Floydada Railroad.

The Hesperian of Floydada has the following to say concerning their proposed railroad:

"The contract of the committee with the Santa Fe Railway Company reached here Thursday and was signed and sent back Friday, too late for publication last week.

The terms of the contract are as follows: The Company agrees to have their road in operation through the county not later than Jan. 1, 1908. No bonus required except right-of-way and depot grounds. The company will complete the grade to Floydada within four months after the right-of-way is secured them. As no cash bonus was required of the people, no bond was required of the Company. It was agreed that the depot should be placed on the town section somewhere between Main and California streets, which means that the depot will be about two blocks north of the square, two blocks east of the square, or at some point intervening. It was agreed that the company should return the right-of-way with all that had been expended on it in case they failed to build within the specified time. This practically covers all the points of the contract. The committee have a written promise from Mr. Avery Turner, the vice president of the road, to the effect that the work would be pushed continuously, and that no stop would be made to favor any town to the west of Floydada. Also that the company expected to be running trains

to Floydada not later than March, 1907."

This refers to the railroad from Texico which is billed to pass through Plainview and on to Floydada.

On Wednesday The News was informed, on the best of authority, that all that portion of the road lying through Hale and Floyd counties had been abandoned by the Santa Fe and that all deeds to the right-of-way would now be returned. This of course, knocks the bottom not only out of the Floydada but also out of the Plainview contract.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Better than Three Doctors.

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone, we began using Chamberlain's Colic Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for.—Mrs. B. J. Johnston, Linton, Miss. For sale by S. V. Wirt, Druggist.

Land For Sale—1262½ acres well improved 6½ miles from Canyon City. For price apply to owner, I. L. Vansant, Canyon City Tex.

Including the brick business houses there are 25 buildings in process of construction in town. This does not include those contracted for and not begun,

Judge Dinwiddie of Tulia was in town again this week. He said that on Monday the track laying on the railroad had reached the county line and could not possibly get to Tulia by the 20th. He also said that the report to effect that the Tallmades would lose anything by its failure to reach Tulia by that date had no foundation; that the options on land, or by far the greater portion of them, expiring on that date, had been covered with the cash.

Saturday, the Panhandle Exhibit car was to leave Amarillo for a two months visit to the middle and northern states. The exhibits are much in quantity and fine in quality, and the bigger end of them were supplied by Amarillo and Hereford. W. A. Ward, a Randall county farmer, but an Amarillo man, is in charge of the car and has an assistant from Hereford. It is said to be the best exhibit of farm products ever sent from the Panhandle; is in the hands of competent persons and is bound to do all of us Plains people lots of good.

"Bailey Puts Off Fight on Bryan," say the headlines. That's the sensible thing to do, Joseph. You're smart and brilliant and popular, but when it comes to going up against a man of Bryan's caliber, Joseph, you are clearly outclassed. Put it off, Joseph, and keep on putting it off, and you will be happier.—Boyd Index.

Canyon City—the place for a great city. Abundance of running water; natural drainage; located on the Santa Fe, now being made the trans-continental line from Chicago to California. The Santa Fe (Gulf line), is now building South from Canyon City. Randall, is the best county in the Panhandle. The general price of land is from \$7 to \$10 per acre. Property in town a specialty. Don't fail to see me.

Certain voters in Randall, Kans., have thought up a new combination. They have resolved that they want Bryan for President and Roosevelt for vice-president. It is exceedingly rare that a man makes the sort of a record as vice-president to bring him up as a candidate for that office again.—Ex.

The Daily Panhandle

The News notes with sincere regret that the Daily Panhandle, a truly meritorious Daily newspaper and the only one worthy of the name that the Panhandle ever had, is considering suspension on account of the lack of advertising patronage.

Amarillo with her present size and abundant prosperity and her very lively prospect for as much again or even more can well afford to give a liberal support to such a newspaper as the Daily Panhandle has proven itself to be and failing to grasp this opportunity, as she seems about to do, the loss, while heavy on the publishers of the Daily Panhandle will fall with far more disastrous effect upon herself. The management of the paper puts it up to Amarillo in these words:

"It is readily admitted by men who observe and know things when they see them that at this time there is not an individual enterprise which can do more for Amarillo and the surrounding country than a first class daily newspaper. There are those, of course, who can see nothing except dollars in hand, but life is too short to waste time on such cattle. Some happy day they will pass on to other realms and others will have the pleasure to live in luxury upon their boarded shekels."

"As stated heretofore, and with absolute truth, the issuing of a daily newspaper is an expensive business. Hitherto the receipts of the Daily Panhandle have failed to meet the expenditures by \$200 per week. We are willing to bear the loss for a reasonable length of time but not indefinitely or always. Unless the business men of Amarillo, as a whole show their appreciation of our efforts by more liberal advertising the Daily Panhandle will be discontinued."

The evidence all points to the fact that Amarillo is to sustain her reputation as a "newspaper graveyard." One daily paper, The Tribune, died a few days ago and now the best one she ever had and in all probability ever will have, serves notice of demise unless well earned and well deserved support be given.

Unless all signs fail the Daily Panhandle will have to go and while Amarillo, as previously stated will be the greatest loser the whole Plains country will suffer thereby and the blame should be placed where it rightly belongs—on the shortsighted business men of Amarillo.

Senator Bailey

H. Clay Pierce, the head of the southern division of the Standard Oil Trust in the investigation last week testified among other matters that, "He had placed his valuable holdings in the Tennessee Central Railway Company, the Tennessee Construction Company, the Briar Hill Collieries and the Cumberland Coal

Company in the hands of Senator Bailey of Texas, with power of attorney to handle for him as the Senator saw fit." Mr. Pierce testified that this property, over which the Senator had absolute control, was worth some thirteen millions (\$13,000,000).

This will once again remind Texans of the fact that Senator Bailey in 1900, rendered, valuable service to Mr. Pierce in getting his business back into Texas after our anti-trust laws had shut him out.

No wonder Senator Bailey was a "particular friend" to Mr. Pierce in 1900, and small wonder that he is opposed to Mr. Bryan's way of bringing the trusts to terms.

Too Prosperous.

An old Scotch minister, famous in his day was given to such expressions during prayers as follows:

"Oh Lord! Keep the people from undue prosperity; and I will keep them humble" and now comes the Claude News and upon the same lines unburdens itself in this wise:

"The meeting at the Christian church closed Monday night, the only additions being three by statement. The preaching was good, the music and singing fine, and the attendance at most services above the average, but the interest was not there. The fact is, meetings in the Panhandle this year have not been as successful in winning souls to the cause of the Master as could have been desired. It may take a visitation of boll weevil or a drouth to bring the people to a full realization of their dependence on a higher power. When people are too prosperous financially they seem to forget their spiritual needs."

Farmers are very busy cutting their feed.

Miss Luna Hitchcock who accompanied her friend, Mrs. J. N. Browning of Amarillo, to Corpus Christi, to spend the winter, is delighted with that climate.

Tuesday, the ladies of our community surprised our bachelor neighbor, Jesse Pierce, with a birthday dinner at his home. Everyone carried a well-filled basket consisting of chicken, all kinds of vegetables, meats, pies, cakes, custards, and in fact everything that is good and inviting to the inner-man. Every one enjoyed the feast. In the afternoon we had a water melon cutting that was much enjoyed. We left wishing him many more anniversaries, and by the time the next rolled around he would have a better half to share the joys and pleasures of life.

THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln, splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fence. We know you are.

- First—there was the stone fence of medieval history.
- Second—pioneer America converted its timber into rails.
- Third—somebody found a way to weave wire and slats.
- Fourth—along came barb wire, with its marvelous sale.
- Fifth—machines were invented to twist or clamp one wire around another: the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary these wraps and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

TASSIE.

According to Associated Press reports the northbound Rock Island train, No. 12, on Tuesday plunged into the Cimmaron River between Kingfisher and Dover. All except the sleeper went in and report has it that of train crew and passengers few people escaped aside from those on the sleeper. The railroad officials claim only two were lost.

Stringfellow-Hume

The Daily Panhandle of Wednesday contains the following touching the Stringfellow-Hume change:

"Particulars were given out for the first time in regard to the change in the Stringfellow-Hume Hardware Company. The store of this company at Canyon, Hereford, and Amarillo will be absorbed by a new company under the name of Morrow-Thomas Hardware Co. This company also absorbs the store and business of the Roswell Hardware Co. at Roswell New Mexico.

Mr. John Thomas, now of Roswell will be the head of the new organization and Hugh R. Morrow, also of Roswell will be the other leading member. The company will have a capitalization of \$300,000 and it is likely the present members of the local firm will hold blocks of stock. The stores at Canyon and Hereford will be under separate management as the Johnson-Gray Hardware Co.

The Stringfellow-Hume firm is one of the oldest and best known firms in the Panhandle. It has

built up a large business and the new organization will come into rich opportunities. Hugh R. Morrow is an old citizen of Amarillo and was once in the hardware business here.

PERSONAL AND OTHER MATTERS THAT CONCERN OUR CITIZENS.

Social Events.

Last Friday evening Mr. Travis Shaw gave his third annual entertainment at his bachelor quarters. Mr. Shaw possesses that charm of hospitality, as host, which cannot be described, but is immediately felt, it breaks through the chills of ceremony and puts the guest at once at his ease. He was ably assisted in entertaining by Miss Besse Haney and Mrs. D. A. Park.

Many and various games were introduced and contributed much to the pleasure of the evening. At a time like this, where all is given to joy and play, it is interesting to withdraw yourself for an instant and note the several kinds of laughter, the inevitable sign of merriment and good humor,—there are the dimples, practised to give a grace to the features, (and is frequently made a bait to entangle a gazing lover(?)); the smile,—for the most part confined to the fair sex, and their male retinue. It expresses satisfaction in a silent sort of approbation; the grin,—well, it is made use of to display a beautiful set of teeth; the horse-laugh, is made use of with great success in all kinds of disputation. The proficients in this kind, by a well-timed laugh, will baffle the most solid argument. Thus, the noiseless foot of time steals swiftly by and ere we dream of the lateness of the hour, dainty refreshment of cream and cake is served, and soon, the hands on every dial tell the same silent story, unmistakable in its meaning, and it is time for departure. The following guests were present and expressed themselves as having spent a most delightful evening:

Mr. and Mrs. D. A. Park, Mrs. J. Harrison, Misses Haney, Bowyer, Amelia, Berta and Sue Wilson, Smylie, Gober, Word, Ona, Jessie and Minnie Long, Dunbar, Conner, Garrison, Mills, Moreland, Lane, Sweeney, Miller, Robinson, Eakman, Donald, Gilliam, Emma and Maud Brandon, Bernecker, Lester, Jordan, Redden, King, Baird, Messrs. Miss Berta Wilson and her cousin, Miss Alice Smylie of Lubbock, left Monday evening for Milford, Texas, where they will enter school.

We had two fine showers last week and a pretty fair rain on Monday night. Rain fell all over the county as far as heard from and is very acceptable to those having wheat sown.

Some 20 cars of Randall county alfalfa have been shipped to Fort Worth and other eastern markets this summer in addition to several cars that went to supply local demands at Hereford.

Ed Wesley was in town Monday with peaches, and presented The News office, for his father, a watermelon that looked and felt like it weighed close to 75lbs and is so far the best our force has had to eat this season.

Married—At the Court House Tuesday evening by the Co. Judge, Sidney Ramsey and Miss Eula Leyary all of Amarillo. They came here in a buggy, procured license, married as stated and went their way rejoicing.

A fair-sized crowd witnessed the presentation of "Captain January," by Miss Randle, at the Court House Saturday night. The recital gave excellent satisfaction.

The gentleman who promises so much to Hereford in the way of a grain house, 40,000 bushel grain elevator and a mill, was in town yesterday. He told some farmers here, and what is more, seemingly made them believe it, that inside of ten days he would have a grain warehouse and an elevator in operation at Happy. This is practically impossible and is what some people term "wind jaming."

PERSONAL AND OTHER MATTERS
THAT CONCERN OUR CITIZENS.

Incorporation

Referring to the petition elsewhere and the order of the county Judge calling for an election thereon The News is inclined to believe that in such election incorporation will carry by large majority. One reason for this belief is that Geo. L. Abbott who carried the petition soliciting signers stated that not a single man approached refused his signature. Of course this within itself is not sufficient grounds for taking the position that all who signed, and in proportion all others who did not sign will vote for incorporation, but a majority of them no doubt will and this will carry it through.

It must not be thought that incorporation within itself is sufficient, far from it, for without an active and efficient set of officers to carry it out the thing is a failure to begin with.

We will need a public spirited man with a good business head for Mayor and such must also be the make-up of the board of Aldermen if we make a success of the measure. These men too must serve with little if any compensation if funds from light taxation are kept for needed purposes.

Under incorporation as asked for a Mayor and five aldermen will be required: They should be chosen from different portions of the town and all of them, if corporation is to become a success, must be good sound business men and patriotic enough to give their services for the public good. Who shall they be? It is well for our people to think along this line.

Plains All Right

A Castro county farmer in writing to the Hereford Brand of his county, and the Central Plains generally, says:

"I compare this country favorably with other portions of the U. S. where I have made farming a business. I once cultivated a farm for four years which was worth \$75 per acre. For the past six years, I have raised as much feed per acre here as I did on that \$75 land.

"What tempted me to write this article is that I regret to see so many of the old settlers bartering away these lands for less than half their true value. I am getting to be a pretty old man. Have passed through sixty-six winters; still I may live to see our lands selling readily for \$60.00 per acre. Some may say 'Just listen to that old crank', nevertheless, remember that for the next five years this country will develop more than it has in the past fifteen years; and with this increased development must necessarily come a corresponding increase in land values. I have had considerable experience in the milling business—have handled a great deal of wheat and will say that the wheat produced here is of the best quality I have ever seen and the yield fully as good.

"When I first came here, a great many of the people told me this was no fruit country, but I found it only imaginary with them. I think this is one of the best fruit countries I know of. I have out between five and six thousand shade and

fruit trees and have never watered one of them."

Mr. D. F. Powers, a well known planter of Adair, Miss., says: "I have relied upon Chamberlain's Colic, Cholera and Diarrhoea Remedy for ten years as a sure cure for attacks of colic and all stomach and bowel troubles. Less than a year ago I believe this remedy saved my life, and it has always given me immediate relief. It is the best medicine made for bowel complaints." For sale by S. V. Wirt, Druggist.

According to the Hale County Herald Plainview is going to have and right away, a \$55,000, Baptist College. The Staked Plains Association has decided to "raise from the people" the \$50,000 and Dr. J. H. Wayland is to furnish the other \$5,000 and a building site of 24 acres adjoining the town. Dr. Wayland made the proposition, says the Herald, and the association accepted. Canyon City had a proposition once of the same character pretty much—it fell through and not on Canyon City's part either, but Plainview may have better luck.

For board by the week, day or for a single meal go to C. E. Anderson's Restaurant. The best table in town. If you doubt it go and see.

Swisher County Lands—10,240 acres, all agricultural, shallow water, 20 miles south-east of Canyon City and the new railroad runs through it. There is also a switch on it and a good location for a town. Will sell altogether or in parcels. For price write or call on owner, C. T. WORD, Canyon City, Texas

There are fine schools nearby where any kind of a commercial course may be secured. There is the Christian College at Hereford, the Amarillo Academy, the Baptist Goodnight College and the Methodist Clarendon College and at either of which the very things may be had that many of our people are now sending their sons and daughters "way off" for. Verily verily "a prophet is not without honor save in his own country."

You have only to try us to be convinced that we mean what we say. E. C. Brown's barber shop is the place to leave your laundry for Roswell Steam Laundry. 23-4ts

Lame Back

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange, of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications of it effected a cure." For sale by S. V. Wirt, Druggist.

Mr. Brown and his son, who for several months have been residing in tents on the vacant lots near the Christian church, have shifted to the east portion of the town and are building two 3-room houses close together, also a carpenter shop.

THE "DODGING PERIOD"

of a woman's life, is the name often given to the "change of life." Your menses come at long intervals, and grow scantier until they stop. Some women stop suddenly. The entire change lasts three or four years, and it is the cause of much pain and discomfort, which can, however, be cured, by taking

**WINE OF CARDUI
Woman's Relief**

It quickly relieves the pain, nervousness, irritability, miserableness, forgetfulness, fainting, dizziness, hot and cold flashes, weakness, tired feeling, etc. Cardui will bring you safely through this "dodging period," and build up your strength for the rest of your life. At all druggists in \$1.00 bottles. Try it.
