### Longhorns Lose To Abernathy

The Longhorn basketball team lost a hard fought game to the Abernathy Antelopes in the local gym Tuesday night of this week. The game gave the Antelopes the district lead and left the Longhorns in second place. The final score was 56 to 43.

The game was very close most of the way until the fourth quarter when the Longhorns started taking chances in an effort to catch the smooth working Antelopes. The first quarter score was 16 to 14 in favor of the Longhorns and the halftime score was 26 to 25 in favor of the Antelopes.

During the third quarter the Antelopes pulled away and held a six point lead, 42 to 36 at the end of that period. The Longhorns narrowed that to four points at one time but then fad-Come Saturday night Lockney ed and the Antelopes went on

### **Mothers March** In Polio Drive

Next Wednesday evening from 7 to 8 p. m. the mothers of the for the Lockney community and

Community Chairman Bob Miller has selected his leaders for Lockney as well as for some other communities of this part of the county. Plans will be completed for the march in a meeting at The Beacon office at 7:30 p. m. Friday night.

The plan is this: Everyone will be reminded again and again Wednesday that that is the final day to contribute to the March of Dimes (or Dollars). The radio will repeat it. Posters will proclaim it. Sound trucks will blare it. Everyone who will contribute to the polio drive will be asked to turn on their porch lights night. Then a mother, who has been previously designated, will call on each home in her block who has their lights turned on and will receive from them their contribution to the March of Dimes.

Captain of Lockney is Mrs. M. W. Wiley. Her lieutenants will be Mrs. Joe Parrish on the east sergeants will be Mrs. Clyde Sloan and Mrs. Lavon Johnson. They in turn will select corporals for each block. Mrs. Gilbert's sergeants will be Mrs. Sid Reeves and Mrs. Raymond Meri-

Smaller communities may or may not work their drive this way. Mr. Miller was uncertain Wednesday about exactly how the plan would be worked in the rural areas.

The quota for North Floyd County has been set at \$2300 this year. That means that everyone will have to contribute and that many will have work to do,

### Freshmen Will

### Early Season Insect Control Is Urged

College Station. — 1950 was a bad year for the cotton grower much to a person if it is immedfrom the standpoint of production lately followed by a criticism. season insect control was practiced, McLellan county cottongrowers produced more lint cotton in 1950 than they did in

County agent J. C. Patterson eports that 15 farmers in the Boiten Bend community had an average yield of 304 pounds of int cotton per acre in 1950, while ounds in 1949. Their total 1950 acres, but this produced 157,411 pounds of lint. Their total yield in 1949 was 139,945 pounds from 616.5 acres.

Records of the cotton produced on these farms were kept by the Farm and Home Administration and the Bureau of Entomology and Plant Quarantine.

On six untreated check plots of 204 acres in the Bolten Bend comacre was only 192 pounds of line. This is an average loss of 112

per acre was obtained on 1542 acres of early season treated cotalleging that he has had family and Mr. and Mrs. John- Lennan county. The yield was only 289 pounds per acre on 425 acres of untreated cotton in the same community. This shows an increase of 213 pounds per acre from practicing early season

> The average increase from insect control in both communities was 204 pounds of lint cotton per

Patterson estimates that an average increase of at least 125 pounds of lint per acre was obtained by practicing early season insect control on one half or 50,

000 acres of McLennan county

### **New Districts Would Double** Representatives

Austin.-Legislative redistrict

That is the opinion of Senator The Treaty Oak in Austin has Kilmer B. Corbin of Lubbock, the 24 counties

Senator Corbin is a co-author Baylor University, now in Waco with Senator Rogers Kelley of was originally located at Inde- Edinburg of the senatorial redistricting bill filed as Senate Bill 1 in the 52nd Legislature.

A House of Representatives reintroduction as soon as the House started taking bills. Separate bill must be passed for revamping Senatorial and House

Senator Corbin pointed out that the Senate bill, as introduced, does not yet specify what counties would make up the various districts in what is now his 30th Senatorial District. Only singlecounty districts (Jefferson, Dallas, Tarrant, Bexar and Harris) are specifically mentioned, with the exception of Senator Kelley's own district which the bill specifies would include three Lower Rio Grande Valley counties.

"In that way, the people and their representatives can have their say as to what counties should be included in the various districts," the former Dawed to the Senate in 1948, explained. "We are not in the position of having an author of a bill trying to tell us just how we should redistrict but are given a present three or four. Because of Leland A. Hart, A. K. May has February 17th. This is a continuchance to work it out for our-

While House redistricting must be done on the basis of popu. how many representatives the lation, the Constitution provides district now has. that Senatorial districts are to be divided according to the number of qualified voters. On Portales Man New the basis of last year's poll tax payments and exemptions, Senator Corbin estimates that the present 30th District is entitled to nearly two Senators instead of one. And on the basis of the House redistricting, the counties tales, New Mexico, as deputy are entitled to seven or eight sheriff of the county, and in the representatives instead of their shift of the personnel by Sheriff

Many and ingenious are the ways Texas boys have found for earning

all or a part of their college expenses in order to secure an education.

The old standby jobs of janitor and mess hall waiter have long been

popular with working students at the A. and M. College of Texas, while

others have found new and novel ways of their own after the standard

jobs were filled. One of the Southwest's leading auctioneers today worked his way through school as a student auctioneer at A. and M.

A present member of Congress divided his working time between the

horse barns and mail delivery. Many biology students have earned extra

money catching poisonous snakes for study or to "milk" them of their

good, if not better, than those of boys who do not have to earn a part

of their own expenses.

We sincerely enjoyed talking and visiting with so many of you at our John Deere Day last Thursday.

Our business here has grown year by year. Each year has been larger than the preceding year. It has been your acceptance and confidence in the John Deere line of modern farm equipment that has made this possible.

The purpose of the John Deere day is to show our appreciation for the business that you have given us and to acquaint you with some of the new equipment that is to come.

There were many of you who were busy and could not make the lunch and show. We are sorry that you could not be with us and invite you to come in any time and visit with us, and talk over your farm equipment problems and needs.

Withhold not good from them to whom it is due, when it is in the power of thine hand to do. -Proverbs 3:27.

-000-Poll tax payments are low in Floyd County this year, according to a report from the Tax taxes with the thought in mind that this is an off year and nothing of importance will come up. But we never know what important issue might force itself upon the attention of the voters.

Pay your poll tax before Thurs-

day of next week.

Why not a war plant for Lockplenty large to take care of many plants that would turn out war materials. According to reports reaching us, the problem is not so much to find a buyer for the plant as it is to persuade the owners to sell it. We ought to let them know that Lockney is interested in seeing them either disgose of or use the building.

An excess profits tax on corporations of around 75 per cent

#### **Reservists Protected** From Lawsuits, Etc.

Austin.-Army reservists ordered to active military service, either voluntarily or involuntarily, are entitled to protection from civil lawsuits, evictions as well as reemployment rights, under the provisions of the Soldiers' and Sailors' Civil Act, Colonel C. M. Culp, Chief of the Texas Military District, stated

Personal affairs officers will be available at training centers to assist individual reservists with their problems. In cases where whole units are called into service, arrangements have been made to place members of the Judge Advocate General Department reserve officers on temporary duty to assist reservists with legal problems, prior to departure from their home stations, Col

While this relief law has been in effect since 1940, and was extended and broadened by the Selective Service Extension Act of 1950, some reservists have been applying for delays and deferment from military service because of personal obligations which the act covers.

In general the law provides that neither personal nor real property can be repossessed from an individual ordered to active military service without a court order. If court action is resorted to by the lender, the serviceman may be represented by a dependent if he is unable to attend the hearings or the court will appoint a qualified attorney to vision includes property purchased under the GI Bill of under the reemployment provis. and Miss Buttrill and E. **Health Talks** 

perature of the body during an illness may be a significant clue as to what's ailing you. Certain diseases are marked by definite up and down trends in fever, others just go up and stay there.

Infections are certainly the most common causes of fever and certain kinds of infections have the word "fever" attached to their names. Rheumatic fever, scarlet fever, yellow fever, and all the rest of the "fever" diseases are so-called because of the elevation of temperature which accompanies the illness. Hay fever doesn't really belong in the fever family.

In typhoid fever the rise in temperature may be gradual or lege in Plainview recently pickrapid. It may fluctuate at 2 to 4 hour intervals from near normal to 104 degrees or 105 degrees in the first week, but shortly thereafter it hits a high level and stays there for 4 to 6 weeks, after which it starts going down. The foregoing is true in the case of untreated typhoid fever, but

registering an elevation of temperature for a certain period, up very high and very quickly.

### Final Week For Cotton Insurance

Glena Culpepper, son of Mr. and of the sales campaign of the Federal Crop Insurance program on the Ivey Thomas place, north. for cotton got under way this brisk and every indication was that the county would qualify under the program.

Ray S. McEntire. Adm. Officer Funeral services were held of PMA, said: "We must have in the Lockney cemetery. The that the sales are now coming young couple have another small in, the county will qualify; however, those farmers who have not terested are reminded that their fallure to sign may be the one Mr. Flynn is still receiving contract that we need to qualify

The cotton crop insurance policy provides protection of the cotton crop investment with the farmer paving a premium for this protection against the unknown-against what can happen to any crop any year that

other insurance, crop insurance for cotton protects against what might happen. It is a program of protection and the individual who chances of collection does not understand the purpose of in-

In Floyd County, January 31, 1951 is the deadline for writing this all-risk insurance on cotton. Full details of the program are available at the PMA Office.

#### Jack Applewhite Has Seen Action In Korean War

Jack Applewhite, son of Mr. and Mrs. I. A. Applewhite of Lockney, has seen some action in the Korean war as a member of the crew of the U.S.S. Radford, according to his letter to The Beacon received this week. The letter follows:

Pearl Harbor, T. H. Dear Mr. Hays:

I have received several copies of the Beacon; am sorry I haven't sent my thanks before now. I've really enjoyed them, as they have all the latest news and gossip, around Lockney in them.

I'm aboard an experimental ship, the USS Radford (DDE446). We left the States the first of May, and were with Task Force 77 on the first strike on Korea. We stayed in Task Force 77 until detached November 28. We are now operating out of Pearl Harbor, as this is our home port,

I'm hoping to see all of my Thanks again for the Beacon

Your friend. Jack M. Applewhite RD3 "O" Division

USS Radford (DDE446) %Fleet Post Office San Francisco, Calif.
