Public Invited To See Film At School

Jake Griffith will show some films on Yellowstone National Park and also a comedy picture to school children and the general public on Thursday afternoon, Nov. 13 at 3 p. m. at the grade school.

An admission of 10c each will be used to swell the growing funds for a library at the local elementary school. The films are sponsored by the fifth grade.

Longhorns Play At Crosbyton

The Lockney Longhorns, smarting from two successive defeats at the hands of district foes, will travel to Crosbyton Friday night of this week for another district game.

The game will probably not be as easy as local fans once thought since the Chiefs from Crosbyton have been gaining strength right along since the season started. Last week the Chiefs scored at will against the Kress Kangaroos defeating them 48-7, a team the Longhorns defeated earlier in the season 33-14.

The Chiefs feature a giant tackle, 297-pound Fred Edwards, who sometimes drops back into the fullback slot for line plunging jobs. Fullback J. C. Harkins is also a big wheel in the Crosbyton line-up. The Chiefs scored several of their touchdowns on pass plays.

The Longhorns are back at work this week and are in good shape for the game. They are apparently determined to get back into the win column this week and will be playing their best.

Starting line up for the Longhorns will probably be about the same as it was last week.

The game will be called at 8 o'clock and a large number of Lockney fans will travel to Crosbyton to see the game, weather conditions being good.

Committee Seeks Books For Library

The week November 17 through November 21 is American Book Week and the Library Committee of the Townsend School Parent-Teacher Association is asking for donations of books to the grade school library.

In a written opinion handed down by Judge Kenneth Woodley, the high court said it found no reversible error in the court proceedings of Farmer's trial.

Murder Conviction Affirmed By Court

The Court of Criminal Appeals in Austin Wednesday affirmed a murder conviction and subsequent death sentence of a 38-year-old Lubbock man, Jack (Pat) Farmer.

In a written opinion handed down by Judge Kenneth Woodley, the high court said it found no reversible error in the court proceedings of Farmer's trial.

Farmer was sentenced to die in the electric chair after being found guilty of murder with malice in a trial by jury in 110th District Court at Floydada on a charge of venue from Lubbock County Nov. 1, 1951.

Farmer fatally shot his second wife, Jennie, 41, as she worked as a waitress in the Union Bus Terminal cafe in Lubbock March 5, 1951.

An appeal, including six bills of exception and a 500-page statement of facts, was filed in the appeals court Feb. 6.

Briefs for both sides were presented to the court early in September.

District Attorney Travis Shelton of Lubbock and District Attorney John Stapleton of Floydada argued the case in the state's behalf. Lubbock Attorneys Clifford Brown and Lawrence Melcher and Floydada Attorney Kenneth Bain handled the defense.

Mr. and Mrs. Jess Savage spent the week end visiting with relatives in Greenville and Leonard.

Body Of Missing Floyd Co. Man Is Found Tuesday

The body of Robert Lee Ardy, missing from his Floydada home since June 12 of this year, was found 3 1/2 miles east of Guthrie Tuesday morning.

Two cowboys, Porter Myers and Riley Thacker, found the body about 8 a. m. in the 6666 pasture some 400 yards south of the Guthrie-Benjamin Highway. Ardy, 86 years old, had been missing since he left Floydada June 12. He had told friends he was going to Levelland to visit a daughter.

A deformed ring finger on the right hand was the clue to identification used by Floyd County Sheriff Leland Hart and Deputy Alton May, who were called there by Cottle County officers.

The body was fully clothed except for shoes and socks, officers said. A gold pocket watch, knife and false teeth lay beside it.

In the pockets of the dead man's trousers were a billfold containing \$72 and a postcard dated June 3.

Panhandle-South Plains officers launched the search for Ardy a few days after he left Floydada. His suitcase was found June 22 at Memphis. After that leads in the case dwindled.

When an unidentified body was found in Clarendon July, Floyd County officers were called in to check on possibility that it might be the missing Floydada man. The body found in Clarendon later was identified as that of Bill Cloyd, a cafe fry cook.

Ardy was a retired farmer who had lived alone in Floydada. The body was returned Tuesday to Harmon Funeral Home in Floydada.

For the program, Tuesday night the Sixth grade students presented the devotional and a short program. Mrs. J. R. Naylor discussed very ably the subject "Blessings in every Home." A trio composed of Mmes. F. O. Schacht, C. L. Record and Oliver Holmes sang "God Bless America."

Three Injured In Wreck Here Tuesday Night

Three persons were injured, two of them seriously, Tuesday evening when a 1937 Chevrolet driven by W. H. Weir of Whitesboro collided with a big 8-wheel transport truck loaded with cotton seed at the east intersection of the Lockney loop with Highway 70.

Thomas Blazek, also of Whitesboro, was in a critical condition in the Plainview Hospital late Wednesday suffering with multiple fractures of both legs, possible internal injuries and other injuries the extent of which had not been determined.

Weir is in the Lockney General Hospital where he is being treated for a fractured hand and various cuts and bruises. Weir's son, Carl, 12 years old, was carried to an Amarillo hospital about midnight Tuesday where he underwent brain surgery Wednesday morning. He came through the operation fine, a report from the hospital said Wednesday. He suffered a bad gash in his head just at the front hair line, it was reported.

The driver of the big truck, whose name was unavailable here, escaped without injury as did another small boy and a small girl in the Chevrolet.

The Beacon was unable to find the exact cause of the accident. The Chevrolet was traveling west and the truck traveling east. It was reported that the Chevrolet swerved into the left hand lane of the highway and the truck also swerved to the left to miss the car. The two collided at the right front side of each. The truck, which was from Plainview, jack-knifed and then turned over landing wheels up across the highway. It completely blocked the pavement and traffic had to be routed into the bar ditch to pass.

The Chevrolet apparently did not turn over but spun around and stopped facing the bar ditch on the south side of the pavement. Blazek, who was sitting in the front seat on the right side, was pinned in the wreckage and passersby had to pry the door open and then break down the back of the seat to get him out.

A big road maintainer was used to right the truck and move it off the pavement as well as to move the big mound of cotton seed to the bar ditch.

Next Tuesday evening will be family night for members of the C. N. Townsend Parent-Teacher Association and their families with amateur movies and slides being shown as a feature of the program.

The meeting will be held at the First Baptist Church here beginning at 7:30 p. m., officials of the organization said. Mrs. Clark Harris is chairman of the family movie program.

The pictures or slides will be those made by local people on vacation trips or other special events. Also a comedy for the kiddies will be shown.

Everyone is invited to attend and bring their families. No admission will be charged and no collection will be taken.

RANCH STYLE

Spread of the casual and ranch house ideas in architecture is making the new Suntex ranch style shirt a favorite for men's everyday wear. The napped, woven-through plaid lends a warm outdoorsy look, but the winter cotton fabric makes it temperature-right for regular indoor wear.

Baptist Notes

LIQUOR, LEGAL OR ILLEGAL

The non-church goer may wonder why we preachers are against the drinking of intoxicating beverages. You hear of us lashing out at this evil every chance we have. Just why do we take such position? In the first place we do so because intoxicating beverages are enemies of the soul. One of the main objectives of our ministry is to rescue lost souls by bringing them to know Christ as a personal Savior. We find that the drinking man is harder to deal with than the non-drinking man. So you can see quickly that we are opposed to anything, whether it be intoxicants, or not, that would hinder a man finding Christ as his Savior. You can find members of our churches who drink, some of them rather heavily. We are ashamed of this fact and would pray that you would never let one of them stand in your way to become a Christian.

In the second place we are opposed to intoxicating beverages because it is an enemy of our churches. As a pastor, I have yet to find a drinking man that I could count on to be faithful to all the services of the church. Liquor and the Lord's work will not any more mix than water and oil. Since the Church is the greatest organization on earth, we do well to be against anything that will harm it. There are many other reasons why we are against liquor such as: it is an enemy of the home, character, and other things that make for abundant living. Not least by any means it is the enemy of one's self. Many brag that they can master it instead of it mastering them. Even those few who claim that they can master it, lose their influence for Christ. Life is short — make it count for God by leaving off anything that might harm your influence or your church.

South American Farmers Will Be Given 200 Pigs

Lubbock — Two hundred pigs, bred and raised on West Texas farms, will be loaded aboard a huge transport plane at Lubbock Municipal Airport No. 17 and then flown to Central America in the first "Pig Lift" from the South Plains.

Agriculture and civic leaders from 10 South Plains counties are working with representatives of the Texas Interfaith Service Committee and the Christian Rural Overseas program (CROP) to provide the small farmers of Costa Rica and El Salvador with high grade pigs which will improve the farms of the two Central American nations.

The "Pig Lift" is aimed at bettering the understanding between the farmers of the United States and the two countries to the south. As Martin Strate, representative of one of the Interfaith organizations, said here recently, "The program endeavors to help 'the little guy' in his struggle for a better life. That will do much toward changing his thinking in favor of the Christian and democratic ideas we in the United States have to offer."

The pigs are being gathered from Hale, Floyd, Crosby, Terry, Lynn, Cochran, Lamb, Hockley, Bailey and Lubbock counties and taken to the Texas Tech farm where they will be graded, inspected and inoculated on Nov. 6, 7, and 8. The animals will remain at the farm until time to load the plane Nov. 17.

A special program for the public will be presented at Lubbock Municipal Airport before the first pigs are loaded into the transport plane. Among the distinguished guests to take part will be representatives of the government of El Salvador.

Each of the pigs to be shipped will weigh between 45 and 60 pounds. Only high grade animals will be sent. A tag bearing the name of the person or organization giving the pig, or the money necessary to purchase the animal, will accompany each pig.

County agents, vocational agriculture teachers, Farm Bureau representatives, civic club members and church leaders in all of the counties have been assisting in the drive to obtain the animals.

The Lockney Longhorns tried for a half to win the game with Ralls last Friday night then lost their spirit and the game ended 34-7 in the Crosby county boys favor. The halftime score was 13-7 with Ralls earning neither of their scores.

Don Bennett, the Jackrabbits backfield ace, started the scoring early. Ralls received the kick and on the first play from scrimmage starting from his own 25 yard line Bennett broke through and ran the distance for the score. It appeared he was stopped on the line of scrimmage but he wasn't. Try for point failed and the score was 6-0 for the Jackrabbits.

The Longhorns decided to score for themselves and started a drive after receiving the next kick-off. They drove down the field without losing the ball with Bill Paschal driving over from the 4 C. B. Smart made some nice runs to keep the drive going. Bill Sherman kicked the point and the score was 7-6.

The Longhorns had another golden opportunity to score shortly afterward but failed. A fumble kept the kick-off back on the Ralls 9 and a short kick after failure to gain gave the Longhorns the ball on the Ralls 18. The Rabbits were penalized 5 but still the Longhorns failed to make a first down and Ralls took over on the 10. It was the last chance for the locals.

The Longhorns outplayed the Rabbits the first half but just before the half time whistle the Rabbits scored on a pass interception to go ahead in the game. Smart had returned a Ralls punt to the Ralls 45. Two passes were incomplete and Smart made 6 through the line. On fourth down Bill Paschal attempted a screen pass to Norton Baker

but threw directly into the arms of Bennett in the flat zone and no one had a chance to stop him. He went 70 yards for the score. The try for point was good and the half time score was 13-7.

The Rabbits weren't long in scoring after the third period began. They took the kick back to their own 46, and in five plays had another score. But the Longhorns handed them the next score on a silver platter when the high kick-off into the wind fell on the Longhorn 31 and the local boys stood by and watched a Rabbit fall on the ball. In five more plays the Rabbits had another score.

The Rabbits scored again midway of the fourth quarter and made the point to run their score to 34.

Bill Sherman, outstanding defensive man for the Longhorns, suffered a knee injury in the second quarter and although he played the last half the injury slowed him down and hurt the Longhorns defensive play.

The Lubbock Morning Avalanche rates are \$12.95 per year for daily and Sunday and the daily is \$11.00 per year.

The Beacon can also accept subscriptions for the Abilene Reporter and the Wichita Falls Record News but we do not as yet have the bargain rates on these two papers.

YOU GET THE ONLY FULL-TIME POWER STEERING

— in the most beautiful CHRYSLERS ever designed!

IT WORKS FULL-TIME! The kind of power steering you can have in the stunning new Chrysler for 1953 works for you all the time . . . unlike some other types of power steering which aren't effective until you exert up to 7 lbs. pressure on the steering wheel!

IT'S SAFER! On rough roads, soft shoulders, loose gravel, or in the event of a blow-out, Chrysler's full-time power steering gives you complete control of your car at all times. Hydraulic power helps you turn . . . lets you hold a true, steady course with a constant, predictable "feel" to the steering wheel. And with far less fatigue, no matter how long the trip!

IT'S EASIER! 85% of the steering effort is taken off your hands, substantially more than with any other type of power steering. Even when the car is standing still, you can actually turn the wheel with one finger. A real boon in traffic . . . on hard-to-negotiate driveways . . . or when parking!

60 Attend Annual Achievement Day

The annual Achievement Day program for Floyd County Home Demonstration Clubs was held in the South Plains School on Saturday, November 8. Sixty or more people were present for the day's activities which began with exhibits of some of the work done by club members.

Exhibits shown were clothing, hand work, baskets and jelly. The Exhibit Committee of the Home Demonstration Council was assisted by each club's Exhibit Chairman in setting up the exhibits which were most interesting to everyone. Mrs. George Stiles of Friendship, Mrs. R. L. Marble of South Plains, and Mrs. T. E. Cowart of Providence are members of the Council Committee. A covered dish luncheon was served at noon in the school cafeteria. Members of the South Plains Home Demonstration Club were in charge of this always important part of the day. Mrs. W. B. Jordan of Center gave the blessing for the meal.

After noon a short program was given in the school auditorium with Mrs. Roy Wilkes of Pleasant Valley, chairman of the Recreation Committee, presiding. She was assisted by other members of her Committee, Mrs. Thomas Marr of Lockney, and Mrs. Wilfred Stoerner of Providence. Singing was led by Mrs. Everett Miller of Harmony and Mrs. Marr, accompanied by Mrs. Bill Beedy of South Plains. The welcome was given by Mrs. Johnnie Wilson, vice president of the South Plains Club and the response was given by Mrs. Stoerner.

A short Skit, "The First Aid Class" was presented by the Homebuilders and Starkey Home Demonstration Clubs. Mrs. L. A. Applewhite of Lockney gave a reading on dieting, and Sterley gave a play on "Diet Begins Tomorrow," all of which were very amusing. They were "take offs" on First Aid and Weight control which have been studied in club meetings during the year.

Mrs. Ruth Daniel of Dougherty, Chairman of the Floyd County Home Demonstration Council, and Miss Leila Pett, Floyd County Home Demonstration Agent, expressed their appreciation to all the clubs for their cooperation, and to the South Plains Club in particular for being hosts for the day. Members of the South Plains Club were introduced. Their officers are Mrs. H. L. Marble, president; Mrs. Johnny Wilson, vice president; and Mrs. John K. West, Secretary. A special guest, Mr. J. K. Holmes, County Commissioner for Precinct 1, was introduced.

Visits were made to two new homes in the community; that of Mr. and Mrs. Herman Thornton and Mr. and Mrs. Johnnie Wilson. Both places were planned with the needs and enjoyment of the families in mind. The visitors appreciated the opportunity of seeing these two comfortable and up-to-date farm homes. The South Plains Club members served a refreshing drink at the Wilson home which was a gracious ending to a pleasant day.

The general plans for the Achievement day were made by the Education Expansion Committee of the Floyd County

Home Demonstration Council. They are Mrs. Chloma Williams of Harmony, Chairman; Mrs. John Moss of Homebuilders Precinct 1; Mrs. R. H. Tinsley of Sterley, Precinct 2; Mrs. S. H. Tackett of Fairview, Precinct 3; and Mrs. Howard Drysdale of Dougherty, Precinct 4.

EDITORIAL
Oh, that I were as in months past, as in the days when God preserved me.—Job 29:2.

Tuesday was Armistice Day. The nation has lost the habit of celebrating this day although at one time it was recognized as a holiday of importance and observed by all. Since that time, of course, we have had two other armistice days and neither of these are observed. For that reason, probably, the desire to observe November 11 has faded.

But Armistice Day was a great holiday at one time. We distinctly remember the day the Armistice was signed and what rejoicing swept this country. The long war was ended. The boys over there could come home. Schools were dismissed. Mass meetings were held and the nation celebrated as it had no other event. Now the nation is longing for another armistice or victory. The boys in Korea also are anx-

ious to get back home. Many, many hearts of American people are hoping that the new administration in our national government may be able to do something that will bring us peace with honor.

The pollsters played it safe this time. Although every poll indicated that General Eisenhower was leading none of them dared to come out and make such a prediction. The fact that they missed the train in the 1948 predictions made them very cautious. Then those that did make any prediction said that the race would be a neck and neck affair while actually Eisenhower received a larger percentage of votes than any candidate since Roosevelt ran against Landon in 1936. We think may be the American people are going to get tired of polls one of these days.

The Beacon poll wasn't very accurate either as the editor had predicted previous to the election. While Ike lead in our poll 5 to 1, he only carried this end of the county by slightly less than 2 to 1, but at least it indicated a trend of the voting which was accurate.

Had you noticed what states gave their electoral votes to Mr. Stevenson, the Democratic nominee? Mr. Stevenson and the Democratic party had a strong labor plank in their platform but did the labor states give him a majority? No. The only traditional labor state to vote Democratic was West Virginia with 3 electoral votes. Mr. Stevenson and the Democratic party had a strong plank in their platform for the "protection of the minorities" meaning principally, of course, the colored people. But did the states heavily populated by colored people in the north go for Stevenson. No. New York, with its Harlem area, gave Eisenhower more than a million votes majority.

Where, then did Mr. Stevenson get his 89 electoral votes? Every vote he received was from a state below the Mason and Dixon line. The people for whom he promised to stuff a FEPC law down their throats voted for him. The people, as in Louisiana, from whom he had promised to take their tidelands voted for him. How loyal can you get? Loyalty is a wonderful thing but we wonder if that kind of loyalty is not misplaced. No doubt but that at one time the Democratic party was the party of the common man, the farmer and the South. But that is no longer true on a national scale. It's time the south woke up.

JUST TALK

Most everybody whose credit will stand the strain of a T-V set and antenna, are out feeling around for a good proposition and from where I sit it looks as if we are going to have to get used to houses as dark as dungeons and will have to keep our mouths shut when we go visiting. Perhaps I am prejudiced about television because the only time I saw it in operation was the day after I got out of a hospital in Dallas. At that time I was looking on everything with a jaundiced eye and television seemed a pokey entertainment to me. The big end of an evening was used up watching a golf match where Ben Hogan was beating the whey out of a little ball. He had quite a crowd of dim looking people following him around. He would put his ball on a thingamagig and haul back and wham it and the little ball would disappear off the scene of action. He would then stoop down, pick up the thingamagig and walk off the green, then he would do the same thing over and over again. He got me so tired that I could hardly lift a leg. I do not know

to this day who won and I don't care, for I never played a game of golf in my life and have a very dim idea of what it is about. It may be that T-V is well worth watching, but before I sock what I hope to make in the first quarter of 1953 into a set, I'm going to have to be lot better sold on it than I am now. In the meantime I'm going to try to find out what all this howl is about concerning the fact that there are a lot of outmoded, second rate sets that are being offered for sale at nothing down and a dollar when they catch you.—The Slaton Slaton.

BROADCASTING

Consensus of local people who heard the Saturday radio broadcast of Friday night's Antelope-Longhorn football game: "It established a new low in sports announcing." The yardstick of radio's code of ethics should be used to measure the broadcast of that game.—Aber-nathy Review.

WOMEN DRIVERS BETTER?

In a recent test made by highway officials in Detroit, a "roadometer" device which grades drivers indicates that women are better drivers than men behind the wheel. It all depends on what you mean by "better." Men undoubtedly are more skillful in their driving, so reports from traffic officials in Texas reveal. But the skillful driver is not always the better driver. Certainly he is not always the safer driver. Women take fewer chances. A woman driver may exasperate you, but she is not likely to kill you.

How can a "roadometer," or any mechanical device, accurately gauge the best drivers? Cementeries are full of people killed by skillful drivers who know all the rules and the mechanics of driving. But they lack the proper attitude on the road. No machine can accurately gauge the integrity of a driver.

Men cuss women drivers every day and in every way for doing things which are ten times more dangerous when men are behind the wheel. Yet, when men do them, they keep silent. We'll have to concede that women are the safe drivers, for almost all records, not only in Detroit, but in Texas, say so.—Post Dispatch.

TELEVISION

A local television dealer would like to see the city commission follow in the steps of the Littlefield city commission and pass an ordinance governing the erection of TV antennae before dangerous antennae are erected. Some of these towers may be as high as 50 feet. Obviously, should one be blown down, damage could result to your neighbor's property as well as your own. Fires could be started in some instances where high voltage lines might be involved. The time to set up specifications is BEFORE half the town has set up poles which would not meet safety specifications.—Tulia Herald.

MEDITATION

TWO RIGHT?

When we look about in the religious world today and see all of the different and conflicting doctrines that exist, it ought to make us wonder who is right! We know that Christ said, "Ye shall know the truth, and the truth shall make you free." The truth stands between us and freedom. The truth is the only thing that can make us free from sin. Except we come to the truth that has been revealed in the word of God then there is no hope of the forgiveness of our sins.

We know that truth always AGREES with truth. If there is not agreement we know that all is not the truth. So it applies also to the doctrines that are in the religious world today. When we find one teaching one thing and another teaching another thing we must come to the conclusion that one or both are wrong. It is not possible for both to be right, and to be teaching different things. For instance: someone is teaching that we are saved by the blood of Christ — someone else comes along and says we are saved by the blood of bulls and goats. Can both be right?

"There is one body, and one Spirit, even as ye are called in one hope of your calling; one Lord, one faith, one baptism, one God and Father of all . . ." Eph. 4:4-6. Here is a plain statement made by Paul. The religious world will fly in the face of such a plain statement and refute almost all that Paul said in this reading. The Spirit through Paul said, "one body." The "body" is the church. Eph. 1:22-23, Col. 1:18. Now someone comes along and says there are two churches. Can he be right in the light of the truth? Certainly not. His statement does not agree with truth. Paul says one "hope." Yet we find that some have a hope that does not agree with truth. Some have a hope of Christ coming back to earth to rule and reign for a thousand years. Does he have a hope that is according to truth? (It is surprising to find how many in the religious world today have such a hope!)

Paul said one "faith." Yet we hear people say today, one baptism. Some practice three (3) at the same time, one faith? That is the faith that is revealed in the written word. If you are of some other faith than that which is revealed in the word of God then you, dear friend, are of the wrong faith.

Paul says "one baptism." Yet some teach more than on baptism. Some practice three (3) at the same time. Just take your choice. You may be "baptized" by sprinkling, pouring, or immersing. Does this sound like "one baptism?" Some baptize into the church. (It takes more to become a member of their church than it does to be saved, according to them.) The apostles baptized for the remission of sins. If you were baptized in order to get into the "church" were you baptized with the "one baptism?" Dear friends, there must be agreement when all is the truth and if two teach two different doctrines then ONE MUST BE WRONG.

Methodist Notes

Is it not strange about these people who think they know all the right things about religion and that everyone that does not worship just as they do, are wrong?

You know Christ had trouble with the Pharisees at this point. The Pharisees were sure that they were right and Christ was wrong.

These people remind me of a young man who worked for my father when I was a boy. This fellow was always talking about electricity. He had a few dry cell batteries and about all he knew about electricity was that when he touched two hot wires together they would make a spark.

One day my father said to him, "Harry, you are going to be another Edison, are you?" He said, "well I don't know who Edison is, but I know everything about electricity." A mighty broad statement, also mighty ignorant, don't you think?

That is the same with these people who claim that they know all about religion and the teaching of the Bible. When we say we are right and everyone else is wrong, I always wonder if they have read the verse in the Bible that says "Judge Not." I believe Jesus really meant it when he said we should not judge other people.

I do not believe any one certain church or doctrine is going to save a person or just how that doctrine is carried out. The thing that counts is a change in a persons life. I do not believe that a person that might be baptized in all the water in the ocean will be helped, unless his heart is changed.

Maybe it is a good thing we do not all believe just alike. But it would be a good thing for us all to be more brotherly with one another. I believe there are many good people in every church and I expect to see them in Heaven.

Yours truly,
The Methodist Parson.

Kitchen And Field News

from Floyd Co. Rural Electric Co-op, Inc. By Nancy Morchel and Claude Weathersbee, Electrification Advisers

Dale Smalley is an employee of the Co-op again. He has been in Arkansas with his father who lives at Siloam Springs. (Red says Dale has rocks in his shoes so he can wear 'em.)

Mrs. Alma Parsons, Home Service Advisor with Ironite, will give ironing demonstration November 13th and 14th. There will be demonstrations in the morning and in the afternoon of each day. All dealers are welcome to use the REA Kitchen. We are always glad to have specialists come our way to show their particular appliances and how to get best results in using them.

As TV antennas go up, so does the death rate! — this is a grim fact, because so many amateur installers of TV antennas are totally unaware of the potential danger in nearby power lines. In the recent accidents, four men were electrocuted and two others were severely burned when the antennas they were erecting contacted high voltage lines. A television antenna

should never be installed where it might make accidental contact with a power line during installation; neither should it be installed close enough to an energized line so that it might be toppled into the line by a wind storm. When the metal of a TV antenna gets involved with electricity, unlimited possibilities for disaster are in the making.

Golden wedding celebrations are such nice affairs. Attended Mr. and Mrs. Will Snell's party on Sunday afternoon, October 26th at their home here in Floyd. Last Sunday afternoon attended Mr. and Mrs. C. A. McClure's party. Congratulations to both of these fine couples and may they have many more anniversaries.

Wiley Rogers, Line Foreman, and Arthur Womack, Jr. Line man, returned Friday from attending the National Job Training and Safety Congress and the Texas Rural Electric Job Training and Safety Conference held at the Shamrock Hotel in Houston, October 27 through 31st. The meeting was opened with a welcome address by Mayor Oscar Holcomb of Houston. There were a number of interesting and worthwhile work shops; the one they attended was "Supervisory Training for Foremen," by Rex Sullivan, Assistant State Supervisor Vocational Industrial Education of Alabama and A. L. Kramer, Engineering Extension

Service Texas A. and M. College System.

On Wednesday there was an educational tour which was very interesting. Among the places visited were: The San Jacinto battle ground; the San Jacinto Memorial Monument and Museum which is the world's tallest monument commemorating the heroes of the Battle of San Jacinto, April 21, 1936, and all

others who helped to win the independence of Texas; and another highlight of this tour was going through the grand old battleship Texas.

Mr. and Mrs. Willard Pollman, DeNene and Earl have moved to Dalhart, Texas, where Willard is employed at the Rita Blanca Electric Cooperative, Inc. We regret losing Willard as one of our employees — he and his family will be greatly missed.

The Shepherders are back on the air at KFLD on Sunday afternoon at 4 o'clock. Edwin Pollan plays with this group.

"Willie Wirehand" says:

Good shop equipment helps keep the farm and home in repair. An electric circular saw is easy to operate and saves hours of tedious hand sawing. You can construct new buildings, repair old sheds and out buildings. Make those long-wished-for extra bins and storage shelves. In the house you can do some neat semi-finished millwork as well as partitions and cabinets to meet the needs of a growing family. Whether you buy the bench, floor or hand electric saw, you will do the job more accurately and faster.

Most saws use a 1/2 or 3/4 horsepower motor to drive an eight or ten inch saw. Use caution in handling and caring for your saw — it is a powerful tool with a wealth of uses.

By the way, an electric drill can be mighty handy too. It does a better job than the old bit and brace. With these two working

for you, you'll do jobs you never dreamed of. (Copyright, 1952, by National Rural Electric Cooperative Association.)

Dona Covington met Bessie Rainer, Office Manager of the Greenbelt Electric Cooperative at Wellington, in Paducah Wednesday morning and accompanied her to San Antonio where they attended the Region X Bookkeepers Conference October 23-25.

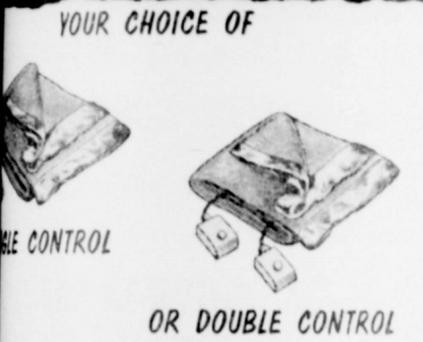

John W. Scott, REA Washington D. C. discussed accounting problems. Others from over the Region contributed interesting parts on the program.

It was nice indeed to be a guest of the Frigidaire Corp. at 2601 West 7th Street in Fort Worth, Texas, on Tuesday and Wednesday at their two-day school held for their home economists in their kitchen. The programs were most interesting. There was a range demonstration, also washer, ironer and freezer demonstration.

Mrs. Lorena McClure, with Detergents, Inc., Dallas, Texas, is quite anxious to come to the Co-op Kitchen and give us a washer demonstration. She brings a gift for every homemaker attending. We will be glad to have her as soon as a dryer is installed in the kitchen.

There will be other laundry demonstrations very soon we hope — washer and ironer too. Be sure and watch the paper for the date on these demonstrations.

Advisers

Irrigation wells have been connected recently for Reed Lawson of Lone Star community, Floyd County; O. A. Stout, Hale Center; Walter Hanna and Jack Parkey, Harmony community, Floyd County; Mm. C. Goeing, Fred Borchardt and Fritz Stein-

feld of Providence community, Floyd County; and E. B. Noel of Muncy community, Floyd County.

On Wednesday afternoon, November 19, 2 p. m., at the REA Kitchen in Floydada, Bob Gibson, County Agent will give a demonstration on how to bone a turkey and make turkey steaks. This is a very interesting demonstration — turkey steaks are delicious — and this is such a nice way to store some turkey in your food freezer. Everyone is invited to attend.

It's wise to remember when power goes off, first check for a blown fuse. If that is not the trouble, call us. Replace a blown

fuse only with a fuse. Anything else may cause trouble. The fuse is the safety valve of your electric system.

If you see anything wrong anywhere along the pole line, let your co-op know at once. Be sure to give a definite location. Never touch wires unless you are absolutely sure the current is shut off. Have all wiring done by a competent electrician with approved materials and according to specifications recommended by your co-op and by REA. (National Electric Code). Electricity and moisture do not mix. Do not touch electric cords or appliances with wet hands or while standing in a wet place.

Do not run extension cords under rugs, over nails or around pipes or radiators. When you disconnect an appliance, pull on the plug, not on the cord.

Start your turkey shopping early for one of the ways to save holiday time, suggests the U. S. Department of Agriculture specialists, to those homemakers who will be buying turkeys to put in their home freezer. However they advise against stuffing the birds before freezing because of the risk of food poisoning. What may seem like convenient advance preparation, they warn, may be a health hazard. Stuffing inside a turkey takes a long time to reach the freezing point. Meanwhile, bacterial growth may start and continue later as the bird thaws, and then as it warms up slowly in the oven. One study made by industry showed that the center of the stuffing did not get hot enough to kill spoilage bacteria until long after the meat of the bird was well cooked.

Demonstrations will be arranged for any group of our members — please contact us about the things you are interested in attending.

On November 21, Ray Tilson of Amarillo will give a sewing machine demonstration at the REA Kitchen. Everyone is invited to attend. How to do cut-work with a dial-stitch machine is one of the things that will be demonstrated.

Miss Susie Johnson of Amarillo, Assistant State Home Management Supervisor with Farmer's Home Administration was here for a meeting on Friday in the county court room. This was a meeting for their garden demonstrators and a follow-up meeting of the Garden Tour made last July. On this tour Miss Johnson made pictures from which colored slides have been made. These slides were shown and a round table discussion of the methods that had been followed in each particular picture were discussed. It made a very interesting and worth-while program, as each picture told a story and showed the advantages and disadvantages of different procedures.
