

TRADES DAY NEXT MONDAY IN CANYON

Next Monday, May 13, will be the regular monthly Trades Day in Canyon.

Plans for the day were discussed and arranged Tuesday night at a meeting of the Canyon Business Men's Association held at the News office.

The regular monthly Trade Excursion will be run tomorrow, Friday, to the southwest part of the county. A committee composed of C. H. Jarrett, C. L. Thompson and Chas. Harter will have in charge the routing of the trip and the management of the party to go.

The entertainment committee is arranging a number of events for next Monday.

One of the big events of the day will be a tug of war between the citizens of Randall county living east and west of the court house. Fred Hettler has been appointed captain of the men from the east end and C. L. Gordon-Cummings is captain of the west end bunch. The line dividing the county runs through the middle of the court house, and the captains may choose any man from his section of the county. There will be three pulls in the contest. First, each captain selecting ten men and pull; then each

captain will select fifteen men and pull; then each captain will select twenty five men each and pull. The side winning two of the pulls will be declared victors. This event will be staged after the regular auction sale in the afternoon.

The auction sale will be in the charge of S. B. McClure, manager, and Wilford Taylor, clerk, with J. W. McCrerey of Wayside as auctioneer. If any one in Randall county has anything he wishes to dispose of, right now is a good time to bring it to the auction sale in Canyon. The sale will be a big one next Monday and all our people are urged to attend. The sale starts promptly at 1 o'clock.

The merchants of Canyon are preparing especially fine bargains to offer on Trades Day and it will pay all of our citizens to come to Canyon on that day to take advantage of these bargains.

Remember that the Canyon Business Men's Association will give a new Ford away on the September Trades Day. Tickets are issued upon every dollar spent in any day of the month excepting Trades Day, when two tickets are given for each dollar cash that is spent. Be sure to call for these tickets.

EASTERN STAR TO HAVE BIG MEETING

Twenty four chapter of the Order of Eastern Star will be represented by the School of Instruction of the Second District of Texas, which will be held in Canyon May 10 and 11th.

Fifty delegates and a large number of visitors from various parts of the Second District will be here for the two days meeting.

The Grand Matron, Mrs. Cora M. Cohen, of Houston, and other Grand Officers will be present at the meeting.

The following will be the program: Mrs. Mattie A. Sebitts, Deputy Grand Matron, of Higgins, Second District.

Friday—2:00 p. m. Opening Ceremony—Canyon City Chapter No. 105. Presentation of Grand Officers. Song—America. Address of Welcome: On behalf of city—Professor J. A. Hill.

On behalf of the Masons—W. J. Flesher. On behalf of Canyon City Chapter—Mrs. Beula Burrow. Response—Mrs. Rebecca Robinson, of Lubbock, Committee on Work. Opening of School of Instruction—Mrs. Cora M. Cohen, of Houston, Grand Matron.

8:30 p. m. Reception. Exemplification of degrees—By Canyon City Chapter.

Saturday—9:30 a. m. Esoteric Drill—Mrs. Mattie A. Sebitts, Higgins. Balloting Exemplified—By delegates. Study of ritual and constitution. Question box. Examinations—Mrs. Rebecca Robinson, of Lubbock, Committee on Work.

1:30 p. m. Address, O. E. S. Home—Grand Matron. Why we should understand parliamentary law—Members of Canyon City Chapter. Parliamentary drill—Mrs. Mattie A. Sebitts.

Exemplification of degrees—By delegates. A point I wish made clear—Delegates. Examinations—Mrs. Robinson. Report of committees. Closing.

Rev. J. T. McClure Speaks Here. Rev. J. T. McClure of Abilene will speak Friday afternoon at 4:30 o'clock on the streets, if the weather is favorable, and in the court house if the wind is bad.

Mr. McClure is making a tour of the Panhandle speaking on Patriotic Prohibition. He is a strong speaker and all are urged to hear him. He has spoken here before and very greatly pleased a large audience.

PROF. H. W. GELLER DIED IN MINERAL WELLS MONDAY

Prof. H. W. Geller, of the Agricultural Department of the Normal, died Monday night in Mineral Wells where he was taken last week in a final effort to save his life.

Mr. Geller came to the Normal three years ago from Wisconsin. He was a careful student and highly educated man, and was doing splendid work in his department of the Normal. He was a Roumanian by birth, and came to America several years ago.

Last summer he asked for a year's leave of absence in order to better equip himself for the work of the Normal. He was in bad health at the time and thought that this would be of great benefit to him. He went to the Wisconsin university to study, but a few weeks there and he was forced to give up his work and went to California for his health. Believing that the end was near, he asked to be brought back to Canyon that he might spend his last days near the work which was very dear to him. But he was in such a condition, believed to be dying, that it was thought best to take him on to Amarillo, and there he was treated for three weeks. Last Tuesday it was thought the only chance of his recovery lay in treatment at Mineral Wells, and Mrs. Geller took him there last Wednesday.

The body was taken to St. Louis where it will be cremated. Mrs. Geller will go back to Duluth, Minn. Mrs. Geller and one brother of Mr. Geller's are the only relatives he has in America. All of his people are either in Roumania or Germany. At the beginning of the war he had two brothers in the Roumanian army and two in the German army.

Memorial services will be held at the Normal within a short while.

FOOD AND FEED SPEAKER TO VISIT CANYON NEXT MONDAY

During next Monday afternoon, Trades Day, a speaker representing the Food and Feed Production campaign, will address the people of Randall county upon the importance of raising everything possible this year. T. C. Thompson is county chairman of the campaign and he has been asked to secure a speaker for the day.

Whoever comes for the day will have a message, not only for the farmers, but also for the townspeople.

Miles Ackerman Married.

While home on his furlough week before last, Miles Ackerman was married at Quanah to Miss Jewel Willet of Paducah. He left within a short while for his work in the navy, while she will continue with her school until he returns from the war.

Miles is the second son of Mr. and Mrs. C. M. Ackerman of this city and is well known and highly respected young man. Miss Willet is well known here, having been a student in the Normal.

REV. B. F. FRONABARGER ON EXEMPTION BOARD

Rev. B. F. Fronabarger has accepted a place on the Randall County Local Exemption Board, taking the place recently resigned by W. D. Morrel.

Rev. Fronabarger is a public spirited citizen, and since the war has devoted much of his time and energy to the war work. He was strongly solicited to accept a place on the board, and being thus called, wired his acceptance Saturday.

CALL FOR HOBBY CLUB TO BE ORGANIZED IN CANYON

The friends and admirers of Governor W. P. Hobby are asked to meet at the district court room Friday night at 8 o'clock sharp for the purpose of organizing a Hobby club in Randall county.

The women voters are asked to come, and if they see fit, organize a separate club, or take joint action in a man's and woman's Hobby Club.

GO TO CHURCH DAY COMES NEXT SUNDAY IN TEXAS

Governor Hobby has designated next Sunday as Go-To-Church day in Texas, and requests all persons to go to Sunday School in the morning and stay for church services.

A special effort will be made by the churches of Canyon for the observance of the day.

Speaks for Book Club.

Dr. Cunningham of the State University will speak Saturday night at the Baptist Church to the members of the Book Club and their friends on Mexico, which subject the Club has been studying during the past year. The meeting will be at 8:30 and the Club cordially invites all who are interested to come to the lecture.

Germany expects to collect two billion dollars from Roumania. This is the first time Roumania ever suspected she had that much money.—Washington Star.

BOND SALE GOES TO

\$71,850 IN COUNTY

Randall county has reported to the Federal Reserve Bank a total sale of \$71,850.00 of the Third Liberty Loan Bonds.

The total sale of the United States amounted to more than four billion of dollars, or a billion more than the minimum set by the government.

The people of the United States are not in the habit of doing things by halves, and this bond sale was only another demonstration of the fact.

Bonds were sold in Randall county right up to closing time Saturday. The First National Bank reports a sale of \$40,800 and the First State a sale of \$29,600. The Santa Fe Railway sold \$1250 in bonds to the employees of the road in Canyon and gave credit of this amount to Randall County.

Having demonstrated that the citizenship is 100 per cent American in this drive, Randall county is now getting ready for the big National Red Cross drive for \$3,760 which starts on May 20.

Mrs. Reynolds Trial Monday

The second trial of Mrs. Florence Reynolds on an indictment charging her with the murder of her husband two years ago will start in Amarillo next Monday in the district court.

Mrs. Reynolds was tried during the fall term and was found guilty, and a sentence of twenty years imposed by the jury. The case was appealed and the courts remanded the case for a new trial. The case has attracted a great deal of attention in this section of the state.

The seventy-five-mile gun with a trajectory eighteen miles high may be intended as a strong hint to Gott that more immediate results are desired at Potsdam.—New York Evening Post.

May 20-27 is the time for the big National Red Cross Drive when one hundred million dollars are asked by the National Red Cross from the people of America in order to keep up the work in the foreign fields, such as the hospital, nurses, doctors, supplies, etc., etc.

Randall county's quota for the drive is \$3,760. This amount will be raised in the one week. The program for the drive starts on Sunday night, May 19. There will be a mass meeting at the Normal auditorium in which all of the churches of the city will join. Dr. J. E. Carpenter of Amarillo will address the gathering.

Monday the drive will start. The day will be almost a national holiday as all counties will devote the day to the raising of funds. There is no reason why Randall county should not raise her entire quota on the one day.

C. R. Burrow has been appointed as manager of the Randall county campaign and together with his executive committee is working out plans for the drive and he hopes to raise all of the money on the first day, May 20.

The committee is planning to make May 20 one of the biggest, if not the biggest day, Canyon has ever had. It is the day for the commencement exercises of the West Texas State Normal College and there will be many visitors in the city. The Normal program will take all of the morning.

At 1:30 in the afternoon will be a baseball game between the east and west parts of the county. H. C. McNeil is manager of the east bunch and F. P. Luke is manager of the west bunch. The game is in the interest of the Red Cross Drive.

At 3:30 in the afternoon there will be a war program in the auditorium of the Normal. Mr. Burrow states that if possible a soldier from the front will be in Canyon that day to make the principal address. If no soldier is available, a man of reputation has been promised by the Southwestern Headquarters for the occasion.

The fact should be impressed upon every citizen of Randall county that he is expected to be in Canyon on that day and take a part in the Red Cross work. America is in the war, and in it to win. It will take the best efforts of all to win. The Red Cross must be supported and supported by all our people. The President has set aside the week of May 20-27 as a week for this special drive and in order to facility matters Randall county wants to raise her quota on the very first day, and then devote the remainder of the week to our regular duties. Our boys are giving their entire time to the cause, and the people at home should devote one day at least to a general meeting where war matters shall be considered.

The executive committee has appointed the following men to look after the various school districts of the county, and they will see that all our citizens come to Canyon on Monday, May 20, or send in their part of the contribution to the Red Cross: School District No. 1—Jas. Park, Worth A. Jennings.

No. 2—Ed Gibson, Wilford Taylor. No. 3—Peter Meyers, Oscar Gano. No. 4—Wm Schmitz, Chas. Stratton. No. 5—Harry Gray, Lyle Holland. No. 6—Andy Costley, J. W. Blair, Henry Weber.

No. 9—J. B. Knox, Grayson Bell. No. 10—Jim Currie, J. A. Guthrie. No. 11—John Batenhorst, J. E. Winkelman.

No. 12—Adam Walker, J. E. Rogers. No. 13—W. E. McCormick, C. R. Flesher.

Nos. 16-17—J. H. Garrison, A. D. Dooley.

No. 18—C. L. Gordon-Cummings. No. 19—Mack Garner, J. A. Wilson. No. 20—T. G. Watson, W. J. Flesher.

Nos. 14-21—Fred Hettler, W. L. Deeke.

All business houses of Canyon will be asked to close from 1:00 until the program is completed at the Normal. The executive committee is working on a number of other matters, which it hopes to present to the people next week which will add to the features of the day.

GIVE ONE DAY SALARY OR INCOME TO THE RED CROSS

A movement has been started in the United States to give one day's salary or income to the Red Cross fund which campaign begins on May 20 and continues for seven days.

The faculty of the Normal responded to the call and the faculty has already given the one day's salary to the Red Cross. Several members of the faculty have done better than the one day's salary.

The boys in the army are giving 30 days of the month to the work of Uncle Sam, and are making a real sacrifice in order to do this. They will make the Supreme Sacrifice if necessary that we who remain at home may live safe under the protecting wings of democracy.

Why not every person in Randall county subscribe their one day's income to the Red Cross fund?

Randall county must raise \$3,760 in this campaign for the Red Cross.

The boys are doing their best, giving all their time. Surely there is no man or woman in Randall county willing to assume the terribly responsibility and results therefrom of denying our boys anything at this time. One day's income from every person will raise the amount that Randall county must subscribe.

Get your check books ready with one-day's salary or income.

RAIN FALLS FRIDAY AMOUNTS TO THIRTEEN-SIXTEEN INCH

A good rain has fallen in most parts of the county during the past week, amounting to thirteen-sixteenths of an inch in the vicinity of Canyon. In several parts of the county the fall was not so great.

This rain will do much good, but there is need of a great deal more in order to put the ground in farming condition. A few places in the county received more than an inch and the farmers are planting, but on a whole the county will need much more rain before much farm work can be done.

The grass situation is helped by the rain. Very few cattlemen had any grass or feed left when the rain came, and things were looking mighty bad for them, but now the grass has started considerably. A few more rains like the one Friday will put the grass in first class condition. A number of cattle had been shipped on account of the shortage of grass in this county.

The cold weather seems to have been broken. Monday the sun came out hot and since then the Panhandle has enjoyed the first real spring weather. Every family has been forced to keep a fire in their heaters almost continuously until this week, when the spring seems to have opened in full force.

Delivering 1000 Head.

C. O. Keiser has completed delivering to Judge C. T. Word one thousand head of young heifers which were recently sold.

SCOTT'S EMULSION

to replenish your blood power, enliven its circulation and bring back the snap and elasticity of good health. *Scott's Emulsion* supplies Nature with the correct building-food which is better than any drugs, pills or alcoholic mixtures.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable. Scott & Bowne, Bloomfield, N.J. D-16

FOR YOUR WAR COOK BOOK.

Purpose—To show the use of wheat flour substitutes in baking powder biscuits and pastry.

General Proportions for Biscuits

Liquid, to be determined.
Flour, 1 cup.
Fat, 1 tbsp.
Baking Powder, 2 tsp.
Salt, 1/4 tsp.

Drop Biscuits.

Using wheat flour (white) with proportions given above, sift the dry materials, mix in the fat thoroughly and add enough liquid (note the amount) to make a dough which is too soft to be handled. Drop by spoonfuls on an oiled pan and bake in a hot oven. (225 degrees C).

Moulded Biscuits.

Repeat 1 but add enough liquid (note the amount) to make a soft dough. Mix enough to combine ingredients. The dough should not look smooth. Cut out one biscuit (a) Knead the rest of the dough slightly until it looks smooth. Cut out two biscuits (b and c). Let one stand 1-2 hour, then bake. Knead the remainder of the dough very thoroughly. Cut into biscuits (d). Bake biscuits (a), (b) and (d) immediately in a hot oven (225c C). Let (c) stand 1-2 hour, then bake at same temperature as others. Reserve these biscuits which should show the principles involved in their making, to compare with those made with wheat flour substitutes.

Use the substitutes available in your locality, choosing one of each type.

Flours—Corn, rice, barley, buckwheat.

Meals—Corn, Oatmeal, Kafir Corn, Feterita.

Whole Cereal—Rolled Oats, Rice.

Proportions—For either drop or moulded biscuits as much as 75 per

cent to 100 per cent of the flour and meal substitutes may be used.

Suggested Substitutes.

1. Barley—(a) 75 per cent Substitution—Liquid 1 cup, flour 2-3 cup, Substitute, 3 cups, B. P. 6 tsp, fat 3 tbsps, salt 1 tsp.

2. Cornflour—(a) 50 per cent Substitution—1 cup liquid, 1 1-3 cups flour, 1 1-3 cups substitute, 6 tsp. B. P., 3 tbsps fat, 1 tsp salt.

(b) 75 per cent Substitute—1 cup liquid, 2-3 cup flour, 2 cups substitute, 6 tsp B. P., 3 tbsps fat, 1 tsp salt.

3. Cornmeal (Sifted)—(a) 50 per cent Substitution—1 cup liquid, 1 1-3 cups flour, 1 1-3 cups substitute, 6 tsp. B. P., 3 tbsps fat, 1 tsp. salt.

(b) 75 per cent Substitute—1 cup liquid, 2-3 cup flour, 2 cups substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

4. Buckwheat—(a) 50 per cent Substitution—1 cup liquid, 1 1-3 cups flour, 1 cup substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

(b) 75 per cent Substitute—1 cup liquid, 2-3 cup flour, 1 3-4 cups substitute, 6 tsp. B. P., 3-tbsps. fat, 1 tsp. salt.

5. Granulated Oats—(a) 50 per cent Substitution—1 cup liquid, 1 1-3 cups flour, 1 cup substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

(b) 75 per cent Substitute—1 cup liquid, 2-3 cup flour, 1 1-2 cups substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

6. Cooked Cereals 25 per cent Substitute

6. Hominy—No liquid, 2 qc. flour, 1 1-2 cups substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

7. Rice—3 T. liquid, 2 cups flour, 1 cup substitute, 6 tsp. B. P., 3 tbsps. fat, 1 tsp. salt.

8. Rolled Oats—No liquid, 2 cups flour, 1 3-4 cups substitute, 6 tsp. B. P. 3 tbsps. fat, 1 tsp. salt.

9. Mashed Potato—No liquid, 2 cups flour, 1 1-3 cups substitute, 6 tsp. B. P. 3 tbsps. fat, 1 tsp. salt.

With cooked cereals the dough will seem to be too stiff, but no additional liquid should be added unless drop biscuits are made.

U. S. Food Administration.

Sedition Law Passes.

Final legislative action was taken Tuesday on the sedition bill, giving the government board new powers to punish disloyal acts and utterances. Adopting a conference report already approved by the senate, the house sent to the president for his signature the measure which has been before congress for weeks, assailed as a menace to free speech and championed as essential to order at home during the war.

The president is expected to sign the bill promptly.

Northern Bulls to Keiser Herd.

L. Burgess, representing C. O. Keiser, the big Hereford breeder of Canyon, Texas, recently purchased from B. H. Bishop, State Center, Ia.; the five-year-old herd bull Standard 18th

Wash Goods

This season Cotton Dresses come into their own. They will be popular among the best dresses; therefore every woman should plan to include several in her Spring and Summer wardrobe. We have assembled

A WONDERFUL VARIETY OF DAINY WASH FABRICS

to meet the certain demand. There are Voiles, Foulards, Gingham, Crepes and other weaves in designs of unusual color combinations and attractiveness.

Your desire for Dresses of beauty and serviceability can be fully satisfied through a selection from this splendid showing which includes

PRETTY VOILES

No woman will make a mistake in choosing voiles for Spring and Summer clothes. And our showing is the largest we have ever made, for their variety is so great that every possible use can be made of them. Plaids, Checks, Stripes, Solid Colors and Floral Designs. Note especially the following popular prices 35c, 40c, 50c, 60c, to \$1.00 per yard.

Choice New Poplins

All in plain colors, which makes them so adaptable for every kind of dress as trimmings with other fabrics 25c, 35c, 50c per yard.

Get what you pay for

Even an expert cannot tell by looking at varnish whether it is adulterated. That is why it is so important that you should always buy varnish with the guarantee formula on the can.

DEVOE Vernosite—The Long Life Spar Varnish

The Guaranteed Pale Interior Varnish Marble Floor Finish

For outside work and all surfaces exposed to water, use Vernosite. It will not turn white from rain or sleet and the sun will not blister it.

For inside woodwork where extremely transparent varnish is required, use Pale Interior. It preserves the natural beauty of the wood, is hard to mar and won't scratch white.

For all floors inside use Marble Floor Finish. It waterproofs the wood, and enables it to withstand the severest wear and tear without marring.

Never take chances with varnish. Get Devoe and be sure. Remember, we guarantee satisfaction. Ask for booklet—"Seeing the Brighter Side."

PAINT DEVOE PAINT

by the champion Standard. Mr. Burgess purchased a number of other bulls, including the \$2,400 The Oak 327514 from W. T. Wright, Mt. Pleasant, Ia., and the four-year-old Harris Prince 282d from A. J. Whiting, Illinois City, Ill. The Keiser herd contains upward of 500 registered cows, a number of them imported.—American Hereford Journal.

Breaking In The Heifers.

I like to get heifers started in right and therefore I always insist upon milking them the first month or two myself. This is not because I enjoy having the bucket kicked out of my hands and milk spilled all over myself occasionally, but because I do not want any of my cows to acquire the kicking habit. While an unruly heifer, that steps around and uses her hind feet tries one's patience almost to the limit, the one thing not to do is to fight back with the milking stool. I have had better success when I take the calf away from the heifer shortly after it is born. I also follow this practice with the remainder of the cows. It seems no more inhuman to me than to let the calf run with its mother a few weeks and then take it away after a strong attachment for each other has been formed. After a calf runs with its mother for some time it will not learn to drink from a bucket so readily and the heifer will resent hand milking more. Sometimes I let the calf suckle once to get the colostrum milk so essential for moving its bowels the first time. If I do not do this I save the first milk and feed it to the calf from a bucket. Just previous to calving, a cow or heifer should not be fed too heavy a grain ration, nor should she be fed heavily for the first week or ten days afterwards. This is to keep back milk production so that the udder will not become too full. Often a heifer's udder and teats are sore, especially if she is a heavy milker. The first thing I do is to see that my finger nails are short and smooth. Then I go about it gently and if the teats are sore I rub on some carbolic vaseline which I always keep on hand. It is best to have the heifer in a stanchion next to the wall so that she can not crowd over to the left too much. She is sure to step around and may kick some, but the main thing is not to frighten her. As soon as she finds out that nothing is going to hurt her she will become more gentle and after a few milkings will stand quite still. If she is kicked back and pounded with a milking stool she may become almost unmanageable and become an habitual kicker, which future handling will not overcome. To make sure my heifers do not form this habit I break them in myself. I do not milk completely dry for the first few days. It is a good idea to milk often and not let the udder get too full. This advice is good for cows also. A heifer's first lactation, to my way of thinking, is one of the most important periods in her life. The habits she acquires at this time are apt to characterize her for life. After the first week I began increasing the grain ration and keep on until she is getting grain in proportion to the amount of milk she is giving. It may be wrong, but I like to encourage a long lactation period the first season. For this reason the heifers freshen in the fall or early winter. It is not hard to keep up the milk flow on grain and roughage for the first few months and then pasture comes in the spring and is changed to a system of dry feeding in the fall. I do not try to crowd them too much the first year, but simply keep them in milk until a month or six weeks before calving. When gentleness fails to break a kicking habit either in heifers or old cows I have found the best preventive is to have a ring in the nose and then tie a cord from this to the root of her tail. Every time she attempts to kick she will wrench her nose and she will not do it many times. This method is generally very effective in breaking the habit with habitual kickers and is not much bother.—Field and Farm.

Will Drag the Roads.

At the regular weekly luncheon of the directors of the Chamber of Commerce last Monday President McDonald appointed T. E. Huffman and Percy Welliver as a special committee to see the members of the Commissioners' Court and arrange with them to have the road of the county dragged after each rain. Monday afternoon this committee met with Commissioners Bennett and Parmer, and the result was that contracts were entered into with residents along the line of the through road between Farwell and Canyon and contracts made for the systematic upkeep of this road.—Hereford Brand.

The Kaiser is the only German who has six living sons in the Army.—New York Morning Telegraph.

The Season's Most Beautiful Silks

showing the newest patterns and colors in an array of wonderful beauty.

This is truly a season of silks! There is an unusual variety in both colors and kinds, offering to all a wide latitude of choice.

Immediate choice is recommended to all planning new garments for Spring and Summer, as selections are now at their best. Some specially favored styles are briefly mentioned below—take special notice of their moderate prices.

Foulards—Beautiful patterns in Gray, Rose and Blue in wide widths at \$2.25 and \$2.50 per yard.

Pussywillow Taffeta—40 inches wide, Blue, Black, Brown, Pink and White are the colors, price \$2.50 per yard.

Taffeta, for \$1.75 per yard—Plaids are shown, also solids in shades of Black, Rose, Green and White.

Silk Shirting—32 and 36 inches wide, an unusually good selection of patterns—at these prices \$1.75 and \$2.00 per yard.

Heavy Wash Satin, in white and flesh for \$2.25 per yard.

Georgette and Crepe de Chine in all the wanted shades \$1.50, \$1.75 and \$2.00 per yard.

A GENEROUS SHOWING OF NEW GINGHAMS AND PERCALES

Those who want Gingham Dresses this season should select them now, while our stocks are complete, for market conditions predict a shortage which will automatically raise these prices later on.

The following come in a wide color range and in many plaid, checked, striped and plain patterns.

32-inch Zephyrs at 25c, 30c, and 35c per yard.

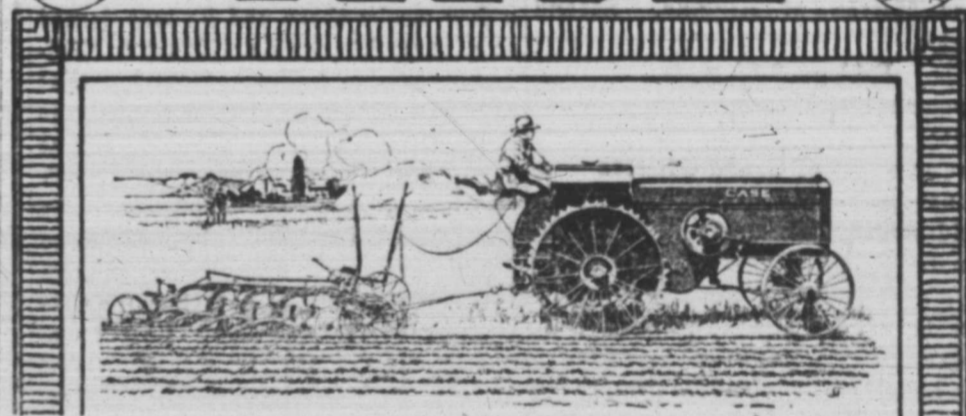

32-inch Devonshire for 35c per yard.

36-inch Percale for 25c per yard.

24-inch Percale for 15c per yard.

Others for 50c, 60c, to 80c per yard.

Madras and Waistings—A wide range of patterns are shown in these popular fabrics, 25c, 35c, 50c per yard.

Case Tractors Lead All Others

Case outfits are the most dependable. The Case is made for every sized farm, made in five different sizes. On account of the scarcity of farm labor this year it will be necessary for every farmer to own a tractor in order to keep up the production that the government expects from Randall county.

I have the Case Tractor agency in Randall county and ask you to call upon me for further information and demonstration of this tractor before buying.

A Living Wage for Farm Hands.

The American farmer is the victim of publicity. So many people have been crying that there is a great shortage of labor that the farmer is beginning to believe it himself. Two-thirds of the farm-labor shortage is imaginary and the other third can be remedied. Careful surveys by agents of the Department of Labor indicate that outside of truck gardens there is no shortage at present except in the South. Truck gardeners have been subject to unusual hardships by government contractors who have enticed laborers from surrounding farms to nearby cities instead of bringing them in from more distant points where there are large reserves of

idle men. It is true that there is a shortage of experienced farm help in many sections. There are, however, enough idle men in the cities to fill the gaps. Why then do they not go to the farms? The chief causes are low farm wages and poor working conditions. It is significant that in the states, where wages average \$50 to \$70 per month, there is no shortage of farm help. The shortage reports come from the states which pay \$15 to \$40 a month. The degree of shortage varies with the lowness of wages. Never in history have prices for farm products been so high. Many farmers claim that even at present prices they are not making

money. Be that as it may, any agreement which applies to the farmer applies to the farm hand also. If the farmer himself complains of living conditions when his market prices are doubled he can not expect his employees to exist on the same old wage.

We are suffering today for the sins of the past. There is hardly a sweat-industry in the country which offers so poor a future as farming. The rising price of land has made it almost impossible for the man without capital to set up for himself and has destroyed the incentive which would make an able-bodied man endure the long hours, low wages, and poor housing of the American farm. For a final solution we must deal with the whole farm problem in a fundamental manner. As a war measure, however, the farm must be made a more attractive place to work. Upon the farmers in those sections where there are labor problems I urge an immediate betterment in the wages and working conditions of the farm worker. Higher wages he must have—\$45 per month with board and lodging should be the minimum. Permanence of employment is needed and this means no more hiring by the day. Shorter hours are needed; this means no more sun-to-sun days. A man will do more and better work in 10 hours than he will in 14. Finally, better housing and better food are needed. These are the things the government expects from the farmer. Now what can the farmer expect from the government?

The government is prepared to assist the farmer to the limit of its power. Up to the first of the year 57 farm-labor offices had been established by the labor department; 78 more have been added. Farm-labor specialists are already on the ground in 44 of the 48 states. All third and fourth class post offices have been authorized to act as farm-labor agencies, and daily newspapers and commercial organizations have been asked to establish farm-labor agencies under the United States Employment Service. The labor department has solved the problem of labor for shipyards; it is prepared to deal similarly with the problem of farm labor. It is prepared to protect the farmer against the inroads of the government

ALL PHONOGRAPHS IN-ONE

A Phonograph Sensation

Our announcement of the new Brunswick Method of Reproduction brings city-wide interest

IT APPEARS that every music lover has been waiting for such an instrument as the new Brunswick—America's latest musical triumph, made by The Brunswick-Balke-Collender Co.

People say that our claims for it are too modest. The Brunswick Method of Reproduction is so much better, so far superior that praise is indeed fulsome.

You, too, must hear this remarkable new instrument. You can't appreciate the great advance it represents until you hear it.

You'll be delighted with The Ultona, which plays every record, and with the Brunswick Amplifier.

These two great inventions make The Brunswick the most perfect phonograph ever conceived. As you'll agree. You've never before heard such natural tones. All previous conceptions of good tone will be changed.

Come in today. Join the most critical music-lovers in town. Hear this super-phonograph.

Let us play the most difficult selections, such as piano or orchestral records, and you'll be amazed.

contractors, who sweep small areas bare of workers. If the farmer will do his part the government will do its part. What we need now is less agitation about putting women on the farms, less talk about the importation of Chinese thousands of miles away, and more team work and mutual confidence. There are plenty of able-bodied men in America to farm American farms and the department of labor will see that they get there.—Louis F. Post, Assistant Secretary of Labor.

Siftings.

The difference between the patriotic American housewife and the one who is different or disloyal is measured by the amount of wheat flour in her kitchen.

We have had the fool-proof match for some time past in the shape of the so-called safety match, but now comes Louis V. Aronson, head of a Newark metal manufacturing concern, with a match that can be lighted on any surface, wet or dry. He says the rights for the match have been turned over to the United States government for the duration of the war. If the match carries out the promises of its inventor, think of the joy of the soldiers with a match that is put out neither by wind nor rain, but that becomes cold and incapable of causing fire the moment the light is extinguished.

We know that the blue stars in the service flag each represent one man, but two stars are causing question. One is the gold star which is substituted for the blue star when a man gives his life for his country. The other is the silver star which replaces the blue star when a man is honorably discharged as no longer physically fit for service.

Fifteen hundred Armenians, survivors of the many thousands driven by the Turks 2-4 years ago into the wilderness east of the Jordan, have been found making their way toward Jericho, the town recently captured from the Turks by the British. The exiles, who were from the cities of Adana, Kharne, Marash, Aintab, Urfa have been forceably compelled for months by Ottoman troops to break stone on roads. They are being brought to Jerusalem in British motor trucks. Six thousand Syrian refugees from Les Salt, 22 miles north of the Dead Sea, are expected to arrive in Jerusalem soon.

The end of the war will come when the German people really learn how

their soldiers have been slain in countless numbers, and when they realize how the world feels toward the German nation, is the opinion of Sir Ernest H. Shackleton, the Antarctic explorer, who has arrived in New York from South America. Referring to the situation in South America the explorer said, speaking unofficially that the whole action of the government of Argentina was pro-Ally. "Chile," he said, "absolutely neutral. There is a much larger pro-German element in Chile than in the Argentine, but in the last election the pro-Germans put up for deputies were overwhelmingly defeated."

Miss Agness Nester, president of Chicago Women's Trade Union league, and a member of the American labor delegation is now in England visiting the various large industrial centers and particularly the munitions factories. From England she sends word to American women that they must bring to the aid of the allies every resource at their command. Her message in part reads: "What English women, particularly the girls shall not fall beneath the heel of might and militarism is the biggest thing in the

world. What has impressed me most next to the fact that they are doing wonderful things was the look of determination and gladness because they can help, that you find in every woman's eyes. It is strange sight at first, to see these thousands of girls gladly working in the ammunition factories. But when you get near them, and understand them it is almost too good to be true."

Kaiser Karl lies very poorly for a Teutonic monarch, but one must remember that he is still a fairly young man.—Chicago Herald.

Normal Notes.

In the Junior contest last Tuesday Wyatt Hester was selected as the Junior's Class Day representative.

Fourteen pupils of the sixth grade in the training school, went to the canyons Monday, on a picnic. They were chaperoned by Misses Cooper and Goodrich.

Misses Viola Knox and Ruth Butterfield, who are now teaching at Wayside visited home folks in Canyon over Sunday.

Plainview High School played the Normal in a baseball game Monday. The score was 2 to 1 in favor of Plainview.

Mr. John Payne went home last Saturday to visit his brother who is home on a furlough.

Mr. Bryan Durham of Snyder is visiting friends in the Normal this week.

Custer Service is back from an over-land trip to Austin, via Fort Worth and Dallas. He visited the military camps and aviation fields near these two cities. Custer says

the country is prosperous and the people are highly patriotic.

Last Saturday night the Normal auditorium was crowded by people who came to see the annual gymnasium exhibition given by Mr. Blaine's special class. This exhibition proved to be the most enjoyable one ever given in this institution.

Miss Happy McAfee spent Wednesday with friends in Canyon.

Lester Vick, who left school last spring to join the navy, spent Wednesday with friends in Canyon. Lester has been "across" three times and will be off again as soon as his transport, which is in for repairs, is ready.

Thirty of the Sophomores went to the canyons Monday, chaperoned by Miss Boulware.

Miss Maude Williams, who has been teaching near Happy, is visiting with friends here this week. She intends to return to her home at Snyder Saturday, but is coming back for the summer term.

Mr. Bud Bodenhamer of Wheeler visited school Tuesday.

Misses Mildred McManigal and Mil-

dred Zaellers spent Sunday and Monday at their homes in Happy.

Mrs. Buby Cunutt of Quanah has been visiting her niece, Iva Croson, for a few days.

Miss Anna Butterfield, a former student of the Normal, who has been teaching at Ochiltree, returned to her home last Saturday.

Miss Dewey Gibson who has been teaching at Hansford, returned home Sunday.

Miss Ruby Payne visited friends in Canyon last Sunday.

At a contest held last Wednesday for the purpose of securing a class day representation for the Sophomore class, J. E. Dockery was chosen.

The following is the number of Normal students attending the various Sunday Schools on last Sunday:

Methodist—Girls 31, boys 5.

Baptist—Girls 22, boys 17.

Presbyterian—Girls 12, boys 7.

Church of Christ—Girls 4, boys 3.

Miss Artie Vaughn spent Sunday and Monday at her home in Tulia.

Rev. Charlton of Dalhart visited in chapel Tuesday morning.

Mr. Mark Buck of Childress, spent the week end with his niece Miss Mildred Falls.

Rev. and Mrs. B. U. Dickerson, of Bovina spent Tuesday with her sister, Camilla Patton.

Lieut. John Younger of Call Field, Wichita Falls is home on a ten-day furlough. He visited chapel Tuesday morning and gave an interesting talk on his experiences as an aviator.

Misses Rambo, Hibbetts, Brown and Aiken spent Monday in Amarillo.

Wayside News.

Glad to report some more rain has visited our section, began falling last Friday morning very gently. Not a good season yet, but a good beginning. Still cloudy. We hope for more soon.

Rev. C. D. Potts of Wildorado, Baptist minister preached for us Saturday night, Sunday morning and again at night. Every one seemed to be well pleased with his preaching. Trust he may see fit to visit us again.

J. C. and Miss Ruby Payne, Flora Carter, and our teachers at Wayside Misses Viola Knox and Ruth Butterfield made a visit to Canyon Sunday. She reports a good time.

R. E. Brooks and wife left Thursday for an inspection of their new ranch near Stratford, returning home Sun-

day. They will probably move some time soon.

School at Wayside will close soon with an entertainment at night. Date will be announced next week.

Guy Carter of Wayside has been in Camp Travis a week. Reports a sore arm from vaccination, but is liking army or camp life very well.

The pretty custom of "hanging May baskets" has come round again.

The no one who has been to France and young people are having merry times seen the effects of it comes back wanting to make peace on the Kaiser's terms.—Detroit Free Press. Those that don't come back have peace on the Kaiser's terms.—St. Louis Star.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected

All over Canyon you hear it. Doan's Kidney Pills are keeping up the good work. Canyon people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Canyon citizens advice and give Doan's a chance to do the same for you.

Samuel Ash, retired farmer, Evelyn and Ninth Sts., says: "My back was weak and ached and the kidney secretions passed too frequently and I had to get up at night. The first box of Doan's Kidney Pills, procured at the Holland Drug Co., helped me and I continued using them until cured. I have noticed but few symptoms of kidney trouble since using Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ash had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

STOP LOSING CHICKS FROM DIARRHOEA

PUT THIS IN THE DRINK WATER

Some people lose half of every hatch and seem to expect it. Chick cholera or white diarrhoea is the trouble.

This loss is needless and easily stopped, by putting Avicol in the drinking water. We prove it by this offer:

Call at our store for a 25c or 50c package of Avicol. If you don't find that it promptly stops your chicks dying, cures white diarrhoea, black-head in turkeys, and all other bowel diseases of poultry, your money will be refunded.

Avicol revives the drooping chicks and helps them grow and develop rapidly. Shows positive results in 48 hours. Easily used and inexpensive.

ALLIES DEMAND MORE CEREALS

American Meat Restrictions Relaxed to Effect Greater Wheat Savings.

ARGENTINE ARRIVALS SHORT.

Meat Supply Here Considerably Enlarged — Food Administration, However, Warns Against Waste.

The allies have made further and increased demands for breadstuffs, these enlarged demands being caused to some degree by shortage in arrivals from the Argentine. It is, therefore, necessary for the U. S. Food Administration to urge a still further reduction in the consumption of bread and breadstuffs generally if we are to meet our export necessities. The Food Administration has issued a statement explaining the situation which lead it, for the purpose of centering effort for the time being upon the cereal situation to relax temporarily the restrictions on meat consumption.

Experience shows, this statement says, that the consumption of breadstuffs is intimately associated with the consumption of meat. For various reasons our supplies of meat for the next two or three months are considerably enlarged, and we can supply the allies with all of the meat products which transportation facilities render possible and at the same time somewhat increase our own consumption. In these circumstances the Food Administration considers it wise to relax the voluntary restrictions on meat consumption to some extent with a view to further decreasing bread consumption.

Conservation of food must be adjusted to meet necessities from time to time, for neither production, nor aided demands are constant factors, nor can any of these factors be anticipated for long periods in advance in the disturbed conditions in which we at present live. While the world situation is not one that warrants any relaxation in the efforts to eliminate waste or to relax economy in food, the Administration desires to secure better adjustment in food balances.

So long as the present conditions continue the only special restrictions we ask are the beefless and porkless Tuesday.

The meatless meal and the porkless Saturday are no longer asked.

The farmers of the United States are responding to the national call to increase hog production. Their increase, to all appearances, is being attained more rapidly. Of more immediate importance, however, are several complex factors which have effected an immediate increase in meat supplies.

The transportation shortage before the government took over the railroads, the bad weather in January and early in February, the large percentage of immature corn in the last harvest and the necessity of feeding this corn as rapidly as possible to save it from decay, have not only resulted in backing up the animals—particularly hogs—on the farms for a longer period of feeding, but have resulted in a great increase in their average weight and will result, with improved transportation conditions, which already appear, in larger than normal arrivals at market for the next two or three months. The weight of hogs coming to the market for the past two weeks indicates an increase in weight of from an average of 203 pounds last year to the almost unprecedented average of 232 pounds, or a net increase in their meat value of over 15 per cent. This is a distinct addition to the nation's meat supply. It therefore now seems certain that we have such enlarged supplies for at least some months to come, that we can not only increase our exports to the allies to the full extent of their transportation facilities, but at the same time can properly increase our domestic consumption.

The response of the public to our requests for reduced consumption of meat during the past few months has been most gratifying, and this service alone has enabled the government during this period to provide such supplies as transportation to the allies permitted.

The Administration also suggests that in those parts of the country where the old fashioned home preservation of pork is still the custom, this practice should be extended at the present time, as it will relieve the burden upon transportation to and from the packing houses and is economically sound as saving the cost of packing operations and at the same time will provide home supplies of pork to last over the months of decreased supplies.

The Food Administration desires to repeat that it does not want to give the impression that these are times when simplicity and moderation of living are not critically necessary, but that its sole desire is to secure an adjustment between our different food supplies and meet changing conditions from time to time and to keep the public fully and frankly advised of its position with the full confidence and reliance that whenever it becomes necessary renewed appeals for saving will meet the same loyal response as in the past.

YOU BET YER LIFE!

There is some talk of circulating a petition among the women asking them to wear gingham dresses till the end of the war. But it will take a brave man or else a very foolish one to present that petition. About the first sister approached on the subject will want to know what the men are going to give up. Whether they are willing to cut out all booze, tobacco, soft drinks, and a lot of other foolish and expensive habits. If there is to be a race for economy between the two sexes, the advantage is altogether with the women.—Quantah Tribune-Chief.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, 30c.

A Real Patriot.
J. F. Collins, of west of town, has rendered the most patriotic service of all the Liberty Bond buyers in this section. Mr. Collins wished to make an investment in bonds, but as crop conditions in this county have not been the best during the past two years he was not financially able. After thinking about the matter, he applied for a \$500 loan on his farm, the loan was made and immediately invested in Liberty Bonds by Mr. Collins. Those who have money in the bank and invested it in Liberty Bonds are doing a patriotic service, but their service is as nothing to compare to the sacrifice Mr. Collins is making, in mortgaging his farm to help humbly the Hun.—Arnett (Okla.) Capital.

The Most Beautiful Car in America

The Car of Your Choice

It is a well known fact that a shortage of motor cars is inevitable. Already there have been substantial curtailments in production and the freight situation has made deliveries extremely difficult.

So now is the time of all times to buy the car of your choice. If you put the matter off too long you may have to compromise on "any car" that is available. And that is never a very satisfactory way to solve your automobile problem.

If you are like the average intelligent American, you have already decided what car you prefer and can afford to purchase. Quite naturally, we hope that your choice has been a Paige. But, at any rate, be sure to buy the car that you believe in—and buy it immediately.

In the field of mechanical products, the Paige nameplate stands as an unquestioned guarantee of honest manufacturing and fair dealing. It is a hall mark of quality—a symbol of our obligation and the confidence and respect which our product enjoys.

We ask you to buy that nameplate—rather than four wheels and a painted body. We ask you to buy a reputation that has endured through many fitful periods in the motor car industry—a reputation that will endure so long as Paige cars are made for and sold to the American people.

WHAT IS WORSE THAN WAR?

Consumption Four Times More Deadly Than Bombs and Machine Guns.

Pierre Hamp, a French medical authority, estimates that of the 38,000,000 people of all ages still living in France 4,000,000 must die of tuberculosis. The war will have killed about 1,000,000. This means that man with all of his inventiveness is far less efficient than Nature as a man killer. There have been over 400,000 new cases of consumption in France since the war began. This is why, despite the number of new hospitals, there is still not sufficient space available for tuberculosis cases.

The Question of Pensions.
Of course first consideration is accorded to the ever popular wounded men. Therein lies the tragedy of the consumptive soldier. With the new cases coming in daily from the trenches the consumptives are not as helpless as the wounded men. When discharged from the army the severely wounded are allowed a pension by the government. The consumptives, however, receive no allowance unless they can prove that their illness is entirely due to their service in the army. This is not an easy thing to do, and consequently comparatively few consumptives receive governmental assistance.

Until the American Red Cross began to extend its aid the plight of most of these men was often pitiful. When discharged from the hospital they are given certain instructions which would eventually bring them back to health. But conditions are hard. They are usually unable to earn much and so do not get proper or even sufficient nourishment. Very often they are in no condition to look after themselves, still less to safeguard the health of others. To meet this difficulty local committees have been formed to look after the discharged patients and see that they do not pass on their disease to members of their families. The task is well nigh hopeless. Even if proper living quarters are to be had, sanitation and hygiene cannot be taught overnight. They sleep in air tight rooms, kiss their babies, drink out of the same cups and use the same towels as the rest of their families.

In spite of these appalling difficulties, however, the rapid spread of the disease must simply must be checked. Even to attempt this would be an impossibility without the tremendous facilities and aid of the American Red Cross. No other agency could conceivably face, much less hope to accomplish, such a task.

The Randall County News

Incorporated under the laws of Texas
C. W. Warwick, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

The tone of the British rulers and leaders is very much different now than when America first entered the war. America is not to blame for having no more soldiers ready for the trenches than we have. All of the Englishmen were positive in their statements that America could not put and maintain a large army in France owing to the distance. They advised sending only munitions. France asked for men, and we have sent twice as many as France thought was needed. Now the cry is for men and more men at once. America is looked upon as the only nation that can furnish the proper number of men to finally whip the kaiser. The job of the past year has been phenomenal, but it has been well done and the stage is now set to make this peaceful democracy into a war machine that will overthrow super-structure of the kaiser and his agents.

Some counties report that the Liberty Loan campaign was hard with them because so many oil well grafters were working on the people and pulling the money out of the counties. Randall county has not been troubled much with such pests. Backing the government at 4 per cent on Liberty Bonds and War Savings Stamps is a better and safer proposition any time than the average oil well, but right now, of all times, the demands are that every man shall do his duty to his country and let speculating rest until the big job of the day is accomplished.

Every county in West Texas where there was such a bad drought last year came up in full with its Liberty Loan quota. Every county subscribed a little more than the government asked. That's the kind of patriotism that counts. A man that will put his money up for the government when he sees no prospects for a crop for a year, and made no crop the past year is a whole souled patriot. Randall county was not in the drought district last year. Every one here made money. Therefore there would be no excuse if we failed in bringing up our quota on any of the demands of the government.

It looks very much like a cash basis would be necessary for every kind

Get the non-producers and loafers is the demand of the day. Let the pool-room shark and the street corner artists be taken to the training camps is the program for all local exemption boards. Randall county has none of these classes. We are sending real men to the army. But it takes real men to win wars.

The trouble has been that most people have run credit on their necessities and cash for their luxuries. That must change. If this country is to finance the war our people must pay cash for necessities and cut out all luxuries. Luxuries always come high. They are intended to be higher than necessities. The more expensive the luxury, the bigger the demand. But times have changed and Americans must live on staples and necessities.

Ferguson has filed his application for a place on the democratic ticket. He is on the stump working hard on the prejudices of the people as he did in his first campaign. But Jim lacks a whole lot being on the ticket and if by mishap he were elected, he would have a hard time getting into the governor's office. If this were possible, why have a constitution or laws. Let every man be a law unto himself.

The attorney general has ruled that women living outside towns of 10,000 population will not have to register in order to vote in the primary election. Accordingly the women of Randall county need not register and no provision will be made for registration. The candidates will be uncertain as to how many women voters to expect up to primary day.

Secretary Baker is making plans for a big army, and that at once. It is necessary for America to throw her full force into the war. Let it be done at once, and thus end the carnage which has been going on in France for nearly four years.

The News stated last week that it was going to rain and turn warm—both of which came true in spite of the fact we didn't know anything about weather forecasting. And it is going to rain more one of these days. It will come in time for the big row crop Randall county is expected to raise.

The war department has called for 325,000 men to go into the training camps by May 25. Randall county will probably furnish between fifteen and twenty of these men.

Go to work or go to jail.
Come to Canyon to live.

HOT DRINKS FOR TIRED FIGHTERS

The Red Cross Rolling Canteen.

In six months the American Red Cross supplied a million French soldiers with hot coffee, tea, chocolate, bouillon, at the time they needed it most—just as they were entering the communication trenches for a tour of duty under boche fire or coming out, tired and worn, after their grueling vigil. If you were dragging the tired pair of feet in France through the mud, and if you were greeted by a cheery voice and a steaming pint of beef tea, wouldn't it be "a grand and glorious feeling"? Oh, boy!

Now, this is the work of the "rolling canteen," and some day a Kipling will sing "the story of the tanks"—tanks of broth and bouillon that the Red Cross "Special Front Line Service" trundles up to the lines. The Military Sanitary Service supplies the wagons and utensils. The Red Cross unit does the work. It supplies these hot drinks at a cost of 50 francs (\$10) per thousand men, a cent apiece!

Think of that—the penny your little girl sends the Red Cross can buy a big hot cheering drink, a good natured greeting, for a fighting man who desperately needs just that! One penny!

Red Cross Rolling Canteens to the number of 15 are now behind the lines in continuous service. Their crews are exposed to shell fire and often have to put on gas masks.

Eugene Hale, brother of United States Senator Hale, served six months with a rolling canteen in France, and he says:
"While the men are glad to have the hot drinks, their chief satisfaction consists in the sense this service gives them of a friend being there with a helping hand in a critical hour."
And now the American army has asked the Red Cross to maintain this front line service directly in touch with the medical relief stations nearest the Yankee front and this the Red Cross is eager to do.

Specials For Trades Day

MONDAY, MAY 13

Merchandise is advancing every day. We are not advancing our prices as we should do. Merchandise every day is getting scarcer, notwithstanding all of this, we are going to give you

10% OFF

on every dollar, in our dry goods department. This will be your last chance to buy Dry Goods at these prices.

BURROUGHS & JARRETT

LOCAL NEWS.

Mrs. J. E. Rogers visited at the home of her daughter in Amarillo on Saturday.

Rev. R. A. Stewart was in Amarillo Friday to hear the war talks made at the Methodist church.

Grady Oldham was a business caller in Amarillo Friday.

Miss Winnie Mae Word was in Amarillo Saturday.

Miss Pearl Jeninks visited at her home in Amarillo Tuesday.

Light and heavy draying done very promptly. Call No. 6, J. F. Hughes Transfer Co.

Mrs. O. P. Kiker and son were in Amarillo Tuesday to meet Mr. Kiker.

See me about land loans
S. B. McClure.

L. G. Conner and Miss Ernee were in Amarillo Saturday.

J. A. Wallace is out after a severe attack of the mumps.

The Woman's Book Club met at the home of Mrs. Guenther for the final program of the year. A most interesting program had been arranged by the committee, Mesdames Guenther, Hill and Clark. Mexican music, consisting of duets and vocal solos were given by Mrs. Clark and Miss Brigham, followed by two papers read by Mrs. Guenther and Mrs. Hill. Two little girls, Anadel Guenther and Annie Morris, dressed as little Mexicans served hot tamales, coffee and wafers. Then an exhibit was shown of linen work, bead work, drawn work, lace, and basket weaving. It proved to be one of the most enjoyable afternoons spent by the Club this year.

If you have auto regrets, try Wilson Garage for a remedy.

Methodist Church Announcement.
Sunday School at 9:45.
At the 11 o'clock hour the commencement sermon of the High School will be preached by Bro. Stapleton, pastor of the Presbyterian church.
Junior League, 4:00.
Senior League, 7:45.
Evening services, 8:45.
Prayer Meeting, Wednesday, 8:45.
R. A. STEWART, Pastor.

LOCAL NEWS

Misses Rambo, Brown and Hibbets visited in Amarillo over Sunday.

Mrs. G. R. Reid was in Amarillo on Monday where she moved her daughter from the sanitarium to the home of another daughter. Miss Francis was operated upon three weeks ago and has been recovering very nicely since that time.

Try our gas.—Wilson Garage.

H. P. McNeil was in the city Monday on his way from his home in California to Missouri where he will visit at the home of his daughter, Helen, who was married some time ago to a young man by the name of Mills. Mr. McNeil and family lived in Randall county until four years ago when he moved to California. He reports that Mrs. McNeil's health has not been good for some time.

Randolph Carter went to Corpus Christi last week.

Carl Laughery spent last week in Amarillo. He is now working at the Vetesk market.

LOCAL NEWS.

The Canyon Sammies will play on the streets Monday afternoon for the last time of the season.

Rev. J. S. Stapleton went to Amarillo Tuesday to meet Mrs. Stapleton and daughter on their way from Springfield, Mo., to Canyon. They will be located in the Presbyterian manse which has been newly papered and modernized for their occupancy as soon as their household goods arrive.

Rev. B. F. Fronbarger and sons are on a business trip, over in New Mexico this week.

Luther Fronbarger was in Amarillo last week where he took the law examinations to enter the profession.

Don't fail to buy your gas at Wilson Garage.

Hosea Foster, the youngest son of Mr. and Mrs. G. G. Foster, was taken to Amarillo Tuesday where he was operated upon for appendicitis. He was doing nicely from the reports made this morning.

R. McGee has traded J. A. Hill the Schulenburg house near the Normal for the two houses just across from the Guenther home.

The food administration has taken over all of the flour in the stores of Ft. Worth for shipment to France. The administrator of Randall County, C. R. Flesher, has received no notice that this action will do made here.

Mr. and Mrs. T. V. Reeves and Mr. and Mrs. C. H. Jarrett were in Amarillo Sunday where they heard Lieut. Kersley speak at the Christian church. He was an English officer direct from the front and told a wonderful story of the war and its meaning.

Lieut. John Younger is here from Wichita Falls on a ten-days furlough. He is in the aviation corps and likes his work fine.

Where you get service.—Wilson Garage.

Joe Foster has just had his car repaired at the D. & Y. Furniture Co., which makes ten-car owners who have been highly pleased by the work of the painting department of this company.

J. L. McReynolds returned Tuesday from Corpus Christi where he has been spending several months on account of poor health. He says he is feel much better than when he went to the south.

Buy your tires from us and save money.—Wilson Garage.

Mr. and Mrs. R. A. Wederbrook of Hereford visited here a few days at the parental John Knight home on their way home from Levensworth, Kansas.

Rev. B. F. Fronbarger was a business caller in Amarillo Thursday.

LOCAL NEWS.

Attempted Assassination Near Dermott

Our country came near being shocked this week by another case of assassination. Thell Browning a good citizen of the Dermott district, a man who stays at home and quietly attends to his own affairs was called from his bed about 3 o'clock last Tuesday morning and when he appeared at the door of his home a man standing at the yard gate with a handkerchief over his face fired two shots at him but both missed him and lodged in the wall of the house. Browning secured his own gun and fired twice at the assailant as he made retreat and thinks the second shot hit the fellow. There was blood found on the ground next morning, but the assassin had escaped.

It is suspected the fellow had a confederate close about. Sheriff Merrell and others are working on the case and it is understood that a certain party is suspected, but no arrests have been made up to Wednesday.—Snyder Signal.

Drives Out Malaria, Builds Up System

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 6c

THE ORTON STORES

Umberger Notes.

The farmers are happy to report that another little shower fell the last part of last week. They are expecting to make a good crop.

Mr. and Mrs. Ludwig Brandt from Nebraska City, Nebr., are staying at Umberger now. They expect to make Umberger their future home.

Clint Abbott and family visited at the Williams home Sunday.

E. J. Friemel has drilled two new wells on his farm.

Ernest Weynard was a business caller in Amarillo—Wednesday.

John Bedek, Joe Beckman, George Frank and B. J. Hless drove to Amarillo Thursday.

A great many folks from Umberger were in Canyon Thursday.

Miss Francis Beckman who has been attending school at Amarillo returned to her home Monday.

Whooping cough has been spread to a few more families in Umberger.

Mrs. Anton Beckman has been sick the last few days.

ONE HUNDRED MERCIFUL MILLIONS

By HERBERT KAUFMAN

ONE Hundred Millions for the Red Cross and not one penny of it for red tape.

The mightiest charity, the noblest and broadest volunteer movement of history.

The Red Cross shares no enmities, serves no flag but its own. It is God's agent, His healing, merciful will—the answer of twenty ever-gentler centuries to red barbarism.

Twelve million orphan children are wandering about Europe—twelve million frightened little boys and terrorized little girls, sent adrift to sob alone and perish in the wastes—to live like swine and die like curs, unless magnificent America ransoms them from death—and worse.

How many of your pitying dollars will search the desolations and save them for Tomorrow's works?

The Red Cross needs another Hundred Million, to glean the battle areas for this precious seed before it rots in mind and body—before grief and horror and disease and unrestraint irrevocably blight them.

One Hundred Millions to prevent famine and stifle pestilence, to stamp out hideous fevers, to check an earth-wide wave of tuberculosis, to destroy shuddering filths where verminous plagues feed and breed and threaten all the universe.

One Hundred Millions to found hospitals and build rest stations, to send nurses to the Front and refugees back, to forward surgical units and furnish artificial limbs, to buy medicines and operating instruments, to re-educate the mutilated and show the blind where Hope still shines.

One Hundred Millions to maintain communication with detention camps, to provide war prisoners with food and decencies, to take messages out and bring letters in, to negotiate comforts and privileges for the captured, to buy blankets for them and clothes and books and tobacco.

One Hundred Millions for No Man's Land—for stretchers and ambulances, for anesthesia and bandages and antiseptics; to train nurses and orderlies, to outfit and transport skilled specialists, to make sure that a dear one shall have a clean, sweet cot and a sweet, clean girl from home beside it.

One Hundred Millions to keep the world sound and wholesome, while the armies of Justice hold it safe.

**GIRLS! LEMON JUICE
IS A SKIN WHITENER**

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so the lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Round Trip All-Year Tourist Fares to the following Texas Points:

Arkansas Pass, Brownsville, Corpus Christi, Freeport, Hubbard City, Laredo, Martin, Mineral Wells, Palacios, Port Lavaca, Port O'Conner, Riviera, Rockport, Seadrift.

Tickets on sale daily. Limit 90 days from date of sale. See or Phone me for further information.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanses little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

BRIEF WAR NEWS.

Still another day has passed without the Germans on the western front attempting to begin a new phase of their offensive. Everywhere along the line, there have been artillery duels, at some points of considerable intensity, and the allied armies are lying in their positions waiting with expectancy, and also with perfect confidence, the blow that they realize soon will fall at some point in Flanders or Picardy.

Nowhere have there been any infantry operations which arose in importance above raids. Southwest of Arras, near Neuville-Vitasse, the Canadians Monday night carried out a successful stroke, killing a number of Germans and capturing three machine guns. The French in the Amiens sector also were successful in a similar maneuver. In addition, they repulsed an attempted German attack.

Doubtless the heavy ground due to the rains is holding back the preparations of the Germans, for it is no easy task to move up men, guns and supplies over the morass in the shell furrowed territory to the front. Meanwhile the allied line everywhere is being reinforced to meet the enemy when again he unleashes his infantry forces. The Americans are taking a prominent part in this strengthening of the line. M. Clemenceau, the French premier, who has just returned to Paris from a visit to the battle front, is authority for the statement that American troops are continuing to arrive in the battle zone in force.

An indication of the heavy fighting the British are being forced to withstand is contained in the list of casualties reported during the week ending Tuesday. The list shows a total of 38,691 of which 6,555 officers and men were killed or died of wounds.

In the aggregate the casualties are the heaviest reported in any single week of fighting. It is probable, however, that the figures do not represent losses on the western front alone, but also take into consideration the men killed, wounded or made prisoners in the Turkish and Macedonian theatres, where recently there has been intensive fighting.

So far our air program seems to have been of the hot variety.—Brooklyn Eagle.

A NERVOUS WRECK

From Three Years' Suffering, Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

"I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep, I became a nervous wreck just from the awful suffering with my head."

"I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties."

"I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui."

"Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

OUR MEN TRAINED BY RIFLE EXPERTS

SOLDIERS IN TRAINING CAMPS TAUGHT HOW TO USE AND CARE FOR WEAPONS.

BRITISH COMMUNAL KITCHENS

They Prove Successful in Saving Food and Fuel—State Councils of Defense Will Advise War Risk Claimants.

(From Committee on Public Information.)

Washington.—The National Army and many organizations of the National Guard having been equipped with the United States rifle, model of 1917 (modified Enfield), it became necessary to devise some plan whereby troops could be efficiently trained in the use of this weapon in short time.

A statement authorized by the ordnance department tells how experts in shooting, many of them members of United States teams which won international shooting matches, were commissioned and sent to various camps to instruct officers and men in shooting and in the operation and care of the rifle.

In one camp officers under instruction from these men gave a demonstration in dismounting and assembling this rifle while bilfolded, the record time being 7 minutes for dismounting and 22 minutes for assembling. There are 33 parts to the rifle, classes, the mechanics being trained to make repairs to rifles in the field. Frequently they will have to do their work at night, when they will not be allowed to use lights, and therefore they must be thoroughly trained in taking down the rifle and putting in new parts by sense of touch.

Communal kitchens are being established throughout Great Britain and are proving successful in saving food and fuel, according to reports to the department of commerce. An article from a recent issue of an English newspaper is quoted:

"The war has brought home to the public that the communal or national kitchen is a necessity and can be made a success. Within a comparatively short period there will probably be installed many hundreds of these establishments throughout the country. The communal kitchen was originally intended to supply poor people with nourishing and attractively prepared food at low prices, but there is considerable prospect—certainly, in fact—that the more prosperous will form a fair proportion of the customers."

"As an example of the outfit of a people's kitchen that Mr. Hammersmith (London) may be taken as a model. This supplies about 6,000 customers a week, which probably represents 12,000 to 15,000 consumers, as a customer commonly purchases for his or her family."

The council of national defense has urged the state councils to provide voluntary aid for dependents of men in the service, in collecting arrears of pay, travel pay, extra pay, or other money due estates of deceased soldiers and sailors.

Allowments and allowances under the war-risk insurance law are paid directly by the treasury department to the persons entitled thereto; claims for insurance taken out under the law should be addressed to bureau of war-risk insurance, treasury department, Washington, D. C.; claims for arrears of pay, extra pay and travel pay of deceased soldiers and sailors and all other claims should be addressed to auditor of the war department, Washington, D. C.

Consul General Thackara, at Paris, cables: "A decree of April 5, published April 6, gives notice that all merchandise prohibited from importation by law of May 6, 1916, will be seized and sold for profit of the state unless a regular import authorization be presented within five days after arrival. For first 30 days after promulgation of this decree requests for derogations from its provision can be addressed to the minister of finance, in case particular circumstances justify an exception."

Two per cent of the enlisted personnel of the divisions and detached units of the regular army, National Guard, and National Army, excepting the coast artillery and various staff corps, will be designated to attend the fourth series of officers' training schools, which will open May 15. Admission has also been granted to some men who have had at least one year's military training under army officers at educational institutions which have earned government recognition.

Night driving of motor-truck supply trains from the West to the seaboard has been started by the quartermaster's department as a step toward final training to fit men for service in France.

According to the council of national defense, the experience gained in cross-country convoy work has made the truck companies able to travel entirely independent of the countryside. Camps are made at the regular hour, no matter where the company is located, except that open country is given preference over cities.

Optical glass equaling the product of European manufacturers, from whom only it formerly could be obtained, is now being produced for military use by the bureau of standards of the United States department of commerce and several privately owned factories. One shipment from the glass factory in Pittsburgh, for use by the navy department, contained 750 pounds of high-grade optical glass—enough to provide lenses for probably 750 binoculars.

Development in glass manufacturing in the United States has been similar to that of dye making. Before the war manufacturers of optical goods in this country were content to import all their glass from Europe, themselves doing only the grinding, polishing, and mounting. European glass factories, one of the three largest being located in England, one in France, and one in Germany were closely guarded to protect secrets of the trade sometimes a century old. It was considered impossible to produce efficient glass without formulas and factory processes developed by many years of experimentation.

One of the problems facing the bureau of standards when, with optical companies in America, it started to replace with locally made products the supply of European optical glass which had been cut off by the war, was to provide suitable pots for melting. In one process of its manufacture the glass must be kept at temperatures as high as 2,000 degrees F., when it would rapidly dissolve a container made of iron, steel, or other metal. Pots now being used which satisfactorily withstood the heat and chemical actions of molten glass are made of clay found in the United States.

In addition to the factory operated by the bureau of standards at Pittsburgh, several privately owned companies are now furnishing optical glass for military use in telescopes, binoculars, field glasses, periscopes, and other technical and scientific instruments.

The quartermaster corps, charged with the responsibility of feeding and clothing the soldiers, is rigidly inspecting the food purchased for the troops to see that only the best is supplied. As an indication of the amount of food that must be obtained, says a statement authorized by the quartermaster general, 1,500,000 men consume daily 2,500,000 pounds of beef, 225,000 pounds of bacon, 210,000 pounds of ham, 135,000 cases of tomatoes, and 225,000 cans of jam—with other articles amounting to 6,750,000 pounds.

These quantities of foodstuffs are subjected to thorough inspection, which begins at the source and continues until the food is actually consumed. Each depot of the quartermaster corps has a central subsistence business of its own, supplying the camps, cantonments, aviation fields, and other posts in its territory. The subsistence officers are held responsible for the quality of the goods they receive.

Before the supplies reach the depots, however, they are passed upon by inspectors in the packing houses, canneries, and other sources of articles. The records at Washington show the capabilities, character, and standard of every establishment furnishing food for the army. The specifications which their products must meet are clear and exact.

The inspection branch maintains a current file of unreliable dealers and unreliable producers insuring the elimination of dealers who, having been denied the right to supply some of the many depots of the army, make subsequent attempts to obtain contracts at other points.

Relatives and friends of several soldiers in army camps have been victimized by swindlers who wired or wrote for funds under soldiers' names. In each instance, it was requested that money be sent by wire making identification, or by mail to general delivery, the customary explanation being that the soldier had been discharged and would have no way of securing identification, nor of getting mail addressed to his company.

The following is a typical telegram sent to the father of a soldier in a southern camp:

"Have been discharged. Coming home. Going to Atlanta through country tonight. Please wire me \$300 at Atlanta so I may pay for uniform and come home direct. Wave identification as I am not known in Atlanta. Wire cash quick so I can get it tomorrow morning."

Before being complied with, any request for money to be sent under such conditions should be verified by a letter or telegram to the commanding officer of the camp in which the man whose name is signed to the request is stationed.

The United States government is looking for men who can take charge of branch offices of the bureau of foreign and domestic commerce, department of commerce, and men to act as assistants in these offices. Branches are located in the principal commercial cities. The salaries range from \$1,800 to \$3,000 for managers and from \$1,200 to \$1,800 for assistants.

A noncompetitive examination will be held May 16 in various parts of the country. Applicants will be examined in export-trade technique, promotion of commerce, and economic geography, and credit will be given for knowledge of foreign languages. The examinations will be under the direction of the civil service.

The minister of agriculture of Brazil has been authorized to establish modern experimental farms and agricultural colonies, especially for the education of orphans and abandoned children.

The Only Way to End the War.

A few weeks ago the following editorial appeared in "Leslie's": "Every pacifist is an enemy. Every one who stands for a negotiated peace is giving aid and comfort to our foes. And a peace that would leave unsettled the vital issue of the war would be only an armistice. Within two decades the world would be plunged into a still bloodier war, and our children would be driven to finish the struggle for freedom which in our confidence we left

incomplete. "Woe to England, France and America if they leave such a legacy to the next generation! "Already we have talked too much about peace. The frequency of our peace definitions Berlin and Vienna interpret as signs of weakness. "Among the armies at the front there are no illusions. Soldiers know but one way to win. The Allied armies in France know they can make Germany taste the bitterness of defeat. "Germany and Austria are whipped to their knees. All the world knows it. The Teuton military lords know it, but by a gigantic bluff they hope to discourage the enemy. "The more we talk about peace the more we play their game. Examine and economic ruin stare the Central Powers in the face. Their armies may still be fed, but even a Hindenburg cannot maintain indefinitely a strong fighting army with a home background of underfed or starving wives and children. "A negotiated peace will mean the end of all liberal civilization holds dear. "Nothing we may have to endure now," says Rudyard Kipling, "will weigh one featherweight compared with what we shall most certainly have to suffer if for any cause we fail of victory. "We must end the war by fighting. Thus only can we secure a peace worthy the name."

WOMEN ARE NEEDED TO HELP IN WAR

Women can be usefully employed in nursing the wounded, in making up the soldiers' kits, and in a thousand other ways. Many American women are weak, pale or anemic from woman's ills. For young girls just entering womanhood; for women at the critical time, nursing mothers and every woman who is "run-down," tired, or over-worked, Doctor Pierce's Favorite Prescription is a special, safe and certain help. It can now be had in tablet form for 60 cents. All druggists. Send Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10c. for trial package tablets.

PARIS, TEXAS. "I was in ill health, was suffering from weak and nervous spells. I tried several kinds of medicines but got no relief until I took Dr. Pierce's Favorite Prescription. I found that it did me more good than anything I ever took. It cured me and I will always praise Dr. Pierce's Remedies."—Mrs. JULIA Street.

OKLAHOMA CITY, OKLAHOMA. "I can truly and thankfully say I have taken Doctor Pierce's Favorite Prescription and it did me a world of good."—Mrs. THOMAS HUDSON, State Yards Station.

Dr. Pierce's Pellets are the original little favor pills. One little Pellet for a laxative—three for a cathartic. Sold by druggists for nearly 50 years, 25 cents a vial.

One hundred million bushels of small potatoes will save 100,000,000 bushels of wheat. About 30 per cent of the annual potato crop in the United States consists of small potatoes which are unmarketable, made little use of; practically wasted, almost a total loss to the country. The small potatoes can be substituted for one-third the wheat flour used in making bread. Potato bread is better bread in every way than bread made entirely of wheat or a combination of wheat and other grains.

TO ALL WHO EAT

EAT AN ONION FOR YOUR HEALTH'S SAKE —EAT AN ONION AND HELP SAVE THE VALLEY CROP.

Try Out These Food Administration Onion Recipes, and, Through Good Appetite, Give Zest to Your Own Life, and Release Concentrate Foods for Our Soldiers.

At present there are 8,000 acres of land in the Rio Grande Valley from which have been produced \$5,000,000 worth of onions. This means a shipment of approximately 15,000 cars and under present conditions only ten thousand cars can be secured. The result is that we will have 5,000 carloads which we must take care of in Texas and in Southern territory. For this reason the Federal Food Administration for Texas has entered into interest with the onion growers and is assisting them in securing transportation and is also doing everything in its power to secure onions as a food.

The recipes given below have been carefully prepared by Miss Lou Stallman, Government Food Demonstrator.

CREAM OF ONION SOUP.
1 cup of cooked and sieved onions
1 cup of liquor in which onions were boiled
1 cup of milk
1/2 tablespoon rice flour
1/2 tablespoon vegetable oil
Salt and pepper to taste.
Cook onions until tender and mash through a sieve, reserving one cup of liquor in which onions were cooked. Combine onions, liquor, seasoning, fat and milk. Then bind with the rice flour mixed with a small amount of cold milk. Cook until slightly thickened. A few celery leaves, cooked in the mixture will give onion-flavor. Strain out before serving.

ESCALLOPED ONIONS.
Place boiled onions in an oiled baking dish and cover with white sauce. Sprinkle oiled crumbs over the top. Crumbs may be made from left over biscuits, muffins, etc. made from substitute flours. Oil with peanut oil. Bake until a delicate brown. Season crumbs well with salt and pepper.

BUTTERED ONIONS.
Boil as above, seasoning with margarine, salt and pepper. If butter is desired as seasoning, reduce the quantity normally placed on the table for family use by just so much. Butter should not be used in cooking.

BAKED ONIONS.
Peel, wash and bake in oven around meat roast, basting with the juice from the meat, or with hot water to which oil has been added. Use 1/2 cup of hot water and 2 tablespoons of oil.

ONION SOUFFLE.
Cook onions, rub through sieve. There should be 1 1/2 cups of onion pulp. Heat 4 tablespoons oil and add 4 tablespoons of rice flour. Pour on gradually 1 1/2 of a cup of water left from the onions and 1 1/2 of a cup of rich milk. Add onion pulp and bring to the boiling point. Season with salt and pepper. Cool partially. Beat the yolks of three eggs until thick and lemon-colored and add to the first mixture. Cut and fold in the whites of the 3 eggs beaten until stiff and dry. Place in an oiled baking dish and bake 25 minutes in a moderate oven. Serve at once.

ONIONS STUFFED WITH PECANS (DELICIOUS).
4 onions
4 tablespoons bread crumbs
Salt and pepper
2 tablespoons chopped parsley
2 tablespoons chopped pecans
1 tablespoon oil (vegetable)
1 egg
2 tablespoons white sauce (for enough to bind).
Cook onions whole, having been careful not to cut root end off too close. Cool and remove center. Chop center and nuts. Add crumbs, oil, salt, pepper, parsley, egg and sauce. Sprinkle inside shell with salt. Fill with mixture and pile it up on top. Bake until delicately browned. Serve with white sauce to which 1/2 cup fresh peas have been added.

Fight the Germans—man for man; shell for shell—potato for potato, and eat the potatoes now.—Peden.

During April, 1917, potatoes were selling at 5 and 6 cents a pound. Today they are 1 1/2 and 2 cents a pound. One potato will replace a slice of bread for the Allies.—Peden.

The Kaiser has issued a medal commemorating the day that potatoes were brought from America to Germany. In Texas today 2,000,000 pounds of A-1 potatoes are rotting, while Belgians starve.—Peden.

Our wheat supply is short; our supply of potatoes is abundant. Decrease your consumption of wheat by increasing your use of potatoes. There is no limit on the amount of potatoes that may be used, while every person is asked to limit his use of wheat to one and one-half pounds a week.—Peden.

Mid-Summer ANNOUNCEMENT

By Montgomery Bros.

There was never a more complete showing of late Spring and Mid Summer merchandise gathered together than that shown in our store now.

Gingham Dresses, Voile Dresses, Net Dresses, the new Mid Summer Capes, Millinery.

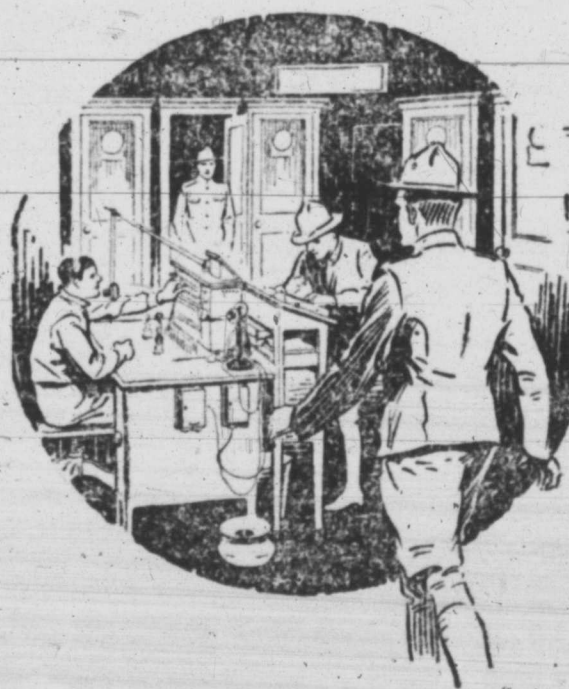

All that's good for Mid Summer is here. It will pay you to visit our store when in Amarillo. Our salespeople will be glad to show you all the new things and in every way we will try to make you feel at home.

Montgomery Bros.

Amarillo, Texas

These disposed to look for something to be down-hearted about are now discovering that more than 1,000,000 bushels of last year's corn crop in the United States were ruined by an early frost. But along early sunshine comes the cheery optimist who says that, while this may possibly be true, it doesn't matter, since more than 1,000,000,000 bushels were saved by Lloyd George at last took the Irish bull by the horns, but it remains to be seen what the bull will do.—Chicago Herald.

THE Bell Telephone System has supplied complete telephone systems for the National Army Campments and National Guard Camps.

Each has been equipped with a complete telephone system consisting of a switchboard and a modern cable distributing plant, and supplied with especially trained switchboard operators.

Long stretches of open wire and cables containing from fifty to one hundred pairs of wires furnish trunking and toll facilities to near-by cities. Where the camps are remote from any large town or city, toll switchboards have been installed.

Telephone equipment which under normal conditions would require from nine to ten months to manufacture was manufactured and installed in less than four months, to meet the military needs of the Nation.

Taken up—Black horse mule 14-1-2 hands high, branded Z on left thigh. Call W. L. Deeke. tf

For Trade—Overland 85-4 car '16 Model in good condition, for team wagon, farming implements. A. D. Dooley. tf

For Rent—20 acres of land. Mrs. F. L. Gand. tf

Strayed or Stolen—3 head of cows Nov. 2, 1917, 2 reds, one roan; roan branded C on right shoulder; one red L on right hip, gourd on right side; other branded half-circle-cross-bar on left side. \$25 reward. Jerry Buchanan, Shamrock, Texas. 6p4

Prewitt & Armstrong bought Happy Orion Cherry Boy, the best boar at the show of the Panhandle Swine Breeders Association at Clarendon. The boar was conceded by all the best breeders of the state to easily be a Grand Champion this fall at the State Fair. tf

Twenty five years experience—in Horseshoeing and blacksmithing. All work guaranteed. I work Wednesday evening and all day Saturday every week a Umbarger. LEQ STOCKER, Umbarger Blacksmith. 2p7

Fully guaranteed for two years? The lightest running machine on the market? A real typewriter in every respect? Call the News office to see about a WOODSTOCK. tf

For general auction work, figure with A. A. Price, Auctioneer and Salesman. My chief aim is satisfaction to everyone concerned. Canyon. 48p10

Well Drilling—Complete outfit for shallow or deep drilling. J. A. Wilson. tf

THRIFT—Why wear out your shoes or a car trying to find the lost article, renting a house, selling a horse, renting a farm, buying cattle, etc., etc., when a little ad in the News will do the work for you. It costs but one cent per word for the first insertion and one-half cent per word for each subsequent insertion. Try a THRIFT AD in the NEWS.

Paint, Glass and Wall Paper—a full and complete line of each. Prices are right. Call upon S. V. WIRT. tf

Sewing Circle With Much Whispering

We Are All Greatly Indebted to Those Who Tell Their Experiences.

Before the arrival of the stork there is much to talk about. The comfort of the expectant mother is the chief topic, and there is sure to be someone who has used or knows of that splendid external help—Mother's Friend.

Nausea, nervousness, bearing-down and stretching pains and other symptoms so familiar to many women are among the dreaded experiences thousands of mothers say they entirely escape by the use of this famous remedy.

Its influence on the fine network of nerves and ligaments just beneath the skin is wonderful.

By the regular use of Mother's Friend during the period the muscles are made and kept soft and elastic; they expand easily, without strain, when baby is born—and the pain and danger at the crisis is naturally less.

Mother's Friend is for external use only, is sold by all druggists, and should be used with the utmost regularity. Write to the Bradford Regulator Co., Lamar Bldg., Atlanta, Ga., for a valuable and interesting "Motherhood Book." There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written and will be a splendid little text book for guidance, not only for yourself but will make you helpful to others. And in the meantime do not fail to get a bottle of Mother's Friend from the drug store and thus fortify yourself against pain and discomfort.

WAR SAVINGS COMMITTEE TO MEET TONIGHT AT BANK

E. H. Powell, cashier of the First National Bank, has been appointed as chairman of the War Savings Committee of Randall county and formally accepted the position this week. He takes the place of W. D. Morrel, who has resigned.

Mr. Powell has called a meeting of the committee for tonight at the First National Bank. He wants to see not only the men, but also the women who are working in the interests of War Savings Stamps.

According to the official report, in the News of last week, Randall county is far behind with the sale of War Savings Stamps. These stamps are Baby Liberty bonds and just as necessary to the government as the Liberty Bonds.

Randall county is expected by the government of the United States to sell \$100,520 of these stamps during 1918.

Randall county did not hesitate or refuse in either of the three Liberty Loan Bonds campaigns. Randall county has never been a slacker on any of the war work. She has always done a little better than the government expected.

But we have been dangerously negligent during the War Savings Stamps campaign. We have been putting it off too much. We have no doubt considered that we would do our part next week instead of doing it now. We have thought perhaps a steak of good luck would overtake us and we would have plenty of money next month to buy our allotment. The boys in the trenches are not doing business that way. They are clean up as they go along.

America must get into the trench warfare spirit and do things as they are due. Get busy today. Every man, woman and child in the United States—in Randall county—is expected by our government to own \$20 of these War Savings Stamps by January 1, 1919. Each person should have at least \$7.50 now.

Buy some stamps this week. The government cannot exist unless every man, woman and child is doing his part.

To Cure a Cold in One Day.
Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 38c.

Final Dance.

The Terpsichorean Club of the Normal held its final dance last Monday night at the home of Mr. and Mrs. Grayson Bell. This was by far the most delightful dance of the year. The beautiful evening, the happy couples, the good music, the war time refreshments, and the consciousness of a farewell gathering contributed to an evening of unusual pleasure.

Those being present were: Misses Russell, Meador, Walker, Guenther, Watkins, Joyner, Bullock, Wakefield, Fowler, Wakefield, Lowrance, and Park. Messrs. Sheffey, Wells, Shotwell, Hicks, Rogers, Foster, Buecher, Crudgington, Pinson, Whitlock, Glass, Mahan, and Smith. Mr. and Mrs. Blaine, and Mr. and Mrs. Bell. —Contributed.

Hardware Meeting Monday.

The annual meeting of the Panhandle Hardware and Implement Dealers Association will meet in Amarillo on next Monday.

President R. B. Cousins will make a patriotic address before the convention Monday morning. T. C. Thompson, president of the Thompson Hardware Co., will discuss the subject "A Sound and Safe Credit System" at the Monday afternoon session of the convention.

SUNDAY SCHOOL BUILDING FOR PRESBYTERIAN CHURCH

The barn at the Presbyterian church manse has been moved across the street to a position just south of the church and will be made into a Sunday School building.

The building will be enlarged somewhat in order to accommodate all of the primary department of the Sunday. There will be an assembly room and five or six class rooms made in the building.

The Sunday School outgrew the facilities of the church many years ago and since that time the manse has been used for the primary department.

Moving from Clarendon
Hastings Bros. of Clarendon have bought 2400 acres of land east and southeast of Canyon and Silas Hastings has moved here to look after their interests.

These gentlemen are well known among the old time residents of the Panhandle section and their friends are pleased to have them move their interests to Randall county.

Sold House—Will Build.

Carl Coffee has sold his new house on West Evelyn Street to Wallace R. Clark, and will give possession within the coming week.

Mr. Coffee owns the lots just across the street and will build a new house there within a few months.

Presbyterian Church

Sunday School at 9:45 a. m., Prof. J. W. Reid, Supt.

The pastor, J. S. Stapleton, will preach at 8:30 p. m.

There will be no services at 11:00 a. m. owing to his having been requested to preach the baccalaureate sermon to the high school graduates at the Methodist church at 11 a. m.

Prussian Inspiration.

During the invasion of Belgium a captain in a Prussian regiment got hold of a hundred fresh eggs somewhere, and, wishing to give his faithful soldiers a treat—there were just exactly a hundred men in his company as it happened—he turned the eggs over to the top sergeant, and told him to see that every man in the command had an egg for his breakfast next morning. But the company cook smashed one of the eggs, and next morning there were only 99 eggs to be distributed among a hundred hungry soldiers. The sergeant was puzzled at first. He knew he had to obey orders.

"For a while he didn't know just how to distribute those eggs. 'Finally,' says the narrator of the story, 'he had a wonderful inspiration—a typical Prussian inspiration. It worked all right, too.'"

"Well, what did the sergeant do?" demanded one of the company.

"Killed one of the soldiers."

Whenever You Need a General Tonic Take Grove's.

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well-known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 60 cents.

Seed Potatoes.

Early next week. Cabbage, pepper, and sweet potatoe plants next Saturday. My place is with S. V. Wirt. ATKINS.

Captain Examining Men.

Captain Gabbard, of the Medical Corps of the new Texas National Guard, was in the city Wednesday examining the nineteen men who have signed up for the new troop being organized in Randall, Deaf Smith, Swisher, Castro and Parmar counties. The men expect to be called out for state service within a very short while.

It is announced that the high cost of living is driving office-seekers away from Washington. We have been confident all along that some good would result from the high cost of living.—Minneapolis Tribune.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezeone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezeone he can get it at any wholesale drug house for you.

PATRIOTISM AND BUSINESS

Every good citizen at this time should do his share toward strengthening the Federal Reserve Banking System which our Government has created with its billion dollars of resources to stand back of its member banks and all their depositors.

You can contribute directly to the strength of this system, and at the same time secure its protection by depositing your money with us, since part of every dollar you deposit with us goes directly into the new system, where it is always ready for you when wanted. This is a suggestion for prompt action.

WAR SAVINGS STAMPS FOR SALE

Raise Pinto Beans.

Good money can be made in growing pinto beans at eight cents a pound, in this locality, according to a bulletin received at the local Santa Fe office from H. M. Bainer, who, as the railway company's agricultural and industrial agent, is a special representative of the United States food administration.

"While there is no assurance that this price, fixed by the food administration for the 1917 crop, will be paid for the 1918 crop, the newly created demand for pinto justifies heavier production of them," Mr. Bainer said.

"The food administration," Mr. Bainer continued, "has made a market for every pound of available pinto beans. In fact, the supply of all

kinds of beans will be exhausted before another crop matures. For a time it looked as if a considerable surplus of the enormous crop of 1917 would be carried over for 1918, but the increasing needs of our people, as well as the needs of the allied army and navy, will require all of them.

"The white, or navy, beans of Michigan and New York, the largest bean states in the Union, were badly damaged last fall by unfavorable weather conditions, making many of them unfit for shipment. In fact, the bad weather conditions of the past three harvesting seasons in these two states in addition to a poor supply of seed for this spring's planting, have discouraged the farmers, and from pre-

liminary reports, the indications are that their acreage will be cut down 30 per cent."

New German law that any person wishing to leave the Empire must pay five years' taxes in advance is like the old one-ring circus which charged nothing to get in but a dollar to get out. It may be worth the price.—Wall Street Journal.

For Indigestion, Constipation or Bilioussness
Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Paris Medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless Chill Tonic.

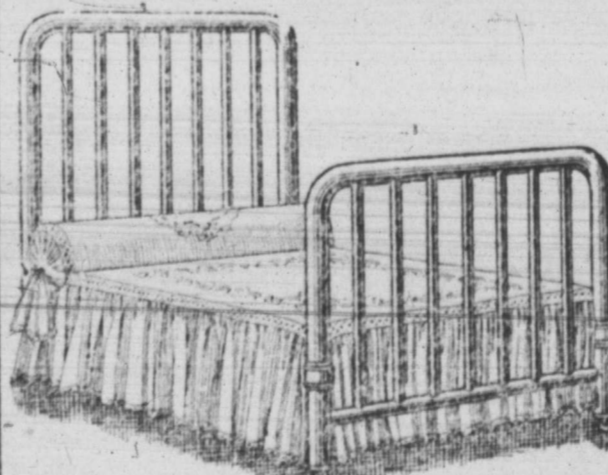

At this Store you will find good furniture at prices you can afford to pay

CREDIT If you need it-

There is only one sensible and satisfactory way for a furniture store to extend credit, and that is to make the terms fit the needs of the buyer.

Our credit plan does that very thing. You pay as you feel you can afford to pay—no more and no less—and at such intervals as are convenient for you.

We have a world of friends who have bought here on credit. We want no better recommendation than to have you ask some friend or neighbor who has bought of us on credit. There isn't one of them but what will tell you we treated them fair and square.
