

Rail Strikes Sterley Area

all struck again at Floyd county farmers late Tuesday in an area around Sterley was some damage amounting to most 100%. According to reports reaching The Beacon, farms of K. Glover, Bill Johnson and Bert Lee Smith suffered almost damage to cotton while son and Alvie Davis had a 50% damage. Others remaining considerable cotton damage were Joe Reeves, Jim Bert Pitt, W. B. Mullins, Horton Bell and possibly others in same area.

Alburn Casey had some hail damage to his home but his cotton on section west of his home was not damaged. The storm struck about 6:30 p. m. bringing with it moisture ranging from .8 at the Casey place to 1 1/2 inches at Mason's place. Sterley received 1.1 according to a report from B. A. Bell.

Lockney and a number of other towns in this area were without lights for an hour or more also Tuesday night when lightning hit the Tuco plant near Lathrop. Lights went out here at 8:15 and did not come on until after 9 o'clock.

\$5,000 Damage
A report from Southwestern Electric Service Co. Wednesday said that the lightning did \$5,000 worth of damage to their lines. The lightning struck the main 66,000 line at Tuco plant, blowing out the transformer on the Littlefield line also causing two more major outages at faults in the Tuco area. It was said.

A report from the company described the trouble caused by lightning as follows: The lightning created a high voltage condition of approximately 300,000 volts, which followed along the 115,000 line to Denver City plant, there blowing out the station power transformer. The lightning coming through the Denver City plant along the transmission line to Carlsbad, New Mexico. This surge completely deenergized the large 25,000 KVA transformer there.

This quick operation put out service three generating stations and the south portion of the 115,000 volt transmission

At 8:26 p. m. Tuco station was in and was able to hold load for eighteen (18) minutes but because of low voltage and low frequency the second outage was caused. At 8:40 p. m. the Amarillo and Borger generating stations were overvoltage and it was necessary that clear the lines.

At 9:00 p. m. the Denver City transformer trouble was found isolated. At 9:15 p. m. transformer troubles at Carlsbad also determined and isolated from the system.

At 9:30 p. m. the Tuco station back in service and the entire system loads were put back service at 9:50 p. m.

Amount of damage was estimated as follows: 6900 volt breaker at \$10,000; 25,000 KVA transformer at Carlsbad, \$120,000; transformer and switch gear at Denver City, \$30,000; damage to station, \$5,000; total \$165,000. There will be very little salinity in the entire loss, it was

Although the storm caused interruptions on the entire system Southwestern Public Service had 18 REA systems, the damage did not cause a shortage of power for the Panhandle of Texas and Eastern New Mexico, company officials said.

Woodson Terrell Loses End of Three Fingers

Woodson Terrell lost the end of his three middle fingers on his left hand Wednesday morning when his hand was caught in the fan belt of a tractor. Mr. Terrell was brought to the Floyd County Co-operative Hospital here where the three fingers were removed at the first joint.
The accident happened on the Roy Wilkes place near Sandhill. Roy and Woodson were trying to start a tractor and in the process Woodson reached into the fan just as Roy stepped on the starter, it was reported.

Council Allows Phone Rate Rise When Dial In

The Lockney City Council in a meeting last Thursday night voted to allow a raise in local telephone rates when Southwestern Bell Telephone Co. had installed and put into operation a dial telephone system here.

The matter has been under consideration here for several weeks. The telephone company officials approached the Council some time ago asking for an immediate increase in the rates with the promise that a dial system would be installed. The Council refused this request.

The installation of the dial system here will entail the construction of a building, installation of a complete new switchboard equipment and new telephones, it was said. It will require about a year under normal working conditions.

The rate increase will be as follows: business phones from \$5 to \$6, one-party line phones from \$2.50 to \$3.75, two-party phone lines from \$2.25 to \$3.25. It was reported here that there would also be some increases in rural phone rates but the amount was not available.

When completed the local system will operate through the Plainview exchange and there will be no local operators, telephone officials said. The local exchange now employs seven or eight operators. Using the dial system, local subscribers would have to call Plainview for information or long distance calls.

Baptist Revival Now In Progress

The annual summer revival of the Lockney Baptist Church is now in progress with Rev. C. G. Watt of Olton doing the preaching. Rev. Watt is preaching some very straight-forward sermons, it is reported, and the attendance is increasing every day.

Services are being held at 10 a. m. and 8:15 p. m. with the prayer groups meeting at 8 o'clock, just preceding the evening services. Leading the singing is Jack Armstrong of Plainview. The meeting will continue through next week, closing on Sunday, August 27.

Blood Banks Offer Services To Governor

The blood banks of the Texas Association of blood banks now engaged in the active collection and distribution of blood in civilian hospitals of Texas have offered their services to Governor Allan Shivers in his plan for the development of civilian defense. It was announced this week by officials of the Floyd County Co-operative Hospital here. The local hospital is a member of the Association.

Pointing out that blood will be an important factor in any type of catastrophe, the association president, Dr. W. G. Rice said that member banks are anxious to participate in civilian defense plans and cooperate with the civilian defense program. They are willing to use their facilities and personnel to ship blood on short notice to areas where needed and to locate and ship blood from nearest available centers to disaster areas.

PLOW CASEY LAND LAST FRIDAY

Friends and relatives of the late John Casey came to the farm Friday of last week and plowed out all the crops for Mrs. Casey. Mr. Casey was fatally burned last week in an accident at his home.

Fire Department Sponsors Show At Auditorium

The Lockney Volunteer Fire Department is sponsoring an amateur show here on Monday and Tuesday nights of next week, titled Uncle Ezry's Hayloft Jamboree. The show will be put on at the City Auditorium starting at 8:30 each night.

The show will be made up of a variety of acts by local people among them being Velma Seale and Dowell Brewer who will impersonate Lulubelle and Scotty. Songs and verses solving local people's problems will feature their act.

Bob Miller will appear as the beloved and doddering Uncle Ezry himself and his act promises to be a very good one. Mort Cerpenter will act as Master of Ceremonies and, being a master of ad libbing, he will probably put the show over in a big way.

A surprise of the show is to be a not-very-bright country boy, who comes to town to do some fancy cutting-up as Hiram Hicks.

"Fat" Steele and W. A. Harris have a number of jokes they're going to pull behind the safety of black-faced "Bones" and "Sassafraz."

There will also be an amateur contest as part of the show with singers, instrumentalists, chorus girls, and dancers as well as novelty acts, it was said.

On Tuesday night, all babies in the baby contest will be invited onto the stage and the winners will be presented with prizes and the King and Queen will be crowned and given loving cups.

Each night will have a different program, the sponsors say, and the public is invited to each night's show.

The local Fire Department will use their share of the money derived from the show to buy some equipment which the department has been needing, such as rain gear, oxygen masks, etc.

Advance tickets will be on sale at a number of local stores and those who plan to attend are urged to buy their tickets in advance. Each advance ticket counts two votes on your favorite amateur contestant while tickets bought at the door count only one. Tickets may also be purchased from members of the Fire Department and the contestants.

WARNING

The Highway Department and the Texas Safety Council have issued a request to the City Officials to be more rigid in enforcing the traffic laws of the cities and on the state highways. They have called our attention again to the fact that many people are ignoring traffic signs. They have asked that we help eliminate this disrespect.

As your city officials we plead with you to respect all traffic signs. We have had numerous accidents on intersections in the past weeks and we ask you to slow down in crossing these intersections and look both ways before you enter.

There will be more signs up soon. RESPECT THOSE THAT WE HAVE and the others as soon as they are up. REMEMBER THE LIFE YOU SAVE COULD BE YOUR OWN.
The City Officials.

Ladies Softball Tournament In Final Games

The Lockney Ladies team "fell apart" Wednesday night and, chiefly due to errors, lost to the Spurettes 20 to 4. The Lockney Hi team also lost to Abernathy 10 to 6. The Lockney Ladies will play Abernathy tonight (Thursday).

A ladies softball tournament which started here Thursday night of last week is going into the final stages this week with the final game scheduled to be played Friday night, weather permitting.

Eight teams from over this area have entered the tournament but by Wednesday of this week all but four of them had been eliminated. Remaining in the tournament were the Lockney Ladies' team, the Spurettes, the Lockney High School team sponsored by Lockney Rotary Club, and the Abernathy Ladies' team.

The Lockney Ladies and the Spurettes had not lost a ball game up to Wednesday and were due to clash Wednesday night. Also playing Wednesday night will be the Lockney High school team and the Abernathy ladies. Each of these have lost one game and the loser on Wednesday night will be eliminated.

On Thursday night of this week the loser of the game between the Lockney Ladies and the Spurettes will play the winner of the game between the Lockney High School team and Abernathy. Then on Friday night the winner of the Lockney-Spur game Wednesday night will play the winner of the Thursday night game in the finale.

The tournament started Thursday night of last week and three games were played that night. In the first game Abernathy defeated Plainview but the score was unavailable here. In the second game the Lockney Ladies defeated Providence 19 to 9 and in the third game the Spurettes defeated Hale Center, this score also being unavailable.

On Friday night, Lockney High School fell before the Spurettes, 16 to 5 while Providence defeated Plainview 19 to 17 and the Lockney Ladies defeated Abernathy 16 to 6.

On Saturday night Lockney High team ran away with the ball game, defeating Hale Center 26 to 0. The girls were playing excellent ball and hitting better than they have all season.

Also on Saturday night the Spurettes and the Spurettes played with the Spurettes taking the game 17 to 8.

On Monday night, the Lockney High School team won over Providence 12 to 11 in an extra inning game and Abernathy defeated the Spurettes 17 to 16.

Games scheduled for Tuesday night were called off because of power failure and the tournament was scheduled to be resumed on Wednesday night, weather permitting.

Cotton Insects Threaten Crops In Floyd County

County Agent Robert H. Gibson said Wednesday that the cotton insect situation in Floyd County was "just as bad as it can be." He stated that farmers must take immediate action to protect their crops from insects if they expect to harvest a crop next fall.

Gibson said that most of the cotton in Floyd County should be sprayed or dusted for leaf and boll worms now. Out of twenty fields inspected in the County every one of them needed to be sprayed or dusted immediately.

There is enough leaf worms in most of the fields to completely strip the leaves from the cotton in the next two weeks and boll worms were present in all fields.

Every cotton grower, without exception should make preparations for a sprayer or duster and secure enough poison to spray or dust his field at least twice. There is a shortage of poison and everyone should let your insecticide dealer know how much you will need so that he will know how much to order.

"I cannot over emphasize the importance of doing this," Gibson said.

The recommended poisons in dust form are 3 percent BHC plus 5 percent DDT plus 40 percent sulphur. This poison is commonly called 3-5-40. Another good dust is 20 percent taxophene plus 40 percent sulphur. These two dusts are the newest and best and should be applied at the rate of 10-15 lbs. per acre. If neither of these can be obtained calcium arsenate dust applied at the rate of 10-15 lbs. per acre will give good results on leaf worms but is not too effective on boll worms.

The recommended spray poisons are 2-3 lbs. pure taxophene per acre or 2-3 pounds of two parts taxophene and one part DDT mixture. This mixture can be obtained mixed in this proportion from your dealer.

At least two applications of poison should be applied at seven to ten days apart. The first spraying or dusting will kill most of the worms present at the time of application but does not kill the eggs and in 5 to 10 days the field is re-infested with worms.

The application of dust by airplane will give as good results as ground equipment. The use of dusts are just as effective as sprays. Either sprays or dusts are very effective when properly applied.

Every one should watch their cotton very close because the next fifteen days are very critical and a cotton crop can be made or lost, Gibson said.

Meteor Reunion To Be August 27

The seventh annual Meteor Reunion will be held at the Aiken Methodist Church on Sunday, August 27, it was announced this week. All former residents of the community or former students of the school now known as Aiken, are urged to attend and bring a basket lunch. Arnold Langfield is president and Mrs. J. C. Weathers is secretary.

Metz LaFollette Goes To Lubbock

Metz LaFollette, former high school basketball and football coach here, and more recently a pitcher for the Amarillo Gold Sox baseball club, has been traded to the Lubbock Hubbers for a third baseman it was announced this week.

LaFollette has won eight games and lost 11 as a pitcher for the Gold Sox up until the time he was traded. He previously played with Memphis in semi-pro ball.

To keep loaf cake from drying out, cut slices from the center as needed and then put the halves together again.

the peak of freshness in a very short time. The supply of Grade B eggs is also increased because young pullets, which are just coming into production at this time of the year, lay eggs which will not measure up to the higher egg grades, particularly in weight.

Eggs are rich in blood building substances, iron, and its helper copper. They are good sources of bone building materials, calcium and phosphorus. They are rich in Vitamin D which is essential in bone building. They are valuable for their Vitamin A content which helps keep the eyes and the thin layer of skin lining the internal parts of the body in a vigorous and healthy condition.

They supply some Vitamin B which helps keep nerves steady and some niacin which prevents pellagra. They contain fat of a quality that supplies quick energy. Therefore, Miss Mason says, the egg deserves the attention of the homemaker who plans and prepares family meals as well as the individual who eats out.

Shell color does not affect the flavor, the food value or the cooking performance. Neither is it a guide to yolk color. There is no advantage to the homemaker in paying more for brown or white eggs of the same quality and size.

High quality eggs, Grades AA and A, are ideal for poaching, frying and cooking in the shell, but Miss Mason recommends Grade B eggs as an economical product for general cooking.

ATTEND FAMILY PICNIC

Mr. and Mrs. Lewis Busby, Mrs. Nettie Hancock and children attended a picnic at Elwood Park in Amarillo Sunday which was a family gathering of Mr. Busby's relatives. Others attending were Mr. and Mrs. E. O. Baker, Mr. and Mrs. Ernest Kerr, Muleshoe; Mr. and Mrs. Lowry Mallory of California, Mr. and Mrs. Clint Busby, Mr. and Mrs. Jesse James, Mrs. C. L. Busby, all of Amarillo; Mrs. Bud O'Neil, Mrs. J. L. Shaw, Mr. and Mrs. Buford Arnold, and Mr. and Mrs. Dedderl Wayne Shaw, all of Tascosa.

Dinner guests in the Lewis Busby home last Thursday evening were Mr. and Mrs. E. O. Baker of Muleshoe, Mr. and Mrs. Ernest Kerr and Pamela of Muleshoe, and Mr. and Mrs. Lowry Mallory of California.

Mrs. Pepper Martin of Hart visited her parents, Mr. and Mrs. Johns Cox and family last Thursday.

I have had a lot to say about casting but it was mostly for the beginner because if he will learn the right way to cast it will always stay with him and he won't be ashamed of his casting in any company. But if he learns the wrong way he will have to break himself or herself and learn the right way and it will be much more difficult.

I guess there are some of you fellows that don't agree with my way of fishing, but everyone that fishes very much, has his own way of fishing and I would not want to change him. Most of our fishing is done for the sport we get out of it, and as for me I like to fish with a light outfit. My favorite rod is a six foot split bamboo with a light reel, and about a 9 lb. test nylon line. There is no question but that the split bamboo caster is the ideal rod for the most exacting work. No material can equal its action in all those little fine points that are so dear to the expert rod artist. But a bamboo rod must be a good one, or it will not merit rating over other rod materials. Good bamboo, the highest quality bamboo, must be well selected, long cured and painstakingly watched in order that the finished rod may have the wonderful action which has made the split bamboo so famous. Unless the fisherman is prepared to pay from fifteen to twenty-five dollars for a bamboo caster, he cannot expect to get a rod that will be markedly superior in action and staying qualities to other rod materials when made into high quality rods. For this reason the steel is a favorite selection when the price element must be taken into consideration.

There is no question either but that the proper type for a bamboo rod is to be found in the one-piece construction. Such a rod gives all the action of the bamboo without stiffening effect of a metal ferrule. There is a growing class of bait-casters who are interested in the casting of very light lures, such as spoons, spinners, light fork rinds and the very lightest of plugs, lures weighing about one-quarter ounce weight. There is really but one rod material that is satisfactory for this work. Solid woods, if made light and whippy enough to cast the lightest lures will set far too early to be worth while. Steel can be used, but even expert casters are apt to abuse a steel rod and give it a punishment that it will not stand just because it is steel. We now have the glass fiber rods that does a good job, and is about the next

Increase In SS Benefits Made Automatically

During recent weeks there has been an increasing number of persons calling on the social security representative in Lockney about the possible increase in benefits as a result of possible changes in the social security law. It will not be necessary for those persons already receiving benefits to contact the social security office or representative, because any increases in their benefits will be made automatically.

John G. Hutton, manager of the Lubbock Social Security office will be in the Post Office in Lockney on Tuesday, August 22, 1950 at 4:00 p. m. He will be glad to furnish information about possible changes in the social security law.

For years there has been conflict and waste in the management of certain soil conservation, range, and forest services by agencies of both the Agriculture and Interior departments. Ranchers who run their livestock on both national forest pastures and public grazing lands, for example, are compelled to obtain separate permits with different terms and conditions from the various agencies.

What a wonderful bargain!

For five days Mrs. J. E. Brasac kept an accurate record of all her telephone conversations — and here's just a sample. Altogether, she carried on 44 telephone conversations, figures they cost her less than 2¢ each and covered a total of 153 miles.

"I don't know where you'd get a bigger 2¢ worth," she comments. "My telephone keeps me in touch with my family and friends, helps me run my household, and it's always there to call for help in an emergency. And thanks for a wonderful bargain!" Southwestern Bell Telephone Company.

Raymond Spence Writes Of Japan

(Editor's note: The following letter from Raymond Spence, a native of Lockney, tells of his work in Japan as a missionary of the Southern Baptist Convention. He and Mrs. Spence, the former Inez Gilliland of South Plains, have been in Japan for 18 months. The Nagasaki he mentions is one of the cities upon which an atomic bomb was dropped at the close of the last war.)

Tokyo, Japan
Aug. 4, 1950.

Edgar Hays
Lockney, Texas.

Dear Edgar:
How are you and those good Lockney people? After more than a year and six months in Japan I still feel close to all of you because of the Lockney Beacon. It continues to be a constant source of interest and enjoyment. We are beginning our last week in Tokyo as we leave next Friday for Nagasaki. After September 1st we are no longer allowed A. P. O. privileges. Therefore please send the Beacon to our Japanese address which will be: Doitotsugi, Nagasaki, Japan. Shipping charges will be higher, so please send me a bill on that from time to time.

I have recently gotten back from our annual Mission meeting which was at Miyajima, a small island near Hiroshima and one of the beauty spots of Japan. There we found God in our midst as we came with dedicated hearts to do his will. In our emphasis to the Foreign Mission Board which is to be told to new applicants for Japan or those interested in Japan or just Foreign Missions, we told of the evangelistic opportunities at this time in Japan. Most anywhere here a Sunday School can be started and souls can be won in a short time, who before never had heard of Jesus Christ.

Since I am no authority on the war situation I would like to relate how the Japanese are reacting to it. The Japanese have all the confidence in the world in Gen. MacArthur's leadership. They are reacting so calmly you could hardly tell there was a war so close by.

Best regards to your wife and family.

Sincerely,
Raymond.

VACATION FUN

Summer vacations are filled with dancing evenings for beautiful vacationers such as this. For this occasion she is wearing a romantic cotton formal of rose-printed organdie designed by Emma Domb. It combines the old-fashioned and modern in its billowy, ruffled skirt and strapless bodice. National Cotton Council fashionists report that organdie is a favorite for summer formal this season.

Demonstration On Camp Cookery Held Thursday

A training meeting on Camp Cookery was held Thursday afternoon at the home of Mrs. W. C. Sims in Floydada. Mrs. Sims' shady back yard and her excellent barbecue furnace were ideal for the meeting which was attended by Adult and Junior Leaders for 4-H Clubs. The girls who attended the district 4-H Camp at Lubbock and Miss Leila Petty, County Home Demonstration Agent gave the demonstration.

A meat and vegetable meal was cooked in aluminum foil, with apples cooked in foil for dessert. These demonstrations will be repeated in 4-H Club meetings.

Those present were Delores, Carolyn, and Valerie Sammann, and Mrs. Walter Sammann from Providence; Minnie Beth Crawford and Mrs. Sam Lide from Dougherty; Naomi Allen, Mrs. Lloyd Allen and Mrs. A. V. Womack from Sand Hill; Patsy Pierce, Betty Vernon and Mrs. Henry Bollman from Lockney; Donita and Barbara Sue Milton, Mrs. Grigsby Milton, Virginia Faye and J. Ronald Taylor and Mrs. J. P. Taylor of South Plains; Lavern Word, Loretta Peugh and Mrs. M. O. Peugh of Lone Star; Marceleta Green, and Mrs. Hershel Green, Carolyn Williams, Mrs. O. G. Shearer, Mrs. W. C. Sims and Miss Leila Petty of Floydada.

Two Honored With Birthday Celebration

A watermelon feast and backyard party celebrated birthdays of Mrs. Raymond Rucker and Kenneth Wofford at the Raymond Rucker home Tuesday evening, August 15.

Those enjoying the double birthday party were Mr. and Mrs. Oscar Golden, Kay and Larry, Mr. and Mrs. J. R. Belt, Ann, Steve and Carolyn, Mr. and Mrs. Bob Jarrett and Trudy, Mr. and Mrs. Raymond Rucker, Katie Rae, Gayle, and Cherry, and Mr. and Mrs. Kenneth Wofford, Jean, and James Ray.

Attend Family Reunion Tuesday

Mrs. Clyde Sloan and sons, Jimmy and Jerry and Mrs. Robert Kellison and son, Ralph attended a reunion of the McDaniel family at Hollis, Okla., Tuesday

of this week. Mrs. Sloan's two brothers and mother were all present for the affair, the first time the family had all been together in 18 years. The reunion was held at the home of Mrs. Sloan's brother, Newell McDaniel.

ASK ABOUT OUR LAY-AWAY PLAN

LIVE AND LET LIVE

TO THE PEOPLE OF FLOYD COUNTY:

This is a partial report on the activities of your County Judge for the past eighteen months that I have been your County Judge. When I took over the office on January 1, 1949 one of the first things I did was check up on the amount of insurance on the different properties of the county. I found there was only \$70,000.00 insurance on the courthouse building. I recommended to the Commissioners Court that the insurance be increased to \$200,000.00, which the Court readily agreed to, and the policies then in force written with Frank Perkins and E. P. Nelson were endorsed to that amount. The Courthouse burned on March 11, 1949. As a result of the increase in the insurance the county recovered \$105,000.00 for the loss. We recovered approximately \$70,000.00 in insurance money more than we would have as it was originally written.

We have constructed 37 miles of paved farm-to-market roads. We now have under construction 10 1/2 miles of paved road. Plans are approved and now in the making, and contracts will be let soon for 24 more miles of farm-to-market roads. Other roads designated for improvement during the next two years amount to about 40 miles.

We have disposed of 111 misdemeanor cases, 11 civil cases, 4 mental illness cases, 63 probate cases, besides numerous probate orders, and juvenile matters, and innumerable minor matters constantly coming before the County Judge to be disposed of.

The Courthouse construction job requires considerable attention from the Commissioners Court and County Judge. The Commissioners Court has charge of all the business matters of the County, the County Judge presides over their deliberations and has no vote except in case of a tie. The County Judge hasn't had to untie a single vote during this eighteen months.

In view of the above record, I feel that I have earned a second term in this office, it being a custom of the Democratic Party to elect a man to a second term in any office unless he has been dishonest or incompetent in his first term and I have not been guilty of either. I solicit your vote on August 26, on my record which I am proud of.

Respectfully submitted,
G. C. TUBBS.

Queen Contest Will Feature S. P. Fair

Lubbock. — Two young ladies and the companions of their choice will win an expense paid trip to Havana, Cuba, awards amounting to over \$500.00 each, when the judges choose Miss Lubbock County and Miss South Plains during the Queen Contest to be held in the "Panorama of the Plains," a colossal spectacle which will be held nightly in front of the grandstands during the 33rd annual Panhandle South Plains Fair, in Lubbock, October 2 through October 7, according to W. O. (Bill) Keeney, Queen Contest Chairman.

One queen will be chosen from Lubbock County, and another queen will be chosen to represent one of the following counties: Bailey, Cochran, Yoakum, Gaines, Lamb, Hockley, Terry, Hale, Floyd, Motley, Dickens, Garza, and Dawson, as Miss South Plains.

Officials of the contest have announced that the contestants will be judged according to popularity and not just beauty. Each contestant who receives the highest number of votes in her county will act as a princess on the Queens Court during the spectacle. Each of the 14 princesses will receive an award for her participation in the production. The Queens and their court will appear each night of the Spectacle.

"Panorama of the Plains" will be one of the greatest spectacles to ever be produced in West Texas, Fair officials said. It will cover the colorful history of the South Plains area from early civilization to present times. There will be a cast of over 1,000 persons in the production plus all of the lights, sound effects, scenery that goes to make such a high spectacle. The stage will be some 300 feet wide. The John B. Rogers Producing Company, of Fostoria, Ohio, will direct the production.

Contestants in the Queen Contest must be over 16 years old and must reside in one of the counties mentioned. To enter the contest the young ladies will use a special nominating coupon. These will be published in weekly and daily newspapers until August 21, at which time the contest closes. A coupon is good for 1,000 votes, and only one coupon per individual is allowed by the rules.

Young ladies who wish to enter the contest should have their applications in to the Queens Contest Office prior to noon August 22. Letters should be addressed to W. O. Keeney, Contest Chairman, % Lubbock Junior Chamber of Commerce, 902 Texas Avenue, Box 561. An application blank will be found on another page in this newspaper.

The Lockney Lions Club voted this week to assist the Lubbock Junior Chamber of Commerce office in sponsoring the event in Floyd County and will probably have tickets to sell here. It is possible that they might sponsor a candidate for the queen contest from Floyd County also, according to Dr. G. A. McClelland.

Miss Petty Is Attending School At Stephenville

Miss Leila Petty, Floyd County Home Demonstration Agent, left Saturday at noon for Stephenville, where she, with other Home Demonstration Agents in Texas will attend a 2-weeks tailoring school. Miss Petty went to Stephenville with Miss Mary Grindstaff, Hale County, and Miss Earnestine Gary, Swisher County Home Demonstration Agent.

GARDEN CLUB WILL MEET FRIDAY AT 4:00

The Lockney Garden Club will meet at the home of Mrs. W. J. Griffith Friday, August 18, at 4:00. Plans will be made for the September Garden Show the club is sponsoring, and all members are urged to be present.

EDITORIAL

But they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary; they shall walk and not faint.—Isiah 40:31.

According to a story appearing in a neighboring paper the City Council of Lockney has agreed to the raising of the local telephone rates in Lockney so that a dial telephone system can be installed here. We suppose that the Council did what they considered the best thing for the city and goodness knows, they get enough criticism as it is without this newspaper joining in but there are several things we don't like about this business that the telephone company has dumped in our laps.

In the first place we don't like for the telephone officials to release their news stories concerning Lockney to some other paper and completely ignore this one. That is mighty poor public relations, in our opinion and shows a complete lack of consideration

for the city of Lockney as well as for this newspaper.

In the second place we don't like the idea of completely doing away with all our local operators and letting the Plainview operators take care of local calls. We understand that there are about seven or eight operators employed here full time. That means a pay roll of somewhere in the neighborhood of \$12,000 to \$14,000 per year will be lost to the city. What is left of it will be moved to Plainview. In other words the city that profits from this move will be Plainview—not Lockney. We will lose by it. The telephone company will still take their money out of the town but they won't be putting but very little, if any back. That kind of a company won't help us to build this town a mite.

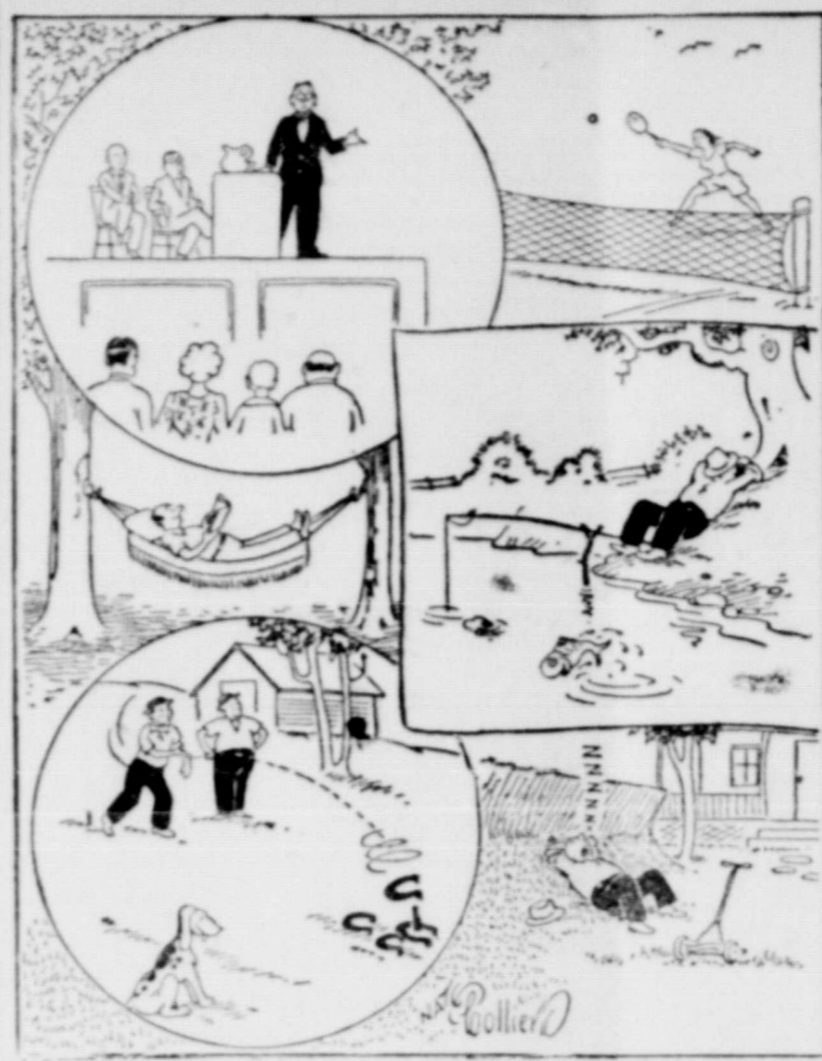

Why couldn't the company keep two or three operators here to handle long distance calls? We know that there are enough calls placed from this office to keep that many operators busy because half the time when we try to place a call all the circuits are busy and we have to wait. Unless the company is especially desirous of building up their payroll in one town in preference to another we don't see why such an arrangement couldn't be worked out.

Maybe the local subscribers will have no occasion to dial the operator. According to the story appearing in the neighboring newspaper "when the subscriber at Lockney wants long distance or information he will dial 'O' and get an operator at the Plainview office." The story goes on to explain that this is "just like Hale Center." Frankly we can't see any profit to us in being just like Hale Center. Because the telephone company is draining one town and making no return is no reason for us to follow the example.

In the third place we don't like the idea of raising our local rates. It seems to us that to almost double telephone rates in a two year period is going too far. Last year the Council allowed the company to raise their business rates from \$3.50 to \$5.00. Now it is going to \$6.00. If we could raise our advertising rates that fast we would really get rich.

If the people of Lockney like this kind of treatment, then the thing to do is to set back and

"LABOR" ON LABOR DAY

let it happen. Don't open your mouth. Don't say a word. If you don't like it, on the other hand, you'd better sit up and howl—and howl plenty.

Too often too much is expected of an advertisement. An advertisement cannot perform miracles. It works along certain well defined lines. It cannot create sales for a store that is poorly managed, poorly lighted and in which the merchandise is not well displayed, nor good merchandising practices followed. This is a modern age and people with money to spend like to spend it in a place that tries to keep up with the times and practices modern merchandising methods. For such a store well prepared advertisement can and does create sales.

Utopia, some says, will be here when we all enjoy 1950 wages, 1926 dividends, 1932 prices and 1910 taxes.

HOARDERS

Best illustration of what hoarding does was furnished this week in a letter to a local tire firm. During 1949, 35,491,000 automobile owners drove all the miles they wanted to travel and bought 36,473,900 tires, or a fraction over one tire per car per year as a replacement. If just one-fourth of the car owners suddenly decided to buy a complete new set of tires which they don't need, that's 36,000,000 tires, a normal year's supply in the basements or garages of one-fourth of the car owners. Then three out of four car owners start hunting a tire they need, and there is none available.

If you don't want rationing, then stop hoarding. — Trends in Crosbyton Review.

40 GOOD YEARS—

While Castro County celebrates its birthday, another birthday of a different sort is being celebrated in Randall County. This celebration is a mild one, commemorating the results of forty years of labor for one man. That man is Clyde Warwick.

Known in newspaper circles as publisher of one of the best weekly newspapers in the state and southwest, Mr. Warwick has earned his title. During our first two years of college we worked at the Canyon News as Linotype operator and printer, and to this day have not regretted a minute of it. Mr. Warwick has grounded the principles of first-rate typography in many young men in his forty years in Canyon. In many cases, as our own, it would have been almost impossible to have attended college without the employment he afforded.

Coupled with Dan K. Usury, whose blistering criticisms have sent more than one novice Linotype operator out the door, Mr. Warwick has virtually operated a school of printing. Only the best was the rule when we worked there. Even when the pressure was highest quantity never rated above quality, which is one of the best things that can be said about any business.

Mr. Warwick has been a leader in better newspaper practices for many years. Though plagued many times with those weeks when nothing seemed to happen and publishing time was near, he has continually produced a high volume of news matter to the volume of advertising, a commendable feature in any newspaper.

We hope that Mr. Warwick's next forty years are as fruitful as the last ones.—Castro County Times.

There would be a whole lot more divorces if husbands had a trade-in value like today's cars.

Dr. J. C. Dial returned Sunday from Mineral Wells where he has been visiting with brothers and sisters.

Miss Josie Talley, daughter of W. P. Talley, left Wednesday for McGregor and Waco to visit during the warm summer.

J. T. Livesay left Sunday for the coal mines of Colorado.

W. C. Parkison has been appointed City Marshall during Mr. Livesay's absence.

Harve Bolin is building a residence seven miles east of town and incidentally improving the looks of the face of the earth.

J. M. Carthel will make about 700 bushels of wheat from 55 acres.

D. W. Kelley, of jewelry fame, was a Plainview visitor from Sunday until Tuesday.

Last Saturday was election day. The total vote of Lockney precinct was 235 and in the county 565. Judge Henry was re-elected and W. B. Clark won the clerk's office.

Influenza is spreading over the country. There are several cases in Lockney and all schools, churches, and picture show have been closed for at least two weeks.

The Parent Teacher committee appointed to inspect school rooms for cleanliness and decorative beauty, selected Ethel Well's room, Miss Doster's, and Mrs. Robbin's room.

The Lockney boys played football in a football game Friday and still don't think they scored on. Stars of the game were Ralph Carter and Carol Collins.

Among the many interesting things added this week to the Lockney Fair, things grown in Floyd county on display at bank, are a 2 1/2 pound egg and a five pound sweet potato both presented by C. L. Frank. Frank presented the champion tomato, weighing 10 pounds.

Following are the new officers elected for the Lockney Cross Chairman, Mrs. Ben Smith; Vice-chairman, Frances Baker; Secretary, Mrs. N. Brown; Treasurer, Mrs. Les Ramsey.

10 base load power plants are operated by your Public Service Company to meet your needs for dependable, low-cost electric service. These 10 power plants are strategically placed approximately 100 miles apart.

These 10 great power plants are tied together by a 2700-mile network of transmission lines. The heart of our system—a 115,000-volt transmission line—makes electric power generated at our River-view plant available at Carlsbad, New Mexico, if needed.

To further assure you a continuous and economical supply of electricity, your Public Service Company has provided a central load-dispatching center which allocates generation to each plant for most economical operation. In this manner the local area plant is still able to meet increased demand for electric service within its own area when necessary.

To meet your growing needs for electric power, important 1950 plant expansions will be made at Amarillo and Moore County, and a new unit has already gone on the line at Roswell. Yes, your Public Service Company is on the job keeping ahead of the rapid growth of the Panhandle-Plains-Pecos Valley-Eastern New Mexico area.

Feed Home-Grown Grain To Hogs

College Station.—The present condition of rising prices makes hog production very profitable for farmers who have homegrown grain on hand, and the pork producer who feeds a ration that will put the most economical gains on his hogs receives the widest margin of profit.

Farmers should not allow their attention to be diverted from the advantages of feeding a balanced ration to hogs by the present rising hog prices and favorable feed prices, cautions E. M. Regenbrecht, extension swine husbandman of Texas A. & M. College.

Neglecting to include the necessary amount of protein supplement reduces the digestibility of the ration, raising the feed required per pound of gain and reducing the margin of profit.

Regenbrecht says that a farmer who has home-grown grain can get economical gains by including only a good protein supplement and providing a good pasture to insure that the nutritional deficiencies of the corn or other grain are met.

He points out that corn or sorghum grain alone produces slow and costly gains, but when the grain is supplemented with the correct protein and mineral supplements, the rate of gain is speeded up and the cost of gain is reduced.

"Scratch Dallas" Campaign Started

A "scratch Dallas" campaign in the Aug. 26 run-off election has been organized on a state-wide basis. Emmette Alexander of Marble Falls announced today.

Alexander, a businessman and civic leader who is sparking the drive, described it as an effort to decentralize the power held by Dallas County in state government and to strengthen representation of other areas in the government.

He noted that four out of five

run-offs in the election have candidates from Dallas County.

"As a plain citizen interested in good government, I firmly believe that one big city should not be given that much representation," Alexander said.

The four run-offs which have Dallas candidates are two for the Supreme Court, one for the Court of Criminal Appeals and the lieutenant governor's race. In the lieutenant governor's race are Ben Ramsey of San Augustine County in East Texas and Pierce P. Brooks of Dallas County. W. A. Morrison of Milam County in Central Texas and Robert L. Lattimore of Dallas County are campaigning for a place on the Court of Criminal Appeals.

In the Supreme Court races are Fagan Dickson of Bexar County in South Texas and Will Wilson of Dallas County, contending for Place 1, and Meade F. Griffin of Hale County in the Panhandle and George W. Harwood of Dallas County, both seeking Place 3.

"There are already five justices on the Supreme Court whose homes are within 128 miles of Dallas," Alexander said. "If the two Supreme Court candidates from Dallas are elected, then seven of the nine justices on the state's highest civil court will be Dallas representatives."

The "scratch Dallas" drive will be conducted through advertising, news releases, word-of-mouth and personal letters, Alexander said.

Terraces Helped To Save Farms In Heavy Rains

The Floyd County Soil Conservation District board of supervisors held their monthly meeting Tuesday, August 1. The flood damage that has been occurring for the past month was discussed at length. Ten farms that have conservation plans with the District have been checked to see how they withstood the flood. These farms had the major portion of planned practices applied on them prior to the heavy rains. Cecil Purcell, chairman of the board, said the treated farms stood up very well. Most of the damage occurred on terraces where runoff from other land occurred. Purcell thinks it is very necessary to start terracing and contouring at the top of slopes and work down. He said the proper maintenance of terraces and farming with them is equally important. The removal from cultivation of land that is too steep, shallow soils or severely damaged by erosion by planting to grass is the best conservation for these conditions.

The J. H. Boggs farm was in the middle of the heaviest rain-fall. Water ran over the top of every terrace on his farm but none washed out. The worst damage to this farm was from hail.

Mrs. U. C. Purcell reports that her terraces in a rolling field held but had some breaks in a flat field due to a railroad dump break. Mrs. Purcell stated the terraces saved her farm.

The Leon Elliott farm that is farmed by L. B. Monk suffered no damage to terraces. This land has been replanted four times, due to having heavy rains after each planting.

Virgil George had one small break in a terrace but his three ponds were not damaged. He had to replant some cotton and feed but probably did no more replanting than normal. George says if he had not had terraces he would have lost everything.

Pete Clark has had no damage to his terraces on his home place but terraces broke on another place because they caught runoff water from other land. The heavy runoff was due to terraces giving way on the adjoining farm.

James Kimbell had some terraces to break on his home place due to runoff from the road. The road ditches had not been maintained and could not take care of the water properly. Mr. Kimbell reports that terraces on another farm he operates did not break although the rain was heavier.

The Ben Cogdill farm, operated by Leon Elliott, has some bad breaks in the terraces. They had a 3.5 inch rain but washed out later when a still heavier rain fell after the ground was saturated.

There was no damage to the terrace system on the W. O. Cobb farm.

The Soil Conservation Service assisted the district cooperators in getting treatment on the various farms. The terracing and contouring withstood the flood quite well, however, with a few

grass waterways and other conservation practices the damage would have been lessened. Terraces not only held the water and prevented erosion but also kept it on the land and it will be available for future crops. Terracing also cannot prohibit all of the damage but must be combined with other equally important practices. Conservation farming, by managing stubble and crop residue and planting grass on steep, shallow soils or severely eroded areas, would have prevented much damage. Natural waterways that have been put in cultivation should be reseeded in grass and left for waterways. Proper management of stubble and sorghum stalks by leaving small grain residue near the surface, grazing off only excess forage and grain, will help prevent erosion.

Texas Newspapers Endorse Judge W. A. Morrison For Court of Criminal Appeals

DALLAS NEWS, August 5—The Court of Criminal Appeals of Texas is in fact our supreme court so far as criminal courts are concerned. Outside of executive clemency, it is the court of last resort on the outcome of all criminal trials. Too little attention has been paid to it by Texas voters, though its judges must be named by their choice.

What makes a good criminal court judge? Above all, character and judgment. On the final appellate court, he is primarily a judge of people, let personalities enter into the matter. The essential knowledge and discretion that he must possess are attained only on the basis of courtroom experience. No man should be placed on this court who is not entirely qualified to sit upon it.

In the opinion of The News, the only remaining qualified candidate for this court to face the August primary is W. A. Morrison of Cameron, whose lengthy experience as a defense attorney, as District Attorney and as District Judge have given him ample experience upon which to draw. At 41, he is capable of many years of successful judicial service.

When you consider that before this important bench come for review the cases tried in the Criminal District Courts of Texas, adequate and accepted experience in judgment is the safest basis on which to choose.

HOUSTON CHRONICLE, August 6—For the Court of Criminal Appeals, Judge W. A. Morrison of Milam County has a fine record as district attorney and district judge. His proved qualifications make him the choice over R. L. Lattimore of Dallas County who has had no judicial experience.

HOUSTON POST, August 2—In the race for Judge of the Court of Criminal Appeals, Cecil Storey, whom The Post endorsed, was eliminated. Of the two runoff contenders, we believe that W. A. MORRISON of Milam County is the better qualified, and so recommend him, along with all the others mentioned, to the voters.

EL PASO TIMES, July 29—For Judge of the Court of Criminal Appeals: W. A. Morrison of Milam County, who easily is the best qualified because of experience as a district judge and prosecutor.

LAREDO TIMES, July 28—It is apparent that they voted for Mr. Lattimore because his surname happens to be the same as that of one of Texas' most distinguished jurists, the late Judge O. S. Lattimore of Fort Worth. It may be well for the people of Texas to know that the Mr. Lattimore involved in Saturday's election is not related to the Judge's family and, in our opinion, lacks the experience and ability necessary to a member of a higher court.

On August 26 the people of Texas will have an opportunity to correct their mistake and vote, not for a mere familiar name, but for a man of known ability and experience, Judge W. A. Morrison of Milam County.

Selective Service Officials Don't Know "When"

Austin.—Two of the most prevalent questions which men are asking state draft boards now are: "When will I have to take my physical exam?" and "When will I be drafted?"

"These are two questions which local boards cannot answer," Brigadier General Paul L. Wakefield, state Selective Service director, said today, in commenting on queries which are coming in to the draft boards.

"These two questions can't be answered," the state director continued, "because there are too many intangible factors involved."

General Wakefield listed some of the reasons why local boards can't answer these questions:

1. Local boards do not know whether calls will be for an increased number of men or not.
2. Local boards cannot tell how many of their registrants will be found acceptable for military service or how many will be rejected.
3. Local boards cannot tell whether the world situation will improve or get worse.
4. Local boards cannot tell how many men will enlist for service in the armed forces now and in the future.

"All these things have a bearing on the numbers which will be called for physical examinations and induction," General Wakefield said. "Therefore, the local boards cannot say with any degree of certainty when a man's number will be reached in the Selective Service process."

The state director urged men not ask these two questions. At the same time he called upon registrants to be alert and advise of changes of address and status.

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Henry L. Lloyd; all of the heirs of the said Henry L. Lloyd, if he be deceased; their heirs and or legal representatives; and all of the heirs, spouse or spouses, legal representatives, devisees and legatees of the above named and of described persons and each of them, and any person claiming title or any interest in the hereafter described property. Defendants

Greeting:
You are hereby commanded to appear before the Honorable District Court of Floyd County at the Court House thereof, in Floyd-dada, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 18th day of September, A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 31st day of July, A. D. 1950, in this cause, numbered 3894 on the docket of said court and styled J. Ray (J. R.) Lloyd, Plaintiff, vs. Henry L. Lloyd, et al, Defendants.

A brief statement of the nature of this suit is as follows, to-wit:
A suit for title and possession of the following real property, situated in Floyd County, Texas, described as follows: FIRST TRACT: 124 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records, Floyd County, Texas, and being the same tract as that described in a deed dated March 10, 1937, recorded in Vol. 68, page 396, Deed Records of Floyd County, Texas; and a SECOND TRACT: 156 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records of Floyd County, Texas, and being the same tract conveyed by deed dated March 8, 1939, recorded in Vol. 75, page 472, Deed Records of Floyd County, Texas; and a THIRD TRACT: 32.5 acres, being the Northeast part of Survey No. 20, Certificate No. 45, S. & M.

view made a business trip to Oklahoma Friday and returned home Saturday.
Mr. and Mrs. Johnnie Lee visited friends in Lubbock Memorial Hospital Saturday night.

Abstract No. 2640, patented to L. H. Newell and Mrs. E. J. Block, Assignees, by Patent No. 140, Vol. 90-A, dated July 6, 1943, recorded Vol. 4, page 196, Patent Records of Floyd County, Texas; to which patents, instruments and record reference is here made for all purposes; all further described in plaintiff's petition on file herein; and said suit being in the usual form of trespass to try title and containing further allegations to the effect that plaintiff owns the record title to said property and further owns title to said property under the three, five and ten year statutes of limitation, and that title is in the plaintiff, all as a result of peaceable and adverse possession under duly recorded deeds and claim of right, and payment of taxes on said property. If citation is not served within 90 days after the date of its issuance, it shall be returned unserved. The suit is brought as well as to try title as for damages, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.
Issued and given under my hand and the Seal of said Court, at office in Floydada, Texas, this 1st day of August A. D. 1950.
Attest: Mary L. McPherson, Clerk, District Court, Floyd County, Texas.

Work Completed On South Main

Work has been completed on hard-surfacing of South Main Street. The job was a project of the State Highway Department and was done without cost to the city. Curb and gutter was paid for by the property owners and run last year.

The finishing crew ran three coats of asphalt from curb-to-curb on the street following each coat with a coat of gravel. The gravel was rolled into the asphalt and then the next coat applied. The street was topped from the end of the brick paving in the 200 block of South Main to the Lockney Gin corner where Main Street runs into the Lockney Highway loop.

400 Attend Aiken Seed Meeting

About 400 people attended the annual seed meeting held at the Aiken Elevator last Thursday night. Charlie Andrews, manager, reported. Watermelon was served to the group and a number of discussions on wheat varieties and cotton insects were heard.

Robert H. Gibson, county agent, was master of ceremonies at the program and introduced the speakers of the evening. Fred Dines, seed dealer of Crosbyton, talked about various wheat varieties and recommended that farmers of this area plant either Tenmarq or Comanche. A chemist from the Harvest Queen mill at Plainview discussed the milling qualities of the various kinds of wheat.

Ben Quebe of Providence told of some experimental plots of wheat planted on his farm and recommended that the irrigation farmer plant Comanche and that on dry land Wichita be planted.

Quentin Adams discussed cotton insects and the methods of poisoning them.

The place of the meeting near the elevator was well lighted and the watermelon was served from a platform near the center of the area. A number of Lockney people were in attendance.

Famed Carillon Bell Tower

The University of Wisconsin's nationally known carillon bell tower is a favorite subject for campus artists. Art student David Suits uses a dry-writing Parker "51" pen to capture much of the tradition and atmosphere surrounding the tower. One of the stories told of the tower is that "no girl is a true Wisconsin coed till she has been kissed under the bell tower."

The sponsors are anxious that no one be left out.

Amateur acts may be practiced each night at the City Auditorium or private practice sessions may be slated. Cash prizes and ribbons will be given in the contest.

Baby Contest

All children under six years of age may enter the Tiny Tot Popularity Contest being staged in connection with the jamboree. A King and Queen will be crowned and presented with loving cups on the stage Tuesday night. There will also be a Prince and Princess and a Duke and Duchess.

No charge is made for entry. If you wish to enter your child you should take a picture, not necessarily a recent one, and a decorated jar to Mr. Pinner, Mr. Jester or Mrs. J. D. Steele, chairman of the baby contest, or to Vinny Jagelski, director of the show, at the Baker Hotel. Put the baby's name on both the picture and the jar. These pictures will be on display in the Lockney Dry Goods window. The jars will be placed in local stores and you may attach a snapshot to the jar. Money deposited in the jars will be voted in favor of the contestant. Voting will be allowed in the City Auditorium lobby both nights of the show and all voting will close at 8:30 Tuesday night.

Death Claims H. A. Keys, Father Of Mrs. Edd Pratt

H. A. Keys, father of Mrs. E. T. Pratt passed away Friday morning August 11, in Paris, Ill.

Mr. Keys came to Floyd County in April, 1910 and bought the half section in the Pleasant Valley community where Mr. and Mrs. Raymond Rucker now live. He moved to New Mexico in 1916. His wife passed away in 1921, and he made his home with his daughter, Mrs. Edd Pratt for many years. He moved back to his old home in Paris, Ill. to live with a son, Marce Keys, after Mr. Pratt's death in 1946.

Mr. Keys' emigrant car was the first car to be moved over the Santa Fe railroad that was being built from Plainview to Floydada.

He was a teacher for many years, but farmed in his later life until his retirement.

Mr. Keys was born in Edgar county, Illinois, November 26, 1854.

He is survived by one daughter, Mrs. Edd Pratt of Lockney and Brownsville, and three sons, Russell Keys, Slaton, Harry Keys, Slaton, and Marce Keys, Paris, Ill.

Burial was in Paris, Ill., Monday, August 14.

Mr. and Mrs. Carl Davies of Albuquerque, N. M., visited Mr. and Mrs. M. H. Ragle and Mrs. Minnie Canon here Sunday.
