### BAINER PREDICTS RECORD CROP YEAR

PANHANDLE IN MOST PROMISING

Agricultural Demonstrator for Santa Fe is Confident of a Bumper Crop.

H. M. Bainer, agricultural demonstrator for the Santa Fe system, has returned from a trip through the South Plains country, and other portions of Thomas. the Panhandle. Responsive to questions from a representative Black. of the Daily News, Mr. Bainer said: "There cannot be the least question of the fact that the Panhandle country will have meeting and took the oath of record-breaking crops this year. Everything points in that direction. The lands have been thoroughly soaked, and the people of this portion of the state are optimistic. Business is picking up and the small grain crops of the country could scarcely be better at this time of the year.

"This state of affairs is con fined to no one locality. But on almost every acre of land shown to small grain there is a promise of abundant yield. In the South Plains country there is preparation for cotton and in some places Indian corn will be almost s strong as maize on the higher ints of the Panhandle. There 'iversification in the various ons of the Panhandle, and upled with irrigation and cation will doubtless results surpassing the aggerated hopes of the

### THE RESURRECTION OF MAN

By JAMES A. EDGERTON

If faith in man were music And love of man were song, Then might I sing a measure

To move the world along--Its theme, the Christ that is to be, The Christ in all humanity.

Tried by his sense illusions,
himself man has denied,
has scoffed the God within him
And has been crucified,
has borne his cross up Calvary,
the Christ in all humanity.

Now from his tomb self builded
At last he shall be freed.
That will be resurrection
And Easter morn, indeed!
And he shall know himself and see
The Christ in all humanity.

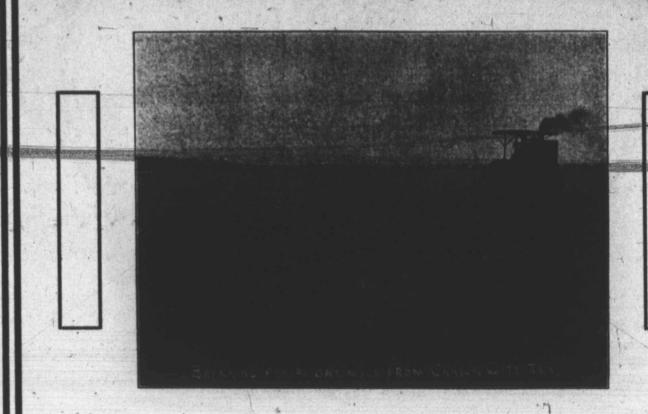

I hail him, the arisen,
With lilies at his feet,
Called forth by his own angels
In resurrection sweet.
Roll back the stone of self and free
The Christ in all humanity.

### A SENTIMENT FOR EASTERTIDE

THE WATER WATER WATER WATER DESCRIPTION DE

Let us believe only in life, refusing to be domineered by the unsubstantial wratth called death, refusing to be diverted thereby from "the upward looking and the light." Then will Gaster be to us the most significant, the most inspiring, the most uplifting of all the days that dawn.

### THE LAND OF VARIETY

N NO OTHER agricultural district between the Great Lakes and the Gulf, from the Atlantic to the Pacific, can a farmer have a greater variety of crops from which to choose, than here in the Panhandle! Winter wheat, spring wheat, oats, millet, cane, Kaffir corn, Milo maize, and even King Cotton, are proven successful producers in this region where altitude and latitude, soil and rainfall are combined to make a gigantic farm, the possibilities of which have only been partially revealed. "Diversification," the slogan of the modern farmer, can nowhere be practiced to a greater extent, nowhere will it yield greater benefits than in Randall and adjoining counties.

Apples, peaches, plums, pears, every variety of berry, any kind of vegetable, melons of the most delicious flavor, are easily produced here, and yield in wonderful quantities.

For stock raising there is no better country or climate. Horses,

brought to maturity at mulless expense, than they can raised in the East or Norwhere the severity of the y ters entails a heavy feed and much confinement——where our mild winters required only occasional shelter. The young can come at any month in the year without danger of

loss. Poultry and dairying are sure to become great revenue producers, for we have here all the natural advantages which the hen and the cow require in order to give best results.

Pure, sparkling, water, obtained in inexhaustible quantity at a reasonable depth is another of our big assets. Our rich soil, capable of enormous production, of a depth which insures its wearing quality, needs only the plow and planter to convert it into a vast factory of food products which can be kept in operation the year round.

Our people here are from the best classes of citizenship---they are coming from every section of the Union, and "Old-timer" and "New-comer" alike are imbued with that spirit of progress which is fast pushing the Panhandle into the front rank of agriculture.

With the establishment of the West Texas State Normal, controlled by a faculty graduated from the best colleges and universities of the United States, our education facilities are ample.

As a place to make a home, as a place for investments which will yield big dividends and steadily increase in value, there is no section of the country which today can offer the opportunities awaiting you here in the Panhandle. Come and investigate.

We have a choice collection of farms, improved and unimproved, all nicely situated in regard to markets and railroads, which we can offer at prices sure to please you.

Webster's NEW INTERNATIONAL Dictionary (G. & C. Merriam Co., Springfield, Mass. surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reënforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unring scholarly labor. The language of English literature for over seven conturies, the terminology of the arts and sciences, and the every-day speech of street, shop, and house-hold, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consults tion, the book sets a new mark in lexicography
