

ORGANIZATION OF RED CROSS SATURDAY 3 p. m.

A meeting of great importance is to be held Saturday afternoon at the District Court room, when a Red Cross will be organized in Canyon.

W. H. Blaine has authority from headquarters to take up this work and to organize the movement in this city.

The Red Cross is one of the greatest organizations in the world during war times. The members are followers of all flags and governed by the same universal principle.

President Wilson is head of the organization in this country, and many of the great men and women of the nation are officials and active workers in the movement.

Every man and woman in America should enlist in the organization. It is going to be only a matter of a few weeks until an army of United States boys are on the French or Belgium field of battle. Perhaps some of the splendid young men Canyon has contributed to the quota will go to the trenches. If not, our brother's son will be there.

Practically every town in the Panhandle has organized a Red Cross. You are interested in the movement. Come to the meeting Saturday afternoon at 3:15 and get more of the details of the working of the organization.

Canyon is no place for slackers.

For Humanity and Liberty.

Major General Leonard Wood of the United States army rang the bell when he said that war brings with it a call to national service for women as well as men; that there are two very important ways in which women can help a nation in war. First, by working in industry, thereby releasing men for the front, and second, by joining the American Red Cross.

There is work for the American Red Cross to do. Our boys are going to the front. There has been a call for surgeons and nurses and ambulance drivers to cross the ocean with out delay to care for those who need assistance.

This is a time for immediate action. America is to send her fighting sons to the firing line under European skies. A million Americans may be needed before the end shall come; 2,000,000 Americans may be required to destroy autocracy, to bring peace to the nations bankrupted both in money and manpower, and in order that peace shall reign throughout the world for a hundred years thereafter.

Texas alone will perhaps send 30,000 to 40,000 men to the colors. There are hundreds of Texans in the naval service of the country; there are hundreds who have volunteered as "soldiers of the sea," and there are additional thousands who will be transported across the Atlantic as soldiers of the line.

Every man should become a member of the American Red Cross. Every woman should do her part. Membership is \$1. This is the minimum. A life membership is \$25. There are thousands of Texans who can well afford to take life memberships. They are prosperous; they have large stores of the golden fleeces. They should be willing to give some of their means for hospital and surgical supplies needed here and in foreign lands.

Readers of The Record are reminded that membership alone in the American Red Cross does not necessarily imply military service. There is a demand for trained nurses to go abroad. Hundreds, nay, thousands, are needed. These must be drawn from the hospitals and the sanitariums in the cities and towns of America or trained in the schools already established for active work in the military camps on the continent.

It has been said that no army is stronger than its Red Cross; it has been said that in no war of the past has the supply of nurses and surgeons been adequate.

There will be work at home as well as in the field of bloody strife for Red Cross Americans. There will be the wives and children of the boys who are fighting for the flag; there will be dependent ones everywhere; there will be the sick and the impoverished. War has its horrors and its vicissitudes as well as its glories and its romance.

All men who can afford a dollar should join. All women who can afford to give their time should enlist as workers.

There are less than 600,000 members of the American Red Cross

Japan has a Red Cross organization with a membership of 1,800,000; Russia has 14,000; England 1,000,000 and France 1,000,000.

America should lead the world and its Red Cross army should go beyond the 5,000,000 before the coming of midsummer. Remember the call to duty. Remember this is the cause of humanity, and imperiled democracy. —Selected.

Cool Weather Benefits Wheat.

During the past week the weather has been very cool, with damp clouds most of the time.

While the weather has been very unpleasant for humans, it is what the wheat crop likes, and people with a big acreage are willing to start fires in the stoves during the morning hours in exchange for what promises to be a splendid yield of wheat during the coming season.

The farmers are busy since the ground has dried up, planting a big row crop. Unless the weather turns decidedly, the row crop will exceed anything in the history of the county this year. Land is being broken for the row crop and the farmers will continue to plant for many weeks.

The merchants of Canyon say that they have sold more garden seed this year than any two years during the history of their business. Every one is putting in a garden of some kind. The farmers of Randall county and the people of Canyon are going to do their best in the problem of solving the high cost of living, and in the greater problem of America feeding the nations of the world.

New Front Work to Begin.

Practically all of the material is here for the new front to be put on the Canyon Supply Co. store. Work will probably start within a very few days.

No store front in this section of the state will be as modern in design and construction as the one to be placed in this store. It will be a beauty and add much to convenience and attractiveness of this popular store.

Wright-Hale Wedding.

Miss Geraldine Wright and Porter Hale were married in Dallas on Wednesday of last week. Both are well known in Canyon, and have many friends here.

Mrs. Hale is a niece of Mr. and Mrs. C. R. Burrow and during the past two years has attended the Normal here. Mr. Hale was engaged in the automobile business in Canyon until recently.

Mr. and Mrs. C. H. Jarrett returned Friday from Clarendon where they spent a week with friends.

PRESS MEETING IN AMARILLO HELD FOR 3 DAYS LAST WEEK

Will Meet There Again Next Year With Day's Side Trip Taken to Vernon.

The Panhandle Press Association met in Amarillo Thursday, Friday and Saturday of last week. A number of the members gathered Thursday evening in Amarillo and were entertained at the shows and at an informal reception.

Friday the gang went to the canyons where the day was spent in sight-seeing. A barbecue was one of the attractions that brought a big bunch to the gathering.

Saturday was business day of the Association.

After a very interesting program, the association decided to meet in Amarillo again next year, taking a side trip of one day to Vernon. The Vernon bunch was strong after the association this year, but a majority of the members thought it too far out of the way to hold the entire session there.

The following officers were elected:

Ben F. Smith, Lockney Beacon, President.

Lee Satterwhite, Panhandle Herald, Vice President.

Miss Sopia Meyer, Amarillo, Secretary-Treasurer.

Amarillo offered splendid entertainment to the press gang, which was enjoyed and appreciated by all who came to the meeting. The attendance was large this year, and with the proper co-operation promises to be much larger next year.

A. & M. FOR CANYON

A mass meeting of the citizens of Canyon will be held at the court house Friday afternoon at 3:30 o'clock for the purpose of discussing the proposed location of the new West Texas A. & M. College in Canyon. A committee has been at work on the proposition and finds that Canyon has the most desirable location for the school in the entire west. WILL CANYON GET THE NEW SCHOOL?

All depends upon YOUR interest in the matter

The time limit for filing our proposition with the Governor is JUNE FIRST—next week.

What will YOU do.

Come to the mass meeting Friday and hear the plans.

If you want the school, make your presence count for the location of the school in Canyon.

Farmers are urged to be present—business men are expected to be there.

BOYS PLEASSED WITH THE OFFICERS TRAINING CAMP

Canyon has nearly twenty young men in the Officers Training Camp at Leon Springs. Many letters have been received from the boys stating that they were well pleased with the work.

From ten to fourteen hours of actual work is put in by the boys every week in camp, but the boys are enjoying it.

It was stated that the regulars who had been assigned to the camp were very greatly disappointed. They had intended coming there and making some easy money from the rookies, but the first general order posted, prohibited gaming of all kinds. A subsequent general order prohibited drinks—soft drinks included. The officers in charge see that the men are provided with the proper food and drink, and no more.

Autos Registered.

The following autos were registered during the past week:

- 447—Mrs. Helen Bruce, Ford.
- 448—D. C. McCormick, Ford.
- 449—Paul Artho, Pope Motorcycle.
- 450—J. M. Mitchell, Ford.
- 451—T. V. Reeves, Ford.
- 452—Canyon Supply Co., Ford.
- 453—Clarke Pelt, Ford.

Commissioners in Session.

The regularly quarterly meeting of the Commissioners Court was held last week. Only matters of routine business was taken up by the court at the meeting.

Real Estate Deals Closed.

S. B. McClure reports the following real estate deals closed within the past week:

Henry C. Jackson of Lela Lake has bought the Carl Coffee residence and will move here soon. Mr. Coffee will build a new home.

J. I. Penrod of Wellington has bought the S. S. Coffee residence and will move here this summer. Mr. Coffee will probably build in the fall.

G. B. Bourland has bought a quarter section. He lives east of the city.

E. C. Robinson of Canadian has bought 720 acres south of town and will move to this county this fall.

W. F. Harris has sold his residence to Mrs. Floyd Smith, daughter of W. H. Lewis.

J. A. Hill moved this week to the house he recently bought on East Houston street.

A train load of soldiers passed through the city Tuesday on their way to the border.

Farmers Institute Meeting.

Wilton Winn has called a meeting of the Randall county Farmers Institute for Saturday afternoon at five o'clock for the election of officers and other important business.

Children's Day Sunday.

An interesting program is being arranged by the Presbyterian Sunday School for next Sunday morning.

Wilton Winn is planning to move to his ranch in Baily county ranch next week.

MASS MEETING URGING SALE OF LIBERTY BONDS

The people of Canyon and Randall county will be called upon twice Saturday to do something for the government:

1. ORGANIZE THE RED CROSS.
2. WORK FOR THE LIBERTY LOAN.

The meeting for the Liberty Loan has been called to immediately follow the Red Cross meeting.

Judge C. R. Flesher has been called upon by the Federal Reserve Bank to get the citizens together and to appoint proper committees who will solicit the county of Randall in order that this section may do its duty in subscribing for these bonds.

The meeting will be of great importance and all are urged to come.

The government is issuing the bonds. They draw 3 1/2 interest. They are just like a dollar bill—you can get your money in silver or gold anytime you wish it, and at any bank—There is no chance taken in subscribing for these bonds.

Come to the meeting and then

get a Liberty Loan Bond.

Any bank in Canyon will be pleased to assist you in any possible to secure these bonds, and their services are rendered free of charge to you.

The officers of the First State Bank has decided to take \$5,000 of these bonds, and report that a number of this customers have asked for bonds, in all nearly \$2,000 being taken by their customers.

The First National Bank has subscriptions from its customers for \$6,000 of these bonds, and the interest is growing daily in the bonds.

The Citizens Bank reports that its customers will take a large number of the bonds, but did not give out any definite amount. The bank's officials say it is the intention of the officers to take a considerable amount of the bonds.

There is a plan for the weekly payment on these bonds, so that they will be within the reach of all. The banks of Canyon will be glad to give any information regarding these payments.

Guy Conner to Ft. Worth.

Guy Conner left Friday for Ft. Worth where he undergoes the examination to the signal corps of the U. S. army. He was recently selected by the Southwestern Tel. & Tel. Co. to go as one of their representatives from Texas, and if accepted by the government, will receive a place in the army.

Guy is a splendid young man and there is no doubt of his ability to meet the strict requirements of the government in the coming examinations.

Canyon's young men are going to do their part in the army and the navy, while the people who stay at home are going to do their bit in the economical conservation and raising of foods.

Many Killing Rabbits.

J. L. Prichard is urging all of the men and boys to get out and kill jack rabbits now. He says that the rabbits are getting very tame and that by driving along the roads at evening, or into the fields, many rabbits are shot very easily from cars or buggies. He states that he and his boys have been shooting rabbits on his place and that it is a very good investment, with wheat so prosperous looking and the fact that a rabbit will eat so much wheat within so short a time.

This would be an ideal way for Panhandle farmers to conserve the big wheat crop which is in making at this time.

REGISTRATION OF ALL MEN OF MILITARY AGE ON JUNE 5

President Wilson has designated June 5th as the day upon which all men in the United States shall register, who are of military age—from 21 to 31.

Men of this age should keep in mind that the question of registering is not optional with them. THEY MUST REGISTER. There is a severe penalty for all who neglect to do the will of Uncle Sam upon that date.

The registration of each county is in the hands of the Sheriff, who will give ample information regarding the registering at the proper time.

All men should keep June 5th in mind, and do not overlook registering.

Garrett-Tandy Marriage.

Miss Edna Garrett of this city and Roger P. Tandy of Ochiltree were married in Ochiltree on last Wednesday. Miss Garrett has been teaching near Ochiltree for the past year. She is the daughter of Mr. and Mrs. W. T. Garrett of this city, and is well known and highly respected by the people of Canyon. Mr. Tandy is a young man of ability and has a large circle of friends in the Ochiltree community.

The people of Canyon extend their best wishes to Mr. and Mrs. Tandy in their new home at Ochiltree.

Come to Canyon on Trades Day.

Help Uncle Sam Win

This bank will receive subscriptions and purchase without any cost or commissions to anyone any amount of the new government 3 1-2 per cent issue known at the

LIBERTY LOAN OF 1917

on orders from any citizens who wish to do their part toward helping our government win this war.

Please let us know what amount of the bonds you wish to buy.

The First State Bank is also ready to assist in every way in the planting and raising of a larger food and feed crop, and is ready to make loans to farmers for this purpose.

COMMENCEMENT OF CANYON HIGH SCHOOL

The members of the class of 1917 of the Canyon High School were presented their diplomas Friday evening at the Methodist church by Superintendent E. F. King, after a very interesting program and class address by Rev. B. F. Fronabarger of the Baptist church.

The class is composed of popular young men and women of this town, who have done well in their class work and who are to be congratulated upon the successfulness of the program in the closing period of the high school life. All of the young people have spent practically all of their lives in Canyon, and therefore, it was with double interest that the large audience listened to the splendid addresses of the members of the class,

the excellent music by the high school chorus, and the words of wisdom and advice by the class speaker, when he discussed the subject "Cleared for Action."

The Canyon High School has established of notable record of sending its entire graduating class to some college or university the year following the graduation. This has been true of all classes during the past five years, and the class of 1917 proposes to maintain this splendid record. It speaks well of the splendid teachers who are employed on the faculty, to be able to stimulate a desire for higher education than is proscribed by the high school. Supt. King and his teachers are to be complimented upon the record of the past.

Choosing the Dairy Cow.

One of the first questions to confront the prospective dairyman is, "What breed shall I select?" In some instances it is easily answered; in others, not so easily. If one is beginning in a community where only Holsteins are kept and the milk sold by the hundred without regard to fat content, one would naturally select Holsteins. But if richer milk were demanded, as fancy city trade, cream or butter one would possibly select one of the Island breeds. Or, if his ideas were more for the dual-purpose, one might possibly select the Ayrshire or the Brown Swiss. In still other cases the soil, the topography, the market facilities, the climate, etc., may be the limiting factors in the selection of the breed.

Most literature on this subject is written by what might be termed breed fanatics. As a result it is often hard to get reliable information. For example, three of the five breeds to be discussed state in the literature they send out that the milk produced by the cows of their breed is the best for babies. Furthermore, they prove this statement by the analysis of their milk along with that of human milk or by the statement of some human milk by the statement of some man high in the medical world or in educational circles.

Permit me to state here that I am a Holstein man, so if I favor them unduly, kindly make allowance for it. But we will try to discuss the five breeds: the Holstein, Brown Swiss, Ayrshire, Guernsey and Jersey without being partial to either.

First we will consider the Holstein. The individuals are large, the cows weighing 1200 to 1400 pounds. Even though large, the meat is not suited for beef as some seem to think. Some say the meat ranks higher than that produced by the Island breeds, but two local butchers at Champaign, Ill., place them below these two breeds and will pay more per pound for either the Jersey or the Guernsey for the block, provided they are in the same condition as the Holstein. The Holstein milks the heaviest of the five breeds but has the lowest fat content, which in some cases approaches the zero mark rather decidedly. A production of 7,000 to 9,000 or even 10,000 pounds of milk is very good, with an average test of 3.4 to 3.5 per cent.

With regard to keeping, they are the easiest of the five breeds to handle. We can't all have hired men who are real herdsmen. The Holstein will stand more abuse, and still do fairly well, than any other breed. As one herdsman, who has had experience with all of these breeds, put it: "You can hit a Holstein over the back with the milk stool, sit down and get most of her milk in a few minutes. But if you hit a Jersey you'll milk several times as long as normally and then not get all her milk until the next milking and maybe not then." I am not talking for the abuse of the dairy cattle. But, since such things are as they are, they must be considered by at least some of us who are not in a position to do our own caring for the herd or get capable help at all times. The Holstein is easier to feed than the other breeds. She will consume more roughage, and is a better forager than the other breeds especially those of the Islands. The calves are easily raised; much more so than the Jersey or Guernsey, but possibly not so easily as the Brown Swiss or the Ayrshire. The bulls are usually quiet.

The Brown Swiss are not so generally known as the other breeds but they are rapidly coming into prominence. They are inclined a little more to the dual-purpose than the others, with the possible exception of the Ayrshire, and are easily kept in condition, especially when dry. The cows weigh 1300 to 1400 pounds. They make good beef when in condition. They milk less than the Holstein and Ayrshire, giving from 5500 to 7000 pounds per year with an average test of 4 per cent, but they compare favorably with the Holstein with regard to ease of feeding, handling of roughage, foraging ability, etc. They are not nervous. As stated, the calves are probably easier to raise than the Holstein. They are usually about the size of Holstein calves, weighing 80 to 100 pounds at birth. As a rule, the bulls are pretty quiet.

The Ayrshire is probably the prettiest to look upon of any of the breeds. If I were going into the dairy business for a hobby, intending to show a great deal, I would certainly choose the Ayrshire. The cows weigh 1000 to 1100 pounds. The beef produced compares favorably with that produced by the Brown Swiss, but outclassing by far that produced by the other breeds. They are easily kept in condition, especially when dry. They give 6000 to 8000 pounds of milk with an average test of 3.9 to 4 per cent. They are good feeders and good foragers. They haven't the capacity for roughage that Holsteins have but have much more than the Island breeds.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous. A d people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

They are quiet and easily handled as long as they are treated right, but just as soon as they are mistreated they are worse to handle than any other breed. The calves class along side the Brown Swiss in case of raising. The bulls are quiet when well handled.

The Guernsey is smaller than the other breeds mentioned, the cows weighing around 950 to 1050 pounds. They make very poor beef. Their milk yield is 5000 to 7000 pounds yearly with an average test of 4.8 to 5 per cent. James Dixon says in the August, 1909, Country Gentleman, "Of all the varieties of domestic cattle, the Jerseys and the Guernseys appear to be the best suited for a gentleman's country place, because they are great producers and combine beauty and gentleness of disposition with general excellence of utility." So far as gentleness of disposition is concerned, I think any of the other breeds are ahead of them. But there is little doubt but that they are the most popular for the gentleman's country, estate.

The cows are more nervous than any of the breeds previously mentioned, and are more susceptible to changes in conditions and management. The calves are weaker and much harder to raise than any of the breeds mentioned. They are rather hard to feed, being more choice than those mentioned above about what they eat. They are not good foragers. Guernsey bulls are probably the quietest of any of the breeds.

The Jerseys are the smallest of the five breeds, the cows weighing 650 to 850 pounds. They make very inferior beef. The cows give 5000 to 6000 pounds of milk with an average test of 5 to 5.7 per cent. They are nervous and hard to care for, the calves being delicate and hard to raise. They are not good foragers. The bulls are nervous and quite frequently mean.

Of the five breeds discussed, the Holsteins are without doubt the easiest to milk, with the Brown Swiss and Ayrshires ranking next. The Ayrshires have very short teats, especially the white ones which are so popular at present, having been imported from Scotland where they pay little attention to breeding for length of teats. This makes them difficult to milk for some people. Personally I don't object to a short teated cow. The Guernseys are not so easy to milk but are more so than the Jerseys. The Jerseys are also slow to give down their milk.

The milk of the several breeds varies decidedly in appearance. That of the Holstein and the Brown Swiss is distinctly blue, a color not well liked by the housewife. That of the Guernsey is the highest colored, the color the housewife likes to see. In fact the skim milk from the Guernsey is of a richer appearance than the whole milk from some Holsteins or Brown Swiss. That of the Ayrshire and the Jersey ranks between these two extremes, with the Jersey nearest that of the Guernsey.

It is often heard that the Jersey produces more economically than the other breeds, especially the Holstein. Here is the result of a 120-day experi-

State of Ohio, City of Toledo, Lucas County, ss.

Money loss to the owners of field and of farm; Protection to fire loss also we give, At terms and rates to live and let live; Now is the time, there is risk in delay, You had "better be safe than sorry" some day.

D. A. Park & Company

Hail and Fire Insurance

ment carried on at the St. Louis fair in 1904. It is taken from the Jersey Bulletin, Vol. 35, page 428.

"Fifteen Holsteins produced 96,175 pounds of milk with an average test of 3.4 per cent. On the Chicago market at the price set by Borden (\$1.75 per 100 pounds for 3.6 per cent milk, and 3 cents added or subtracted for a .1 per cent variation whether more or less) this milk was worth \$1,628.56. The cost of their feed was \$515.70. This left a net profit of \$1,112.86.

Fifteen Jerseys produced 78,093 pounds of milk (8,082 pounds less than the Holsteins) with an average test of 4.76 per cent. The value of the milk was \$1,640.95. The cost of feed was \$441.28. This left a net profit of \$1,209.67. In other words, the Holstein man must handle 8000 pounds of milk more and receive \$100 less money."

Now to compare them on the basis of world's records. The average for the ten highest cows in each of the breeds are:

	Milk Lbs.	Fat Lbs.
Holstein	26,835.18	1,052.879
Guernsey	17,973.44	945.836
Jersey	17,226.60	921.600
Ayrshire	20,262.7	818.464
Brown Swiss	16,087.1	645.860

While world's records are being broken continually, the average for the breed is increased but very gradually. Consequently these averages will stand approximately for several years.

We have made an effort to present the good and the bad points of the five dairy-breeds in a rather limited way. I will leave it with the read-

ers as to which he will choose. Most of you probably have your mind already made up, and far be it from me to try to change it. You stick to your breed or choose which you will, I'll stay with the Holstein.

Elafreth G. Johnson in Hoard's Dairyman.

Anybody familiar with the recent history of the Republican party knows without being told that T. R. is the ablest man in the country when it comes to creating a division. —Boston Transcript.

WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC

LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

- CASCARA BARK
- BLUE FLAG ROOT
- RHUBARB ROOT
- BLACK ROOT
- MAY APPLE ROOT
- SENNA LEAVES
- AND PEPSIN

In LAX-FOS the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

Siftings.

Those who believe, or pretend to believe, that in a democracy nobody should be called upon to perform his duty, as a citizen, under compulsion, may be assured of a hearing if they can find a way in which taxes can be collected under volunteer system.

times be counted as gain. There never was a time in its history, perhaps, when the country was less in deed of revenue derived from such sources, or more inclined to reject it altogether.

The time is coming when the man who can say, "I wielded a hoe in defense of the Stars and Stripes." will not necessarily have to march behind the man who wielded a sword for the same purpose. In other words, those who respond to the call of farms will have equal credit with those who respond to the call to arms. It is not the part, but the manner which it is acted, that will count.

That the food situation must be dealt with largely through the conservation of food, regulation of diet, and the elimination of waste, is the belief of the instructors in the domestic science department of the Kansas State Agricultural College. Waste in the household is due largely to bad preparation of food materials, bad cooking, improper care and handling buying and serving and overabundant supply, failure to save and utilize the portions of the food not consumed, and too elaborate entertaining of guests.

Prohibition in the state of Washington helped to reduce the number of committed inmates in the penitentiary, in four years, from 904 to 662. The commitments last year were only 183, as compared with 311 for the previous year. Some of the states that are burdened with the care of victims of the distillery, brewery, and saloon, and there are several of them, would do well to consider the experience of the state of Washington, which, by the way, hesitated a long time before giving up the so-called revenues from the liquor traffic.

Every able-bodied man in St. Louis must go to work, and remain employed or leave the city, is the sweeping order sent out from police headquarters in an effort to clean up the city of all undesirable. The order is the most drastic in the history of the department. Captains, lieutenants and sergeants are going to be held personally responsible for their districts or precincts. It is one of the police department's first moves to round up "slackers" for the army and navy. Those who signify their willingness to join the army or navy will be aided in every way by police, but any subterfuge will be dealt with by jail terms. Gunmen, cadets and idlers of all kinds will be eliminated, Chief Young says, if it is the power of the police department to do it.

That the horse is a highly important factor in the great food production campaign now on, is the contention of Dr. C. W. McCampbell associate professor of animal husbandry in the Kansas State Agricultural College. "Any increase in the crop acreage this year will result in an increased demand upon the reserve energy and power of the farm horses, and emphasizes the imperative need of observing every possible means that may add to the comfort and efficiency of these animals." The farm horse—mule included—will be the main dependence in this time of need. No greater disaster could befall the state than a serious outbreak of fatal horse disease. "In view of the tremendous importance of the horse as a factor in maximum crop production," said Dr. McCampbell,

Do You Know That?

Under-paid fathers and over-worked mothers lose many children?

The U. S. Public Health Service issues free publications on the care of children?

The infant mortality rate is the most sensitive index of community intelligence?

Dirty milk kills many babies?

One eighth of the children born in the United States, die before they are a year old?

Removing the cause before it becomes a result is the best kind of public health work?

Babies have a right to an officially registered name?

The board bill for last year's babies was almost as great as the undertaker's bill for last year's babies?

EX-GOVERNOR AMMONS SAYS:

In the present war crisis, as never before, the friendship existing between the merchant or professional man and the farmer must be utilized. The wherewithal to feed a team, to purchase a few bushels of seed, to break up a few extra acres, if extended to the farmer at the present time will mean incalculable good and may turn the scale in the coming season from famine to plenty. Business men are acquainted with many farmers. Why should not every business man get in touch with his friend in the country? Ask him what he needs. You would be surprised to know what a boost it would be to many a farmer of the state right now to have fifty, seventy-five or one hundred dollars shoved into his hand as a loan, and told to use it in planting crops, to get his teams in better shape for the plowing and cultivation, to effect some necessary machinery repairs, to hire an extra man or two during the planting season. In the long run it means doing a bit for Uncle Sam. Every pound of grain, every bushel of potatoes, every ton of forage that can be brought from the ground in the coming season will be needed in the conduct of the war. Never in a man's lifetime will there be a better opportunity to render a patriotic service.

—Elias M. Ammons in Western Farm Life.

It should not be a difficult task to arouse patriotic farmers to the importance of raising all the \$2 wheat they can. — Indianapolis Star.

Steps are being taken for the re-establishment of the postal money order service between Mexico and the United States, which was suspended throughout the revolutionary period.

Buy meat for stew often, advise the domestic science specialists. There is no waste and it may be appetizingly prepared in stews, hash, croquettes creamed meat, meat pie, goulash, and scoloped meat and rice.

Those 50,000 German reservists who were ready to rise must have counted the 50,000 lamp-posts that Ambassador Gerard assured Berlin were in New York, and verified his count. — New York Herald.

We will be located at 7th and Polk as soon as the building is completed.

For Expectant Mothers

The well known tried and true preparation "MOTHER'S FRIEND" is prepared especially for expectant mothers. The muscles expand easier. The breasts are kept in good condition. Much pain is avoided at the crisis. Used by three generations. Apply it externally night and morning.

MOTHER'S FRIEND

At all drug stores. Get a bottle today. Write for illustrated guide book giving full information about the proper care of the new baby. Do not fail to begin the use of "MOTHER'S FRIEND" at once.

BRADFIELD REGULATOR COMPANY, 111 Lamar Bldg., Atlanta, Ga.

Buy Only the **PUREST GOODS** for Use on the Baby

Everything For Baby Here

It's not only a question of what you get for the baby. But where you get it is also an important matter.

The manner in which goods are kept has a great deal to do with the condition in which they reach you.

We employ extraordinarily careful methods in handling all goods for babies' uses. And we have everything you are likely to need, such as baby foods—nursing bottles—nipples—pacifiers—talcum powders—ointments and all standard internal remedies.

BURROUGHS & JARRETT

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

NC-134

"It is the duty of every horse owner to observe most carefully the many little details in sanitation, feeding, watering, and working that add to the efficiency and economy of farm horse labor."

There is a line by us unseen
That crosses every path,
The hidden boundary between
God's patience and His wrath.

Piles Cured in 6 to 14 Days

Your druggist will refund money if PZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

Pinto Beans in Deaf Smith.

Last year, that is, in 1916, Samuel Wailes, who owns a fine ranch a few miles northwest of Hereford, planted and raised 23 acres of the Pinto Mexican beans. He threshed a little over 12,000 pounds and they are readily bringing 11 cents per pound, or about \$57.50 per acre. Not bad for beans.

In 1915, Mr. Wailes raised a crop of beans and harvested 16,000 pounds from 20 acres, selling them at 4½ cents, or \$36.00 per acre. Even at the cheaper price, the beans would beat either cotton or wheat at the usual price and yield.—Hereford Brand.

The pacifist campaign really has done some good. Nothing else could be so effective in making the country fighting mad.—Philadelphia North American.

Canyon City Club Notice

Members will take notice that the by-laws will be strictly enforced. You MUST secure a permit when you take guests on the grounds and otherwise comply with the written rules of the club or suffer the consequences for non-compliance. The directors have information that such rules are being violated and this is to inform you that such conduct will not from this time on go unpunished.

Permits can be obtained from the secretary, or from Mrs. Morelock, at their home.

The general public is also notified that the club has secured the exclusive rights to fishing privileges on the J. M. Meyers section adjoining the club grounds on the east and that trespassing either on the club grounds or on said Meyers section will not be tolerated.

By order Board of Directors,
H. W. MORELOCK, Secretary.

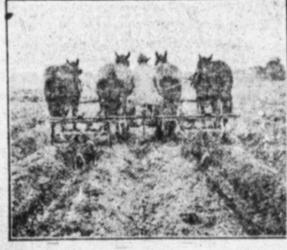

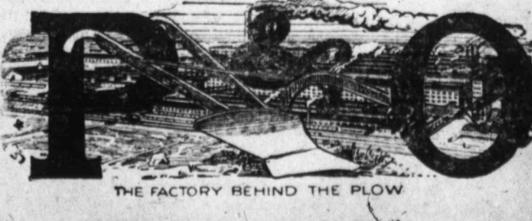

THE WORLD'S TWO BEST TWO-ROW CULTIVATORS

The P. & O. Two-Row Cultivator

covers every essential feature for perfect work, ease of adjustment and adaptability of all conditions of soils. The simplest and strongest Two-Row Cultivator made. "It's the way we build them." Frame as strong as a bridge. Axles of improved construction prevents wheel widening in front; make light draft, Fine depth adjustment; each gang controlled independently. Four levers do the work of six on other styles, as the inside levers control the inside gangs independently, and also raise or lower the gangs in pairs. Easy working adjustable foot levers. The wheels can be pivoted alone or in connection with the lateral gang movement. The pressure springs are center hung, insuring proper tension in all conditions of the ground and in any position of gangs. The parallel movement of gangs insures each shovel cutting the proper width and depth. Furnished with any style gang.

No. 27 2-Row Lister Cultivator

We make a complete line of DRY-FARMING tools, prominent among which is the No. 27 Lister Cultivator, which has many superior features, consisting of two sets of gangs mounted sidlingly on a trussed spreader pipe. Turntable construction evenly distributes weight on the gangs, holding them level and preventing one side from going in deeper. Each gang follows its own row. Roller connection between the gangs and spreader pipe. Gangs can be raised as a unit or shovels can be raised separately. Frame balances with tongue when raising gangs. Easy to change from first to second cultivation. Extra high clearance for large corn, with long shield for small corn. Eight shovel attachments can be furnished when ordered. If your dealer will not supply you it ONLY TAKES A POSTAL to get our new 1917 catalog and special introductory prices.

SUBSCRIPTION, \$1.50 PER YEAR

A hot bed of treason was uprooted in Snyder this week when it was found that a farmers organization was for the purpose of opposing the government. The organization had more than two hundred members. The question naturally arises as to how such a thing could obtain in this part of the country where everybody knows everybody else so well. The answer is found in the arrest of eight men, purported to be the heads of the organization. These men were probably the only ones who knew of the real intent and purpose of the organization. They had no doubt gotten together this body of men with the belief that when the time was ripe the organization could be used for some nefarious purpose. The members, no doubt, were absolutely in the dark until the arrests were made, and as matter of justice, it is doubtful whether any but the leaders will be held responsible for the action of the leaders.

Roosevelt's division was not accepted by the President chiefly because it did not fit into the plans of the administration, as recommended by the representatives of France and England who have been in the war since August, 1914. Generally speaking the people of this country have been pleased to have Roosevelt lead the first army across to France, and we trust that he may yet be allowed to see services across the sea. If there is any chance of getting there, it is our idea that Roosevelt will be found on the firing line within a short time. He is a fighter and as such commands respect.

President Wilson could not have chosen a better man to lead the first division to France or Belgium than General Pershing. The people of the country are pleased at the selection. Pershing is a fighter. He has been in the game for years, and has made a deep study of every angle of the war game. Pershing will do well in the trenches, and the boys whom he leads will have a commander second to none in the great slaughter house district of the world.

Registration for the selective conscription begins June 5. Let all of the prescribed age—21 to 31—register like men. There is no use getting scared over the proposition and trying to frame up some kind of a story to keep out, or writing your congressman to try to get out of it. The conscription is for "selective" purposes. If you are chosen, it means that you are selected by the government to serve in the army, the officials believing that you can be of more use to Uncle Sam in that position than in any other place in the country.

Military men are expecting trouble in Mexico as soon as our first division starts across the waters. German influence is strong in that country and German money abundant to lavish upon the most likely rebel leader. If we go into Mexico again, it will be for a genuine cleaning up of the country.

The more complex becomes the problems of the government the greatest becomes the character of Woodrow Wilson in the eyes of the people. He is master of the situation and has the backing of the entire citizenship.

The President is determined to eliminate graft of all kinds from the purchase of war equipment.

If the government may come and take you, or your son, why can it not also come and borrow your money for the period of the war, or even conscript a certain percent of it? There is strong sentiment in the country for the conscription of wealth, and this will certainly be enacted before many months.

Would it sound well for the fair land of America to allow millions of bushels of grain needed to save the lives of men from hunger and starvation, to be used in damming the lives of other men by the way of alcoholic liquors?

The legislature has adjourned, after emptying the state treasury in the regular session on new educational institutions, few of which were needed, and by chopping the appropriations of the existing schools in the extra session. Such is a legislature.

The entire rational guard of the United States has been called into action, the last to report being August 15. In addition to these troops, a number of new divisions will be organized within the different states.

Meanwhile Randall County farmers are busy with the plow and planter getting ready the big acreage of row crop to assist in the big problem of feeding the world.

Prohibition may not be enacted for a longer period than the duration of the war, but once enacted, it will stay forever in this country.

There are ten millions of men in the United States of the proscribed military age and are liable to military service under the conscription law.

No jinjo editors who have been calling for war have yet enlisted.

Buy a Liberty Bond—several of them if you can.

Can all you can.

Do your bit.

Wealthy Ranchman Marries.
The marriage on March 28th, of Mr. T. B. Slaughter, of this county, and Miss Elsie Pearl Truskett, of Kansas City, has received wide mention in Kansas City and Wichita papers, two of which notices we give below. Mr. and Mrs. Slaughter are now at home in a handsome, modern residence on their ranch northwest of town. Both have large financial interests and are widely known in live stock circles all over the country.

Miss Elsie Pearl Truskett and T. B. Slaughter, widely known in live stock circles tributary to Kansas City, were married here yesterday afternoon. The bride has for several years been employed by live stock commission firms at the Kansas City stock yards, while Mr. Slaughter is well known both in the corn belt territory and the Panhandle country of Texas. His home is at Hereford, Texas, where the couple will reside. Previous to removing to Texas about 15 years ago, Mr. Slaughter farmed and carried on the live stock business extensively at Skidmore, Mo. From that place he was a frequent shipper to this market. His present ranch is located in Deaf Smith county about 15 miles from Hereford, where he raises and handles cattle. Mr. Slaughter is a frequent shipper to this market.—Daily Drivers' Telegram.

Miss Elsie Pearl Truskett, one of the highest salaried women in Kansas City, was married yesterday to Thomas B. Slaughter, a Texas ranchman, in the study of the Independence Boulevard Christian church, by Rev. George H. Combs. Mr. Slaughter has a ranch near Hereford, Texas. Although she was known to command a large salary as an advertising expert for the stockyards firm of J. M. Ragland & Company, Miss Truskett is chiefly distinguished for her winning fight in the Kansas legislature for the passage of a bill that brought about the release of her uncle, A. A. Trusket of Caney, Kans., from the insane ward of the state penitentiary, where he was held for the killing of John D. S. Neely of Wichita in 1911.

She worked so unselfishly for her uncle's freedom, she confided to friends, because he had paid her way through school at a time when he needed the money for his own business.

The "Truskett bill" was killed twice in a senate committee, but Miss Truskett persevered, and was virtually leading the fight on the floor of the senate when the bill was passed—Kansas City Post.

It is a wise bride who knows whether it's Cupid or conscription.—Pittsburg Gazette Times.

A display of flags is not enough. We must win by hard hitting, and not by bunting.—Brooklyn Eagle.

CHRISTIAN SCIENCE LECTURE IN CITY SUNDAY AFTERNOON

Ezra W. Palmer, member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, Boston, delivered a lecture at the Olympic Sunday afternoon on the subject: Christian Science; The Science of the Omnipotent Mind.

The following was the introduction of the speaker by A. W. Blough: The cry today is for the practical: for that which more completely fills the needs of the individual, the community and the nation. We demand a practical education an education which will better equip us for our particular work in life.

It is therefore not unnatural that humanity has begun to exact that same requirement of religion. We want a religion that may be used day by day; a religion that is liveable, not merely on the Sabbath day, but a religion that will go with us in the trying experiences of the week, abundantly satisfying the heart's great desire for the living truth which Jesus said should make us free.

Such a religion is Christian Science. Although comparatively new in name, in Principal Christian Science is as old as God. It was known to and demonstrated by hosts of holy men and women throughout the scriptural narrative, and finally in our own day by Mary Baker Eddy and an ever increasing multitude of grateful men and women who are finding in it, the way to health and life and true happiness.

Christian Scientists do not proselyte but we do wish to press along to and share with others the joy and blessing which have come to us through a growing realization of the ever presence and omnipotence of God. To do this and to correct various mistaken conceptions of the teachings of Christian Science which current from time to time. The Mother Church maintains a Board of Lectureship whose members are qualified to explain the essentials of this religion.

The following was the lecture, in brief:

Christian Science: The Science of Omnipotent Mind.

The Science of mind which Mrs. Eddy taught in science and health is the science of knowing truth. It is the science-Jesus meant when he said "ye shall know the truth, and the truth shall make you free." How can we know the truth except through thought? If we can know truth only through thought then truth itself must have its source in mind. The scriptures teach us to know God, to love Him, and to obey Him. How can we follow these commands except through consciousness? The scriptures teach that man was born of God, that all the marvels of the universe were created by Him. How are these marvels possible except we grant that God is Supreme Mind? Mind is the source, the origin of all intelligence, all law, all order. Mind is Life, the creator of all the manifestations of life, and these manifestations are the ideas of God. Therefore, God and His creation dwell in the heaven of Mind.

When we remember that science, even as humanly defined, is the orderly and systematic classification of ideas—"made available in life of the search for truth," we can at once see the fitness of applying the term science to Christianity. "Order," said Pope, "is Heaven's first law." God manifests Himself to men through order, through law, through science. We would belittle our conceptions of Deity should we attempt to imagine that He who through all eternity, upholds the universe by His wisdom would do less than reveal Himself to men in an orderly, scientific, perfect way. This God does, and this Mrs. Eddy discovered, and this,—the Science of Mind.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

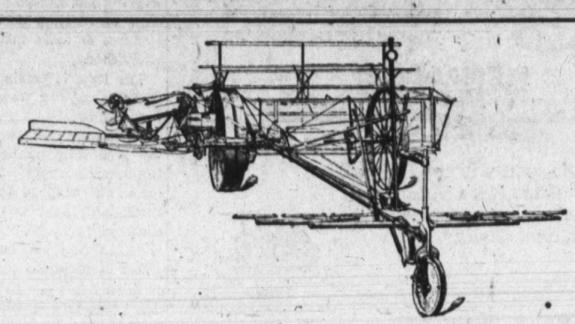

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

YOU WANT A BETTER JOB?

McCormack and Deering Harvesting Machinery

See us now about HARVESTING MACHINERY, so as to be ready for harvest. Hands will be scarce and machinery may be hard to get if you wait too long. Steel and iron are getting very scarce and hard to get. The first orders will be first served. Our machines are all set up by Expert Machinists to guarantee that every machine is correctly set up in order to avoid loss of time and damage to machines. And loss of grain by Delay. Wheat will be a good price and every bushel should be saved. Place your order with us for a machine now and take no chances of losing one bit of your crop.

Thompson Hardware Company

—she gave to the world in her great text-book, "Science and Health with Key to the Scriptures."

The student of Christian Science learns to know and rely upon spiritual law, the law of good. By repeated tests he proves this law and makes it applicable to all the affairs of his daily life. He discovers that back of spiritual law is the omnipotence of God which renders this law irresistible in operation. One of his first discoveries is to distinguish between the operation of spiritual law and the false action of human beliefs. Following the leadings of spiritual law, he continually rises in conscious knowledge of God and His ways, and constantly adds to his enduring riches of gladness, peace, meekness, and love. Human beliefs have no enduring basis. They are merely the merchandise of unstable human opinions. Mortals assent to them because they have been taught to accept appearance for reality. Their number is legion, but through knowing spiritual law they can be detected and their erroneous conclusions reversed. When Paul raised Eutychus from the dead he proved that the human belief called "accident" cannot deprive a man of life. When Mrs. Eddy healed the man of hip disease, as described on p. 192 and 193 of Science and Health, she proved that the man had been suffering from a false belief which spiritual law destroyed.

If God is a never failing refuge from the ills of mortal existence it would not be a difficult matter to love God and our fellow-men, and to "Rejoice, and be exceeding glad," as the Master taught will show us that the reason we have failed to attain this joyousness described in the Bible, is because we have not distinguished between right thoughts and wrong thoughts, and consequently we have often become the victims of the latter—even when striving to gain the good. Christian Science furnishes the key to the truths of the Bible. When thought is uplifted and purified through the study of the Bible and Science and Health, the student detects the difference between spiritual ideas and sensuous concepts just as readily as the musician discerns the difference between tones that are false and tones that are true. When our thought is conscious of its oneness with divine love it is impregnable to every assault of discord or fear.

The out-of-town people who attended the Christian Science lecture Sunday at the Olympic, were Mr. & Mrs. N. C. Vogele, Mrs. L. L. Davis and Mr. and Mrs. Lester Weaver of Hereford; Mrs. Green Wilson and Mrs. Virgil McVicker of Plainview; Miss Lois Tyson, Mrs. Fannie Tyson, Mr. and Mrs. Chas. F. Concannon, Mr. and Mrs. Sam Isaacson, Mesdames Roane, Armstrong and others from Amarillo; R. F. Randal of Wilson, Texas. The lecturer, Ezra W. Palmer, C. S. B., was introduced by A. W. Blough, who in a few well chosen remarks, presented Mr. Palmer in a manner befitting the occasion and subject.

Happy Happenings.

The Happy school closed a most successful school year last Friday. Dinner was served on the ground to a large crowd. The school boys played the town men a game of base ball in the afternoon, the score being 9 to 3 in favor of the boys. A splendid program was rendered at night to a well filled house.

Rev. W. C. Rose went to Amarillo last Saturday to attend the revival conducted by Rev. Ballenger.

Mrs. Miller Currie of Canyon is spending a few days this week with her mother Mrs. R. L. Dillon before joining her husband on their claim in Colorado.

Prof. Cobb who has been teaching singing school at Tulia visited his brother here from Saturday till Wednesday.

Misses Ora and Dail Evans and H. L. Holland attended the Auto races at Texico last Saturday.

Mrs. J. B. Knox and children moved down to the farm from Canyon where the children have been attending the Normal.

R. L. Dillon is building an addition to their house.

Miss Roxy McCann of Canyon is visiting at the J. B. Glover and Roy Rodgers homes.

Mrs. Edwards of California is visiting at the home of Real Garrison. W. C. White and family, Ben Hogge

and family visited Grandpa and Grandma Hogge at Irony last Sunday.

Mrs. Delia Foster entertained a few of the young folks Tuesday night in honor of Miss Roxy McCann.

Dr. McElroy is on the sick list this week.

Marvin Montgomery are moving to the house vacated by Mr. Thomas.

LOCAL NEWS

Rector Lester was in Lubbock yesterday on business.

Mr. and Mrs. M. S. Park visited last week at the home of their son, D. A. Park.

Earl Hunt of Lubbock, formerly of this city visited with friends the first of the week. He is now in the men's furnishing business at Lubbock.

Many thanks to customers and friends for giving me all the business that I could handle for months past. After making a few improvements I will announce a special plan for the summer that will give joy to everyone thinking of having pictures made. Sincerely, M. S. Lusby.

T. H. Warwick of Weatherford was in the city this morning from Silverton where he is visiting his son. He was trying to find a connecting link of relationship with the News man, but all we knew of each other was the fact that our grandfathers came from England to this country.

Miss Ira and Bina Cochran were callers in Amarillo yesterday.

Misses Prudie Prichard and Lottie Lofton returned home from Tulsa on Tuesday.

LOCAL NEWS

Miss Kathleen Stewart visited several days in Amarillo last week.

Miss Pearl Black left Tuesday for Denton, where she will attend commencement exercises given at C. I. A. She will also visit in Ft. Worth and other points.

Miss Willie Mills is visiting at the home of her sister in Amarillo this week.

Miss Ada Terrill went to Amarillo Tuesday to visit with friends.

Ray McReynolds was home from Amarillo Sunday.

Miss Clara Deen left yesterday for Silverton where she will visit friends and relatives.

J. B. McKee of Amarillo visited Canyon Sunday.

The senior class of the high school was very delightfully entertained by the Juniors with a Hawaiian ball party on the last Thursday night at the home of Dr. Stewart.

After the various games and contests, refreshments were served consisting of Hawaiian salad and sandwiches, ice cream representing volcanoes with chocolate lava flowing down the sides, and black and white cake.

SOCIETY NOTES.

Mr. and Mrs. E. Selway entertained the Cosmos club Thursday night in honor of Mrs. Keiser's sister, Mrs. Selway of Sheridan, Wyoming, and her daughter, Mrs. Orcutt of Lincoln, Nebr. The evening was spent playing five-hundred. Refreshments were served of chicken patties, pea salad, tomato sandwiches, ice cream, cake mints, and coffee. Favors were given of yellow and white daisies. The guests of the club were Mesdames Selway, Orcutt, Miss Fleckey and Mr. Hamill.

Mrs. Joe Gamble entertained Tuesday afternoon in honor of Mrs. Keiser's guests, Mrs. Selway of Sheridan, Wyoming and Mrs. Orcutt of Lincoln, Nebr. The house was decorated with yellow and white roses. The afternoon was spent at five-hundred. Refreshments were served of apricot ice, yellow and white cake and punch. The guests were Mesdames Selway, Orcutt, Keiser, Morelock, Griffin, Warwick, Powell, Ackley, Moreland, Jarrett, Hanna, Pipkin, Redfearn, Reeves, Stafford, Shirley, Guenther, Terrill, Lester, Winkelman, Cullum, Misses Lola Word and

Kline.

Mrs. Morrel gave a daisy party Monday in honor of her guests, Mrs. C. D. Morrel and Mrs. John Herd of Post City and Mrs. Keiser's guests, Mesdames Selway and Orcutt of Lincoln, Nebr. The house was decorated with yellow and white daisies. Two course refreshments were served after games of five-hundred of baked ham, pineapple salad, daisy sandwiches, ice tea and pickles; yellow and white ice cream and angle food cake.

The guests were Mesdames Herd, Morrel, Selway, Orcutt, Legham, Keiser, Griffin, Powell, Ackley, Pipkin, Morelock, Shirley, Guenther, Blaine, and Miss Kline.

To Cure a Cold in One Day
Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. H. W. GROVE'S signature on each box. 25c.

The tablet form of this old reliable remedy makes it possible for you to check any illness at the very onset. It is a safeguard against coughs, colds and other catarrhal conditions, no matter what symptoms are manifest. Catarrh is an inflammation of the mucous membrane that lines the breathing apparatus and the digestive apparatus. PERUNA relieves catarrh. In tablet form it is **EVER-READY-TO-TAKE**. Its prompt action makes it invaluable for men and women exposed to sudden changes in the weather or compelled to be out in slush and rain. It will also be found most satisfactory as a tonic following an attack of illness.

CARRY A BOX

wherever you go. Travelers and others compelled to take long drives in the cold and anyone whose occupation subjects him to the danger of sudden colds may use it as a preventive with the assurance that the tablets made are from the same formula as the liquid medicine with its 44 years of success before the American Public.

The Peruna Company, Columbus, Ohio

ing about 65 men under his command. He took part in the bandit fight at Progresso, commanding a squad of men. The young Lieutenant was under fire three hours before dislodging a number of Mexicans who were fighting from behind adobe walls and the inside of huts. He succeeded in driving what was left across the river and prevented the crossing of a large number of uniformed Mexican soldiers who suddenly appeared on the Mexican bank. In this "scrap" the young officer is said to have borne himself with coolness and courage, like a seasoned soldier.

When General Pershing went into Mexico, Lieutenant Cousins was with the expedition as Second Lieutenant, Troop C, the Sixth Cavalry. While in the interior he was given 20 men and week's rations, sent on a 3 day journey into the mountain fastnesses among unfriendly Mexicans, to locate General Salezor. This mission was accomplished with bravery and skill.

In the summer of 1916 he was promoted to First Lieutenant, and transferred at his own request to the Aviation Department. In September 1916 he began his aviation work in the U. S. Aviation School in San Diego, Cal., finishing his test on April 5, 1917.

FOR HAIL INSURANCE IN RELIABLE OLD LINE COMPANIES. SEE WM. F. MILLER, HAPPY, TEXAS.

Ballard Finds Car.

G. S. Ballard had a trading experience last week which is not likely to forget for awhile. He enjoys trading, but not with strangers with deposit slips on unknown banks.

A woman about fifty five years of age drove into town looking for a big car for which she wished to trade a Dodge. Mr. Ballard got in communication with Amarillo and soon made arrangements for the trade, the Amarillo people taking her car, getting a deposit slip for \$1000 on a Houston Trust Company, which the Amarillo bank did not know had closed a month previous, and giving the woman a check for the difference. The woman was so well pleased with the way Mr. Ballard closed the deal that she decided she wanted his Buick car also, and followed him to Canyon that night to make a trade.

After the usual sparring, Mr. Ballard accepted another deposit slip together with the check the Amarillo firm had given the woman, and gave the woman his check and \$15 in cash for the difference.

With two good cars, \$15 in cash and Mr. Ballard's check for \$150 the woman left for parts unknown.

It was soon discovered that the deposit slips were worthless, and Mr. Ballard stopped payment on his check, likewise the Amarillo firm. It then developed that the woman had fleeced a banked near Dallas out of the Dodge car with another deposit slip. A detective was on her trail, and in following the Dodge soon found Mr. Ballard's car and the Amarillo car at Channing, where they were in supposedly safe keeping. The woman was arrested in Colorado, but escaped from the officers at night. Her daughter is sick in Colorado, and was arrested in connection with the case.

The woman is a noted character in Dallas and Ft. Worth, and the detective says that she has plenty of money and property.

As the matter now stands, the Amarillo parties are holding Mr. Ballard's car until their check is released, while Mr. Ballard is holding their check until he is certain that he will not have to pay his check, which was cashed in Oklahoma City.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Leaguers of Amarillo Dist. Organize.

Representatives from various Epworth League Chapters in the Amarillo District of the Methodist church met at the Methodist church in Canyon, Monday afternoon at 2 o'clock and after discussion of a number of the League interests and problems went into the organization of their District League. The following officers were elected: President, R. H. Jacobs of Hereford; Vice President, Miss Erma Mammond of Higgins; Secretary-Treasurer, Miss Parkhurst of the Polk St. League of Amarillo; Agent Epworth Era, Paul Foster of Canyon.

Rev. G. S. Wyatt of Hereford

Is Your Momey Supporting The Government?

At this critical period in our history our manufacturers are offering their mills, and our young men are offering their services to the UNITED STATES GOVERNMENT.

We would like for you to do your share and help by putting your money where it will support the new Federal Reserve Banking System which the Government has established to stand back of our Commerce, Industry and Agriculture.

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system.

All subscriptions to the 3 1-2 per cent U. S. Bonds, namely, the LIBERTY LOAN FUND, are made directly through the Federal Reserve Bank.

We can therefore give you direct service in making your subscription to this fund. Full details and information given on request.

THE FIRST NATIONAL BANK

CANYON -- TEXAS

Members Federal Reserve Banking System

CAPT. RALPH COUSINS HEADS UNIVERSITY MILITARY DEPT.

Captain Ralph P. Cousins of the United States Aviation Corps has been assigned to the Texas State University as head of the military department and as instructor in aviation.

He is a son of Hon. R. B. Cousins, President of the West Texas State Normal College and Ex-State Superintendent of Public Instruction of Texas. His mother's maiden name was Dora M. Kelly, a daughter of Col. G. A. Kelly, deceased, an east Texas pioneer of Jefferson and Longview.

Captain Cousins was appointed to the U. S. Military Academy, West Point, New York, from the 13th. District by Hon. John H. Stephens, in 1911, after graduating from the West Texas State Normal College. He graduated from the Academy in 1915 as Second Lieutenant. He was immediately ordered to the border during the bandit trouble. In about 30 days after assignment he was put in charge of "Pecan Ranch" Camp, hav-

preached a most excellent sermon at night and after the services the Young people served punch in the rooms at the rear of the church and all enjoyed a splendid social occasion.

Hang up the fiddle and the bow; take down the shovel and the hoe. —Indianapolis Star.

Wayside Items.

Miss Jessie Fisher came in the 12th to make her home folks a short visit, leaving the 14th for Colexico, Cal. to visit her sister, Mrs. Henrietta Johnson. After a short visit there she expects to sail for India where she goes as a missionary. Her health is much improved since her return from India about two years ago.

Mr. and Mrs. D. H. Hamblen left Dallas the 20th reaching Happy the 21st. Mr. J. W. McCreery met them and brought them out home. Mrs. Hamblen seems to have done well since her operation, is able to walk some but not able to use her arms but little. Little Velma has been tenderly cared for by her Uncle and aunt Ernest Wilson and wife.

Quite cool early mornings, about cold enough for another snow.

Walter Cobb and family of Tulia have moved back to the Wilson place.

Mrs. L. J. McGehee has had quite a sick spell with measles. Is a little better at present. Kelly has had a good case of them and is doing well. Tom Long is very sick with measles, and his brother Henry is nursing him. Little Robert Adams also quite sick with measles.

Jake Rogers and family, save the oldest son, Reuben moved back to the Plains last week. They are living in Happy Park. They moved from the Plains 11 years ago.

Wm. Payne and wife went to Amarillo Saturday afternoon, returning to Canyon and spending the night with Mother McGehee, then home Sunday afternoon.

Rev. Joseph Jacob filled his appointments Sunday at Fairview in the afternoon. A most interesting League program Sunday night led by D. L. Adams.

Germany is in greater need of home rule than Ireland. — New York Morning Telegraph.

Go to it, Haig! You have the entire summer and the whole of Germany before you. — Savannah News.

As The Days Get Warmer—

One is reminded that his woolen suit is too heavy and naturally thinks of a light comfortable suit for the hot season. We have just such a suit—Adler's Collegian Clothes for men and young men ready for your inspection. We are showing some beautiful patterns in Palm Beach, Cool Cloth and Mohair, made up in the latest models from

\$7.50 to \$17.50

Why pay two or three time this amount for a wool suit that will be uncomfortable for summer wear and look no better than these light weights. We have every thing to go along with the suit.

Beaver Brand and Stetson Hats
Geo. P. Ide Shirts and Collars
B. V. D. Underwear

Smith- Briscoe Shoes and Oxfords
Phoenix Hose
