NUMBER 34

NORMAL WINS FROM WAYLAND

Score 6 to 0—Normal College Champions of Northwest Texas—Wayland Outclassed.

The West Texas State Normal College football team journeyed down to Plainview Saturday together with 175 rooters and incidentally cleaned up on Wayland College to the tune of 6 to 0. The game was not so close as the score might indicate. The Normal carried the ball over for two additional touchdowns which were not allowed by the referee. The Normal carried the ball five times the distance as did Wayland. Wayland did not threaten the Normal's goal line at any stage of the game.

The game started with several fumbles by both sides. After several minutes of slow playing the Normal tightened up and began a series of successful line plunges which brought the ball to Wayland's 20 yard line by the end of the first quarter. In the first part of the second quarter the Normal team continued line plunging driving the ball through Wayland's line for a touchdown. Goal failed. Score, Normal 6; Wayland 0.

The only time Wayland looked like having a chance to score immediately followed when Hanks Blakemore broke through left tackle for a 30 yard gain, carrying the ball past the Normal's 40 yard line. But Wayland camped there, and could not move, the ball going over.

The Normal received on the 20 yard line in the third quarter, and marched straight across the field by continuous line smashing, up to the Wayland 2 yard line. Here Wayland held like a stone wall, the ball going to them and was booted out to the Normal's 40 yard line.

In the fourth quarter the Normal again drove through Wayland's line to within a yard of the goal. Miller went over twice, but was shoved back; the referee failed to call a touchdown either time. The ball went to Wayland. Wayland recovered a blocked kick on her 15 yard line. Three successful forward passes netted Wayland 50 yards when Miller intercepted a pass and started the ball back across the field, when the whistle ending the game.

J. Battenfield starred in the first quarter when he went through the line for a 20 yard gain. One of the many brilliant plays of the game was the completion of a 10-yard pass by Key which he carried down the field for a further gain of 15 yards. The consistent line plunging of Key, Miller and Sone was an outstanding feature of the game.

A special train left Canyon at 9 o'clock carrying the rooters for the Normal.

While Wayland had some good yells the Normal students proved their loyalty to their team by peppy yells and songs.

MATERIAL FOR BUILDINGS TO BE HERE WITHIN FEW DAYS

It is expected that the first shipments of material for the new boiler house and the girls' dormitory on the Normal grounds will arrive within a very few days.

Contractor Johnson and Architect Endress were in the city last week. They report that there is plenty of material available for the buildings, and that shipments are being made as rapidly as possible.

The plans for the \$30,000 boiler house are about completed. The manual training department of the Normal will occupy a portion of this building, thus giving more room in the main building for the other departments, some of which are needing more room.

The plan for the dormitory is not yet complete.

Thomas-Clark Wedding.

Mrs. Bertha Thomas and Antle Clark of Omaha were married last Wednesday night in Amarillo where the bride has lived from the past few weeks.

Mr. Clark was in the S. A. T. C. in the Normal during the past winter, being sent here from Ft. Sam Houston to serve in the medical department. Mrs. Clark is the daughter of Mr. and Mrs. John A. Wallace of this city and has a large circle of friends who are extending the bridal couple hearty congratulations.

They will live in Amarillo.

The Russian muskib has changed his tune.—Columbia Record.

LOCAL BAPTIST CHURCH MADE \$15,000.00 PLEDGE LAST SUNDAY

The Canyon Baptist church made its pledge last Sunday for its portion to the Southern Baptist 75-Million Dollar Campaign. The Canyon church had received its quota for \$15,000, and within a few minutes the total of the pledge was raised. Under the terms of the campaign one-fifth of the pledge will be paid each year during the coming five years.

The Tierra Blanca Association of which the local church is a part has a quota of \$75,000.00. Mrs. B. T. Johnson, who is working in the Association in the interest of the campaign stated yesterday that practically every church in Northwest Texas is exceeding its quota. She is confident that the Southern Baptist Church will raise \$100,000,000 during the campaign.

REV. GEORGE STUART IN VERY FINE ADDRESS

Dr. George Stuart of Birmingham, Ala., gave one of the ablest addresses ever delivered in the Normal auditorium Tuesday afternoon at 2:30, lecturing upon the subject "Ambition." For nearly an hour the noted preacher entertained the large crowd, swinging from the humorous to the serious points in his lecture, but always leaving in the minds of his hearers the graphic picture of life that he wished most to present.

Dr. Stuart had been attending the Methodist Conference at Lubbock, and by arrangement of John A. Wallace, Dr. Stuart was induced to stop in Canyon on his way from Clovis to Amarillo. He is one of the biggest preachers of the Methodist church, and a platform lecturer of national reputation.

The lecture was indeed a rare treat and those who were fortunate to hear it are under obligations to Mr. Wallace for his arrangements.

THANKSGIVING FOOTBALL GAME HERE WITH WAYLAND

The Normal team will close its season next Thursday in a Thanksgiving game with Wayland College of Plainview.

Junior High School Notes.

Since our last communication the Canyon Junior High has been busy with its play and work. Progress is being made in all lines and the teachers are striving for thoroughness.

Last reports show a decrease in the number of unsatisfactory pupils. Discipline is improving in the grades until very little unfavorable criticism could be offered.

A series of entertainments in the auditorium at chapel periods are being given. Already the First grade pupils under Misses Perriman and McGee have given pretty little programs and Tuesday the Fourth Grade under Miss Grundy gave the Merchant of Venice with some nice songs and drills between acts.

Other grades will entertain soon and we are looking forward with pleasure to this work.

This is examination week and the pupils are expecting to make a much better showing in their tests than last month.

The play spirit is good in the school. Every effort is being made to accommodate all pupils in the games but equipment is rather limited. We think we will soon have everything arranged so that all may take part. Our teachers are faithful in playing with the pupils and in coaching them.

So far we have not been successful in winning games against our opponents in football but have played close enough to win their respect. Other contests are being arranged for the next few days.

Our girls have much to learn in the science and practice of basket ball. The Tulia girls gave them a fine lesson in team work. They are eager students and will learn from their defeat to play.

About one hundred of our students marched with their teachers to the Normal Tuesday afternoon to hear the lecture. Some forty preferred to remain at the school building and study. The primary pupils were dismissed and instructed to report to their parents before going to the Normal.

We have another month for intensive work before the Christmas holidays. We are asking our pupils and patrons to cooperate in making it a great time in the advancement of all the work.

The teachers are pledged for their best service.

Come to Canyon to live.

SIMEON SHAW TO LOCAL CHURCH

One of Best Known Pastors in Northwest Texas Conference—Rev. Stewart to Miami.

Rev. Simeon Shaw has sent to Canyon by Bishop McMurray at the close of the Annual Conference of the Northwest Texas Conference of the Methodist church, held last week in Lubbock.

Rev. Shaw is well known to many of the members of the local church, and they are delighted that he is to be the pastor in charge of this church.

In discussing the needs of Methodism in Canyon, the Bishop directed that the conference extend to the local congregation a gift of \$20,000 toward the erection of a new church whenever the congregation would raise \$30,000. The offer to the conference came wholly unsolicited upon the part of the local Methodists, but the church realizes that Canyon is one of the most important charges in the conference and is willing to invest that much with the local congregation. The local congregation has taken no action upon the offer made by the conference. There was no time limit made to the offer.

Rev. R. A. Stewart who has served the Canyon church during the past three years goes to Miami. He and his family have the very best wishes of a large circle of friends in their new work.

The following appointments were made to adjoining towns:

Amarillo District—Presiding Elder, J. W. Story; Amarillo Polk Street station, Henry F. Brooks; Buchanan Street station, G. J. Irvin; Southwest Ed. R. Wallace; Canadian station, M. M. Bevers; Channing station, J. O. Quattlebaum; Dalhart station, W. N. Pearce; Dumas and Hartley circuit, C. D. West; Higgins station, W. H. Strong; Miami station, R. A. Stewart; Panhandle station, H. C. Gordon; Perryton station, G. T. Palmer; Spearman circuit, to be supplied; Stratford station, S. M. Williams; Texline station, W. A. Hitchcock; Vega circuit, Ira B. Sanford; Washburn circuit, W. J. Russell, supply; White-Deer circuit, J. G. Thomas; Zybach circuit, J. E. Stephens; missionary to Africa, Ancil Lynn; conference evangelist, F. M. Neal.

Clarendon District—Presiding elder, John R. Henson; Clarendon station, C. N. Ferguson; Claude station, M. E. Hawkins; Leon Henderson and J. B. McCarley, supernumeraries; Hedley station, C. C. Wright; Lakeview station, L. B. Smallwood; Lelia-lake circuit, L. A. Reavis; Lodge circuit, T. A. Messer, supply; McLean station, B. J. Osburn; Memphis station, A. L. Moore; Mobettie circuit, T. B. Hilburn; Pampa station, J. A. Laney; Shamrock station, M. S. Leverage, R. B. Bonner, supernumerary; Shamrock circuit, A. O. Hood; Turkey circuit, E. L. Sisk; Wellington station, C. L. Browning; Wellington circuit, W. M. Pope; Wheeler circuit, O. M. Anderson; president Clarendon College, George S. Slover.

Plainview District—Presiding elder, R. A. Clements; Abernathy circuit, S. J. Upson, supply; Bovina circuit, B. Y. Dickenson; Canyon station, Simeon Shaw; Dimmit circuit, Preston Florence; Floydada station, J. S. Huckabee; Floydada circuit, Clyde Huddick; Hale Center station, Geo. H. Brown; Happy circuit, Charles W. McNealy, supply; Hereford station, W. H. Terry; D. H. Hawkins, supernumerary; Kress circuit, Lewis H. Davis; Lockney station, H. B. Watts; Lockney circuit, J. J. McNealy, supply; Plainview station, E. E. Robinson; John Freeman Neal, supernumerary; Plainview circuit, H. G. Scroggins; Petersburg circuit, J. W. Brown; Silvertown station, B. W. Wilkens; Tulia station, T. C. Willett; student Southern Methodist University, George W. Montgomery.

Blough Appointed to Route.

A. W. Blough who has been carrying the mail on the rural route finally received the appointment to the position, taking effect on Monday of this week. Under the regulations, he is to carry the mail for six months on probation before his appointment is finally confirmed.

Sales Reported Good.

The sale of Joe Foster Saturday was reported very good, most of the things offered bringing a good price. At the J. N. Blake sale Tuesday a Jersey cow brought \$227.50. All of Mr. Blake's things sold well.

AGRICULTURE IN RANDALL COUNTY

This County Offers Splendid Opportunity to the Farmer and Stock Raiser.

(By R. Kenneth Evans)

To begin with Randall county is not an agricultural county in the sense that the county is under cultivation and depends upon the agricultural production for its source of revenue. In fact at this time there is only a small part of the county under cultivation and the part that is under cultivation is mostly used for the growing of small grain crops and forage crops.

There is however a wider field for development in this section of the country from an agricultural standpoint than in any other section of Texas. It is but a question of time, in the opinion of those who are conversant with agricultural conditions until Randall county and the Panhandle will be one of the principle agricultural centers of the Great Southwest.

Randall county is essentially a stock raising county and the stock raising conditions in this section are taking up extensively in another article of this series. The encouragement of the agricultural industries of the county however will not eliminate the stock raising advantages in fact will be the means of acquiring maximum production and the stock raising industry will materially be augmented by the agricultural production. It is true to state that the maximum development of the agricultural possibilities will cut down the grazing acreage of the county, of which at this time there are thousands of acres, but while it will put more head of cattle to the acre they can be fed out to a greater advantage from the forage crops that will be raised on the agricultural lands.

The climatic conditions of the Panhandle are conducive to agricultural production. The dry farming methods are followed extensively in the sections where agriculture prevails although there is ample water for irrigation through individual plants. Underground streams at a depth of from 300 to 500 feet would furnish ample water supply. However each year shows a more substantial fall of moisture and the Panhandle country is now undergoing the same change in climatic conditions that were experienced years ago in western Kansas and other sections which were at that time considered of no value from an agricultural standpoint but which today are the best producing agricultural lands in the entire west.

The soil of the Panhandle country and especially of Randall county varies in formation yet it is all rich in alluvial deposits and the ingredients which are necessary to properly sustain plant life. There are two grades of soil which prevail in this section one a deep chocolate loam and the other a rich sandy loam. These two soils are noted for their agricultural production properties and the westward course of empire has caused the eyes of the agricultural world to be centered on the Panhandle country which will mean that eventually the possibilities here will be thoroughly realized and the opportunities taken advantage of.

Any products that will grow in the temperate zone thrive and grow profusely in the Panhandle country. The principle products which have been experimented with and which have developed far beyond realization are the smaller grains such as wheat, barley, oats, rye, etc. The forage crops including milo maize, feterita, kafir and the sorghum crops also grow abundantly. At this time the major crops of the county are forage crops because of the extensive sock raising that is carried on in the county. The stock raisers have found that by growing forage crops on a portion of their land, and marketing these crops on the hoof, that they can realize almost 100 per cent more profit from the industry.

There is a small amount of red kafir and red top and Shoemaker and sorghum cane grown. A small amount of millet hay is grown although the prairie hay grows profusely and abundantly. The bottom lands of the county are exceptionally well adapted for the growing of alfalfa which will grow four crops in a season. This section is also especially well adapted for the raising of hogs and some of the best herds of hogs are to be found in Randall county. The grain crops that have been

THANKSGIVING COMES NEXT WEEK—PAPER OUT EARLY

Next Thursday will be Thanksgiving. The News wishes to publish on Wednesday in order to give the force the benefit of the holiday.

Advertisers will please get copy in Monday.

All items of news will be appreciated if handed in by Monday. Tuesday night will be the "dead line."

All correspondents should have letters in by Tuesday.

grown in the county show that wheat will average 25 bushels to the acre; oats from 50 to 80 bushels as the weather conditions prevail in favor of or detrimental to the development of the crop. In fact all products that are growing will average up to crops grown on lands in states further east these lands in the eastern country being valued at from \$100.00 to \$400.00 per acre while the lands in this section can be purchased from \$15 to \$60 according to their location.

Because of the lack of development of agricultural conditions of the county diversified farming is not followed extensively. Although the basis of all agricultural production is founded on diversity which is favored by farmers generally and when the agricultural possibilities of the county are fully realized it will be an extensive diversified farming area.

The best crop in five years was realized this year throughout the entire Panhandle country and the prospects were never better for a bumper crop next year with the unusual fall rains and ample moisture in the ground to mature a crop in case the rainfall is light next year. The agricultural production in the Panhandle country is causing an advance in price of lands not exorbitant however. The farmer who buys Panhandle lands this season or next season can without a question of a doubt with the first few crops realized enough cash return to repay him for the original cost of his lands. The farmer who improves his holdings and builds improvements, breaks out his lands will increase their values from 200 to 400 per cent. Immigrants to this section will lay a foundation for independence if they will but work and develop the entire resources that are placed at their disposal.

ROAD WORK WILL BE EXTENDED TO WEST PART OF COUNTY

Work on the new highway from Canyon to Amarillo and from Canyon to Happy is progressing nicely, and if the weather permits, will be completed within a short while.

Federal aid was granted some time ago for work on the road going to the west part of the county.

Judge C. R. Fleisher stated Monday that it was planned to get a survey made of the road at once and that work would start from Canyon to the Deaf Smith county line as soon as the work on the north road is completed.

The road west will run the north way to Umbarger and from Umbarger will follow the railroad to the Deaf Smith county line.

PLENTY OF WHEAT CARS ARE ON THE RAILROADS NOW

Both of the grain elevators in Canyon have been emptied of wheat during the past week and there are wheat cars now on the track awaiting loads. The farmer who wants to dispose of his wheat crop will have no difficulty during the next few days, and it is thought that the cars will keep coming.

Shirley Has Operation.

D. A. Shirley went to Amarillo Friday and Saturday underwent an operation, having his appendix removed. He has had several serious attacks of appendicitis, and recently recovered from one. He had the operation to avoid another attack.

Word comes that he is recovering nicely.

City Property Sold.

C. F. Walker has sold the Dishon house north of the railroad to Wm Laxon of Happy, who will move here within a short while.

Had Fire Saturday.

A fire was discovered back of the kitchen chimney in the J. M. Redfearn home Saturday morning. The city fire extinguisher had the fire out by the time the hose was laid ready for action.

Only a little damage was done to the house.

RED CROSS DRIVE CLOSSES SATURDAY

Only Few Have Given in Membership During the Past Week—Less Than Third Quota Join

It took very much like the drive for Red Cross members in Randall county will be a failure this year.

Last week there were only 266 members reported in the county. So far this week but a very few have been added to the list.

The officers of the Randall County Chapter are at a loss to understand the attitude that has been taken by the people in refusing to join the Red Cross for the coming year.

Randall county did more for the Red Cross during the war than most counties.

Today Randall County has a smaller per cent of Red Cross members than any of the Panhandle counties. Many Panhandle counties raised their quota before the extension of time was given to November 22.

The drive will close Saturday. Those who have not given their names for membership have yet two more days in which to act.

TWO TRAINS WILL BE ADDED TO SANTA FE DECEMBER 1st

According to information given out this week the Santa Fe will restore the through trains which were taken off when the government took charge of the railroads. These trains give the Chicago to Los Angeles service, the night train running west and the day train running east. No time has yet been set for these trains, but it is thought that the night train to the west will come through Canyon about nine o'clock, and the train from the west will arrive here about two o'clock in the afternoon.

LEGION'S CHARTER APPROVED BY STATE—SOON BE ISSUED

The charter of the Palo Duro Camp of the American Legion was approved by the State Camp at Houston and has been sent to the National Headquarters of the American Legion where the charter will be issued.

The charter is expected in Canyon within ten days and then a drive will be started for every man who saw service in either the army, navy or marine to join the organization.

Wheat Acreage Greatly Cut.

The high price of labor and the difficulty of getting the wheat crop in the ground will see the Panhandle next year with one of the smallest wheat acreages in its history.

Most of the farmers are planting just what they can take care of themselves. \$5.00 per day, as paid this year and which it still takes to get farm hands, leaves the farmer but a small margin, and the price next year may not be so large as it was this year.

It has been estimated by men who have ridden from one end to the other of the Panhandle that the acreage has been cut to 35 per cent of this year's acreage. In Randall county, it is said to be even smaller than this, some saying that not more than twenty five percent of his year's acreage will be in wheat by spring.

Sales of Land.

John Schmitz sold his section two and one-half miles of Ralph yesterday to M. J. Bellany of Lockney at \$30 per acre.

W. H. Hicks bought one section of land from F. M. Garner, west of town, at \$27.00 per acre.

F. M. Neal and John Mathis of Amarillo bought 80 acres from J. W. Conklin at \$16.00 per acre.

Henry Weber has sold his half section north of the city to J. C. Dickinson of Panhandle for \$37.50 per acre. Mr. Weber will move to Wisconsin when Mr. Dickinson takes possession of the place.

Charter Extended 20 Years.

The charter of the First National Bank of Canyon expired last Thursday and was extended for twenty years.

This institution has always been a popular banking house with the people of Randall county and is today in a most prosperous condition under the able direction of the board of directors and President C. D. Lester and Cashier E. H. Powell.

There is an oil well going down on the M. L. Steele, Angel and Grogan lands 7 miles south of Groom.

A LITTLE WANT AD BRINGS RESULTS

INVESTMENT YIELDING COMPOUND INTEREST

A Plea for Our Home Boys and Girls Struggling to Get An Education.

"That the world might be made safe for democracy", America invested billions of dollars, and sacrificed upon the altar of freedom thousands of her most promising youths. Those of us who survived the world catastrophe must take up the burden these heroes laid down; we must carry forward the work they hardly began. In our efforts to fulfill the task conditions have imposed upon us, we must necessarily make many sacrifices. War taxes, Red Cross contributions, new era movements, and many other worthy causes greet us with uplifted hands at almost every turn in life. With our limited means we often wonder where we could do the most good.

But if the war brought any one lesson home to us more strongly than another, this lesson was that we must keep the door of our American schools open to our boys and girls. And yet today thousands of schools, open before the war, are now closed for want of teachers. I should like to see "the world made safe for democracy", but I should like to feel sure first that our own country rests securely upon the safe and sound foundation of an enlightened citizenship.

Upon whom does the tremendous problem of training our young people in correct principles of good citizenship depend? Our universities open their doors to young men and young women, but only after their ideas and ideals are fixed. Who are to teach our boys and girls in their formative period of life? The salary paid teachers today offers few inducements to university graduates. Besides, the atmosphere of university life prompts very few young people to enter the teaching profession.

It is evident, then, that the work of teacher-training belongs specifically to the normal colleges of our country. Practically all the students who enter a normal school have very little money; they have never had much, and they never expect to have much—they are to become teachers. The very fact that they have had but little of this world's goods no doubt prompts many to enter the profession of teaching, since the school room offers the surest and shortest road to a competency greater than they have ever known.

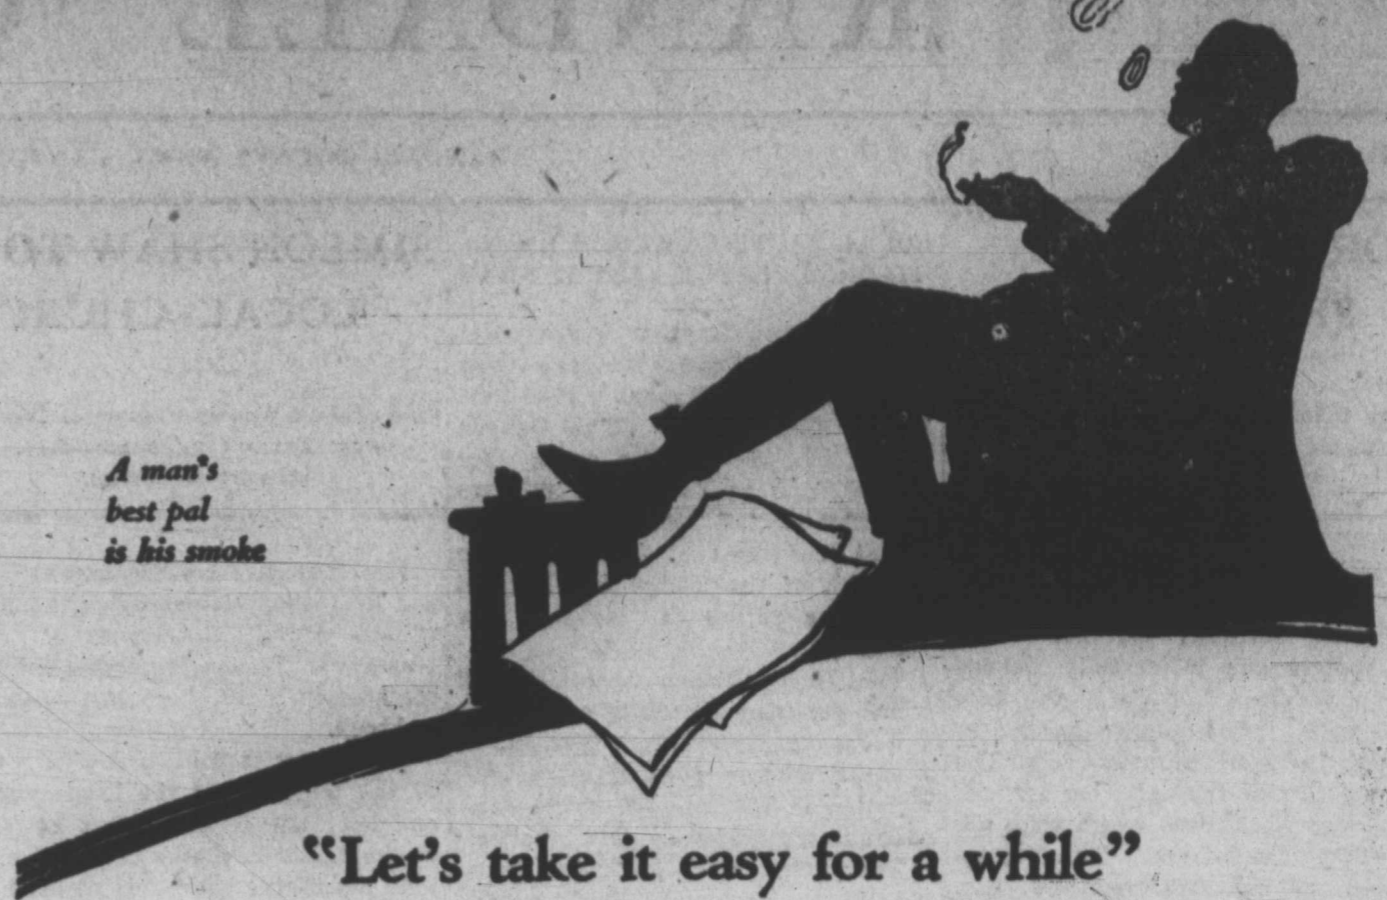

However, many of these young people of heroic qualities of mind and heart do not have sufficient funds to pay their way through a normal school. It is for this class of young people that I wish to make an appeal. To aid these worthy young men and women (who are willing to make the financial sacrifice of becoming teachers) in preparing themselves to instruct the youth of our land is surely a worthy undertaking.

Prompted by the desire to help such boys and girls obtain an education, the faculty of the West Texas State Normal College, established in 1912, a student-loan fund. To this fund different members of the faculty, also students, have contributed from time to time. But the members of the faculty are teachers and, therefore, have very little to donate to this cause.

A few public spirited men from the outside have made contributions. In this fund at present there is \$1,774.28. To date, \$3,950.00 has been loaned to 55 students. This fund is called the "Gregg Cousins Memorial Fund", and is incorporated under the laws of Texas. A council of faculty members, elected by the faculty, controls this fund, and the treasurer is under bond for a sum equal to the highest estimated amount in the treasury at any one time. Loans are made to "worthy and capable students" by the members of this committee, when approved by the faculty. To be eligible for a loan, a student must have attended the institution twenty-four weeks, or two quarters. No security except the note of the student asking for the loan is required. The faculty makes these loans upon its faith in the integrity and ability of the student. Six per cent interest is charged on all loans, to cover necessary expenses of postage and probable losses. So far, not one cent has been lost. Many students have returned the original sum with interest, and have made additional contributions.

I believe there are many men of wealth in the Panhandle who are interested in the boys and girls of this section of the state to the extent of contributing to this fund, once they understand its purpose and how it is managed. Every dollar contributed will help some boy or girl to get an education, who otherwise would never know the meaning of even one year

A man's best pal is his smoke

"Let's take it easy for a while"

—Ches. Field

A CIGARETTE that invites you to enjoy a smoke as you never have before—that's Chesterfield.

Not merely fine tobaccos, mind you, though we use the finest of Turkish and Domestic leaf, but an exclusive blending method that brings out hidden flavors—flavors that others have failed to find.

That's why Chesterfields are different. That's why they satisfy. And this method is a closely guarded secret. That's why none but Chesterfields can satisfy.

And Chesterfields reach you in prime shape for smoking always—because every separate package is wrapped in moisture-proof glassine paper.

in college. Besides, our schools of the Panhandle must have teachers. Do you know of a better way to supply them than to aid some worthy boy or girl to prepare himself for this work? From a business point of view, what is a better advertisement for any section of the state than to be able to say that it has good schools, and that all of them have professionally trained teachers?

I shall be glad to publish in "The Prairie" a list of all names making donations to this fund. The West Texas State Normal College was located in the Panhandle for the specific purpose of helping to educate the boys and girls of this section. But many of our boys and girls can not take advantage of this opportunity for an education because of insufficient funds to defray their actual living expenses. I believe that the people of this section have a natural and just pride in the West Texas State Normal College and what it is doing. It is your institution. Let's make it count for the most in the lives of our own boys and girls. Contributions from one dollar up will be gratefully received. Won't you help some home boy or girl get an education? Some of the large universities of the country are waging a campaign for millions. Why can not we of the Panhandle raise twenty-five thousand dollars to help educate our own home boys and girls? We often give our money for charitable purposes, but the amount we give loses its power for good when the recipient spends it. Every hundred dollars donated to this loan-fund, in ten years time, may be the means of educating ten worthy boys or girls. In brief, it is an investment in character, which always yields a high rate of interest. —From The Prairie.

Anti-H. C. L. Notes
One way to knock the high cost of low living is to insist on an unreserve policy of—
Three feet of Fiume macaroni to a yard.
Two and three-quarters per cent of holes in sweitzer cheese.
More snaps in ginger snaps.
Twelve pork chops to a butcher full jury.

Two pints to all quarts—not some quarts.
Enough beans for a quorum to every order of army fruit.
Canned tomato soup which will pass the color test.
Milk in which cream will form up on top where you can see it.
Highly volatile gasoline which will explode without parboiling.— Exchange.

Smith's

"The One Price—The Lowest"

600 Taylor Street Amarillo, Texas

Count All The West Texans.

On January 2nd, 1920, work will begin thru-out the United States, on the Fourteenth Census. The first work will be the counting of the population.

It is tremendously important that all the people living in West Texas, urban and rural, are counted.

Ten years ago when the figures of the Thirteenth Census were published, some striking facts were brought out. Among them, these: Texas gained in the ten year period 1900-1910 approximately 850,000 people. Of this total gain of 850,000 people, approximately 550,000 was the gain for the region of West Texas, or approximately 65 per cent of the total. This increased growth in Texas population accounted for the state's gaining two congressmen, both allotted to West Texas. The congressional apportionment ratio for 1910 was raised by congress to such extent that such raise wiped out the possibility of the "balance" of Texas getting additional congressmen. It was not until the year 1918 however that West Texas actually got her two new congressmen—the state's entire gain. This was due to the failure for eight years of the State Legislature to re-apportion the state into congressional districts. During that interval of time, of 8-10 of the time before the taking of another census, thus calling for another apportionment, by abortive methods West Texas' two new congressmen were citizens of Dallas or Houston, those cities having elected citizens thereof as congressmen thru the congressmen-at-large fallacy. At one time, both of these "West Texas" Congressmen were citizens of Houston, which based on the 1910 census, (the basis of apportionment) had about 78,000 people and was entitled to about 1-3 of a congressman, but had "our" two congressmen in addition to the congressman from the district in which Houston is actually located. How absurd this was is shown by the fact that between 1900-1910 fifteen counties within 100 miles of Houston actually lost population. Within the same period nine counties east of Dallas actually lost population.

Texas would have shown a population increase of less than 15 per cent had it not been for the great growth of West Texas. West Texas showed an increase of nearly 75 per cent for the region as a whole, while extreme West Texas showed an increase of considerably over 150 per cent, and many West Texas counties showed increases of upward of 300 per cent and more.

It is believed Texas will show an increase in population based on the Fourteenth Census of approximately 1,350,000 people, giving the state a total population of about 5,240,000 people. What percentage of this gain will be in West Texas? Will history repeat itself and West Texas again account for the major portion of the state's gain? Undoubtedly. If the same percentage holds good as in the case of the 1910 census West Texas will gain about 880,000 new population. Conceding that the ratio of population per congressman will be increased by congress based on the new census, it is then a certainty that whatever increase in population is shown by the "balance" of Texas will be absorbed in holding her present number of congressmen because of the increased ratio, it again seems certain that Texas will gain two or perhaps three new congressmen and that again these new congressmen must be allotted to West Texas—as the only region of the state growing fast enough not only to make up sufficient gain to take care of the increased number of people necessary for each congressman but also fast enough to secure additional congressmen.

West Texas, (including the territory southwest of San Antonio) now has 7 of the eighteen congressmen of the state. Since West Texas will gain almost certainly the three new members to be allotted to the state based on the expectations of the new census, West Texas will then have 10 of the 21 congressmen of the district, in which figures we include however the Fort Worth district.

What we have said about congressional districts, of course also applies to State Senatorial Districts—where the present apportionment represents a ridiculous absurdity, as has been shown by the press generally thru-out the state, regardless of geography. The new Senatorial Re-Apportionment in Texas based on the new census should double or treble West Texas' representation in the Senate of Texas. There is this difference however between congressional and state senatorial districts; that the state must provide new districts or in any event districts at large for new congressmen, but it can not be forced to re-apportion for state senators except by a method so complex as to make it almost impossible if the present State Senators object. Undoubtedly there will also follow a new apportionment of state representatives based on the new census.

Great business institutions base many of their calculations, establishing of branch plants, etc., on population, etc. It affects hundreds and hundreds of projects commercially, industrially and otherwise.

Hence it is extremely important that every human soul living in West Texas be counted in the new Census.

We need additional representation at Washington and at Austin. Washington and Austin are continually passing upon legislation vital to West Texas. During the next decade West Texas is likely to ask for huge appropriations for irrigation systems, highways, post offices and federal buildings, etc., and will also undoubtedly ask Texas again for the long-deferred West Texas A. & M. College and a proper distribution of state institutions within the Western half of the state.

See your census enumerator and ascertain how you can assist in helping get everybody counted in your city and your county.

We believe the 1920 census will show that there is but a slight difference in population between West

Texas and the "balance" of the state; and it will unquestionably show that more white people by hundreds of thousands live in West Texas than in all the balance of the state.

But get them counted!

Sincerely,
WEST TEXAS CHAMBER OF
COMMERCE.

The Coal Strike.

The government stepped to the front Tuesday to force miners and operators to negotiate a new wage agreement and resume work in the bituminous fields before the country is in the grip of a coal famine.

Clothed with all of his war-time powers as fuel administrator, and acting by direct authority of the president's cabinet, Dr. Harry A. Garfield called a joint meeting of the scale committees, at which he was expected to give formal notice that the time had come to resume mining operations on a normal scale.

The joint conference will be held tomorrow. Meanwhile word was passed that the strike situation had reached that point where action was regarded as absolutely imperative.

There was no evidence, as presented to the cabinet, that the scale committees, called last week to negotiate a new wage agreement, had made any headway.

Maybe these magazine publishers that are moving from New York to the middle West are looking for a larger English-reading public.—Boston Herald.

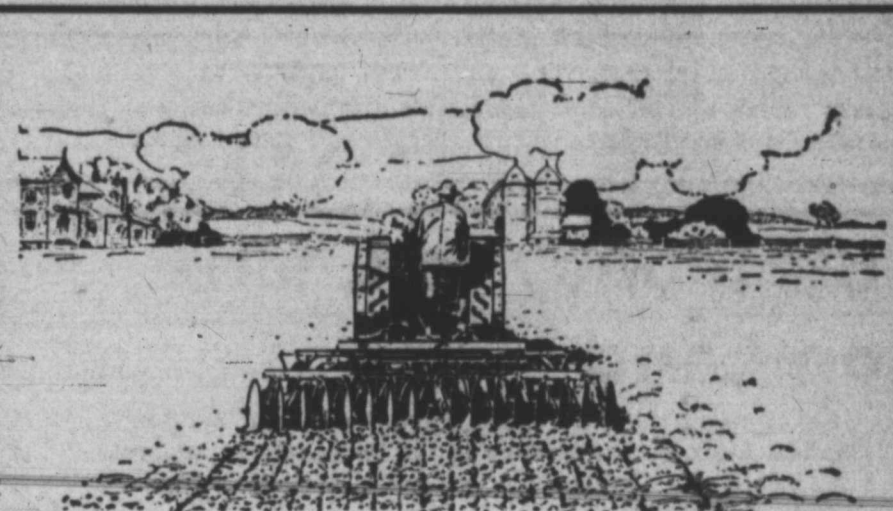

Can you imagine Roosevelt striking for a six-hour day?—Muncie Press.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monocetide-salicylic acid.

Leave it to a Leverless

IF YOU have a tractor, you don't want to be bothered with a horse harrow unless you have a real good one that is still serviceable.

The International Leverless Disk Harrow is designed especially for tractor operation. It is operated entirely from the seat of the tractor—and without levers. To secure the proper angle, the operator merely backs his tractor, which automatically determines the angle of both the front and rear harrows. The gangs remain at whatever angle they are set. To straighten them it is only necessary for the operator to pull a cord which is tied to the tractor seat. This simple operation automatically straightens the gangs so that the harrow will roll like a wagon. Consequently, when you come to a piece of ground that you don't care to cultivate, it's the simplest thing in the world to straighten the gangs and drive right over—you don't have to go around.

International Leverless Disk Harrows are very rugged in construction, being built for tractor work, so if you want a durable disk harrow and want your harrowing done efficiently, leave it to a Leverless. We sell them.

FEDERAL

DOUBLE CABLE BASE CORD TIRES

The Double-Cable-Base consists of four twisted steel cables running through the base of the tire, holding it firmly to the rim, preventing side shifting; the toe of the bead can not pinch the tube; the tire cannot blow off the rim, and rim cuts and blow outs just above the rim are prevented.

This firmness means more miles and less repairs and spells economy.

Economy and Satisfaction

Federal Cord Tires are built to stand the brunt of many miles of road wear.

Strong cords run transversely in layers to withstand punctures, each layer impregnated with live rubber to give resiliency and all moulded to form under air pressure to insure compactness and durability.

More miles — easier riding — less trouble — greater satisfaction — less ultimate cost — all are yours when you use Federal Cord Tires.

We still have a few Fordson Tractors on hand, ready for use. See us at once. If you expect to buy a Ford car, give us your order and we will deliver the car as quickly as any dealer.

We take a great pleasure in giving you the very best service in Gas, Oil, Automobile Accessories and Supplies.

Happy Happenings.

We have had fine weather the past month. Farmers are busy stacking feed and threshing.

Mr. and Mrs. Bill Anderson and family were shopping in Amarillo Thursday.

Mr. Arnold has moved into the Gas-away place which he recently bought. Lonnie Townsend has a new Texas roadster.

Mr. and Mrs. Bob Campbell and Mrs. G. R. Stratton and son John of Canyon took dinner at the W. C. White home Friday.

Carrie Marie Townsend has been on the sick list the past week.

Mr. and Mrs. John Toles went to Amarillo Wednesday to meet his sister, Miss Mary Toles of Georgia. She will spend the winter here.

Mr. and Mrs. Wm. F. Miller were shopping in Amarillo Wednesday.

Mrs. Lula Arnold of White Deer has bought the Dixon place and will build a home at once.

Eldon Gaten and Hall Wren who are working in Amarillo came in Saturday night and spent Sunday with home folks.

Miss Ava O'Rear and Lee Sims were married Tuesday at the home of the bride's parents. Rev. Fronbarger officiated. Immediately after the ceremony a bountiful dinner was served and the wedding cake cut after which they left for a short auto trip accompanied to Plainview by the bride's brother, Raney O'Rear and Miss Esta Goode, where they spent night, going on the next morning to Ira, Texas, where they will visit with Mr. Sims' people. Miss Esta and Raney returned home Wednesday morning. Misses Esta Goode and Eula Knox were the only witnesses outside the family. They will be at home on the Sims farm west of town after the first.

Mr. and Mrs. W. T. Townsend and family and Mr. and Mrs. Lonnie Townsend visited with relatives and attended the races in Tulia the 11th.

Mrs. R. L. Dillon and daughter of Canyon came down Saturday night to visit her daughter, Mrs. Carrie. They spent Sunday at the Lester Dillon home. Mrs. Dillon returned to Canyon with them Monday.

Miss Winnie May Adkinson of Tulia came in Saturday night and visited at the W. E. Finley home till Sunday evening.

Miss Walter Lockett who is attending school at Floydada spent Sunday with home folks.

Rev. Hembry of Abernathy filled his regular appointment at the Baptist church Saturday night and Sunday morning and evening.

N. W. Uselding and family and Geo. Wolf visited the Wilhelm family at Nazereth Sunday.

Mrs. Walter Fogerson and son of Silverton visited the J. D. McElroy, Mrs. Maud Long, J. H. Stephenson and Money homes last week.

Miss Mary Mayhew entertained a number of her friends Friday night at the W. C. White home. Games were played till a late hour when all returned home expressing their enjoyment of the evening's entertainment and hoping for another such entertainment soon.

Mr. W. E. Finley was an Amarillo caller Saturday.

Miss Irene Wren was laid up the past week with a severe case of tonsillitis. She is better at present.

Sid Guest and family left Tuesday for Mississippi where they will make their home.

Mrs. Rogers of Childress is here visiting her sister, Mrs. Mincey.

Mr. Bradenbaugh happened to an accident Wednesday when he fell and hurt his ankle. He was laid up in bed for several days but is better now.

Miss Hannah Swearinger of Canyon spent Sunday and Monday with home folks.

Mr. and Mrs. W. E. Finley, Miss Winnie May Adkinson and Guy Garrison were Tulia callers Sunday when Miss Winnie May returned home.

Misses Gladys Miller and Lorain Flesher were in Canyon to take their music Monday.

Mr. and Mrs. O. H. Bahls were in Canyon Saturday where he attended the Joe Foster sale.

Mr. and Mrs. O. G. Baker and Mrs. Brooks were shopping in Tulia Tuesday.

Tom Bandy is attending court in Amarillo this week.

C. F. Zoeller is building a new barn on their place in the west part of town.

Mr. and Mrs. Neise Wallberg of Panipa are visiting Mrs. Wallberg's brother, E. F. Arnold and family and also Mr. Wallberg's brother.

Mrs. Wm. F. Miller gave a comfort tacking Wednesday. Those attending were Mesdames O. H. Bahls, C. F. Zoellers, Al Finken, P. J. Neff and J. M. Flesher.

Mr. and Mrs. E. A. Logan were shopping in Tulia Tuesday.

Mr. and Mrs. J. R. Francy were Amarillo callers Monday where they bought a new Columbia Victrola.

The oil well has closed down for

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanses little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

the present on account of not being able to get 12 inch casing.

J. F. White is suffering with a carbuncle on his neck.

Rev. McNeil the new pastor of the Methodist church was in town Tuesday. He will preach next Sunday the 23rd. Every one cordially invited to come and here him.

Mrs. Adkison of Tulia spent last week with Mrs. Finley.

Mr. and Mrs. Dave Garrison of Virginia have a little daughter, Mary Lane. Dave will be remembered by a number here as he spent several years here.

Mr. and Mrs. C. R. Strong and Mr. and Mrs. Al Fonken were shopping in Canyon Friday.

Mrs. Tom Bandy was presented with a new Victrola last week on her birthday.

Mr. and Mrs. E. A. Logan and Mrs. Roy Smith were shopping in Canyon Monday.

Joe Garrison attended the Joe Foster sale in Canyon Saturday.

Mrs. Fowler returned Monday from Floydada where she has been visiting her mother since her operation at Dallas. She is doing nicely.

Mrs. J. F. Bankhurst was shopping in Amarillo Tuesday.

Rev. McClurkin pastor of the Baptist church in Hereford and some of his laymen made talks Sunday afternoon at the Baptist church here. They were speaking on the interest of the \$75,000,000 campaign.

Mr. and Mrs. Sanford and Mr. and Mrs. Whitley were shopping in Canyon Tuesday.

Mr. and Mrs. Shaufner Montgomery went to Plainview Saturday to visit relatives. They returned Tuesday.

Mr. Hillyer left Monday for Tulia where he has accepted a position as section foreman. Mr. Cochran has taken his place here.

Mrs. Wright of Amarillo came in Wednesday to visit at the Charlie and Ben Hage homes.

AMERICANS HELP HUNGRY AND ILL

Unbelievable Conditions Found in Territory East of River Bug.

DISEASE AND HUNGER STAY

Red Cross and Jewish Relief Committee Working Hand in Hand to Help Sufferers—Fresh Clothing Dire Need.

New York.—The River Bug, which served until recently as a boundary of the bolshevik fighting, is today a boundary of another kind.

Its eastern shore bounds on one side the hungriest and most diseased and the most stricken territory in the world today. Five million people are at the point of starvation east of the River Bug, according to figures given out by the American Jewish Relief committee and compiled by the American Red Cross and American Jewish Relief agents. A great number of them are Jews. The war has left 6,000,000 destitute and stricken Jews in Eastern Europe utterly helpless, in many cases ill, in every case hungry and dependent.

East of the River Bug these people are living in devastated houses, in stalls of old stables, on roofless platforms built for refugee families, one family to a platform, in old freight cars, in holes in the ground or under the open sky. They are weak from many months of semi-starvation, for they have gone for five years without one square meal. They are still terror-stricken from the war. Their number is being reduced every day by a series of the most terrible epidemics that ever swept any section of the world.

Typhus, Cholera and Smallpox.

Typhus, cholera and smallpox are all raging in the territory east of the River Bug. The first and most general of these epidemics is carried simply by body lice. At least one member out of every fifth or sixth family is stricken with some form of it, as is inevitable among a people clad in five-year-old rags, people who have not had a bath with soap or a change of clothing since the beginning of the war. No estimate of the actual number of those smitten with typhus in Poland has yet been compiled, but it probably is greater than in Siberia, where the American Red Cross found 100,000 cases.

Dirt and malnutrition are the two great causes of the epidemic of disease. All through Poland may be found children eight or ten years old no larger than youngsters half their age ordinarily are. Two out of three infants do not survive their first year of life. The average child in the territory east of the Bug river has never tasted milk, even mother's milk. American Red Cross investigators say that an abnormal number of children are born blind because of the malnutrition of their mothers. American Jewish Relief investigators discovered a new eye disease that had attacked thousands of children, beginning with constant blinking and ending in total blindness, resulting when long continued starvation had affected the muscles of the eye.

So the great expanse of "the department of the East," which sounds like any other part of the map to the people of the United States, is a wilderness of horror and desolation to the American workers in Poland who are familiar with the unbelievable suffering there. In the battle against disease and starvation which is going on in the territory east of the Bug river, the American Red Cross is fighting the former, with medicines and physicians and nurses, and attempts toward cleanliness, while the American Jewish relief workers have entered the lists against hunger with soup kitchens and milk stations, and Children's Relief bureaus, established here and there, all through the vast stretch of territory.

Fresh Clothing the Dire Need.

If all the people in the territory east of the Bug river could be fed properly at once, disease would soon disappear, physicians in the afflicted region say. If they could replace the rags which they have worn since the beginning of the war with fresh clothing, the epidemics would cease to spread. If their living places could be made habitable and clean, it would no longer be as it is today the most desolate expanse of land in the world. It is toward this end that the two great organizations, one of Gentiles and the other of Jews, are working hand in hand, difference of creed forgotten, in the great practical need that they face.

The Red Cross personnel has been trebled in the last few weeks in this district. American Jewish Relief agencies are feeding hundreds of children there.

Dialikes Collar, Dog Buried It.

Winsted, Conn.—Averse to wearing a heavy collar, Jerry, a French bulldog owned by Andrew Saxe, picked up the collar after it had been temporarily removed from his neck and quietly left the veranda of the Saxe cottage at Highland Lake. Jerry reappeared with his nose covered with fresh earth. Members of the family found the collar buried beneath the cottage. Jerry had dug a hole with his paws, pushed the collar into it and completely covered it.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Frezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

The World Made Anew.

(Hilliard Fatheree)

When e'er at morn I rise to greet new day,
And view Apollo as he guides his steeds
From depths of Morpheus' realm with quickening speed;
And watch the shadows of the night give way,
While rosy tints become a flaring light,
And breezes waft fresh morning's breath along;
When nightingale doth cede the realm of song
T' the lark that upward wings his joyous flight—
When e'er, I see the world thus made anew,
Then I forget the sorrows of the past.
The tears of yesterday are but as dew,
That, sparkling now, with rising sun melt fast.
Forgot, forgiv'n is yesterday's mistake:
I have today to fashion and to make.

—From The Prairie.

Our Orchestra.

This year's orchestra promises to be the best and the largest one the institution has ever had. Among its eighteen members a number have had several years of experience. They are planning to work on such scores as: Der Freischutz—Von Weber; Oberon—Von Weber; Unfinished Symphony—Schubert; Surprise Symphony—Hayden, as well as many lighter numbers of the best kind. They play each morning in the chapel.

How About That Overcoat

Our buyer just returned from New York, bringing with him one of the greatest assortments of Men's and Young Men's Overcoats ever shown in the Panhandle.

Fur Collar Coats, waist seam, all-around belters—in the very finest grades, at prices just the same as you pay for ordinary coats.

Drop in and let us show you the very latest styles of the year, as tailored only by

STEIN-BLOCH—STRAFORD and ELK BRAND

DO THEY? We'll say they do! Do you young fellows say we have "the" Silk Shirts of the town? Just ask your room-mate. Or better than that, ask the first well dressed man you meet on the street: And we only sell Manhattans, Broadways and Metrics—That's why.

We are now showing one of the finest, largest and handsomest assortment of Silk and Knit Neckties ever assembled under one roof on the plains. Our 95c Special, is the greatest tie value in the city. Wonderful, large flowing ends, all silk four in hands—in the very newest Eastern designs at prices ranging from \$1.50 to \$5.00.

SUBSCRIPTION, \$1.50 PER YEAR

A great deal of enthusiasm is being raised over the words of acting president Lewis of the miners when he said "We are Americans and cannot fight our government." The words sound fine if you did know what had preceded them. If you overlook that fact that the strike was being called without the sanction of a majority of the workers; if you overlook the fact that the miners were breaking their written contract when they walked out; if you overlook the fact that a hundred million people were threatened with cold and hunger, and industry was threatened with calamity; if you overlook the fact that the heads of the miners were threatened with jail and the government had the strikers with their back right up against the wall; yes, forget all these things and the words sound fine. Keep the facts in mind and they mean nothing but a poor excuse to give the world for the failure of a dastardly act. Lewis is a poor loser. He should acknowledge defeat rather than try to bid behind patriotism. If the facts were known, he and his bunch are now laying plans whereby

the next strike will not be such a miserable failure.

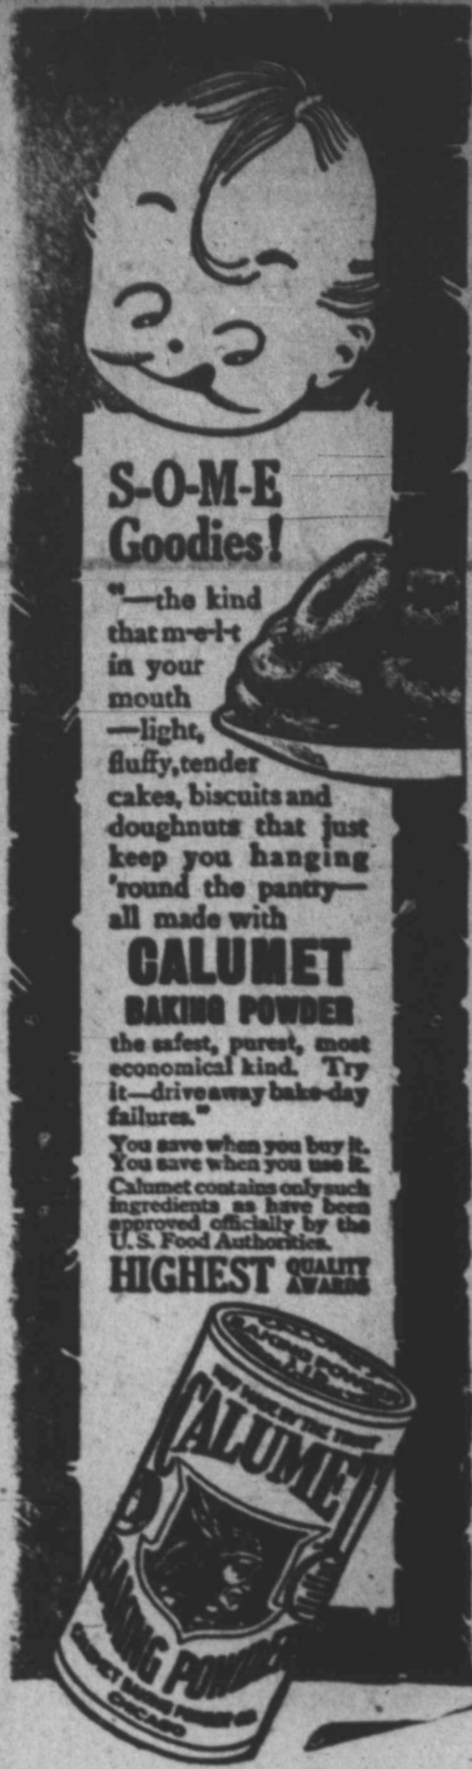

An article in last week's paper stated that the Kaiser would be tried. This was written by our Washington correspondent. He may know what he is talking about, but we doubt it. The world has forgotten there is a kaiser, or rather, ex-kaiser. The world is threatened with industrial revolution and has its hands full. Europe is seething with sedition. America is over-run with anarchists. The fate of the kaiser is nothing in view of these conditions. Make the world safe by first hanging these outlaws. The kaiser's case can wait.

The pastors of the Childress churches have jointly agreed to bar from their regular church services all appeals and national drives. The drives were coming so often that they were called upon to give too many Sundays to this work. Local appeals or local Y. M. C. A. work is not included in this resolution. The newspapers of this country can sympathize with the preachers in the numerous calls made for free publicity.

Prohibition workers have gone from the United States to England. The first two speakers were mobbed. England together with all of the other European countries is the home of booze. Churchmen are said to be interested in the big distilleries of England. The pro workers will have some job convincing the old Englishman that there is harm in the cup.

Higgins has refused to go by Mountain time and has turned back to Central time. Congress got busy and changed this section of the Panhandle to the Mountain time last year. There is a move on foot, gaining in momentum to restore our section to Central time. People out this way don't like to have it get dark in the middle of the afternoon.

For the first time in its history the senate adopted the cloture rule, shutting off debate in the peace treaty

S-O-M-E Goodies!
—the kind that melt in your mouth—light, fluffy, tender cakes, biscuits and doughnuts that just keep you hanging 'round the pantry—all made with

CALUMET BAKING POWDER
the safest, purest, most economical kind. Try it—drive away bake-day failures.

You save when you buy it. You save when you use it. Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

HIGHEST QUALITY AWARDS

discussion. After the rule was invoked Saturday ten reservations coming from the Foreign Relations committee were adopted. The treaty is expected to come up for final debate this week.

The American Legion stands for Americanism. Every man in Randall county who served in either the army, navy or marine should affiliate himself with the Palo Duro Camp in Randall county and signify by this that he is a whole American.

A husband cannot pay his wife's poll tax and get a receipt without her written order. The wife cannot pay the husband's poll tax and get a receipt under any condition, thus sayeth the attorney general of Texas.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blood, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get restful sleep after the first application. Price 60c.

The Labor group left the Industrial Conference; then the Capital, or Employers' group, was dismissed. The public group remained; and we cannot but think that Mr. Kipling very succinctly described the situation thus: The tumult and the shouting dies, The captains and the kings depart Still stands Thine ancient sacrifice. —Baltimore News.

America for Americans is a first-class slogan. But not too much of America for too few Americans. —Washington Herald.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery. The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and sniffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without astringent, tastes nice, contains no quinine—insist upon Pape's!

HOLLAND DRUG CO.

As Dead as the Dodo

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist.

Take "Dodson's Liver Tone" Instead!

Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults.

Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Oh! Such Pain! dizzy-dragged-down? With dull headache, backache — racking with pain here or there — poor woman, she's one of many. On those days each month, when in other circumstances she would go to bed, she must still be at the desk or counter, or struggle through the day as best she may with her housework or her family cares. Usually she who feels those dragging-down or dizzy symptoms, and other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of these pains. Faded, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. In liquid or tablets.

MEMPHIS, TENN.—"For many years I have depended on Dr. Pierce's Medicines to keep me well and healthy. I was once restored to health by the use of the 'Favorite Prescription' and the 'Golden Medical Discovery' when other medicines and doctors had failed to give me any help. The 'Favorite Prescription' has no equal as a 'woman's medicine.'"—Mrs. E. C. Wilson, 620 N. 6th Street.

The Farmers and the Railroads

The Oklahoma Farmers' Union is entirely consistent in its stand concerning the railroad brotherhoods' plan for government ownership of the railroads. In resolutions adopted at their meeting at Clinton, the members of the farmers' union put forth this proposition:

"If congress in its wisdom sees fit to give these railroad men their demands, we ask that congress shall also buy all of the farms in the United States, with their equipment and employ all of the farmers to operate them, paying to the farmers a wage equal to two-thirds of the hourly wage that the average railway employe receives and then sell all farm products to the consumer at cost."

The alternative proposition of the farmers is just as reasonable as that advanced by the railroad unions. In fact, more reasonable, because in the case of the government ownership of farms the product would be sold to the consumer at cost; whereas the railroad unions propose that the railroads be run at a profit and that they be given a large share of the profits. In their proposal, the farmers agree to give all the profits from the farms to the public and still be content with an hourly wage equal to two-thirds of what is paid the average railway employe.

Of course, the farmers are really not so selfish as to insist that the masses of the people go heavily into debt to buy the farms and insure the farmers a higher wage. They simply propose—and justly—that if the people bought the railroads for the railway workers, they also should, as a matter of fairness, buy the farms for the farmers.

While presenting their alternative proposition, in order to show by comparison, the injustice of the railroad brotherhoods' plan, the Oklahoma Farmers Union at the same time went on record as being opposed to any form of government ownership of railroads.

"We view with alarm and oppose any government ownership of railroads," says the resolution, "and we especially oppose the Plumb plan (the railroad brotherhoods' plan) of buying the railroads by the United States government at the public expense, turning them over to the railroad employes and guaranteeing to the employes that whatever wage they demand will be paid."

If the masses of the people are to pay for buying the railroads for any class of workers, it would be better to buy them and donate them to the farmers. The latter are more interested than are the railroad workers in guaranteeing to the public an uninterrupted operation of trains and an efficient service at the lowest cost.

Or, the railroads might be bought and donated to the carpenters or the bricklayers of the laborers who are engaged in manufacturing automobile or other special products. The railroads might just as well be donated to any of these classes of workers as to the railroad employes, if the masses of the people are going to foot the bill.

It is significant that while the railroad workers insist on sharing the profits of the railroads, they do not propose to share any deficit that occurs in operating the roads. The railroad employes do not intend to stand any loss, but to make their earnings as high as possible at the expense of the public. One of the brotherhood leaders objects to the plan of putting railroad profits back into the railroads in the form of improvements. If the government-ownership, profit-sharing plan were put into effect it is possible that the railroad union men would divide the railroad profits among themselves and their operators. Then if it was found necessary to make improvements they would issue bonds and thus make the public pay for the improvements.

Although any form of government ownership of railroads is unthinkable, the plan proposed by the railroad brotherhoods is the worst yet brought forward. It is especially vicious because it proposes legislation for a particular class of workers and provides that these workers shall be given special benefits for which the great majority of other workers will pay. The railroad employes constitute only about three per cent of all employes in the United States. Yet they insist that their will shall be supreme over all.—Oklahoma City Oklahoman.

How The Mighty Are Fallen.

The following tale appeared in the Randolph County Democrat, published at Pochontas, Arkansas, by Neal A. Douglas, formerly publisher of the News at Littlefield, and is a striking illustration of what moving to Arkansas will do to a Plainsman whose reputation was without blemish.

He says: The farmers on Elevenpoints river near Dalton are some fishermen as well as being good farmers. On the farm of Mr. J. P. Wells

WHERE QUALITY AND LOW PRICES MEET

The Unseen Quality in Kirschbaum Clothes

In every hidden detail of Kirschbaum Clothes there are the same high standards as in the parts unhidden. Fine linen shrunk, hair-cloth put into stay—not to come out, hair by hair. Pockets triple stayed to prevent sagging. Silk sewing at all points of strain. That is why Kirschbaum Clothes look better, wear longer—keep their shapeliness ALWAYS.

\$30, \$35, \$45 and up to \$60.

Joe Killough & Company

514 Polk Where your dollar does its duty. Amarillo

there are 105 acres of fine wheat and last week while stacking wheat on the farm, three of the men, C. L. Morris, Alms Jarrett and Will Earley went out to the river to cool and get a drink of water. While looking down from the low bank of the river at a large sycamore log that was hollow, one of the men saw a very large catfish setting at the end of the log looking into the hollow very attentively, each of the men looked at him and said, "he will weigh 100 pounds, and as it is bedding time he will not move, and if we had a rope we could lasso him and pull him out." Mr. Morris went for a plow line and as they were about to lasso this fish he swam away into the deep water, but no sooner than he had gone another large catfish put his head out of the hollow of the log, so they las-

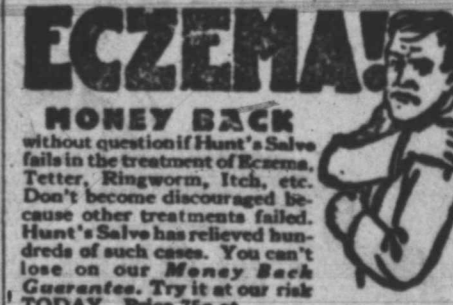

soed him and after a struggle they safely landed him, but not until after Mr. Morris had been knocked down by the tail of the fish and got a good ducking.

This fish weighed 84 pounds, after the men had safely landed this large catfish they concluded they had better look at the log again before they went away and as they glanced toward the log there was another catfish, it was lassoed and taken out in the same way, it weighed 41 pounds.

There is work in fishing as well as in stacking wheat say the boys who can fill both places.

"With a rum punch gripped in one hand and a cigarette in the other, and a song on his lips"—that's the way

a story about the Prince of Wales in Halifax begins. No wonder he intends to limit his stay in the United States to ten days.—Cleveland Plain Dealer.

DO YOUR CHRISTMAS SHOPPING EARLY

Montgomery Bros.

607 Polk Amarillo

Umbarger News.

A large crowd gathered at the Geo. Frank home last Friday evening, that being Ernest Frank's 21st birthday. Those present were F. Weissmueller and family, the Tucek and Hancock families, Fred Beckman, Anna and Rudolph Friemel, August Fly and Francis Skypala, Anton, Alays and Katherine Beckman, Chas. and Francis Beckman, Clarence Beckman, O. and Jack Baily, Carl Kenduskey, Ed and Hy Kirsohke, and John Staub. All enjoyed themselves until a late hour dancing.

Mrs. Nick Hollenstein who is sick at the sanitarium in Amarillo is improving.

John and John Jr. Battenhorst visited Joe Beckman and family Sunday. The dance at M. Hollensteins Saturday night was well attended.

John Bedenk and Ben Hess went to Wildorado Sunday.

Quite a number from here went to the Joe Foster sale at Canyon last Saturday.

Mr. and Mrs. J. R. Oglesby returned last week from an extended visit from South Texas.

Wayside Items.

After the cold wave comes delightful fall weather. Dry and very pleasant.

Misses Cora Pixler and Louise Scheizer are holding a series of meetings at Wayside at night. Beginning last Wednesday night they will continue thru this week. They are devoted and wholly consecrated to the Lord's work, all who hear them are more anxious to hear them again.

Mr. Cansby F. Watson and family left Saturday afternoon for Wellington. Mr. Watson will make but a short visit, while the rest of the family will visit for some weeks.

Miss Cora May has sufficiently recovered to resume her school duties beginning Monday, last.

Van O'Neal had the misfortune to get his left hand badly hurt Wednesday afternoon with a rope while handling cattle.

The teachers, Misses Naason and May are "keeping batch" while Mrs. Clara McGehee is away visiting.

Dr. Otto Roegric visited Wayside past week.

W. C. McGehee, wife and little daughter, Aline left Sunday morning for Kansas City and other points in Mo., and maybe Kansas.

Mrs. McGehee will visit with relatives. They may be away for a month.

M. L. McGehee has been seriously

PIGGLY WIGGLY

Its Growth and Success

Three years ago the first PIGGLY WIGGLY store was opened in Memphis, Tenn. Today PIGGLY WIGGLY stores are in actual operation in over one hundred and twenty cities. Nearly every day a PIGGLY WIGGLY store is opened, either in a new town, or a link is added to the chain in some city.

No PIGGLY WIGGLY store has ever closed its doors for any reason.

Why this Phenominal Growth and Success?

The same answer applies to the growth and success of the locomotive, the telephone, the reaper, the typewriter, the typesetting machine--they are all economic devices.

It is the old story--the man who can make, with the same energy and in the same length of time, two blades of grass grow where only one grew before, has a greater value to society.

The same is true of the man who sells. The man who can sell one hundred pairs of shoes in a day is one hundred times more valuable than the man who can sell only one pair of shoes in a day.

In a PIGGLY WIGGLY store one hundred can be served in the same time that it would take to serve ten people in any other store.

The PIGGLY WIGGLY system saves not only time, but saves money, energy and health.

PIGGLY WIGGLY is the best and cheapest method for distribution of food products of national reputation.

By eliminating delivery and telephone charges, bad accounts and sky-blue salesmanship, it is possible to reduce prices on goods, and customers are given the benefit.

Piggly Wiggly is different from any other store in the world and looks different throughout its four aisles, each running parallel with the other, the customer sees on either side a display of nationally known merchandise of the best of each product assortment. Each customer is loaned a basket for use while in the store. A swinging price tag hanging opposite each article tells its price in plain figures.

The customer selects of his or her own choosing not being persuaded to buy or not to buy by anyone in the store--not even a recommendation is made as to what to buy.

More than 1000 items is the assortment found in a PIGGLY WIGGLY store and in every such store each particular commodity is found located in exactly the same place as in every other PIGGLY WIGGLY store.

The PIGGLY WIGGLY complies in every respect with the regulations of the State Board of Health; it is conspicuously neat and clean from the floor up.

Come and pay us a visit whether you buy anything or not, we are always glad to have you.

JARRETT'S

Is a good place to buy your drugs, your drug sundries, your perfumes and toilet articles. A good place to get your smokes; candy and fountain drinks; in fact a good place to trade at all times. Prescriptions accurately compounded. Make our place your headquarters.

Jarrett Drug Company

CANTON, TEXAS

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The Tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beem Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

L. T. LESTER

CANTON, TEXAS

NOTICE: We want the public to know that our plows are NOT the Case plows made by the J. L. Case Plow Works.

Randall County Abstract Company.

(By R. Kenneth Evans.)

With the extensive trafficking of real estate in the Panhandle country and especially Randall county and the leasing of lands for future oil development there has been a demand for abstracts of title and in this connection during this campaign it might be said that in Canyon is located one of the most complete and up to date abstract plants to be found anywhere in the Panhandle country under the management and direction of C. N. Harrison.

The Randall County Abstract Company was established in Canyon in 1902 and from that time has kept and maintained the most minute record effecting any piece of land in this county. In fact there is not a set of abstract books in the state of Texas that could be more complete than the records maintained by Mr. Harrison in his offices.

The Randall County Abstract company is located in one of the principle brick buildings of the city on one of the most prominent business corners of the city. The building was formerly used by a banking institution and makes an ideal location for an abstract company. The large bank vault houses all the records and abstracts of the company and the office fixtures and furniture gives the office a metropolitan appearance.

The company is equipped with all the office supplies necessary to turn out prompt and neat work and in fact Mr. Harrison has established a reputation for this company over the entire Panhandle country because of the rapidity which abstracts can be issued and the care used in issuing them to make them exact duplicates of the record effecting the title to any lands in Randall county.

Mr. Harrison is a member of the Texas Abstractors' association and a member of American Association of Title Men and these affiliations make it possible for him to install systems in his office in keeping with the progress of things generally. He is also an active member of the local commercial association and his long residence in this county makes him eager to do every thing in his power to encourage the maximum development of all resources in this section.

To begin with there is probably not a man in this section that has been a more influential factor in the development of the resources of this section and in the encouragement of immigration to this section. For many years Mr. Harrison was in the immigration business in the Panhandle country and was probably handled more land deals than any other man in this section. He has been directly responsible for the location of some of the county's most prominent citizens in Randall county.

Prior to entering the real estate and abstract business Mr. Harrison was a civil engineer and assisted by Captain F. C. Hand surveyed the first piece of electric railway line to be builded in the state viz., the line from Dallas to Fort Worth. He is truly a Texan and aside from making a financial success in the state has worked with the true western spirit to assist in the development of the resources of the state.

Mr. Harrison is assisted in his abstracting work by Miss Pearl Jenkins, a more than capable stenographer and abstractor. Miss Jenkins has been in the employ of Mr. Harrison for the past five years. Mr. Harrison is familiar with every tract of land and its location in the county and familiar with the majority of the titles to these lands. He is better versed on locations, opportunities for investment and conditions industrially in Randall county than any other individual.

MR. AND MRS. GLENN WELLS

Musical and Dramatic Sketches

Mr. and Mrs. Glenn Wells bring to the presentation of musical and dramatic sketches a peculiar fitness of ability, training and experience. Both of these splendid artists have appeared upon the platform for a period now approaching ten years, during which they have won an abiding fame by their work as members of a number of high class musical and dramatic organizations.

Entertainment is the key note of the programs given by Mr. and Mrs. Wells. Both are splendid singers and players, and capable of presenting an exclusive musical program which would meet the requirements of the most exacting critic. In addition to musical talent, they possess real histrionic power, and the dramatic sketches which they present are among the most artistic productions of the platform.

Their program embraces baritone and soprano solos, duets, story-telling and readings, dramatic sketches, pianologues, humorous and musical sketches. The sketches are given with appropriate costuming.

Third number of Lyceum at Olympic Saturday night, November 22.

Special admission price for this number and the pictures only 20c and 50 cents.

The Literary Digest has made a great discovery, but you cannot mine coal with a typewriter. — Wichita Eagle.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Twenty Years of Service

Twenty years ago last Thursday this Bank received its first charter from the United States Government. The charter placed the Government's seal of approval upon this Bank, and carried with it a most rigid investigation at frequent intervals, guaranteeing to the depositor the safest place on earth for his money.

A new charter was issued this Bank last Thursday, extending to our customers the same guaranty for the coming twenty years.

The officers of this Bank are truly thankful to the patrons of the institution for their business throughout these twenty years. Canyon was not so large then as it is today. During the coming twenty years this Bank has visions of growth and development far out-reaching those of the past twenty. We take particular pride in the part our Bank has played in this growth and development, and pledge our best efforts always for the upbuilding of this fine community.

We are proud of our Bank as it stands today. We are proud of the long list of depositors and the large amount of money they have entrusted to our care. We are proud of the fact that we are able to take care of loans, from the smallest to the largest, to the entire satisfaction of our customers. Every branch of conservative banking has been developed in our institution to a point far beyond the dreams of twenty years ago. And as our community growth, we will keep just a little ahead in the efficiency of our service to our customers.

We have a number of customers today who were among our first depositors. We extend to them our thanks, and extend a hearty invitation to the people of Canyon and Randall County to join with these splendid friends of ours in making the coming twenty years the greatest in the history of this Bank.

Randall County News. tf
The death-knell of radicalism may be striking.—Little Rock Arkansas Democrat.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Southwestern Life Insurance Co.

of Dallas

A Texas Company

MAKES

Farm and Ranch Loans

THE SIMPLE WAY

You get all you borrow and are liable for, and pay back no more, except interest. It keeps your note and valuable papers in strong vault at Dallas.

IT COSTS YOU NOTHING TO GET A LOAN

The Company does not issue bonds against your note, or put it up as collateral to secure funds. It loans the funds of its policy holders. You may be one.
