper training, European divisions established on their home soil, "will be in a firm position of readiness."

"I have no doubt that given the assurance of aid, and the means to resist, that they will contest resolutely any threat of aggression," he said.

Bradley said the joint chiefs of

staff are in "unanimous agreement" on future strategy.

In case this nation is attacked, he said, it must rely on "sufficient integrated forces of land, sea and air power to carry the war back to the aggressor, ultimately subjugating the sources of his military and industrial power."

"Plans for the common defense of the existing free world must provide for the security of Western Europe without abandoning these countries to the terrors of another enemy occupation."

Praising the pact's mutual pledge to strengthen free institutions, Bradley said that "in the event of war, there is no greater strength than mutually avowed ideals and purposes."

## Cozby Rites Today

FORT WORTH, Tex., May 3 (UP)—Funeral services for James A. Cozby, 47, vice president and cashier of the Fort Worth National Bank, were to be held at 4 P. M. today.

Cozby, lifelong Tarrant County resident who had been associated with the bank 30 years, entered a Fort Worth hospital Jan. 3 for treatment of heart complications.

Stork Wine Out COLUMBUS, Ind. (UP)—For the first time in its 15 years of operation, the King taxi company lost a race with the stork. Mrs. Carmine Dipippo gave birth to a daughter in a taxicab enroute to the county hospital.

More than half of the farm land in the United States is in farms with more than 500 acres, compared to only one-third that much in farms that size in 1920.

## Amarillo Newsmen Break Into News

AMARILLO, May 3 (UP)—Newsmen at radio station KPDA broke into the news themselves last night.

They heard a noise in the office on the second floor of their building, called police and accompanied them on the investigation. One of two men in an attorney's office leaped from a second story window and escaped after a six-block chase.

The second man was apprehended on the window sill. Apparently he didn't care to risk a broken leg, or neck. He told officers he was merely visiting his attorney's office. He couldn't explain the hole in the office floor directly over a drug store and was taken to jail.
