Crops Around Tulia

Ye editor and family were pleased to accept a seat in Mr. and Mrs. E. W. Baker's automobile last Sunday afternoon. We drove northeast from Tulia for a few miles, and viewed the farms and cattle in that section. In a number of places considerable rain had fallen, and the crops and grass were looking fine and the cattle fat. In others it was bordering on a very dry state. In spite of this, however, we still have great faith in Swisher county and believe that the showers will keep falling in time for us to make row crops. We also took advantage of the opportunity to visit Mr. J. D. Vaughn's irrigated farm, south of town. The tall grain, waving shoulder high and above, was indeed an inspiration and pleasure to behold. Truly our soil is wonderful, and the combination of soil and water, are sure winners for our thrifty farmers.-Tulia Herald.

Will Gradually Eliminate German

The Snyder school board were presented recently with a long petition asking that the teaching of the German language be eliminated from the course of study in the Snyder schools. The board took the matter under serious advisement and agreed to the proposition that the study of German must be dropped from our curriculum, however, for valid reasons they hold that it should be done gradually, that after this no new classes will be started. There will be no first year German this year, and no second year German next year and the study of German will be entirely eliminated after two years.-Snyder Signal.

Undoubtedly the most interesting sight the past week or two within the limits of Camp Pike, Ark., has been out on North Boulevard where some six or seven thousand Iowa selective draft men are being given their meals three times each day. Sergeant Thos. A. McGivney had to meet the biggest emergency in the mess line ever known in Camp Pike. With a force of 25 cooks and 150 Kitchen Police (K. P.'s) the entire number was passed through the mess hall in 40 minutes. The rookies came through in eight double column, eating, eating in the open wherever they could find the space.

Mrs. W. T. Garrett will leave today for Dallas where she will be with her daughter until her husband joins her.

A. S. Rollins was in the city several days this week attending court. Miss Ora Cage, formerly of this city has been appointed by the Civil Service to go to Washington, D. C. where she will be engaged in clerical work.

Mrs. Elmer Prichard returned Tuesday from Montana where she has been visiting some time. Elmer met her at Denver, Colorado.

W. O. Bennett of Taylor, a former citizen of our town visited several days with friends and relatives here. He was connected with the City Pharmacy several years ago, and still rejoices in seeing old friends.

Transporting Our Troops
The world has been astonished at the great number of American soldiers transported to Europe in the last year. The number now approximates 1,500,000, and the loss of life in transporting them has been almost infinitesimal.

The success with which we have moved our troops from the scattered camps in this country and across 3,000 miles of ocean to the battle front is great evidence of American efficiency. We have not only surprised our enemies; we have surprised our friends and ourselves.

The British controller of shipping, Sir Joseph Maclay, speaks of this movement across the sea as "A transport miracle." We have been inclined to attribute this achievement solely to our Navy and our shipping,

but the British controller speaks in high praise of the share the American railroads had in the work. He says:

"If the American railroads had not been operated with success the whole transport movement might have failed, because it was essential to quick transportation that the troops should be ready for the ships."

Director General McAdoo seems justified in his statement that while the development of the policy of the Railroad Administration requires time, progress has been made toward the goal.—Weekly Press.

Letter From Hud Prichard
The following letter was received by Chas. Harter from Hud Prichard who is in the Navy at Mare Island, Calif.

Say Chas, the Navy life is great. There was nine of the boys here on the Island at once, but Johnson has gone to San Diego and Dooley, Downing and Edmonds leave for the same place Tuesday, so that only leaves five of us here.

Carlton, Meyers, Ira Macken, Fat Prichard and myself, but boy we give them to fit ourselves. We are all together all the time.

I do not know when we will leave here, but hope to soon.

Tell some of the bunch to write to us.

We have plenty to eat and more time to sleep.

Your friend,
H. PRICHARD.

Aeronautic Stunts

When the next Liberty Loan drive is being waged throughout the country, the leading cities of the South and East will have an opportunity to see one of the most famous daredevils in the aeronautic world today. Rudman, who has probably startled more persons by his feats of daring than any other man in the United States will repeat a stunt which was one of the features of entertainment arranged for Secretary of the Treasury McAdoo when he was at Kelly Field, San Antonio, Texas, last fall. Law leaped from an aeroplane which was traveling over 5,000 feet in the air at better than a mile-a-minute, and descended to earth safely in a parachute. Reiteration of the feat recently by an aviator in France was the cause of considerable comment in the French papers. Law's itinerary, if it goes through as planned, includes the following cities: Kansas City, St. Louis, Chicago, Cleveland, Buffalo, Albany, N. Y., Boston, Providence, R. I., New Haven, Conn., New York City, Washington, Philadelphia, Richmond, Va., Chattanooga, Tenn., Mobile, Ala., and New Orleans.

Re-Education Institutes

ST. LOUIS, Aug. 22.—George W. Simmons, manager of the American Red Cross for the Southwestern Division, is completing plans for caring for wounded and crippled soldiers sent to this section of the country. The American Red Cross plans to operate re-education institutes in which sailors and soldiers will be taught new trades and maintained while learning.

A Red Cross Bureau has been established in St. Louis to obtain positions for civilian cripples. This bureau has already created a demand for such workers and when the sailors and soldiers crippled in France return the work of the bureau will have become so well known that the Red Cross will find little difficulty in finding them positions, it is believed.

It is planned to establish such Bureaus in all the large cities of the Southwest.

Private Henry H. McGilvery, Camp Pike, Ark., claiming to be a Seventh Day Adventist, was recently sentenced to five years imprisonment for refusing to clean a latrine on Saturday, claiming that day was his Sabbath.

In receiving the case, Colonel Miller, Camp Commandant, held that such work was a military duty and must be performed on any day that it was necessary, regardless of one's religious beliefs on the matter of Sunday or Sabbath labor. The finding goes on to say that no more rights can be given a man claiming Saturday as his Sunday than to one who recognizes the usual Sunday.

Letter from France

The following letter was received from Geo. B. Jordan, who is in France, by Miss Alexa Gordon-Cummings. He is a member of Co. F., 359 Inf., A. E. F.

Somewhere in France, July 24.

Dear friend: You cannot imagine how glad I was to receive your letter. It was the first news that I have had from Canyon since June 1st. It made me think of home and I sure will be glad when the day comes that I may be permitted to be with you all again. Our trip over was simply grand. We had one day of rough sea and I fed the fish. I saw great schools of fish. They were as large as those big white-face cows or yours. I went through England and it was a pretty country. Everything was so green. All houses were built of brick and covered with red tile or slate. All the houses in France are built of grey stone or stucco covered with stone or with red tile. Most of them are very old. I celebrated the Fourth of July in England. We had speeches by a representative of the Belgian, Italian, New Zealand, English and American governments. We had baseball games and boxing in the afternoon, but now I'm near the firing line and can hear the big guns at night, and sometimes we can see the big searchlights as they play in the heavens hunting enemy air craft. I have seen many German prisoners and they do not look as bad as our people at home have pictured them. I have seen a German bayonet that a French soldier took off a German at the battle of Verdun and sent home to his wife. The top of it is made like a saw so it will tear such a hole that the victim cannot recover. The French are great people. They treat us fine. We live in a village in vacant rooms. Our first night here they treated us with wines. We are all anxious to get up on the line and we may get orders any day. I have seen soldiers of every nation on the Globe. Tell your dad that the most interesting of them all are the Scotch in kilts. They are smooth looking fellows, and have made a good rep for themselves even with the Huns. They call them "fighting ladies from Hell." I sure will have some good things to tell you all when I get back. Answer soon. Love to all.

George B. Jordan.

The following letter was received by Mrs. C. M. Thomas from her son, Zane, who is now in France.

Monday eve, July, 1918.

Dear Mother: I am somewhere on the Atlantic, but won't be long. I wonder how all the folks are at home. All well, I hope. I am just fine but would sure like to see some land once more for I am tired of looking at water, but just think it hasn't been three weeks since I left Texas and here I am five thousand miles from home and I am still going. Well mother I guess that you know that I am so that I can't tell you a thing for we can't tell anything about us or our surroundings so all I can tell is that I am well tell everybody hello for me and that I am in France because I will be a long time before you get this.

I can't write but two letters a week so you know that you will get one of them. Tell Grandma that I am all O. K. and well and to write me for I won't have much to cheer me in that God Forsaken country with the cooties and bullets. Will be busy for a few days after we land and it may not be long before I am in the front line trenches. I hope I can be home in a year from now but no one knows but here is hoping but I am not allowed to send any pictured or printed matter in our mail for you know that it is read three or four times before you get it but you all can write me real often for I like to hear from you and tell me all the news. You know that is what I would like to know say find out what outfit Will Hay is with and all and let me know and maybe I can get to see him and find out what outfit Ray is with and I may have a chance to see him. Tell Eugene and everybody hello for me; maybe some day I will be back to see them. Well be good and write to me often.

With lots of love and kisses,

Your boy,
ZANE.

Time: Plenty

Dear Homefolks: Admitting nothing, denying nothing, and demanding the proof of everything, I beg to submit the following lines, Wherein I expect to say nothing. Being neither here nor there, the question is, "where am I?"

I am feeling like a four year old, haven't been sick a moment. Ford also is well, hearty, and as full of "pep" as an ordinary pedagogue of "Pull-tight" fame can be.

Our trip has been a pleasant one, so much so that we both long to review the course already run. That is, we want to make here (when the war is over, God grant it may be soon) a new point of departure, retrace the old line or run a direct course back to the place of beginning.

Events have been numerous, and to one blessed with a sense of humor, very happy ones. All of us have laughed some, some of us a great deal, others of us have furnished joy for both man and beast.

Trusting that this reaches and finds you well and happy, I am thinking of you always, loving you dearly, and forgetting you never.

OTHERS

Men in the West Texas State Normal College below college rank may join the college companies when of proper age and strength, other conditions being satisfied. They may receive military instruction along with their fellows and join the Students' Army Training Corps when they have made sufficient progress in their studies to enter the college (Junior Class). These must furnish their own uniforms. This preparation would stand a young man well in hand when called to the colors at any time.

School opens September 10, 1918.

High Class STATIONERY
to Create a Good Impression

The Very Latest Styles

It's an old, old saying that the people you write to often judge you by your stationery.

And there is a great deal of truth in the fact that stationery can be so chosen as to reflect the best of judgment and taste.

Stationery suitable for one occasion may be entirely out of place for another. Then, too, the styles in stationery change the same as styles in clothing.

To be sure that your stationery is right for all purposes, always buy it here.

The Art of Forgetting
By H. Addinton Bruce

Ability to forget is just as important as ability to remember. In fact, a man's success in life depends to a large extent on cultivation of the art of forgetting. So does his health. One aspect of the importance of forgetting was long ago presented forcibly by the psychologist William James when he pointed out: "If we remembered everything, we should on most occasions be as ill off as we remembered nothing. It would take as long for us to recall a space of time as it took the original time to elapse, and we should never get ahead with our thinking."

And, to borrow an apt illustration from Robert S. Carroll:

"Watch the trained, systematic man as he rapidly opens his daily mail and sort its contents. If not accustomed to such methods, you will be surprised, probably dismayed, at the amount of material that never finds an abiding place in drawer, pigeon hole, or classified assortment, but is consigned to the waste basket."

"In response to your question he will probably reply with a serious smile that his waste-basket is the most valuable piece of furniture in his office. Were it not for that a few weeks would find the room, now the scene of order, piled ceiling high, and uninhabitable, because of the accumulated mass of useless trash."

"So is it with a mind that has not attained the power of rejection, has not developed active and aggressive forgetfulness."

Worst of all is the plight of the man who does not appreciate the importance of forgetting the trivial slights, annoyances, disappointments, and pains of daily life.

His tenacious memory for these does more than interfere with his memory for things of real importance to him. It also tends to affect his character, to embitter him, to develop in him the mood of the chronic fault finder or worrier.

Then it is that his health begins to be a consequence of his failure to cultivate the art of forgetting.

For his persistent irritability and fretful anxiety slow down in some degree the vital processes. Indigestion, insomnia, nervous exhaustion are logical results.

Ability to forget the annoying is his prime need. An ability to forget the annoying depends on just one thing—disregard of the annoying.

Always remember that to which we pay most attention. Always we forget soonest that which we pay little or no attention.

Herein is the secret of remembering and of forgetting. It is a question of selecting wisely from innumerable things which in our waking hours clamor for our attention.

Paying attention to the trivial and disagreeable we are certain to clutter

our minds with trash that should be consigned to the waste basket of forgetfulness.

Whereas, by concentrating on the important, we set our minds in order as the efficient business man sets in order his office.

Kaiser Calls for Greater Sacrifices

In a proclamation issued to the German people, Emperor William says:

"Four years of hard struggle have passed, full of eternally memorable deeds. An example has been given for all time what a people can do that stands in the field for a most just cause and for the maintenance of its existence."

"Gratefully revering the divine hand which has been gratefully extended over Germany, we may proudly say we were not found unworthy in the tremendous task before which Providence placed us."

"If in the struggle our nation was given leaders capable of the highest achievements it has daily proved by fidelity that it has deserved to have such leaders. How could the army front have preformed its tremendous deeds if the entire labor at home had not been carried to the highest measure of personal performance? Thanks are due to all who under difficult conditions have co-operated in the tasks set the State and community and especially to our faithful, unwavering officials. Thanks are due likewise to the countrymen and likewise to the women on whom in this wartime so much falls."

"The war year which is opening today will not spare the German people further privations and trials. But, whatever may come, we know that the hardest lies behind us."

"What has been attained in the east by our arms and safeguarded by peace treaties—what is being completed in the west—that gives us the firm certainty that Germany will issue strong and vigorous from this storm of the peoples which has felled to the ground so many a mighty race:

"On this day of remembrance we recall with pain all sacrifices which had to be made for the Fatherland."

"Wide gaps have been torn in our families, and the suffering of this terrible war has spared no German home. Those who as boys in their first enthusiasm saw the first troops depart stand themselves today beside their fathers and brothers as warriors at the front."

"Sacred duty commands that every thing be done that this precious blood does not flow in vain. Nothing has been neglected by us to restore peace to the devastated world. The voice of humanity, however, still finds no hearing in the enemy's camp. As often as we have spoken words of reconciliation we have been met with contempt and hatred. The enemy does not yet want peace. Without shame they smirch the name of Germany with ever fresh calumnies. Again and again their mouthpieces declare that Germany must be annihilated."

"We must, therefore, continue to fight and to labor until our enemies are ready to acknowledge our right to existence. Just as we have victoriously fought for and gained it against their overwhelming onslaught."

"God is with us."
"WILLIAM R. I."
"In the field, July 31."

Editor's note: If God is with this war-mad beast, then all the teaching received by us has been in vain and the Bible is all false. We wonder if that old reprobate thinks God was with him when they murdered Edith Cavill, chopped the hands off little children, sunk the Lusitania and a number of other such outrages. We don't know just where God is in this war, but don't believe He is with the Hun. If He is the Allies are going to win anyway and it is beginning to dawn on the mind of that hypocritical old Kaiser, too.

Just put it down right now that your share of the next Liberty Loan is going to be big. Make the resolution to raise it, regardless of the amount. Randall county will have a very large quota this time, possibly twice as large as before, or even more than that. Let's begin the next campaign right now.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Fruit canned without sugar can be sweetened later by opening and reheating with sugar, sorghum, molasses, sugar cane syrup, white syrup, beet syrup, honey or maple sugar.

To The Good People Of Randall Co.

I wish to thank you for the splendid support given me in the recent primaries, I am especially grateful to the good women who were so helpful. Hoping that I may have the hearty cooperation of every good citizen in the County, I beg to remain.

Rheumatism Arrested

If you suffer with lame muscles or stiffened joints look out for impurities in the blood, because each attack gets more acute and stubborn. To arrest rheumatism you must improve your general health and purify your blood; the cod liver oil in Scott's Emulsion is Nature's great blood-maker while it also strengthens the organs to expel the impurities. Scott's is helping thousands who could not find other relief.

SOCIETY

A Farewell Gathering

At the Baptist Church Tuesday evening a large assembly of Canyon citizens came together in a farewell gathering in honor of Dr. Cousins who leaves us to make his home in the future at Longview. There were three addresses by the citizens and a response from Mr. Cousins. The exercises were conducted by A. B. Haynes who led us all into a most happy frame of mind, by his kindly words which drew all into one great brotherhood of interest. Dr. Wilson spoke in behalf of the business men, Prof. Willis in the behalf of the Educational interest, and Brother Fronabarger for the Religious interest of the community.

Mr. Cousins responded, as only Cousins can, in a way to make us all regret even more, if possible, than ever, that he was going away from us.

Then we all spent thirty minutes or more in friendly hand shaking and well wishing.—Contributed.

Delphian Club

The Delphian Society will meet next Monday afternoon at four o'clock at the Rest Room in the Court House for their first meeting after vacation. Plans for the winter work will be discussed and general organization will follow.

The lesson will be Outline Eight, first four sections. All members are urged to be present for the first meeting.

Gano-Gregory

Oscar W. Gano and Miss Alta Gregory were married Monday morning at 7:30 at the Methodist parsonage by Rev. R. A. Stewart. There was only a few present, and immediately after the ceremony the young people left on the early train for Dallas and other southern points. After a short visit they will return to Canyon to make this their future home.

Mr. Gano is one of Canyon's most progressive young men and has been associated with the Santa Fe for a number of years and has made good. He was candidate for the County Clerk and has been nominated by the last primary.

Miss Gregory is one of the popular young women of Randall county and has a host of friends who are glad to hear of the marriage. She has resided in Canyon for some time, making many friends, since she first came here.

Joining with the many friends of the young couple, the News wishes them a bright and happy future.

Lester-Jennings

Tuesday afternoon at eight o'clock Miss Ethel Jennings and Glen Lester were united in marriage by Rev. R. A. Stewart at the Methodist Church. Both were from Amarillo and left in their car on the road south to visit southern points.

Miss Phyllis Kelsner entertained a few friends at a slumber party Saturday night in honor of her birthday. Those present were Miss Dorothy Burrow, Ruth and Rose Stewart. In company they all went to the show. A good time was reported by all.

Thanks Voters

To all my friends that supported me in the recent election. I thank you with all my heart. I am very sorry that some people were not satisfied without putting out falsehoods. I will give \$1000 to any one that can substantiate that I had any thing to do with putting the flag on the church at Umbarger or took \$7 from any man for pound or ever was against the Normal or ever said that no one but gamblers and such like only was voting for Jennings. Here is hoping that all will go well in the future. I again thank you for your support.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach, or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

Fashionable Suits For Fall

Choice can be made from a variety of carefully selected, among which are suits with coats reaching to the knee or below with or without belts, and plain skirts, slightly longer than those of the previous season. The rich autumn tones of brown, gray, taupe and blue are exceptionally attractive. The present showing is of wonderful interest. Priced from \$25.00 to \$50.00

NEW FALL COATS

You cannot but admire the beauty and gracefulness of the straight lines, especially when trimmings are so cleverly applied that all sternness or severity is completely eliminated. Variety is not confined to styles, however, as there are so many colors and materials used in the making of these smart new models for fall. Prices range from \$27.00 to \$75.00

WHAT'S YOUR DUTY ABOUT CLOTHES IN WAR TIMES

You don't want to spend money unnecessarily; when you do spend money, you want to get all possible value for ever dollar; that's one way of saving money; one form of economy.

Maybe you can get along without new clothes; you may think that's queer advice for us to give, when we prosper by what you buy. But we want to help win this war; and we'll do it any way we can.

The point is, if you do buy clothes, be sure of the quality, the best fabrics, the finest tailoring, the most economical style. There's no better way to be sure of these things than to buy HART SCHAFFNER & MARX CLOTHES. We have the cheaper ones, too, from \$17.50 up.

COUNTY CORRESPONDENCE

WAYSIDE ITEMS

Quarterly Conference convened at Beverly Saturday. Presiding Elder, A. L. Moore, presided. A good sermon by the Rev. Mr. Moore at 11 o'clock, an excellent dinner on the ground, after which the business of the Conference was attended to. All the churches were represented except Silverton. A good meeting, enjoyed by all in attendance, at the close of the meeting it was decided to have the next quarterly conference the 4th and last at Red Hill.

Rev. A. L. Moore, presiding elder, preached at Red Hill Saturday night, also at Wayside Sunday morning, after which Wm. Payne carried him to Tullia for services at night.

A meeting is in progress this week at Red Hill conducted by Rev. Zoro Birtle.

A re-union of relatives and friends of old occurred last Tuesday when Mrs. Hugh Lucas and children Clyde and Lucile of Grand Prairie, Texas, I. C. Jenkins, wife and sons, Merle and Ira and Miss S. L. McGehee, Mr. and Mrs. D. Williams and Alta; also Mrs. S. Poole and daughters, Misses Elsie and Winnie of Canyon, W. I. Lane, wife and children, J. T. M. L. and W. D. McGehee, W. R. Franklin, wife and boy, Mr. and Mrs. Wm. Payne and baby Doyle of Wayside, met at W. J. Sluders. A good time was enjoyed by all.

Willie Andrew, oldest son of H. H. and Margaret Gillham, died Monday night, August 26, after an illness of three days. "Billie" was riding horseback Saturday morning, driving up the work stock; on crossing an old road his horse stumbled, throwing him off and falling on him. He was severely bruised and suffered excruciatingly during he greater part of the time he lived. He was 11 years and 10 months old. Rev. B. T. Sharp of Tullia held the funeral services, after which he was tenderly laid to rest in Wayside cemetery. The sorrowing loved ones have the sympathy of the entire neighborhood.

W. J. and J. S. Sluder made a trip to Amarillo, Tuesday.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVES' TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Worms will be thrown off or expelled the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

Fighting on Mexican Border
 NOGALES, Ariz., Aug. 27.—One American officer fell fighting in the streets of Nogales today, one civilian was killed, another officer seriously wounded and between ten and twenty American soldiers killed during the skirmish which took place along International avenue between American troops and Mexicans in Nogales, Sonora. Approximately 15 Americans were wounded including Lieut.-Colonel Frederick J. Herman, who was shot through the right leg while commanding the American troops, but continued in command on crutches. The dead include Captain J. D. Hungerford, who was killed during the first hour of the fighting. Lieutenant Luke W. Fofteu was seriously wounded.

While the casualties on the Mexican side of the border were not known tonight, it was estimated that 100 had been killed by fire from the American side while at least twice that number, including a number of civilians, were wounded. It was reported tonight that the mayor of Nogales, Sonora, was killed, but this was not confirmed.

The fighting followed the alleged efforts of a Mexican custom officer to smuggle a fellow countryman across the boundary into the United States. An American sentry attempted to stop him. Two Mexicans fired at the sentry across the street, striking him in the right arm.

The fire was returned by American patrols and after Mexicans rushed from nearby buildings and started shooting across the line from behind buildings and walls the firing became general.

Reinforcements from the 35th Infantry detachment and the Tenth (colored) cavalry were rushed to the border and took up combat positions. It was reported tonight that a detachment of the Tenth Cavalry crossed the border in pursuit of the Mexicans, but this was not confirmed. The fighting, which started at 4:05 p. m., continued without abatement until 5:30 when it died down except for an occasional snipe shot along the International street.

At 5:30, a white flag was displayed by the Mexicans, a parley followed but the sniping continued until after 7 o'clock. Bullets fell in Nogales and civilians were ordered to remain indoors and out of the zone of fire.

Adobe houses whose walls cannot be pierced by high powered bullets were especially popular and many families spent the night in these buildings with friends.

Use Ice as a Necessity
 Do not waste ice, says United States Food Administration. Its use as a luxury to serve with salads, fruit, and sea foods and put more than is necessary in glasses of water, tea, and other drinks should be discouraged.

There is to be no curtailment on the use of ice as a necessity, but it should be used carefully in localities where any shortage is indicated. It is considered a necessity when used to preserve food and in administering comfort, and every reasonable effort will be made to see that families are supplied with their legitimate needs.

As a general thing, after a man succeeds in accumulating a fortune his theory is that people get about what they deserve in this world.

Mr. Peavish says that he doesn't know the reason for it, but since woman suffrage came to Texas his hens crow every time his rooster coughs.

Of course it is none of our business but folks would be a lot cooler if they could fan their heads with their ears.

**Grandma Talks
 About Babies**

Has a large Circle of Listeners Who Profit by Her Wisdom and Experience.

In almost any community there is a grandma who knows Mother's Friend. Not only is she reminiscent of her own experience, but it was through her recommendation that so many expectant mothers derived the comfort and blessing of this famous remedy.

Mother's Friend is an external application prepared especially for expectant mothers after the formula of a noted family physician. It certainly has a wonderful effect in relieving tension brought about by expanding muscles, and is a most grateful encouragement to the woman awaiting motherhood.

The action of Mother's Friend makes the muscles free, pliant and responsive. When baby arrives they expand easily, and pain and danger at the crisis is naturally less. Strain upon the nerves and ligaments is lessened and in place of a period of discomfort and consequent dread, it is a season of calm repose and happy anticipation.

BRIEF WAR NEWS.

The war situation of Tuesday is summarized by the Associated Press as follows:

Frenzied counter attacks by the foe have failed to hold back the British and French armies who are hard after the Germans on the 75-mile battle front from the north of Arras to the region of Soissons.

All along the front, the German line has given away before the pressure of the British and French troops at points where the falling back of the enemy or the capture of towns and roads running eastward adds greatly to his already serious predicament from the standpoint of strategy.

Numerous towns, villages and hamlets have fallen into the hands of the British and French in the continuation of the fighting and scarcely anywhere along the battle front have the Germans been able to do more than delay the allies when they knock for admittance to the German line. Rear guard actions in which innumerable machine guns are used also are serving merely to keep the allied advance slowed down as far as possible, while the main German bodies make their way eastward in retreat toward new positions.

In the region around Arras, the British now are well astride the roads leading to Duuai and further south along the Somme, they have pressed forward until they are almost at the gates of Peronne.

Between the Somme and Oise, the French have broken the backbone of the German resistance at Roye, capturing this pivotal point to an invasion eastward of the plains of Picardy and advancing their lines north and south of the town over a front of about 12 1-2 miles to a depth of more than 2 1-2 miles at certain points. North of Soissons the French, although the Germans are fighting them bitterly, again have advanced slightly their line in the outflanking movement both against the Chemin-des-Dames region and the Noyon sector.

Everywhere the Germans have lost heavily in men killed or made prisoner and in addition, the allied troops again have captured numerous guns, machine guns and war stores. The prisoners taken by the British from last Wednesday to Monday of the present week aggregated 21,000. In the fighting Tuesday around St. Mar, west of Roye, the French secured 1,100 captives.

The Canadian troops are fighting in lively fashion between the Sensee and Scarpe rivers, and to them have fallen numerous German-held villages and many prisoners.

Bapaume, one of the strategic points over which there has been much heavy fighting, is still held by the Germans, but the British are now so nearly around it that possibly few of the enemy remain inside the shell torn town. The British on the west are on the outskirts of the place, and doubtless it soon will be nipped out of the battle line in pincer movement that is being employed against it.

In the north, the British already have crossed the upper end of the old Hindenburg line and if their progress continues, they soon will be able to operate to the east of the line on unscarred ground on which tanks and cavalry can be brought into the fray with good results.

Behind the lines everywhere French and British airmen are harassing the Germans in retreat, but in this work they are being met by large forces of enemy airmen who are fighting hard in an endeavor to make secure the retrograde movement of their foot soldiers.

On the Vesle front, the Americans and Germans are in a rather bitter fight in the towns of Fismete and Bazoches and the Germans reciprocated with an attack on Fismete. At last accounts, the Americans had the upper hand in both places.

Dr. Cato's Experience

How he raced with a locomotive for the souls of soldiers will be a tale told by Rev. B. F. Cato, when he returns home to Little Rock Ark. Dr. Cato was a special preacher for a week at Camp Beaupard, near Alexandria, La., making the rounds of the ten Y. M. C. A. huts of the camp. The principle hut was near a railroad station, and Dr. Cato preached there. But the trains, only 100 feet away, were more than usually busy that day, and several locomotives kept up a battery of explosive noise that all but drowned out the preacher's voice. But Dr. Cato counted 27 soldiers who had signed up as trial hitters, and 45 more who had renewed their Christian allegiance and consecration. Sometimes, it takes just this sort of experience to make a successful meeting," observed the person when it was all over.

**EQUAL DISTRIBUTION
 OF LABOR IN U. S.**

Labor Bureau Apportions the Supply as follows:

Government control over the industries is rapidly extending. The War Industries Board has laid the country off into twenty districts for the purpose of making an intensive study of industrial capacity and of utilizing and converting existing industries for war work.

Another government organization recently formed under the Department of Labor, known as the United States Employment Service, has divided the country into thirteen districts, and after August 1 will have general supervision over the distribution of labor, apportioning the floating supply and regulating the movement. The object is to reduce the enormous turnover which lowers efficiency, and to put a check upon competitive bidding. It is evident that there must be some restraint upon the latter where the Government is the principal purchaser, but it is a very delicate matter to attempt to place restrictions upon individual bargaining, particularly when conditions are favorable to the wage-earners.

The volume of general trade is undiminished, although the actual turnover of goods is possibly less than a year ago, but merchants complain of increasing difficulty in replenishing stocks, and manufacturers whose products do not entitle them to priority orders have increasing difficulty in getting the materials.

Looking into the future it is evident that trade in non-essentials will dwindle because the goods cannot be had. The earnings of the wage-working population are still rising by reason of full time, the employment of women and higher wages, and this assures a heavy trade in the unrestricted lines.

Bonds of the Fourth Liberty Loan

Bonds of the Fourth Liberty Loan are now being turned out by the thousands daily by the Treasury's Bureau of Engraving and Printing. The bonds are similar in form and design to those of the third loan, and space has been left on each bond for insertion of the exact terms of the bonds.

It is believed that a sufficient number of the bonds will be ready to make possible delivery of all bonds of the fourth loan as they are purchased.

Cable Service
 of CHICAGO DAILY NEWS for
Star Telegram Readers

Many years before the outbreak of the great War the Chicago Daily News instituted its foreign news service, which today is writing this important chapter in the world's history as it will not be written again. When the "Big Story" broke, The Daily News' foreign news service was waiting and ready to report it. From tangled threads of intrigue and suspense which preceded the actual conflict to the settled struggle which is now being waged over hundreds of miles of battle lines no important phase of the story has escaped these reporters of history. They have made the issues of The Chicago Daily News since the war began perhaps the most satisfying record of the war.

In practically every other news center in Europe and the Far East a member of The Daily News' foreign staff is stationed. Correspondents are placed in Denmark, Norway, Sweden, England, Scotland, Ireland, Italy, Bulgaria, China, Japan and Australia, to serve the Daily News.

Nor is the foreign news service of The Daily News limited entirely to articles and cabled messages written by these members of the staff members of active military units, such as Algernon Sartoris, until recently of the Foreign Legion, and Norman Klein, serving with Chicago's base hospital No. 12 at the front, frequently contribute articles that reflect activities which come under their observation.

All this Great Service is now being furnished Star-Telegram Readers.

ONE MILLION DOLLARS FOR NATL FOREST FIRE FIGHTING

WASHINGTON, Aug. 29. — The President has authorized a loan of one million dollars to the Forest Service for fire-fighting expenses, to meet the serious emergency conditions in the National Forests of the Northwest and the Pacific Coast States. The loan was made from the special defense fund of fifty million dollars placed at the disposal of the President by Congress. It is recognized that the protection of the National Forests is an important and essential war activity.

Forestry officials regard the present fire season in the Northwest as in "some ways the most serious with which the Government has ever had to cope. Early drouth, high winds, electrical storms, labor shortage, and depletion of the regular protective force as a result of the war have combined to make the fire conditions unprecedentedly bad.

Necessity for resort to the Presidential fund is due to the fact that the appropriation bill for the Department of Agriculture for the current year has not yet been passed.

Liberty Loan Interest Rate
 Secretary McAdoo has definitely announced that the Fourth Liberty Loan bonds will bear 4 1-2 per cent interest.

The Secretary has been insistent that the Government interest rate should be stabilized at 4 1-2 per cent. He points out that a raise in the rate of interest of only one-fourth of 1 per cent on \$10,000,000,000 of Government bonds would mean an annual increase of \$25,000,000 in interest charges, and that his money would have to be raised by increased taxation and paid by the people of the country. It would not be paid by one class only, because of consumption,

as well as other kinds of taxes, and the consumption taxes reach every class of people.

"As an intelligent people," said Secretary McAdoo during the Third Liberty Loan campaign, "we should now make a stand for the financing of our Government during the period of this war at a stabilized rate of interest, say at 4 1-4 per cent per annum, so that all business and all investments may be adjusted to that basis, and so that we may protect ourselves against successively increased rates of interest on Government loans."

Neither our patriotism nor our support of the Liberty Loans are measured in fractions of per cent.—Weekly Post.

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class 1 includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezeone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezeone he can get it at any wholesale drug house for you.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

A Message

From the Committee on Nursing of the General Medical Board of the Council of National Defense.

Many a promising student has had her professional prospects ruined by entering a poor school. The first essential is that the school should register in the state; otherwise, the graduate has no recognized standing and will not be eligible for the title of R. N., or for enrollment in the Red Cross. The next essential is, that it should be connected with a hospital of good standing in the community, providing training and experience in the four branches of medical, surgical, children's and obstetrical nursing. If the hospital can afford also training in the care of communicable and nervous and mental diseases, or in social service or visiting nursing, it is a distant asset.

A general hospital of average size (200-300 beds), with a fairly active service will usually afford an excellent field for training, while the small private hospital, special hospital, or institute for chronic patients is manifestly unable to give the experience necessary for a good all-round course in nursing. The hospital which cares for large numbers of free patients in open wards is able to give better opportunities for observation and teaching than the hospital caters largely to private patients.

Your Best Friends

Will often desert you, but the Furniture you buy here will always last. The person who buys economically and consistently cannot find better values in the market.

OUR LINE IS COMPLETE

We have a brand new and up-to-date line of furniture including Simmons Beds, Springs, Duofolds of the very best construction, Bed Room Suites, Dining Room and Library Furniture, Kitchen Cabinets, Linoleum, Congoleum, Velvet and Axminster Rugs, Mattresses, Feather Pillows and in fact most anything you want in our line. It is a pleasure to show our goods. We will exchange new furniture for your old furniture. We have a nice stock of used furniture also. Our Repair Department is at your service. We paint autos and build auto tops.

You are invited to come in and inspect our goods. We take pleasure in showing you through the stock whether you buy or not. Call and look over our stock. We want you to see and price things. Then you will appreciate the values
