the Streets.

Some little anxious curiosity was accasion d this morning on the streets by the appearance of a 9-months-old mother, it appears, was out shopping and would leave the infant in its buggy at the front door of the various places she visited while she made her purchases. Passersby would see the child and in each instance a curious crowd would gather because of the child's extremely emaciated condition. The rumor got circulated that a child had been descrited at some particular dry goods house where last seen, but this proved to be only an exaggerated report. The mother explained that the child had been ill, because of an effort to sustain life by the use of prepared baby foods, but that now it was improving since she had been using cow's

AN EXAGGERATED RUMOR SET AFLOAT

Dead Fish Story That Wouldn't Keep -Water Supply Slightly Helped-Dam in West Fork Damaged.

Since the heavy rain of Saturday a rumor has been circulated that dead fish have been found in the lower part of the Clear Fork and at the junction with West Fork, and in addition that others had been scooped out in a half dead condition. The rumor also said that some of these fish had been brought up town by negro boys and

The cause of the poisoning is said to be the waste and drip of refuse from the Fort Worth Gas company's plant which accumulates in Robinson's branch until a gully washer, such as occurred on Saturday comes along and carries it down into the river.

Owing to the drouth a temporary dam has been placed across the Trinity below the junction of the two forks in order to reinforce the water supply. The rush of waters from the downpour carried away about 12 feet of this little dam and all this scum from Rotenson's branch was carried through and down the river. As a matter of fact but one fish is authentically reported as having been found in a comatose condition, a German carp 8 or 10 inches long, so that no alarm need be felt over any disastrous results from an

The University of Texas catalogue is a volume of 342 pages, full of information concerning the work and equipment of the state's great educational enterprise. With a system starting with the primary grades and extending through the intermediate, grammar and high schools, with the university as the crowning step, Texas has an educational edifice in line with the best thought of the times and of which any state might feel proud. The generous endowment provided for the system, if properly supplemented by appropriations from the general revenue, will ultimately put Texas to the forefront in educational affairs. mand in the United States army.

Princess Alice of Monaco, from whom Prince Albert of Monaco has just secured a limited divorce, was formerly Miss Heine of New Orleans. Only a limited divorce was granted, because the prince is a Catholic and could not ask for an absolute decree.

The Princess Alice of Monaco and Monte Carlo, who may be said to be the only American woman who has

really occupied a throne, was originally Miss Mary Alice Heine, the daughter of a New Orleans Hebrew banker. Twenty-seven years ago, while visiting Paris, she became the wife of Duc Richelieu d'Aiguillon et Fronsa. After six years of life with the Frenchman, who claimed direct descent from the famous cardinal's sister, she was left a widow. In 1891 she became the wife of the Prince of Mon-

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which

dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains. S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism THE SWIFT SPECIFIC CO., Atlanta, Ga.

Judge Dunklin in the Forty-eighth district court this morning overruled the motion argued last week for a rehearing in the Jeff Van murder case. The ceremony connected with the

action of the court today was brief. Judge Dunklin said: "Gentlemen, I have given this case careful consideration, and in my opinion I think the motion should be overruled, and I shall so order."

Attorney Bowlin, one of the attorneys for the defense, arose and said: "Your honor, we except, and I give formal notice of appeal to the court of criminal appeals. We will make an effort to have a statement of facts prepared within ten days."

With this the prisoner was escorted back to his cell in the county jail by Sheriff Clark and Deputy Dillard.

Evidently Van was of the opinion that he would get a new hearing, for immediately following the court's ruling his face flushed, though even this evidence of emotion was slight. Van never has showed evidence of concern, consequently this slight show of disappointment was noticeable to the court officials and others about the court room. However, this soon passed away, and the prisoner arose, shook hands with his attorney and walked away with the sheriff.

The court has two other motions under consideration which were argued last week.

Divorce Granted. Judge Smith, late Saturday afternoon, heard an application for divorce, and granted same, filed by Minnie

Gagnos vs. Mike Gagnos.

Charged With Forgery. Deputy Sheriff Eugene Brock returnd yesterday from Alexandria, La., bringing with him as a prisoner a man named Kimerk, wanted on five forgery tharges. been forged had no existence.

Deputy Sheriff Dillard Saturday aight arrested Jack Little, the grand ury having found two indictments against him-one for theft of over \$50 and another for perjury in connection with the case on examining trial before Justice Mullins. This is the case in which Little was held in \$750 bond for the theft proposition and Oscar Galloway was released. Galloway was later indicted and gave bond. Little gave bond in both cases Saturday night and was released pending trial.

Suits Filed. A. J. Roe vs. J. M. Logan et al.,

Willie Muskewitz vs. Charles Muskewitz, divorce; cruel treatment alleged. A. M. Smith vs. William Eagle et al., trespass.

Courthouse Notes. The county commissioners are in lession after a three days' recess. Sheriff Clark will go to Galveston tolight to attend the State Democratic

tonvention Joe Minnick, Democratic nominee or sheriff of Ellis county, is here today und called on Sheriff Clark.

Judge Stilwell H. Russell of Ardmore, l. T., is here today looking after legal natters in which he is engaged.

Doc Foster pleaded guilty before County Judge Harris this morning on charge of gaming, and was fined. The rest and toilet rooms for ladies are about completed at the northwest intersection of the main hallways of the court house.

RAILROAD

WANTS ANOTHER RAILROAD.

Tyler Moving for a Fourth Line, One

Not Owned by the Gould's. Tyler wants another railroad and is casting about in an endeavor to secure it. She has three railroads now but they are all under the control of the Goulds. Another line, under the control of other interests it is believed by the people would be a great benefit. To this end a mass meeting was held to devise ways and means. L. L. Jester was made chairman and R. Bergfield secretary. Addresses were made by Col. W. S. Herndon and ex-Senator Horace Chilton. A resolution was introduced which is to be submitted to the business men of the city pledging 50 per cent of their business to a new line for a period of three

One proposition, which was favorably considered, is to construct a tap to the Texas and New Orleans, which can be reached in a distance of eighteen or twenty miles. Considerable enthusiasm was displayed and another meeting was called at which definite action will be taken and actual work begun by the appointment of committees to develop the matter.

THE ARKANSAS AND CHOCTAW.

Frisco Making Extensions and Aban-

dons Sherman-Lawton Line. A dispatch from Madill, I. T., states that Johnson Bros., who have contracts for Frisco extensions have let sub-contracts on the Arkansas and Choctaw, which is now a part of the Frisco system, for extensions from Ashdown, Ark, to Hope, Ark,, and from Scullin, I. T., on the Frisco main line to Sulphur. The work on the latter stretch will begin July 21. The grading on both extensions will be pushed as rapidly as circumstances will permit.

The recent acquisition of the Arkansas and Choctaw has led the Frisco to abandon the proposed extension from Sherman to Lawton, Ok., and the surveyors in the field have been called in, the Arkansas and Choctaw reaching the same territory that was sought by the Sherman-Lawton line.

As soon as the Arkansas and Choctaw is completed to Ardmore train service will be established from Texas points via Madill

The Frisco began the operation of the Arkansas and Choctaw yesterday, when the property was delivered to it. The old employes of the Arkansas and Choctaw were laid off and it is said there are 200 of them now at Durant, including engineers, conductors and laborers.

Grade-building began today on the Dallas, Cleburne and Southwestern railroad, the start being made at Cleburne. A camp has also been established at Midway schoolhouse three miles from the city and dirt throwing will proceed in both directions from

that point also. A settlement has been made by the company with the car men and blacksmiths in the Katy shops at Denison on the wage scale. The adjustment gives the car men an increase of 10 per cent and the blacksmiths will receive from 15 to 25 cents more per

day than formerly. The Sixth Annual convention of the National Association of Railway agents will be held at Minneapolis, July 22, 23, 24 and 25. One of the features will be the address of President Mills. Addresses of welcome will be made by Mayor Ames, President Paul of the Commercial Club and Local Agent Miles of the Baltimore and Ohio Southwestern.

The railroads have determined to deny the request for a still lower rate to Galveston for the state convention. The rate named, one fare plus 10 per cent for distances over 100 miles and four cents per mile for lesser distance,s will stand. Galveston's plea was that unless a very favorable rate were made the crowd would be small as little excitment is promised before the

THE WIND BLEW AND THE RAIN FELL

Saturday and Sunday Good Rains Were General Throughout This Region, Preceded by Wind Which Did Some Little Damage.

There was no sort of foolishness about the rainfall on Saturday afternoon. Preceded by a strong wind causing a sand storm, the rain began falling about 4 o'clock and continued for an hour or more without cessation. Wind and electricity played an accompaniment during the entire time, both of the latter doing much damage hereabouts. The wind toyed with everything not securely fastened down, and the lightning touched up everything in its paths, damaging telephone, telgraph and other wires, in many in stances temporarily disabling tele

phone and telegraph instruments. The only structure so far reported as having been struck in the city was the court house. While the damage there was not material, the nerves of those about the building were wrought up to a pitch almost unendurable.

It is reported that at the old Daggedt homestead the wind played havoc with the porches of the building, but the family escaped injury by getting into a storm cellar.

The house of A. C. Simmons, 211 Hays street was wrenched about and some of its contents disarranged. The family escaped, however, without in-

A number of phones in the packinghouse district were put out of use by electrical shocks, and the instruments in the Postal Telegraph office there were disabled for a time.

The rain gauges show that from an inch and a half to two inches of water fell. Many basements were flooded, and the gutters along Main and Houston streets overflowed, as did many in other portions of the city. All this was accepted graciously, however for the rain was so badly needed that even greater inconvenience would have been endured in patience.

Today's Advices.

Cutside advices show the rainfall of Saturday and Sunday not to have been general, but pretty nearly so. Grape vine and Lancaster, north on the Cotton Belt, report a splendid fall; Mineral Wells and Gordon, west, in Palo Pinto county, report a two hours' fall; Boyd and Chico in Wise report a steady downpour; Erath and Hood counties report good rains in various sections; Savoy, in Fannin county sends in report of grateful precipitation; Glenrose in Somerville reports one of the best rains in many months; report comes from El Paso that the Van Horn county is deluged; Wills Point in Van Zandt county reports tanks full; Denton, in Denton county reports slow showers; Eastland in Eastland county reports a very heavy precipitation; Waxahachie reports good rain, pretty general in that section; Terrell says "a fine rainfall." Red River county sends in report from Clarksville with banners flying and crops abundant; Hill county reports a good season; reports from Hereford, Lockney, Matador and Wichita Falls in the Panhandle are to the effect that cattle are fat and crops have seldom promised more: Walnut Springs and Morgan in Bosque county report good rains with cotton looking good, also late planted feed stuffs.

Clarendon, Thorp Springs, Albany and Mineola report good rains. Rain fell steadily in Dallas for three hours yesterday afternoon. It was at no time heavy and was taken up by the earth almost as fast as it fell. Texarkana, Paris, Denton and

Weatherford all reported good rains yesterday afternoon. The angriest looking clouds imagin-

able were noted to the north, northwest and west for two hours before dark and long after nightfall yesterday, and there is no question but that the Clear and West forks of the Trinity will show evidences of these sections having received copious rains. There was but slight rises noted in either of the streams up to yesterday afternoon, but weathermen and watermen say the rise will come

The Rock Island reports good rains all along its line from here through the Territory.

The Frisco reports that rains fell in both directions, to Brownwood on the one side and for a long distance north-

From the Fort Worth and Denver general offices it is learned that good rains fell at Decatur, Bowie, Henrietta, Carlyle, Wichita Falls, Iowa Park, Vernon, Memphis and Estelline. They also say that corn is in fine condition above Quanah; cotton in that section is also good; below that point corn is

poor, while cotton is doing well. The Texas and Pacific says that rains are reported at various points along the line. The heavy rain that fell here on Saturday, however, extended west only as far as Aledo. At Denison a heavy rain fell on

The trouble with one political party having an overwhelming majority in any certain political division of the country is that it has a tendency to prolong conventions. Here in Texas where a nomination on the Democratic ticket is equivalent to an election. 1700 ballots were taken in a Democratic senatorial convention without a choice, and about as many ballots were taken in a congressional convention. They still have some more balloting to do and it is hoped that they will be able to reach a nomination before election day.

INSIST ON TAKING OFFENSE.

People who take offense easily style themselves sensitive and feel rather proud of the quality, but the real trouble with them is excessive vanity. This is the plain, homely truth, even though it be not relished by sensitive souls who hail every excuse for going into

the sulks. Sensitive people may be very good and estimable folk, but they cause much worry and pain to their friends. If a man has a few sensitive friends and relatives, of whom he is fond and whom he would not offend or hurt, he may count on becoming prematurely bald, for his efforts to satisfy their exacting and whimsical natures will take the sap out of his hair.

He may have a dining room which will seat comfortably a dozen persons and no more. Some day he will give a | Co.'s.

dinner to which these dear but sensitive friends will not be invited, the reasons of their omission being that his table will be filled without them, and that, if they were to come, the company would not be congenial. The man would have them, if only his own pleasure and convenience were to be thought of, and he dislikes to omit them, but he must. He has had them for dinner many times, and he thinks poor man, that they will understand the case and excuse him. But they won't excuse him. Sensitive natures are not built that way. They never excuse anybody, and they like nothing better than some scintilla of cause for declaring that they have been slighted. They distort the most innocent and neutral actions into monuments of offensiveness. The unwitting offender, who generally has a deeper, truer friendship for the offended parties than the offended parties have for him, is compelled, then, to demean himself and beg pardon almost on bended knees and placate the wounded vanity of the sulky persons before the old relations are resumed. This grows tiresome, in time, but a man must keep it up or lose his sensitive

There is no way of escaping these

troubles, if one has sensitive souls sist on having the sulks, now and then, if only for the love of sulking. The vanity which makes a soul sensitive hungers for that attention and conspicuous position which are given to an offended friend. One cannot send out invitations to any gathering, from a wedding to an informal tea, without sending sensitive creatures into fits of hysterical rage and grief. Let a girl get married and she will find out how many of her friends will have the tantrums. In the first place, no matter how quiet or private the wedding, a multitude of mere bowing and speakcause they were not invited to the church. Then half of those invited to the church will be displeased because they were not invited to the breakfast or to the reception. Finally half a dozen intimate girl friends will disbecause they were not asked to be bridesmaids. The groom will have his troubles, too, and the wedding, instead of being an occasion or pure joy, as it should be, will be clouded by the heartburnings of esteemed but sensitive friends. If these friends really cared as much as they pretend for the innocent offender they would suppress their feelings and not disturb the peace v. mind of those whom they say they love. If van y did not blind their judgment, these sensitive souls would see that no slight was intended, and that there is no just ground for taking

Most of the little quarrels and disputes which alienate friends spring from nothing and could be prevented if common sense were used.

An editor who knows whereof he speaks is responsible for the following: "Town killers are classified into nine separate bunches, as follows: (1) those who go out of town to do their shopping: (2) those who are opposed to improvements; (3) those who prefer a quiet town to one of push and business; (4) those who imagine they own the town; (5) those who deride public spirited men; (6) those who oppose every movement that does not originate with them; (7) those who oppose any movement that does not appear to benefit them: (8) those who seek to injure the credit or reputation of individuals; (9) those who take the town paper and do not pay for it."

WHY 147,000 MINERS WENT ON STRIKE

By SAMUEL GOMPERS, President of the American Federation of Labor

IY are 147,000 anthracite miners on strike in Pennsylvania? The question is easily answered. For more than twenty-five years the condition of the miners in the anthracite coal districts has constantly grown worse. In season and out they have suffered reduction in wages.

Their necessaries of life, including the powder used in blasting coal and the tools of labor, they have had to buy from the "company stores" at prices in excess of what they could be purchased for elsewhere. They have been obliged to live in the company's "boggs," called dwellings.

Nearly two years ago these miners, after a protracted struggle, succeeded in compelling mine owners to increase wages 10 per cent and to make some other changes and improvements. As is well known, cost of living has largely increased since. The miners, feeling their condition keenly, presented to the employers the follow-

An increase in wages of 10 per cent. A ton of coal to consist of 2,240 pounds. The appointment of a man by the miners to witness the weighing of the coal.

THE MINERS ACTED NOT ONLY IN A CONCILIATORY SPIRIT. BUT WERE WILLING TO SUBMIT THE CASE TO ARBITRATION. THIS THE COMPANIES REJECTED.

The questions in dispute are matters of fact, not of principle: hence there can be no good reason why the companies should reject arbitration. TWO MONTHS ELAPSED BETWEEN THE FORMULATION OF THE DEMANDS AND THE INAU-GURATION OF THE STRIKE.

When it is borne in mind that the anthracite coal region is limited in the possession of hard coal, that there is always a demand for that product and, further, that these mine operators and the railroads are one and the same persons, controlling the entire output as well as the price for which coal is sold, it is not difficult to see that there is some other motive than the one advanced behind the refusal to grant the miners' reasonable requests.

THE CONDITIONS BY WHICH THE MINERS HAVE BEEN SUR-ROUNDED, THE MISERY WHICH WAS THEIR LOT, MUST NEVER AGAIN BE POSSIBLE. THEY HAVE MOVED UPWARD AND ON-WARD IN THE SOCIAL AND INDUSTRIAL SCALE.

THE LAST OPPORTUNITY.

This Is Positively the Last Chance for Getting Free Services at the British Medical Institute Located at Rooms 2 and 3, Dundee Building, to all Who Call Before July

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the Institute in this city, at rooms 2 and Dundee block, corner Seventh and Houston streets.

These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment between now and July 27. Their services will consist not only of consultation, examination and advice, but also of an minor surgical operations.

The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted. and under no conditions will any charge whatever be made for any services rendered for three months, to all

who call before July 27. The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so; also advised against spending your money

for useless treatment. Male and female weakness, catarrh, and catarrhal deafness, also varicocele, rupture, goitre, cancer, and all diseases of the rectum, are positively cured by their new treatment.

The chief associate surgeon of the Institute is in personal charge. Hours 9 to 8. Sundays 10 to 1.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Smallwood & Anderson, and Anderson & Smallwood.

EXCELLENT PAPER READ BY COMRADE W. T. SHAW.

Effort to Identify Graves of Deceased Comrades-Amendment to Constitution Relating to Unauthorized Soliciting-Good Meeting

There was a good attendance at the meeting of R. E. Lee Camp, United Confederate Veterans, yesterday after noon. Commander Taylor presided and other officers were at their posts. After devotional exercises, conducted by Comrade M. T. Pankey in the absence of Chaplain Sellars, and the reading of the minutes the committee on membership returned a favorable report on the application of John J. Howard, Co. H, Ninth Louisiana Infantry, army of northern Virginia, who was thereupon elected to full membership.

Adjutant W. M. McConnell reported \$24.20 more as receipts from old fiddlers' contest, and that there were yet three comrades who had not accounted for the tickets given them.

ed that a paper had been prepared by Comrade W. T. Shaw for this occasion on the "Utility and Scope of Our Organization." In making the announcement, Judge Cummings took occasion to allude to the facts that the writer was a native Texan, that his father was a Texas veteran of 1836, and that his grandfather was a soldier of the war of 1812. Mr. Shaw said: "The utility and scope of our

organization.

"We have selected the above caption as the foundation of a short paper, not because we feel competent to say anything particularly new or instructive along this line, but simply hoping to contribute some little mite towards the encouragement and perpetuation of our grand and noble work. It is a common error by those outside of our ranks to regard us as simply engaged in an unnecessary agitation of old and settled questions and a revival of old prejudices. These are but natural errors for the uninformed. No one but the Confederate soldier himself can fully appreciate the depth and pathos of feeling growing out of years of tragic experiences backed by firm convictions and high ideals that form the basis of fellowship and brotherhood of this organization.

The first and most directly practical motive of our coming together is true benevolence. We have been common sufferers in a common cause during the vigor and buoyancy of our early manhood, why should we not band ourselves together to lighten the burdens of the needy and unfortunate among us in our declining years? This is but comman humanity.

"In this noble work we wish to give due credit to our associate members through their contemporaneous organizations, the Daughters and Sons. Without their sympathy, co-operation and constant assistance our labor of love would have been greatly circumscribed. In raising funds to supply our oft depleted treasury they have ever been willing, energetic and resourceful. In fact, without these two organizations the usefulness of the parent one would be short lived and incomplete. In the natural order of things our members must grow less. The speaker is perhaps one of the youngest members of this camp and he wall soon be 57-was a mere kid in the army. Our older and feebler members must of necessity continue to deplete our ranks with no recruiting material to take their places. Hence our dependence upon our Sons and Daughters to perpetuate and complete the good work we have begun. In this connection it may not be out of place to commend the splendid system developed by our local camp and executed by our efficient and faithful executive committee of distributing our funds to needy. It is truly done in decency and in order, without ostentation and with due consideration for the feelings of

"The next prime motive of our organization is the preservation of correct history. This work is destined to be far reaching in its influence upon the thought of our time. The Confederate soldier himself will soon be gathered to his final resting place, yet in his bosom rests a knowledge of facts and experiences indispensable to a correct understanding of the causes and results of that great struggle in which he was a conspicuous participant. Nothing is better calculated to bring to light these facts and put them in some enduring form for the future historian than the discussions of our local camps and the reunions of our state and national organizations. Again, who is better fitted to continue this work of justice to the Southern citizen soldier and the cause he represented than our Sons and Daughters in their organized capacity?

"The third and last but not least of the leading achievements of our erganization is the perpetuation of Southern ideals. It is time that we are non-political in so far as practica. politics are concerned; yet the discussions of fundamental constitutional questions involved in the war between the states from platform and press and in our local camps are well calculated to perpetuate our Southern ideals in that struggle were settled by its results. Nothing could be further from the truth. About the only thing that was effectually settled was the emancipation of slavery, a mere incident to the war. The South fought to preserve the constitution under a strict construction, and this is the fundamental tenet of our Southern statesmen today state sovereignty but was persuaded after four years' active burning of pow- as follows: minority of the states to successfully

SONS HAD GOOD MEETING.

Getting Matters in Shape for the State Reunion.

The attendance yesterday at the Sons' meeting was composed of a much larger membership than at any time since the National reunion. The members present yesterday are very much in earnest about attending the state reunion to be held at Dallas, July 30

Commander O. S. Gillespie presided and Assistant Adjutant Porter Key looked after the minutes. All present paid the annual dues, 35 cents, and the adjutant was instructed to bestir himself this week and the next in collecting the annual dues in order to create a much needed fund to defray the expenses of the Camp's sponser Comrade J. H. Murphy, chairman; J. next national reunion to be held at New Orleans in April of 1903. The amount is small, and it is urged that

every one of the 1200 members sec the adjutant this week or come to the meeting Sunday or the next Sunday and pay up. The dues were raised from 15 cents, as paid last year, to 35 cents in order to do away with the feature of begging for funds to defray expenses. The per capita is 20 cents per annum-10 cents to the national and 10 cents to the state (after next meeting), and 10 cents to the adjutant for collection-leaving only 5 cents surplus for incidentals. This is, indeed, a very small amount and no member should neglect to pay it at once. The Fort Worth camp of Sors is the largest in numbers of any camp in the federation, by several hundred, by reason of which membership it has 105 votes in the national and state reunions. This vote holds good until after the state meeting at Dallas, after which the camp must make an effort to keep up its membership or fall by the wayside; and no son of a confederate veteran should permit, by reason of indifference, the last suggested re-

The camp is entitled to 105 votes at the state meeting, and one delegate cr one thousand can present this vote, it is urged, however, that all who can go should do so and take active part in the deliberations of the meeting and help Fort Worth to represent its membership. An effort will be made this week to secure the names of at least 100 delegates who can and will atttend the state meeting, and yesterday the following members authorized their names to be enrolled as delegates, each one being a committee of one to secure additional names and report them to the meeting next Sunday. Any member not seen, and who can go, is requested to call at State Commander John Adams' office, corner Sixth and Main streets, and register his name as a delegate: O. W. Gillespie, W. R. Booth, G. At yesterday's meeting an invitation was read from Mrs. O. A. Carr, president of the Carr-Bendette college at Sherman, urging the Sons to visit the college at any time an opportunity pre-sented. A poem on the "Lost Cause" was also read, composed by students of the college. The invitation was gracicusly received, and it, with the poem, was ordered filed with the archives of the camp, and the adjutant instructed to acknowledge receipt of the docw

Corsicana 2 Fort Worth 2 The two games played yesterday between Fort Worth and Corsicana were a fine exhibition of ball playing and the spectators were well pleased with everything but the outcome, for they would have been glad to see the honors at least divided. Corsicana's crack team was too much for the Panthers each time. Fort Worth's batting was better than usual but the excellent fielding of their opponents rendered it unavailing. The usual lack of base stealing also tended to render

OVER A SUNDAY IN POLICE CIRCLES

Found a Dead Baby on River Bank-Crooks Rounded Up-Charges of Assault, Drunks and Vags.

Saturday night and Sunday, according to the police register, show much activity in police circles, but only one case of real seriousness. That was the find of a dead infant on the river side west from Samuels avenue. Some strolling boys discovered the infant, wrapped in newspapers and flannel. They reported the find to police headquarters, and Officer Coley and Patrol Driver Moss went out and brought the corpse to a morgue, from which place it was buried today without identification. The child apparently was about 3 months old, and had only recently been placed where found, those who did so evidently hoping a rise in the stream would float it away. The officers are making an effort to locate the child's parentage.

Shop Lifters in Trouble.

Officers Coley and George on Saturday night locked up two negroes named Henry Brown and Lon Atkins on charges of shoplifting. A number of clothing establishments had from time to time missed wearing apparel, and these negroes, it was found, had sold to pawn shops and second-hand dealers a number of pairs of pants. The negroes were arrested and the purchasers identified them as being the men who had sold the stuff to them. Several pairs of pants were in this manner recovered and this morning the negroes were transferred to the county authorities.

Wanted in Ennis.

Officers Zimmerman and George arrested a negro named Fernando Cook, wanted in Ennis to answer a charge of seduction. An Ennis officer came today and took Cook to that place for

Charges of Assault.

Officers Speight and Howard arrested and locked up another negro named Shiner, charged with assaulting his aged father by hitting him with a rock. Charles Smith, a negro, was locked up for a murderous assault on another negro named Phil Smith. The difficulty occurred early Sunday morning. The former took a shot at the latter, but im was wild. The negro who did the shooting claims the negro at whom he shot assaulted him on Saturday night, and the shooting was in retalia

public place.
