## Lockney Girls Win Matador Tournament

The Longhornettes, Lockney High School girls basketball team won the Matador Invitational Basketball Tournament last week end, defeating the Matador girls in the finals Saturday night 25 to 23.

The game was a nip and tuck affair all the way and the local girls were hard pressed to mainfrom tain their lead. June Wiley was my heart for your high point player for the local girls, sinking 15 points.

The girls had another close game in the semi-finals, defeatme every con- ing the Estelline girls 30 to 28. at I have deserv. They had previously defeated ern and feeling of Quitaque 42 to 24 and Paducah

Christmas is a tree with bright lights and tinsel and the Star atop. It is a tumble of gifts, wrapped with pretty ribbon, beneath its green boughs. It is the light and faith in little children's eyes on Christmas morning. It is the choking feeling of joy in mother's heart as the packages are opened. It is the fitting into such an environtear that wells in dad's eye and he tries to hide it with a grin. It is the remembrances of many other Christmases by grandmother and grandfather, undimmed by golden time.

It is the sermon of the Story of Bethlebem. The bymns of the choir, the Christmas. Remember Him when andlelight service, the softness of children's voices, the peace and goodwill that can come into men's hearts.

Christmas is the big tall tree in school, the only tree some of the children can call their own. It is the striped candy cane.

It is the joyful music of chimes and church bells, the carols from the day we honor. It is hardly conrecord shop, the spirit of the season that makes strangers friends. It is the garland and the candle in the window, the cards on the mantel, the wreath on the door, the mistletoe bung for Sis. It is sincerely in a bandshake, the wishes of glad tidings, the vocal meaning in the hello from neigh-

## Time To Get The Cattle Grubs

is required for cattle infested Lower pressures decrease the with cattle grubs and there is effectiveness of the treatment, he no profit in feeding these para. Says. The animals should be sites, says U. D. Thompson, assistant animal husbandman for being treated. The spray nozzle the Texas Agricultural Exten- should be held no further than

ors to take note of this. We would like very much to have everything in our office by Monday if at all possible. The big Christmas edition will be filled with greetings from local business people, as well as Christmas stories, features and local news. Also Santa Claus letters which ro not appear this week will come out in the Christmas edit-Mechanical Superintendent ion so all you boys and girls who haven't written to Santa better hurry and do so right

-000-We predict that the rainfall in Floyd County this year is going to hit an all-time low unless we have considerable moisture before the first of the year. We believe that the yearly average in der the act of Congress of this area is around 21 inches and the total in this immediate vicinity up to the present must not be more than two-thirds of that amount or possibly less. It has

indeed been a dry year. What about the cotton crop ersnext year. Of course when and how much it rains is going to have a lot of bearing on what farmers will plant but we have already heard the prediction that ore cotton will be planted in oyd County in 1953 than ever ore in history. Of course there rming but we can't see the ason for this. We predict that e castor bean crop will be uch bigger next year and also that the grain sorghum crop will increase considerably. The high And she brought forth her fir- loan vale on grain sorghums will

The question to be asked is, editorial, as you can see, is most embarrassing places. "Pull together," therefore is a nary. — Tulia Herald.

#### ATTENTION O. B. ELLIS

Alabamans are polite people. But Texans should be impressed, none the less, when Alabama's state prison inspector said the other day at Huntsville,

"I have inspected numerous risons all over the nation. The Texas system is the finest of them all. We have already found several things we hope can be adopted in Alabama."

O. B. Ellis, manager of the Texas prison system, has had wonderful backing from his prison board and from the Legislature. But a large part of the credit for the improvement of the system belongs to him. He is doing a fine job. - Dallas

#### WEDDING JITTERS

We did our best last week to this week. get the papers out early so Gaston could keep his wedding date everything went along as smooth Drug Co. as silk until the last hour or so. Then Gaston lost control, or something. We'd have been thru' a lot earlier if he hadn't put the forms on the press upside down, caught a small ink roller in the big roller and torn city on business. it to shreds, had trouble with the big roller and the belt on his hand in the press and mashed two fingers until they bled. But Gaston worked doggedly on, with mighty little complaining here Wednesday. and met Lottie and the preacher on schedule, Mrs. Gaston Owens is a very sweet and attractive been in the sanitarium for sevfamily. - Quitaque Post.

## Mystery Of Cold Explored By Drs.

How many times have you heard some wit remark, "An untreated cold lasts two weeks but one that's treated lasts only fourteen days?"

Ask the man who owns one, though, if you want to find out whether he thinks he needs treatment, or at least a little "t. l. c." (tender loving care). Instead all he gets (usually unasked) are worn-out sayings like the one above and perhaps the advice to try a few home remedies. the usefulness of which may be open to question.

Doctors believe colds should be treated for several reasons: (1) to make the patient as comfortable as possible, (2) to keep him from getting any serious complications (for example, pneumonia, middle ear infection or sinus infection), and (3) to enable him to lose as little time as possible from school or work. The exact cause of colds is

still argued, but a few general facts are known. Most scientists agree that colds are caused by one of a group of viruses.

"What's a virus?" you ask. It's a very tiny, disease-producing be seen with the microscope, allergies. kind any place except within a living cell of an animal or vegetable, which makes it the 'scroungiest of the lot" when it comes to causers of disease. In fact, viruses have been described as "master parasites."

Not only does a cold virus come to eat and live within the body of its host, man; in effect, it invites bacteria to come on in. have some free meals, and share its lodgings. Thus, while a virus may be the cause of the cold, it is believed that most complications are caused by bacteria that flock in, much like the playmates of a little boy who has found his mother's freshly baked cake and spread the good

gets depends on several things. and the order of their importance is not clear. They include the disease-producing ability of the virus itself and of bacteria which may push their way in on its heels and also the state of your body's resistance to colds. Among possible causes for low resistance are chilling or exposure to sudden, severe chan-

MEDITATION

**FAITHFULNESS** 

Our lesson this week is primarily for those who are

ers of the church. We hope that you will give care-

asideration to the things studied in this article. We we that there are those in our community who have ed the gospel of Christ and are no longer faithful to alling. We remember that Paul wrote in these words, refore, the prisoner of the Lord beseech you that ye

worthy of the vocation wherewith ye are called."

today fail to walk worthy of that calling. We know the 21 epistles were written telling us how to walk thy." If the Lord thought that it was necessary to give

h space to telling his children how to walk, do you think that it is important that we give much time to

One of the first things that comes to my mind when I

of faithfulness is what Paul said in the Hebrew let-

Not forsaking the assembling of ourselves together,

such the more, as ye see the day approaching." Heb.

It seems to me that this is, in a sense, a foundation

which to lay a great portion of our Christian life: se unless we are faithful in attendance in the servof the church, I think that there is little chance of us faithful in the rest of our duties. Worship ought to privilege to every child of God. If we do not particin the things that ought to be a privilege, then how We expect to participate in the WORK of the church. We hope that those of you who are members of the will consider seriously the matter of your condition God. If you know that you have been unfaithful in worship and service to God will you not now dete in your heart that you will be more faithful in the

demember that some day you must stand at the

ment bar of God to be judged according to the deeds

you have done in this body. There is not a life that

can live that will bring more peace and contentment

a life of deep consecration to God. Let his will be will, his every desire your desire. Then when it

es your time to quit this walk of life you may be able

ay with Paul: "I have fought a good fight, I have finmy course. I have kept the faith; henceforth there

manner of some is; but exhorting one another; and

FULL REHEARSAL FOR THE BIG DAY . . . Robert wanted Nick, the dog, to have dinner with him at his private table, but Dad and Mom were not enthusiastic until Robert demonstrated that Nick's table manners are impeccable. He did it with a dress rehearsa! which you see here. Nick seems to be enjoying nonchalantly a after dinner cigarette.

ges in the weather, lack of reason you should stay in the sleep, tiredness, worry and an best possible health. Sufficient xlety, irritating dusts and gases, rest and sleep, an adequate, eating or drinking too much, an well-planned diet, avoidance of bacteria, small plants which can improperly balanced diet, and chilling, and avoidance of other

If you are exposed to colds and indication you've succeeded in cold, you should add to your building up resistance (an im- regular diet plenty of fruit juices munity) to the virus which is and water. Meals should be causing them. It doesn't mean simple, nourishing, and easily that later if your resistance is down, the same virus may not attack with success or than another member of the virus family may not get you. A couple of scientists observed that the people of Spitsbergen, an isolated and he will be on the lookout set of islands in Norway, who for any serious complications. were free of colds all winter while there was no shipping had no epidemic involving three-fourths of the population immediately after the first boat landed in spring. This was because the cold virus had had time to die out completely and therefore the island's inhabitants had built up no resistance through contact with the cold virus during the latter part of Colds are catching; you have

only to sit in a doctor's office during a cold epidemic to realize that. (In Texas more colds occur from mid-January to June, with the peak period during March and April.) By staying home at least the first day, while your cold is considered to be most contagious, you will do your fellow man as great a service as yourself. A great many cold sufferers take the attitude. "I don't feel as bad if I can keep persons with colds are positive ing." They are self-appointed my mind off my cold by work-
