Saul Pullman Issues Formal Announcement

Saul Pullman, 25, Eastland attorney, has formally announced as a candidate for State Representative for the 63rd District. The District is composed of Callahan, Eastland, Palo Pinto, Shackelford and Stephens Counties.

Pullman, a graduate of Texas Christian University as well as the University of Texas Law School, has lived in Eastland his entire life and is the son of Mr. and Mrs. Henry

Pullman who are pioneers of Eastland.

His announcement is as follows:

I am the only candidate who is a lawyer, and who has graduated from college. I feel that if a man is going to be a strong Representative for the 63rd District, he must have graduated from college so that he can give full time to the people of these five counties whenever they call on him. I know from my own experience at the University of Texas, that many members of the legislature were attending law school with me. This I feel is a great injustice to the people at home that sent

SAUL PULLMAN

these men to Austin to represent them."

"My decision to become a candidate for the Texas House of Representative stems from a keen sense of duty in government affairs. It is the responsibility of every citizen to give of himself to truly make this a government of the people, by the people and for the people. The increased demands of legislation at the state level and the complexity of state government calls for aggressive and intelligent representation. I believe that my education at TCU and the University of Texas Law School qualifies me for this public office.

"I believe that a state legislator should not go alone to Austin. He must work in harmony with the county delegations and receive ideas and aid from a cross-section of his District. He must acknowledge that it is the people who send him, to represent them and he must follow their suggestions."

There are no real issues

In this race because none of us candidates have held the office before. All the laws that have been passed are the law and we had nothing to do with it. We should look to the future and do what the people of these five counties want. As your State Representative I pledge full time, energetic positive representation in Austin for our District.

"I believe that the government should use the same prudence which in private life would forbid our paying money for unexplained projects and not have unexplained disposition of public money. If this is followed I feel that our present source of revenue is sufficient without an increase in taxes."

"If I am elected your State Representative the best interest of the 63rd District will be my constant goal."

The narcotics charge followed a 26-mile chase through the county last February when an attempted routine check-out by Liquor Control Board agents failed to stop Orman in Cisco. In town to close a private club, Agents C. D. Crain and O. D. Wallace spotted Orman and gave chase when he failed to stop for a check. Heading north on Highway 360, his souped-up Chevy out-distanced the agents, and he turned off onto a farm-to-market road, intending apparently to double back into town. The agents radioed back and got Cisco police, the constable and the sheriff's departments for assistance.

"Cleaning his car apparently was his undoing," Sheriff L. E. Sublett said at the time. The agents reported that they saw Orman throw something from his car during the chase, and when the package, being light, didn't quite get off the right-of-way, Orman had to double back and toss it again, this time into a pond, where, its lightness kept it afloat.

The parcel, wrapped in cellophane contained about a pound and a half of marijuana, in two forms — some loose in a bag, and a small bale. Officials estimated the total value to be from \$4,000 to \$5,000 on the pusher market, and from \$1,000 to \$1,200 wholesale.

Orman was charged in Eastland Justice of the Peace Wells Dalton's court with possession of narcotics. He was locked up in the county jail, but made bond in the amount of \$5,000 and has been free since.

Since that time, however, the Negro's problems have been complex — he's been shot at, and hit with a shotgun blast, and had dynamite thrown into his yard in Cisco. Officials also discovered some 14 pints of whisky along the highway and 30 cans of beer in Orman's auto. He was also charged with possession of beer in a dry area, for which he posted another \$500 bond.

Case against the man apparently will be pegged to a

small batch of marijuana found loose in the floorboard of the auto. Penalty for conviction on the charge is from two years to life, Dalton said.

Sheriff Sublett reports that he has had repeated information about dope being present in the county, and that the marijuana cigarettes sell from 50 cents to \$1 each. (Such cigarettes are the traditional "hookers" for youngsters, he said.)

Officials also got a search warrant from Cisco Justice of the Peace W. L. Lewis and searched the Orman home where they reportedly found little more than "money," according to Sheriff Sublett.

Orman's court record is as follows:

Six convictions, on pleas of guilty, in county court for liquor and beer violations (possessions and sales), in May and December, 1956, and three in April, 1961. He drew \$100 fines in five of these cases and a 30-day jail sentence for one of the April, 1961, convictions.

He pleaded guilty in May, 1959, waiving jury, to a violation and was fined \$150. An earlier conviction was set aside in the district court.

Lady, you'll just love flameless electric cooking . . . it's so accurate

When you cook electrically, there's no guesswork to it. You simply select the cooking heat you want and you get the same heat from the same setting every time. Only an electric range gives you accurately measured heat on all four surface units and in the oven. Foods will cook to perfection without attention while you're away from the kitchen. And you can repeat recipes with confidence of the same perfect results every time. Accuracy is one of the many reasons why you'll just love flameless electric cooking.
