By Mrs. J.E. Green

We are having nice fall weather. Cool mornings sometime call for a little fire in space heaters. Visiting goes on, and harvesting will be on if Jack Frost stays

away awhile longer. Bro. and Mrs. Clay Muncy visited Miss Vera Meredith Tuesday. Mrs. C.M. Meredith came Monday. Mrs. Green and Clyde came Sunday afternoon.

Mrs. Leo Frizzell, Mrs. Elmer Warren, Mrs. Ava Jackson and the Marion Carpenters visit often with ill relatives in the Lockney Rest Home and hospital. They have visited Mr. Claud Carpenter and also a sister, Mrs. Ethel Frizzell, who is reported better.

The Clarence Ashtons "stay home" a lot, but they enjoy phone calls from their children, Francis from Connecticut and Bobby from League City.

Mrs. Ola Warren and Mrs. Fred Battey visited friends in Caprock Hospital Sunday afternoon.

We are sorry to hear that Mrs. Leona Bell fell in her home Friday night and sustained a broken limb. She underwent surgery Sunday morning. Let us remember her and all the hospitalized in our prayers.

The Thomas Warrens and the Bob Alldredges were in Muleshoe Friday evening for the football game. Also they visited the daughter and family of the Warrens - the Paul Stouts - and spent the night with them. The Warrens dined Sunday with the Aldredges.

Mrs. Morris Carrol is planning a visit soon to see her mother, who lives in the Paris area. The daughters and families of the Charles Fulkersons visted here with parents two or more weeks

Mr. and Mrs. Hal Thomas were in Lubbock Friday and Friday night visiting their children, Sue and Milton Mensch and small son. David. Bill Thomas of Lockney visited the Hal Thomases

Visitors at the Green home last week were Mrs. Bernice Carey, Mrs. Roxie Covey, Miss Francis Mitchell, Mrs. Hartline, and Mr. and Mrs. Zolan Melton of Coleman. Friday Mrs. Green and

Clyde drove to Phillips to visit Mrs. Green's sister, Mrs. J.B. Massingill and other relatives. Those gathered for the afternoon visit were Mrs. Coss and Mrs. John McDaniel, Mrs. Bill Coggin, Mrs. Dolly Deskin and daughter and grandbaby. We were in heavy showers from Tulia to Phillips. Nice! No electricity we returned home by way of the beautiful Palo Duro Canyon Saturday - a clear day. Such bountiful crops!

Saturday evening those present at the home were the other Green boys: Mr. and Mrs. Don Clark Green of Big Springs and Mr. and Mrs. Victor Green of Plainview. Also Mr. and Mrs. Anthony Latta of Mt. Blanco, and their daughter Carol of Plainview. Sunday the Don Clark Greens attended church with us at Calvary Baptist with their son Donny from Lubbock. Afterward we five enjoyed dining out at a local eating place (King's Restaurant)

We missed Mrs. Payne and Joey at church. They were spending the weekend in Denton with Tammy - a student at North Texas State.

Mrs. Massingill just came by on her way to San Antonio where word came that her son Jim is in the hospital. We trust this fine nephew will find his way back to health with our

## Whirlwinds In Cowboy Colle

One hundred and eight somewhat despondent Whirlwind fans boarded a chartered flight at Lubbock airport about 10:30 a.m. Saturday morning looking for Greener country in Cowboy land. Thanks to Roger and Tony Hill, among others, the trip proved to be a success all 'round. The group arrived in Dallas about 11:15 a.m. and travelled by bus to tour Texas Stadium and the CBS

That evening, Mr. and Mrs. Gene Barrow (Lance Barrow's parents) hosted a dinner at their home for the group, who enjoyed catered barbeque and dessert pre-pared by Mrs. Barrow.

Sunday at Texas Stadium was all the Floydada bunch had hoped for — good food served in the Houston and Alamo Rooms; good fellowship - getting to see the Cowboys "in real life" especially Pam Cathy, who stood at the door of the fieldhouse and exchanged some chit chat as the players came onto the field; good entertainment - the Cowboys won an exciting game; and finally - every Chamber of Commerce manager's dream - notoriety for his city via national TV. #### State Arts Plan **Hearing Set**

The draft of the Texas State Arts plan will be the topic of a public hearing September 29, 1:30 p.m. at the San Antonio Arts Insti-

The 44-page document, released September 1, was prepared by the Texas Commission on the Arts (TCA) to address needs and recommendations expressed by citizens throughout the state during the last five years. It to develop a long range Arts Plan for the State covering 31 areas: Commission practices, Education, Community Arts, Touring, Technical Assistance, and Communication/ Coordination. The Plan was developed through a process which included first a primary draft of goals and objectives; a series of regional meetings to cultivate public input; and further development by TCA staff of the objectives of the official plan.

The draft State Arts Plan was completed in the wake of the first substantial increase in TCA funding. In May, 1979, Governor Bill Clements signed the Legislative Appropriation, a bill increasing arts funding to an annual budget of \$1,903,439. The TCA grants budget was enlarged to approximately \$1.4 million, more than twice the previous years amount of

"The new arts plan is in itself a product of the increase in State interest in the arts, an effort to comprehensively expand the development of the arts in Texas and to sustain a growing public interest in cultural activities," said TCA Director. Allan Longacre.

Copies of the plan are avalable free from the Commission office: P.O. Box 13406, Capitol Station, 78767; 475-6593.

## Principal State Agen

The Texas Department of Water Resources (TDWR) in mid-July was named principal state agency medmber of the oil spill Regional Response Team by Governor William P. Clements, Jr., to represent the government agencies in responsding to oil and hazardous waste

The governor's Division of Disaster Emergency Services based with the State Department of Public Safety was named the alternate member of the RRT.

Consequently, since late July, the TDWR has had several staff members working for state government, the Coast Guard on-scenecoordinator on the Mexican oil spill. Another staff member is the public information officer who represents the State of Texas in the RRT press center in Corpus Christi. Additionally, one or more TDWR persons from the Weslaco and Corpus Christi field offices are assisting Coast Guard representatives at their command posts in Port Isabel and Port Aransas with the clean-up op-

Late in July, the TDWR developed and presented to the on-scene-coordinator a "first cut" strategy for protecting the bays up to the Colorado River and later in August prepared a like strategy plan for the remainder of the Texas coast. These plans had earlier been coordinated with other state agencies and the governor's DES unit. This strategy has been refined by the Coast Guard strike teams and their consultants and placed into effect.

Principal State of Texas agencies involved with the TDWR on a daily basis to assist the federal agencies in the oil spill cleanup and containment are: the State Department of Highways and Public Transportation; Texas Department of Hemission: the General Land Office; the Texas Parks and Wildlife Department, and Texas Air Control Board.

In addition, assistance has been given by the State Attorney General's office as well as the governor's staff and by the Texas Legislature through the offices of the lieutenant governor and the speaker of the house. A brief description of each state agency's functions fol-

carpool.

The new rate would be intended to encourage carpooling and share-the-ride arrangements. It was discussed in detail at the recent automobile rate insurance hearing by David B. Irons of Dallas, attorney for the Texas Automobile Insurance

Service Office (TAISO). Specific statistical evidence about the effect of carpooling is unavailable, Irons said, "but we believe such a program would be worthwhile if it served only to inspire a conscious participation by a broad segment of the work force in the program of national energy con-

servation. The TAISO approach would have the State Board of Insurance establish a rate classification for drivers who reduce the use of their car in getting to and from work.

Under the present rules, a driver who drives to and from work often pays a little more for insurance than one who doesn't. A new carpooling classification would provide a rate to acknowledge the fact the car would still be used to and from work - but used less frequently, presumably less than 50 percent of the time. It was clear from hearing testimony that the

The Veterans Administration is sifting through stacks of paper with the proverbial fine toothed comb these

gram don't lose money in the That may sound like a contradiction in terms, but Congress decided last year that certain personal income that wasn't counted for pension purposes under the old plan would be counted under

the newest one. VA chief Max Cleland is reminding veterans and their survivors seeking to switch to the new pension plan that while the neediest among them will receive substantial pension increases, some others may not.

A veteran with a working wife, for example, and certain outside income of his own, might be better off with the "old" plan.

Because of this, VA has returned about 52 percent of the applications it's received to convert to the new plan.
"We take a careful look at each application and if the veteran or survivor stands to lose money, now or in the near future, by switching

over, we send it back and ask him to reconsider the whole thing," Cleland said. 'The point is, we don't want anyone to make a change that's going to be

costly to him." For those pensioners who would benefit financially by converting to the improved plan, Cleland urged them to make their decision before October 1, if they want the new, higher pension rates to be retroactive to January 1,

'They can make the switch at any time," he said, but the retroactivity feature ends on October 1.' VA pensions are based on

income and go to eligible wartime veterans who are permanently and totally disabled from causes not traceable to their service, and who are in financial need. Pensions are also paid to

certain needy survivors of

wartime veterans. Cleland urged veterans or survivors who have questions about the differences between the new and old pension programs, and which would be best for them, to contact the nearest VA regional office.

Assistance in deciding whether to change to the new ension plan is also available from representatives of local veterans service organizations, and veterans county service officers.

three Texans think that crime and violence on television and in the movies cause moderate to large increases

in the crime rate. This was one of the findings of the latest Texas Crime Poll, a survey of attitudes and opinions in the area of Criminal Justice conducted by the Criminal Justice Center at Sam Houston State University.

A total of 1,463 Texans living in 176 counties participated in the survey. They were asked separate questions concerning television and the movies, and results were almost identical. A total of 28 percent felt

"All kinds of unusual things happen in this area," said Kercher. "It's not a simple relationship."

Studies have shown, for instance, that watching extremely violent crime "turns people off," said Kercher. Also, people who watched lawmen riddle Bonnie and Clyde with bullets became aggressive.

In general, moderate amounts of violence tend to incite people, he said. Children who watch violent cartoons show an increase in violent play.

Kercher said he would agree with the 35 percent who selected "a moderate increase" as their answer.

Several questions in the survey dealt with post-trial disposition of criminals, specifically probation and cor-

Most Texans (90 percent) said that probation should not be allowed for persons convicted of violent crimes, while about the same number (85 percent) felt probation should be allowed for non-violent crimes.

Respondents were also asked to evaluate the Texas prison system's effectiveness in preparing people to return to society, with 4 percent saying it does an "excellent job," 18 percent saying "good job," 51 percent saying "fair job," and 20 percent saying "poor job."
