

BOXING, RACES, BADGER FIGHT AND EVERYTHING

RANDALL COUNTY GETS READY FOR BIG FAIR IN SEPTEMBER—LET'S GO!

Thirty-Five Citizens Discuss Plans for Fair and Appoint Various Important Committees at Meeting Held Friday Afternoon.

In response to the call by C. F. Walker, secretary-manager of the Randall County Fair, thirty-five men gathered at the court house Friday afternoon for the purpose of discussing plans for the fair this fall. It seems that the dates formerly selected for fair time may interfere with dates of fairs in neighboring towns, and Mr. Walker was instructed to ascertain the exact dates chosen by Plainview, Tulla and Hereford.

For entertainment this fall, a wild west show will be procured. G. R. Stratton, Frank R. Phillips and John Knight were appointed to look after this feature of entertainment.

Night entertainments of various kinds were suggested, and was left to C. F. Walker and John Bates. Mr. Walker states that he has already received a large number of offers from various types of entertainment companies to come and show during the fair. The carnival companies will be strictly taboed by the fair, but good clean entertainment is sought.

Fred H. Ives presented a plan for using the Normal grounds for the fair this fall, and suggested that the machine shed on the grounds be used in the construction of a first class building which might be used by the fair and also used as a sales pavilion for registered stock sales. This plan seemed to meet with the approval of the meeting, as it would solve the question of getting the grounds for the fair, and provide one good permanent building for the association. A committee of Fred H. Ives, C. F. Walker, E. H. Powell and R. H. Wright was appointed to work out the details with President Hill.

It was the sense of the meeting that work be started on the fair building as soon as possible in order to better advertise to the world that Randall County would have a fair this fall.

Those who attended the meeting pledged themselves to start at once talking up the fair and keeping it continually before the people of the Panhandle that Randall County would have a first class county fair this fall.

CLARENDON WINS FIRST COLLEGE MEET SATURDAY

ONLY CLARENDON AND NORMAL IN THE MEET

Normal Won in Tennis Over Abilene Christian College Team—Meet Is a Success.

The invitation meet at the Normal Friday and Saturday proved to be a dual meet between Clarendon College and the Normal, as these were the only teams competing in the field and track events. Nine colleges were invited to participate, and all accepted, but financial conditions at the last moment prohibited them from entering. The following was the result of the meet: 16 pound shot put—Head, Clarendon, 1st place; Mitchell, Normal, 2nd place; Durham, Normal, 3rd place. Distance, 39 feet, 8 1/2 inches.

Discus throw—Head, Clarendon, 1st place; Mitchell, Normal, 2nd place; Smalley, Clarendon, 3rd place. Distance 103 feet and 8 inches.

Javelin throw—Durham, Normal, 1st place; Head, Clarendon, 2nd place; Taylor, Normal, 3rd place. Distance 135 feet and 10 inches.

100 yard dash—Garrett, Clarendon, 1st place; Close, Clarendon, 2nd place; Terry, Normal, 3rd place. Time 10 3/4 seconds.

1 mile run—Sanders and E. Wallace, Normal, tied for 1st place; Swinburn, Clarendon, 3rd place. Time, 5 minutes, 47 seconds.

440 yard dash—Garrett, Clarendon, 1st place; Wallace, Normal, 2nd place; Simms, Normal, 3rd place. Time 1 minute flat.

Broad jump—Upton, Clarendon, 1st place; Durham, Normal, 2nd place; Smalley, Clarendon, 3rd place. Distance 19 feet 3 1/2 inches.

High jump—Close, Clarendon, 1st place; Hudson, Normal, 2nd place; Mitchell, Normal, 3rd place. Height 5 feet, 4 inches.

Pole vault—Bostick, Clarendon, 1st place; Mitchell, Normal, 2nd place; Close, Clarendon, 3rd place. Height, 9 feet, 6 inches.

220 yard dash—Trery, Normal, 1st place; Garrett, Clarendon, 2nd place; Smalley, Clarendon, 3rd place. Time 24 1/2 seconds.

880 yard dash—E. Wallace, Normal, 1st place; Wallace, Normal, 2nd place; Garrett, Clarendon, 3rd place. Time 2 minutes, 44 seconds.

120 yard hurdles—Upton, Clarendon, 1st place; Close, Clarendon, 2nd place; Terry, Normal, 3rd place. Time 14 2/5 seconds.

2 mile race—Attaway, Normal, 1st place; Swinburn, Clarendon, 2nd place; Taylor, Normal, 3rd place. Time 14 minutes, 7 seconds.

220 yard hurdles—Upton, Clarendon, 1st place; Close, Clarendon, 2nd place; Mitchell, Normal, 3rd place.

1000 yard dash—1st place conceded to Normal.

Relay Race—1st place conceded to

ANOTHER BIG PROGRAM SCHEDULED FOR TRADES DAY IN CANYON NEXT MONDAY

Golf Course is Being Improved

A very enthusiastic meeting of the members of the Canyon Golf Club was held Friday night at the office of C. N. Harrison. Wallace R. Clark made a report on the tournament held at Lubbock last week in which the Canyon team won second place. The result of the meet was so highly successful that the members of the club feel that golf is now a permanent thing in Canyon and steps were therefore taken to go into an organization which will make permanent improvements on the course. It was stated that Canyon has the best lay for golf of any town in the Panhandle, in so much as the natural hazards are almost perfect.

The greens will be put in good condition, the land leveled and finished with sand and oil. T. V. Reeves was appointed to procure the oil and C. H. Jarrett will see that the sand is hauled to the greens. The fairways are being scraped, J. P. Hix looking after this work. C. N. Harrison will have large markers erected at each hole.

The membership of the Club was increased from twenty-five to fifty members. Applications are coming in fast and the full membership will soon be completed.

Normal. Tennis doubles—Wells and Younger, Normal, 1st place; Lewis and Sewell, Abilene Christian College, 2nd place; Smalley and Vander, Clarendon, 3rd place. Tennis singles—Lewis, Abilene Christian College, 1st place; Draw for 2nd place between Wells of the Normal and Smalley of Clarendon.

Trades Day Trip Friday to West

The regular monthly Trades Day Excursion will leave Canyon Friday morning at 9 o'clock, going west, and will make a loop of the north part of the county on the return trip.

The trip last month was the best ever taken by the Commercial League, and all those attending the luncheon Tuesday were enthusiastic over the trip to be taken this week.

C. D. Lester, J. A. Guthrie and A. E. Wise were appointed to get up the crowd and plan the trip for Friday.

Stork Specials

A daughter was still-born to Mr. and Mrs. A. V. Guest last Thursday. A son was born to Mr. and Mrs. Joe Groesch on April 20th. A son was born to Mr. and Mrs. Edgar A. Pinknod, on April 24th. A daughter was born to Mr. and Mrs. L. F. Spicer on May 2nd.

CHICKEN THROW STARTS PROGRAM BIG ATHLETIC FEATURES ARRANGED

Next Monday will be the regular monthly Trades Day in Canyon and one of the biggest programs ever presented will be put on by the committee composed of C. L. Condre, Frank R. Phillips and E. E. Foy. These gentlemen had charge of the program last Trades Day, and the people were highly pleased at the entertainment offered.

Do not fail to be in Canyon next Monday. It will be one of the biggest and best Trades Days the city has ever had. Look over the big auction list of new merchandise offered by the business houses in the auction sale.

The Commercial League will do everything in its power to see that you are well repaid for your trip to Canyon Monday.

Trades Day Program

Music by the High School Band, at 10:00 a. m. The young members of the High School Band are certainly acquitting themselves admirably, and we assure them that it is with much enthusiasm, and with the entire approval of the Randall County Commercial League that greets them in the invitation to play again next Monday.

Chicken Throw

There will be another chicken throw at 10:30 a. m. Those who saw the chickens thrown last month will want to see it again. Lots of fun for the kids, and good entertainment for the older folks.

Chicken Fight

There will be staged a real cock fight. Any person who has a fighting rooster, bring them in. There are two or three game cocks which will be pitted against all comers.

School Exhibit Is Put on Saturday

Last Saturday was patrons day at the public school, and nearly two hundred visitors registered at the various rooms.

The six lower grades put on an exhibit of their regular school work, making a splendid display which was highly praised by the patrons and friends of the school visiting the building. Each room had boys and girls at the door to welcome the visitors and record their names. Upon entering the room, another boy or girl took charge of the visitor, explaining the work that was upon exhibit, and pointing out with a great deal of pride the work of the star pupils of the grade. The work showed very plainly that the work of the Canyon school is on a par with any school in the state, and that the corps of teachers is one to be very proud of. The teachers of the higher grades served punch in the auditorium, while the visitors were entertained with music by Miss Wiggins and the orchestra.

The first grade of the school this year is exceptional in the number of boys. Of the 56 enrolled, 42 are boys, nearly all of whom are regular in attendance, while the average attendance among the girls runs about seven or eight.

The Canyon school will close in two more weeks.

Marriage License Issued

County Clerk O. W. Gano has issued the following marriage license this week: Ishum Cobb and Miss Rose Jacobs, April 30th, both of Amarillo.

W. V. Fletcher and Miss B. Mitchell, F. L. Landis and Miss Leola Dyer, both of Amarillo, were issued license Tuesday night and united in marriage by Justice of the Peace Arnett Moreland at 11:50 p. m.

The Soviet denies the report of an uprising in Petrograd, thus giving strong confirmation to the report—Philadelphia North American.

The new models have every modern improvement except an attachment on the exhaust pipe to play jazz.—Moline (Ill.) Dispatch.

10:30 A. M., Badger Fight

The Commercial League offers \$10 for a live badger, and an effort is already being made by a party to bring in the badger. The badger will be turned loose on the street and if you have a fighting dog bring him in.

11:00 A. M., Boxing Exhibition

A sure thing. We promise absolutely to have this event. Good boxing gloves are arranged for and we have a man who weighs 130 lbs. who challenges any man near his own weight. A special man will be in charge of the ring and he promises the public a real treat in the way of a boxing contest at eleven o'clock. (Location of ring between Vetesk Market and the Canyon Paint Co.)

Public Speaking by Clark

Prof. T. M. Clark will make a short talk on the court house lawn at 1:00 o'clock. Mr. Clark is one of the most prominent speakers in Canyon and will have an interesting message.

Athletic Program

The committee is arranging a full athletic program of races and athletic stunts by members of the gymnasium classes. The races will be fast. The stunts of interest to all.

STATE HEALTH DEPARTMENT TO SEND NURSE

ARRIVE NEXT MONDAY TO EXAMINE CHILDREN OF COUNTY

All Schools and Communities Will Be Visited in County—Book Club Has Charge of Work.

A special nurse from the State Health Department of Texas will arrive in Canyon next Monday to start a program of work in the county, which includes a visit to every school that is in session, and in those districts where school has been closed for the year, the nurse will meet those interested in having their children examined. This work is being done by the Health Department in every county in the state, and the work is very highly commended by the women of those counties which have been visited.

The work is done free of charge to the people of the county. The Woman's Book Club voted several weeks ago to entertain the nurse while in the county and see that she is furnished transportation to all schools to be visited.

A thorough examination is made of the children, including the eyes, ears, nose, throat, teeth; the child is measured to see if he is normal; instruction is given as to feeding and the proper foods for children. Two copies of the child's record will be made, one for the parent, and one for the teacher, and suggestions will be noted as to the proper way to correct any defects that may be found.

Such work has just closed in Swisher county and last week's issue of the Herald carried an article highly complimenting the work done by the nurse in that county.

JACK JONES GOES AFTER KHIVA RING

CALLS HIMSELF "PRUNE PEDDLER OF CANYON"

Strictly Against "Bankers' Trust"—Issues Warning to Brown and Leak, His Opponents.

John Henry (Spot) Jones, familiarly known in Canyon as Jack Jones, is out after the Khiva Shrine Ring which will be given to the most popular candidate for degree in the ceremonial to be held by the Shrine in Amarillo this month. E. H. Powell of this city is campaign manager for Jones and is issuing a "sure winning" platform for his candidate.

Brown of Lockney and Leak of Memphis are also candidates. Brown has a mule for his mascot. Jones says he is "out to beat the 'brow' out of Brown, and put a cork in the Memphis 'Leak'."

The following is the platform upon which Jones is running:

- Motto: If ignorance is a blister, don't be an abscess.
 - 1. I do not believe in Bankers having a corner on the Shrine Ring.
 - 2. I am in favor of breaking up the Bankers' Trust.
 - 3. I do not believe in "Leaks" of any kind.
 - 4. I am a poor boy raised from the flats of the Panhandle and still honest.
 - 5. I am not in favor of women marrying and that their children should be raised the same way.
 - 6. I especially invite the Patrol to act as my guardian on May 20th.
 - 7. I am tough, especially the soles of my feet—heat the sands.
 - 8. I do not believe in tobacco of any kind, especially "Brown's Mule."
 - 9. I recommend that all ladies bob their hair and go bare-footed.
 - 10. I endorse the movement to discard clothing and go back to hickory shirts.
 - 11. I also favor downward movement of waists as well as elevation of skirts.
 - 12. I personally solicit the vote of all Shriners as well as Lady Supporters.
- To the Patrol: I'm grievous for you—I further suggest that you come in squads—I took the bull out of bullet in France and want to take the bull out of the Khiva Patrol.
- Slogan: Watch Brown's Mule, Leak—Jones is after the ring.
- What the railroad brotherhoods are really up against is a combination of General Aterbury, general apathy, and the general public.—Columbia (S. C.) Record.

Thirty-Four Men at Luncheon

Tuesday was the regular monthly luncheon of the Randall County Commercial League. There was a good attendance and the interest shown in the business of the hour was keen. J. W. Ridgeway, of the Nissley Creamery, was a guest and paid a very high tribute to the business men who showed such interest in the welfare of the town and community.

The following attended the luncheon Tuesday: C. H. Jarrett, Dr. D. M. Stewart, Rector Lester, A. W. Blough, Dr. S. L. Ingham, Roscoe Davis, E. A. Wise, J. A. Guthrie, E. E. Foy, C. W. Warwick, L. E. Cearley, B. M. Johnson, Burt Newlin, C. L. Thompson, W. W. Kuehn, B. B. Cluck, H. O. Price, C. L. Condre, E. H. Powell, C. L. Sone, A. N. Henson, R. E. Foster, J. A. Hill, A. J. Arnold, J. W. Ridgeway, C. F. Walker, R. P. Jarrett, John Knight, C. D. Lester, N. E. McIntire, Wm. Schmitz, W. J. Flesher, C. R. Flesher, Ed Gerald.

Futurity Shows Prominent Events

The hog display at the Randall County Fair in September will be one of the biggest features of the fair if the interest in the Futurity Shows is an index. The Commercial League voted several months ago to give \$150 toward the Duroc show and Tuesday voted to give \$100 to the Poland China show.

The Boys' Pig Club will have a mighty fine show during the fair, and six or seven trips to the Dallas Fair will be offered as prizes in this department. C. F. Walker is looking after this department and will get the donations of trips from the business houses and those persons interested. He reported Tuesday that he had asked but two business houses and both had given these trips.

Hardware Association in Amarillo

The Panhandle Hardware and Implement Association will meet next Monday in Amarillo. C. L. Thompson of this city is secretary-treasurer of the association and has issued a very highly interesting program which will be given during the two days meeting of the association. Mr. Thompson will read his annual report at the meeting Monday.

Moves to New Home

Dr. S. L. Ingham has moved to his new home on West Evelyn street which was completed last week. His daughter, Mrs. Millard Word of Dumas, has been here for the past week assisting the Doctor.

Come to Canyon to live.

DEFINITE ACTION EXPECTED AT ONCE ON EPISCOPAL DORMITORY

The question of building the Episcopal dormitory in Canyon is expected to be settled within the next two weeks.

It will be remembered that two years ago the Episcopal church proposed to build a \$40,000 dormitory for girls in Canyon if the citizens would buy the building site. A subscription was taken, and all the money was pledged. About the time work was supposed to start, Rev. Wm. Garner, rector of the local church, moved from Canyon, and there was also a change in officers of the church in New York which handled this part of the church's affairs. This left the building program in a very unsettled condition, and the entire building program had to be revised. Mr. Garner had entire charge of the subscription list, and this seems to have been misplaced and \$75 was never collected on the list.

Bishop Temple was in Canyon Tuesday and took up the matter with C. H. Jarrett, secretary of the Commercial League. The Bishop will go to New

York next week. He wanted a clear deed of the building site to take with him, in order to show the committee of his church that the people of Canyon have done their part. The Bishop proposes that if the committee rejects the dormitory program in Canyon, he will deed the lots back at once to the Commercial League.

The matter was presented to the Commercial League at the luncheon Tuesday and the League voted to pay the \$75 out of the general fund, giving Bishop Temple a deed to the property. This money will be collected from the citizens of Canyon should the dormitory be erected.

While in town Tuesday, Bishop Temple expressed the belief that the building would soon be constructed. President Hill states he understands that the Episcopal church contemplates putting a dormitory at each of the normal school towns in Texas, and feels sure that since the project was first proposed for Canyon, the will fulfill its part of the obligation by building at once.

HIGH ROOSTER HAS FLOCK OF CHICKENS

Ever see a large, over-sized rooster, with flowing tail and fully developed spurs swaggering a brood of little chickens, ducking quite naturally and taking excellent care of his adopted family?

It's an accomplished fact in Hereford. If you don't believe it journey round to Dr. W. F. Gabbert's back lot and have a look at a curious natural phenomenon.

Or you can look across the alley from the Doctor's place and catch another rooster doing the same stunt. Or you can find four of them at work on Everett Kinney's poultry lot.

They are capons. And Doctor Gabbert claims he has solved the brooder problem for all time. Poultry journals have carried pictures and stories of such things, but this is the first time, it is believed, that it has actually happened in Hereford.

Dr. Gabbert's Buff Orpington cock has a big bunch of chickens of all ages and sizes and fights the hens for all they have and is proud of his step-children as an old hen could be of her new babies.—Hereford Brand.

Fact and Comment

If you want work, try working at the job you now have.

A New Jersey Hunter was recently fined two hundred dollars and sentenced to ten days in jail for killing wild geese after the close of the Federal open season. Sentences like that will help to convince the skeptical that the United States game laws have teeth.

"A great fortune is a splendid servitude," wrote Seneca, the great millionaire of the first century. In the twentieth century Carnegie expressed the same idea when he said of rich men, "At first they own the money they have made and saved. Later in life the money owns them."

The Delta of the Mississippi River, hitherto only inaccurately surveyed on account of the extreme difficulty of travel in its swamps and marshes, will be photographed by the Air Service. The aerial camera, fixed in the bottom of a plane flying at a uniform height, takes overlapping pictures that later are fitted together to form a continuous picture map.

An Agricultural Almanac for 1921, which is a Farmer's Bulletin of the Department of Agriculture put out in new form, contains much good advice, such as "Beware of false prophets! Don't plant by the moon; but get the best seed and prepare the seed bed, then plant when the soil and moisture conditions are right." There are useful suggestions about weather, fruit, live stock, marketing, wild life, work in the woods and many other things that interest or concern farmers.

Through the Board of Trade the British government has approved a proposal submitted to it by the Wholesale Clothing Manufacturers' Federation. The plan provides for the manufacture of standard cloths, to be sold to the manufacturers at fixed prices, and by them to be made up into standard suits and overcoats, to be sold by the retailers at standard prices approved by the Board of Trade. The cost of a standard suit for a man with a chest measurement from thirty-four to forty-two inches will be \$21.90, which to Americans, will seem attractively cheap.

A generation ago a great publisher said to one of his assistants who had begun to write verse, "William, I find that I can get a better poem writer for five dollars than I can write myself, and I advise you to do the same." In a business sense that, may have been good advice for William, and perhaps it is good advice for most of the young people who feel the call of the muse in spring time. But the present generation is seeing a revival of poetry and of interest in it. Good verse is something more than a space filler, to make the page come out even; it is sought by the publishers and discussed by readers. It even pays. But as for poor verse, Pegasus refuses even to have his stall bedded with it.

The Island of Yap is noted, among other things, for having the most extraordinary currency in the world. Besides the ordinary shell money there is a stone coinage, consisting of calcite or limestone disks that vary from six inches, to twelve feet in diameter. The larger stones, which are rather tokens than money, are piled up around the chief's treasure house and seldom change hands in the transactions in which they figure, though the ownership changes. One huge fee, or stone coin, was lost in a storm while being ferried from one place to another but is still regarded as valid money and has been used many times as a medium of trade, although it lies at the bottom of the sea. Evidently there is something to be learned from Yap. To lose your money and still have the use of it appears even to a dull fancy; and life could hardly grow monotonous in a land where it is the custom to trundle a couple of eight-foot grind stones down to the corner store when you want grape-fruit or a yeast cake.

Be Rid of That Ache

If you are a sufferer with lame back, headache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend? Ask your neighbor.

Mrs. C. R. Correy, Canyon, Says: "My back and kidneys have been causing me a lot of trouble for a long time. My back ached steadily and there was lameness and soreness in it which made it hard for me to stoop over to do my housework. I would get dizzy and black specks would float before my eyes. Then again I would have headaches and my kidneys were inflamed and irregular in action. I was advised to try Doan's Kidney Pills and bought some at the Holland Drug Co. Three boxes fixed up my kidneys and relieved my back."

The Trouble About Money

Harper's Magazine: The trouble about money is the disposition to lie down on it and let it carry one. A good many rich people lose their paunch. They get used to a manner of life with ample provision of money in it and don't want to change. That makes them too insistent on the existing order. It makes them see the material things too big and tends to cloud their spiritual vision. The spiritual things are really all there is that is permanent. But this world, though temporary, is very much with us. We have to live in it and be of it. Other people the same. A great mechanism of life has to be kept up. As population increases it has to be improved and developed. We have got all out of the earth, and coal; raise food on its surface. The inhabitants must mingle if they are to develop to advantage. Money is an agent in all these things; a handy tool. Who has it makes less difference than people suppose, if only so be it does its work. The simplest life is not necessarily the best. The sheep is not the ideal of man. On the contrary, man was made in the image of a Being of immense resources, immense powers; if not himself of immense activity, still a prodigious cause of activity in others. There is more than one kind of job in this world and more than one manner of life that can be reconciled to the teachings of Christ. The aim, the use, is everything. The quantity of money involved is unimportant. All you can get out of money, anyhow, is board and lodging, opportunities for education, and power. If your lodging is too expensive it is a care, and if you have too much it is a disadvantage, and in the end taxes your strength and maybe makes you ill. If you misuse power it does harm. It is the spirit of man that is important, not money, one way or the other.

Dickens' Office Boy

Bookman: Charles Dickens' office boy, William Edrupt, is still living. He is a gatekeeper at the Temple in London. Among other stories of him is one of attempted bribery. There was much excitement in London over "Mrs. Lirriper's Lodgings," which was appearing daily in a London magazine. One man came to the office boy to offer sixpence if he would disclose the end of the story.

"Mr. Dickens," the old man said, "gave me three shilling a week, and every time my ma had a new baby (which was often) he advanced me a shilling, but have to give it home, I could only keep two pence a week for myself. My master knew this, and that the six pence the man offered me for telling the end of the story meant a lot to me; but when I told him that the man wanted to sell out the happenings to others, he said 'Come here William, boy,' and he took me on his knee. 'I'll give you six pence now for yourself, and I'll give you this penny with a hole in it if you promise me to keep it for good and ever, but tell the scoundrel that I say the end of the story is this—they'll die sooner or later.'"

Effacement of Wood

General John J. Preshing is to head the new war bureau. He will form a skeletonized headquarters staff to map out tactics. In time of peace the new staff will not interfere with the functions of the general staff of the army.

Again, why was Major General Leonard Wood slighted or overlooked? A new chief of staff is to be appointed who is to succeed General Peyton C. March. General Wood has been sent to the Philippines. He will not be named as chief of staff.

Woodrow Wilson was crucified by the Henry Cabot Lodge and George Harvey for his failure to send Leonard Wood to France. It is a matter of history that Wood has been ignored in all the important appointments made by the Harding administration. If he needed a vindication, why was it withheld?

George Harvey, a journalist without a conscience, a politician without a soul, an American without a political conviction, an iconoclast without scruples and an assassin of character without remorse, was given his vindication.

This may be a severe criticism, but Senator Harrison of Mississippi told the truth when he said that George Harvey never had a friend he would not desert, a cause he would not betray or a conviction that he would not desert if the act led to his own self-advancement or self-aggrandizement.

Harvey is an intellectual; he wields a brilliant pen; he is a master of invective as well as a prince in the making of deceptive phrases and insinuating allegations, but as American ambassador to the court of St. James he is the sorriest appointment ever made by an American President.—Fr. Worth Record.

Speed

An Englishman, recently arrived in the United States at New York City asked a smart looking newsboy to show him about the city.

When they came to the American Surety Company Building, the Englishman asked: "P'ray, my lad, how long did it take to build that building?"

"About two years," the boy replied.

"My, that was quite long, we could build it in a year." Next they came to the National Park Bank Building.

"How long did it take to build that building," the Englishman asked.

"About a year," was the answer. "That was a long time. We English would have built it in six months." Then they came to the Woolworth Building.

"And how long were you building this wonderful structure?" "I don't know, sir," replied the boy. "It wasn't there last night."

Dry Goods Economist: "Check your hat, coat, and corset at the door," is the latest adjuration of the uniformed bandits of the New York hotel cloak-rooms. It's a fact. Women are not dancing in corsets any more. Special corsets to allow freedom of movement were adopted when the dance craze brought out steps necessitating unhampered action. But even these did

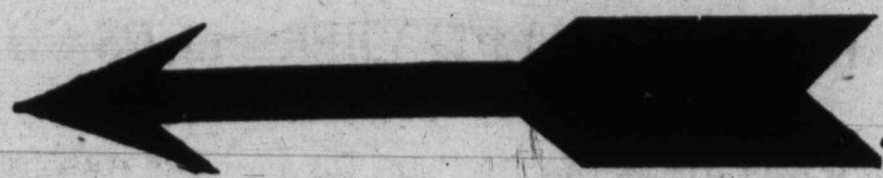

not answer the purpose. So now these women who are so fortunately built as not to need restraining encasements are discarding them on the dance floor or rather before venturing on it. If mamma is conservative and inspects the semi-clothing outfit before it gets out of the house, what matter? The corset she insists on can be and is checked. Which amounts for the increase in sales of novelty garters. They are not doing without stockings—yet.

SOME FACTS ABOUT

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and Trucks have been built each month since January 1, 1921, and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.

Hail! Hail! Hail!
Insurance

Statistics show the chances for loss by Hail in Texas are 16 times as great as by fire.

Permit us to furnish your "HAIL STORM UMBRELLA" by insuring your crop in the OLD HOME INSURANCE COMPANY, the largest American Insurance Company. Do not try the stunt of holding an ordinary UMBRELLA over your field for that would be as impossible as perpetual motion, but let the HOME INSURANCE COMPANY-HAIL-POLICY become the protecting "UMBRELLA."

Insure to day and there will be no cause for regret when Nature's "ICE WAGON" comes.

C. R. Fleisher
CANYON, TEXAS

Attractions for The Summer Session

The Lyceum Committee has negated a number of unusual attractions for the Summer Session. The first number will be a musical attraction, sometime near the opening of the quarter.

Dr. Henry S. Curtis

During the week beginning June 14, Dr. Henry S. Curtis of Oberlin, Ohio, will deliver a series of two lectures daily. Dr. Curtis is an educator of national reputation. For sometime he was Secretary and Vice President of the Playground Association of America, Supervisor of the Playgrounds at Washington, D. C., and Secretary of the National Child-Welfare Conference. He is the author of a number of books on the subject of play as related to education.

Professor Edward Howard Griggs

On July 9, 9, and 10, Dr. Edward Howard Griggs will deliver a series of lectures on Education and Literature. His program follows: Evening lectures: The Protest against Economic Wrong—Hauptmann's "Weavers;" the Protest against Making Criminals—Galsworthy's "Justice;" the Protest against Yielding to Fate—Calderson's "Life is a Dream." Morning lectures: 1. Work and Play in Education; 2. Principles of Government in Home and School; 3. The Influence of Personality in Education.

Dr. Griggs is one of the most brilliant lecturers on the American platform to-day. He has a wonderful personality, a rich and deep knowledge of humanity, and he delivers his message with force and charm. Said a friend of mine: "He adds a new charm to life and makes it seem all the more worth living."

Musical Artist

Sometime during the month of July a musical artist is to be with us. The exact date has not been determined, but the committee is in correspondence with a company which promises us a rare treat on this score.

Devereux Players

During the latter part of July or the first of August the Devereux Players of New York are to be with us again. Those who saw this admirable company last summer are anxious to see them in their new role. They are playing this season the following standard plays: "Daniel Druce" by W. E. Gilbert, "Romancers" by Rostand, "Ghosts" by Ibsen, and "Mona Vanna" by Maeterlinck.

Mr. Devereux possesses rare artistic ability as an actor. He reads his lines with force and an ease which are effective and pleasing. Miss Graff is endowed with a charm of personality and a grace of movement which uniformly delight her audiences. These two stars have heretofore been supported by first-class actors in every role. People of this section should avail themselves of this rare opportunity to see standard plays excellently presented by first-class artists at reasonable prices.

English Club Studies Noyes

A most delightful program on Alfred Noyes was presented at the meeting of the English Club on April 18 by the modern poetry department.

Noyes was discussed as a composer of lyric, nature, romantic and dramatic poetry. Elizabeth Reck laid the foundation for the discussion by an excellent paper on the general characteristics of lyric poetry. The presentation of Noyes as a lyric poet by Lucille Gill was sympathetic, sincere and stimulating to the desire for a closer acquaintanceship with the poet. "Noyes as a nature poet," was the subject upon which Edith Eddins spoke. Joy Mills presented Noyes as a romantic and dramatic poet. Her sympathetic reading of "The Highwayman" was in harmony with the character of the poem so that every one felt that he was really present when the highwayman came riding—

Riding—riding—

The highwayman came riding

Up to the old inn-door.

At the conclusion of the program, each was conscious of having met a personality in the poet Noyes to whom his whole nature responded unreservedly.

Follett, Texas, April 23, 1921.

Mr. J. A. Hill,
Canyon, Texas.

Dear Sir:

While attending the Normal I had occasion to borrow a sum of money from the Gregg Cousins Memorial Fund. And although I repaid it soon with interest, I desire to put in an additional amount for the good it may be to someone else. So please accept the small amount enclosed as a gift to said fund.

Sincerely yours,
A. B. GRIFFITH.

Normal Has Charts and Slides for Panhandle Schools

There are several sets of slides and charts in the Agricultural Department that may be secured by schools who will pay the express to and from Canyon.

Girls' Inter-Society Debate

A girls' inter-society debate is scheduled for Thursday evening at 7:30 in the College Auditorium. The question is "Resolved, That California's Alien Land Law is Justifiable." The debaters are Mona Horton, Arlene, Rose, Ivy Cary, Thelma Bivins.

This is the first move that has been made towards a girls' debating team, and it will be watched with interest. It is hoped that the young ladies Literary Societies will continue this work and that it will not be confined to this school alone, but will branch out to other colleges and result in a standard inter-collegiate debate for girls.

The merits of the inter-collegiate debate for boys are recognized by all. The debate has accomplished what no other intercollegiate activities could accomplish. Besides its value to the individual debaters, it is a potent factor in bringing about a closer relationship among the colleges of our state.

Since the debate has proved so valuable for boys, the girls should not be barred from this pleasant and profitable activity.

MEMBERSHIPS OF PANHANDLE HISTORICAL SOCIETY

Every day valuable relics are being sent in to the Panhandle Historical Society; among the most recent are the scalp of a Comanche Indian and the gun of Billie Dixon which is supposed to have been used in the Fight of Adobe Walls. All who are interested in preserving the history of the Panhandle are invited to become members of this society. There are many valuable relics and much history being lost. The Historical Society is eager for the support and co-operation of all loyal Panhandle citizens.

New Regents Appointed

Two new members have been appointed by Governor Neff on the State Normal School Board of Regents, Miss Margie Neal of Carthage and Hon. J. J. Bennett of Stephenville. These two new members take the place of Mr. Martin of Plainview and Mr. Marshall of Sherman, whose time had expired.

The Board as now constituted is as follows: A. C. Goeth of Austin, President, Robert J. Eckhardt of Taylor, Martin O. Flowers of Lockhart, A. B. Watkins of Athens, Miss Margie Neal of Carthage, and Mr. J. J. Bennett of Stephenville.

Prominent Archaeologist Lectures

Mr. Warren K. Moorehead, archaeologist of national fame and author of several books on primitive American Indian life, lectured at the Normal Auditorium Friday evening, April 22, under the auspices of the Panhandle-Plains Historical Society. Mr. Moorehead is engaged in research and excavation in the Panhandle, and dealt with the results of his research in his lecture. Interest was increased by lantern slides, many of which were

Willard

If It's a Battery
Be Sure It's New

It isn't good business to buy a battery that may be months old when you get it.

The only safe thing to do is to buy a Willard Battery with Threaded Rubber Insulation that has been shipped and stored bone dry, and consequently is brand new when it begins to work for you.

Drop in some time and let us explain this process to you and tell you why it is only possible with Threaded Rubber Insulation.

photographs of Indian ruins in this section.

Norfleet-Benson

Word has been received in Canyon to the effect that Frank Norfleet, better known as "Pete," was married to Miss Floe Benson in Hale Center last week.

"Pete" is a product of the Normal College, and a son of Mr. J. F. Norfleet of Hale Center, who was swindled out of \$45,000 some time ago. "Pete" left school during the first quarter to act the part of Sherlock Holmes in arresting the master mind of the swindle, Joe Fuery.

Miss Benson, also of Hale Center, was in the graduating class of the high school at that place, and is one of "Pete's" former playmates.

Vocational Representative to Inspect School Here May 15th.

Mr. Phillips has just received word that Mr. Malby, who has Texas and adjacent states in the Federal Vocational-Agricultural work, will be here about May 15th. Director for Texas, Mr. C. L. Davis, from the state Department of Education will accompany Mr. Malby.

That Cousins-Sesame Hay Ride

One hundred Cousins and Sesames climbed aboard the three-wagoned

train last Monday afternoon at five o'clock for a four-hour ride and picnic along country roads. When the conductor yelled "twenty minutes for supper" at the creek northwest of town, it was a jolly bunch whose echoes were heard resounding from the near-by hills as they emptied the sacks of "grub." The journeyers again boarded the train when Miss Haines blew the whistle and the two horse power engines puffed up hill and down until nine o'clock found the procession at its starting point.

Prof. Jarrett will deliver the commencement address at Quitaque next Friday night. Mr. Henry Baker, a graduate of the Normal, is superintendent of the school there.

Mr. and Mrs. Lang and children, accompanied by Mrs. Morelock and Miss Georgia Watkins, were in Amarillo May the first to hear Dr. Thompson's sermon to the High School Graduating Class.

Mr. and Mrs. Easton Allen of Tulla spent Saturday and Sunday in Canyon.

Miss Mary Smith Clark, a graduate of last year who is now teaching at Shamrock, recently spent the weekend in Canyon with Mrs. T. M. Smith and family.

—From The Prairie.

An Object Of Pity

Is the man who thinks he gets more or less money by renting. He should receive the support of his home owning neighbors, lest he swelter too long in the path of ignorance.

Even the savage followed the human instinct that was in him to build some manner of shelter for his family. That instinct for independence, safety and pride, is the one that brought man to his present heights and realized the possibilities of civilization.

You too, are not following your desires nor aspirations unless you are building in reality or visionary a home for your loved ones.

Maybe we can help you realize that ambition.

Canyon Lumber Co.

COAL

can not be cheaper with existing mining wages and freight rates. There is no prospect of a reduction of either in the present year. It is up to you to protect yourself for the coming winter, which may be a severe one. After April and May, the price of storage coal will advance with each month, and he who waits last to order his storage Coal this summer will pay for his waiting.

We will have the Niggerhead Coal, which is the best Coal on the market for storing, and will be pleased to have your storage order early.

HAVE YOU FEDERAL AGRICULTURAL AID FOR YOUR SCHOOL?

F. R. Phillips, Vocational Agriculture, Canyon Normal

Does your school teach Vocational Agriculture? Are you one of the many who have seen the failures of the old time school gardens and given up the idea of teaching agriculture? Vocational Agricultural Education does not require the school garden; nor, does it get the notes from the mothers to please excuse "Mary" from further work in the garden because the sun had blistered her "arms."

Funds Available

The Federal Vocational Director for this state has funds available for paying half the salary of full time teachers or a little more than one-fourth the salary of half time teachers of Agriculture. The Canyon Normal has been asked to recommend the school to receive this aid. It has been learned from experience that the Miami system of putting this work on is more satisfactory the first year than the full time agricultural work. In the Miami School the Agricultural teacher teaches half time in other High School subjects and gets only twenty eight per cent of his salary from the Federal Vocational Board. In many schools in Texas the man who teaches agriculture is Principal of the school. Some larger towns use him for Superintendent of their school.

For Boys Above 14 Years

Vocational Agriculture is for boys in the High School who are above 14 years of age. They must spend as much time on agriculture as all their other subjects. They receive one and a half units credit from the Department of Education. Besides one recitation of theory and one of practice each day; the boy must keep a project record for nine months. If he be studying plant production, he may keep one or more acres of land. If he be studying Animal Production, he must keep a record of a pig, cow, horse, or other live stock. The records must show cost, feed, labor, sales, and net profits. Roy Tate of Canyon made over a hundred fifty dollars on his sow after paying all expenses. The project takes

the place of the old time school farm. How to Secure Federal Aid for Your School

Any four-or-more-teacher school, with over eight boys above 14 years of age may secure these funds. They must have a graduate of an Agricultural college for a teacher and about twenty-five dollars worth of reference books. Most schools equipped for teaching science have the required laboratory apparatus. Any one interested in this work in his school for next year should get his request in at once.

Granger Boys Make Good Money From Projects

In the Granger High School, twenty-six boys in Vocational Agriculture made a profit totaling \$2,602.01 during 1918-1919. Cecil Hodges came first at this school in profits with \$408.06 from a registered sow and litter.

The interest in this type of work continues to increase because our work enables the school to meet the needs of the community as it has not been able to do before.

JUDGE MCKENZIE DONATES BOOK ON JOURNALISM

Judge J. K. McKenzie of Miami visited us during the Interscholastic League Meet. The Judge is a public spirited man, who is greatly interested in public education in general and young life in particular. He is always on the right side of public questions, and he makes his convictions felt by his energetic efforts.

One very thoughtful act, as an illustration, will serve to show his great interest in the boys and girls of this section. While here a few days ago he learned that this institution offers a course in practical journalism. When he returned home, he mailed to the library of our institution Payne's "History of Journalism in the United States." This is a 1920 publication, and it contains much interesting and valuable information. The class in journalism wishes to thank the Judge for his kindness.

There is no need to invite the Judge to come to see us again. He is present at practically all educational gatherings which meet at W. T. S. N. C. But we want to assure him that we are always glad to have him. We feel that he is our friend and that he fully appreciates what this institution is doing for this section—educationally.

Something's just got to be done to the weather—it's gotten so lately that it pays no attention whatever to the "government instructions."

A Very Easy System

One of our patrons has tried several plans for keeping a record of all his income and expense during the year—but he has found all of them a lot of trouble to keep up-to-date.

But he has a fine system now.

The bank is keeping this record for him. He deposits all his earnings in the bank and then writes checks for all the money he spends. Even for his pocket money he writes a check once in a while and marks it "Misc. Exp."

When he wants to know about the amount of his income he looks at his Bank-book.

When he wants to find out what he is spending, he looks over his canceled checks. By sorting these old checks into several piles he finds what he is spending for food, clothing, fuel, etc.

This plan is easy. It is safe and business-like, too.

The First State

ings which meet at W. T. S. N. C. But we want to assure him that we are always glad to have him. We feel that he is our friend and that he fully appreciates what this institution is doing for this section—educationally.

A Raise

Two drummers in conversation:
 "Jack Rose handed in his resignation as a bluff to make the firm raise his salary."
 "Did they raise it?"
 "Yes, but another man is drawing it."

Something's just got to be done to the weather—it's gotten so lately that it pays no attention whatever to the "government instructions."

The Allies got money out of us so easily that we are surprised that they don't have better luck with Germany.

GOOD RECIPES USING MILK

CREAM OF TOMATO SOUP
 2 cups tomatoes
 1 slice onion
 2 cups water
 1/4 teaspoon soda

Cook the tomatoes, onion, and water together for fifteen minutes; then strain the mixture through a sieve. Add the soda. Make a white sauce of the remaining ingredients, and cook it for 10 minutes over hot water. Just before serving pour the tomato slowly into the milk mixture, stirring it constantly to prevent curdling. Season and serve.

CREAM OF POTATO SOUP
 3 potatoes
 1 quart milk
 2 slices onion
 3 tablespoons butter
 2 tablespoons flour

Cook washed potatoes in boiling salted water; when soft, rub through a strainer. Scald milk with onion, remove onion, and add milk slowly to potatoes. Melt the butter, add dry ingredients, stir until well mixed, then stir into boiling soup; cook one minute, strain, if necessary.

GENERAL PROPORTIONS FOR CREAM SOUPS OR SOUPS WITHOUT STOCK ARE:

About one half as much vegetable pulp as white sauce, plus the seasoning—salt and pepper.
 Proportions for white sauce:
 2 tablespoons butter
 1 tsp. flour to 1 cup of milk
 Salt and pepper.

If vegetables contain a large amount of starch, use less flour. If lacking in starch, use from 1 to 3 tablespoons of flour.

COCOA
 1/4 cupful cocoa
 1/4 cupful sugar
 1 cupful water

3 cupfuls milk
 1/4 teaspoon celery salt (if desired)
 1-3 teaspoon pepper
 Few grains cayenne

Mix cocoa, sugar, salt, and water together, and cook 5 minutes. Add the milk to the mixture, and cook over hot water til heated through. Vanilla may be added just before serving.

CHOCOLATE
 1 1/2 squares Baker's chocolate
 1/4 cup sugar

Few grains salt
 1 cup boiling water
 3 cups milk

Scald milk. Melt chocolate in small saucepan placed over hot water, add sugar, salt, and gradually boiling water; when smooth, place on range and boil one minute; add to scalded milk. Serve. One and one-half ounces vanilla chocolate may be substituted for Baker's chocolate; being sweetened, less sugar is required.

Suggestive Menu for Child Who Will Not Drink Milk
 Aged 5 Years.
 (1 quart of milk concealed in the day's menu).
 Breakfast—7 a. m.
 Oatmeal—1-4 cup cereal cooked in one cup milk. Creamy egg on toast. 1 egg yolk or whole egg, with 1-2 slice bread and 1-4 cup milk.
 Cocoa—1 tsp. cocoa, 1-2 tsp sugar, and 1-4 cup milk.
 10:00 a. m.
 Graham or white cracker—2 crackers with tsp. cream.
 1:30 p. m.
 Spinach Soup or any cream soup, 1-2 cup
 Baked Potato with cream, 1 potato and 2 tsp cream.
 Bread and butter, 1 slice.
 Caramel Junket, Cornstarch Pudding, or Soft Pudding—1 and 1-2 cup milk.
 5:30 p. m.
 Rice and Prunes—2 tsp rice cooked in 1 and 1-2 cup milk and 5 prunes.
 Toast and Butter—1 slice.

Suggestive Menu for the Moderate Income
 Child 8 to 12 years old.
 Breakfast
 Cream of Wheat—3 tsp of dry cereal.
 Top milk—3-4 cup.
 Apple Sauce—3 tsp.
 Toast with Butter—2 or 3 slices.
 Milk to drink—3-4 cup.
 Luncheon or Supper.
 Pea soup—1 cup.
 Boiled onions, or string beans, or beets—Equivalent of two small portions.
 Mashed potato or baked potato—1 large.
 Graham or Rye Bread and butter—2 slices of bread.
 Molasses Cookies—3 cookies.
 Dinner
 Rare beefsteak, roast beef or nut-ton chops; fish, especially white varieties—Small serving.
 Boiled Rice, or Baked Macaroni, Mashed turnips, cabbage, or English peas—1-2 cup.
 Bread and butter—equivalent of two slices.
 Bread Pudding with Chocolate Sauce—1 serving.

NEW Y. W. C. A. CABINET INSTALLED APRIL 11

The installation services of the Y. W. C. A. Cabinet were held in the auditorium, Sunday afternoon, April 11. The program was opened by a professional of the old and new cabinet members singing the Association hymn. After the scripture reading and a prayer by Miss Harriet Graham, the out-going president, Miss Ruth Thompson, told of the work which the Y. W. C. A. had done and attempted during the past term. Then she presented the incoming president, Mrs. Tommie Montfort, with the Y. W. C. A. pin. The pin is to be worn by the president as long as she holds the office. Mrs. Montfort accepted the pin and told some of the plans for effective Association work next year. The entire service was one of simplicity and beauty.

The out-going cabinet members are: Ruth Thompson—President. Louise Simpson—Vice President. Frances Ramsey—Secretary. Amy Daniel—Treasurer.

Office Greer—Undergraduate Field Representative. (The undergraduate representative will remain in office until June).

Chairmen of Committees:
 Mary Isaacs—World Fellowship.
 Mary Dodson—Church Relations.
 Bernice McGehee—Meetings.
 Lucille Gill—Membership.
 Ada Clark—Social.
 Mildred Johnson—Social Service.
 Lizzie Kate Smith—Publicity.

The new cabinet members are:
 Mrs. Montfort—President.
 Hazel Mathis—Vice President.
 Joye Mills—Secretary.
 Verle Fletcher—Treasurer.

The undergraduate field representative has not been elected yet.

Committees:
 Fannie Cash—World Fellowship.
 Mary Dockery—Church Relations.
 Office Greer—Meetings.
 Mildred Keffer—Social.
 Mildred Johnson—Social Service.
 Euphemia McGuire—Publicity.

German diplomacy would be more successful if it let money do some of the talking for it.—Philadelphia Inquirer.

It looks as if former Emperor Charles of Hungary made quite a hit, but was put out at home.—New York Herald.

The Nashville Banner fears the ex-Kaiser's book-writing will put him behind with his wood-sawing. The readers he puts to sleep will make up for that loss.—Arkansas Gazette.

PROFESSOR HUMPHRIES TO BE NEW REGISTRAR

Professor John S. Humphries, President of the College of Marshall, Texas, is to be the new registrar of the West Texas State Normal College. He will arrive in Canyon about June 1.

Professor Humphries will be a valuable addition to the faculty of this institution. He has had excellent training and valuable experience in many phases of school work. He holds the M. A. degree from Georgetown College (Kentucky), B. A. and M. A. from Harvard, and he has done one year's graduate work at the University of Chicago.

Among the important positions which he has held are the following: Private tutor, Harvard University; Adjunct Professor of Latin, Boys' High School, Louisville, Ky.; Instructor in Latin and German, Boys' Training School, Chicago; Professor of Latin and Greek, Howard Payne College; President of Howard Payne College; President of Burleson College; and President of the College of Marshall.

EDUCATIONAL VALUE OF CLEAN ATHLETICS

The educational value of clean athletics can not be overemphasized or overestimated. Life itself is a contest and boys and girls should be taught to play the game fair. No other activity will force upon their attention this principle of fair play better than the right kind of athletics. Wholesome sports stimulate young people to employ their best physical, intellectual, and moral nature. They are taught through arduous training that their chances of winning depend upon thorough and systematic preparation for the contests. From this physical training there results a strong, robust constitution, which is the basis for a healthy, moral and intellectual character. But victory, even in physical contests, does not rest altogether upon muscular strength. Self-control, self-composure, good judgment, and quick wit will enter largely into the issue. The ability to accept defeat with all the good graces of a thorough sport strengthens the moral fibres and cultivates the virtue of recognizing merit wherever found. There are still a few people who believe that no good can come out of Nazareth. When these doubting Thomases are forced to accept defeat at the hands of those whom they had discredited, they learn the valuable lesson that we must always take into consideration both the abilities and rights of our opponents.

HIGH SCHOOL ATHLETICS

The best authorities to-day on the proper development of young life are emphasizing more and more the large part which athletics plays in the curriculum of our public schools. That high school which has in its faculty no one capable of organizing the energies of its boys and girls for wholesome athletic contests is omitting one of the greatest opportunities for keeping boys and girls in school and training them for useful citizenship. No amount of hard work is a legitimate substitute for well planned and well directed athletics. Practically all work functioning in a set task lacks the stimulant of wholesome rivalry. Not only this, but contests over which an audience presides as judge teach

boys and girls to think and act well in emergencies. What asset is more valuable to young people than the ability to meet crises with intelligence and good judgment?

The world war taught America the valuable lesson that her young people have many physical weaknesses about which she had never dreamed. One problem which our schools must aid in solving during the next generation is that of correcting these defects. Once the defect has been located, the road to a permanent cure is open to follow. The fact that most schools are now counting work done in athletics as credit towards degrees illustrates

the importance which school authorities attach to this training.

More Price Reductions by Harvester Company

Entire Line of Implements Now at LOWER PRICES

In view of the recent reduction in the price of steel, we now announce lower prices for our entire line of farm machines and implements not covered by reductions previously announced.

All lower prices take effect at once

The reduction in the price of steel comes after all the material for the machines and implements we will sell this year has been provided, and will therefore have no bearing on the manufacturing costs of such machines. However, it does enable the Company to buy materials at lower prices for future manufacture, and in accordance with our announced policy we now quote those prices, the Company taking the loss on machines already finished and materials on hand.

Full information regarding our lower prices on binders, mowers, and all other harvesting, haying and corn machines, tillage implements, tractors, engines, and all other I H C farm machines can be obtained from any International Dealer.

INTERNATIONAL HARVESTER COMPANY

REMEMBER to ask your grocer for Calumet Baking Powder and be sure that you get it—the Indian head on the orange label. Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods. And now remember, you always use less than of most other brands because it possesses greater leavening strength.

Now Remember—Always Use CALUMET BAKING POWDER

There is no waste. If a recipe calls for one egg—two cups of flour—half a cup of milk—that's all you use. You never have to re-bake. Contains only such ingredients as have been officially approved by U. S. Food Authorities. Is the product of the largest, most modern and sanitary Baking Powder Factories in existence. Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Columbia Muffin Recipe
 —4 cups sifted flour, 4 level teaspoons Calumet Baking Powder, 1 tablespoon sugar, 1 teaspoon salt, 2 eggs, 2 cups of sweet milk. Then mix in the regular way.

An ex-soldier who went up 14,000 feet in the air recovered his speech; on the other hand, most people up in the air would be extremely lucky if they lost theirs.—Philadelphia North American.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

A large majority of the union job printers of this country struck Monday for a 44 hour week, at the same pay as they had been drawing under the 48 hour per week contract. This does not affect newspapers, but if the job printers win in their demands, the newspaper printers will demand the 44 hour per week schedule next year. Every employing printer is fighting a hard battle right now to keep his head above water. The demands made by the printers amounts to a liberal increase in salary. It is true that the printers have never been paid the high wages as demanded by other skilled mechanics during the war, but the printing trade is one that pays good wages six days in the week, whereas the other mechanics are subject to many idle hours per week, especially those having to do with the building trades. There is a tendency now to decrease, rather than increase wages and the striking printers will get little sympathy from the public.

Under the caption "How to Stop Hijacking," the Lubbock Avalanche points out the fact that this kind of business will stop when it becomes unprofitable. Right you are. No man has any business carrying a pocket full of money. There are good banks in every city. The money is needed by the banks for the development of the country and to keep the flow of business at the highest tide. To carry money in your pocket is to retard this flow. The hi-jacker will not run the risk of getting killed or sent to the pen for a few pennies, but is reasonably sure of getting a good haul every time he pulls the job. Don't carry a lot of money.

Golf is the great American game of the day. Canyon is fortunate in having the best lay of any golf course in the Panhandle of Texas. To be a good golf player opens up wonderful avenues of pleasure to the man or woman who travels much, as there is always a good course opened to him in all live, wide-awake cities. Boost for golf in Canyon.

Dairy products have shown less per cent of decrease than anything the farmer has to sell. The dairy cow will never take the place of the beef cow, but the dairy cow has a supreme and exclusive field of her own which can never be usurped. The Panhandle country is a great field for the dairy business, and every farmer should market his cheap grain crop through his dairy herd.

Promotion schemes are not so plentiful as they were a few months ago, but still there are always a few with us. It is well to recall that only last fall a supposedly ex-aviator came thru Canyon proposing to establish a transcontinental line, and stuck all towns several hundred dollars. Not a single plane has passed over the line since the money was collected. Other schemes are just as alluring.

The Knox resolution making a separate peace with Germany has passed the senate, and will no doubt pass the house. It is a bad piece of business for this country, and President Harding realized it when he presented his message a few weeks ago. Just now the allies are having trouble among themselves, and if all moral support of the United States is withdrawn at this time, serious trouble is likely to arise, and ultimately Germany will win the war.

A few months ago the people were buying goods regardless of the price. Today they are buying only when the price is right. The wise business man is getting more value today for his advertising than several months ago, if he is doing the right kind of advertising. Advertising of the right kind has a better pulling power in hard times than in flush times when people buy regardless of the price. Do the right kind of advertising.

The Hereford Brand has changed from a weekly to a semi-weekly publication. This is a strong indication of the progressive spirit of our neighboring town when the business men are willing to back a semi-weekly publication.

ELECTION FOR INCREASING SCHOOL TAXES OF DISTRICT CALLED MAY 28

A little history in connection with school matters of the Canyon Independent School District may be of interest and advantage to the voters of this district when they go to the polls on May 28 to cast their vote as to whether the tax limit of this district shall be increased fifty percent in order that the 10th and 11th grades may be maintained in the Canyon public schools.

The 10th and 11th grades were maintained in the high school until 1918. The graduating class of that year consisted of seven members. The rolls indicated there would be 22 in the 10th and 11 grades for 1919. The Board of Trustees were up against a serious financial difficulty and decided not to burden the tax payers of the district with so great a tax as to maintain the grades for this number. The Board issued a call for all patrons opposed to dropping these grades to meet them on the night of April 20, 1918, and no one appeared to protest the action of the Board in discontinuing the work of these grades. The Board considered they were carrying out the wishes of the people when these grades were dropped. The school was conducted for two years as a junior high school with but little opposition from the patrons of the school.

Last year there was a large number of pupils in the 9th grade, and a questionnaire to the parents of these children revealed the fact that the patrons were desirous of replacing the 10th grade this year if it were possible for the Board to finance the grade. The tax payers as a whole were not consulted. The addition of this grade and the increased cost of running the school caused the taxes of the district to be raised 40 percent over that paid by the tax payers of the district for the year 1919-20.

The Canyon Independent School District is five miles square, while nearly all of the pupils in the territory of ten miles square come to Canyon to school. The Board was of the opinion that the people who obtained the benefit of the public school should help pay the taxes of the school. Last fall the Board undertook in a legal manner to enlarge the boundaries of the district so as to include in this district most of the people who attend school in Canyon. This movement was met with determined opposition, and rather than carry the fight to the legislature, the idea of enlargement was abandoned. If it had been possible to enlarge the district, the high school could have been maintained without an increase in local taxes.

When the Board made up the financial budget for the coming year, it was seen that the 10th grade could not be maintained and the 11th added to the school for 1922 without the increase of taxes another fifty per cent over the past year's taxes, and the Board adopted a resolution dropping the 10th grade unless the people of the district petitioned to have their taxes be called to increase their taxes the necessary fifty percent for the 10th and 11th grades.

In passing judgment upon this question, the voter should keep in mind the fact that the lower grades of the public school are overcrowded, with every available seat occupied, and with enrollment of 45 to 50 in most of the lower grades. It was the idea of some members of the Board that

Holman and Steckman are among the most progressive publishers of this section and are to be congratulated upon the fine newspaper they are publishing.

Elections to increase taxes have been held in various counties during the past few weeks, and almost unanimously have the tax increase failed to carry. Hereford defeated road bonds and an increase in maintenance tax rate. Randall county defeated a hospital bond. Garza county defeated road bonds. Wellington defeated the increase in school bonds. Plainview recently defeated park bonds.

The city gardener is having as much fun this spring as a hound dog with a mess of flies. The dry weather has not been inductive to garden growing. Then, just as the stuff gets started along comes a good size frost and freeze. It's awful. Those who have not attempted a garden so far are lucky.

The man who believes that he is having the hardest time of any man in the community to get along, usually is correct in his belief—even if it is a self-imposed condition.

Think, talk, write, and work for the Randall County Fair. It will be a great success if all our citizens get behind the movement for a big fair.

Don't forget Trades Day next Monday. Come to Canyon that day.

Justice was not being done these lower grades which needed additional room and more teachers, and that the money which was being spent for the upper grades could be better invested in improving the conditions under which the lower grades were working.

The overcrowded condition of the lower grades may be attributed to so many people moving to Canyon in order to send to the Normal. The training school can care for only a limited number in the grades, but takes care of all in the higher grades. The overflow from the training school comes to the public school, while those in these families of the high grade ages are taken care of in the Normal.

In view of these facts, the Board did not wish to impose an increase of 110 percent upon the tax payers of this district over the tax of 1919 without their knowledge and consent, and the result is the petition and election called for May 28. So far as the school board is concerned, the 10th and 11th grades have been dropped for the coming year, but the members are to be guided by the will of the voters of this district when the vote is cast on May 28. If the tax issue carries, the 10th and 11th grades will be added to the school, and the very best high school maintained that the tax money will provide. If the tax issue fails, the board will have sufficient funds to maintain a good junior high school.

The voter should further keep in mind the fact that if the 10th and 11th grades are added, a new building must be erected for the school. It will probably be possible to get along with the old building for another year, but the new building cannot be postponed longer than two years. The present auditorium does not begin to care for the pupils of the school; all of the lower grades have filled their rooms to capacity; the scholastic census has increased 67 during the past year, and will increase next year.

The work that is done in the 10th and 11th grades is the same as done in the first and second year of the Normal course. This year the Normal will issue high school diplomas to those completing the second year of this course.

The tax payer is to be the arbiter of the case, as the Board of Trustees has left it entirely in the hands of each and every individual tax payer of this district. It is the duty of each and every tax payer to go to the polls on May 28 and register his opinion in the matter.

Society Open Program

The Antier and Elphelian Societies will give an open program Saturday night at 7:30, as follows:
Lynch Lomond—Assembly.
History of Scotland—Dan Sanders.
Song—Ada Clark.
Bits of Verse from Burns—Members.
Reading—Hubert Hamill.
Scottish Costume Song and Dance—Carlotta Cheney and Lewis Hardin.

Happy Happenings
Mr. Johnson of Haskell visited last Thursday at the A. W. Doyle home.
Mrs. J. M. Flesher and Mrs. Earl Whitley were Canyon visitors Friday.
P. J. Neff was a business caller in Tulla Monday.

Mrs. Shaw of Canyon gave a chalk talk at the school auditorium Monday night that was enjoyed by all.

The Woman's Missionary Society met Thursday at the home of Mrs. M. S. Arnold for the regular voice lesson and social day. Refreshments of peaches and cream with two kinds of cake and coffee. There were fourteen present.

A number of people from here have been going fishing the past week. Some of them have come back with an abundance of fish. Others not so fortunate.

Mr. and Mrs. Rayburn of Canyon, were here Friday looking for a location. They moved from here to Canyon about 18 months ago. We will be glad to have these good people back with us.

W. C. Woodburn was a visitor in Mule Shoe Saturday and Sunday.
George Walker went to Kansas City Saturday with hogs.

Mr. and Mrs. Atkman and Miss Ella and Roy were visiting in Texico from Friday until Sunday.

There were fourteen visitors from Valley View and Vigo Park met with the Farmers' Union in their regular meeting Tuesday night.

Mrs. Roy Smith and daughter Frances Russell of Derring, Mo., came in Friday to visit the parental H. M. Bagarly home for some time.

Mrs. Dillon and children of Canyon visited Saturday at the Lester Dillon and Miller Currie homes.

R. A. Underwood and O'Dell Gillham of Plainview were business visitors here Monday.

The Sunday School Institute of the Plainview Sub-District to the Methodist church will meet here on the third Sunday, May 15. Everybody come and bring your dinner and let's have a big day. The Epworth League will have charge of the services at the evening preaching hour and will have the installation of the League officers. Every one is invited to attend.

Campbell Notes

Last Monday night T. A. Dowlen was given a surprise party by his neighbors. The occasion being his birthday. Games and candy pulling were indulged in, all enjoying themselves.

J. C. Dixon and wife spent Friday evening at the Gordon-Cummings home.
Alexa Gordon-Cummings spent Sunday with Bessie Walker at her home in Castro County.

O. S. Brown and Rents Dodson were callers at the Gordon-Cummings home Sunday.

Citizens of this neighborhood had a picnic and fish fry on the Palo Duro canyon last Friday and had all the fish they could eat.

The ladies of this community met at Mrs. Stratton's last Tuesday and organized a society, the name of which has not been decided upon. Full particulars next week.

T. A. Dowlen sold a bunch of registered heifers Tuesday to Port Cleveland of Grandbury, Texas, for the sum of \$2,500 cash. They were a very choice bunch.

L. B. Noble returned from Wichita Falls Monday where he transacted business.

Immigration Problems

New York Herald: If the new Commissioner of Immigration, W. W. Hubbard of St. Johnsbury, Vt., wants to give the country a pleasant surprise he will try the unprecedented experiment of enforcing rigidly the immigration act of 1917, which is now on the books but has never been put into full operation.

This act is admirable in most of its provisions, and if it should be intelligently and impartially enforced its effects would have a valuable educational influence. The American people would learn for the first time how sweeping are the provisions Congress has made to protect us from diseased, mentally deficient, criminal, immoral aliens. They would learn what high standards have been set up by Congress for strangers seeking admission. They would be informed as to the absolutely unnecessary nature of many of the legislative proposals which have been put forward recently.

Do You Know?

The left leg is longer than the right. The right hand is bigger than the left hand.

The left foot is a trifle larger than the right.

Four per cent of children are left handed at birth.

Both eyes are never exactly alike and neither are the eyebrows.

One shoulder of most persons is a bit larger than the other.

The nails of the right hand grow more rapidly than those of the left.

The right arm is heavier and of greater circumference than the left arm.

Noses of lefthanded people point in a different direction than those of righthanded persons.

One side of a person's face is better looking than the other and experts agree there is no exception to this rule.

A Chicago inventor's collar button, which will not roll away when dropped is so weighted that it falls on a rubber backing that discourages movement.

Some time ago in front of a large London building was found a pigeon's nest, made of hair pins.

FIRST YEAR NORMAL CLASS PICNICS IN CANYONS

Monday morning, April 25, about 35 first year normal students assembled at the front entrance of the Normal, picnic bound. Noses were counted and plans were made for the day. "Comfort first" seemed to have been the slogan of the day since each boy who appeared wearing a tie was immediately dispossessed of it peaceably or other wise. Even the dignified chaperon, Wesley Allen, was not spared; his tie came off with the rest.

Five cars carried the picnicers to the canyons without a mishap. Wesley Allen and Verle Fletcher were appointed official guides and the descent into the canyons was begun. The bottom was reached after a toilsome climb during which the bursting sacks strewn oranges, apples and bananas along the way. Davis Hill arrived tenderly carrying a battered box of sandwiches wrapped in a sweater. A walk of several minutes brought the crowd to the creek where the usual good time was had in wading. Lunch was spread about noon. Such a lunch it was that everyone felt repaid for scrambling after the spilled fruit and carrying the boxes and packages. Especially was enjoyed the surprise package containing a stick of candy around, the treat of Jo Della Pennington.

When time came to return to the cars the guides were sent ahead to point out the way. Imagine the surprise of the crowd when they struggled panting to the top of the canyon to find that they were looking into one as deep as that out of which they had come. At length, however, the cars were sighted and reached.

After a consultation it was agreed that there was yet time to visit another canyon. The cars were driven to Cooley's, and the picnicers again scrambled up and down the cliffs and enjoyed the magnificent view from the falls. About 4:15 the cars were turned homeward. The picnicers agreed that it was one of the most successful picnics they had attended from every standpoint—weather, lunch, chaperons and fun.

The Evening Cloud

A cloud lay cradled near the setting sun,
A gleam of crimson tinged its braided snow;
Long had I watched the glory moving on
O'er the still radiance of the lake below.
Tranquill its spirit seemed, and floated slow!
Even in its every motion there was rest:
While every breath of eve that chanced to blow
Wafted the traveler to the beautiful west.
Emblem, methought, of the departed soul!
To whose white robes the gleam of bliss is given,
And by the breath of mercy made to roll
Right onward to the golden gates of heaven,
Where to the eye of faith it peaceful lies,
And tells to man his glorious destinies.
—John Wilson.

It is Wild Life

Fargo Forum: The presence of boys in the demonstrations in Germany, one is inclined to believe, has significance. Probably the active agitators employed by the Communist party made good use of this youthful enthusiasm and pushed the boys forward into the fighting line, while they saved their precious hides in order that they might continue to agitate. It would be folly, of course, to maintain that all the disorder was due to the work of such youths, but undoubtedly they and the slightly older rowdies who were eager for a reign of lawlessness which would permit them to gratify their baser passions, played a very prominent part in it.

Bolshevism isn't all political. It's not wholly a political or economic upheaval. It's about 50 per cent plain rowdyism.

It is not generally known that a hen, when sitting, turns her eggs entirely around once a day.

In France experiments with jacquers for airplane propellers have been so successful that an expert was brought from China to superintend operations in a works near Paris.

AT THE CHURCHES SUNDAY

Baptist Church

10 a. m. Sunday School, Pres. J. A. Hill, Superintendent.

11 a. m. Preaching. Mother's Day Sermon. Subject: "Mother, Home and Heaven."

2:30 p. m. Sunbeams.

7:15 p. m. Junior B. Y. P. U.

8:15 p. m. Preaching. Subject: "Father, Principle, Purity and Power."

3 p. m. Tuesday, Ladies Meeting.

8:15 p. m. Wednesday evening, Prayer Meeting.

Come, all you who love mother or the memory of mother. I want to talk to you of her that gave you your being, made you your home, first directed your feet into the way that leads to heaven, and, please God, will meet and welcome you here.

At night I want to talk to you about that old man, your father, whose heart is not so hard as you sometimes think, and whose principle of conduct, purity of life, and power in accomplishing, will stay and keep you in many a trying time.

Come, let us worship together, and think together about things that can but quicken our better natures and strengthen our better determinations.

B. F. FRONABARGER, Pastor.

Methodist Sunday School Report

Sunday, May 1, there were two hundred and ninety-five people present at the Methodist Sunday School. The birthday offering for last month was three dollars and thirty-five cents. The different classes in the Sunday School have been taking charge of the opening exercises. Mrs. Hanscomb's class had charge the first Sunday and gave an outline of the quarter's work. The following Sundays have been taken by Mr. Phillips' class, Mr. Johnson's class and the orchestra. Mrs. Hunt's department of little children will have charge next Sunday.

Down-Town Bible Class

Will observe Mothers' Day in special program.

Next Sunday will be observed throughout the country as Mothers' Day and the Down-Town Bible Class will have a program appropriate to the occasion.

Ten dozen carnation have been ordered, one of which will be pinned on everyone who attends the class Sunday morning. The class extends a cordial invitation to any visitors who may care to attend this service. There is a carnation for you to be worn thru-

More Money Than Brains Here

Rochester Democrat and Chronicle: Every little while some incident is reported which shows that it is still possible to have more money than brains. Among the latest of these horrible examples is the story of a woman who gave a thrill to the base sensation-chasers living greedily in New York. She was well dressed, which is no safe criterion in these days, and she entered a famous jewelry dispensary, where she asked to see, and was shown, many necklaces of fabulous value. At last she decided on purchasing one of diamonds and one of pearls, each priced at \$50,000. At this point the salesman prepared to take up the delicate matter of financial rating and credit, but she did not give him time to say his little say. Opening her handbag, she is said to have produced a roll of money that in the vulgar phrase, would have choked a cow. From this she peeled off twenty \$5000 bills, paid for her purchase in cash and went away, leaving the salesman weak in the knees, and starting a new sensation for the lovers of such mental pabulum. That, in the transaction, she manifested a marked weakness of the head is obvious.

Sisters Under the Skin

San Francisco Chronicle: Miss Elsie Ferguson had a thoroughly enjoyable visit to China, and in commenting on Chinese women, she says: "It takes some time for you to absorb the atmosphere of peace in China. At first you are absolutely bewildered by the noise in the streets and the harsh, shrill voices. But when you break through the crust you come upon a strange compound of intelligence and placidity. The Chinese really have happy natures. While there is no visible animation about them, there is a great deal of quiet enjoyment and a moderate appreciation of their own ability."

"The intelligence of the women is very high. If they could get on a communicatory basis they would be a match for the cleverest American women. Of course, this is only true of the educated classes. The vast majority of household drudges and veritable beast of burden. One sees appalling sights around Peking and Canton. The country would have to be developed greatly before its women as a whole came to realize that they were slaves. They work in the fields. They help to coal ships and veen to put up buildings. There is a coolie class that carries huge loads as readily as men. These women look like something out of hell. With raucous voices they shout epithets at one another and they seem to have certain characteristics of the women of every race, for they are quite ready to scratch and pull each other's hair."

The snow leopard, the greatest prize of big game hunters in India, is rarely found below a height of 11,000 feet and is even there extremely rare. It is both wild and savage, and the natives have a superstitious fear of its white coat and deep-green eyes.

The mound-shaped nests of the jungle fowls of Australia, in which the eggs are hatched by the heat of the decomposing vegetation, are sometimes fifteen feet high and 150 feet in circumference. They are believed to be the largest nests made by any creature.

The first dry goods commission house in America was opened in Philadelphia in 1805, for the sale of cotton yarns and threads manufactured in Rhode Island.

out the day in memory and honor of your mother. Come.

A special program will be given. The Misses Croson will sing a duet: "Mother's Prayer." The Class Quartette will render an appropriate selection. Mr. Hollifield will deliver an address, having as his subject: "Mother."

It is hoped that not a single member of the class will be absent. Come on, fellows, and let's make this the biggest service that we have yet had. Be on hand promptly at 9:45.

—Reporter.

Presbyterian Church

The service in memory and honor of Mother will be observed at our church this time at the night service at 8 o'clock and we extend to all a most cordial invitation to you to enter into this service with us. There will be special music. The sermon-subject will be "Faith of our Mothers."

At the 11 o'clock morning service we will have with us the Rev. Mr. Haynes who will preach for us. We are glad to have Mr. Haynes with us and his many friends will be glad to hear him again in the pulpit where he once stood as pastor. We invite you to hear him.

The Sunday School meets at 9:45 A. M. The Intermediate Endeavor has its service at 3 p. m., and the Senior Endeavor meets immediately after the evening service of worship at 9 o'clock.

TED P. HOLIFIELD, Pastor.

Mothers' Day Sunday

Next Sunday, May 8, will be nationally observed as Mothers' Day, honoring the mothers of our country. This day will be observed at 10:45 a. m. at the Methodist Church with a special Mothers' Day service. There will be a special sermon on Mothers' Day, with special music by Miss Brigham and the choir.

Cars will be provided for all aged people in order that they may attend the service. Those desiring a car will please phone Mrs. B. A. Stafford before 8 o'clock Saturday night.

MRS. FRED H. IVES, Chairman.

Entertains Orchestra

The orchestra of the Methodist Sunday School was entertained Wednesday night at the home of Miss Viola Vetesk, southwest of the city. A very pleasant evening was enjoyed by the members of the orchestra.

Why Are Skin Diseases So Difficult to Overcome?

When your skin breaks out with itching eruptions, tetter, rash, eczema, psoriasis, or other terrifying disorders, temporary relief will do you but little good, for soon all the itching and irritation breaks out afresh with renewed fury, and you soon realize that local remedies such as ointments, salves and similes treatment will never rid you of your trouble.

These troubles originate in the blood and if you expect real sub-

stantial relief you must treat them through the blood.

The best remedy for this purpose is S.S.S., the fine old blood remedy that purifies the blood of disease germs, and thus restores the skin to a normal and healthy condition.

Begin taking S.S.S. today, and write a complete history of your case, and our medical director will give you expert advice without charge. Address Chief Medical Adviser, 161 Swift Laboratory, At-

AN AGE OF BIG INVESTMENTS.

This is an age of big investments. Men pride themselves in the vast sums they are devoting to speculation, in the hope of material returns. They sink millions in barren oil wells or lose them in soap-bubble schemes to become rich. And yet the percentage of returns from these investments is so small as to discourage the prudent business man who stops for a moment to consider his chances to win.

Would it not be a wise expenditure of some of our capital to invest it in character? This is the safest investment we can make, and it guarantees large dividends for an indefinite time. The opportunity for this investment is close at home. Did you know that more than forty boys and girls of the Panhandle country have left the West Texas State Normal College during the present year through lack of adequate funds to continue in school?

Surely some remedy can be found for this deplorable situation. The West Texas State Normal College has been making a great effort to solve this problem through a Student Loan Fund. But this fund, provided by the faculty and a few friends of the institution, is at present wholly inadequate. To take care of the present demands, this fund should be increased from \$3,000, its present sum, to \$10,000.

There are more than a thousand people living on the Plains who would not miss a contribution of \$5.00 each to this fund. Did you know that this amount thus raised would keep 25 boys and girls in school who otherwise would have to withdraw? The fund we have has assisted 81 boys and girls to complete their education to the point where they could make their own way, and of the \$8,000 loaned not one cent has been lost. Is not this a high tribute to the quality of character in our boys and girls? Most colleges have a student loan fund. Shall we of the Panhandle be derelict in our duty to our boys and girls who hunger for an education but have not the means to secure it?

OPEN HOUSE ALL THE YEAR

The West Texas State Normal College is very happy that the people of the Panhandle find it convenient and advisable to make use of the facilities which this institution has to offer for educational purposes. The State of Texas created this college to serve your interests, and its doors are always open for gatherings whose purpose is to make this section a better place in which to live. Look upon this as your educational home, and make requisitions upon its faculty for use in your community whenever you need such services as any member can render. We are glad that you came to us for the Interscholastic League Meet, and we hope you will return to us often. These great gatherings furnish inspiration for us all; they emphasize the growing power we are becoming. This section is just beginning to take a legitimate pride in what it has and what it is in a position to do for itself. Nothing has done more to emphasize this fact than the many organizations which have been perfected in the Panhandle.

Every boy who expects to reach should be capable of giving intelligent instruction in all forms of athletics. While one is a student in school, he can not do the best literary work unless he takes part in games, and outdoor sports of some kind. Too close association with books and indoor work tends to dull the mind and make a student listless and indifferent. Fresh air and vigorous physical exercise tend to rest the mind and keep one free from mental inertia.

The teacher should understand athletics because only through a knowledge of them can he direct the activities of the children in their play. Through this medium he can also establish a sympathetic understanding and companionship with students that will enable him to work in harmony with the boys and girls that would otherwise be indifferent to all efforts that he might put forth in their behalf.

From The Prairie.

Who Pay The Taxes

The present high State tax should and doubtless will, call attention of the taxpayers of Texas to the urgent need of a more equitable distribution of the burden of conducting the State government," says a pamphlet issued by the secretary of the State Tax Assessor's Association. "Under our present system, however, 154 counties of the state are being taxed for approximately one-half million dollars per annum over and above their rightful share, while ninety-four counties are escaping approximately three and one-fourth millions of the taxes they rightfully should pay."

The pamphlet might have added that if one would draw a line along the east boundary of Wichita county and continue it down the map to a point just north of San Antonio, 112 of the 154 counties that are paying this excess of taxation would be found west of that line, including the Panhandle. The great bulk of the counties which, thru ridiculously low assessments have been dodging taxes for years, are in East Texas. When it is considered that all of the counties in which there are cities are among the 154 paying the excess, it will be seen that the counties

lay the same, and all papers, minutes and vouchers relative thereto, before the Legislature, or either House thereof, and shall perform such other duties as may be required of him by law. He shall receive for his services an annual salary of Five Thousand (\$5,000.00) Dollars, and no more.

Section 22. The Attorney General shall hold his office for two years and until his successor is duly qualified. He shall represent the State in all suits and pleas in the Supreme Court of the State in which the State may be a party, and shall especially inquire into the charter rights of all private corporations, and, from time to time, in the name of the State, take such action in the courts as may be proper and necessary to prevent any private corporation from exercising any power, or demanding or collecting any species of taxes, toll, freight, or wharfage, not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of all such charters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor or other executive officers, when requested by them, and perform such other duties as may be required by law. He shall receive for his services an annual salary not to exceed Seven Thousand Five Hundred (\$7,500.00) Dollars, and no more.

Section 23. The Comptroller of Public Accounts, and the Treasurer, and the Commissioner of the General Land Office, shall each hold office for the term of two years, and until his successor is qualified; receive an annual salary not to exceed Five Thousand (\$5,000.00) Dollars, and no more; reside at the Capital of the State during his continuance in office; and perform such other duties as are or may be required of him by law. They and the Secretary of State shall not receive for their own use, any fees, costs or perquisites of office. All fees that may be payable by law for any service performed by any officer specified in this Section, or in his office, shall be paid, when received, into the State Treasury.

Section 24. Mileage and per diem: The Members of the Legislature shall receive from the public treasury such compensation for their services as may, from time to time, be provided by law, not exceeding Ten (\$10.00) Dollars per day for each regular session of one hundred and twenty days; and not exceeding Five (\$5.00) Dollars per day for the remainder of such session; and provided, further, that Members of the Legislature shall not receive not to exceed Ten (\$10.00) Dollars per day for each special session of the Legislature that may be called from time to time by the Governor. In addition to the compensation above provided for, the Members of the House shall be entitled to mileage in going to and returning from their seat of government which mileage shall be ten cents per mile, the distance to be computed by the nearest and most direct travel by land regardless of railroads and water routes; and the Comptroller of the State shall prepare and preserve a table of distances to each county seat, now or hereafter to be established, and by such table the mileage of each Member shall be paid; but no member shall be entitled to mileage for any extra session that may be called within one day after the adjournment of a regular or called session.

Section 2. The Governor is hereby directed to cause to be issued his necessary proclamation for an election to be held on the fourth Saturday in July, 1921, at which election these amendments shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the Constitution and laws of the State. Said election shall be held under and in accordance with the general election laws of the State, and the ballots for said election shall have printed or written thereon in plain letters the following words: "Official Ballot." For the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas providing for compensation of executive officers." "Against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." "Official Ballot." For the amendment of Section 24 of Article 3 of the Constitution relating to mileage and per diem of Members of the Legislature of the State of Texas."

One-Foot On The Ground

Enthusiasm is fine. So is idealism. So is optimism. So is faith. So is vision. So are a lot of other things. But always keep one foot on the ground. Two makes of us are given to flying to extremes. We lack ballast. We often let our dreams run away with us. We lose all sense of perspective and proportion. When things are going well with us we conclude that they will always continue to do so, and we accordingly neglect to provide safeguards against a reversal of fortune. The business concerns which are in the direct straits today are those that overshot the mark most during the boom. They failed to look ahead. They reckoned upon prosperity lasting forever. A good many of us do the same thing.

After all, plain, ordinary gumption is the greatest asset in the world. Gumption embraces level-headedness, judgment, stability, power to hold on rationally but not blind optimism, reasonable but not unreasonable, self reliance, alertness to the value of looking before you leap and of counting the cost before you run up a hill. Let us philosophize, yes. But let us not forget that before we philosophize fruitfully, we must buckle down to the workaday task of earning a living. —Forbes Magazine.

Don't talk pessimism. It puts similar ideas into the minds of other people, and such ideas create doubt and uncertainty and hamper the ordinary progress of commercial activity and expansion.

There are about 600 organizations of scientists in the world for studying X-rays, and a Dutch leader in the science is trying to combine them in one international body.

If you can't see anything good in the future get some other fellow to do your looking for you until you can adjust yourself to conditions and acquire a better perspective of affairs in general.

If a man goes out in the morning and tells every person he meets that he is sick, and keeps up the fiction from day to day it will grow on him until he is in reality unfit for business.

But if you want better times go out and preach them and put the joy of confidence into other hearts as well as your own. The response will be just as great.

For every purpose for which a liquid is usually applied the modern remedy, Liquid Borozone, will do the work more quickly, more thoroughly and more pleasantly. Price, 30c, 60c, and \$1.20. Sold by Jarrett Drug Company. 614

Senate Joint Resolution No. 4

A Joint Resolution of the Legislature of the State of Texas amending Sections of the Constitution of the State of Texas as follows: Sections 5 and 21 and 22 and 23 of Article 4, relative to the compensation of executive officers; and Section 24, Article 3, relating to mileage and per diem of Members of the Legislature; of said State. Be it resolved by the Legislature of the State of Texas: Section 1. Sections 5 and 21 and 22 and 23 of Article 4, and Section 24 of Article 3 of the Constitution of the State of Texas shall be amended so as to hereafter read as follows: Section 5. We shall, at stated times, receive as compensation for his services an annual salary not to exceed Eight Thousand (\$8,000.00) Dollars and no more, and shall have the use and occupation of the Governor's Mansion, fixtures and furniture. Section 21. There shall be a Secretary of State, who shall be appointed by the Governor, by and with the advice and consent of the Senate, and who shall continue in office during the term of service of the Governor. He shall authenticate the publication of the laws and keep a fair register of all official acts and proceedings of the Governor, and shall, when required,

held on the fourth Saturday in July, 1921, at which election these amendments shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the Constitution and laws of the State. Said election shall be held under and in accordance with the general election laws of the State, and the ballots for said election shall have printed or written thereon in plain letters the following words: "Official Ballot." For the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas providing for compensation of executive officers." "Against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." "Official Ballot." For the amendment of Section 24 of Article 3 of the Constitution relating to mileage and per diem of Members of the Legislature of the State of Texas."

Those voters who favor such amendments shall cause by marking a line through the words "against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." And the result of the election shall be published and declared according to the majority of the votes cast in such election; and those who favor such amendment relating to the mileage and per diem of members of the Legislature shall cause by marking through the words "against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." Those who oppose such amendment shall cause by marking a line through the words "for the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

Section 2. If a majority of the votes cast in the election herein provided for should be in favor of the amendments proposed, the maximum sum named herein shall become effective and be the compensation thereafter to be received by the officials named herein on and after the first day of January, 1923, and so remain until otherwise provided by law, and the compensation so allowed shall be paid out of any money in the State Treasury not otherwise appropriated.

Section 3. The sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary is hereby appropriated out of any fund in the treasury not otherwise appropriated for the purpose of paying the necessary expenses of the proclamation and publication of these amendments and the election to be held hereunder. (A True Copy)

S. L. STAPLES, Secretary of State.

Section 2. The Governor is hereby directed to cause to be issued his necessary proclamation for an election to be held on the fourth Saturday in July, 1921, at which election these amendments shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the Constitution and laws of the State. Said election shall be held under and in accordance with the general election laws of the State, and the ballots for said election shall have printed or written thereon in plain letters the following words: "Official Ballot." For the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas providing for compensation of executive officers." "Against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." "Official Ballot." For the amendment of Section 24 of Article 3 of the Constitution relating to mileage and per diem of Members of the Legislature of the State of Texas."

Those voters who favor such amendments shall cause by marking a line through the words "against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

Those who favor such amendment relating to the mileage and per diem of members of the Legislature shall cause by marking through the words "against the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." Those who oppose such amendment shall cause by marking a line through the words "for the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for compensation of executive officers." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

DAIRY FARMING, THE MOST PERMANENT INDUSTRY

SEVEN REASONS WHICH PROVE TRUTH OF THIS ASSERTION

As a secure and permanent occupation, none of the common forms of farming compare with dairying. Still many dairymen have regarded the future of the industry with doubt. Falling prices during the past few months have led them to wonder and worry regarding their heavy investments in live stock, land, buildings, and machinery. Let them consider the following seven reasons why dairying is the most permanent form of farming. We could give more, and will gladly do so if called upon, but seven always was a lucky number with us. Besides, we rest assured that seven reasons will more than remove the last vestige of doubt from the mind of any farm reader.

First—Milk and milk products are absolutely essential to life, health, and normal growth. This point is becoming better known year by year to our reading and reasoning public; as a consequence the consumption of milk and milk products is steadily increasing. So is the use of substitutes, you may say, and you would be right. War prices and highly commendable patriotism popularized the use of substitutes. But none of the so-called substitutes, no matter how extensively advertised, dare meet pure milk products in open battle. Why? Because milk products contain vitamins, and vitamins are absolutely essential to normal health and growth. They are not found in appreciable quantity in other animal oils and in vegetable oils, and it is these oils that form the base of all substitutes on the market.

Second—During the past five years our population has increased seven per cent; milk consumption has increased ten per cent in the same period. What do these indisputable facts promise for the future? The population of the United States is increasing rapidly and history will show that it has been on the steady increase for the past century. Immigration and the natural increase through births assure further growth. Education in child welfare and general health insists on milk for the growing child. Therefore we may expect to see milk consumption increase far more rapidly and markedly in the next generation than in the decade just ended. What could be a more promising guarantee for the future than an ever increasing and expanding market?

Third—Dairy products are a source of regular and reliable profit. The market for dairy products has never been controlled by a few; it never will be. Through co-operative creameries and cheese factories farmers can supply a staple, finished product, ready to be disposed of direct to the ultimate consumer if necessary. This in a sense makes possible the elimination of the middleman, and has been used by farmers where it was found that the "split" in profits was going against them. Once a month, twice a month, or even every week or day in some cases, the dairyman receives payment for the work his cows have done for him—and cows don't work on an eight-hour day basis either. Thus the dairy farmer is enabled to pay cash for things he buys and is free to "stand firm under" when hard times threaten. The fact that rural Wisconsin is better situated financially right now than any of the Corn Belt states proves the truth of this point.

Fourth—Dairying and diversified farming are one and the same. Di-

versified farming produces a variety of crops for market; a failure of any one or two does not mean bankruptcy for the farmer. The dairyman does not have "all his eggs in one basket." Contrast this condition with the Corn Belt where wealth is measured in terms of corn, hogs, and steers. This year has seen the "bottom drop out" of the market for the three things he produces—commodities he has always considered as legal tender. As a consequence there is no money in circulation, farmers are not able to meet their obligations, farm sales made a year ago at high prices are falling through, and banks are unable to assist farmers by making loans. In Wisconsin, primarily a dairy state, conditions are much better in spite of decreased prices. Banks are still able to take care of the needs of farmers, and farmers seem to be able to "scrape up the cash" with which to meet their debts. Why? Because diversified farming with the timely aid of dairy dollars can meet and is successfully meeting the emergency.

Fifth—The dairy herd conserves and even increases soil fertility, assuring good yields of farm crops in future years. At the same time the herd provides a sure, prompt, and profitable outlet for grains and roughage grown on the farm. Land that supports good dairy herds becomes richer year by year, whereas land devoted to raising grains and hay for market soon becomes sadly depleted unless carefully managed and unless commercial fertilizer is purchased. Every ton of corn sold off the farm, worth in normal times about \$20.00, takes with it \$0.50 worth of plant food; every ton of wheat worth \$35.00 takes \$17.00; every ton of butterfat worth about \$1,000 takes away only 49 cents worth of plant food! Meanwhile the herd is returning many times this amount in fertility. It pays to market crops in the milk can. Keep these facts in mind when you haul away your next load of oats or hay.

Sixth—One biggest and most successful dairymen, with years of practical experience to back up their statements, say, "The dairy crop is the only one which has never known a complete failure." They base this statement on a few simple facts. In the first place dairying is more quickly adjustable to new conditions and prices than any other kind of farming. We can easily see why. Field crops are marketed once a year, and the price is forced down—temporarily—because of the overload of any single crop on the market. The marketing period is not distributed. To purposely hold for higher prices means to wait for the money tied up in the crop. No so with the dairyman. He markets his "crop" every day or every few days at most, and is paid once or twice a month or oftener. His returns no doubt do vary in times such as the present when all lines of industry are being readjusted, but a few months of low prices do not condemn the industry. The reasoning farmer notes a drop of 15 to 25 per cent in milk prices, then compares this to the drop of corn from \$1.50 per bushel to around 60 cents, and pork from 23 cents to 9 cents. He figures his average earnings for the last two years and is satisfied. He knows that no business is entirely free from ups and downs; he also knows that none are more highly favored than dairying in this respect.

THE DAIRY COW IS A SURE WINNER IN RANDALL COUNTY

Seventh—The dairy cow is a home builder. Farming, no matter how profitable, never reaches the position of dignity which is its heritage until the farm home becomes so attractive that it is the greatest pride of the entire family, something to be handed down from generation to generation. The growing boy or girl does not look forward with pleasure to the time when they will inherit a mortgage-ridden, impoverished ruin. They do thrill at the thought of a farm both fertile and fair, stocked with the blood left as the breeder's handwork of father and grandfather. The dairy herd always has stood and always will stand as a symbol of permanence for the good farm, the real farm home, the farm from which the boys are not easily attracted to the job in the city nor the girls lured away to the office. The truth of these rather strong statements may be severely attacked. They may raise a lusty howl of dissent, and disapproval from the fruit farmer and from the grain grower; the corn and hog raiser of the corn belt may cuss us and threaten bodily harm. But we are in possession of facts and proofs sufficiently strong and numerous to refute any argument they may advance.—Hoard's Dairyman.

Panhandle-Plains Country
The average price of land in the Panhandle-Plains country of North-west Texas, is \$25 per acre. The great wheat belt of this region is world famous, as is its live stock and stock farming interests. In the southern part of the territory cotton yields abundantly. Water, soil and climatic conditions are unexcelled. In this district is the largest gas field in the United States if not in the world. The transportation is exceptionally good. The Santa Fe Railway serves a large part of the territory. Public highways, educational facilities, numerous churches, fraternal organizations, wide awake press and civic bodies are matters of local pride, and the admiration of other communities. The population is 190 per cent American. The Panhandle-Plains country is an ideal place in which to seek prosperity with every assurance of achieving it, and for home building and home making.—The Earth.

Movie Intelligence
"Didn't anybody criticize you for filming an automobile in ancient Babylon?"
"No. But I had a dozen letters calling my attention to the fact that the car showed a California license tag."
Come to Canyon to live.

J. M. Sanford's Big Tooth

Some time ago Elliot Sanford picked up a mammoth tooth on the ranch of his father—J. M. Sanford, west of town and brought it to town. Last week President J. A. Hill of the Canyon Normal, was in Panhandle and secured the loan of this prehistoric relic to be placed for a short time with the museum at the Canyon Normal. The tooth is about the size of a twenty pound shot and quite a curiosity to those who are interested in prehistoric animals. Mr. Sanford estimates the tooth is that of an animal with a mouth at least three feet wide.—Panhandle Herald.

Wanted—Country Doctors

Concord Monitor: The country doctors are all moving to town, according to a leading medical magazine. Thousands of the smaller communities are without doctors. There are two reasons for this—first, the war, which opened new avenues of usefulness and opportunity to many of the physicians who entered the service; and second, the automobile, which makes it possible for the doctor to live in the larger community, keep in touch and compete with the city physician and still take care of a large part of his out-lying practice.

Because of these two factors the little town far from the city suffers without a doctor or is able to get one only after a long delay and anxiety. To offset this shortage the magazine offers this suggestion:

"Why shouldn't some of the city doctors, especially those getting along in years, who feel as if they would like to slow down a little, move into some of the beautiful country villages which nowadays have most city comforts and many advantages which the city does not possess? In such a place a home can be bought for a song, with peace and quiet, and a garden spot, fresh fruits and beautiful scenery, and an increasing number of people of large ideas, and poetic and literary instincts and little money.

The suggestion sounds practical and tempting. Almost anybody might wish he were a city doctor, so he could step up first.

Auto-Intoxication

"What was the excitement down the street?"
"Oh, a man in a reverie ran into a woman in a tantrum."
"Were the machines badly damaged?"—Boston Transcript.

Courage for the great sorrows of life and patience for the small ones.—Victor Hugo.

Confidentially

We want to say that you are going to miss one of the biggest Trades Days Canyon has ever had unless you come to town next Monday, May 9th.

There will be a big program, and lots of things of interest. While here, buy one of our new summer suits, built just to fit you.

Young Man Killed in Runaway Accident

Special to The News:
Wayside, Texas, May 2—Leonard Crow, one of Wayside's promising young men, was fatally injured Friday afternoon, when the team he was driving ran away.

He was seated in a wheel-barrow in a wagon and both he and the wheel-barrow were thrown between the wagon and team, both wheels passing over his body, injuring him internally. He suffered intensely, lingering until near noon Sunday, when he passed away. All that could be done by loved ones and friends to no avail. He met death bravely, telling his loved ones he was not afraid to die.

He was buried Monday at Wayside, Rev. N. W. Woodson conducting the funeral exercises. A large crowd following his remains to the cemetery, his pall bearers being members of his Sunday School class.

Those from Pampa attending the funeral were his grand parents, Mr. and Mrs. Crow, his uncles, Ed and Grant Crow, also an aunt, Miss Bessie Crow. Friends from Tulsa were Mr. and Mrs. Boge, Mr. and Mrs. Behrens and daughter, Miss Lucille. The heart-broken family have the sympathy of all around them in their deep sorrow.

Miss Birdie Lou Lane is again at home, coming out with J. T. McGehee and family Saturday afternoon.

Cool weather prevails, no rain yet. Wheat is falling fast. In some places it seems to be gone. Some are grazing the wheat with their stock.

Mr. and Mrs. G. W. Franklin and daughter, Ada, left Thursday for Lockney. Not decided where they will locate yet.

G. W. Mayo, wife and daughter, Miss Toy, came in Friday from Mineral Wells, where they have spent the winter. They are on their way to Clarendon where they will reside. They are visiting their daughter, Mrs. R. E. Carter.

R. E. Carter has been quite sick for a month. Not much improvement in his condition.

Rev. N. W. Woodson gave us two good sermons last Sabbath. Next Sunday being Mothers' Day he requested that a program be made and carried out suitable for the occasion. Mrs. Grace McCree, Mrs. LeVina McGehee and Mrs. Amanda Adams were appointed program committee.

Prof. Ivan Hancock of Canyon visited Wayside Monday. He taught our school nine years ago. We were glad to see him again.

Mr. and Mrs. Troy Wamble from Hereford visited relatives at Wayside Saturday night, Sunday and Monday.

Quite a few new cases of measles in the community.

Eastern Star at Happy

Friday evening, April 23, the Eastern Star Lodge of Happy invited the Canyon Chapter to help put on initiation. In response to this the following motored to Happy: Mesdames A. J. Arnold, Dillon, Ackerman, Campbell, Stratton, Mr. and Mrs. W. J. Flesher, Dewey Foy, Mrs. Cora Foy, Mrs. J. S. Carter, Mrs. Oldham, Mr. and Mrs. W. C. Black, Mrs. Clyde McElroy, Mrs. Bob Foster, Pearl and Thelma Black, Vera Crawford, Agnes Meyers, Ina Carson, Mr. and Mrs. Lorenzo Wirt, Pearl Hensley, Mr. and Mrs. O. W. Gano, Mrs. Carl Helzer. After initiation hot chocolate, cake and ice cream were served. The O. E. S. came away more enthused after visiting the wide awake chapter of Happy. We were so delightfully entertained we hope they will extend the invitation again.

Sheriff's Sale

THE STATE OF TEXAS, County of Randall.
By virtue of a certain Alias Order of Sale issued out of the Honorable District Court of Tarrant County, on the 2nd day of May, 1921, by Mrs. G. Frank Coffey, Clerk of said Court, against J. I. Campbell individually, C. C. Jones and J. M. Tanner for the sum of Seven Thousand, Three Hundred Ninety and 37/100 Dollars and costs of suit, in case No. 54159 in said Court, styled Mrs. L. R. Eyles, et vir J. I. Campbell individually, C. C. Jones and J. M. Tanner and placed in his hands for service, I, W. C. Black as Sheriff of Randall County, Texas, did, on the 4th day of May, 1921, levy on certain Real Estate, situated in Randall County, described as follows, to-wit:

First Tract: 480 5-10 acres out of survey patented to W. F. Heller by the State of Texas, January 24th, 1907, by Patent No. 239, Vol. 23, and our of survey patented said Heller by the State of Texas, January 24th, 1907; Patent No. 238, Vol. 23, being parts of Section 62, surveyed for the public fund by the Houston and Great Northern R. R. Co. in block B-5 by virtue of Certificate No. 45-3570.

Begin at a stake in North Line of Section 62 where it crossed the west line of the Pecos & Northern R. R. Right of Way; Thence West 2787 feet to Northwest corner of Section 62; Thence South Ten (10) West 5380 feet gas pipe marked "6168.67"; thence East with South line of Section 62, 4012 feet, said Railroad right-of-way.

Thence in Northwesterly direction with said right-of-way to place of beginning.

Second Tract: 160 acres of land being the Northwest One-fourth of Survey 67, Block B-5, patented by the State of Texas Land Company December 31st, 1880, by patent No. 291, Vol. 61 by virtue of Certificate No. 15-3573, issued to H. & G. N. J. R. Co. all situated in Randall County, Texas, excepting, however, 30 acres out of the Northwest corner of said first tract now owned by Wm. Willard and not herein conveyed.

It is hereby decreed that Order of Sale Issue to the Sheriff of Randall County, Texas, to sell the said property as provided by law on the first Tuesday in June, 1921.

It is also ordered and decreed that said property be first offered for sale in Fifty (50) acre tracts, and if the property be so sold the expense of dividing the same into 50 acre tracts is hereby assessed against all of said defendants, as provided by law in such cases. That if there be no bidder for such property in 50 acre tracts, then and in that event, the same shall be offered for sale as a whole and levied upon as the property of said J. I. Campbell individually, C. C. Jones & J. M. Tanner, and on Tuesday, the 7th day of June, 1921, at the Court House door of Randall County, in the town of Canyon, Texas, between the hours of ten A. M. and four P. M., I will sell said Real Estate at public vendue, for cash, to the highest bidder, as the property of said J. I. Campbell individually, C. C. Jones and J. M. Tanner by virtue of said levy and said Alias Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Randall County News, a newspaper published in Randall County.

Witness my hand, this 4th day of May, 1921.

W. C. BLACK, Sheriff
Randall County, Texas.
A true copy I certify.

Notice of Sheriff's Sale

By virtue of an order of sale issued out of the District Court of Potter County, Texas, in Cause No. 3283, Wm. F. Fall and W. H. Angene, vs. Ed Hawkins, N. F. Tate and A. C. H. Tanner, dated the 27th day of April, 1921, and to me directed and delivered, I have levied upon and will proceed to sell at public auction in front of the court house door of Randall County, Texas, at Canyon City, on the first Tuesday in June, 1921, it being the 7th day of June, 1921, between the hours of ten o'clock A. M. and four o'clock P. M., the following described real estate situated in the counties of Randall and Armstrong, in the State of Texas, to-wit:

An undivided one-half interest in Section or Survey No. Ten (10) in Block No. Two (2), located by virtue of Certificate No. 527 issued to A. B. & M. and containing 640 acres of land more or less.

Levied upon as the property of Ed Hawkins, N. F. Tate, and A. C. H. Tanner, and will be sold to, satisfy judgment in favor of plaintiffs in said cause dated March 22nd, 1921, for the principal sum of \$10,310.00, against Ed Hawkins, defendant, with interest at the rate of ten per cent, per annum from said date and all costs of suit; and the proceeds of said judgment will be applied as directed in said order of sale.

W. C. BLACK, Sheriff,
Randall County, Texas.
A true copy I certify.
W. C. BLACK, Sheriff,
Randall County, Texas.

Notice of Election

Whereas, on the 25th day of April, 1921, the Board of Trustees of the Canyon City Independent School District passed and entered on its Minutes the following order, to-wit:

"Order for School Tax Election
On this the 25th day of April, A. D. 1921, came on to be considered a petition in writing signed by C. N. Harrison and twenty other persons, asking that an election, as hereinafter ordered, be ordered by this Board, for the purpose hereinafter set forth:
"And it appearing to the satisfaction of the Board that said petition is signed by at least twenty taxpaying voters of this District and that the election petitioned for should be ordered:

"It is therefore ordered by the Board of Trustees of Canyon City Independent School District that an election be held at the Court House of Randall County, Texas, in the town of Canyon, in said Canyon City Independent School District on the twenty-eighth day of May, A. D. 1921, to determine whether the Board of Trustees of said District shall have power to annually levy and collect a tax upon all of the taxable property in said District for the support and maintenance of the public free schools in said Canyon City Independent School District of and at the rate of not exceeding seventy-five cents on the One Hundred Dollars valuation of all taxable property in said District, provided that the rate of tax levied and collected both for the support and maintenance of the public free schools of said District and paying interest on and creating a sinking fund for the payment of the outstanding bonds of said District shall not exceed the sum of seventy-five cents on the One Hundred Dollars valuation of all taxable property within said District, said tax, if voted, to be levied and collected for the year 1921 and annually thereafter unless discontinued as provided by law.

"S. V. Wirt is hereby appointed Judge of said election, and John Bates and A. M. Smith are appointed as clerks of said election; and said election shall be held as nearly as may be possible in conformity with the general election law of the State.

"None but property taxpayers who are qualified voters in said Canyon City Independent School District shall vote in said election.

"Those in favor of the levying of such tax shall write or print on their ballots "FOR MAINTENANCE TAX", and those against the levying of such tax shall write or print on their ballots "AGAINST MAINTENANCE TAX."

"The President and Secretary of this Board shall cause notice of said election to be given in the form and manner and for the time prescribed by law."

Therefore, notice is hereby given that said election as above ordered will be held as set out in said order of the said Board of Trustees.

Given under our hands and the seal of said Canyon City Independent School District, at Canyon, Texas, this 29th day of April, A. D. 1921.

G. G. FOSTER,
President Board of Trustees, Canyon City Independent School District.
C. W. WARWICK,

Assignment Follows Big Clash
The Industrial Transportation Co. has made an assignment. Unpleasant as this news may sound to the Quannah stockholders, it did not come wholly unexpectedly.

The \$15,000 more or less subscribed here by various people may safely be charged up to profit and loss; it being unlikely that much of it will be recovered.

Some six months ago two Dallas men Frady and Durland, showed up here with a stock selling proposition. They claimed that their company was operating in several states under a special charter, and was making money by selling groceries at ten per cent profit.

They were good talkers, and convinced the folks that showed interest in their proposition that by buying groceries in the open market, and shipping it in car load lots to their 150 stores, more or less, the saving was so enormous that they could afford to sell very cheap.

The money was to be left in the Quannah bank, according to oral promises, but the St. Louis heads of the concern lost no time in checking the money out, and some of the local men who did work for them had their drafts returned several weeks ago.

The store in Quannah was made ready for occupancy after long delay, but no groceries were ever shipped here. In some of the neighboring towns, where stores were opened by this concern, it is said the stocks were small, and gradually dwindled down to nothing.

The company was very lavish with its promises but a number of people here would like to see the heads of the concern prosecuted for swindling.—Quannah Tribune-Chief.

Healthgrams

By M. M. Carrick
Fresh air is as necessary to health as pure and nourishing food.

Persons with colds or coughs of long standing or persons who are losing weight or strength should consult a doctor. It is dangerous to wait.

Protect the babies; they can't defend themselves.

When the meat market is full of flies it is a pretty good time for you to change your trading place. Every business house handling food should be effectively screened.

Born in filth, living in and feeding on filth, the housefly is the most terrible single enemy of all mankind among all living creatures.

Some people seem to think that alleys are maintained as places where they may discriminate deposit their wastes and filth. Get this notion out of your head.

The least desirable citizen is the habitually dirty citizen. For such the ducking stool should be revived.

It should be impressed, in practically all cases, upon mothers that they can and should nurse their new-born babies. No other food can compare with mother's milk. Ten bottle fed babies die to one that is breast fed.

Control of disease depends upon knowing that disease exists.

Have confidence in your Health Department.

For other instructive health suggestions write to the State Board of Health, Austin, Texas.

An attack of heartburn or indigestion calls for a dose of Herbine. It relieves the distress instantly and forces the fermented food into the bowels. You feel better at once. Price 60c Sold by Jarrett Drug Co.

Turn Off The Gas

(Printers' Ink)
The poison gas of wartime was made by chemists. It caused untold suffering. It was unfair. The poison gas of commerce is made by thoughtless and lazy people—or men with axes to grind. It also causes suffering—it is equally unfair. It consists in whispering stories about companies of people without foundation of fact. It is bearing false witness; it means undermining confidence. It has no relation to the frank and open expose of rotten conditions.

In one case the man who spreads the story takes no responsibility. He doesn't want or need facts. He merely wants to whisper. The man with a real story doesn't have to whisper. If he has the facts, he can speak aloud—and stand back of his statements.

One kind of statement is service. The whispering is poison gas. This poison gas, whether it be inspired by promoters of bear attacks on the stock market, or people who have forgotten how to sell and need gossip to keep alive, is more than unfair—it is foolish.

Every man who is not a parasite in the economic structure has something to sell. It may be an idea—a creed—or a washing machine.

Many men have forgotten how to sell. They are too busy whispering. But the man who wants to sell his products has to talk above a whisper. And he has to get to think about his own business. He can go out right now and get orders for goods, space, or what-

ever he is selling, in the time he takes whispering about a rumor or worrying about a cancellation.

The engineer of a train, when he comes for a moment to the valley below the hill ahead, doesn't stop the train. He doesn't invite the conductor to sit down with him beside the track while he tells him hollow-toned ghost stories. He gets his fire well coaled, puts his hand on the throttle and turns on the steam.

It is exactly the right time for all American business to take a hitch in its trousers and go to it. It's time to quit whispering. It's time to turn off the poison gas and turn on the steam.

A bad sprain heals slowly if not treated with a remedy that has the power to penetrate the flesh. Ballard's Snow Liniment is especially adapted for such ailments. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Jarrett Drug Co.

Non-Advertising

Eldorado Success: You know that it is a bad thing to let your watch run down. It ruins the works. It is just as bad to let your business run down, and advertising is the key that keeps it wound up.

State Press, Dallas News: The non-advertising merchant claims that advertising doesn't pay. They prove it by citing you to two or three times when they tried it and had to pay out twelve or fourteen dollars in penalty of their venturesomeness. And it is sometimes rather embarrassing to the young advertising solicitor to contact controversially a veteran merchant who has been for twenty or thirty years in the same little store, a daily witness of the conviction that he was saving money by not spending any of it with the newspapers.

If the young solicitor hazards the opinion that a habit of advertising might have moved the veteran from the little store to a larger one, he runs the risk of being informed that he is a smart Alexander. And if he points to the large stores which have come up through constant and efficient advertising, he is told that the larger stores got big by being conducted dishonestly or unfairly or by big capitalists who could afford big ways of doing things. The small man who does not progress is never quite satisfied that his progressive competitor is entirely honest. Even the obvious fact that most of the big stores came up from little beginnings, that their big capital was at first merely some prudent man's savings, does not have much weight with the type of business man who rigidly believes that all business should be little business.

House Joint Resolution No. 11

Proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas to provide that the Legislature may grant pensions to Confederate soldiers, sailors and their widows, who have been citizens of Texas since prior to January 1, 1910, providing that all soldiers, sailors and their widows eligible under the provisions hereof shall be entitled to be placed upon the rolls and participate in the pension fund created hereunder; levying a tax of seven (\$07) cents on the \$100.00 valuation of property in this State for the payment of such pension, providing that the Legislature may reduce the rate of pension for such purposes, fixing a time for the election to be held on such amendment, and making an appropriation to pay the expenses thereof; Be it resolved by the Legislature of the State of Texas:

Section 1. Section 51 of Article 3 of the Constitution of the State of Texas shall be amended so as to hereafter read as follows:
Section 51: The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, association of individuals, municipal or other corporations whatsoever, provided, however, the Legislature may grant aid to indigent or disabled Confederate soldiers and sailors, who came to Texas prior to January 1, 1910, and their widows, in indigent circumstances, and who have been bona fide residents of this State since January 1, 1910, and who were married to such soldiers or sailors prior to January 1, 1910, and to indigent and disabled soldiers who under special laws of the State of Texas during the war between the states served in organization for the protection of the frontier against Indian raiders or Mexican marauders and to indigent and disabled soldiers of the militia of the State of Texas who were in active service during the war between the states and to the widows of such soldiers who are in indigent circumstances and who were married to such soldiers prior to January 1, 1910, provided that the word "widow" in the preceding lines of this section shall not apply to women born since the year 1861, and all soldiers and sailors and widows of soldiers and sailors eligible under the above conditions shall be entitled to be placed upon the pension rolls and participate in the distribution of the pension fund of this State under any existing law or laws hereafter passed by the Legislature, and also to grant aid for the establishment and maintenance of a home for said

soldiers and sailors, their wives and widows and women who aided in the Confederacy under such regulations and limitations as may be provided by law, provided the Legislature may provide for husband and wife to remain together in the home. There is hereby levied in addition to all other taxes heretofore permitted by the Constitution of Texas a State ad valorem tax on property of seven (\$07) cents on the \$100.00 valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate herein levied, and provided further that the provisions of this Section shall not be construed so as to prevent the grant of aid in cases of public calamity.

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified voters of this State at an election to be held on the fourth Saturday in July, 1921, at which all voters shall have printed or written on their ballots: "For amendment to Section 51 of Article 3 of the Constitution authorizing the Legislature to grant aid to Confederate soldiers, sailors and their widows who have been a resident of this State since January 1, 1910," and "Against amendment to Section 51 of Article 3 of the Constitution, authorizing the Legislature to grant aid to Confederate soldiers and their widows."

Sec. 3. The Governor is hereby directed to issue the proclamation for said election and have same published as required by the Constitution and laws of this State, and the sum of five thousand (\$5,000.00) dollars or so much thereof as may be necessary is hereby appropriated out of the general funds of this State not otherwise appropriated for expenses of publications and elections thereunder. (A True Copy)

S. L. STAPLES, Secretary of State.

When your breath is bad, appetite poor, and you feel "blue" and discouraged, you need Herbine. One or two doses will set you right. It is a great system purifier. Price 60c. Sold by Jarrett Drug Co.

Senate Joint Resolution No. 1

Proposing an amendment to Section 2, Article 6 of the Constitution of the State of Texas by providing that only native born or naturalized citizens of the United States shall be qualified electors in this State, and permitting either the husband or the wife to pay the poll tax of the other and receive the receipt therefor, and permitting the Legislature to authorize absentee voting.

Be it resolved by the Legislature of the State of Texas:
Section 1. That Section 2 of Article 6 of the Constitution of the State of Texas be so amended as hereafter to read as follows:
Section 2. Every person subject to none of the foregoing disqualifications, who shall have attained the age of twenty-one years and who shall be a citizen of the United States and who shall have resided in this State one year next preceding an election and the last six months within the district or county in which such person offers to vote, shall be deemed a qualified elector; provided, that electors living in any unorganized county may vote at any election precinct in the county to which such county is attached for judicial purposes; and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be made in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive receipt therefor. In like manner the wife may pay the poll tax of her husband and receive the receipt therefor. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the Fourth Saturday in July, 1921, at which all voters favoring said proposed amendment shall write or have printed on their ballots the words: "For the amendment to Section 2 of Article 6 of the Constitution of the State of Texas, providing that only native born or naturalized citizens of the United States shall be qualified electors in this State, and providing that either the husband or wife may pay the poll tax of the other and receive the receipt therefor, and permitting the Legislature to authorize absentee voting." And all those opposed to said amendment shall write or have printed on their ballots, "Against

the amendment to Section 2 of Article 6 of the Constitution of the State of Texas, providing that only native born or naturalized citizens of the United States shall be qualified electors in this State, and providing that either the husband or wife may pay the poll tax of the other and receive the receipt therefor, and permitting the Legislature to authorize absentee voting."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution, and existing laws of the State.

Sec. 4. That the sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated to pay the expense of such publication and election. (A True Copy)

S. L. STAPLES, Secretary of State.

House Joint Resolution No. 30
Relating to the amending of Article 17, Section 58, of the Constitution of the State of Texas; abolishing the Board of Prison Commissioners; providing for the supervision and management of the Prison System, under such laws as may be provided for by the Legislature.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 17, Section 58, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

Section 58. The Legislature shall have full power and authority to provide by law for the management and control of the Prison System of Texas; and to this end shall have power and authority to place the prison system under the supervision, management and control of such officer or officers as the Legislature may from time to time provide for by law.

Sec. 2. The above constitutional amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held on the fourth Saturday in July, 1921, at which election all voters favoring said proposed amendment shall write or have printed on their ballot the words: "For the amendment of Article 17, Section 58, of the Constitution, abolishing the Board of Prison Commissioners." And all those opposing said amendment shall write or have printed on their ballot the words: "Against the Amendment of Article 17, Section 58, of the Constitution, abolishing the Board of Prison Commissioners."

Sec. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and have the same published as required by law.

Sec. 4. The sum of \$5,000.00 or so much thereof as may be necessary is hereby appropriated out of the funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election. (A True Copy)

B. M. Johnson:

- 1 Sewing Machine, good shape.
- 1 Leather Spring Rocker.
- 1 Large Bureau.
- 1 Iron Bed, Springs and Mattress.
- 1 Corner Chair.

Donations Made for Trades Day Sale

C. F. Walker states that three donations have been made to him for next Monday's Trades Day Sale, the proceeds of which will be used to build the sale pavillion and buildings for the county fair.

P. D. Hanna will put a Hereford bull into the sale; Dr. Moody a three-year-old Jack and Cass Jennings 500 pounds of sudan grass seed.

B. M. Johnson will auction the sale next Monday.

At the luncheon Monday it was urged that all merchants put merchandise in the sale, but that every article be something good and usable. Old shelf worn goods should be discouraged. Very little of this class of goods has been offered in the Trades Day sale. It has been found that good, clean goods will bring a good price when placed in the sale.

Wm. Schmitz, B. B. Cluck and Burt Newlin were appointed to canvass the business houses to get goods for the sale.

Left For Austin

J. D. Gamble, Jr., accompanied by Miss Loretta Wiggins, left yesterday for Austin where J. D. will represent this district in the State Interscholastic Laeg meet as junior declaimer.

The many friends of J. D. are proud of the record he has made and wish him luck while at Austin.

Some Feet

"Yes," he bragged, "I once invented a rubber pneumatic suit for men working at great heights."

"And was it successful?" asked an unsuspecting one.

"I should say it was," he replied. "I know the first workman who fell off a building wearing one bounced so hard and long that we had to throw him through the air to keep him alive."

—Los Angeles Times.

\$50 RECORDS FREE

Ridgeway is Giving Fine Dairy Lectures

J. W. Ridgeway, dairy expert with Nissley Creamery Co., is in the county this week giving dairy lectures at the various school houses. Monday night he went to Ralph, Tuesday night the Kennen school and last night at Umbarger.

Tonight he goes to the Park school, Friday night to the Knox school and Saturday night at the Wayside school. C. F. Walker is planning the various meetings for Mr. Ridgeway.

Mr. Ridgeway made a highly interesting talk at the Commercial League luncheon Tuesday and yesterday after-

noon showed pictures at the Olympic of the Holstein and Jersey cows.

A Stranger

A stranger knocked at a man's door and told him of a fortune to be made, says the Atlanta Georgian.

"Um," said the man. "It appears that considerable effort will be involved."

"Oh, yes," said the stranger, "you will pass many sleepless nights and toilsome days."

"Um," said the man, "and who are you?"

"I am called Opportunity."

"Um," said the man, "you call yourself Opportunity, but you look like Hard Work to me."

And he slammed the door.

All hindoes wear whiskers, which are shaved off as a sign of mourning when a near relative dies.

CLEAN AMUSING INSTRUCTIVE OLYMPIC

For Week Ending May 14. Show Starts at 8:00 P. M.

Monday and Tuesday, May 9-10

ADDING MACHINE RIBBONS—At the News office. Also adding machine paper.

WEDDING INVITATIONS—Either engraved or printed. Call News office. tf

Textbooks vs. Films

Lincoln (Neb.) Journal: Some experiments have been conducted in the schools of Evanston, Ill., to test the advantages of the new visual education, as opposed to the old textbook method. Films were used showing every detail of the metamorphosis of the caterpillar to the butterfly. The children were asked to write essays comparing the vividness of these lessons with those taught in the usual way from textbooks. The fact that 170 out of 180 children voted in favor of the screen is not in itself conclusive. The real proof lies in the evidence these essays give that the children were interested in every detail of the process when shown on the screen and eagerly followed every step of the change, but could remember only a portion of the lesson given in the old way in the printed text.

There still remains a sharp division of opinion among educators as to the real value of the easy method of acquiring knowledge. Many hold as the old fashioned physician often argued that medicine to be really valuable must be repulsive; that lessons acquired so easily through the eye do not actually reach the brain; that hard work in the thinking must accompany real education. The clash between the two schools promises to continue for some time, and the believers in the slower process will not be entirely routed by the evidence in Evanston in favor of the film.

It Works Both Ways

"Statistics prove that marriage is a preventative against suicide," said Mrs. Gabb.

"Yes," growled Mr. Gabb. "And statistics also prove that suicide is a preventative against marriage.—Cincinnati Enquirer.

In some parts of the United States natural cement rocks are found which contain nearly the proportions of material to produce Portland cement.

If the electricity now generated annually in the United States could be used in a single gigantic nitrogen lamp it would almost equal the sun itself in brilliancy.
