During the early morning hours a heavy frost fell coating vegetation and houses.

BOSTON, Oct. 31 (UP)—Assets of the Ford Motor Co., have reached a new high—\$1,149,240,000 (B)—the company's annual report revealed today. The figure was disclosed in the report for 1948, filed with the Massachusetts Tax Commissioner. Only twice previously, in war time 1943 and 1947 did assets top the billion dollar mark. The figures filed in Massachusetts are the only dollar figures ever released publicly by the Ford organization and are issued under requirements of the Massachusetts laws governing firms operating in the state. Surplus of the company in 1948 also rose to an all-time high of \$809,759,000, compared with \$732,019,550 in 1947. Reserves last year rose to \$23,054,000 from \$20,247,000 in 1947. FAST MOVING NORTHER TOPPLES TEMPERATURES

By United Press
The season's first "whistling norther" that whipped across the 700-mile sweep of Texas from the Panhandle to the coast in 24 hours toppled temperatures well below the freezing mark in a large portion of the state today. Riding on winds that reached 56 miles an hour at times, the norther moved into the upper Panhandle late Saturday afternoon and by late yesterday had reached the Gulf Coast area, tumbling the mercury 10 degrees or more an hour from mild fall maximums. By this morning, the winds had calmed to a 19-23 mile-an-hour pace along the coast, skies were clear throughout the state except in deep Southeast Texas and the thermometer had dropped to 24 degrees at Dalhart—the coldest weather of the season. Rain, ranging from sprinkles to

ALL-NEGRO RODEO TO BE STAGED HERE NOV. 12-13

Under the sponsorship of the Junior Chamber of Commerce an all-negro rodeo will be staged in Ranger November 12-13. Performances will be in the afternoon beginning at 2:30 o'clock and proceeds from the shows will be used by the Jaycees for their charity work at Christmas time. One of the features of the show will be the crowning of Alex Alexander, Gene Axtry's colored rodeo clown and bull fighter, who appeared as the clown in the Jaycees first rodeo in 1948. Entries have already been received from more than a score of the nation's best-known colored cowpokes, indicating keen competition in all events. Pitted against the Negro "punchers" will be leading stock from the Lone Star Ranch Rodeo string of bucking animals, owned by Bob Estes, prominent Texas rodeo producer. Probably one of the most unusual acts to be seen at the Ranger show will be a negro cowboy, known as "Oklahoma Slim", bulldozing a Brahman steer with his teeth. Those who have witnessed the demonstration claim it is one of the most spectacular feats of rodeoing. Other professional Negro cowboys who will compete at Ranger include: Roane

Egyptian government and British military officials who were said to have sent planes and ships to the rescue of the three crewmen refused to comment on the reports. The reports said a plane identifying itself only as "plane RLM" sent distress signals Saturday, and later radioed that it was crash-landing in the sea near Tobruk.

Barkley, Lady Shop For A Wedding Ring

ST. LOUIS, Oct. 31 (UP)—The nation's No. 1 lovebirds, vice-president Alben W. Barkley and Mrs. Carlton S. Hadley, went shopping today for a wedding ring. As the nation's best wishes showered down on Barkley and the 38-year-old attractive widow, the couple had a late "brunch" together at the Park Plaza Hotel and then went to buy the wedding band. Mrs. Hadley said the simple exchange of vows between them on Nov. 18 would be a single ring ceremony at a place undecided as yet. Both are Methodists, however, and attended St. John's Methodist Church together prior to calling in newsmen to announce their engagement yesterday. Only a few close friends are expected to be invited to the wedding. President Truman, although expressing the wish to attend the wedding of his old friend, is unlikely to be there. The White House said the Shah of Iran's visit to Washington makes it "unlikely" that Mr. Truman will be able to come to St. Louis for the ceremony. Mrs. Hadley will quit her job as a private secretary in the Washington Railroad's executive offices to become the second lady of the land on her wedding day.

Union, Steel Make Agreement

WASHINGTON, Oct. 31 (UP)—Steel industry sources said today CIO President Philip Murray and Bethlehem Steel Corp. have agreed on a contract in which the company would finance CIO steelworkers' pensions and both company and union would contribute to a social insurance program. The compromise solution of the dispute would be the first major break in the 21-day-old steel strike. Murray, who is also president of the steelworkers union, is scheduled to make an "important announcement" at 3 P. M. CST at Cleveland. Industry sources said it would be the strike settlement. They said it would provide that the company continue financing in whole, as it does at present, pensions for its employees. Whether the rate of contribution would be changed was not learned.

Jaycees To Meet

A very important meeting of the Junior Chamber of Commerce will be held tonight at 7:30 o'clock at the Gholson Hotel and all members are urged to attend. Wilson Guest, president, stated today that the meeting will not be long but very important matters are to be discussed and urged that all members be present.

MINERAL WELLS, Tex., Oct. 31 (UP)—A State Department official said today that the rebirth of German Nationalism began during the past year as attempts to suppress it would be futile. Henry Byroade, director of the department's German and Austrian affairs, told the Southern Paper Publishers Association that the solution to the United States to take very "positive" steps to the Democratic tendencies that exist in Germany. To this end, he said, the United States must Western Germany's Democratic-minded nations, as soon as possible receive Germany into the fold of free nations. "Within the last year there has begun a rebirth of German nation—yes, even of German Nationalism," Byroade said in a speech prepared for the SNPA. Formal work began today at the 47th annual of the SNPA with President Oveta Culp Hobby delivering her annual report. U. S. Senator Lyndon B. Johnson, D., Texas, the delegates, some 500 of whom

Four Injured In Marshall Fire

MARSHALL, Tex., Oct. 31 (UP)—Four persons, including two firemen, were injured yesterday when an early morning fire swept through the four-story Hotel Marshall annex, routing 28 guests and causing heavy property damage. The fire was confined to the fourth floor of the annex, and did not reach the Hotel Marshall proper. Lenoard H. Smith of Amarillo, a guest in the annex, was overcome by smoke in his room but was rescued and lowered to safety by a rope elevator. Marshall Fire Captain Frank McNeil received a back injury when he fell 15 feet from the roof of the annex to an adjoining building, and one other fireman suffered an ankle injury when he fell a short distance off a ladder. The only other reported casualty was a spectator who crowded too close while the firemen were at work and was cut by flying glass. Besides the fire and smoke damage to the upper stories, there was heavy water damage to merchandise in a first floor drygoods store. Alev Pitts of Greenville, a blind man who was a guest in the hotel, was led from his third floor room to safety by a hotel employe.

Gift May Keep College Open

NATCHEZ, Miss., Oct. 31 (UP)—A generous Texan today came to the rescue of tiny Jefferson Military College, which is nearly broke after losing a \$50,000,000 endowment by refusing to teach white supremacy.

Nathan J. Klein, prominent businessman and civic leader of Houston, Tex., gave the little school \$5,000 to pay its debts. Spokesmen for the academy, located at nearby Washington, Miss., said Klein's gift would keep the school from closing its doors, this year at least.

But one trustee estimated that Jefferson would be \$10,000 in debt by June and would have to close after 147 consecutive years of operation unless future aid is forthcoming.

The school, which has an average enrollment of about 50 students, went from near-riches to rags in a week. Blistering criticism met reports that its trustees had agreed to teach white supremacy doctrines and bar all but white Christian students in order to qualify for a \$50,000,000 endowment offered by Judge George Armstrong Natchez and Fort Worth, Tex.

But the trustees later denied having made such an agreement and Armstrong withdrew his offer. The school then turned down his offer of \$5,000, no strings attached, with which to meet its debts. Klein, 50-year-old owner of an ice cream store chain, head of the school's plight and said he was more than willing to donate the \$5,000 when informed sources told him that Jewish students had always been admitted to the college.

Coffee Crop Short, Prices Skyrocketing

RIO DE JANEIRO, Brazil, Oct. 31 (UP)—Experts said today that Brazil will have a deficit of 3,000,000 (M) bags of coffee this year because of the recent drought.

The deficit, and a marked increase in world consumption, is responsible for runaway prices in New York and other markets. Coffee is becoming so expensive even in Brazil, the world coffee center, that the poor and middle classes are beginning to regard it as a luxury.

Official ceiling prices were raised a year ago to about 37 cents a pound for ground coffee. Another stiff raise in retail prices is expected shortly to compensate increases of nearly 100 per cent in export green coffee prices. Brazil burned 80,000,000 (M) bags a few years ago to keep up the price in an era of over-production. Brazil production now averages about 15,400,000 (M) bags a year.

Green coffee now is quoted at about \$550 a ton compared to \$324.50 last December. For the first half of this year, coffee ac-

Texas Boy Is Rescued

Three-year-old Bobby Gow (arrow) is being taken from an abandoned well where he was trapped 14 feet below the surface for three hours. The baby was rescued after workers, using three steam shovels, compressed air hammers and bare hands, dug their way to him. counted for 50 per cent of the foreign exchange brought into Brazil. This was mostly in dollars, as the United States buys more than 70 per cent of all coffee exports.

Floods in Guatemala also have affected the world coffee price by destroying a large part of the crop there. Another factor is the political instability of Columbia, the world's second largest producer with an average of 5,400,000 (M) bags a year.

Miss Truman's Concert Praised

ST. LOUIS, Oct. 31 (UP)—Margaret Truman's concert appearance here drew a second round of favorable reviews today.

St. Louis critics, who wrote that "Miss Truman is a sincere artist with distinct promise" after her debut Saturday night, said she sang with "more ease" at last night's concert with the St. Louis Symphony Orchestra.

Dressed in a blue crepe gown, she sang to a nearly packed house. Only 30 of the 3,563 seats in the Kiel Auditorium opera house were vacant.

Both performances have been attended by much of St. Louis' top society. Vice-president Alben Barkley and his bride-to-be, Mrs. Carleton Hadley, were in the audience Saturday night.

"She was wonderful," he said after slipping back stage to congratulate Miss Truman after the concert.

Soprano Helen Traubel of the Metropolitan opera, said she "loved" the performance.

The Post-Dispatch critic, Thomas B. Sherman, said Miss Truman sang "agreeably and with taste."

STRIKES THREATEN TO IDLE MORE THAN 20,000

Texas faced the possibility today of seeing more than 20,000 workers idled by strikes this week.

The Houston area was the scene of most of the labor strife, although a strike of aircraft employees threatened at Dallas.

Representatives of the International Longshoremen's Association (ILA) and the Houston-Galveston Maritime Association resumed negotiations today, trying to reach agreements which would prevent a walkout of 10,000 dockhands, tentatively scheduled for 12:01 A. M. tomorrow.

J. E. Davies, chairman of the shippers' labor committee, said he was optimistic about chances of reaching a settlement before midnight.

Some 2,000 ILA workers who took "a fishing holiday" Saturday and Sunday, were due to return to the Port Houston Docks this morning to unload 20 freighters. The unexpected "holiday" forced inbound vessels to tie up at Galveston until berths were available.

An ILA strike would paralyze shipping throughout the Western Gulf of Mexico, from Lake Charles, La., to Brownsville, Tex.

Meanwhile, in Dallas, 4,100 members of the UAW-CIO failed to set a definite strike date at a mass meeting yesterday, hoping that the Navy would take a hand in a dispute at Chance-Vought Aircraft Corporation's jet plant.

The Navy purchases all of the output at the plant where workers last week voted to strike.

Five other shutdowns and threatened shutdowns confronted Houstonians.

More than 2,500 steelworkers continued on strike at Sheffield Steel Corporation. The stoppage bore a direct connection with the nationwide steel and coal strike.

Ending its third month was a strike of 350 CIO oil workers at Mathieson Chemical Corporation. A Harris County Grand Jury, after indicting for violence 22 persons connected with the shutdown, proceeded in its inquiry.

Taxi cabs have replaced Houston Airport Limousines as 75 Limousine drivers stayed away from their jobs.

A strike which would affect the city's bustling building program was threatened by 3,000 common laborers in the Houston building trade. The AFL workers demanded a 12-1-2-cent hourly wage increase after rejecting an offer of a 5-cent raise.

The Houston Transit Company's 1,100 drivers and mechanics voted last week to strike Wednesday after negotiations broke down.

Per voice projects will except in the lower range. A good ear was apparent in prevailingly accurate intonation.

Other key remarks were made by Harry R. Burke of the Globe-Democrat.

"Her voice was fluent and rich throughout its register," he wrote. "She used it with discrimination in phrasing, with clarity and fluidity."

but you know the reception I got—

"That's not anything to do with this!" Tod shouted.

"But where are you going to get \$800?"

He spoke in a defeated tone now, no longer strident with anger. "I wrote the guy a check. I'll have to sell the car. It's the only thing we've got that can be turned into cash."

Tod must have giving up the car. She remembered his almost childish pride in it when he had bought it last spring.

But the car was the only thing they could turn into immediate cash. It seemed like pouring money down a rat hole to get Joe out of this jam, for it was probably only the beginning.

Yet, remembering that Joe had been the only one of the Duncans that had shown her the least kindness when she and Tod had been living with them, she hated to demand that Tod refuse to help.

Tod got a good price for the car because it was practically new, but when \$800 was deducted, there wasn't much left. Worse than spending the money to get Joe out of a jam, was Tod's sense of divided allegiance which tore him between Ma and Jenny.

Joe left town and Ma was upset about that. If he missed going to see her she phoned the trailer camp, petulantly demanding why.

Tod's visits to her dingy foul-smelling little walk-up apartment were anything but pleasant. Ma seemed to keep him discontented and flustered.

They quarreled one night, when Ma found out Jenny was going to have a baby, and Ma said a lot of hateful things. And when Tod tried to defend Jenny, she screamed at him. "All right, go ahead, kick up for Jenny. But you don't love her. Sooner or later you'll come to your senses."

He slammed out of the apartment. He walked to the corner in the brisk November air, and the anger gradually died out of him. How did Ma know? Could Jenny tell too?

He turned his back to the wind and started walking.

Hijackers Take Automobile, \$75

HOUSTON, Tex., Oct. 31 (UP)—Hijackers took \$75 and a car from a parking lot here last night, and police believed they also kidnaped the 47 year old lot attendant.

Police found a hat, coat and sweater in the office run by night attendant, Holman Taylor Simmons. The cash register was empty, and a two-toned blue Hudson sedan was also missing. The car was owned by realtor R. Y. Barrett.

Simmons' absence was discovered at 5 A. M. when Luther Butler arrived at the parking lot to relieve him from work.

Frank Wetzel, manager of the lot, said Simmons was "an old and trusted employe and would not leave voluntarily."

France Mourns Death Of Cerdan

PARIS, Oct. 31 (UP) — All France mourned today the death of Marcel Cerdan, her 33-year-old former middleweight champion who was the country's greatest sports figure since Georges Carpentier.

Practically every frenchman was sure that Cerdan would bring the title back to France after a scheduled bout with New York's Jake Lamotta. When he died in an airline crash last Friday the nation's ring hopes went with him.

Most newspapers honored Cerdan's memory during the weekend with special editions containing biographies of the Casablanca boxer and pictures taken during his career. Many fans gathered in the streets to discuss the aerial tragedy or talk over the bouts in which he defeated Tony Zale, Georgia Azares airlines crash last Friday Lavern Roach.

Jean Cocteau, internationally renowned poet and film producer, summed up the nations grief when he said, "we are not mourning for a man capable of beating another man but for a man who was beaten by the elements."

Three-year-old Bobby was trapped in the well, 14 feet below the ground, in the back yard of his East Austin, Tex., home. While Miller held the child, two other workers enlarged the hole with tinsnips. Bobby was wedged in the eight-inch casing for three hours before he was freed. He was not hurt seriously.
