PMA COMMITTEE ASKS FARMERS TO HELP IN ACREAGE CHANGE

The Floyd County PMA committee, composed of Buck Sams, chairman, John Key West and Earl Edwards, this week issued a statement urging farmers of the county to contact their U. S. Senators Lyndon Johnson and Price Daniel, Congressman George Mahon, Walter Rogers and Poage in an effort to get the law changed on the basis for cotton allotment program in the year 1954.

The PMA committee's statement said:

"Under the present law governing the cotton allotment program, a five year average is used to secure the County allotment. In view of the transition from wheat to cotton, in Floyd County due to the increased number of wells and the dry conditions that have caused wheat acreage to be abandoned, the County Committee feels that a three year average is needed. Using unofficial figures, the difference in the county allotment for a five year and a three year average is close to 55,000 acres. The only resources we have is to get the law changed, and the way to get this done is to let our congressmen and senators know that we want the three year average enacted. We request that each farmer let senators Johnson and Price Daniel, Congressman Mahon, Rogers and Poage know that we are in favor of the law being changed to take care of the change in farm operations in the county. We feel that a two year average in wheat and a five year average in cotton are not representative of our county."

"The County Committee alone cannot bring enough pressure to have much influence, but a concentrated effort from a great number of farmers can do the job. We do not want petitions, because it is the personal letters that are considered to be the sentiment of the people, so let the Floyd County farmers send an avalanche of letters to the proper places. Our 1954 cotton referendum will be held in Floyd County on December 15, 1953."

Shorthorns Win From Kress 26-0

The Lockney Grade School Shorthorns won another game from the Kress Junior High at Kress last Thursday afternoon, the score this time being 26-0. Wesley Elland, fullback, ran 70 yards for a touchdown on the first play from scrimmage. He made two other touchdowns and Arley Pinner, halfback made another. Johnnie Hanst, big tackle for the Shorthorns, kicked two points after touchdown. It was the second win this season for the Shorthorns over Kress.

Coach Dempsey Alexander played his first string the first quarter and then started substituting. He played every man on the bench, it was reported.

Kelley Harrison was outstanding at the linebacker position on defense along with Hanst and Donald Farish, the two tackles.

Starting line-up for the Shorthorns was Roy Kidd, LE; Johnnie Hanst, LT; Coy Kidd, LG; Kelley Harrison, C; Joyce Paschal, RG; Donald Farish, RT; Larry Hammitt, RE; Nelson Wofford, QB; Wesley Elland, FB; Clifford Hardy, RH; Arley Pinner, LH.

Defeat Olton
The Shorthorns traveled to Olton Tuesday night and defeated the eighth grade there 31-6. Clifford Hardy, halfback, made two touchdowns while Wesley Elland, fullback made three touchdowns and Johnny Hanst, tackle, rushed over one point after. The boys all played good football, Coach Alexander said.

The game was late in getting started because the Olton coach was confused as to the place of the game and brought his boys to Lockney. They then rushed back to Olton and started the game about 8:30.

Mrs. Alice Dickenson and Mrs. Myrtle Montague of Portales, New Mexico visited Mr. and Mrs. W. Kendall this week. Both women are sisters of Mrs. Kendall.

Longhorns Play First Conference Game Friday

The Lockney High School Longhorns will be playing their first conference game Friday night when they travel to Muleshoe to take on the Muleshoe Mules. The game will be the first conference try for the Mules. The game starts at 8 p. m. and a large group of local fans is expected to follow the Longhorns to Muleshoe.

Injuries continue to plague the Longhorns. Denny Quisenberry, the Longhorns' mainstay on defense before he was injured some three weeks ago, is still on the injured list and it is doubtful if he will be able to play any this week. Coach Johnny Truelove said Wednesday. Also Jimmy Rankin, tackle and another mainstay on defense, was injured in practice early this week when he suffered a badly sprained shoulder. Whether he will be able to play or not is also questionable. Other members of the team are in good shape, Truelove said.

Coaches Truelove, Elvin Lyon and Dempsey Alexander have been shifting their defenses around this week to give a more effective pass defense after losing a game last week by one point to a passing attack. Paul Ray Williams has been moved in as a defensive halfback. Roy Johnson shifted to an end position and Eddie Joe Foster who has been playing at end shifted to safety position. Truelove said that Foster had been looking good in defense against passes this week. Jimmy Scott has been moved into a linebacker position on defense.

If the Longhorns are really playing ball Friday most local fans feel they can win this game. However Muleshoe has nine returning regulars from last year's team and 19 other lettermen. That team won three and lost seven.

The Mules have won from Amherst 44 to 7, tied Hereford 20 all, and lost games to Leveland 34 to 6, to Springlake 12 to 7, to Sudan 21 to 0 and last week they lost to New Deal 18 to 6.

The Mules have only 22 men on their squad but most of them have had some experience in football, before this year.

The Longhorns have a five lost and one won record but their schedule has been considerably tougher than the Mules' schedule.

Walter Gloynas Each Get Antelope Tues.

Mr. and Mrs. Walter Gloyna of Lockney each shot an antelope in the big antelope hunt in the north Panhandle Tuesday of this week. Mrs. Gloyna shot hers about noon and Walter, who didn't start until afternoon shot his soon after starting out. Mrs. Gloyna's antelope had a very fine head, Walter said.

The local couple hunted on the Taylor Ranch, southwest of Dalhart. Winifred Hargis of Amarillo, formerly of Lockney, was another hunter who participated in the antelope hunt. Hargis' picture was on the front page of the Amarillo Daily News Tuesday depicting one of the hunters out after an antelope. Several men from Floydada were also in on the hunt.

Carothers Case Dismissed By Federal Judge

The case of J. H. Carothers of Lockney against Sheriff Earl Cooper of Floydada in federal court at Lubbock was dismissed by Judge Joe B. Dooley early this week, according to information relayed to District Attorney John B. Stapleton Wednesday. District Attorney Stapleton, who was representing the sheriff in the case, made a motion some time ago to dismiss the case for lack of jurisdiction, contending that Carothers had been handled by the sheriff according to due process of law. The dismissal of the case this week granted that motion.

Carothers, in filing the suit, claimed that Sheriff Cooper had violated his civil rights when Carothers was arrested on a charge of selling intoxicating liquor. He was confined in the county jail at Floydada overnight and released the next day on bond. When the case came up for trial witnesses for the state refused to testify and Carothers was cleared of the charge.

Plan Hallowe'en Carnival Oct. 31

The annual Hallowe'en Carnival sponsored by the C. N. Townsend Parent-Teacher Association will be held at the grade school this year on Saturday, October 31, according to plans made recently by the PTA.

Hamburgers, hot dogs, sandwiches, pie and cake will be served in the grade school lunch room beginning at 5:30 p. m. and people of the community are invited to eat their evening meal there.

Following this, booths will be opened in the grade school building, operated by the various grades providing entertainment for young and old.

Proceeds derived from the carnival go to provide equipment and supplies for the school, which are not otherwise provided, officials of the PTA pointed out. They invite everyone to attend and enjoy the carnival.

Cpl. Carl Gloyna Jr. is here on leave after spending several months with the Army in Alaska. "Hap" as he is called here, will leave Friday to report to his unit now stationed at Beale Air Force Base, California. His unit, known as Engineers Aviation Branch is not a part of the Air Force but is attached to it. "Hap" has six months more to serve on his enlistment. His wife is in California.

NEW BUSES AT SCHOOL

One new school bus was put into operation recently at Lockney school and another is ready for delivery. Supt. W. C. Irons said Wednesday. The new bus in operation was put on Route 7 to the Sterley community and the other new bus will be put on Route 4, to the Aiken community. The present one going to Aiken will be put on Route 8 to the Ramsey community and that bus will be retired, Mr. Irons said.

New Auditorium Nearly Complete At High School

The new Lockney High School auditorium is almost complete and workmen were busy this week putting down the seats. New opera-type seats totaling 440 were being installed on the lower floor of the auditorium and old seats from the city auditorium, totaling 160, were being put in the balcony. It may be that the auditorium will be ready by Friday of this week.

The stage is almost ready for use with the maroon curtain and draperies already in place. Lighting fixtures are being installed this week.

The interior of the auditorium, used for many years as a gymnasium, has been redecorated, an acoustic ceiling installed and the floor made sloping on the order of all auditoriums.

Supt. W. C. Irons pointed out that in addition to the permanent seats in the new auditorium totaling 600 it would be possible to seat about 60 more with chairs. Also room has been left at the front between the chairs and the stage for the band to be seated when it is used in a program.

The arrangement of seats allows a five-foot center aisle and three-foot side aisles.

Work Slow On Building

Work is progressing slowly on the new construction in the building program. Walls are up on all of the building and all the building is partially covered with the exception of the gymnasium. Concrete floors were being run in the cafeteria Wednesday. Lack of material is holding up construction of the roof on the gym. Supt. Irons said.

Much of the tile wainscoting in the halls and rest rooms has been installed and workmen are busy with the wiring.

Although no word from the contractor was available, it does not appear that the gymnasium will be ready for the basketball season this year. The concrete foundation and floors in the dressing rooms have been run and the steel work and walls are all complete but the floor is yet to be run and the roof to be built, in addition to the interior finishing work which includes installation of bleachers and construction of the dressing rooms underneath.

In addition to a cafeteria and gymnasium, the new construction will provide offices for administrative personnel, eight classrooms for junior high school, rest rooms, storage rooms and book rooms.

The contest was a feature of the formal opening of the new Reese building and opening of their toyland for this season.

Another prize for naming two seals painted on the walls of the store was given to Mrs. J. C. Kemp. The prize was a flying model airplane and she suggested names of Red Tip and Hot Point for the seals. Mrs. W. C. Wisdom won a \$5.00 door prize during the day.

Mr. and Mrs. Reese were well pleased with the large number of people who visited their store during the week.

Mexican Nat'l Killed Friday

One Mexican National died from injuries and three others suffered injuries in varying degrees last Friday evening when they fell from the rear of a pickup and were run over by a cotton trailer near Whiteley Switch in southern Briscoe County.

The dead man is Jose Araiza Gutierrez, about 35 years of age, from Reho LaPunta, Casioags, Old Mexico. Another National, Roberto Gonzales, suffered a bad fracture of the right leg and after emergency treatment at the Lockney General Hospital was moved to Plainview for attention of a bone specialist.

Still another National, name unknown, is in the Lockney Hospital, and will be under treatment for two or three weeks. He was suffering with a dislocated hip and a number of small bones broken in his back.

Another had severe bruises of the ribs but was dismissed Monday of this week. The four were brought to the local hospital in a Carter ambulance. Fay Pinner accompanied Ed Carter on the trip.

Gutierrez died about 11:40 Friday night at the Lockney General Hospital, approximately four hours after he was admitted. He had a skull fracture in two places and a lung hemorrhage.

The accident happened two miles west and a quarter mile south of Whiteley Switch in Briscoe County. They were employed by Roy Montague. Ten or twelve of the Nationals were riding in the back of a pickup which was pulling a trailer load of cotton. The pickup hit a rough place, threw out the four men and the cotton trailer ran over them, it was reported.

The body of the dead man was still at Carter Funeral Home here Wednesday awaiting orders as to shipment.

The contest is held every week and concerns college football games. Doug guessed the outcome of every game correctly but missed the exact score on two or three.

Last Monday Thomas and his mother accompanied her mother, Mrs. H. C. Turner to her home in Shreveport, La. Enroute home they visited their son and brother, Finis A. Rodgers in Dallas.

Rain Damages Cotton Crop; Stops Harvest

Rain falling Tuesday night did some damage to open cotton and stopped the cotton harvest for a day or two. Pullers were expected to get back into the fields by Thursday afternoon if no more rain falls. However a few crews were pulling Wednesday but only a few.

Damage to the cotton was estimated by local ginners to run no more than \$5 per bale and perhaps less than that if farmers waited until the cotton was thoroughly dry before putting the hands back in the field. Cotton low on the stalk will be discolored by the rain and dirt, it was said and lower the grade somewhat.

Rain here totaled one inch, according to Joe Holt, local weather observer. Up to two inches were reported in other communities in this part of the county. Aiken had two inches with the heavier rain falling just west and northwest of that community. Mrs. Dutch Langfeldt reported. At Lone Star the moisture measured 1.95 according to Junior Smith, Lone Star Oil Co. manager. Wallace Allen had 1 1/2 inches in the Erick community. Hilburn Casey had 1.2 near South Plains. Joe Reeves, just north of Sterley had 1.6 inches and Leslie Ferguson, five miles north of Lockney, had 1.5.

Local gins were about caught up with cotton on the yards Wednesday afternoon although a few crews were pulling Wednesday.

The help situation has improved some in the past week and harvest crews continue to drift in, local gins say. The rate of pulling has speeded up considerably this week but the need for hands is no where near being met. Herbert Garza, local TEC representative said Wednesday that 15% of the crop had been gathered here and that a few more crews had arrived here over the week end. Some are expecting hands to arrive in larger numbers this week end.

Low temperature Friday was 52 degrees. High on Tuesday was 86 degrees.

Olton Leads In District 2-AA

Conference play starts this week with most of the teams, Lockney going to Muleshoe and Tullia playing at Littlefield.

The season's standings in non-conference games played thus far is as follows:

A 34-yard pass completed in the last 30 seconds of the ball game gave the Idalou Wildcats a

one-point victory over the Lockney Longhorns last Friday night on Mitchell-Zimmerman Field. The final score was 26 to 25, the Wildcats failing to make their extra point after time had run out.

The Wildcats won the game entirely on the strength of a somewhat sensational passing attack. They completed 10 of 14 passes, four of them for touchdowns. They gained 194 yards by passing. The Longhorns were somewhat weak on pass defense and usually allowed the passer plenty of time to spot his target but it is doubtful if a good pass defense could have done much with the Wildcats on Friday night. They were just good — unusually good for a high school passing game.

Making the loss hurt even worse was the fact that the Longhorns led all the way until that final 30 seconds. Twice they were two touchdowns ahead of the Wildcats, and the Longhorns were away ahead of the Lub-

bock County boys in the rushing side. But they couldn't stop those passes and that was what lost the ball game.

Pinner, Scott, Williams and McAda all did some good running for the locals and defensively Rankin, Mickey Jones, Roy Johnson, Pinner, Williams, Cross, Scott and other Longhorns were in there stopping the Wildcats.

Here is an account of the game:

The Longhorns received, fumbled the ball but managed to recover on their own 36. They made successive first downs on their own 46 and on the Idalou 42 but a fumble gave the Wildcats the ball on the Idalou 46. The Wildcats made a first down on the Lockney 44 and passed for another first down on the Lockney 26. Here a fumble gave Lockney the ball on their own 20. The Longhorns were penalized 5, made 5 and then Jimmy Williams on a keeper play ran to the Idalou 38 for a first down. The Longhorns were penalized 5, made 1 and then Jimmy Scott went around left end, cut back and ran all the way, 42 yards, for the score. Try for point failed. Score 6-0.

The Wildcats received and returned to their own 40. They made nothing in two tries at the line and a jump pass was incomplete. They kicked to the Lockney 23. The Longhorns made successive first downs on their own 34 and 47 yard lines, and then Jimmy Williams passed to End Mickey Jones for a first on the Idalou 38. They drove for another first on the 27. On the next series of plays, Jimmy Williams started to pass, then ran around left end, cut back and carried the ball 26 yards for the score. Williams also drove over for the point. Score 13-0.

The Idalou boys brought the kick-off back to their own 31, made a first on the 41 and another on the Lockney 46, then fumbled and recovered for a first down on the Lockney 27. They drove for another first down on the 17, made 1, a pass was incomplete and then Jacobs passed to Rose for the score. Try for point wasn't good. Score 13-6.

The Longhorns returned the kick to their own 39 and on an attempted pass, Rose came in to intercept, returning to the Lockney 46. The Wildcats couldn't go, however, and the Longhorns took the ball on their own 37. A pass was no good and they made 3 as the halftime whistle blew.

Idalou received to begin the third quarter, returning to their own 21. They drove for a first down on the 31, made 4 and then Mickey Jones came in to

dump the passer for a yard loss on an attempted pass. They kicked to Lockney's 40. The Longhorns made a first down on the Idalou 47, then kicked to the 13 but Idalou was penalized to the one yard line for clipping. The Wildcats passed for a first down on the 16, made another on the 27 and then kicked to the Lockney 42. Pinner made a first down on Idalou's 44, Scott carried for another first on the 34 and Pinner drove for a first down on the Idalou 9 1/2 yard line. Fullback Billy McAda made 3, 5, 0 and then drove over for the score on fourth down. Try for point failed and the score was 19-6 as the third period ended.

The Wildcats brought the kick-off back to their own 24, a fumble lost 5 and a pass was no good, then Jacobs passed to End Jim Joiner for a first down on the 39. Mickey Jones came in to drop the ball carrier for a 5 yard loss, they made 1 and another pass was good for a first down on the Lockney 39. They drove for a first on the 28, a pass was good for a first down on the 16 and a pass from Rose to Jacobs was good for the score. The Wildcats plunged the point and the

score was 13-19.

The Longhorns brought the ball back to their own 43. Scott made a first down on the Idalou 32, and McAda drove for a first on the 28. Pinner took the ball over tackle, spun and twisted his way 28 yards for the score. Try for point failed and the score was 25-13 midway of the fourth quarter.

The Wildcats received and returned to their own 32. They made a first down on the Lockney 40, made 6 and then a long pass Jacobs to Rose was good for the score. They plunged for the point and the score was 20-25.

The Longhorns received and returned the kick to their own 39. They made 2 and 3, tried a pass which was incomplete and chose to run the fourth down play, which lost 5 yards, the Wildcats taking over on the Lockney 40. A fumble lost 8, a pass made 8, the Wildcats made 6 and on fourth down with time running out Jacobs passed 34 yards to Joiner for the score. Both Scott and Williams were covering Joiner but he went up in the air between them and took the ball. Try for point, after time had run out, wasn't good and the final score was 26-25.

Shorthorns Smother Kress

The Lockney Grade School Shorthorns rolled over Kress 26 to 0 Thursday.
 The Shorthorn fullback, Wesley Elland ran three touchdowns of 70, 60 and 40 yards. Arley Pinner also scored on a 35 yard jaunt. Hanst converted twice.
 The first team was pulled out at the end of the first quarter and only saw limited action the rest of the game.
 Wesley Elland, Red Hardy and Arley Pinner stood out on offense while Johnnie Hanst and Donald Farrish were defensive stars.

Question Of The Week

What would you do if you found some old "brachyrhynchos" in your locker?
 Jerry Ford — Kick it out, I guess.
 Robert Brown — Depends on whether it was full or not.
 Don Allison — Take it out and bury it.
 Barbara Carthel — Kill it before it multiplies.
 Wendell Sims — You'd be surprised.
 Roy Johnston — Mix it with grapefruit juice and drink it.
 Oddie Rogers — Take it to class with me.
 Clara Lee Smith — Feed it, maybe it'll go away.
 Sue Wofford — Send them to Korea.
 Don Hollums — Turn it over to Dragnet.
 Darla Allison — Probably scream.
 Barbara Hays — Stand back and let it out.
 Patty Adams — Eat 'em, I'm starving to death.
 For your information "brachyrhynchos" is the name for the American crow. So you found OLD CROW in your lockers, Robert, Jerry.

Lotta Bull

Well here I am again with some more dope on football players and such.
 Denny is becoming a problem child. Last Tuesday he rode a bicycle around the football field while the coach had us grazing on the grass.
 There was one of the greatest turmoils since 1938 when Bill went off schedule last Thursday. Why? What? If your boy friend plays football, ask him about it. However he was on schedule again Friday so everything is normal.
 The ball game was a heart-breaker Friday night. But all was not in vain because Clifton threw some blocks. Rankin forgot about girls. Pinner shaved. Scott ran. McAda scored. Cross got a bite of grass. Weldon was on side. Jones didn't yell check (Special). Foster cut runners in and Williams learned to run the option play. That's all for this week.

WHAT IS THE FIRST THING YOU NOTICE ABOUT A PERSON

Wendelle — The way they are dressed.
 Roy Johnston — It depends if it's a boy or a girl.
 Barbara Carthel — Eyes and smile.
 Ravanell Turner — The way they are dressed.
 Jayne Aldredge — Their neatness in appearance.
 Donald Allison — Their eyes.
 Ann Belt — Their hair.
 Harleen Workman — If it's Billy or not.

Idalou Slips Past Longhorns 26 to 25

The Idalou Wildcats squeezed out a 26 to 25 victory over the Longhorns in the last minute of the game. The Longhorns looked better than they ever have Friday night, but had a leaky pass defense. All of the Idalou scores came on passes. Otherwise the Longhorns swept the Cats off their feet with a savage ground attack.
 About midway in the first quarter Jimmie Scott opened the scoring with a 38 yard pitch out. Then early in the second, Jimmy Williams, on an intended pass to Eddie Foster, decided to run and slipped 32 yards for the score. Pinner converted. Idalou scored on a 16 yard pass play as the half ended.

Billy McAda opened the scoring in the third with a vivacious yard smash up the middle, climaxing a 68 yard drive. Then in the fourth quarter Allen Pinner rambled 29 yards for the last Longhorn set score. Then on the last play from scrimmage Idalou completed a 34 yard pass to slip past the Longhorns 26 to 25.
 The Longhorn backs looked very good and stood out on offense for the Longhorns. They executed their plays with split second timing. On defense the entire Longhorn line looked very good. Better than they have this year.
 Let's beat Muleshoe!

Band Performs

This week the band depicted some sights usually seen at a football game.
 They came on the field playing "Indian State March." They made a right column to the Idalou stands and formed a block letter "I". In this they played "How Do You Do?" They then returned to band formation, executed a "to the rear, march" and marched to the Lockney side of the field.
 They went into the formation of a megaphone and played "Notre Dame Victory March." They then formed crossed batons and played "Skyrocket March." During this formation the twirlers performed. Next they formed a man with his hands up in the air, depicting none other than Coach Truelove, and played "For He's a Jolly Good Fellow." They then changed the shape of the man to one with bent back and drooping hands and shoulders. This depicting Franklin Spruiell, assistant drum major. They played "Drum Major Man."
 The band was hampered this week by the absence of a few members attending the State Fair. None the less, the performance went off well and was enjoyed by all.

"I LIKE Everything ABOUT MY ELECTRIC RANGE"

says MRS. C. A. GORDON
 OF 1923 HARRISON, AMARILLO, TEXAS

"It's so nice to be able to put a meal in the oven, go out and then return to find it all cooked and ready to eat," Mrs. Gordon says. "Another thing that always amuses my guests—I use the warmer drawer of my electric range to hold the plates and the home freezer top to hold the food. This gives me a regular serving center for buffet meals. At first some of my friends just couldn't believe that a kitchen could be clean enough to serve buffet luncheons. But when I explained about my clean-cooking electric range, they saw the point."

"There's just nothing to it, it's so easy. My modern electric cooking. And it's easy because it's so clean. Just look at this pan, there's no blackening of the bottom." Mrs. Gordon loves to tell folks about the cleanliness of electric cooking.

"There's no question about an electric range being modern. It has everything at Mrs. Gordon suggests. Plenty of storage space, too. Notice the large pan which Mrs. Gordon stores in the top drawer. And, there's more storage in the bottom drawers, as well."

Cake baking is one of Mrs. Gordon's pastimes. She likes to bake cakes. Since cakes should have long, Mrs. Gordon particularly likes the fact that her electric range requires no double boiler for 7" cakes using. The constant, controlled even heat makes the difference.

For broiling or baking or cake baking you can't beat an electric range. Like Mrs. Gordon says, "Everything's better, easier and safer, when you use the electric way. You don't have to worry about the same way if you were cooking electrically."

Mrs. Gordon uses her well cooked often. One thing she emphasizes. "My vegetables never have that wilted look when I cook them in the well cooker. Because so little water (just half a cup) is needed when cooking vegetables the electric way, you're sure of having vitamins, too."

Helen Whitehead Is Bride Of Wayne McClure Saturday

The Lockney Baptist Church was the scene of the wedding of Miss Helen Whitehead, daughter of Mr. and Mrs. J. B. Whitehead Sr., of Cedar Hill, to Wayne McClure, son of Mr. and Mrs. F. R. McClure of Irick, on Saturday evening, October 17 at 8 o'clock.

Rev. G. C. Applewhite, pastor of the Cedar Hill Baptist Church, performed the double ring ceremony before an archway of white wrought iron entwined with fern and topped with a satin bow. Candelabra banked with jade greenery completed the decorative background. The exchange of vows was followed by a prayer of benediction.

Miss Patti Adams sang "Because" and "I Love You Truly" accompanied by Miss Ernestine Spradlin at the piano. Mrs. Rene Yeary, organist, played the traditional wedding marches.

The bride, escorted to the altar by her father who gave her in marriage, wore a ballerina length gown of white nylon tulle over white silk taffeta fashioned with a fitted bodice featuring a modified off-the-shoulder neckline, and a bouffant skirt. Her finger-tip veil of tulle was attached to a coronet of simple design. She carried an old fashioned bouquet of white mums showered with satin streamers atop a white Bible.

For something old she carried a handkerchief which was more than fifty years old, belonging to the groom's grandmother, Mrs. C. J. McClure, new was her wedding attire, borrowed was the Bible she carried, and for something blue she wore a blue garter.

Miss Bobby Whitehead of Texon, cousin of the bride, served as maid of honor. Bridesmaids were Mrs. J. B. Whitehead Jr., and Mrs. Jimmy McClure, sister-in-law of the bride and groom. They wore floor length gowns of pastel colors fashioned with tight fitting waists with off-the-shoulder necklines topped with matching stoles. The skirts were gathered. They wore small hats with short veils and carried bouquets of white mums.

Marion Cross served the groom as best man. Jerry Bartram and Mickey Jones were ushers.

Mrs. Whitehead chose blue with black accessories for her daughter's wedding. Her corsage was white carnations. Mrs. McClure, mother of the groom, wore a black two-piece dress with black accessories and a corsage of white carnations.

Immediately following the ceremony, the couple left for a short wedding trip to Colorado Springs. The bride wore a grey suit with black accessories and a corsage of white mums for her departure on the trip.

Mr. and Mrs. McClure formerly attended Lockney High School. Mrs. McClure was a member of the Future Homemakers of America Club and an active member of the high school pep squad. Mr. McClure played on the Lockney Longhorn football team last year and had membership in the Future Farmers of America chapter.

The couple is at home in the Irick community where the groom is engaged in farming.

5 1/2 Million People Get Social Security

Well over five and one-half million people are receiving Federal old-age and survivors insurance benefits, John G. Hutton, manager of the Lubbock social security office, said today. Hutton reported that in 18 county areas served by his office, about 4500 persons are now receiving the monthly payments.

He pointed out that 82 percent of all jobs in the United States are now covered by social security, and that about 25 million people have already worked in covered employment or self-employment long enough to be permanently insured under the system.

"The national average monthly retirement check is now a little over \$50," Hutton said. "In those cases where the benefit is based on earning after 1950, the average for a retired worker without dependents is about \$65; for an aged couple, somewhat more than \$100; and for a widow with two children, about \$150. Four out of every five mothers and children are protected under the program in the event of the death of the family breadwinner."

The Lubbock office of the Social Security Administration, a part of the new U. S. Department of Health, Education, and Welfare, is located at 1616-19th Street, in the Veterans Administration Building. Hutton urges anyone desiring further information about old-age and survivors insurance, or who thinks he is eligible for benefits, to get in touch with the Lubbock office. He emphasized that a claim must be made in each case before payment can begin.

To assist those people served by this newspaper, a representative of the Lubbock office will be in Lockney at the Post Office on October 27th at 2:00 p. m.

Keep thy tongue from evil and thy lips from speaking guile.—Psalms 34:13.

It is hardly fair to local merchants for a person to come into Lockney during the fall rush and set up a stand in competition with them, usually selling an article cheaper in quality if not in price, and thus depriving the local merchant of at least some business he would otherwise receive. Whether there is a legal way to stop the practice, The Beacon editor doesn't know, but we repeat — it isn't fair to the local merchant. The business man who keeps his store open here the year around, pays county, state and school taxes, contributes to every drive for funds that comes his way and does his part in making the town a better place to live certainly deserves some consideration in the matter.

We are not saying that local people are patronizing these Johnny-come-lately firms. As far as we know they are not, but the average Mexican doesn't care where he buys his stuff and usually prefers to buy from those of his own nationality even if he gets skinned. As we under-

stand it, the City requires such persons to purchase permits to operate here but the cost of the permit is not enough to deter them. Perhaps such a permit ought to be upped in cost. Or perhaps there is a city ordinance that would control such operations. We know that a similar situation was cleaned up at Olton. By what means we do not know. We do say that the business person who drags out the slow months here ought to be given consideration when the rush period arrives.

We're proud of The Lockney Longhorns for one thing—among others — in their play this season, and that is they have never stopped fighting. In every game they have played, win or lose, they have fought all the way down to the final gun. As they begin conference play this week end it behooves all the sport fans of this community to back them even more. The boys have made mistakes, to be sure, but you can't learn the game of football in one year nor two. They've learned a lot this year and will learn more as the season progresses. Let's back 'em in every district game they play. They'll appreciate it.

It is unique — and noteworthy — that in this, the driest year thus far the Plains has ever seen, that Floyd County is booming and business is good. Unless we have a lot of rain the last two months of the year this will be a record drought year. Yet crops are almost normal in the Lockney country and the country generally will raise almost, if not as much cotton as it did last year. Of course we can thank irrigation for this, that and improved farming methods. But we can't help but think of the difference in the situation now and 30 years ago. In such a drought during that time people would be leaving the Plains. Now they are coming to the plains. We predict the influx will continue.

What to do about the cotton acreage quotas? Will Floyd county farmers just plant the acreage they have left in grain sorghums and let it go at that. Why not experiment in a small way on other cash crops. Many people think that this irrigated land is too valuable to plant wholly to cotton and grain sorghums. Perhaps we're passing up a good thing by not spreading out more in vegetables, or some other possible money crop. To our way of thinking that's a good project for you to work on, Mr. Floyd County Farm Bureau.

HOME PATRONAGE MEANS GROWTH FOR HAMLIN

The Herald makes no apologies for "harping" about home patronage every once in a while — not when further observation of the golden rule in this regard means so much to the growth and prosperity of every citizen who calls Hamlin home. We realize that every time we bring up the subject, some people will remind us under their breath "it's nobody's business if I want to spend my money in Abilene and Fort Worth." But is that assertion true? Is it anybody else's rightful concern where the money received by such a person making the statement goes?

Let's do a little analyzing before we reach a definite agreement with the assertion. If the loyalty of others were the same as that of the person making the statement, how long would that person have a job or have a business? How long would there be a town here, churches and schools, police and fire protection? Who would pay the taxes to provide these community facilities?

Yes, every citizen, wage-earner and business man and his family alike, has a very definite obligation of loyalty to the community that serves him. If

he makes his livelihood here, he owes the reciprocal support of the community's enterprises both unto himself and his fellow citizens.

If the car dealer sells his cars to the local groceryman, dry goods merchant, hardware dealer, printing establishment, doctors and druggists, then he is duty-bound to buy his food, clothing, hardware, printing, drugs and professional services at home. If the local doctor is supported by the local citizenship, then he and his family need to buy their supplies and services here. If the banker makes his living from local accounts and interest, then he and his family have an obligation to fulfill in their home town with their patronage. And that goes for the printer, too, mind you!

The wage-earner who is provided a job in Hamlin, who sends his children to schools made possible by business taxes, also has the home town loyalty obligation to discharge.

As money spent at home helps to make the future of the merchant and employee more secure, the golden rule of local spending is truly a responsibility of us all. — Hamlin Herald.

GOOD OLD UNCLE

Here's one for the record book, and it's a dilly. The French announce they are cutting their budget for the first time since World War II. The reason: Dear Old Uncle Sam is lending them 385 million dollars to fight Communism in Indochina next year. In other words they are cutting taxes by reason of this loan, and we, the tax payers here in the United States are making their cut possible by keeping our taxes high. With this saving in taxes the French are planning to build 200,000 houses next year and 250,000 in 1955. It does not make sense to us common folks why we have to keep our taxes bumping against the ceiling just to make loans to a bunch of hottentots in Europe and elsewhere on the globe. Believe we did notice where this was being done to "drain off our surplus money" to keep down inflation. If someone does not cut off the faucet, we would be drained dry before we realize it, and then deflation takes over, and that is followed by a depression, and then soup lines and WA projects. It looks like it is time for European tubs to sit on their own bottoms. — Petersburg Journal.

No Perpetual Paid Vacations?

The American Federation of Labor meeting at St. Louis has once more solved the problem of maintaining high wages with full employment.

Management, naturally, picks up the tab. Forseeing business cutbacks with resulting unemployment, the union adopted a resolution calling for a 35-hour week. Only the boss will have to pay for 40 hours of work—naturally, of course, why don't be silly!

This will prevent the union having to ask management for another wage raise, a situation that is becoming embarrassing even to the labor bosses.

The employer cuts the hours of labor to 35 per week, but still has to pay each man for a full 40 hours. But no raise in wages! Then the boss can go out and hire additional men to make up the five hours he loses per week per laborer, paying the latter 40-hour wages for 35-hours of work.

We have come up with a strictly temporary solution to labor's yearning for earning. Go home and look at television, and each Saturday a uniformed messenger will deliver the green stuff. This will afford more leisure, less work, keep up buying power and maybe keep pickets from clogging up the factory entrance.—Ralls Banner.

Long Ago In Lockney

Items of interest from the files of The Lockney Beacon.

October 25, 1923

Bonds in the amount of \$11,000 were sold last week to an Amarillo bonding concern, the money to be used in erection of a modern brick school building for the Prairie Chapel District northwest of Lockney, according to Mr. E. M. Whorton, secretary of the school board of that district.

The cotton acreage around Lockney this year will produce four or five thousand bales, so we are told, and all indications point to the fact that each year the cotton acreage will be increased, until this country will be one of the greatest in the world. As the fact that the boll weevil cannot thrive on the Plains becomes known, the cotton farmers from the boll weevil belt will be attracted to this area.

Cotton is opening fast in the Lockney country, every field has a large percent of its crop now open and must be picked at once.

Rain, rain and more rain! Did you ever hear of a Plainsman kicking about it raining too much? Well, it has come to that point in the Lockney country. Fields are full of maize heads, cotton is open, but fields are too muddy to work. A freeze would mean a great loss at this time.

The Lockney Community Chamber of Commerce held a social luncheon at the Ozark Cafe Monday noon. The luncheon was given over to a social meeting, but the school problem in Lockney was discussed, and plans will be formed toward taking care of the school proposition, which we understand is in

sore need of new building other equipment.

October 24, 1953

Lloyd E. Thompson of Plainview, was found his automobile parked on the highway 10 miles west of the Plainview highway on Tuesday morning. He is to Lockney to visit his grandparents, Mr. and Mrs. W. Baggett. The physician examined the body and said death was from causes. Thompson has ill health for some time.

Little La Juana Jean, month old daughter of Mrs. Russell Smith, died Friday following severe illness.

Late yesterday 2.30 rain had fallen in Lockney. The Beacon west to week, 37.11 inches, was recorded locally. 22 Wheat planting is other delayed and late cotton and feed being retarded until heavy damage is likely from freezing temperatures any time.

Floyd County Farm Bureau asked today to do the "Food For Freedom" campaign by increasing production of milk by lions and eggs by 1953 in 1942.

By Mrs. Roy Hollar
Mrs. J. H. Barnard, Mrs. Jess Patterson and Mrs. Roy Hollar attended the meeting of District One of Texas Libraries in Amarillo last Saturday.

On Friday next at 1:30 p. m. Dr. Stensland, director of Adult Education at Texas Tech will meet with interested people in the district court room in Floydada. The last meeting of this group drew leaders from over the entire county and it is hoped that a good number more will come next Friday.

Story hour on Saturday had the usual good attendance and the time spent merrily with Barbara Perry telling the stories. Mrs. A. H. Kreis brought refreshments and Mrs. R. H. Henry represented the sponsors, the 1929 Study Club. Our range of representation here grows and we are frequently asked about the time, the place and the purpose of the story hour miles away from our Central Library.

We have had more than one request to tell something about the magazines we take. What are they? Are magazines ever circulated? And why does a library keep back files of a variety of magazines since they take up space and are not always the easiest things to arrange when they are not yet bound? History books will eventually summarize chief events for posterity, but only the magazines and papers published during a controversial era give both sides of the question as the press sees the question in development. If there were no back files of periodicals a good many

vows were read by Rev. G. C. Applewhite at the First Baptist Church in Lockney on Saturday evening were Mrs. T. S. Brown, Mrs. A. S. C. Whitehead of Austin, Mr. and Mrs. Lester Whitehead and Mr. and Mrs. Wesley Whitehead, relatives to the bride from Texon, who are visiting with the J. B. Whitehead family.

Ware, Ras Ware and Mr. and Mrs. Bill G. Ware and Johnnie Bill.

uncomplimentary and unflattering facts would be lost to research. For a fair view of the past libraries keep files of magazines show the development of science and industry. Travel magazines show us various counties in the light of exploration. The Floyd County Library has at its beginning set up the READER'S GUIDE TO PERIODICAL LITERATURE. At present this library aid reaches back to 1951, as our library grows we may be able to extend this service back to the first of this century since the guides are available that far back.

We have subscriptions to a limited number of magazines and two good friends of the library furnished us with magazines as they reach their desks. We have for your reading use, CHARM, NATIONAL GEOGRAPHIC, HOLIDAY, HARPER'S, U. S. NEWS, LIFE and SATURDAY REVIEW. These may be used at any time in the reading space in the library. Copies which are not the newest issues are loaned

to borrowers in need of a good deal of time for research.

The Library Board met on last Thursday at 9 a. m. in the home demonstration room. A full attendance of board members considered the annual reports and the best possible use of the budget for the coming year. Gifts

GO TO CHURCH SUNDAY.

WHAT ABOUT—?

There is much-to-do made about "salvation by faith ONLY" in the world today. Men teaching that there is nothing for man to do but believe in order to be saved have arisen all about us in the religious world. If there is nothing for man to do except to "believe ONLY," what about Acts 2:40. "And with many other words did he testify and exhort, saying, Save yourselves from this untoward generation?" If man is saved the moment he believes what about Acts 22:16? Saul had already believed on the Lord and had spent three days in repentance and prayer; and yet when Ananias came to him he said, "Why tarriest thou? Arise, and be baptized, and WASH AWAY THY SINS, calling on the name of the Lord." If Saul had already been saved from sin when he believed, why do something to wash away his sins? If faith only is enough to save a person what about James 2:17. "Even so faith, if it hath not works is dead, being alone." James clearly states that faith only is not enough to save a man because it is a dead faith if it is alone; i. e., without works. If nothing more is needed to save a man than "faith only," what about James 2:24. "Ye see then how that by works a man is justified, and not by FAITH ONLY." Friend, how can you stand in the face of all of these and still say that a man is justified by FAITH ONLY? You, no doubt, have heard some preacher try to explain away the meanings of these and other scriptures that teach that man must have an obedient faith. If these plain scriptures must be "explained away" in order for the teachings of men to stand it is not clear that the men that teach such things are teaching a "salvation" that is not in harmony with God's word?

Unless the above scriptures are "explained away" they stand in direct opposition to the doctrine of salvation by "faith only." Can we not understand that ALL scriptures must be interpreted in such a way that they will harmonize? We know that the word of God teaches us that we are saved by faith. (The churches of Christ do not deny that man is saved by faith.) But let us hear the scriptures as they tell us how man is saved by faith. Galations 5:6. "For in Jesus Christ neither circumcision availeth any thing, nor uncircumcision; but FAITH WHICH WORKETH BY LOVE." If you believe that you were saved by faith only, what about the above? We read in 1 Cor. 7:19 a parallel passage with Galations 5:6. "Circumcision is nothing, and uncircumcision is nothing, but the KEEPING OF THE COMMANDMENTS OF GOD." How about your faith? Was it a faith that was dead (faith only, Ja. 2:17, 24)? Was your faith one that worked, i. e., led you to repentance, to confess Christ and be baptized for the remission of your sins?
