

R. B. Cousins Indorsed by the Board of Regents

Austin, Texas, Aug. 3, 1918. Honorable A. C. Goeth, Austin, Texas.

Dear Sir: Your committee appointed to draft an expression of the sentiment of this board upon the resignation of Dr. R. B. Cousins as President of the West Texas Normal College, beg to report as follows:

In constant touch with Dr. Cousins and his work, and having first-hand information of the great things he has accomplished for the educational interests of our State we know, as few men have had the opportunity of knowing, what a distinct loss his resignation brings to all Texas. There was always present in his work the spirit of unselfish service and uncompromising sacrifice, of devotion to duty that guided his every act, and a masterful ability that wrought success from apparent failure. His was a forward looking and progressive mind, that thought out and helped to achieve some of the signal success of our present educational system, and his was the hand that always held aloft the torch of progressive and patriotic citizenship, sending thousands of young men and women into the world, who, having their lives lighted by this heroic flame have helped to quicken the conscience of our nation so that it heard and heeded the voice of humanity and civilization calling to it from stricken Europe. His contribution to our present day ideals has been distinct and notable, and his name is written securely in the educational history of our great states.

Our association with him has been an inspiration and a delight, and we take this method of expressing our appreciation of his distinguished service and contribution to the cause of education in Texas.

Respectfully submitted, WALTER J. CRAWFORD, M. O. FLOWERS, ROBT. J. ECKHART, A. B. MARTIN, Committee.

To the Interested Public:

In order that good citizens may cooperate intelligently with my worthy successor, President-elect J. A. Hill, I beg leave to submit the following suggestions:

A persistent effort should be made for better railroad connections at Amarillo when the war is over.

Every encouragement should be given to those people who are now trying to run first-rate boarding houses for students, and these should be increased until every student shall have an opportunity to secure comfortable board in Canyon, since your boarding places have much to do with the students' desire to return or to send their friends to school here.

Closer relations should be speedily made between the normal and the city school. The superintendent of the city school should be a professor in the normal school, and the instructor in the city school should be under the immediate supervision of the Department of Education in the normal just as the training school is. The training school has proved its value and its virtue by furnishing some of the best prepared students for the normal school. The city school

could not be hurt by the professional guidance of experts in the normal school, and the normal school needs the city school as a part of its educational equipment for observation and practice. The normal cannot use the city school for observation unless it may have something to do with producing work in the school worthy to be served and imitated by young teachers. A closer union is very desirable. I sincerely hope that it may be accomplished.

I commend Mr. Hill most heartily to public confidence and esteem. He should be received by all concerned in warm welcome. The normal school has a bright future. It will continue to grow under his administration.

Personally, it may be of interest to a few partial friends of mine, to know that I go with the Kelly Plow Company of Longview, as active vice-president. The business was established in 1862 by Mr. G. A. Kelly. It is old and well established as a Texas enterprise and institution. War conditions have produced a stage in its history which invites me as a personal duty and personal advantage, which I can not deny. I shall be with people of the highest quality. My lines will be cast in pleasant places. I leave the school and the good people of West Texas with many regrets, but I leave with them and the beloved institution my very best wishes.

Respectfully, R. B. COUSINS, President.

Honorable R. B. Cousins, President, West Texas State Normal College, Canyon, Texas.

Our Friend: Eight years ago, at your call, we came to this village of the Plains to labor with you in the building and establishment of the West Texas State Normal College. Throughout these years we have tried to follow where you have led, and ever we have heard your clarion call far, far in advance. In times of trial when there was gloom about us and almost darkness ahead, we have caught the inspiring flash of your white plume. To us you have been the Chevalier Bayard of knightly courtesy in all our associations with you, and, educationally, the Cid Campeador of the rights of childhood. But "Years following years, steal something every day; At last they steal you from ourselves away."

The voice that calls you away from us finds us unwilling to meet the sacrifice of separation, but we yield submission to the will of fate, trusting that time will lay his hand upon our hearts, gently, not smiting; but as a harper lays his open palm upon his harp to deaden its vibrations. To the new world that calls you, we surrender in you a leader in our world, a worthy ideal of professional honor, a Christian gentleman sans peur et sans reproche. Our hearts will not say that word of lingering sadness "Farewell"; we wish we could say just "Au revoir," but we MUST say to you and your, "Adieu! Adieu!"

We who came with you, and we who came later, jointly sign ourselves Tenderly and regretfully yours, THE FACULTY.

Elementary School Enrollment

The Elementary School of the West Texas State Normal College, which was formerly called the Training School will open with the college on September 10th at 9 a. m.

All those who desire to place children as pupils in the school this year should send me a written application for seats right away as the rolls for seats are now being made up.

The practice previously followed in accommodating students in the Elementary or Training School will be continued. The preference in enrolling pupils is first, for those who have been regular attendants; second, for those coming from a distance to attend the school. Third, those who have brothers and sisters in the Normal College, Fourth, all others who present application for entrance.

In order to prevent crowding the number of pupils in each class will be kept as nearly sixteen as possible and names may be entered on the rolls until this number is reached. Address all application to T. R. Garth, Dept. of Education, West Texas State Normal College.

Miss Thelma McGee Entertains Pleasurable in every detail was the party given last evening by Miss Thelma McGee at her home north of town. Upon arrival, the guests were conducted to the front room where they were delightfully entertained by the music of Misses Blanche and Helen Croson, both instrumental and vocal.

Several tables conveniently placed enticed players to while away the hours in the fascinating game of forty-two. Some guests were present who did not take part in the game but each enjoyed the evening as tough they had been occupied with it. Conversational games followed after which all were invited outside where everything was beautifully illumined by the silvery rays of the moon. Games followed here and much joy was had in playing "Three-deep" and the "Flying Dutchman."

The evening past in rapid pursuit when delicious refreshments of red, white and blue ice cream with wafers were served. Very few evenings are spent with such a delightful hostess as Miss McGee and it will be pleasantly remembered for a long time.

Moonlight Picnic

On Tuesday evening, Miss Ruth Knight entertained several of her friends at the Grove south of town in honor of her friend Miss Kathryn Stapleton who is soon to leave. The crowd was chaperoned by Misses Erme Conner and Zerah McReynolds. The time was spent in games and story telling. A bountiful luncheon was served to all. At ten-thirty the crowd returned by moonlight having spent a jolly time.

Book Club Entertainment

The Woman's Book Club entertained Friday afternoon in honor of some of its oldest members at the home of Mrs. J. B. Gamble. The guests of honor were Mrs. C. T. Word, Miss Lola Word, Mrs. R. B. Cousins, Mrs. C. W. Warwick and Miss Winnie D. Lowrance.

Mrs. Word and Miss Lola have been members of the Book Club since it's organization and will be greatly missed. The Club regrets to lose all these most estimable members. Their influence, which has constantly been for the betterment of the Club will be a distinct loss, but the best wishes go with them to their new homes.

The afternoon was delightfully spent in pleasant conversation, knitting, and a very interesting contest was enjoyed. Excellent punch was served during the afternoon.

Each Honor Guest was presented with a lovely bouquet of sweet peas. The house was decorated with a variety of cut flowers.

The out of town guests were Miss Shambaugh, and Kelly and Mrs. L. E. Cowling. Mrs. Cowling was formerly a member of the Club while she made her residence in Canyon. —Contributed.

Summer Session of Normal Closed Saturday, August 17

The West Texas State Normal closed the Summer session on last Saturday evening at two o'clock in the College Auditorium with a program. After the rendition of several Orchestra Selections and Music by the Chorus, Pres. Cousins gave a final address to the student body.

He spoke along the line of securing closer relations between High School and Normal School. The training school has proved its worth for the preparation of Student Teachers, and that the city school would not be hurt by uniting them in such away that the instruction given there would be given by professionals.

Dr. Cousins spoke along other lines which were interesting and the graduating class, derived much good from it.

The following was the program for closing exercises of the West Texas State Normal College given in the College Auditorium, two o'clock Saturday afternoon August 17, 1918.

Professional of chorus, faculty and applicants for certificate and diplomas.

Orchestra selection: "Bohemian Girl"—Balfe.

—Opening song (Congregation): "Come Thou, Almighty King."

Invocation—Rev. A. B. Haynes.

Chorus: "Eldorado"—Pinsuti.

"Cherubim Song"—Tschaiakowski.

Presentation of certificates and diplomas.

Chorus: "My Love Dwells in a Northern Land"—Elga.

"Boat Song"—Cowen.

President's Address.

Orchestra "Barcarolle"—Hoffman's Tales.

March: "United Liberty"—Lozey.

Song: "America" (Congregation).

Benediction—Rev. J. S. Stapleton.

There were twenty-one in the Senior Class that received their Permanent Certificates and Diplomas.

Registration Not Required

A letter received by D. A. Park from the Attorney general states that women will be allowed to vote if they have not registered in cities of less than ten thousand inhabitants.

We stated last week that women were allowed until the tenth to register, but we received wrong data on this and we are informed that the law specified "Fifteen" days before the election which made it August 8 the last day to register.

Following is the letter received by D. A. Park:

Mr. D. A. Park, Canyon, Texas.

Dear Sir: I have yours of the 12th inst. making inquiry as to the right of women to vote who failed to register, and in reply beg to advise that this department has been advising that women may vote without having registered who reside outside of cities of ten thousand inhabitants or more. It is necessary that women register who reside in cities of ten thousand or more only.

"Wienie" Roast

The past week has been a delightful one for a number of Canyon girls. But one of the most enjoyable events of the week was a "Wienie" roast given Friday, August 16, by Miss Ira Cochran in honor of Miss Mildred Smith of Sweetwater.

Just at sunset the girls gathered at the appointed place. Soon a merry little fire was crackling and the smell of camp coffee and roasting "wienies" rose as sweet incense and was very pleasing to the hungry girls. It was dark before the girls could be torn away from the campfire.

The following were the guests: Messdames Wilson and Johnson, Misses Vinny Leal Johnson, Mildred Smith, Jessie DeGrattenreid, Esther Rogers, Mabel Rogers, Erna Guenther, Elsa Guenther, Ira Cochran, Elvora Cochran, Grace Farmer, Mildred Johnson and Elva Fronabarger

Mr. H. C. Reid of San Angelo paid a visit to Canyon the first of this week. He came to meet his father, H. K. Reid and his niece, Miss Nannie Reid of Charlotte, N. C., who are visiting our townsman, J. W. Reid. Mr. H. K. Reid, the father of H. C. and J. W. Reid is seventy-eight years old and is still well and vigorous. He intends to return to North Carolina within the next ten days. Mr. Reid is well pleased with this country and thinks it cannot be excelled anywhere.

B. F. Hodges of Kress stopped off Sunday at the parental home of Mrs. A. S. Parker to visit a little while. He is on his way to Hereford where he will teach this winter.

The program given by the young people of the Baptist church was well rendered Sunday morning and Sunday night. The young men and women responded well and they performed their work nobly.

John L. Pundt of Lipscomb county, brother to H. C. Dolcator was in the city last week to see about getting his son into the Normal School, and receive Military training at the same time.

The Army and Navy

EIGHTEENTH DIVISION WILL SUCCEED THE NINETIETH

The Eighteenth Division is the numerical designation announced by the War Department for the new division that is soon to be formed at Camp Travis to fill the vacancy created by the movement of the Ninetieth Division to France. The announcement of the formation of the new division the Cameo has been much of the nature of a combined training and replacement camp. Men who reported may still be in camp or may have been moved in a few weeks to fill gaps in divisions elsewhere.

The largest percentage of those reporting to Camp Travis hereafter will probably be retained for the organization of the new division which in every branch will mean the services of approximately 30,000 trained men and officers. Just what period of time the division may be trained at Camp Travis is of course problematical and depends greatly upon weather and training conditions. However, five to seven months training is almost a necessity and those who report to Camp Travis hereafter may be among those who will remain in camp for that period of time.

Many men reporting to the camp come overburdened with clothes, toilet articles, etc. They are only here a short time until they find out that these are more in the way than they are necessities. The Government furnishes the soldiers with everything that is absolutely necessary. For that reason other than a few toilet articles, really nothing is needed. The Camp Exchanges offer a market for everything the soldier can possibly need and he gets them at cost price plus a very small percentage, and does not pay the war time prices or the prices of some profiteers. As an example, standard brands of tooth brushes are ten cents below retail price, and prices of other toilet articles would surprise the civilian.

It is far better that those reporting to Camp Travis, now or hereafter bring very little with them, and wear only their old clothes. They will be returned as soon as possible to the recruits or can be donated here to the Belgian Relief Society or the Red Cross. Especially is the matter of carrying light baggage worth consideration when it is possible that men may remain in camp for several months and will have ample opportunity to send home for anything they need when they ascertain just what that may be.

Thousands of people in Texas and Oklahoma have friends or relatives with the Ninetieth Division in France or with some other branch of the American Expeditionary Forces. Because of the heavy mail service the United States has had to set down hard and fast rules for the addressing of mail to men abroad. The latest announcement from the Postmaster General stipulates "Mail intended for members of the Expeditionary Forces should bear the name and address of the sender in the upper left corner and be addressed in the following manner: (1) name of address including his rank, first name in full and initials, if any; (2) official designation of the unit or organization to which the address belongs as, for example, "Company X, Infantry;" (3) the words "American Expeditionary Forces."

If the words official designation of the unit or organization to which address belongs is not given in the address the matter will not be despatched and the postmaster at the office of origin shall return letter for proper designation.

The proper form for letters to be sent to former members of the Ninetieth Division and to all units in France is:

From John Jones,
711 Main Street,
Blanksville, Texas,
Private Oscar F. Brown,
Company A, 357th Infantry,
Ninetieth Division,
American Expeditionary Forces.

Camp Post Cards

ST. LOUIS, Aug. 22.—American soldiers about to enter the trenches have been ordered by their officers to send their first prison camp post cards to the American Red Cross in Berne, Switzerland, in the event of capture. By so doing they immediately begin receiving a twenty-pound package of food each week which the American Red Cross sends prisoners because of the scant rations allowed the by Germany. On receipt of the post card the machinery necessary to notify relatives of the fate of prisoners is put in operation.

To Recieve Commission

Following we give a letter written by Ted Reid, to his mother Mrs. Geo. F. Reid, which was published in the Tulsa Herald. Mr. Reid is in the United States Aviation Field. His friends will be glad to know where he is and what work he is doing.

Sunday evening,
Dear Mama.—Well, how are you to-day, I am as fine as usual.

I spent the night in here at Mr. Miller's. His family has gone visiting. He is sure good to us-boys. He has their old cook to get us some breakfast this morning at 9 o'clock. Some of these negroes can sure cook the best corn-bread muffins and hot biscuits I ever tasted. You see I still believe in eating.

Well one of the boys got his commission. He was called home, so they gave it to me.

I have a good time now on cross country flights. Went to Macon yesterday. We were flying formation. "Red" Reid and I were flying opposite My motor cut out, so I had to land at Artesia. Well, "Red" got uneasy about me so he come down to see if I made a safe landing. I had and had my motor fired when he got to me. Sure had some time.

We dont have to go to school any more. we fly half of the day and dig trenches or set up ships the other half. We have just received the morning news, it sounds good,—six mile gain. I think those Germans had better run a little faster or there wont be very many left to do the running.

Well, we are expecting our commissions Saturday. Will let you know if it comes true. I suppose we will then go to Dallas for awhile. I will come to see you when I get mine, or soon after, I judge it will be about the 1st of September now.

We all went to a picnic last week, not all of us, just about a hundred. Did not have but fifty ships. I was lucky and got to go. It was about fifty miles south of here. Sure had a big lot to eat. I was 45 minutes going and 32 minutes coming home. They had a new dish "Brunswick Stew." It sure was some dish.

Well, I hope you have had rain by this time. I know it is hard to get help.—I feel like a Slacker when I read of how the boys are fighting "over there." Well take care of yourself and write me all the news.
Your son,
Ted.

University Military News.

Although the University of Texas is already the largest military training school in the United States, steps are being taken to greatly enlarge the scope of its activities in this respect. Many former students of the University of Texas are officers in the famous Rainbow Division which won the highest commendation from the American and French commands for the important part it took in the recent battle of the Marne.

R. G. Tyler, C. E., adjunct professor of highway and sanitary engineering of the University of Texas, has entered military service. He recently received news of his appointment to a captaincy in the National army and has been assigned to duty at Camp Taylor, Ky. He is an acknowledged authority on matters of sanitation and on his work in the army will be along that line, it is stated.

It is expected that under the Students' Army Training Corps plan, the details of which have not yet been announced by the War Department, there will be a large attendance of young men at the University of Texas this fall. President R. E. Vinson, who is regional director for the Southwestern division to put into effect the proposed plan recently returned from Washington where he conferred with War Department officials in regard to the matter.

The attendance of students at the Radio School which the University of Texas is conducting for the War Department will be increased soon to about 1400. Information has been received that eight hundred artillerymen have been ordered from Camp Taylor, Ky., to Austin to take a course in radio at the University school. In order to accommodate the increased attendance the school will be removed from the Engineering Building at the University to the Penn Landing Field, just south of the city. Air services courses will also be added to the curriculum of the school.

The American University Union in Europe of which the University of Texas is a member has just issued the following statement which is of interest of all former students of the University who are in France as well as to their friends and families:

Canteen Service
ST. LOUIS, Aug. 22.—The American Red Cross has in operation 700 canteen stations on the railway lines of this country and at embarkation points to furnish refreshments to enlisted men when traveling through the country, it was announced today.

The canteens in the Southwestern Division of the Red Cross, which includes Missouri, Kansas, Arkansas Oklahoma and Texas, have been increased twenty in number in the last twenty days.

These canteens, which cheer the soldiers and sailors on their way to France, will be maintained until after the last of the American soldiers have returned from the war, in order to cheer them and show the appreciation of the civilian population for the work they have done.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain. A small bottle of freezeone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezeone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

MILITARY Training for College Men IN THE WEST TEXAS STATE NORMAL COLLEGE

CANYON, TEXAS, BEGINNING SEPTEMBER, 1918
College men over eighteen years old are urged by the Federal Government to attend some college and join the Students' Army Training Corps. Soldiers are not only marksmen, but engineers, chemists, physicists, geologists, doctors, sanitarian, administrators, stenographers, book-keepers, statisticians, and many others.

CONDITIONS
College students over eighteen years of age may enter college and enlist in the Students' Army Training Corps, and get ready for service and be subject to call by the president. Change of draft age will not interfere with a student's status while in college in the Students' Army Training Corps.

REWARDS
1. Service of country, while in school getting ready to render larger and better service, which is necessary to win the war.
2. Receive military instruction by government officers.
3. Receive uniform and other equipment free.

ADVANTAGES
1. Military instruction against the day when called to the colors.
2. Preparation looking toward commissions.
3. Become a member of the U. S. Army.
4. Will probably offer choice of service if draft age is changed.
5. Removed from jurisdiction of local recruiting officers and placed under that of Colonel Reese, U. S. Army.

OTHERS
Men in the West Texas State Normal College below college rank may join the college companies when of proper age and strength, other conditions being satisfied. They may receive military instruction along with their fellows and join the Students' Army Training Corps when they have made sufficient progress in their studies to enter the college (Junior Class). These must furnish their own uniforms. This preparation would stand a young man well in hand when called to the colors at any time.
School opens September 10, 1918.

Training School Notes

The work of the elementary school this summer has been good. The students have enjoyed their work. Students who wish to enter the elementary school this fall are bringing written applications from their parents.

The training school will have recitations till chapel Saturday and will check their books in between chapel and noon.

The training school has collected about thirty dollars which is enough to support a French child a year.

The grades of the training school have made seventeen hundred and seventy-one bags. They are working very enthusiastically.

Found Plenty of Grapes

A. L. Roark and daughters and E. A. Thompson and daughter took a trip by lumber wagon on Wednesday and brought home six or seven bushels of wild grapes.—Vega Sentinel.

The Motorists

Denison Herald: With the War Industries Board curtailing the automobile output and Congress adding the weight of prohibitive tax to the industry, not to speak of the excise levied against owners, long-distance walking bids fair to become one of the finished arts in this country.

Well, there has been too little purposeful walking and too much aimless riding lately. Motorists have motored millions of miles and burned millions of gallons of gasoline without arriving anywhere in particular. Riding for pleasure has become the leading outdoor sport, and, from the economic standpoint, it is much more costly and not much more practical than the old-fashioned pastime of spitting at a crack. Indeed, the motorists ruin roads about as fast as taxpayers can rebuild them. Gasoline at fifty cents a gallon would not be an unmixing evil, especially if Uncle Sam divided the proceeds equally with Mr. Rockefeller.—State Press

Woman Kills Big Rattler

Mrs. Edge, living in the Delwin community, shot and killed an immense rattler snake last Saturday afternoon. The reptile was measured and showed to be six feet in length. It had been prowling around the barn for two or three days, and on Saturday afternoon Mrs. Edge saw it just under the building and shot it twice with a shot gun.

This is one of the largest rattlers seen in this country.—Paducah Post.

CAMPBELL NOTES

Miss Vaahiti Belles is visiting with friends and relatives in Happy this week.

Howard Brown was in Amarillo Friday and Saturday.

Misses Alma and Mary Fogerson are visiting at Silverton this week.

Alexa and Kathleen Gordon-Cumming spent Thursday night at the O. S. Brown home.

Mr. and Mrs. Tom Campbell were guests at the W. B. Campbell home Sunday.

Mr. and Mrs. O. S. Brown and family spent Wednesday at the Gordon-Cumming home.

We regret to record the death of Ray Snider at the Sanitarium at Amarillo on Friday night, August 9, after a long sickness. Ray was the son of Mr. and Mrs. Sam Snider formerly of Iowa and one of our esteemed citizens. Ray had a host of friends. Mr. and Mrs. Snider and his wife have the sympathy of their many friends.

Mr. and Mrs. W. E. Thomas returned from Wayside Saturday, where they had been visiting their daughter, Mrs. L. J. McGehee.

To Agricultural Club Members

The Boy's Agricultural Club Encampment that we talked of at our last meeting will be held on Monday and Tuesday, August 26 and 27. All boys living near Canyon, Umbarger and Happy will meet promptly at 9:30 a. m., August 26, at the Court House at Canyon. From there we will go in a body to Mr. H. C. Dolcater's grove in Palo Duro Canyon. Each boy must make his own arrangements for transportation to the camp. Come prepared to have a good time and with enough grub for two days. Bring your fishing tackle and baseballs, blankets, etc., but leave all guns at home. Mr. Symonds, one of the State Club Agents will be at the Encampment with us.

Yours for a good time,
L. W. HILLAM,
County Agent.

Turkey is starving, Germany pinched and Austria rioting for food. The Allies are well fed and full of fight, thanks to Uncle Sam who invited them to sit down to his table a year ago—he has been passing around the victuals ever since.

TEXAS REQUIRES THIRTY MILLION BUSHEL ANNUALLY
DALLAS, Texas, August 22.—“Texas requires thirty million bushels of wheat annually to supply the needs of its people for seed and flour,” says E. W. Kirkpatrick, President of the Texas Industrial Congress. “The State has never produced this much wheat; its record crop of twenty-five million bushels was grown in 1915 on one million, seven hundred and thirty thousand acres. The government has asked the farmers of the State to sow that number of acres this fall for next year's crop, an increase of seven per cent over the 1917 acreage. The State Food Administration especially urges every farmer to sow enough wheat to meet the needs of his own family, based on an estimate of six bushels per capita. The average yield of wheat in Texas, without the use of fertilizers, is about fifteen bushels, and at this rate two acres would supply enough wheat for a family of five.”

“If our soldiers can risk their lives fighting in France, surely we who stay at home can make an effort to grow enough wheat to feed ourselves, and to relieve the railroads from the necessity of transporting wheat to Texas from other states.”

“A farmer in Newton county, last year, in a community where wheat had not before been raised, broadcasted a small plot in wheat, cut it with an old fashioned cradle, threshed it with a flail, and had enough wheat to supply his family for a year, and enough seed for his neighbors who are now following his patriotic example.”

“Farmers in neighborhoods where binders and threshers are not available can co-operate in purchasing community machinery for handling a home wheat crop.”

“Our farmers can raise as much wheat as Texas will eat if every farmer grows some what this year and thus helps to win the war.”

Packers' Profits — Large or Small

Packers' profits look big—

when the Federal Trade Commission reports that four of them earned \$140,000,000 during the three war years.

Packers' profits look small—

When it is explained that this profit was earned on total sales of over four and a half billion dollars—or only about three cents on each dollar of sales.

This is the relation between profits and sales:

If no packer profits had been earned, you could have bought your meat at only a fraction of a cent per pound cheaper?

Packers' profits on meats and animal products have been limited by the Food Administration, since November 1, 1917.

SUBSCRIPTION, \$1.50 PER YEAR

The Hale Center Record, with Guy E. Scott as Editor, has arranged for a secretary-treasurer for his business. A secretary is handy around an office in matters of book-keeping, answering requests for free advertising space, etc., but we have never yet found a place for a treasurer. In fact, most of the time we could dispense with the bank. This treasurer business reminds us, that while traveling we found an adding machine in one of the Panhandle country print shops. We never did get a satisfactory explanation from our friend Warwick of the Randall County News as to why that adding machine was in his shop.—Lockney Beacon.

The truth about that Adding machine is simply this: Our predecessor, Mr. Warwick, some time last year sold to one customer a lead pencil for 5c, 3 inches advertising space 48c, typewriter ribbon 75c, paper 10c, blot- ters 7c, job work 35c, and he succeeded in getting one sub, \$1.50. All this business occurred in one month, and he not being familiar with the problems of arithmetic decided to invest in a Burroughs Adding Machine to relieve the dilemma. If the present management succeeds in doing as much business as Mr. Warwick did in one month, we shall invite the Beacon man up to see the machine operate.

Work or Fight

With the urgent call of our country for every individual to do his part, we can hardly understand why some men will loaf around and not work.—Miami Chief.

The "Work or Fight" order is meant to reach all classes and conditions by the side of the road to the millionaire in his limousine.

America expects every man, woman and child to do his or her duty. Giving is not enough. Financial standing has nothing to do with working. You do not have to wear khaki to be patriotic. Only the fruits of toil will win in this world war. Labor is needed now—intelligent, persistent and increased efforts will go to create the vital sinews of war. The millionaire's thousands go toward buying cannon—but if no cannon are made, 'tis a useless investment.

Men and women who are physically able must work whether they are worth a million or owe that much. Let's be 100 per cent American.

Free exchange of newspapers is no longer permissible. We, however, contend that to mean with an unequal exchange. Weekly papers are not free exchanges, but value received in exchange.—Miami Chief.

This is the same construction placed on the Industrial Board's ruling. Weekly newspapers are not included in the order to discontinue the exchange system and our exchange list will remain undisturbed. In case the ruling should include the weekly Press, The News will send the Miami Chief \$1.50 and they in return will send us \$1.50 for our paper. But why this useless exchange. It is a matter of "you subscribe for our paper and we will subscribe for yours."

Registration, August 24

WASHINGTON, Aug. 16.—Provost Marshall General Crowder issued a statement today emphasizing that all male citizens who shall have reached their twenty-first birthday since June 5 last must register for military service on August 24 regardless of any presumed ground for exemption. Opportunity to claim for exemption will be afforded subsequently in the filling out of questionnaires by registrants.

"Provision will be made for the registration by mail of any person who expects to be absent on registration day from the jurisdiction of the board where he permanently resides," says the statement. "But in such cases extreme care should be taken by him to see that his registration card reaches his home board on or before August 24. Such persons are advised to apply at once to local board for instructions as how to proceed."

The report has been circulated that J. E. Rogers placed handcuffs on Grover C. Myers, the deaf and dumb boy, and took him to Amarillo three years ago. This absolutely is false. ANOTHER KNOCK

We saw a man from Texas this week, who reports that drouth is threatening to wipe out the cattle breeding industry in that country. The Amarillo district is barren of vegetation and so is everything west to the Rio Grande for there has been no rain for many months. Cattle are being sold at a sacrifice for canners and the breeding stock dumped on the market. The cattlemen are broke and financially unable to carry their stock any longer unless the government comes to their relief and a delegation has gone to Washington to see about the matter.

The above clipping was taken from the last issue of "Field and Farm," published at Denver, and was doubtless occasioned by the report recently given out by Secretary O. L. Williams, while in attendance at the meeting of Federal Food Administrators held at Houston.

It is likely that the appearance of the fields of maize and kafir in the vicinity of Amarillo at this time would somewhat surprise the reader of the above account who came here looking for a land "barren of vegetation." It is unfortunate that such a report was given out but, with the intention of getting help for some of the counties in the really drouth-stricken part of Mr. Williams territory, he told the assembly of the exceedingly serious conditions that prevail in those sections and their extreme need. As Mr. Williams was from Amarillo, the report was taken to include this section.

No attempt has ever been made to deny the fact that Potter county and the entire Panhandle has suffered from drouth but east Texas and south Texas as well as portions of other states, are much worse off than any of the Plains country. Our soil is so constituted that it will produce on the minimum of moisture while the soil of sections accustomed to more rainfall, became sure enough "barren if they do not receive their quota."

People all over this section are resenting the publication of such an unwarranted report. From Amarillo more rainfall, become sure enough north to the state line, there are many farmers who will have better row crops this year than they have had for several years past.

Eighty miles south in Hale and Lamb counties, crops are promising and even as far south as Terry county, the row crops are looking good.

Commenting on the report, the Plainview News says:

East and North Texas newspapers gloat in telling of the "severe drouth in West Texas." We notice of an article telling of a family being forced to leave "Mills county, in West Texas" on account of the drouth. Mills county is not in West Texas—it is not twenty miles from the exact geographical center of the state. The facts are, the drouth in Central and South Texas is as bad as it is in Central-West Texas (from Weatherford to Pecos). Here on the Plains fair crops are being made, in most instances, and nobody has been forced to leave the country. —Southwest Plainsman

The conservation of print paper, urged by the Government has caused increased prices in everything that goes to make up a newspaper. We are not allowed to send out free copies, to anyone, and for this reason we must collect for subscriptions sent in advance. All subscribers in arrears must pay up or your paper will suddenly be stopped. Look for the date on the wrapper and see when your time is out. Please take notice of this and should your paper be discontinued, a remittance will bring it forth again. This will be strictly observed September 1.

WHY SO WEAK

Kidney Troubles May Be Sapping Your Life Away. Canyon People Have Learned This Fact

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, dizzy spells and urinary disorders, weak kidneys may be the cause. The slightest symptom of kidney trouble is too serious to neglect. Doan's Kidney Pills have earned their fame by their effectiveness in strengthening the kidneys and keeping them well. Here is Canyon testimony to prove their worth.

Mrs. A. L. Abrams, says: "My back was weak and ached and my kidneys were irregular in action. It took only a few boxes of Doan's Kidney Pills, procured at the Holland Drug Co., to cure me and I haven't had any kidney trouble since. I advise anyone to try Doan's, who is bothered that way." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Abrams had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Most Extraordinary In Value Are these New Welworth Blouses

The fixed uniform price of the Welworth Blouses throughout the entire Country has been \$2.00 for the past several years—Despite advancing materials and labor costs—the price has not as yet advanced, while the quality has been fully maintained—making the values greater than ever in the past.

Isn't there a deep feeling of satisfaction to know that the Blouse you buy is of the same new modish style that is being offered for the first time in the Country's style centers.

Likewise, to know that the price you pay for the Blouse is the lowest possible price at which a Blouse of like character can be sold; that the price you pay is, in fact, the exact price at which the same Blouses are sold in the largest stores in the largest cities.

And is not this assurance adequate reason why you should prefer the nationally known and nationally favored Welworth, the Blouses that are sold at the same price the nation over?

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

CHURCHES

Presbyterian Church
Dr. Garth will occupy the pulpit at 11 a. m. Sunday. The pastor J. S. Stapleton has been granted a two weeks' vacation and will be in Wichita, Kans., the two Sundays with the view of taking work there. The altitude is proving too high for Mr. Stapleton and a lower altitude seems necessary.

If he accepts the church in Wichita, he will send for his family soon.

Prof. J. W. Reid will occupy the pulpit the 1st Sunday in September at 11 a. m.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

HOW THE MARINES RECEIVED CROSSES

DESCRIPTION OF THE CEREMONY OF THEIR DECORATION BY THE FRENCH NATION.

THEIR HEROISM IS LAUDED

Our Army Needs More Chaplains and is Training Them—Uniform Physical Standards Adopted by War Department—Hollow Tile an Essential.

(From Committee on Public Information.)

Washington. — Marine corps headquarters gives the committee on public information a graphic account of the decoration of American marines with the French Croix de Guerre for heroic service in battle last May. It says in part:

"Within the sound and range of the German guns, hidden by the sheltering trees of a dense forest, under a heavy morning mist and a driving rain, French veterans of Verdun, the Marne, the Aisne and the Somme honored their younger comrades of America by conferring upon them the Croix de Guerre. Thirty marines, including five officers, were awarded this coveted French decoration for gallant conduct, courage and coolness in action against the enemy during the occupation of a sector by the marine brigade. Of the total number cited in French orders for this decoration only eleven were present, three having been killed in action and sixteen were wounded and in the field hospital.

"A number of French soldiers were decorated at the same time. As is the custom half a company from each of the companies whose men were honored was present and drawn up so as to form a square. The presentation of the decorations took place within this human enclosure. The marines and poilus, side by side, presented a picture symbolical of the close bond existing between America and France in this conflict and particularly so of the manner in which marines have worked and fought with the French soldiers during the period of their instructions in an adjacent sector.

"The French general who pinned the decorations on the breasts of the proud marines eloquently praised their achievements in a short speech in which he summarized their deeds of bravery, remarking on the fine state of discipline and efficiency of the brigade, and congratulating its commanding officer upon his excellent organization. He then pinned the little bronze emblems on the men, and shook each one by the hand with a personal word of congratulation."

Uniform standards of physical examinations governing entrance into all branches of the regular army, the national army and the National Guard have been adopted by the war department and will be observed by the army medical department and the local and medical advisory boards under the selective service regulations.

Observance of the new rules and regulations by the local boards will result, it is believed, in uniform examinations in all parts of the country and should prevent men physically disqualified for military service from being sent out to camps. The new standards also will enable local physicians to make examinations with a better understanding of the needs of the army and will clear any misconceptions and misunderstandings that might result in the sending to camps of men who had been rejected.

Heretofore the physical standards of the three armies have differed and instances have been noted where men who have been rejected for service by the recruiting officers of the regular army have been accepted for military service by draft board physicians. Under the new uniform standards this will not be possible unless the disqualifying defect has been removed. The rule for all three armies is that to make a good soldier a man must be able to see well, have comparatively good hearing, his heart must be able to stand the stress of physical exertion, he must be intelligent enough to understand and execute military maneuvers, obey commands, protect himself, and must be able to transport himself by walking as the exigencies of military life may demand.

Exceptions from the new standard rules are made in the case of men selected for special and limited service. The experience of the past year has enabled the medical authorities to establish these new standards of examinations which will relieve the local boards of doubt as to decisions in unusual cases. Enough such cases have been examined to establish a policy in determining their military fitness. Instructions are given as to what classes of men may be accepted for limited service, and for treatment for remediable defects.

Nearly every motion picture theater in the country is enlisted in the campaign of the United States employment service of the department of labor to supply labor to the farms. Eleven of the largest motion picture manufacturers are co-operating with the farm service division in its drive for maximum food production. These film producers are releasing to their subscribers—the theaters—moving picture "trailers," calling on all those who possibly can do so to volunteer for harvest work and other forms of emergency farm labor.

The army is in need of chaplains, says the war department. A chaplain is needed for every 1,200 officers and men. A special kind of chaplain is desired—a sturdy, upstanding brotherly man, between twenty-one and forty-five years, who has deep solicitude for the welfare of the soldiers.

There is a special school for army chaplains at Camp Zachary Taylor, near Louisville, Ky. About 200 chaplains come from this school to take up their work with the army after a course lasting five weeks, and the courses go on continuously. Approximately one-fifth of the clergymen who start the course fail to complete it or to qualify for the army.

Candidates for admission to the school must have the endorsement of their denomination superiors and organized religious bureaus and boards recognized by the government authorities, and must pass the physical tests of the local army draft board. At the school the student receives free subsistence, lodging and uniform and \$33 a month, which is the pay of a first class private. After completing the course successfully the government returns the student to his home, and when he is appointed to the army he takes the rank and pay of a first lieutenant of the national army, \$2,000 a year at home and \$2,200 a year abroad.

The training of a chaplain is practical and intensive. His days in school are busy ones. He rises like any common soldier at 5:45 a. m., has fifteen minutes of setting up drill and is required to circle around the parade ground at double time before breakfast. He must police his quarters like any other soldier, undergo an infantry drill without arms of 45 minutes, and then attend lectures and recitations. The latter cover military and international law, service customs, and field service regulations pertaining to a chaplain's duties. The school surgeon instructs him in sanitation and first aid, and experienced chaplains give clinics on actual work with the army. He is given instructions also in horsemanship, because in field service he will be a mounted officer.

The priorities division of the war industries board has decided that hollow tile manufacture is in part of national importance and confirmed manufacture of tiles throughout the war period will be safeguarded by giving the industry a place on the preference list for fuel and transportation.

Judge Edwin B. Parker, priorities commissioner, in a letter to the hollow tile manufacturers, says: "The priorities board is of the opinion that yours is in part a war industry because your product is used in many of the building operations carried on directly by the war agencies of the government, and in the collateral yet indispensable housing programs which are being and will be prosecuted in communities where soldiers, sailors and war workers are being concentrated.

"In the opinion of the board your industry also is in part one of national importance in that a portion of your product is used in land drainage operations and in ensilage savings processes making possible a higher production per acre and per farmer of foods and feeds, taking into account the labor expended in applying such products to the land."

Hollow tile manufacturers must give a pledge of co-operation with the government that they will not use materials except in the manufacture of products for essential uses as defined and applied by the priorities division of the war industries board, and that they will guard against resale of the product for any except essential uses. There will be permitted, however, sales of small quantities of tiles for repairs or extensions to existing structures involving in the aggregate a cost not exceeding \$2,500.

The war industries board has decided that motor trucks are war essentials and that in civilian industries they constitute an important transportation medium and their production should be facilitated and not curtailed. But no pledge to see that motor truck manufacturers got all the steel they wanted was given by the priorities division of the board.

Judge Parker, priorities commissioner, observed: "The manufacturers and dealers fully realize that steel is today the world's most needed metal and that, in view of the urgent war demands of this nation and the allies, it is well nigh unreasonable to consume a pound of it that can be saved. They pledged themselves to reverse their practices of normal times and, instead of selling through solicitation as many trucks as possible and furnishing new trucks to replace old ones, to use their utmost endeavor to induce owners and operators to repair old ones and use the trucks they have as long as possible, to operate them fully loaded, and, through shifts of drivers and otherwise to keep them in use during the greatest possible portion of the day."

The department of agriculture suggests to farmers a gas attack on bean and pea weevils, which annually destroy millions of dollars' worth of valuable food and feed. Use carbon disulphid. The weevil has not discovered the advantage of a gas mask.

Miss Mary Van Kleec, director of the women in industry service of the department of labor, announces the creation of a committee of experts.

The committee will visit various centers where women have been drawn into industries at work on war contracts. Hazards such as the use of industrial poisons will be inquired into with reference to their effect on the health of the women employed, and whether the effect is so detrimental as to justify an order prohibiting such employment.

of CHICAGO DAILY NEWS for

Star Telegram Readers

Many years before the outbreak of the great War the Chicago Daily News instituted its foreign news service, which today is writing this important chapter in the world's history as it will not be written again. When the "Big Story" broke, The Daily News' foreign news service was waiting and ready to report it. From tangled threads of intrigue and suspense which preceded the actual conflict to the settled struggle which is now being waged over hundreds of miles of battle lines no important phase of the story has escaped these reporters of history. They have made the issues of The Chicago Daily News since the war began perhaps the most satisfying record of the war.

In practically every other news center in Europe and the Far East a member of The Daily News' foreign staff is stationed. Correspondents are placed in Denmark, Norway, Sweden, England, Scotland, Ireland, Italy, Bulgaria, China, Japan and Australia, to serve the Daily News.

Nor is the foreign news service of The Daily News limited entirely to articles and cabled messages written by these members of the staff members of active military units, such as Algernon Sartoris, until recently of the Foreign Legion, and Norman Klein, serving with Chicago's base hospital No. 12 at the front, frequently contribute articles that reflect activities which come under their observation.

All this Great Service is now being furnished Star-Telegram Readers.

Good Crops in Armstrong County

It was our good pleasure to visit at the pretty home of Mr. and Mrs. C. H. Brannan Sunday afternoon, where hospitality and good will reign supremely. Mr. Brannan has threshed 284 bushels of good wheat, regardless of the drought that destroyed most of our wheat. He has a very promising row crop and if the rains continue to come he will raise the best crop he has had for three years. Mr. Brannan has eight acres planted to Indian corn, fifteen acres to feterita, thirty-five acres to maize and forty

acres to cane. His cane is as fine as any we have seen in Armstrong county.—Claude News.

Should Raise 50 Chickens Each

Wanted: Ten thousand persons in Texas to pledge themselves to raise at least fifty chickens as a war measure.

This is the message that two poultry experts from the extension department of the A. & M. brought to the Tarrant County Poultry Association meeting at the Chamber of Commerce Monday.—Fort Worth Star-Telegram.

Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wondrous of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best efforts can provide.

This is accomplished with a wonderful remedy known as Mother's Friend. An external application so penetrating in its nature as to thoroughly lubricate the myriad network of cords, tendons, nerves and muscles just beneath the skin of the abdomen.

It relieves the tension, prevents tenderness and pain at the crisis and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the form is thus preserved.

It should be applied daily, night and morning, during the period of expectancy. By regular use it enables the abdomen to expand without the usual strain when baby is born. Naturally, pain and danger at the crisis is less.

You will find Mother's Friend on sale at every drug store. It is prepared only by the Bradford Equitable Co., Inc., Lamar Bldg., Atlanta, Ga. They will send you an instructive "Motherhood Book" without charge. Write them to mail it to you. Do not neglect for a single morning or night to use Mother's Friend. Obtain a bottle from your druggist today by all means, and thus fortify yourself against pain and discomfort.

Elected President for Third Term

At a meeting of the State Veterinary Medical Association held at College Station on July 29 and 30, Dr. N. F. Williams, formerly with the Panhandle Veterinary Hospital of this place but now in charge of the Kansas Germ Proof Blackleg Vaccine distributing station, was elected to the presidency of the Association for the third time. This organization is composed of graduate veterinarians of the State and the fact that they have thus honored Dr. Williams for three consecutive year attests to the high esteem in which the Doctor is held by his fellow practitioners.

Record Price for a Good Hog

C. L. Sanderson, who is farming on S. B. Dinwiddie's farm southwest of Tulia, was in Tulia Thursday and sold a splendid hog to J. C. Cowan. Mr. Cowan paid \$108.50 for the hog. Mr. Cowan said that this is the highest price that he has ever paid for a hog, and he believes that it is about the highest price ever paid on the Plains.—Tulia Herald.

War Time Sweeteners

AMERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening.

When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals.

Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a heavy syrup.

If sugar is used one-half of the amount may be replaced by another sweetener.

Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

TEXAS INFANTRYMAN TELLS KING GEORGE HE'S ALL RIGHT

One of the favorite stories among the soldiers overseas concerns a Texas infantryman who met the king and Queen of England at the noted Eagle Y. M. C. A. hut in London a few weeks ago. The actual event is related in a letter from A. O. McCune of Roswell, New Mexico, to H. P. Demand, of the Army Y. M. C. A. headquarters at San Antonio, and recently camp general secretary at El Paso. Here is the way it happened:

The King and Queen of England were visiting the Eagle hut where a large number of soldiers were enjoying the usual "Y" advantages. There was more or less formality about the event until a newly arrived Texas doughboy came in.

"Who's the little guy with the lady?" he asked.

They told him.

"You don't say so. Before anybody knew what was happening the big Texan had wormed his way through the crowd and was gripping the hand of the King of England, and saying in the well known Texas drawl:

"King George, is my name. I want to shake hands with you, and tell you that since we got over here and got acquainted with your fellows, we think you are all right."

The King seemed to enjoy the incident very much.

BRIEF WAR NEWS.

From Soissons to the Belgian border, the German armies in various important sectors are being put to the test by the French and British. And it is a test seemingly boding ill for the Teutonic arms, for nowhere have they been able to sustain the shocks.

Northwest of Soissons from the Aisne to the Oise, north of the Oise to the region around Roye; in the Arras sector and northward on the famous Lys salient, the Germans everywhere have been compelled to fall back under the pressure of the French and British troops.

In a new offensive launched by the French, General Mangin over a front of approximately fifteen and a half miles, from Bailly on the Oise to the Aisne near Soissons, the French in bitter fighting have carried their line to an average depth of two and a half miles and in the first phases of the battle, had turned to French possession numerous enemy-held villages and farms. In addition, more than 8,000 Germans had been herded behind the line, prisoners.

At last reports Mangin's men were still hard after the enemy and unofficial accounts placed the French on various sectors well in advance of the positions outlined in the French official communication.

Along the Scarpe, east of Arras, Field Marshal Haig's forces have kept up their harassing tactics against the enemy who has been compelled to fall back eastward along the Scarpe river. The German's resisted vigorously, but all to no purpose and the British advanced their lines to the east of the village of Fampoux. Although Haig claims only a slight forward movement here, particular significance attaches to it by reason of the fact that the Germans have been driven back until they are virtually on the old battle line as it stood in December, 1917.

Northward, the Lys salient again has been narrowed down by the operations of the British who, north of Merville have taken the villages of Vierhoek and La Couronne, and also reached the hamlet of L'Epinette. This gain represents a forward movement of about a mile and a half and places the British astride the road running southeastward to Estaires.

The new victories of the allies are highly important. The advance of the French northwest of Soissons, taken in conjunction with the successful maneuvers on the Lassigny sector and south of Roye, where Beuvraignes has been captured, seemingly means that the enemy forces from the Somme to the Oise must soon give up their positions and retreat eastward. It is not improbable Noyon is well outflanked on the south and southeast and the German line is noné to secure north of Soissons, that the enemy will be under the necessity of moving his troops northward from the Vesle toward, if not across the Aisne.

The Germans are stubbornly contesting with the British, points of vantage on the line south of the Somme near Chaules and north of Roye, which are still in German hands and which are the keys to the enemy's defense line. With the capture of Beuvraignes by the French, Roye apparently is on the eve of falling and with its fall doubtless the entire line northward to the Somme also will give way.

The Germans in the Merville sector of the Lys salient everywhere, are being closely followed by the British as they give up positions, under attack and at last accounts they were showing no indication that an immediate halt is in their mind. On the Lys front, although the Germans are showing some resistance, they are not putting their hearts into their work.

There has been little fighting along the Vesle where the Americans and French are facing the enemy.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quart of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

National Forest Receipts Increase

Receipts from the National Forests in the fiscal year, 1918, ending June 30, exceed those for 1917 by almost \$120,000 and totaled over \$3,574,000. The increase does not come up to the big increase of the year before, which was more than \$600,000, but still shows a healthy growth in most lines of business on the Forests. The cost of operating the Forests was about \$4,000,000, and was practically the same as in the previous year. This is exclusive of the additional expenditures caused by the very serious fire situation and for which a special deficiency appropriation of over \$700,000 was made by Congress.

This year's increase in receipts, according to the forestry officials, came mainly from the large number of livestock grazed, although every revenue-producing activity on the Forests except timber business and permits for water power contributed its share. The timber business fell off in consequence of the general let-up in private building activities on account of the war, the dislocation of transportation facilities during much of the year, and the labor situation, especially in the Northwest, where the timber business is ordinarily largest.

The falling off in receipts from water-power permits was caused, it is believed, by the uncertainty created by pending legislation. Many prospective permittees are holding back until final action has been taken on the legislation now under consideration.

Timber sales yielding over \$1,500,000 and livestock grazing over \$1,700,000.

Slightly less than \$100,000 was brought in from permits for water-power development. Other forms of land occupancy, including leases of land for summer homes, hotels, club grounds, apiaries, fish hatcheries and canneries, brought in about \$120,000. The sale of turpentine privileges on the Florida Forest brought in a little over \$8,000.

Much of the use of the National Forest is free. Settlers and residents of the small communities in and near the Forest are allowed without charge reasonable amounts of wood for fuel. In addition, the settler may obtain timber for use in the improvement and maintenance of his farm and is privileged to graze free not to exceed ten head of milch and work animals.

Fees for grazing cattle brought in approximately \$1,089,000 and for sheep \$663,000. Special efforts were made during the past year to increase the use of the ranges to the fullest extent in order to meet the need of the nation for meat, wool, and hide production. On one Forest now range for 75,000 sheep was opened by building a special barge to transport the sheep across a lake to high mountain grazing land which could not be reached any other way.

WONDERFUL STUFF! LIFT OUT YOUR CORNS

Apply a few drops then lift corns or calluses off with fingers—no pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a pang of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands—each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

Woman Punishes Man

The man was talking loudly, attracting the attention of other passengers on a McKinney avenue street car yesterday afternoon.

"I hope the war keeps up," he said, in substance, "I am making more money than I ever made in my life before."

A woman sitting on the other side of the car arose, crossed the aisle, and, with both hands, slapped the man vigorously on both sides of his face.

"Take that from my boy in France," she said.

The man subsided finishing his ride in utter silence.—Dallas News.

Guarding Our Lines

Guarding our lines is like guarding our health—we must encourage the care of our bodies—train our organs for bodily endurance, efficiency and full achievement. It is not so much a necessity to fight disease as to cultivate health.

If we want to increase our chances for long life—Dr. Pierce, of the Surgical Institute, Buffalo, N. Y., says: "Keep the kidneys in good order. Try to eliminate through the skin and intestines the poisons that otherwise clog the kidneys. Avoid eating meat as much as possible; avoid too much salt, alcohol, tea. Try a milk and vegetable diet. Drink plenty of water, obtain Anuric (double strength), for 60 cents at druggists, and exercise so you perspire—the skin helps to eliminate toxic poisons and uric acid."

For those easily recognized symptoms of inflammation, as backache, scalding "water," or if uric acid in the blood has caused rheumatism, "rusty" joints, stiffness, get Anuric at the drug store, or send Dr. V. M. Pierce, Invalids' Hotel, Buffalo, N. Y., 10 cts. for trial package.

STROUT, OKLA.—"I suffered for a year with kidney trouble. I saw Dr. Pierce's advertisement in the paper and wrote for a trial package of 'Anuric.' It helped me so much I went to the drug store and bought a supply of Dr. Pierce's medicine. I bought four bottles of the 'Golden Medical Discovery' one package of the 'Anuric Tablets' and a vial of the 'Pleasant Pellets.' The 'Golden Medical Discovery' and the 'Pellets' cured me of bowel trouble, and the 'Anuric' of the kidney trouble.—MRS. MARY JANE FISHER, ROOM 3.
