## RANDALL COUNTY FAIR IS GREATEST SUCCESS POSSIBLE

NOTHING BUT PRAISE IS HEARD FOR THE WONDERFUL SUCCESS OF THE FIRST ATTEMPT AT BIG FAIR IN CANYON—PLANNING FOR NEXT YEAR.

The Randall County Fair came to a close Friday afternoon after one of the biggest and best three days ever seen in this city.

Enthusiasm for Randall County's Fair was heard on every hand during the time the grounds were opened for the visitors, and since the big affair has come to a close, the people of Canyon marvel that so great an exhibit could have been gotten together upon such short notice and under such trying conditions imposed upon the management by a constant down pour of rain practically every day for two weeks before the date of the opening.

The Fair was a lesson to the pessimistic of Canyon and Randall county. It was an eye-opener even to the optimist. It was a rare revelation for the thousands of visitors who came from surrounding towns during the three days.

That the Randall County Fair next year will be a big affair is assured by the enthusiasm with which the young men of Canyon are taking hold of the situation and making arrangements for the Fair of next year. Plans are already under way for the construction of a mile race track and a mammoth grandstand for the automobile races. Superintendents for various departments are being discussed and men and women put into training for the work they will have to do next fall. The Fair last week is paving the way to a bigger and better Fair than the Panhandle people have ever seen.

Last Thursday was the banner day of the Fair. The business houses closed and everybody went to the Fair. More than 3000 people were on the grounds that day. Plainview, Hereford, Happy, Amarillo, Claude, and many other Panhandle towns had big delegations at the Fair. They came, saw and were satisfied that Canyon had not fallen down on the promise made to offer them a fine program and a big county Fair.

In the riding contests of the afternoon, Driver won first and Lloyd Rusk second. Geo. Johnson won first in roping.

Lloyd Rusk won first in steer riding.

Friday afternoon the track was dry enough for the races which had to be postponed from the first and second days. Hiram Thompson of Amarillo won the 60 lap motorcycle race in 30 minutes, 8 2-5 sec. Humphrey on an Indian had the misfortune to fall four times before putting his machine out of commission.

In the Ford race Trimmer of Amarillo won the 30 lap race in 18 min. 6 sec.

Hutchinson of Lockney in an Oakland car beat Stockett of Canyon on a motorcycle in a ten lap race.

In the riding contest Driver won first and George Johnson second. Miss Grace Ward rode the Currie horse, which was one of the meanest brought to the city.

## NORMAL COLLEGE TO ENROLLMENT PUBLIC SCHOOL IS LARGE

President Hill Confident That This Year's Work Will be Greatest in History of the Institution.

Preliminary preparation for the opening of the eleventh regular session of the West Texas State Normal College on next Tuesday morning, Sept. 21, is being rapidly pushed this week.

The new 75 h. p. engine has been installed and turned over to the college engineers who pronounce it a magnificent piece of machinery. This engine will furnish light for the entire school plant, power for the manual training shops and for pumping the school's water supply, and electricity for the cookers in the Domestic Science department.

Johnson Construction Co. will be loading out early next week, having practically finished the construction of the fireproof boiler house and machine shops at a cost of \$30,000, and Cousins Hall, the new dormitory for women, at a cost of \$135,000. The work this company has done is in every way most satisfactory and the school authorities are very proud of their new construction. Cousins Hall is especially adapted to the needs of the school and will furnish an admirable home for more than eighty people. The building is fireproof and provides every modern convenience. The girls who stay in this hall will certainly lack nothing so far as comfort and convenience go. The only criticism that can be made is that the building is too small. It is hoped by the management that it will soon be possible to enlarge the building to a capacity of two hundred.

The furniture is being placed this week and shows off beautifully. The authorities have followed the policy of buying first class goods, believing that this is true economy.

The following is the personnel of the management of the hall: Mrs. Marion Witt, formerly with Texas Woman's College, Ft. Worth, Director; Mrs. Fogarty of Canyon, Housekeeper; Miss Crawford, formerly with Huntleigh Hall, 1st cook; Miss Marie Stith, 2nd cook. School girls have been employed to wait tables and wash dishes, while the Domestic Science department will act as dietitian.

Rooms at the Hall have all been taken some time ago and numerous applications have been rejected.

Faculty members are returning from their vacation and new members of the Faculty are already arriving and making their living arrangements for the year.

Prospects for a large attendance are good despite the fact that every one who has a certificate has almost been conscripted to recruit the depleted ranks of the teaching profession. Last year the West Texas State Normal College was the only Normal in Texas that did not suffer a severe decrease in attendance. In fact, this school was the only one of its kind in the whole United States, so far as is known, whose attendance reached a new high water mark. It is not known, of course, just what effect the ease with which boys and young men may earn large incomes, may have upon school attendance, but it is confidently believed that this year's enrollment will go beyond even last year's unique achievement.

W. E. Armstrong of Happy—1st junior yearling boar.

J. C. Frye of Tulia—2nd junior boar.

Senior boar—1st, 4th, H. C. Roffey; 2nd, 3rd, John Knight.

H. C. Roffey—Junior champion boar; 1st aged sow; senior and grand champion; 1st senior gilt; 1st litter.

Jno. Knight—2nd senior gilt, 2nd litter.

Breeders young herd—1st J. C. Frye of Tulia; 2nd John Knight.

Junior Futurity Boars

34 boars showing—1st C. F. Walker; 2nd H. C. Roffey; 3rd L. B. Wilks; 4th D. V. Rusk; 5th C. F. Walker.

Attendance of 361 in the Public School—Present Equipment is Taxed to Capacity.

Our Public School opened with a large attendance totaling 361, distributed as follows: First grade 36; second, 45; third, 43; fourth, 45; fifth, 30; sixth, 30; seventh, 45; eighth, 35; ninth 30 and tenth 32.

The forenoon of the first day was given to enrolling, classification and giving out of text books.

Wednesday forenoon was used for the assignment of lessons and further adjustment of pupils to their classes.

The seating capacity is being taxed and a further increase will call for a considerable outlay in equipment.

The community school spirit is good but it cannot develop with the limited auditorium space we have. The friends present at the opening appreciate our needs.

The school interests of Canyon are growing rapidly and it is doubtful whether present equipments will nearly suffice for another year.

Through the kindness of the Randall County News, we shall be able to keep the patrons in touch with our plans and progress.

C. L. SONE.

### CLAYTON W. GAMEL BURIED IN ARLINGTON CEMETERY

The body of Clayton W. Gamel was brought from England this week and Tuesday buried in the Arlington National Cemetery at Washington. Clayton was the first Randall County boy to die on foreign soil. He was taken seriously ill while on the transport crossing the water. His mother, Mrs. Kathryn Hutson, is now living in Amarillo.

Interscholastic League Organization The Randall County teachers met at the Normal building Sept. 9th. They entered into a permanent organization for the year. Mr. Sone was elected chairman, and Miss Loretta Wiggins, secretary.

The rural teachers will cooperate with the Canyon public school teachers in the work of the Inter-scholastic League. Mr. Sone was elected Director-General.

The following directors for special departments were elected: DeClamation, Miss Loretta Wiggins; Elocution, Mrs. Hedge; spelling, Miss Ida Rowland, and athletics, Mr. Sone.

### 25 Babies in Show

Twenty five babies were entered in the Baby Show conducted by Mrs. Fred H. Ives at the Normal last Thursday morning in connection with the Randall County Fair. Of this number 23 were physically examined and scored by the judges.

The report on the scoring has not been completed but will be finished in time for next week's edition of the News.

The Red Cross maintained a booth and First Aid station in one of the rooms at the Normal throughout the Fair, with Miss Botsai, the Red Cross nurse in charge.

### L. T. Davault Has Operation

L. T. Davault is in the sanitarium at Amarillo in a very critical condition. He was taken seriously ill Tuesday and rushed to Amarillo where the operation for appendicitis was performed. He was found to have but one kidney which was also badly affected. He has not passed the danger point, but unless complications set in he will recover from the illness.

### Thanks People for Support

C. F. Walker, secretary-manager of the Randall County Fair, asks the News to thank all those who assisted him so much in the success of the Randall County Fair. It was a lot of hard work and several men stayed right with Mr. Walker until the job was successfully completed.

### No Jury Cases Tried

The petit jury for the week was dismissed Tuesday, no cases being ready for trial. Cases are set for next Monday, next week being the last week of this term of court.

Lester Dillon of Happy was a caller and visitor here Wednesday. Mrs. J. Grady Holland left Tuesday for Dallas where she will be for several weeks visiting relatives.

Mrs. Mollie Dillon was a caller in Happy Wednesday.

### HOME HYGIENE AND NURSING CLASSES STARTED MONDAY

More than thirty Canyon Women met Miss Botsai at the court house Monday morning in response to the announcement of last week that the classes in Home Hygiene and Care of the Sick would start on that day. Classes will continue on Mondays, Wednesdays and Fridays at 9 a. m. and 2 p. m. Mrs. J. B. Gamble, head of the committee from the local Red Cross Chapter, has issued a cordial and urgent invitation to all women interested in this work to join the classes.

Miss Botsai has her office in the old Red Cross room at the court house and will have a telephone installed this week. She will be at the service of the people of this community. The classes she is conducting are highly interesting and instructive and a large number of women are expected to join the work this week.

The Red Cross officials are now making arrangements for Miss Botsai to extend her work to all communities of Randall county. All districts will be reached just as quickly as possible.

### EXHIBIT TO DALLAS FAIR IS NEXT IMPORTANT THING

C. F. Walker has started to make arrangements for a big exhibit to be taken to the Dallas Fair which opens in October. He is seeking the cooperation of the farmers and business interests of Randall county toward making the Randall county exhibit the greatest that this county has ever sent to any fair.

A number of winners in the Randall County Fair have promised Mr. Walker their very best—produce to take to the Dallas Fair, but more will be needed to round out a full sized exhibit.

### Rogers Gets Car Home

J. E. Rogers returned Thursday from Gallup, N. M., where his car was found last week and the two thieves who stole it in Amarillo were caught. They talked very freely regarding the affair, and offered to bet Mr. Rogers and Sheriff Roach of Amarillo that they would not go to the pen for the theft. Both seem to be experienced men.

The federal court has taken up the case as the federal law calls for five years' imprisonment for taking a stolen car from one state to another. After the federal court gets through with them, the district court will take up the case.

The sheriff at Gallup received the \$100 reward for the car and will get \$250 if the men are convicted. A number of car owners are offering to assist Mr. Rogers in paying the \$250 reward in case of conviction.

### Commissioners Meet

The commissioners court was in session Monday for the regular monthly meeting. The salary of the court house janitor was fixed at \$80 per month.

The county agent, C. F. Walker, was allowed \$16.66 per month to apply on his car expense and gasoline bill in connection with the county work. The farmers of Randall county will be pleased to know that Mr. Walker has been employed by the court for another year in the county agent work. He is just now closing his first year in the county and has met with unusual success in his work.

### Going to College Station

John Vetes, Jr. will leave Saturday for College Station where he will take a special two weeks' stock judging course. The four boys who receive the highest score in the competitive examination will go to Atlanta, Ga., where they will compete, and also visit the National swine and dairy show, all of their expenses being paid. The four boys who win at Atlanta will get a free trip to England next year.

### Conway-Campbell Wedding

Miss Jessie Mae Conway and Henry Campbell were married Thursday night in Tulia. The bride is the daughter of Mr. and Mrs. J. M. Conway, and the groom is the son of Mr. and Mrs. W. B. Campbell. Both are well known among the young people of Canyon and vicinity and will make their home on the Campbell place northwest of the city.

### Kindergarten Opens Tuesday

Miss Edna E. Haines announces that the kindergarten at the Normal will open Tuesday for all children five years of age or over. There will be no tuition charges in this department as will be the case in the remaining departments of the training school.

## TEACHERS VOTE TO RETURN NEXT YEAR

Teachers are Highly Pleased With Consolidated Meeting Held at the Normal During Five Days.

At Thursday morning's general session of the teachers' institute the teachers of twenty counties voted unanimously to return to Canyon for a consolidated institute in 1921. H. W. Morelock, head of the English department of the West Texas State Normal College, was elected conductor, and plans were outlined by the executive committee looking to a still greater institute than the one just closed.

On Wednesday evening at 7 o'clock in the auditorium of the college, Dr. David Snedden, of Columbia university, lectured to a large and appreciative audience upon the teachers' opportunities for cultural development.

Following this splendid lecture, the teachers filed out the east door of the main building where one hundred and fifty of the best melons of the Plains country lay invitingly spread out before them. After this feast, all who were physically able repaired to the fair grounds to enjoy the battle royal staged by five husky negroes.

The institute closed Friday afternoon. Teachers and school authorities in attendance upon this institute unanimously pronounce it the best institute ever held in West Texas, and they are committed to the idea that a consolidated institute is really worth while.

Noteworthy among the features of the institute was a series of related lectures by Dr. David Snedden of Columbia University. The central theme of these lectures was "the essentials in education."

In practically every lecture Doctor Snedden emphasized that in schools too many facts that are worthless to the average individual are being taught, and he insisted that school authorities should seek out the essentials and teach them only. Doctor Snedden is a man of vast education, of wide reading and much refinement. He grew up as a boy on a ranch in California, and this early training contributes much to the practical application he makes of all he has learned in the best universities of our country. The teachers of the Panhandle were fortunate in the opportunities they had of listening to him discuss from varied angles a very intelligent outlook upon present day educational problems.

Superintendent B. B. Cobb of Waco whose boyhood days were spent in the Panhandle near Claude, gave to superintendents, principals and high school teachers many helpful suggestions pertaining to their work. Superintendent Cobb is one of the sanest and most practical school men of Texas, and he has been prominently mentioned as the next president of the State Teachers' Association.

Professor J. F. Peeler, who had charge of the intermediate grades of all the Dallas city schools brought many new messages to the teachers doing this important work. The largest part of his life work has been devoted to the intermediate department of public schools, and he has made many valuable contributions to this phase of public education. He believes strongly in the importance of this somewhat neglected section of our curriculum and he is doing a great work in arousing teachers to a consciousness of its value in the education of boys and girls.

Prof. F. P. Guenther, head of the French department of the West Texas State Normal College, gave invaluable assistance to teachers of the rural schools. Professor Guenther has had a wide and rich experience as county and city superintendent, and he has made many valuable contributions to education in Texas.

Miss Marie Riddle of the Waco city schools did her usual high character of work in the primary department.

Among the prominent visitors at the institute the following deserve special mention: Mrs. Phebe K. Warner of Claude gave a very helpful address on Thursday afternoon. Her subject was "The Boy and the School." She made a special plea that more boys attend school and prepare themselves for the duties of citizenship and life.

Hon. Frank E. Jamison of Amarillo was present at the opening exercises Monday and gave the response to the welcome address, delivered by President Hill. Mr. Jamison always has a helpful message for his audience. (Continued on page four.)

purses and prizes than first promised. And the crowning glory of the whole matter is that Randall county is successfully pulling off her first fall fair by her own unaided efforts. No professional promoters were employed, no outside attractions imported. It is strictly and genuinely what its name implies—a county fair—in, of, for and by the county and the county only—not an imported exhibition of paid performers, who take their money far away. The manager is the local county agent, his assistant a local man. The band is composed of local men, with a local leader. The exhibit directors are local pastors. Best of all, the amusements are provided by the local Legion post, and practically every participant is a Randall county rider. True, the bad broncos had to be imported, since the local steeds had been too thoroughly subdued by the superior skill of local riders to furnish much amusement. And the type of high-bred Herefords now found on Randall county ranches wouldn't have been hard to rope or ride. But the human participants were all local men, and the moneys they won will all be spent at home. Thus it is that the good people of the county have given themselves a good time, and have raised the standard of their agricultural and porcine products, all without sending a cent outside the county limits. This is the way the old fairs were conducted, and this successful revival of the sensible old style, is distinctly refreshing in this day of noisy, flashy, coin-catching immoral "importations." Congratulations to the little city of Canyon and "the county that could—and did."

Mr. Taft once stood up and gave two ladies a seat. He is trying to do as much now for Mr. Harding and the League of Nations.—Chicago Tribune.

**Work and You Work Alone**  
Strike and the world strikes with you, work and you work alone; our souls are ablaze with a Bolshevik craze, the wildest that ever was known. Groan and there'll be a chorus, smile and you make no hit; for we've grown long hair and we preach despair, and show you a daily fit. Spend and the gang will cheer you, save and you have no friend; for we throw our backs to the birds and ducks and borrow from all who'll lend. Knock, and you'll be a winner, boost and you'll be a frost; for the same old ways of the prewar days are now from the program lost. Strike and the world strikes with you work and you work alone; for we'd rather yell and raise blue hell than strive for an honest bone. Rant and you are a leader, toil and you are a nut; 'twas a bitter day when we pulled away from the old-time work-day rut. Wait and there'll be a blowup, watch and you'll see a slump, and the fads and crimes of these crazy times will go to the Nation's dump.—New York Sun.

Come to Canyon to live.

**Success of Randall County Fair**  
By G. B. Rosborough, Staff Correspondent of Amarillo News.  
"Canyon can!" The opening of the Randall County Fair on Wednesday furnishes a fine proof of what West Texas pluck and persistence can accomplish against great difficulties, and that without foreign or professional aid. When the matter was first agitated last April, there were many to say: "Can't!" But County Agent C. F. Walker was from Missouri, and backed by the Randall County Commercial League and the business men of Canyon, he is "showing" the doubting or deriding Thomases that "Canyon can." They had said that the fair couldn't be financed locally; yet the subscription paper hadn't gotten half way 'round the city square before the amount asked for was oversubscribed to the tune of 150 per cent. Then they said that the farmers wouldn't exhibit—and one farmer alone brought in enough farm stuff to fill an ordinary display booth, while his neighbors filled the rest of the hall with Randall county's wonderful variety of prize-deserving products. They said that amusements cost too much—and the management has been able to offer bigger and better

## The Final Test of Merit

Service, Quality, Price and Permanent Satisfaction are the acid tests of modern retail business.

Goods must not only LOOK right, but they must be MADE right and SOLD right. When a United salesperson says that the quality is firstclass you may accept the statement with full confidence as to its accuracy. The reputation of the United Stores Co. is behind them. # Fordson

Trade Mark

There is every reason in the world why every farmer should buy a Fordson Tractor, while there is not a single reason why a farmer should not buy a Fordson Tractor.

In the claims we make for the Fordson Tractor as being the superior farm Tractor, there is nothing of boasting. Our claims are based upon demonstrated facts. In every sensible test that has been made (and we don't believe in any jockeying or technical tests) but in the real common sense work on the farm—the work the Tractor was intended to accomplish—we say, in all such tests the Fordson has stood head and shoulders above all competing Tractors. And this is best proven in the fact that while there are about three hundred thousand farm Tractors in use in the United States today, and while Tractors have been sold to farmers for twenty years, and while the Fordson has only been on the market two years, more than one-third of all the Tractors in use in the United States are Fordson Tractors.

Now you can't upset a fact. You can't back away from the established truth, and there it is—out of three hundred thousand Tractors, one hundred thousand are Fordsons and there are probably some fifty different makes of Tractors on the market. Just let your common sense consider these facts. "Figs are not plucked from thistle bushes, nor thorns from thorn trees."

The Fordson Tractor has the necessary power. It is economical in operation. It is flexible in control and operation. It is simple in design, and it is sturdily built of the best iron and steel. It is the product of the genius of Henry Ford, and it wasn't placed on the market until Henry Ford had tested it, and tested it, before he asked the farmer to buy it. It is no idle faith that in the Fordson Tractor Henry Ford has given to mankind one of the greatest benefits which has ever come to civilized man.

Now we solicit every farmer to buy one or more Fordsons. Come in and see them. Come in and let us tell you more than we can in an advertisement. Let us demonstrate to you. Let us put it to every test that you ask. The Fordson is just as necessary for a farm as water is in the house. Come in! Look over the Fordson. Test it. Don't take any chances. Don't experiment. Supply your farm with the Tractor of established value.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

It was expected that the proposed A. & M. College for West Texas should meet opposition in the democratic convention. The A. & M. College authorities at College Station have taken a decided stand against the proposition; the educational interests of the state have taken a decided stand against the proposition. These interests are not fighting West Texas as some Panhandle people seem to feel. They are simply protecting the A. & M. College at College Station against the establishment of another school at Abilene, which would do West Texas no good and would hurt the great school at College Station. The News pointed out months ago that if the West Texas people would center their efforts on the expansion of the agricultural department of the West Texas State Normal College there would be no opposition from the educational interests of the state. The school is in position to serve West Texas interests. It would not hurt the great school at College Station as very few of the young men from this section are now attending the college since the courses offered do not harmonize with Panhandle and West Texas conditions. The News believes that the College Station authorities would welcome the expansion of the agricultural department of the West Texas State Normal College in order that the agricultural interests of the West can be provided for. The News has reason to believe that the state educational interests would back the proposition, but are solidly against the creation of a new school at this time when the state is straining every muscle to care for those schools already established. All that is necessary is for West Texans to see that their only chance for agricultural development is in the expansion of the normal and all will be well. Until that time, the West will get nothing. Let's forget local issues and look at the welfare of the whole West.

That was a great county fair at Canyon last week. It was a revelation of what will be possible to accomplish next year when more time and effort is spent in putting the job over. Those people who came from a distance were more than pleased at the fair. The only knockers of the fair were found among those home people who did not try to make the fair a good one and were then disappointed because it was not so large as the Dallas fair.

EXTRA—Maine has gone republican, much to the satisfaction of the followers of this party. When Texas returns came out in the August primary, the democrats had as much right to boast of a democratic victory as did the republicans in the rock-ribbed republican state of Maine.

The weather has been rather warm during the past week, but it is just what is needed for the maturing of the row crop. The row crop will be the largest this year of any within the past ten years.

The Palestine Weekly, a Zionist paper printed in Jerusalem, brings news of a project to develop the water power of the River Jordan. Since Palestine is a land without coal or fuel of any kind, industrial progress depends largely upon utilizing the power resources of the country to generate electricity. It is suggested that the Jordan, thus harnessed, would supply not only power, light and heat, but would also work pumps to irrigate extensive valley lands now barren.

When France has made Germany deliver that coal, perhaps she will come over here and make our coal barons deliver a little to us.—New York World.

and it was regretted that he could not be present more during the institute.

Judge James D. Hamlin of Farwell was waterbound and could not be present at the opening exercises on Monday, but he reached Canyon on Tuesday and gave a very thoughtful and well worded address on "The Greatest Needs of the Panhandle Schools."

Judge J. K. McKenzie of Roberts county was present during the entire time of the institute and he took a keen and live interest in every number of the program. The following county judges were also interested visitors at the institute: H. L. Mobley of Armstrong, B. D. Woodlee of Castro, Chas. Clements of Hale, L. W. Wall of Moore, B. H. Howard of Crosby and C. R. Flesher of Randall.

On Thursday afternoon Col. A. H. Hite of Kentucky, formerly superintendent of schools at Jefferson City, Ky., gave a very humorous address on "Opportunities."

**Resolutions Adopted**

At the close of the institute the following resolutions were unanimously adopted.

1. Resolved that we, the teachers of the Panhandle, express our thanks and appreciation to President Hill and his faculty for their untiring efforts to make our stay in Canyon both pleasant and profitable. We are still further indebted to these authorities for the use of their splendid building and equipment.

2. Resolved that we express our appreciation of the kind hospitality shown us by the people of Canyon, and that we thank the Commercial Club and the West Texas State Normal College for their generous financial aid to the institute.

3. Resolved, that we extend to Professor H. W. Morelock a vote of thanks for his valuable aid and direction in making this institute such a decided success that we are especially indebted to Doctor David Snedden for his series of educational lectures, profound in thought and helpful in their practical values; to Superintendent B. B. Cobb for his happy way of helpful suggestions in conducting the high school section; to Professor J. F. Peeler for putting new life and thought into the field of intermediate school work; to Professor F. P. Guenther for his efficient services in conducting the rural school section; and to Miss Marie Riddle for her skillful presentation of the aims and ends of primary education.

4. Resolved, that we highly endorse the plan of a consolidated institute as the best medium of reaching the many in a united effort for the advancement and education of the masses.

5. Resolved, that we pledge our hearty support to the constitutional amendment having for its aim the removal of the tax limitation for school purposes.

6. Resolved, that we heartily endorse the action of the Thirty-sixth Legislature in appropriating four million dollars for purposes of increasing teachers' salaries, and that we pledge our best efforts for the wisest expenditure of these funds.

7. Resolved, further, that a copy of these resolutions be preserved in the minutes of this organization, and that other copies be sent to the press for publication.

**B. Y. P. U. Program**

Following is the Hereford B. Y. P. U. program rendered in the Baptist church Sunday.

Sunday was a great day. Large attendance at Sunday School and church services. An impressive sermon by Pastor Fronabarger in the morning. At 4:00 p. m. the Hereford B. Y. P. U. rendered a splendid inspiring program.

Opened by local B. Y. P. U., Paul Johnson as leader.

Devotional—Mrs. Montfort, Daniel 1-8.

Purpose in Heart—Bible Story—Daniel's life; Miss Bertie Lee Burkhalter.

Character—Mr. Ford Fronabarger. Solo—Mrs. Sheffy.

Welcome—Miss Elva Fronabarger.

Response—Mrs. A. O. Thompson of Hereford, who is president of Hereford Zone. Also took charge of program for Hereford.

Hospitality—Miss Rush Owens.

Solo—Miss Clyde Wilson.

Dependability—Miss Dot Owens.

Courtesy—Mr. James.

Quartet—Mrs. A. O. Thompson, Misses Clyde Wilson, Eddy Connell, Ruth Mounts.

Mr. James expressed gratitude of courtesy extended to our American boys, while in France and what it meant there as well as in the home land.

The Hereford bunch is a live wire. We extend a hearty invitation to "come again." This will be a day to be long remembered.

The Tierra Blanca B. Y. P. U's have organized into an Associational B. Y. P. U. since the State Encampment in Palacios in July. So many of our young people attended this great meeting and caught a vision of greater work. They are set on fire with enthusiasm to evangelize our young people in a great working force for Kingdom progress.

**Wayside Items**  
After a long wet spell, threshers are again busy. Quite a number are running.

Some volunteer wheat lookink fine. Row crops unusually good.

Our teachers for the public school came in Friday night from Canyon where they have been attending the Institute. Misses Anna Naason and Cora May.

Public school at Wayside opened Sept. 13, with 39 pupils, others are expected. Devotional exercises were led by Rev. J. T. Lowe, followed by a short lecture by him. Mrs. W. C. McGehee presided at the piano. Several patrons and some visitors attended the opening. The teachers are entering their work with hopes of a profitable year.

George Washington Cook was born Jan. 28, 1857, near Camden, Quachita county, Arkansas. Departed this life at his home in Armstrong county, Sept. 10, 1920. His parents dying when he was nine years old, he was reared by his grand parents, came to Texas in 1891. He never married.

**THE TOWN IN WHICH WE LIVE**  
A stranger drove into a little country town the other day. He pulled up by the side of the first native he met and inquired: "What sort of a town is this one, a good one or a bad one?"

The native scowled. "It's the rottenest burg on God's green earth,"

he replied and swore.

The stranger drove on. He drew up by the side of next man he met. "What sort of a town is this one, a good one or a bad one?" he asked.

The native blew out a cloud of blue smoke. His features lightened up: "Why," he declared as he threw out his hands, "this is the bulliest little ranch you ever entered stranger. If you're looking for the real thing you need hunt no further: it's here."

Which man was right? Both had lived in that town the same number of years almost to a day, both were about the same age, and both were blessed with this world's goods to about the same extent. Yet they held diametrically opposed opinions. One was an optimist, the other a pessimist; one was a smiler, the other a groucher. They were both confronted by exactly the same conditions, yet each viewed them from opposite angles.

Which man do you think was right reader? "Thou art the man." You are the man who lives in Canyon, Randall county, Texas. What do you think about your town? What sort of a town is yours; a good one or a bad one? Answer.

**Randall County Fair**  
All reports indicate that the Randall County Fair was a tremendous success. It was a fair exposition of the resources of a rich and thriving country of progressive, scientific farmers. It was an assemblage of visible evidence of what the soil and climate of the Panhandle of Texas will do toward producing good crops

was buried at Wayside cemetery Saturday afternoon. Services led by Rev. A. B. Haynes of Tulia, Presbyterian minister, a former pastor of Mr. Cook's.

Mr. Payne left for Kansas City last Wednesday. He expects to return in a week.

Roy Key and Miss Irene Helms, both of Armstrong county, were married Sept. 8th, in Amarillo. They left directly after for a trip to Galveston. Congratulations.

Misses Bonnie Adams, Artie Lowery and Ollie Mae Johnson have entered Wayland College for the coming term of school.

Miss Loraine McGehee left Sunday for Silverton College where she has a position as Home Economics teacher.

Miss Ruby Lee McGehee left the past week for Nogales, Arizona, where she has been engaged to teach school.

Walter Butler left Monday for Amarillo where he has a position with the Amarillo Wheel and Body Works.

M. C. Sluder and M. A. Butler left Tuesday for Hutchinson county. Mrs. Grace Graham accompanied them home. The boys returned Monday.

**A Successful Experiment**

By Mrs. Phebe K. Warner in the Amarillo Tribune.

Friday afternoon at Canyon, Texas, the Panhandle Institute came to a close. Six hundred Panhandle teachers were enrolled, including most of the teachers in twenty-two Panhandle and Plains counties. The meeting was full of inspiration and enthusiasm from start to finish. Many of the best educators in the State were there to assist in the work. Mr. Morelock proved such a leader and conductor of the institute that he was re-elected conductor for the coming year. The consolidated institute was pronounced a success in every way. By the co-operation of the counties more experienced instructors were employed and men and women who next week must take up the duties of the school room were thereby given a week of rest and inspiration instead of going to school next Monday worn out with the responsibility of a hard week's work. The meeting was considered such a success by those in attendance that a motion to hold a consolidated institute next year was carried almost unanimously. The attendance was good up to and through the last session.

The State Normal Building at Canyon is an ideal place for such a meeting as the Panhandle Institute. A large auditorium for all general meetings, and dozens of class rooms for every kind of county meeting, committee meetings, or called meeting of any kind. Those in charge of next year's arrangements promise more and better accommodations. The only thing to mar the week's pleasures was rain, rain, rain! followed by—mud. But that may not happen next year. But the people of the Plains seldom complain of the rain and mud. When we are sure of all the rain and mud we need in the Panhandle every year, this will be the greatest country in the world and our schools will have everything they need to make them the "best schools in the world. The city of Canyon had on her prettiest Fall Suit. The morning glories were gorgeous and many a home was draped in beauty. The yards were full of beautiful autumn flowers, the trees were in their richest foliage and the fields round about were waving oceans of green. Truly Canyon and Randall County did their best to entertain the outside guest who came from other states and from different parts of our own state to take part in this great institute. The sunshine was superb. The nights were beautiful and the Panhandle air thoroughly charged with that invigorating ozone for which the Panhandle is especially noted. That natural tonic which makes every new comer eat and sleep so well. And to meet the first of these conditions the Canyon gardens were full of the freshest and best of things to eat.

But the best outlook and the most encouraging feature of the Panhandle Institute was the Panhandle teachers themselves. In this hour of educational trial the Panhandle may well be proud and grateful for the class of men and women who have offered themselves for the service of our schools for the year 1920-21.

We believe if every father and mother who will have a child in school

this year could have seen that great gathering of teachers who are to compose our Panhandle faculty, this year they would have felt inspired to do everything they could to help their schools. We believe if every tax payer could have seen our teachers in a body they would have been willing to be taxed to the limit to give our teachers the very best chance possible to do all the good they can for our children. The Panhandle this year, more than ever before, has attracted many of the best teachers from other parts of the state. Our wages are more of an inducement here than elsewhere which speaks well for our country. And many a teacher has had her salary raised in her former home school to keep her from leaving and going west. Thus our salaries are not only an advantage to our own teachers but to the teachers in other sections of the state.

And now it is up to us, the fathers and mothers, the patrons and tax payers of our schools. No teacher can do her best without our co-operation. Are we ready to do our part? Are we ready to provide those things which are necessary to make our schools a success?

Interest in the election so far seems to be most intense among the candidates.—Boston Globe.

Due to the lack of moisture, the drop condition of wild oats is about fifteen per cent of normal.—Associated Editors (Chicago).

Citation THE STATE OF TEXAS, To the Sheriff, or any Constable of Randall County, Greeting:

You are hereby commanded to summon The Coleman Tractor Corporation, a corporation, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 47th Judicial District to appear at the next regular term of the County Court of Randall County, to be holden at the Court House thereof, in Canyon, Texas, on the 1st Monday in October A. D. 1920, the same being the 4th day of October, A. D. 1920, then and there to answer a first amended original petition filed in said Court on the 1st day of September, A. D. 1920, in a suit numbered on the docket of said Court, No. 548, wherein Wesley T. Gibson is plaintiff, and The Coleman Tractor Corporation, a private corporation is defendant, and said first amended original petition alleging as follows:

Now comes Wesley T. Gibson, who resides in Randall County, Texas, hereinafter called plaintiff, complaining of the Coleman Tractor Corporation, a corporation duly incorporated under the laws of the State of Missouri, with its principal office and place of business in the County of Jackson in the State of Missouri, in the City of Kansas City, hereinafter styled defendant; and leave of the Court having been first had and obtained, plaintiff files this his First

original petition in lieu of his original petition filed herein on the 21st day of April, A. D. 1920, and for cause of action, plaintiff represents to the Court that heretofore to-wit: On or about the 20th day of May A. D. 1919, plaintiff at the special instance and request of defendant, agreed and contracted with said defendant that he said plaintiff would act as agent and representative of and for the defendant in the of demonstrating and selling the manufactured products and out-put of said defendant corporation, which said products and out-put consisted of Farm Tractors, Motor Engines, etc.; that said defendant agreed to and with this plaintiff that it, the said defendant would pay to this plaintiff for his said services as such agent the sum of \$100.00 per month as and for compensation to this plaintiff for and during the time this plaintiff was so employed, and defendant further agreed and contracted to and with plaintiff that it the said defendant would pay all of the usual and necessary traveling expenses, hotel bills, upkeep expenses on the motor passenger car to be used by the plaintiff in the said employment.

2. That this plaintiff acting in good faith did enter the employment of said defendant on the 20th day of May, A. D. 1919, at the special instance and request of the said defendant as such agent heretofore mentioned in Paragraph No. One, hereof.

3. That from and after the said 20th day of May, A. D. 1919, up to and including the 14th day of September A. D. 1919, this plaintiff worked for and gave his entire time and attention to the selling and advertising of the said products and out-put of the said defendant corporation, and that during the time this plaintiff was so engaged in said employ of the defendant he the said plaintiff received the sum of \$100.00 per month, together with his necessary traveling expenses, hotel bills, etc., for the time up to the 20th day of July, A. D. 1919; that this plaintiff also received the money he spent and paid out in connection with the necessary expenses of said employment for the balance of the time, he, the said plaintiff was so employed, for and by defendant, up to the 14th day of September, A. D. 1919, with the following exceptions, viz: \$21.50 paid out by this plaintiff for the repair and upkeep of the car, then and there used by the plaintiff while in the said employment for the defendant and the further expenses of the sum of \$15.50 paid out by this plaintiff for his hotel expenses and traveling expenses; and that this plaintiff has never received his said compensation for his said work from the period of time, commencing on the 20th day of July, 1919, up to and in-

cluding the 14th day of September, A. D. 1919, at the agreed and stipulated price of \$100.00 per month, amounting to the sum of \$183.33.

4. That the defendant agreed and contracted to and with this plaintiff that it would pay him the said plaintiff, the sums of money set out in Paragraph No. 3, hereof, amounting to the sum of \$221.33. For full and complete description of said account, reference is hereby made to the account heretofore filed with the first original petition, filed herein and made a part hereof, marked exhibit "A."

5. That the defendant is a non-resident corporation, that is to say, that said defendant is located and has its principal office and place of business in the State of Missouri, as stated in paragraph 1, hereof and that it has no place of business in the State of Texas, within the knowledge of this plaintiff.

6. Plaintiff would further represent to the court that heretofore to-wit: On the 21st day of April, 1920, this plaintiff caused a Writ of Attachment to be issued out of the said County Court Randall County, Texas, in this cause, which said writ was directed to the Sheriff or any constable of Hale County, Texas, which said writ was placed in the hands of the Sheriff of said Hale County, Texas, on the 25th day of April, 1920, and that said Sheriff did on the 30th day of April, A. D. 1920, execute said writ by levying on the following described property as the property of the said defendant non-resident corporation, viz: One Coleman Tractor, Engine No. 1218, Tractor No. 261 and one three Disc Oliver Plow.

Wherefore premises considered plaintiff prays that the defendant non-resident corporation, be cited in terms of the law to appear and answer this petition, and that he have judgment for his debt, \$221.50, and costs of suit, and that said judgment recite the issue and levy of the said writ of attachment, and that execution issue to subject said personal property to the satisfaction of his said debt, and for such other and further relief, special and general, in law and equity that he may be justly entitled to, and in duty bound will ever pray.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, O. W. Gano, Clerk of the County Court of Randall County.

Given under my hand and seal of said court, at office in Canyon, Texas, this 1st day of September, A. D. 1920.

(Seal) O. W. GANO, Clerk, County Court, Randall County.

Presbyterian Church

"Wearing the Belt," is the subject for Sunday morning at the Presbyterian church at 11 o'clock. You are invited.

At night the service begins at 7:30. Have you ever wondered about the subject: "Why do we observe the First Day of the week rather than the seventh as a day of Worship?" Then have you asked or wondered about it has the answer you have received been a satisfactory one? Is it clear to you? This is the subject that is going to be discussed on next Sunday night at the Presbyterian Church. It will not be so much in the nature of man-made arguments, but pre-eminently a Biblical Reading upon the subject. There are those who accept this idea of worshiping on the first day of the week, Sunday, just as a matter of custom and at the same time think there is no authority for it in Scriptural Truth. Some think that the Pope of Rome by an edict changed it from the Seventh to the First. Such folks have much to learn.

Come to the Presbyterian church Sunday night, not to hear what Holifield has to say on the subject, but rather to hear what the "Sword of the Spirit," God's unimpeachable, infallible Word has to say.

Sunday School meets at 9:45 a. m. We cordially invite you to attend all our services of worship.  
TED P. HOLIFIELD, Pastor.

An Expensive Necessity  
The cost of road construction and maintenance is high, we admit—abnormally high. But that is no valid reason for letting our highways lose themselves in the mud this winter. It costs less to fill up a few holes or open a ditch or two, or drag a road now than it will to construct practically a new one later on. Good roads are highly essential to the future prosperity of this community and nothing within reason

should be allowed to interfere with their proper maintenance. There are too many brains and too much good judgment in this community to permit our highways to sink into gradual decay. It is not in keeping with our progressiveness in other lines.

**WILL FIND HOMES FOR HOMELESS CHILDREN**

Misses Eva Chadwick and Grace Hamill of Fort Worth are in the city to organize a local board whose work it shall be to assist the state organization in finding homes for neglected and homeless children. The local board will be announced within a few days.

The Children's Home and Aid society which has its headquarters in Fort Worth, was organized more than 20 years ago by the late Rev. I. Z. T. Morris. It started with Mr. Morris taking in a little street waif

into his home, and watching the change that took place in the boy when he received the care and love that is every baby's birthright. Mr. Morris decided that every child is entitled to a home and that there were enough good people in the state to provide every unfortunate orphaned baby or neglected child with a home.

Mr. Morris recognized that the natural affection which all children crave and are entitled to, is lacking for the institutional child, so with the help of his wife, who is still superintendent of the society, he built up the organization which has found homes for more than 2,000 unfortunate little ones.

Some of these children were whole orphans, having lost both father and mother, some half orphans, possibly having lost the mother, and the father, after having endeavored to care for the little one, had brought the child to Mrs. Morris with a plea for a home, where the little one might have the care of a good mother; some have been little door-step babes who the world might term "nobody's child"; others were committed to the society by the courts in the various counties in the state.

The society cares for and places children regardless of creed or color, but one of the standards is—a Hebrew child in a Hebrew home, a Catholic child in a Catholic home, and a Protestant child in a Protestant home.

When these children come to the society a thorough physical examination is made and if any medical attention is found needed it is given, so that when the child is given out for adoption it carries a health certificate with it.

Adoption is not permitted by the society under three months. When an application for a child is received at headquarters, blanks are sent to applicant to be filled in. Three references are required. These references are written to, and if possible a worker is sent to investigate the home and surroundings, as well as to interview the people desiring the child.

If the home is approved, the child is selected and sent by one of the field workers to the home and there placed for a period of three months. During this three months visits are made by the workers and should it be found during that time that the child is not properly cared for or if the applicants have "changed their minds" and no longer want the child, it is taken back to headquarters and kept until a suitable home is found. If, however, all is satisfactory, the adoption can be made and another home made more complete and another child happier.

In addition to the placing of children in homes for adoption the society is doing another splendid piece of work for the children. There is an aid department and through this department many cases are handled.

Instances are found where the father is dead, the mother ill, and there is no one to care for the child, although the mother is able to pay a small sum until such time as she is physically able to care for them. In other cases the mother has died and until the father is able to adjust affairs in the home, there is no one to care for the little motherless children.

When these cases are brought to the society there is always a waiting list of "approved boarding homes" where these children can be placed and will have the care and attention needed for every child. The expense of such children can be met by the parent of the child, and is handled through the society, it having acted merely as the agent for the securing of a home suitable for the temporary placement of the child.

Recently an interesting case of this character was handled. A Syrian mother with three beautiful children appealed to the society, and after proper investigation was made it was found that it was necessary that the mother receive medical treatment for several weeks, during which time she would be unable to care for the three children. She was financially able to care for the children, but did

not want to place the children in an orphanage or other institution and the Texas Children's Home and Aid society opened to these three little ones one of the "approved homes" and until the mother's physical condition was such as she could take the children, they were properly cared for, and during the time mother and children were able to see each other. After several weeks the children turned back to the mother and they left for their own home in a distant county.

**It Was Oshkosh**  
Harper's: The elderly woman roused herself with a jerk as the train approached the station. "Where are we Harry?" she asked.  
"I don't know, grandma," replied the little boy.  
"But didn't the brakeman say something just now?"  
"No. He just stuck his head inside the door and sneezed."  
"Harry, quick, help me with these things," she exclaimed, "this is Oshkosh."

A number of Americans in Pekin, China are of the opinion that a modern apartment house would prove a profitable enterprise in that city. A new first class hotel is in course of refection by French interests. It is thought that this, in addition to the present hotels in Pekin, will not be sufficient to take care of the increasing number of tourists visiting the Chinese capital, and many feel that there is room for an American hotel also.

**Look Out for Rheumatism As Winter Approaches**

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface.

One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old

blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief.

Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.
