Its My Standby for a Cold.

Mrs. Elizabeth Reuther, 1002 11th St. N. W., Washington, D. C., writes: "I endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered several years. I took it for several months, found my health was restored and have felt splendidly ever since. I now take it when I contract a cold, and it soon rids the system of any catarrhal tendencies."

Those who object to liquid medicines can procure Peruna Tablets.

### Big Ranch and Cattle Deal.

The largest ranch deal consummated in Northwest Texas in many months was closed last week when J. E. Hutt of Kansas City, Missouri, and J. H. Barwise, Jr., of Ft. Worth, purchased all the lands and cattle, horses, implements and other valuables of the Hereford Grove Stock Farm, located four miles north of Kirkland in the eastern part of Childress County.

This ranch was started by New York capitalists and was managed by U. S. Weddington of Childress. The ranch featured the breeding of registered Hereford cattle and some of the first cows on the ranch were shipped direct from England. The blood was always kept up and, although the ranch suffered from neglect for several years but it was finally purchased by Messrs. Frank Carter and H. A. Etter, who have built it up and the cattle property are now in good condition.—Clarendon News.

## HEAVY SALES OF SAVINGS STAMPS

TREASURY RECEIPTS FROM THIS SOURCE ARE RUNNING ABOUT \$11,000,000 A WEEK.

### WAR CREDITS BOARD WORK

When and Why It Authorizes Advance Payments to Contractors—New Committee Will Mobilize Colleges for the Training of Troops.

(From Committee on Public Information) Washington. — Treasury receipts from the sale of War-Savings stamps are running at the rate of \$11,000,000 a week. Savings bank deposits in the last few years have been increasing at the rate of \$700,000 a business day. Treasury receipts show the American people are putting their small savings at the service of the nation through War Savings stamps at a rate far in excess of prewar savings bank accumulations.

Two billion dollars of war-savings securities will be issued. If these are all sold this year the treasury will receive about \$1,680,000,000, and at the end of five years the government will repay the loan together with \$320,000,000 in interest.

A statement prepared by the war credits board includes the following explanation of its functions and activities:

"When a concern that has a contract with the war department for supplies has shown the board that it needs financial assistance and has been able to comply with the act by giving adequate security, the board has approved an advance payment and the money has been received; in many instances where the need was urgent the money has been paid over to the contractor the same day the application has been filed. However, the board does not act in any sense as a bank. It is only when the manufacturer has reached a point where financial assistance is needed, in addition to his banking lines, that application for advance payment for his goods is considered favorably by the board."

Between the time of its creation in November and January 24 the board approved advances to contractors totaling \$145,551,000.

It is estimated that within the next six months 75,000 to 100,000 men will be given intensive military training in schools and colleges. They will be drawn from the armed forces of the nation, men now in training camps or about to be called, and registrants under the selective service law.

With a view to mobilizing the educational institutions of the country for this special training there has been created in the war department a "committee on education and special training." It will encourage and arrange for the technical education of men needed by the several branches of the army.

A "War Cyclopedia," providing the public with information on the great war in the form of a handbook, is the latest publication issued by the committee on public information.

The salient facts of the war are briefly stated in alphabetical form in 800 pages. The cyclopedia also contains a chronology of outstanding events ranging from the murder at Sarajevo of the Archduke Francis Ferdinand, June 28, 1914, to the British national labor conference's approval of President Wilson's war aims, December 29, 1917.

The volume may be obtained by addressing the Committee of Public Information, 10 Jackson place, Washington, D. C., and inclosing 25 cents to cover cost of printing.

While figures are not yet available on the proportionate number of \$1 and \$5 snailage books being purchased for use by men at the camps and cantonments, the commission on training camp activities, in charge of the sale, states that there has been unexpected demand for the larger books. Snailage books selling for \$1 contain 20 coupons good for admission to camp entertainments; books selling for \$5 contain 100 coupons.

From two to five coupons are required for admission to Liberty theaters at the camps, although many of the productions are of the class which command \$2 prices in metropolitan houses.

Plans for the aerial mail route between Washington, Philadelphia and New York contemplate the use of machines capable of carrying 300 pounds of mail a distance of 200 miles without stop. A special postage rate would be charged not exceeding 25 cents an ounce.

In reply to inquiries regarding the possibility of redistilling seized spirits for alcohol the war department has announced that the small amount of alcohol recovered, the cost of transportation, recuperation and redistillation would make the cost to the government greater than it is now paying. The average yield from confiscated liquor would not exceed 5 per cent of alcohol.

The war department now permits women to qualify as inspectors of small arms, according to an announcement by the civil service commission.

After an inspection trip to a base hospital, Secretary of War Baker made the following reply to an inquiry concerning hospital conditions:

"With Surgeon General Gorgas and Doctor Hornsby I made this morning a personal inspection of the entire base hospital at Camp Meade. The hospital is very large, fully equipped with scientific laboratories and facilities, has an adequate number of trained nurses under the supervision of a skilled superintendent; its medical and surgical staffs are made up of competent men filled with enthusiasm for their work. The hospital throughout is clean and well cared for; there was an abundance of clean linen, a plentiful supply of well-prepared and appetizing food, and every evidence of considerate attention to the patients was manifest. I talked with a large number of the patients, none of whom knew who I was, and found them cheerful and without a single complaint as to their treatment or comfort. Doctor Hornsby told me at the conclusion of our inspection that the base hospitals in the cantonments throughout the country were substantially like the one we visited this morning. It was a most reassuring visit. I have long been interested in hospitals, and if I were to have a personal illness which required hospital treatment I should be perfectly content to be sick in the base hospital at Camp Meade, satisfied that I would receive the attention necessary and under comfortable conditions."

In England priority must be given to the manufacture of war-time boots over all but government work. The boots must be made of classes of leather and to specifications approved by the director of raw materials; the manufacturer must stamp on the upper his registered number and on the sole the retail price, together with the words "war time."

The following are examples of styles and prices per pair: Men's heavy shoes, \$4.50; city clerks' shoes, \$3.10 to \$6.30; women's stout shoes, \$3.10 to \$4.20; women's first-grade glaze shoes, \$3.83 to \$5.90; boys' shoes, \$2 up; girls' shoes, \$1.87 up. Altogether there will be 39 types of wartime boots. The heels of women's shoes are not higher than 1 1/2 inches, but it is understood that wartime shoes represent in all particulars the manufacturers' ideas of what the public desires.

Small stocks of corn in the hands of dealers in New England and other Eastern and Southern states, with the exception of Delaware, Maryland and Virginia, where surpluses were produced, are indicated by reports to the department of agriculture. Actual available supplies in the Southeastern states are said to be greater than ever before, although the amount of corn in the hands of distributors and other dealers is much below normal.

Most districts in the Southeastern states have sufficient supplies for local needs, while dealers in many places, especially Mississippi, Alabama, Georgia and Florida have shipped large quantities of corn to the larger markets.

No commodities may now be exported from the United States nor imported, without license. According to a statement by the war trade board the military and tonnage situations have made increasingly apparent the necessity of instituting a complete and thorough-going control of all exports and imports.

Licenses for the export or import of coin, bullion, currency, evidences of debt or ownership of property and transfers of credit will be issued by the treasury department; licenses for all other exports and imports, including merchandise, bunkers, ships' supplies, etc., will be issued by the war trade board.

The director of athletics at one army camp has arranged a program as a means of determining the relative athletic caliber of the companies in the division. Each man is required to pass in eight of the following tests to obtain a positive mark for his unit:

Jump 8 feet from a standing position; chin 10 times; clear a bar at 4 feet 2 inches; throw a 12-pound shot 33 feet; climb a 20-foot rope in 15 seconds; dash 50 yards in 7 seconds; run a mile in 6 minutes; lift a 60-pound weight over the head with one hand; sit up from a supine position with a 50-pound weight suspended from the back of the head.

There is no standard recipe for "victory bread," the only requirement being that it must contain not more than 80 per cent of wheat flour, the remaining 20 per cent being composed of corn meal or corn flour, rice, potato flour, or other cereals recommended by the food administration. "Victory" pies and doughnuts, which contain not less than one-third nonwheat flour, may be sold on wheatless days if the same recipes are used throughout the week.

The limit of time for filing income tax returns has been extended to April 1.

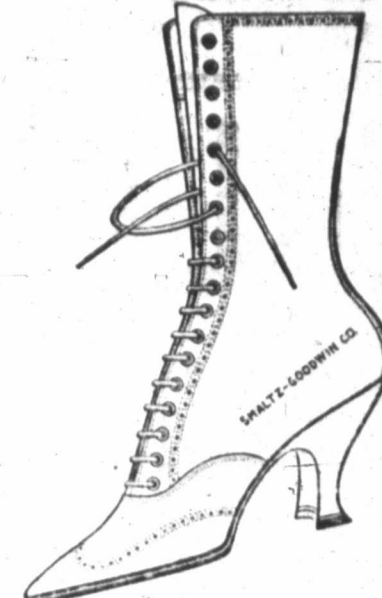

In order to assure prompt and accurate identification, the war department has adopted a system of numbering enlisted men of the army. The system provides for one series of numbers, without alphabetical prefix, for all enlisted men. The number assigned to a soldier will become a part of his official designation, and will never be changed nor assigned to another man. It will be entered on identification tags.

The steady increase in the number of Holstein dairy farmers in and around Amarillo, Texas, and the knowledge of the substantial benefits accruing from such an organization, has prompted the Southwest Plains man, published at Amarillo, to make the suggestion in its editorial columns that the Holstein men should take steps to organize a Holstein-Friesian association on the Plains. It is an idea that should be encouraged in every way; the getting together of the farmers for the discussion of matters of importance to all dairy cattle breeders being but one of the numerous advantages to membership in such a club or association. It is hoped that the efforts of the local paper, which is doing good work in connection with the advancement of the breed, will meet with the unanimous approval of Holstein men residing in that section of the country.—Holstein Friesian Register.

ARE GERMANY'S SILENT ALLIES

They will help the Kaiser. They will kill American soldiers.

Every bit of waste, every extravagance takes force the power America must put into the war to win. Every penny spent for luxuries and unnecessary things is a penny lost to the production and purchase of food, clothing, supplies, ships, and munitions for our soldiers.

As long as we spend wastefully, Germany will receive silent but powerful help from America; just so much farther away is the Day of Peace.

Don't spend thoughtlessly or unnecessarily. Save! With high wages and plenty of work for everyone there never was such an opportunity to help to help yourself and help your country.

Save to help the Government. Lend your savings to your Country—

**A Little Sound Advice Will Help Many a Sufferer in Canyon.**

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen. This is often the cause of bearing-down pains, lameness, back-ache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Canyon woman tell of her experience.

Mrs. M. A. Higginbotham, says: "I used Doan's Kidney Pills, procured at the Holland Drug Co. several years ago for kidney complaint and they proved very satisfactory. They cured me of the trouble and I have not been bothered since. Another of the family has also used Doan's Kidney Pills with the same good results."

**Suffering Described As Torture Relieved by Black-Draught.**

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

If Japan goes into Russia there are liable to be severe complications in the war situation. That is the main reason that Japan has never been asked to take an active part in the war before this date. Japan needs more territory. If China and Russia sees her armies moving toward their territory, it may cause unexpected and disastrous results in these two countries. From the present outlook, if Japan does go into the war, and through Russia, it will be an acknowledgment on the part of the allies that the war situation is more desperate than they have hitherto been willing to admit. It will be a signal for our country to redoubt her efforts in the prosecution of the war.

Traveling men, members of the I. T. A., have agreed not to eat at houses which are violating the food conservation rules. Before many months it will be mighty unhealthy for any man or woman to violate any request that our government makes which looks toward the winning of the war. Unfortunately it takes considerable time to get such governmental regulations to go strong in a democracy.

The next Liberty Loan sale will begin on April 6. Randall county should get busy now with her organization and be ready for the sales on the opening day. Many of our citizens bought bonds outside of the county the first two issues because our organization did not get into working condition from the start. Every resident of the county should buy their bonds in the county this issue.

Germany has made her first big raid on the American lines, and every American is proud of the way in which our boys handled the situation. Every attack has been successfully defeated.

Some more enemy aliens have been sent into the detention camps. If a few were sent to face the firing squad they would be less active in America.

Randall County must wake up to the War Savings and Thrift Stamps sales. We are far behind with the sales. No man is doing his duty to his country unless he is investing his portion in these stamps. The government expects every man, woman and child to have \$20 worth of these stamps before January 1st, 1919. There are but few people in this county who should not have twice or three times that amount.

No doubt Jim Ferguson thinks the legislature is going "hog wild" over prohibition. That body is passing most any kind of a prohibition measure which is proposed. State wide prohibition will have passed before many days.

Texas has ratified the constitutional amendment to the federal constitution, on the prohibition question. Texas is the seventh state to make the ratification. Wonder what Joe Bailley said Tuesday?

Prices of Meat 53 Years Ago. The Slatonite is indebted to A. P. Smith for a copy of the livestock market of Chicago on Monday, Jan. 5, 1865. On that day the receipts were 75 head of cattle that sold at \$2.25 to \$3.00. On Saturday the receipts were 355 head. The market closed at \$3.25 to \$3.50 for extra good shipping beefs, and \$1.00 to \$1.50 for inferior to common stuff.

Hogs received on Saturday, 15,084 head which sold at \$3.65 to \$3.80 for the best ones. Sheep were quoted at \$4.00 to \$4.50 for the best muttens. —Slatonite.

**FOR YOUR WAR COOK BOOK.**

**Oatmeal Bread.**  
 1 cup milk or water  
 1 teaspoon salt  
 2 1/2 cups wheat flour  
 1-3 yeast cake  
 1 cup rolled oats.  
 Scald the liquid, add salt and pour over the oats, cool half an hour, add the yeast mixed with 1-4 cup lukewarm water, and the flour. Knead and let rise until double in size. Knead again and let rise in the pan until the size is doubled. Bake in a moderate oven for 50 minutes. Makes one loaf weighing 1-4 pounds.

**Corn Meal Gingerbread.**  
 1 cup cornmeal  
 1 cup wheat flour  
 1 teaspoon soda  
 3-4 teaspoon salt  
 2 teaspoons ginger  
 1 teaspoon cinnamon  
 1-2 teaspoon cloves  
 1 cup sour milk  
 1 cup molasses  
 2 tablespoons shortening.  
 Sift together the dry ingredients. Combine the milk, molasses, melted shortening and beaten egg. Add the liquid ingredients to the dry. Stir well. Bake in moderate oven.  
 Two cups of buckwheat flour may be substituted for the cornmeal and flour in this recipe. This will have the characteristic flavor of buckwheat. If it is too strong, use only one cup of buckwheat and one and a half cups of white flour. Two and a half cups of rye and white flour may also be substituted. In using the rye and white flour a larger quantity is necessary because these flours absorb less liquid than do the cornmeal and buckwheat.

**Cranberry Tarts**  
 Wash, dry, and prick one cup cranberries (unless cranberries are dried there will be too much liquid); cook berries with one cup white corn syrup into which a teaspoon of cornstarch has been stirred; when fruit is cold fill tart shells. Vary this by using half raisins and half cranberries.

**Bran Loaf.**  
 2 cups Lima beans  
 1 cup dry bread crumbs  
 4 tablespoons peanut butter  
 2 tablespoons prated onion.  
 1 tablespoon drippings  
 1 tablespoon dried celery leaves or poultry seasoning  
 2 teaspoons salt  
 1-4 teaspoon pepper  
 1 cup rice stock or other liquid.  
 Wash and soak the beans over night, then cook in boiling water till soft (about 45 minutes). Drain, and

when cool chop coarsely. Add crumbs mixed with seasonings and peanut butter, then add liquid and fat. Put into a greased bread pan and bake in a moderate oven 30 minutes.

**An Ideal Newspaper**  
 Slatonite—A group of men in a business house in Slaton one day last week got started on the subject of what would constitute an ideal newspaper for Slaton, according to their individual standards. All of them agreed, first, that Slaton should have a daily newspaper. Second, their ideal weekly paper would cover the new field from every little incident, ache or pain of every citizen to every turn of the industrial wheels. That every feature of the home life, either industrial, political, social, financial, educational, religious, agricultural, or personal should receive due attention each week, etc., ad infinitum, not even neglecting fiction. To produce this ideal weekly would require the services of several feature writers and a printing office equipment and payroll that would be staggering in its figures. It would certainly be some weekly publication. All of which started a train of thought in the editor's mind.

Anybody can windjamb. There is a vast chasm between telling about how a thing should be done and meeting the printing office payroll every Saturday night. If the members of this group of men want to back their judgment with their money they can have the Slatonite plant any time they want to buy it and we will let them have full sway to give Slaton this ideal paper.

We don't know the name of any of those men, but we are safe on two statements. First, neither one is a paid subscriber to the Slatonite. Second, neither one has ever contributed anything of real value to the news columns of the Slatonite. We have dreams ourself of the ideal paper that we would have for Slaton but we have to make good on our dollars and cents, and we know just how far to go with those dreams before we have to wake up to the stern realities of business.

# WAR Changes Every Thing

We are compelled to place all our accounts on a strictly thirty day basis. Our accounts have always been due the first of the month, but we have never enforced these terms.

However, since the war, we must ask that each and everyone of our customers make their arrangements to pay their account between the first and the tenth. We are compelled to enforce these terms or sell for cash exclusively. Our wholesale houses have made their terms to us almost cash, and we therefore have to change our terms.

We trust that all of our customers will understand our position in this, and will continue to favor us with your business on the above basis.

If you are unable to raise the money on the 1st of the month, we have made arrangements whereby you can make a note and secure same, and we can handle this the same as cash.

Yours for better business,

# 22 Million Families in the United States

## 4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

### Corn Meal Biscuits

1/2 cup scalded milk  
1 cup corn meal  
2 tablespoons shortening  
1/2 teaspoon salt  
1 cup white flour  
4 teaspoons Dr. Price's Baking Powder

Save 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.

New Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free.

## GALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

# A Perfect Baby

To possess a literally perfect child is by no means impossible. The expectant mother should be calm and the days should be filled with sunshine and happiness. Millions of women have used the safe, external, penetrating preparation known as "Mother's Friend". By its use the abdominal muscles, which nature is expanding, relax easily when baby is born.

This naturally makes for infinitely less pain and danger at the crisis. Write to The Bradford Regulator Co., Dept. H, 300 Lamar Building, Atlanta, Ga., for interesting free book "Motherhood and the Baby".

Do not neglect to get a bottle of "Mother's Friend" from your druggist tonight. It is a tried preparation and is of the greatest value to expectant mothers.

Will Lay Steel Soon. Mr. Bert Ramsey, chief engineer of the Midland & Northwestern Railway Company, was in Seminole Tuesday arranging for the drilling of a well at the depot site, and making other arrangements for terminals at this place. He stated that the company had the promise of twenty-three miles of steel as soon as permission for shipping could be had from the National Board of Railway Control, which would be right away, and that work of laying steel would begin at Florey by March 1st and that we might expect the road into Seminole by April 15th.—Seminole Sentinel.

Proposed Sorghum Mill. There is a movement on foot to get a sorghum mill for Portales. Not a little one-horse affair, but one capable of turning out something like a hundred barrels a day. Those who have the project in mind are looking the situation over with a view to securing contracts on two hundred acres of irrigated sorghum. If this can be secured for a certainty, it is estimated that there will be enough that is not under contract to keep the mill busy during the crushing season and the mill will become a certainty.—Portales (N. M.) Journal.

#### Pinto Beans Recognized.

The pinto bean has been recognized at last by the Grain Corporation of the National Food Administration, according to a telegram received Thursday by the News. This long delayed action will be welcomed by every farmer, and every other person in Union County, as the U. S. Grain Corporation, virtually the government of the United States, offers eight cents net to the grower for re-cleaned beans. The bean crop of Union County will begin moving as soon as all plans for handling the immense crop can be completed. Word of the government price of eight cents was received gladly by all, and there was but one instance that has come under our observation of any local dealers trying to take advantage of the news by buying just a little higher than the market price and way below the new one, before the new price became generally known to the growers.—Clayton (N. M.) News.

#### Sold Bunch of Sheep.

P. A. Jones, progressive farmer and stockman, sold his bunch of 277 head of sheep to a Floyd county man a few days ago for \$13.75 per head, throwing in some lambs. Mr. Jones says there is good money in sheep and he expects to buy some more, but he wants full-blood, registered stuff. He is preparing to handle nothing but registered stock on his ranch, and is contemplating going north and getting a bunch of choice Percheron mares, also, to take the place of the common work stock.—Silverton Star.

### Guarding Our Lines

Guarding our lines is like guarding our health—we must encourage the care of our bodies—train our organs for bodily endurance, efficiency and full achievement. It is not so much a necessity to fight disease as to cultivate health.

If we want to increase our chances for long life—Dr. Pierce, of the Surgical Institute, Buffalo, N. Y., says: "Keep the kidneys in good order. Try to eliminate through the skin and intestines the poisons that otherwise clog the kidneys. Avoid eating meat as much as possible; avoid too much salt, alcohol, tea. Try a milk and vegetable diet. Drink plenty of water, obtain Anuric (double strength), for 60 cents at druggists, and exercise so you perspire—the skin helps to eliminate toxic poisons and uric acid."

For those easily recognized symptoms of inflammation, as backache, scalding "water," or if uric acid in the blood has caused rheumatism, "rusty" joints, stiffness, get Anuric at the drug store, or send Dr. V. M. Pierce, Invalids' Hotel, Buffalo, N. Y., 10 cts. for trial package.

STROUD, OKLA.—"I suffered for a year with kidney trouble. I saw Dr. Pierce's advertisement in the paper and wrote for a trial package of Anuric. It helped me so much I went to the drug store and bought a supply of Dr. Pierce's medicine. I bought four bottles of the Golden Medical Discovery, one package of the Anuric Tablets and a vial of the Pleasant Peppermint. The Golden Medical Discovery cured me of kidney trouble, and the Anuric of the rheumatism.—Mrs. MARY JANE FISHER, Strouds, Okla."

### MERCHANT GIVEN ANOTHER CHANCE BY FOOD CHIEF

#### BLACK LIST ORDER LIFTED IN CASE OF SCHULTZ ON CONDITION THAT HE REMEDY WRONG DONE.

Conditional that Paul Schultz, retail grocer at New Baden, Texas, obtain within 15 days the excess of all sugar and flour which he sold to his customers—more than is provided by the food control law—and that Schultz arrange at once for the distribution of an excess of 25,000 pounds of sugar which he has on hand over and above what he should have for his 30-day needs, the Federal Food Administration of Texas has decided to make the suspension of the black list order permanent. Schultz must, however, show within 15 days on the first count and 30 days on the second count that he has complied with the requirements.

The decision of the administration, states the legal department, is not to be construed as establishing a policy of leniency with offenders, nor a letting down of the present bars which make for the strength of the food control law. The evidence offered by Schultz at a hearing held on Friday disclosed that Schultz was not wholly to blame, but the responsibility was to be traced to jobbers and wholesale dealers who had been remiss in issuing instructions, as licensees, to their retail trade, and because of this failure to fulfill the obligation of the jobber Schultz should not be permanently suspended from doing business.

#### Letter From Headquarters.

In the letter to Schultz, acquainting him with the decision of the administration, he has been written as follows:

"From the evidence submitted by you in connection with the black list order issued by me, cutting off your source of supplies, I am of the opinion that to a large extent, you were led into violating the rules and regulations of the United States Food Administration by persons who, in the course of their business, should have kept you informed as to the rules and regulations.

"However, I also find that you did violate the rules and regulations of the United States Food Administration after receipt of definite instructions from me, but such violations might have occurred without your personal knowledge.

"In view of the good recommendations as to your standing and service in your community, furnished by a district judge of the State of Texas, also by other prominent citizens, I have decided to suspend the cutting off of your supplies on the following conditions:

"On all sales of sugar and flour for which you received or will receive payment after January 1, 1918, you will get back from the people to whom you sold this sugar and flour their surplus supplies. That is, all sugar above 10 pounds in the hands of your customers and any flour in excess of 95 pounds in the hands of your customers.

#### Fortnight Limit Given.

"You must have these commodities returned to you within 15 days after Monday, February 4, and sufficient proof must be in my hands that you have followed these instructions.

"You must take back these commodities at the same price at which they were sold by you, and in turn redistribute same according to the rules and regulations of the United States Food Administration at no advance in price.

"You have on hand at the present time approximately 25,000 pounds of sugar. This sugar you are permitted to sell to the various retailers in your section of the State, or through wholesalers, at the same price at what it was purchased by you. This must be done within 30 days from February 4, 1918, and sufficient evidence be furnished me that you have followed these instructions.

"Upon fulfillment of all the above, I shall then make the suspension of the black list order against you permanent.

(Signed) "E. A. Peden, Federal Food Administrator for the State of Texas."

#### Farming and Politics.

In bankruptcy proceedings wherein he asks exemption from paying \$79,000 debts against which he lists available assets of only \$500, A. C. Townley, president of the National Nonpartisan league, testifying before Referee in Bankruptcy H. F. O'Hare at Bismark, S. D., on January 31, admitted directing financial policies of the Nonpartisan league and affiliated enterprises, organizations having a joint income of \$3,500,000. Bankruptcy proceedings are the outgrowth of Townley's farming operations. President Townley disclosed an aggregate league membership of 150,000, each member contributing \$16 for two years' membership. Townley also disclosed the collection of \$600,000 in the Consumers' United Stores Company, concerns organized by the league which gathers \$100 from the farmers for the privilege of dealing at stores the Consumers' company promises to establish. Townley also disclosed the collection of \$150,000 by the sale of stock in the League Exchange corporation that he testified finances the Nonpartisan league. In addition to these operations President Townley handed \$280,000 of league money prior to December 1, 1916, in the league's first campaign that resulted in taking over the North Dakota administration. Twentieth Century Farmer.

#### They Priced 'Em High in the Panhandle

Al Whitterspoon, the local commission man, back today from Amarillo, Texas, said the trip to the annual Buyers' and Sellers' convention there is like a spring tonic. "Out there they don't seem to worry over the fact that they have had one of the worst droughts that the Panhandle ever experienced," said Mr. Whitterspoon. "I never saw stocker and feeder cattle priced so high or owners so beastly certain that they were pricing them where they would sell. Three's and four's are held at \$125 and hard to get, while I heard of many deals in yearlings not far from \$60. Breeding cows and calves sold higher than ever before. There was no disappointment felt if the cattle were not sold, ranchers being confident they could get all they asked. Kansas was well represented, but disappointed with the market they encountered."—Oklahoma Livestock News.

#### Boy Crushed Between Autos.

### Rheumatism Back on the Job With its Old-time Fury

#### No Let-Up in Its Torture.

Pretty soon you will be reaching for the liniment bottle again, for the millions of little pain demons that cause Rheumatism are on the war-path. Winter weather seems to awaken them to renewed fury.

But your Rheumatism cannot be rubbed away, because liniments and lotions cannot reach the disease. It is in the blood, and only a remedy that goes deep down into the circula-

tion, and routs out the disease germs, can rid you of this disabling disease. S. S. S. has given some wonderful results in treating Rheumatism. Being a purely vegetable blood remedy, it purifies the blood of every germ, and thus removes the cause of Rheumatism. Get a bottle-to-day at your drugstore, and start on the right treatment that will get results. ### No Reason for Pessimism.

Minneapolis Journal: Just why the Germans have so long and persistently advertised their offensive on the western front is an enigma. It is not their custom to take the world into their confidence when about to begin an important military movement. The purpose of this advertising campaign will doubtless be disclosed in good time. Possibly their hope is to weaken the morale of the allies by keeping them in suspense as to just where the offensive is to begin.

But there are no signs of perturbation among the forces facing the Teutons from Flanders to Venetia. On the contrary, there is an alre readiness that promises a smashing of German hopes. The decision of the Versailles conference for a unified control of the whole front, including the "side show" at Salonika, means the elimination of the weakness that has heretofore come from divided councils.

Here at home one may detect occasionally an undercurrent of pessimism as to the outcome, an apprehensiveness that springs from ignorance of the true conditions. Perhaps this is one of the effects sought by the German advertising campaign. At any rate, every American should at once cast out of his mind any such feeling, for it has no sound-basis.

After all, it must be remembered that the Germans have not yet won a single military victory of importance, except by treachery and intrigue. All their successes have been achieved in that way from the outset. They began by violating Belgian neutrality—a characteristic piece of treachery which enabled them to overrun Belgium and advance far into France. But they were stopped at the Marne and at Ypres by forces that were inferior numerically. If the unprepared English and the outnumbered French could stop them then, how can they hope to break through now?

On the eastern front German victories have been won by wholesale corruption and intrigue. The German czebal at Petrograd early succeeded in paralyzing the Russian arms by corrupting high officials, cutting off supplies of munitions and sending the mujiks into battle without weapons to fight with. It was thus that Hindenburg won his much vaunted triumph of the Masurian Lakes; it was thus that the Russian invasion of Galicia that threatened to cut off Hungary was finally thrown back. German treachery has played a part in every step of the disintegration of Russia.

The case of Roumania is typical. Forced into the war before she was ready by a Russian ultimatum and on the promise of prompt Russian German attack by the treachery of the unspeakable Sturmer, who not only prevented Russian help from being given her, but sent the whole Roumanian plan of campaign to Germany, so that Mackensen knew every move that was to be made and overran the country at his pleasure.

Serbia, too, was left defenseless by the treachery of Germany's tool, Czar Ferdinand of Bulgaria, and the failure of Greece to keep her promise of assistance, due to the machinations of King Constantine, who was also under German influence.

Even the participation of Turkey in the war on the German side brought about by a secretly planned attack on Russia in the Black Sea, carried out by Turkish ships under German command.

The insidious undermining of Italian morale by carefully planned, unscrupulous propaganda was the indispensable preface to the advance into Venetia last fall. But the Italian armies made the most wonderful recovery of morale ever recorded, and with the help of the French and English stopped the invasion in time.

Germany has broken about every tenet of international law, has indulged in every known form of illegal warfare, has invented numerous new schemes of frightfulness. Her submarine campaign is the greatest offense of all her sins against civilization.

But the Prussian bag of tricks is about exhausted. The allies are not to be overcome by any such methods. It is a case of fight, and nothing but fight, to win. In every instance where the Teutons and the western allies have stood up against each other face to face, the Huns have been beaten. They will be beaten this time, and it may prove their last gasp, their final hope.

There is no reason for pessimism. The forces are nearly equal in numbers, but in stamina, in morale, in confidence, in resources, France, England, Italy and the United States are insuperable. Germany can not win, because Germany is autocracy. It is the devil's system.

### Strange Disease Kills Cattle.

Some fifteen or twenty farmers of the northern part of Curry county and of the southern part of Quay county, this week appealed to the sheriff's office for an investigation of causes of the death of a great number of cattle in their section of the country.

The cause of the death of the cattle is a new one on the ranchers who declare that the stock succumbs gradually as if under the power of a deadly poison. Familiar with the usual diseases that make inroads on stock, the ranchers state that the new problem is one with which their experience has had no contact. Fearing that it is an evidence of the German effort to make inroads into the stock business of the southwest, a thorough investigation of the problem will be made.—Clovis (N. M.) Journal.

### A MESSAGE TO THE NATION

Nature has implanted in every human being a sense of justice. This sense of natural justice does not emanate from any religion or creed; it is the common possession of humanity. It constitutes the one great distinguishing mark between man and the animal. And the more highly educated, the more highly refined a man becomes, the stronger is his sense of natural justice. We condemn a violation of natural justice, not because we learn from a man or a book that such an action is worthy of condemnation, but because it violates that conception of justice which was born in us.

We do not have to be told that it is wrong to torture a helpless child. We do not have to be told that it is wrong to go to a farm house and burn it to the ground, torture its inmates, and then throw them into the burning ruins of their own home. Such things are repugnant to our sense of natural justice.

It is this elementary attribute of humanity, this quality which distinguishes man from the beast, which has been violated by Germany. Not only has natural justice been violated, but its violation defended by emperors, preachers, philosophers, teachers, and that mass of individuals who sympathize with the German cause.

While the most enlightened teachers of humanity are telling us that man by aspiration and effort can raise himself to partake of the Divine nature, Germany is teaching and practicing the doctrine that man should invert the theory and take his place amongst the lowest types in the animal world. They hold forth as the goal of human ambition, after centuries of upward struggle, the figure, type and mentality of a beast rather than that of a God. The animal which lives on the flesh of others, whose right to existence is based only upon its strength and its ability to crush its prey, would appear to be the German ideal.

It is largely because the German idea is so repugnant to us as enlightened Americans, because their practices send a shudder through every fibre of our bodies and produce such nausea in our souls, that we are at war with Germany today; and it is because of these conditions that every decent, honorable, thinking man must pledge, if necessary, his fortune, his life, his all, to eradicate this unspeakable thing which has fallen like a curse upon the sons of men.

Conceive, if you can, the condition of this world if we allowed such doctrines to prevail. Property would go to the man with the strongest arm and the most unscrupulous mind. Liberty would die a shameful death. Freedom would shriek as Justice falls. Religion would perish from the earth and a false God—one of blood, iron and bestiality, would be set up for the worship of a cringing, cowering humanity.

There are indifferent ones who say that such things can never happen in this country. These people do not realize that one of the penalties—the greatest of all penalties—which we should pay for defeat would be the Germanization of our people. One of the terms of our defeat would be the privilege of Germany to trade, teach and colonize freely in this land of ours. One of the things coveted most by the German mind is the souls of men, for when they have these they have their bodies, their wealth their all, and if during the course of the next generation the Germans could capture or even deeply influence the soul of America they would consider that they had won the greatest victory in the history of their Nation.

As citizens of an enlightened democracy we must fight by every means in our power this menace which would steal our souls and those of our children. No greater tribute was ever paid to a human being than that paid to one of the

kings of England of whom it was said:

"His life was gentle, and the elements so mixed in him That nature might stand up and say to all the world 'This was a man'."

It is for such an eulogy we all yearn, unconsciously, if not consciously, and those who would lay restraining hands upon us as we aspire are our mortal and immortal enemies.

There is a practical side to every question, however great and spiritual that question may be. The warfare on behalf of your better self, for your higher interest, and that of your children, is being waged by brave men who have the profoundest claims upon your sympathy and assistance. It seems a pitifully small and totally inadequate thing that you can do, but yet if that is all—do it, and do it to the limit of your ability. Place on record your purchase of a Liberty Bond when the Government calls upon you in the very near future.

### TO THE OLD WOMAN AND THE NEW WOMAN

Greeting. The best kind of men, the men who count for most in the world, the men who have "done things", almost without exception have been inspired by women. Dante was inspired by Beatrice—whom he saw only once. Socrates was inspired by a lady of whom he saw and heard too much. Henry VIII of England made history at the instigation of a number of ladies. Shelley wrote some of his best work under the influence of Mary Wolstanecraft—before she became his wife. But these women never did anything. They stood on pedestals and radiated inspiration.

Times have changed, and apparently women have changed. I do not know today of a single woman of my acquaintance, nor do I read of one in contemporary history, who is willing to be a silent partner in the business of a man's life, whether that business be running a kingdom, writing poetry, thinking great thoughts, or running a business.

The influence which women now exert and the inspiration which they offer to the male of the species comes from their leadership in human activities.

Those of us who are interested in the raising of the Liberty Loan in this section gladly accept the new order of things and call upon the new order of women to inspire and influence the men of the district by their actions, and their example rather than by any attempt to stand on a pedestal and let somebody else do the work.

Woman today is claiming equal rights with man, and cannot expect to enjoy these unless she is willing to take her share of the responsibilities which rights and privileges always carry with them. The woman who believes in the equal civic right of the sexes is bound to take at least as active a part in the war as do the men. She can do no less unless she wishes to violate her own creed.

Let no one suppose for one moment that the writer of these lines imagines that the modern woman is less approachable on the grounds of her womanhood and her motherhood than the old fashioned woman who was content to knit socks, wash the children, and inspire her husband; but it is permissible to point out that the newer type of woman should help in the Liberty Loan Movement because she is a woman, a wife and a mother, and because in addition to all these things she is bound absolutely by the creed of the new womanhood to vie with men for supremacy in the realm of initiative and action.

It seems not unlikely that the women of the Eleventh Federal Reserve District will be the determining factor in campaign work during the Third Liberty Loan Campaign, and these remarks are addressed to the women of the District in the hope that they will take in this important work the position which they have claimed as their own; namely, that of comrade, co-worker, even leader, in all matters in which both men and women are jointly concerned for the national good.

**Two Children Burned to Death.**  
When flames destroyed the home of Mrs. Bettie J. Holt, living eight miles south of Anson, two little boys aged six and nine were burned to death. The little boys with two smaller girls were playing in a room to which there was but one door and it is supposed that the boys were striking matches which ignited some flames from which the fire spread to the only door in the room. A five gallon can of oil near the door exploded cutting off entrance but the two little girls were rescued from a window. The boys had taken refuge behind the head board of the bed and could not reach the window and the mother and grandmother were unable to rescue them.

**GREAT SURPRISE IS AWAITING PEOPLE OF UNITED STATES**

**MORE AMERICANS WILL BE IN THE TRENCHES BY SPRING THAN PLANNED FOR.**

**RED CROSS IS CHALLENGED**

Chapters Throughout Southwest Are Urged to Double Their Efforts to Take Care of Brave Soldiers "Over There."

Red Cross chapters of the Southwest are urgently requested by the headquarters of the Southwestern Division, American Red Cross, at St. Louis, to mobilize all their forces and prepare for a surprisingly big drive in the spring.

From all signs and intimations coming from Europe in veiled cablegrams, from persons high in the conduct of the war, and from hints dropped from Washington, the number of Americans who will be in Europe by spring will be a great surprise.

It is admitted, on high authority, that there are thousands more soldiers in France than it was thought there would be. From preparations being made at cantonments and from the numbers now in transit, there will be many thousands more in Europe within a short time. They not only will be in Europe, but they will be in the front line, so present advices point out.

This all goes to show that Red Cross workers will have to double up on their work and provide comforts for our own boys and at the same time continue to aid French, Italians and Servians.

It is up to chapters to inform their members of the necessity for more sweaters, wristlets, helmets, mufflers, hospital garments, surgical dressings, etc. Hundreds of thousands of each of these must be made to take care of the boys in the spring.

The time to start the preparation is now. The chapters realize that it takes out of time to get all of the necessary articles together, and each one will want to make a good showing when the shipments are made.

Of course, the thousands of American soldiers will need Red Cross nurses to care for them. Forty thousand is the number estimated by the surgeon-general for the near future. The nursing service of the Red Cross offers many inducements and undoubtedly many of the patriotic women of the Southwest will join it, so that they can go to France and help in the fight for democracy.

The American Red Cross has appropriated \$4,771,990 for work in Italy between November, 1917, and May, 1918, according to word received at the headquarters of the Southwestern Division, American Red Cross, at St. Louis. The amount was fixed after a survey to determine Italy's needs.

**RED CROSS WANTS 22,000,000 CHILDREN IN ITS MEMBERSHIP**

Resolutions requesting the governors of the five states in the Southwestern Division of the American Red Cross to make official proclamations, if they have not already done so, recognizing the Junior Red Cross as an important element in the work of the schools of these states and calling special attention to the Junior Red Cross drive from Feb. 14 to 22 were adopted by the advisory committee of the Junior Red Cross at a conference in St. Louis recently.

The committee also urged the various boards of education, state, county and city, in this division, to recognize the Junior Red Cross as the official organization for war relief activities in schools, and asked the United States Bureau of Education, through its department work for community centers, to give all possible help to work of the Junior Red Cross. It was requested that the Department of Superintendence of the National Education Association in its meeting in Atlanta recognize the work of the Junior Red Cross.

**Slogan of the Campaign.**

"Every school a Red Cross auxiliary and center for national service" is the slogan of the intensive drive for the enrollment of all public, private and parochial schools as Red Cross school auxiliaries. George W. Simmons, manager of the Southwestern Division, who has gone to France for Red Cross information, said since the Southwestern Division passed all other divisions in the country during the Christmas membership drive the Juniors must "go over the top" in the same splendid way. The goal is for 22,000,000 junior members in the United States, which, with the present Red Cross membership of 22,000,000, will make the total 44,000,000.

Mrs. E. R. Kroeger, director of junior membership in the Southwestern Division, says each school will be enrolled as a unit, all of its pupils becoming junior members of the Red Cross, the school unit assuming the obligation to raise a sum equal to 25 cents for each member. This fund remains in the school treasury to be administered by the pupils themselves in the purchase of raw materials with which to work or otherwise, as they wish, with the advice of instructors, may select.

**What Children Can Do.**

"There are many definite things which the junior membership can accomplish within the range of their scholastic activities," says Mrs. Kroeger. "It is not the intention to encroach in any way upon the pupils' play time, but to deflect the courses in manual training, domestic science, etc., into some form of Red Cross production."

President Wilson Sept. 15, 1917, issued a proclamation to the school children of the United States offering them the privilege of membership in the Red Cross. Dr. Henry H. MacTracken, president of the Vassar College, developed the idea of junior membership.

**WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO**

**CANTEEN SERVICE DEPARTMENT.**

In the Southwestern Division of the Red Cross, which includes the States of Missouri, Kansas, Oklahoma, Arkansas and Texas, there have been organized 97 Red Cross Canteens in towns along the main lines of railway travel to render aid of every kind to troop trains.

In large movements of troops delays are unavoidable, and these bodies of men will often suffer from hunger and thirst in spite of the best efforts of the Army, and to give some refreshment to these men is a service the Red Cross is undertaking.

The commander of every troop train is supplied with a list of the towns where Red Cross canteens have been organized, and he is instructed to wire ahead for any service that a canteen can give. The organization of a canteen consists of a chairman and a committee of at least 10 members. Arrangements are made beforehand for the preparation of coffee and sandwiches in large quantities on short notice and their transportation to the station. The average troop train of 500 men will require 50 gallons of coffee, fruit, cigarettes, etc., are also distributed. Hot coffee is always most acceptable. Although supplied with the army travel ration, it is often impossible to provide every troop train with cooking facilities, in which case hot coffee is greatly appreciated by the men.

If a troop train commander finds that, owing to delay, his food supply is exhausted, he will wire his requirements to a canteen and they will use their organization to supply his needs. In case of serious illness demanding immediate attention, the canteen will have an ambulance at the station to remove the man to a hospital without delay. This service has already been the means of saving the life of more than one of our boys.

Postal cards are distributed to the men to write home. This little attention is much appreciated by them, as the troops are often not allowed to leave the train. Innumerable letters are received showing the gratitude of the boys for the favors they have received from the Red Cross canteens all over the country, all of which makes them feel that somebody is interested in their welfare, and does much to cheer and encourage them.

"The personal touch of the Red Cross worker is an important factor in maintaining the spirit of the troops, and this is an important duty of the Red Cross. Too much cannot be said of the splendid enthusiasm that the women of the whole country have shown in this work. When they have been called upon they have responded, whether day or night. It is a service that all women will be glad to render to our boys who are giving so much. That it's worth while on his but to read the letters from the men. I quote but one: "On our arrival at M— we were tendered a most hearty reception by the Red Cross. Their kindness in serving us with hot coffee and sandwiches left an impression upon the boys that will never be forgotten. We cherish not only the worth of such a gift, but more than that the fact that the whole nation is interested in our welfare."

We welcome the organization of a Red Cross canteen along any main railroad line, and the undersigned will be glad to furnish information as to just what duties may be expected of them. CHARLES P. PETTUS, Director of Canteen Service, Southwestern Division American Red Cross, 1617 Railway Exchange Building, St. Louis, Mo.

**Hereford and Canyon S. S. Contest.**  
The reports over the phone last Sunday showed the following record on the per centage basis:  
Hereford:  
Attendance—77 per cent  
Contributions—91 per cent  
Stay for church—69 per cent  
Canyon:  
Attendance—85 per cent  
Contribution—81 per cent  
Stay for church—73 per cent  
The contest is close at this time, with odds a little in favor of Hereford.

This month closes the campaign. Let us fill our classes next Sunday and forge ahead, also on the other two points.  
Come to Sunday School.  
R. A. STEWART, Pastor  
R. and C. Cockrell bought 125 cows and three herd bulls last Friday from George Simms. This is a fine bunch of Hereford cows and the Cockrells have moved them to their ranch in Hutchinson county. Panhandle Herald.

The only way West Texas will ever get her just dues will be to divide the state. An East Texas man cannot possibly imagine what a West Texas man needs and wants. We are even now paying with our taxes for the erection of an East Texas negro school, (with no negroes in the west) when one of like nature was denied West Texas entirely. The new insane asylum ought to have been put in Austin so as to safely confine a larger part of the legislature. —Colorado Record.
