HOFFMAN PARAGRAPHS.

Farmers are busy harvesting
small grain; crops are looking
fine; grass is fine; stock of
all kinds is fat—plenty of fat
beef on the Plains now.

Miss Mary Browning of Ama-
rillo is visiting in our community
this week.

Rev. J. T. Burnett delivered
an able discourse last Sabbath
on the "New Jerusalem."

Sunday School is progressing
nicely at Paladuro Church;
everybody both old and young
are interested.

The singing at Mrs. Days' last
Sunday night was well attend-
ed.

Mr. Bertram of Deaf Smith
passed through our vicinity en
route to Canyon with a load of
milo maize.

F. Hoffman is busy baling his
alfalfa which is fine.

Jimmie McClain and sisters
spent Saturday night with B. T.
Johnson's family.

Mesdames Frazier and A. B.
Cage went to Canyon Monday.

Well I think the name of
"Tassie" has scared "Uncle

C. W. Word.

Died—At his home near Happy,
Saturday night, C. W. Word,
from the effects of strychnine
taken by him, it is said, under the
impression that it was calomel.
Deceased leaves surviving him a
wife and three children. The in-
terment was at Amarillo with
Masonic ceremonies. Deceased
has been in the West for many
years and is well known among
old settlers, especially cowmen.

Later—The statement made by
the Amarillo Herald that deceased
came to his end from the effects of
"degenerated calomel" prepared
and given to him by his wife, is
wholly incorrect. Deceased had a
medicine chest or box in which he
kept strychnine as well as calomel
and out of this box, and before re-
tiring for the night, he, himself,
fixed up the dose in capsules, using
what he at that time supposed to
be calomel, but afterwards from
the effects produced, was sure 'twas
strychnine. The bottles contain-
ing the two drugs were similar and
not labeled and so the mistake
could easily occur. This statement
was made by deceased when suffer-
ing from the effects of the
poison and it is corroborated by the
circumstances.

Specialty on Ice Cream.—Can
supply parties or gatherings on
short notice.

GRADING UP.

Grading up or improvements along the line of every avocation is the rule of civilization. The world today requires better professional men, better mechanics, better stockmen and farmers than it has ever done. With the advance of education and the acquirement of knowledge by the masses of the people, new tastes have come into play; more and more people every day are demanding the best of everything the world has in store and to those who seek to supply these wants are coming the greatest rewards.

The stock raising methods of a generation ago will no more answer the purpose of today than would a return to the old reaper hook serve to harvest our grain crops. There has always been a market for "tops," which is only another name for the best, in all this old world of ours has for sale from brains all along down the line to mouse traps. This demand for the best, once restricted to the purse favored few, is now almost universal—everybody wants it if within their reach at all. It has been said that cultivated minds begets refined tastes. This grading up process, for such it may well be called, often goes to extremes, but say what we will of it it has gotten to be a general condition and to profit by it we must fall into line and give the world what it wants—the best.

If engaged in professional careers we must grade up and not be satisfied until we have reached the very highest pinnacle of knowledge in our special line and if possible go beyond it; if in the stock business or in other agricultural pursuits we should grade up, not stopping until the productions of our skill and labor rank "top" in the markets. And so in every other line of business or calling in life, we must grade up or otherwise be ranked down as one of life's failures.

There is still lots of homeseeker travel down Pecos Valley way, but if these folks could only see and know of the merits of our Plains county nothing but the overflow would ever reach Roswell.

The fifteen inch double column Ad of Sanger Bros., in the Dallas News runs at about two hundred dollars per day. Pretty good price for an ad you say. Yes, but it pays; they know this to be so from experience.

The committee appointed for the purpose of increasing the number of the Board of Trade members to fifty has not reported yet and perhaps never will, as it was fifty or no report.

SADDLERY.

If in need of a Saddle, no matter what style, we can fit you up--the price will be right, you will say so yourself.

Harness--Wagon or Buggy, double or single, and all sizes and finishes--It's made right here in Canyon City by expert workmen in our own shop. Repairing also done. Call around.

SPECIAL!

TO CLOSE OUT--

The Old Hymns.

There's lots o' music in 'em the hymns of long ago,
And when some gray-haired brother sings the ones I used to know,
I sorter want to take a hand--I think of days gone by--
"On Jordan's stormy banks I stand and cast a wistful eye!"

There's lots o' music in 'em those dear sweet hymns of old
With visions bright of lands of light and shining streets of gold;
And I hear 'em flinging-singing where memory dreaming stands
"From Greenland's icy mountains to India's coral strands."

They live to sing forever of holier, sweeter days,
When the lilies of the love of God bloom white in all the ways;
And I want to hear their music from the old-time meetin' rise
"When I can read my titles clear to mansions in the skies!"

We never needed singing books in them old days--we knew
The words--the tunes of every one, the dear old hymnbook through
We didn't have no trumpets then--no organs built for show;
We only sang to praise the Lord, 'from whom all blessings flow.'

An' so, I love the old hymns, and when my time has come
Before the light has left me and my singing lips are dumb,
If I can only hear 'em then, I'll pass without a sigh
"To Canaan's fair and happy land, where my possessions lie."
--J. J. Mays.

Official Route of Epworth Leaguers to Denver.

Official announcement is made by the State Chairman of Transportation that for the 7th International Epworth League Conference to be held at Denver July 5th to 9th, the Fort Worth & Denver City Railway ("The Denver Road") has been selected as the 'Official Route' from Texas and that in connection with that line arrangements have been perfected for Special Service leaving Fort Worth at 9:55 A. M. July 4th, the schedule being such as to put Delegates and friends in Denver early the following afternoon.

In addition to the always up-to-date regular service available

via that route, which includes Palace Sleepers and Cafe Cars, the special arrangements also provide for operation of first class Pullman Tourist Sleepers, through, in which entirely satisfactory sleeping accommodations will be available at but one-half the usual expense. In other words, upon a basis of two persons to a double berth, individual expenses for through Sleeping Car Accommodations need not exceed \$1.25 from Fort Worth to Denver.

As the passage rate will be but one fare plus \$2.00 for the round trip and tickets will be good for stop-overs, also good for 60 days for return, and at an unusually low rate side trips will be available from Denver to the numerous adjacent resorts and points of attraction in and along the mountains, it is anticipated that Texas Leaguers will, as they most undoubtedly should, be on hand in large numbers.

As a strong effort is to be made toward securing the next International Conference for Texas, many Pastors and other Church workers will head delegations from their respective charges and communities in the interest of accomplishing the end referred to; hence it is a foregone conclusion that 'Grand Old Texas' will be strongly and enthusiastically represented and that, among the many thousands who will be present from every section of the country, Texas and its claims will be made manifest and become justified through its delegations.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

Needs no introduction to the public. It has been in use for over thirty years and has proved itself to be the most successful remedy yet discovered for bowel complaints. This remedy is for sale here by S. V. Wirt, druggist.

Wilson carries a nice line of Tablets, Pencils, Pens, Ink, etc.

WHY NOT?

All our Lumber is well seasoned and kept dry under good sheds.

Why not buy this kind?

BURTON-LINGO CO. LBR.

Just What Every One Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by S. V. Wirt, druggist.

The reward of the inventor who can produce artificial diamonds is so tempting that the Moisson experiments with the electric furnace, which were inaugurated some eight or ten years ago, have been continued until the present day. They are now being carried on in the laboratory of the Sorbonne, in Paris.

The first diamonds made by the electric furnace were of microscopic size and few in number. As the work continued various modifications were worked out, as the experience of the investigators became greater, until now success seems imminent. The crystals are positively known to partake of all the characteristics of the diamond in crystalline structure, hardness and chemical composition. The largest crystal yet obtained is only one-half a millimeter in length, and, while this is only a spark, it indicates that the process is capable of yielding diamonds of good quality and that some day in the not distant future the laboratory process of Mother Nature, as exemplified in the Rand, may be duplicated in man's laboratory and in a commercial way.—Chicago Journal.

Reese Huff has purchased the west end of his father-in-law's quarter block and will build a residence there in the near future.

A. L. Anderson, formerly in business here, has moved his stock to Hale Center and set up shop there.

A. S. Rollins made a business trip to Tulia Saturday returning Tuesday.

Stock are getting in good shape all over the county and before long we may look for some trading.

Earl Heller of Buffalo Gap, a nephew of W. F. Heller, came in last week on a visit to his relatives.

Tuesday, L. N. Lochridge left this office a sheaf of wheat out of his twenty-four acre field recently cut. The heads are of fair size and full of nice plump grains and if the stand be good the yield to the acre will not miss twenty bushels very far. Come by and take a look at the sheaf.

"Clean Up!"

Once more The News would insist that our citizens "clean up!" Make it a personal matter, first looking well to your own premises and after these are thoroughly gone over, and all offal, trash and weeds removed, assist in making more healthful and slightly the commons of the town.

Not only will this be beneficial in recommending the town to visitors and strangers and thus result in financial benefits, but it will also pay from a sanitary point of view.

Some work of this character has already been done by various citizens, but there is much yet that needs attention and needs it badly. Again The News repeats, "clean up!"

J. C. Wren of the Amarillo Herald was here Friday canvassing the town for Job work. The News has no kick coming on that score but he might at least have called in to see us.

T. E. Baird is still in the dairy business—when in need of butter, sweet or sour milk phone him.

James McCormick is having Coffee Bros. go over his residence this week tearing down some and in lieu thereof having new parts added. Jim says he is fixing up for the Reunion.

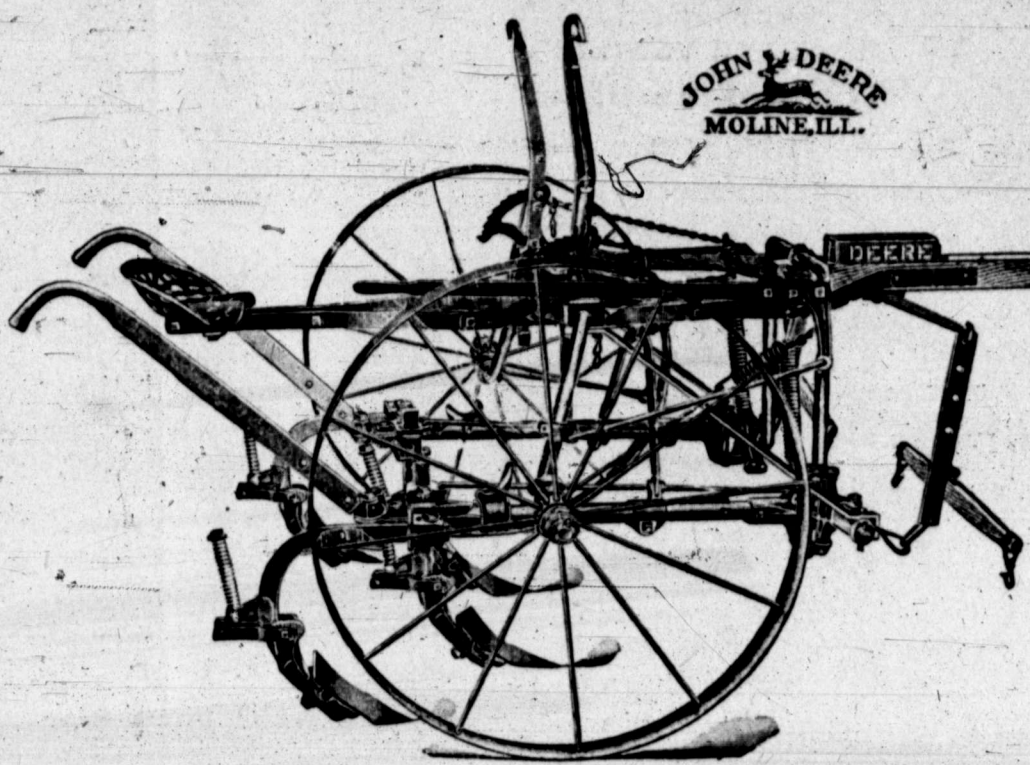

Monday evening the following young ladies left here to attend the Normal at Clarendon: Misses Sadie Montgomery, Mary Wansley, Belle Shotwell, Freddie Curry and Fay Madison. Wednesday, Miss Mae Lair left for the same place and purpose.

H. James of Ceta, was in town Wednesday. He says that wheat and rye in his vicinity is mostly cut and that the first named grain will go in the neighborhood of twenty bushels to the acre; that oats are also good and about right for the sickle; that those of his neighbors who are not busy with grain are trying to get out of the weeds.

L. B. Russell Jr. of Amarillo, and owner of the old Live Stock Champion at the time of its absorption by the Herald, was in town Tuesday.

J. C. Mitchell, for awhile engaged with Walter G. Cobb, spent a portion of last and this week in the vicinity of Matador for Tom Rowan in the "Pantry" line, returning here Tuesday. Wednesday, he left for Amarillo in search of a more congenial job. It is reported that Bill Luna and Sam Shotwell, also engaged in the same line, are back at home plowing.

Mrs. L. N. Lochridge, residing near Happy, left Amarillo Sunday morning for Fort Worth to be present at the burial of her father, J. J. Scott, who passed away Saturday. Deceased was one of the old pioneers who helped to make the glorious part of Texas history and who are now rapidly going to "Rest Under the Shade of the Trees."

Saturday, Sheriff Slover visited the now rapidly moving Texico. He says that tents are in evidence everywhere and that lots of good mules are there and still more coming in for use in the grade work which is to begin "right away."

RAILROAD NOTES.

L. J. Brown of Oklahoma and T. F. Berryhill of Fannin county arrived here Monday and are guests of Chas. Trowbridge who says he will put them right at work in his cotton patch—while Mr. Brown says he was hunting a country where he would not have to work, and heard the Plains was that paradise.

Messrs. Brown and Berryhill who passed through Quanah Friday says all the talk among the citizens was the extension of the Frisco across the Plains and that nine cars of tools were in Quanah and work would begin in a few days. They also said a Railroad man told them the Santa Fe would cross the Frisco somewhere near Lockney.

Mr. J. B. Posey informs us that Lubbock and Emma have received letters from the Dallas & New Mexico Railroad people stating they would soon come this way with their road.

And Swinson & Co. also talk of building the road this way from Stamford, having bought 80,000 acres in Dickens county. So hold your breath bud, and put your ear to the ground.—Lockney Beacon.

Commissioners' Court

Acting as a Board of Equalization the full six days was put in last week. There was considerable difference of opinion among the commissioners as to assessment values, and on several occasions it became necessary for the County Judge to settle the controversy by his vote. The values adopted by the court for lands ranged from \$1.50 to \$15 per acre. On Stock-cattle, prices for assessment was fixed by the Court at for the highest grade, \$20, for the next grade \$9, and for the lowest grade \$8 per head. On steers, 3's were put at \$16, 2's at \$12, and one's at \$8. The court will convene again to finish its work as a Board of Equalization on Friday, the 30th day of June. One hundred citizens have been notified to appear and show cause why their rendition should not be raised.

Monday, the editor of The News took a trip with Judge Buie over the south-western portion of the county. Mr. Buie's business was to look over some lands which he has for sale, and The News man went along chiefly to see that portion of the county. We went over a goodly stretch of fine arable lands, almost, you might say, from start to finish, but was in sight of very few fields as all of that part of Randall county seems to be held by stockmen. The only stop made was at our friend, M. N. Gallagher's where we called in to "get something to drink."

Sam B. Lofton, W. M.

J. L. Prichard, S. W.

O. C. Davis, J. W.

J. C. Pipkin, Treasurer.

C. R. Burrow, Secretary.

Rev. J. E. Stephens, Chaplain.

J. W. Prichard, Tiler.

There was also work in the Fellow Craft degree and the lodge held until almost two twelve. The attendance was good.

The old Cuban Leader, General Gomez, died last Saturday.

A Fine Rain.

A fine rain, coming from the north, greeted us Wednesday night. It extended to Tullia on the south, Umbarger on the west, and all over the northern portion of the county. The eastern part had not been heard from when this was written, but it rained out that way.

While not particularly needed—it was not desired at all by some of our grain and grass men and lots of others whose only visible growths are weeds—it did a vast deal of good for the farmer generally. It will assist materially in filling out those grains not quite ready to cut and to the farmer who all along has kept in close touch with his business it was welcome, and also to the stockmen.

All told the agricultural outlook all over Randall county is strictly first class.

You folks who are chasing your money off for four full quarts, have you much idea of what you are getting for your money? Listen to what a liquor dealer himself says:

"Every day in the year there is a new distillery built on paper. A man with a hundred dollars or two buys three or four barrels of whiskey, makes ten or fifteen barrels out of it, and goes into the mail order business, representing himself to the public as a distiller." "All is not gold that glitters," nor is everything whiskey that burns your throat and makes you foolish.—Bridgeport Index.

Science teaches that a human being cannot die of old age under 150 years.
